George IV., when Prince Regent, is said to have bet Sheridan a hundred guineas that he would introduce the words "Baa, Baa, black sheep!" into the King's Speech without arousing comment or surprise. He won his bet, and afterwards, when Sheridan asked Canning whether he did not think it extraordinary that no one should have noticed so strange an interpolation, "Did you not hear His Royal Highness say, 'Baa, baa, black sheep'?" he asked. "Yes," replied Canning, "but as he was looking straight in your direction at the moment I deemed it merely a personal allusion, and thought no more about it."

A LIGHTING DISCOVERY

When the mercury vapor lamp was invented, and it was discovered that the light was lacking in red rays, it was thought by the uninitiated that the light could be improved by the use of red glass about the lamp. This, of course, was impossible, for the reason that red glass acts merely as a filter of the light passing through it, cutting off all rays except the red. As there were no red rays in the mercury vapor lamp, the effect of putting red glass around it was to cut off practically all the light. Recently Dr. Peter Cooper Hewitt, the inventor of the lamp, has devised a means for adding red rays to the light emitted by the lamp. He uses a reflector coated with material, which is of such a character as to transform the wave length of certain rays falling upon it, so that red rays are reflected. The fluorescent material is painted on sheets of card board, which may be removed from the reflector frame when they show any deterioration, and be replaced with fresh sheets.

Why is a miser like a man with short memory?—He is always for getting (forgetting).

A PEOPLE'S BUDGET.

The Lloyd George Budget in Great Britain was called "The People's Budget," because it was intended to benefit the many, and not the privileged few. The reciprocity tariff is a People's Budget for Canada. It is intended to bring into closer touch the toiler who produces the food and the toiler who consumes food. It does not find favor with the privileged classes, for it lessens their power of taking toll from food as it passes from the toiler in the field to the toiler in the factory.

The Lloyd George budget triumphed in England because the people saw it at work. Efforts were made to scare the people, to convince them that it would ruin the country. But the budget went into operation, and its practical benefits were so great that the House of Lords abandoned their opposition, and to-day they are sorry they began the fight.

If the People's Budget of Canada goes into effect, there will be a similar experience. Those who are now predicting ruin, annexation, commercial and industrial chaos, will be silenced. The workers on the farms and the workers in the factories will have enjoyed the benefits of freedom, will not surrender them, and will assert their rights at the polls. The opponents of reciprocity are making a tremendous outcry, because they know that this is their last chance. If they can influence either Ottawa or Washington to prevent the ratification of the agreement, their interests will be safe, and they can continue to pose as defenders of their country. If the measure goes into operation, their predictions will be falsified, and the masses of the people, in Canada and the United States, will make it forever impossible to restore the taxes that hurt the farmer and the consumer by checking the production and distribution of food.

Junior Reporter Wanted.

We have an opening for a bright young man, with good education, to learn newspaper reporting. Apply at Times' Business Office.

A strictly high grade business training school, which annually sends out hundreds of young men and women fully equipped for a successful business career.

The commercial world offers splendid opportunities for all who have received a Remington training.

Individual instruction. Pupils may enter at any time.

Send for copy of our new booklet. A postal card will bring it.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

THE MINES DEVELOPING MACHINE WILL BE INCORPORATED

It is One of the Greatest Inventions of the Age for the Speedy Development of Mines

A device which will, when installed, be the means of placing hundreds of mining properties, now laying idle, on a producing and dividend paying basis. It will develop a mine in months where it now requires years. It will be the means of bringing sure and quick returns on mine investments which are now slow on account of the long time required to either reach the ore bodies or develop them to an extent which admits of productions on a large scale.

IT CAN BE USED IN ALL MINING REGIONS.
IT CAN BE USED IN DRIVING IRRIGATION TUNNELS.
IT CAN BE USED IN DRIVING TRANSPORTATION TUNNELS.
IT CAN BE USED IN DRIVING DRIFTS AND UPRAISES IN MINES AND IT WILL WORK IN ALL KINDS OF FORMATION.
IT DRIVES A COMPLETE TUNNEL, DRIFT OR UPRAISE, AND SHAPES ITS WORK ON A SCIENTIFIC PRINCIPLE.

Contracts have already been signed for the use of enough of these machines to keep a large factory busy building them for many months, and I predict that before 5 years many hundred of them will be in use.

A corporation will be organized within a short time to own and handle the machine, and it will be capitalized for $1,000,000 divided into 1,000,000 shares. One-half of the stock will be placed in the company's treasury.

YOU CAN NOW BUY PRE-ORGANIZATION STOCK AT 25c PER SHARE (either for cash or ten-payment installments) BUT YOU CANNOT BUY IT FOR LESS THAN 50c PER SHARE AFTER THE INCORPORATION TAKES PLACE.

GET IN ON THE GROUND FLOOR IN THIS ENTERPRISE. TAKE ADVANTAGE OF THE PRE-ORGANIZATION OFFER NOW.

Use the coupon in making your subscription, either for cash or installments, and make all remittances payable to

Premier Canalejas' Attitude Defiant

Madrid, March 14.—Premier Canalejas has announced in the Chamber of Deputies that the Government's religious associations bill would be introduced in the Chamber within a month. The Premier declared that he had said previously that the bill would not be introduced until the negotiations with the Vatican regarding the application of the bill had reached a certain stage. But, he added, the Vatican in its last note had refused to resume the negotiations unless the Association Bill itself was submitted to the Vatican for examination and formed the subject of an entente between the two parties.

The Spanish Government, Senor Canalejas said, would not consent to make the exercise of the national sovereignty dependent on the result of pourparlers with the Holy See, and it had replied to the Vatican's note in a manner effectually disposing of the Vatican's pretensions.

In concluding his speech, Premier Canalejas said emphatically:

"Whatever the state of the negotiations, I shall introduce the bill before the month has elapsed."

Mind Tragedies in New York City

GEORGE FIDDER DROWNED HIMSELF BECAUSE HE BELIEVED FIRST WIFE HAUNTED HIM.

Driver Died of Grief Over Railway Wreck—Thomas Callahan Went Insane on Account of Fire.

New York, March 11.—Three "mental tragedies" have lately been recorded in New York, any one of which might have furnished an interesting study for alienists.

Three years ago George Fidder's wife died. On her deathbed she obtained a promise from Fidder that he would never marry again. The widower kept the promise until a few weeks ago, whenagain became a benedict. No sooner was the second ceremony performed than Fidder became obsessed with the thought that the spirit of his wife was haunting him. Her wraith seemed always near him. Fidder soon became a nervous wreck, and he ended his troubles in drowning.

After brooding for eight years over the fact that it was his engine that crashed into a Newark street car, killing nine children, engineer Leon C. Barclift, an old Lackawanna employe, was mercifully relieved of the haunting memory by death. Although it was shown that Barclift was wholly blameless, he was never the same man after he learned the horrors of the accident. He didn't learn of it until weeks after the accident, as he himself suffered injuries that kept him in the hospital for a long time. His wife tried to keep Barclift in ignorance of the details of the wreck, but he ran across an old paper and there read the gruesome story of the mangled children and the heartbroken parents. He began brooding over the affair, and in a few years "wore himself out," bodily and mentally.

The third case was that of Thomas Callahan, who went suddenly insane from thinking that his wife and baby had been burned to death in a fire that damaged his house. The strange part of it was that the wife and baby had been away from home a week, visiting relatives, yet Callahan after leaping to safety, imagined that his loved ones were in the flames and before he could get his mind to working right, it had refused to work at all. He is now confined in an hospital.

SCHOOL REPORTS

Following is the report of S. S. No. 7, Smith, for the month of February:

By percentage—

Sr. IV. Class—Wellington Northey 74, Myrtal Northey 70, Ada Sanderson 62, Wellington Pearson 57, Garnet Northey 36.

OLD FOLKS COUGHS

BECAUSE RESISTING POWER IS WEAK PNEUMONIA OFTEN FOLLOWS.

Tells of a Sure Cure and a Never-Failing Comfort for Colds, Coughs, Catarrh.

One of the worst terrors of old age is that distressing chronic cough. Colds settle on the chest, are wrongly treated with drug-laden and chest-weakening cough syrups, and from year to year the condition has grown worse. Formerly the cough went away when fine weather came, but now bad weather makes it worse and fits of racking, tearing coughing, make life a burden.

Because you are old is no reason for suffering with everlasting coughing—those terrible chest troubles and difficult breathing can be thoroughly cured with Catarrhozone. You simply breathe the healing vapor of Catarrhozone and instantly its rich balsamic fumes are carried by your breath into the tiniest recesses of the nose, throat, chest bronchial tubes and lungs.

Just think of it—a direct breathable medicine, full of soothing antiseptic pine essences that reaches every sore congested membrane in two seconds. No drugs to take—Nothing to harm the aged or in the infant, because Catarrhozone is the purest, safest cough, catarrh and cold remedy ever devised.

Mrs. M. E. Walford, wife of a well-known grocer in East Sheffield, writes: "For three years I suffered with a hard racking cough and bronchial irritation which annoyed me so much at night I couldn't sleep. I tried many remedies, catarrh tablets, sprays, syrups, etc., but they only helped for a short time. Catarrhozone brought me wonderful comfort from the first. I inhaled its balsamic fumes every hour or two and am now free from any trace of cold, bronchitis and catarrh. I can go out in all kinds of weather and don't take cold."

There is no remedy so certain and safe as Catarrhozone, but being a good remedy it is imitated. Beware of the substitutors. Large Catarrhozone last two months, price $1.00; smaller sizes 25c and 50c. All reliable dealers, or the Catarrhozone Co., Kingston, Ont.

The Morning Times
PETERBOROUGH, ONTARIO

WEDNESDAY, MARCH 14, 1911.

St. Paul's Guild.

The young men's guild of St. Paul's church met last night in the guild room of the church.

Killed by Train.

Mr. Robert Snelgrove lost a valuable thoroughbred collie on Sunday, the animal having been run over by a Grand Trunk train.

Police Court Fines.

Two local men were fined $5,75 each for being drunk in a public place. They were given ten days in which to raise the money.

The Crowds Increasing.

The special services in Knox Church are being largely attended. Yesterday afternoon Mr. Woodside addressed a meeting of ladies. Last night the church was again well filled.

Peterborough's Contingent.

The following men will represent our local militia at the coronation: Sergeant Lasalle, No. 1 Company; Col.-Sergt. C. Soucee, No. 3 Company; Sergt. John Brightman, Signalling Corps.

117 Barnado Girls.

A special train arrived on Sunday with 117 girls on board, destined for the Margaret Carr Home for Girls. These girls are now being distributed into good homes throughout the country.

Lost An Eye.

Mr. Leonard Giroux, son of Mr. Geo. H. Giroux, has had the misfortune to lose the eye which was injured a short time ago, and which the oculist vainly tried to save. His many friends will sympathize with him in his affliction.

Rev. Mr. Pogue in Millbrook.

Rev. Mr. Pogue of St. Paul's Church, went down to Millbrook yesterday where he addressed a meeting in the Presbyterian Church of that village on the subject: "Why Do Men Leave the Church?" There was a large attendance. Rev. Mr. Johnston, pastor of the church, occupied the chair.

A Small Boy Lost.

About four o'clock yesterday afternoon, a little shaver about four or five years old, got lost on George street, and cried lustily for his mamma. Mr. J. H. McClellan happened to be the good Samaritan, and took charge of the weeping child, and soon restored it to its parents.

For Grand Lodge.

Messrs. Joseph Batten left last night for Smith's Falls, to attend the annual meeting of the Orange Grand Lodge of Eastern Ontario. To-morrow other delegates will go, consisting of Messrs. J. B. McWilliams, Chas. Wyley, Wm. Nottall, W. Howard Moore, Henry Patterson and E. Reid. The Grand Lodge will probably get through its business by Friday.

Knox Church.

A meeting of the ladies will be held in Knox Church this afternoon at 3 p.m. to which all ladies of the city are invited. The services will continue each night this week, song service commencing at 7.45. A prayer meeting will be held at Mrs. Campbell's, corner of Wolfe and Stewart street, on Thursday afternoon at 3, followed by a tea. All ladies invited. The meetings will be conducted by Rev. Mr. Woodside, and those who have not been present should not miss the opportunity.

Building Fund Campaign.

Rev. Mr. Riddiford, pastor of the Park street Baptist Church, has inaugurated a building fund campaign, in order to raise $500 for church extension. 500 cards have been distributed amongst the members of the congregation, each card having spaces for ten names of contributors, on which the following is printed:—"Special effort to raise $500 for building fund, by Park street Baptist Church. What will you do to help?" The result will be announced the first Sunday in April.

"Wilt's" Services Appreciated.

Mr. Wilt. Metheral, the caretaker of the Armories, is very popular with the members of the local corps who use the building. On Saturday last the Garrison Sergeant's Mess presented him with a handsome pipe as a mark of gratitude for the manner in which he has looked after their quarters. The presentation was made on behalf of the members of the Mess by Sergt. Major Edwards who in a neat speech, expressed the feelings of the Non-Comms. Sergt. Metheral was taken entirely by surprise, but made an appropriate reply.

In Aid of Famine Fund.

A splendid idea has been suggested in order to increase the famine fund. The Peterborough Quartette, composed of Messrs. Asa. Huycke, first tenor, Victor Loftus, second tenor, Wm. Dartnell and R. Pollard, basses, propose to give a series of sacred concerts on Sunday nights after the hour of regular church service in the Royal theatre in aid of the Chinese Famine Fund, of which Mr. John Crane is the local treasurer. The plans have not yet been completed, but the quartette will be assisted by four or five local artists, including possibly an orchestra, and will give a high class programme of sacred music. Mr. Pappas has generously given his theatre free of charge for these concerts and any expenses that may occur will be borne by the members of the quartette, who are to be congratulated upon the splendid spirit they have shown in inaugurating this movement. There will be a silver collection which will be entirely devoted to the Chinese Fund.

SOCIETY EVENTS

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mr. W. H. Robertson is in Toronto to-day on business.

The Times is pleased to be able to state that Mrs. Dickson Hall's condition is improved, and it is now hoped that the crisis has passed.

Mr. F. J. Macdonnell, Div. Supt. of the I.O.S. of Belleville, and wife, are in the city this week, the guests of Mr. and Mrs. F. Sanderson.

Miss Ella Grady has left for Rochester, N.Y., after spending six weeks with her parents in this city, since the death her brother, the late James Grady.

Mr. R. M. Hamilton, manager of the Bank of Montreal, Pembroke Falls, spent Sunday the guest of his mother Mrs. (Hon.) Hamilton, Auburn. He gave The Times a friendly call.

Mrs. W. H. Robertson, returned last night from Kingston, where she was the guest of her daughter, Miss Mattie B. Robertson, at Queen's College Residence.

BLOOD DISEASES CURED

BEFORE TREATMENT

AFTER TREATMENT

He was surprised at how the cause healed—"I took your New Method Treatment for a nervous blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians (taken all kinds of blood medicines, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicine, the symptoms would break out again, such as boils, blotches, rheumatic pains, soreness of the hair, swellings of the joints, aches of the head, sores in the mouth, dyspeptic stomach, etc. My hair started to fall out in bunches when I started to use your New Method Treatment for four months and at the end of that time every symptom had disappeared, and after 2 years cure and no signs of ... My boy, three years ... I am ... family and friends ... with all my heart ... may refer to me personally, but you can use this testimonial as you wish. W. H. S.

We want NERVOUS DEBILITY, VARICOCELE, NERVE, VITAL WEAKNESS, BLOOD, SKIN and SECRET Diseases, URINARY, BLADDER and KIDNEY complaints of Men and Women.

READER—Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been disimpaired? Have you any weakness? Our New Method Treatment will cure you. Consultation free. Office hours 9 a.m. to 1 p.m. Correspondence Free. Whether you call or write, you are under no obligation. Our Charges Reasonable. Books Free—(illustrated) on diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. Everything confidential. Question list and case of Mixture Treatment Free.

25c SPUN GLASS LINING ONLY 19c

TEACH CHILDREN TO DRAW

Making School a Pleasure to the Average Child

The modern idea of education is that it is a process whose object is to "bring out" and "bring up" the best of the qualities and abilities that are lying dormant in the child. This has had a wonderful effect in making school a pleasure to the average child, and in most cases at the present day it could not be said that they go "unwillingly."

The latter-day method is especially shown in the teaching of drawing to young children. Instead of being forced to copy a collection of uninteresting models which do not in the least appeal to their ideas, either of interest or beauty, the attempt is made to draw them along the natural lines of their own abilities and teach them to improve their innate and intuitive powers. It is to be borne in mind that all children draw, but the tendency is apt to be cramped and destroyed by the early attempts to introduce mere technical teaching.

RESENTED QUESTIONS

A Mother Who Thought the Parson Was Too Inquisitive

At the close of a christening ceremony in a certain church the interested parties, as usual, repaired to the vestry.

While the curate was entering the names in the register, one good lady appeared to think that he was asking a number of unnecessary questions.

When her turn came she stepped up to the table with the avowed intention to "stand no hinterference."

"Father's name?" asked the clergyman, without raising his eyes from the register.

"John Smith."

"Calling?"

"No, 'e ain't."

"Excuse me," ejaculated the curate, in mild surprise. "I said his calling."

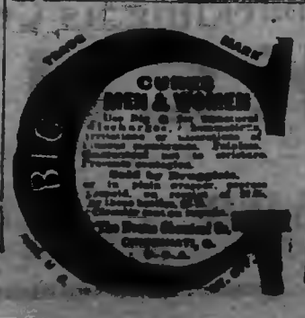
"An' I sez 'e ain't," snapped the old lady. "'E's a 'awber right enough, but 'e ain't callin', cos 'e's deaf an' dumb. Ah' now, mister, mebbe you'll mind your own business, an' I'll mind mine."

And it took half a dozen people as many minutes to convince the lady of her mistake.

A REAL WATER CYCLE

A Newly Devised Form of Locomotion in Germany

German sporting circles are excited over the possibilities of a newly devised form of locomotion for use on water, termed the "hydrocycle." It is of exceedingly simple construction. A couple of parallel, pointed, water-tight tubes of galvanized iron, 10½ feet in length, are attached to each other 3½ feet apart. A light framework supports a seat. Beneath this is a pair of pedals, the motion of which is communicated to propeller blades. A handlebar in front of the seat is connected with a rudder. The traveller using this novel craft, by a pedal action identical with that of the ordinary bicycle, moves easily over the surface of the water, and steers his direction promptly at will. He has an advantage over the rower in facing forward, as does a canoe paddler. The total weight of a one-seated hydrocycle is 66 pounds. The inventor, an Austrian (Herr Fr. Kaspar), attains a speed of six to seven miles per hour. The new craft offers an agreeable variation from ordinary rowing for use on inland waters and along the seashore.



TENDERS.

SEALED TENDERS addressed to the undersigned at Ottawa, and marked on the envelope "Tender for Illuminating Oil and Oil Fuel," will be received up to noon of the

TWENTIETH DAY OF MARCH, 1911.

for supplying and delivering 190,000 Imperial gallons more or less of illuminating oil and 55,000 Imperial gallons more or less of oil fuel made according to specifications prepared by the Department of Marine and Fisheries.

Specifications and forms of tender can be procured from the Collector of Customs at Toronto, Petrolea, Sarnia and from the Agents of this Department at Montreal, Quebec, St. John, Halifax, Picton, Charlottetown, and from the Purchasing and Contract Agent, Marine Department, Ottawa.

Each tender must be accompanied by a deposit cheque equal to five per cent. of the total amount of the tender.

No tender will be considered except for oil strictly in accordance with the specifications and put up in packages as called for in said specifications. The cases and cans containing samples of oil submitted with tenders must also be strictly in accordance with the specifications and will be taken as samples of the packages offered.

The Department reserves the right to accept the whole or any part of the tender.

Papers inserting this advertisement without authority from the Department will not be paid for same.

A. JOHNSTON,
Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries, Ottawa, Canada, 16th February, 1910.

WEDDING BELLS.

NICHOLS—MANN.

A very pretty home wedding took place on Wednesday last at the residence of Mr. and Mrs. Wm. Nichols, Bridgenorth, when their eldest daughter, Miss Lottie Lavina, was united in marriage to Mr. Wm. J. Mann, of Smith, a progressive farmer. The bride was given away by her father. She was charmingly dressed in beautiful cream satin, trimmed with lace. After the ceremony dainty refreshments were served.

The happy couple took the 4.30 train for Toronto and points West. The bride's travelling dress was of coronation blue, with hat to match.

The many useful and costly presents indicate the high esteem in which the bride was held by her many friends. On their return they will take up their residence at the groom's farm adjoining Bridgenorth.

The Rev. S. Cruikshanks performed the ceremony.

A New Organist.

Port Hope Guide: Mr. J. H. Renwick, organist of the Methodist church, has accepted the position of organist of the George street Methodist Church, Peterborough. Mr. Renwick, during his residence here, has done more towards the organization of musical societies than any other man in town, and to him is due all credit for our first-class band. The news of his departure will be learned with regret by his host of friends but all join in wishing him and his estimable wife every success in the southern city.

VOL XXXIV NO. 62 PETERBOROUGH, ONTARIO, WEDNESDAY MARCH 15, 1911 PRICE TWO CENTS

RUSSIA TO GRAB MORE OF CHINA

MILITARY OFFICERS WANT TO SEE AN ADJUSTMENT OF THE FRONTIER LINE.

Japan Has Her Schemes—She Is Ready to Move Troops and Grab for Herself, or Oppose Russia.

St. Petersburg, March 14.—The sole course left open to St. Petersburg in its dealings with China is said to be a srious military action which will not shrink from permanent measures in Ili Province.

Military circles, the opinion of which has great weight with Emperor Nicholas in reaching a final decision, consider the occupation of Northern Manchuria along a line of demarkation from Kwanchengtse to Kirin a possibility. A correction of the frontier of Tarbagatai, in Mongolia, is also held to be a possibility. The military party frankly favors utilizing the crisis to strengthen the Russian garrisons in the Far East, and to correct the frontier strategically at China's expense. This party argues that Russo-Chinese relations are so strained that nothing can be secured from China amicably for many years to come.

The Cabinet, however, is firmly decided to restrict the military action to the barest necessity. This attitude was determined upon at a conference between Premier Tolypin and Finance Minister Kokovseff, who has taken charge of the affair during the illness of Foreign Minister Iswanoff.

DEADLOCKED.

Regina, Sask., March 14.—There is no change in the Saskatchewan Legislature deadlock, both sides refusing to concede the point about the new election lists. It is reported generally in political circles that a Provincial election is shortly to be held, and that Premier Scott will then enter the Dominion Cabinet.

Baby Smothered by Plaster That Fell

Sault Ste. Marie, March 14.—When gas caused a stove to explode in the home of John Teppo early this morning one life was forfeited under remarkable circumstances. Flying pieces of stove tore loose the plaster from the walls, and this fell on a two-year-old child laying asleep in a bed. Before it could be rescued the child had been smothered.

Big Fire in Stock Yards

Montreal, March 14.—The fire in the stock yards here was extinguished only after 150 animals had perished and other property had been wiped out, entailing a total loss of $30,000.

One fireman was injured by a falling roof and another hurt when Chief Tremblay's auto struck an obstruction en route to the fire.

Massed United States Troops to Warn Japan and Mexico

LONDON STANDARD, AN ENGLISH JOURNAL OF HIGH STANDING, LEARNS THAT U.S. FEAR JAPAN WILL BE PERMITTED TO USE MEXICO.

As a Base of Operations—Assurances Are Demanded, Particularly in the Event of Diaz's Death.

London, March 14.—Stating equivocally that the army "manoeuvres" along the Mexican border are in reality designed as a demonstration against Japan, the Standard to-day prints an article from its American correspondent that has caused a sensation in the British Foreign Office, and in diplomatic circles. The Standard editorially stands sponsor for it and despite the fact that the name of the Standard's authority is withheld the story is given general credence here. The article is as follows:

"Mexican intimacy with Japan, which has been increasing to such an extent as to threaten America with the possibility of a disastrous flank attack in the event of a war for the mastery of the Pacific, is the real reason for the massing of the United States army in Texas and the concentration of American warships along the Mexican coast. America's military demonstration is a warning to Mexico, and also a notification to Japan that the United States will not tolerate the establishment of a Mexican Government pro-Japanese in sentiment. The American Government is fully resolved to go to any extreme to bring an end to the danger of the Japanese using Mexico as a base for operations at any future time, against the United States."

A POSSIBLE THEORY.

The London Standard, which believes the movement of the United States troops along the Mexican border is due to the increasing friendliness of Mexico with Japan, which the U.S. fears may be made a base of military operations against her, is a very reliable journal. It would appear that some such theory is necessary to explain recent developments. The massing of American troops was first said to be simply manoeuvres, then a step to force neutrality, and, in addition, a warning to that Mexico must preserve order and fulfill her international obligations. The real reason has probably not yet been officially admitted.

Why Japan should seek war with the U.S. is a conundrum. She is credited with an eager desire to possess the Philippines, and is known to be smarting from the treatment of her citizens in America. If she intends to strike, she must do so before the Panama Canal is completed, permitting the U.S. Atlantic fleet to readily join the Pacific fleet. Many Americans and travelled men have declared that Japan has been for years preparing herself financially and in a military way for the struggle, and some such as Hobson, of Cuban war fame, have predicted war within a year.

Large Mexican Town Cut Off--Threatened with Starvation

El Paso, March 14.—Revolt has broken out in the Mexican Provinces of Coahuila in the north and Morelos in the south. Chihuahua, the finest city in Northern Mexico, with a population of 30,000 people, is cut off from the world by railroad, and is threatened with starvation. Insurrectos led by Captain Alfred G. Creighton, are camped only 15 miles south of Juarez and General Blanco, the Insurrecto leader, is recruiting new troops for another attack on Agua Prieta.

This is the latest news from the Mexican revolution received here today. While a courtier is on his way to General Madero bearing the draft of peace plans drawn up by the local insurrecto juncta, revolutionists have accepted the challenge given by President Diaz's proclaimation of martial law and federal soldiers captured will be immediately executed.

DESTROYING RAILWAYS.

Every railroad in Northern Mexico is being destroyed by insurrectos. Bridges have been blown up and all hope of sending relief to Chihuahua has been abandoned for the present.

Agua Prieta was still holding out this morning, although an attack from General Blanco's army was expected. Company M., third United States cavalry, under Captain Fred Johnston, which is patrolling the border at this point, received orders to maintain a strict patrol to prevent the flight of stragglers across the line in the event of another battle.

The summary execution of prisoners has been commenced by the federals. The first report of immediate execution upon capture was brought here by an unarmed Mexican who declared that the federals had shot two captives and compelled a third to dig three graves, one of which was to be occupied by himself after he had executed his task. He managed to escape, however.

The worst damage to property in Northern Mexico is being done by a Captain Creighton. Creighton, who is an American, hails from New England. His mother resides in Danvers Mass. He has burned thirty railway bridges and trestles in the past 24 hours.

Local Firemen Get Better Jobs Out West

This story of the local fire hall starts from about two months ago, when a party of Westerners came to Peterborough, buying horses. Incidentally a few of these visitors were Aldermen of Regina and Port Arthur. Whilst here, the men from the West visited the fire hall. As a direct result, two of the staff of the brigade were hired at larger wages than paid here, one goes to Port Arthur and one to Calgary to-morrow. A further result of the Westerners' appreciation of the work and discipline inaugurated by Chief Howard is now demonstrated by a letter to him on Monday, to the Chief, offering Captain Samuel Thomas a position on the Regina Brigade at practically double the money he earned in Peterborough. This shows that outsiders have a good opinion of some of Peterborough's fire fighters, and is incidentally a big compliment to the training of Chief Howard. Captain Thomas receives on the local brigade $41.66 a month, whilst in his new position he starts in at $85.00 a month. This possibly shows the wisdom of the City Fathers in raising the wages of the local fire fighters, a raise fought for for some time by Chief Howard. Of course the purchasing power of the dollar is greater here than in the West, but not doubly so.

Wants an Imperial Council of Defence

Melbourne, March 14.—At the Imperial conference in London, Sir Joseph Ward, Premier of New Zealand, will raise the question of an Imperial Council of Defence.

CAN'T DEFEND HERSELF.

Melbourne, Australia, March 14.—Admiral Henderson, who at the request of the Commonwealth was sent by the British Admiralty to inquire into the conditions of the naval defences of the country, has made a report to the Cabinet. Admiral Henderson made some remarkable statements. He maintains that Australia cannot afford to keep up a navy commensurate with the length of her coast line, consequently the Commonwealth must co-operate with the British authorities on a population basis.

The Board of Health will Draft Clauses for a Garbage By-Law

THE MEDICAL OFFICER IS TO TEST ALL THE MILK.

Proceedings and Conditions Necessary for Admittance of Patients to Isolation Hospital.

The Board of Health met yesterday morning and took up the question of testing milk, and the need of a garbage by-law.

There were present Mayor Morrow, chairman Dr. McNulty, and Robert Neill, Drs. McPherson and Young, and Chief of Police Thompson.

A number of accounts were ordered to be paid.

THE GARBAGE BY-LAW.

Medical Health Officer Dr. McPherson, presented the following report on this question:

Gentlemen,—At the last meeting of the Board of Health you requested me to report on the garbage and milk question with a view of making a recommendation to the Council.

With regard to the former, I may say, that I wrote several cities and received a copy of a by-law from Guelph, St. Catharines and Brantford. These are presented with my report.

The main points are these:—A portion of the city should be marked off in which the garbage should be collected.

An estimate of the number of premises should be made and these classified into private houses, stores, fruit stores, hotels, etc. The amount of money required to finance the undertaking should then be estimated and the levy made in proportion to the benefit desired, i.e., the amount, will vary according to the classes formed. This amount will be collected with the taxes in the usual way. Further details can be worked out by the committee appointed for the purpose.

The supply of pure milk of a proper quality is of more importance to the health of the citizens than the removal of garbage. To obtain this it requires the rousing of the people to see the danger of a contaminated milk to recognize the case with which infectious diseases may be spread and to realize the danger that results from milk coming from unhealthy cans or from milk that has not been properly cared for from the time it is taken from the cans until it is delivered to the consumer. The customers, the retailers and the supply men must be educated. I would suggest that a by law be recommended along the lines adopted in other cities like Ottawa, Brantford, Guelph and many others. All the dairymen and vendors should be compelled to take out a license. Before the license is granted conditions should be subscribed by them. These conditions should refer to the cleanliness of the cans, premises, and the inspecting at the premises by the local health authorities.

I have brought with me a report of the milk commission and shall read to you the recommendation of this body.

Respectfully yours,
A. W. McPHERSON, M.H.O.

Dr. McPherson also read several copies of garbage by-laws that are in force in other cities.

Mayor Morrow suggested that the medical health officer and the chairman of the Board be a committee to go over these by-laws, and draft out a number of those which might be used to advantage locally, and after consulting with the city solicitor, submit the list to the Council and allow them to settle the matter.

The Board decided that regular tests of milk be made by the medical health officer in the cities laboratory.

For some time the milk has been sent to Toronto. Dr. McPherson told of some experiments, which have been held in different centres where points were given to the milk dealer, who paid the most attention to sanitation in his stables, so many points for each division of the dairy duties.

Chief Thompson referred to the condition of milk after it had been carried around in often unclean vehicles, and was strongly of the opinion that milk should be delivered in bottles, as is done in many cities.

Chief Thompson said he would endeavor to see that the duties of looking after city sanitation, which comes under the police department this year, are performed as thoroughly as possible.

In case of infectious diseases, any medical doctor may, on his own diagnosis send a case to the Isolation Hospital.

R. Neill thought that if the patients can not pay, then the town should lend assistance.

No doctor or official can use compulsion in sending patients to the hospital, unless they are of such a condition and in a place as to be a menace to the community. Dr. McNulty said that if the case was a danger to other members of the family they should be removed to the hospital, whether they can pay or not. He thought that someone should be appointed to investigate and find out whether the patient is able to pay for his expense while in the hospital.

The Board decided that the Medical Health Officer assume all responsibility as to whether it is advisable for a patient to be sent to the Isolation Hospital or not.

DOMESTICS IN DEMAND.

West Has Room for Several Thousand.

Winnipeg, March 15.—All of this is warranted by the astonishing growth of the West, made more apparent each season. The incoming tide of immigration lays heavy stress on this point this spring. Bookings have been made in thousands from the first of the year and every boat and every train that comes from the Old Country is crowded with people who have broken their home ties to make new anchorages for themselves in Western Canada. There is a great dearth of women and girls for domestic situations and special efforts are being made to secure this kind of help. To this end, the Canadian Northern immigration department has lines out for 4,000 girls and women in the British Isles who will be especially fitted for domestic situations.

PROLIFIC OIL FIELDS.

Winnipeg, March 7.—Development of the oil fields north and west of Edmonton continues. The latest locations were made about forty miles north of Athabasca Landing, where forty claims were surveyed. All of the Peace River country is known to be a promising field for oil operators, and whatever the value of the claims thus far located, there is no doubt that the district will yield heavily of oil and other minerals when it is thoroughly explored and developed.

HALL'S BRIDGE.

Weather soft and roads very bad

A very sad accident, which has cast gloom over this community happened on Monday to Ross Allen, at his father's saw mill. The unfortunate young man was taken as quickly as possible to Nicholls' Hospital, where he is doing as well as could be expected. Death called on Wednesday and took from our midst Mr. H. H. Hall at the early age of 67. The remains were interred in Lakefield cemetery on Friday. Two sons and two daughters survive. They are Mrs. Eldrich of Bobcaygeon, Mrs. Hunt of Lakehurst, and Messrs. Dr. us and Charlie of this place. The sympathy of the entire community is with the bereaved.

Owing to Mr. John Chesney's ill-health, he was taken to Peterboro on Wednesday by Messrs. W. Chesney and T. Eastwood.

Messrs. Chas. Jones and Osborne Montgomery have returned home from Nairn Centre, where they have been spending the winter months.

Miss Rose Blewett is spending a few days in Peterboro.

Mrs. Herkimore has returned home from visiting friends in Hamilton.

Miss Ivey spent last week in Campbellford and points east.

Mr. John Jones and Miss Ruby were unexpectedly called to Lindsay on Monday, owing to the illness of Mr. Jones' brother.

Mr. John Freeman narrowly escaped misfortune on Wednesday, with a rolling log, which did slight damage to him.

Mr. and Mrs. Pete Nichols were the guests of Mr. Steve Nichols, Friday

THE WEATHER.

Wednesday—Fine and a little colder

"There's a Reason"

ADVERTISE IN THE TIMES.

ROYAL
BAKING
POWDER
Absolutely Pure
The official Government tests show Royal Baking Powder to be an absolutely pure and healthful grape cream of tartar baking powder, and care should be taken to prevent the substitution of any other brand in its place.
With no other agent can biscuit, cake and hot-breads be made so pure, healthful and delicious.
Royal Baking Powder costs only a fair price per pound, and is cheaper and better at its price than any other baking powder in the world. It makes pure, clean, healthful food.
Royal Cook Book—800 Receipts—Free. Send Name and Address.
ROYAL BAKING POWDER CO., NEW YORK.

FOUR JURORS ARE STILL NEEDED

THE JUDGE IMPOSES HEAVY FINES ON THOSE WHO LEFT THE CITY IN FEAR.

At the Camorrists' Trial—The Taking of Evidence May Commence To-morrow—Their Work in Chicago.

Viterbo, Italy, March 14.—Cavaliere Bianchi, president of the court, to-day set about the task of getting a jury to try the thirty-six members of the Neapolitan Camorra by invoking methods that promised results despite the terror that has filled the hearts of the citizens at the possibility of being obliged to condemn those whose deaths would be pretty sure to be avenged unless the whole dangerous element of the society was wiped out.

When court opened to-day the president at once imposed heavy fines upon those known to have left town to escape jury duty and threatened that he would have others who had made excuses for not appearing when summoned brought to the court by carabineers.

FOUR STILL WANTED.

Nevertheless, progress was made, and early in the afternoon all but four of the necessary jurors had been secured. At this point the resources of the court failed and an adjournment until to-morrow was taken.

AT WORK IN CHICAGO.

Chicago, March 14.—Pasquale Marcadnano, once a resident of Palermo, Sicily, quarreled with members of the Camorra before leaving there four years ago, the police say. To escape the vengeance of assassins, Pasquale came to America. Last night he was shot by an unknown person while entering his house in West Taylor street. He died early to-day.

NEARLY A THOUSAND ANIMALS ROASTED.

Fort Worth, Tex., March 14.—Nearly two acres of stock sheds burned here to-day, and roasting to death between 500 and 1000 head of horses, sheep, and hogs, and seriously burning four men.

The value of the dead animals is estimated at about $250,000, and the property loss, $50,000.

NEGRO HOLDS UP WASHINGTON HOTEL

And Gets Away With the Days Receipts Amounting to Two Hundred Dollars.

Washington, March 14.—A negro armed with a pistol walked into the Grand Hotel here at 3 o'clock this morning and held up the cashier and clerk. He obtained all the day's receipts, about $200, and backing out, with his gun covering the employees, made his escape. The Grand Hotel is directly opposite the United States treasury, on Pennsylvania avenue, in the heart of the city.

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Sold by all dealers.

Woman Perished, Husband was Saved

CHILD ILL WITH MEASLES RAN THROUGH STREET TO SUMMON FATHER HOME.

Gasoline Poured in Stove—Instead of Coal Oil—Four Little Children Are Left Motherless.

Toronto, March 14.—Because she mistook a gasoline can for a coal oil can, Mrs. H. N. McArthur was burned to death in her home at 122 Kenilworth avenue, last night.

Her husband, Mr. H. N. McArthur, had returned to his hardware store at the corner of Kenilworth avenue and Queen street, after eating his evening meal with his family. The oldest child, a boy nine years of age, was upstairs ill with the measles. Three other children, a boy of seven, a girl of three, and a baby of three months, were playing about the house.

TO MAKE FIRE BURN.

Shortly before seven o'clock Mrs. McArthur gathered up the crumbs remaining on the table and threw them into the kitchen stove. As they did not burn readily and threatened to put the fire out, she picked up a can, which she thought contained coal oil, and threw some of the contents on the flames. Instantly there was a terrific explosion. The bottom of the can was blown out, the house was filled with smoke and fumes, and in an instant Mrs. McArthur's clothes were in flames. She staggered out of the kitchen into the dining room, where she collapsed into a chair.

In the meantime the boy who was ill with the measles upstairs got down and ran in his night dress to his father's store. The father picked the child up and rushed back into the house. When he entered the front door the house was filled with smoke and for a moment he could not locate his wife. Then he saw her in the chair, literally burning before his eyes. He siezed a heavy coat and wrapped it round her, at the same time beating out the stray flames with his hands.

When given as soon as the croupy cough and prevent all danger and Remedy will ward off an attack of croup and prevent all danger and cause of anxiety. Thousands of mothers use it successfully. Sold by all dealers.

Evening 10c to everyone.

PECULIAR BANK CASE AT LINDSAY

NESTLETON MAN DREW OUT $2,890 IN MARKED CHECK, DAY BEFORE FARMERS' BANK CRASH.

Deposited the Amount—Standard Bank Says It Got No Value, and Judgment Is Reserved.

Lindsay, March 14.—A very interesting case between Wm. J. S. Johns of Nestleton, and the Standard Bank arriving out of the Farmers' Bank suspension, was the first case on the docket at the Spring Assizes, which opened here yesterday before Justice Clute. The facts in the case given in evidence are as follows:

On December 16, Johns becoming frightened at the turn Farmers' Bank affairs were taking, withdrew his money, amounting to $2,890.06, from that bank by marked check and deposited it in the Standard Bank, receiving a bank book crediting him with that amount. On the 17th the Standard Bank drew a settlement on the Farmers' Bank at Toronto for this and some other small amounts, which were refused, as the bank had suspended.

The Standard Bank then secured a release for this amount from Johns, which the plaintiff contended was secured by false pretence. The defence withdrew the release from the case, and contended that as they had received no value they should not be made to suffer the loss. Both counsels quoted numerous former banking cases, but judgment was reserved.

Seven Years For Father.

Oakville, Ont., March 10.—John Cowie, the Trafalgar Township farmer, who was arrested on a complaint of his 15-year-old daughter, yesterday pleaded guilty in the magistrate's court, and was sentenced to seven years with hard labor.

Prepare for Lumbago.

If You Have "Nerviline" Handy On Rubbing Will Cure the Pain.

THOUSANDS USE "NERVILINE."

The "strike" of lumbago is like a bolt of lightning—you never know when it is coming or where it is going to strike. Probably the one certain thing about lumbago is the fact that it can be cured by Nerviline—the only liniment that penetrates deeply enough to reach the congested chords and muscles.

LETTER NO. 4975.

"Years ago I strained my back and suffered considerably with weak-ness over the spine," writes Darius P. Millan, a well-known farmer residing near Kingsville. "Then lumbago attacked the weak spot, and for days at a time I would have to lie up in bed, unable to move or turn. Liniments, poultices and hot applications failed to bring the desired relief, and I was in despair of ever getting really well again. I at last decided to test Nerviline. I got five bottles from the drug store and had it rubbed on three times a day. The stiffness and pain left my back quickly, and by continuing Nerviline I was completely cured of Lumbago."

This is similar testimony to that of nearly five thousand Canadians who have written unstinted words of praise to the manufacturers of Nerviline. For the cure of lumbago, sciatica, neuralgia and rheumatism there is no liniment with one-fifth the pain relieving power of Nerviline.

Refuse any substitute. Large 25c bottles of Nerviline, or five for $1.00 at all dealers, or The Catarrhozone Co., Kingston, Ont.

THE MORNING TIMES

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

WEDNESDAY, MARCH 15, 1911.

MORMON ACTIVITY.

Many people imagine because they do not hear much about Mormonism that its adherents are passive, but this is a very great mistake, says the Ottawa Journal. At the present moment it may be pretty safely said that they are endeavoring to spread their so-called religion in nearly every quarter of the globe.

Only two or three weeks ago there appeared an account of the work they are doing in Great Britain, and of the vehement protest against it particularly by the citizens of Liverpool. Regular head quarters have been established in many cities; from these are sent out circulars containing glowing accounts of the Mormon religion, and these are followed up by personal visits. It is said that many silly women have been ensnared in consequence. Now we observe the same procedure is going on at Montreal; how long will it be before Kingston is attacked? We know what we would do if we caught—but perhaps it is wiser not to finish this sentence.

We do not wish to enter into any controversy regarding this religion which is founded on certain plates which Joseph Smith claimed an angel gave him, and which enabled him to produce the Book of Mormon. Smith says he gave them back to the angel; which statement most people prefer to take cum grano salis—from Salt Lake. It is sufficient for us that the religion has been examined into repeatedly since it was started in 1823, and that it has been unhesitatingly condemned on all sides. The Americans are the best judges of the matter and this was said of the proposal of the State of Utah to place a silver service on the battleship Utah: "The Mormon Church has no place on the silver of a battleship, and a picture so placed is an insult to the Christian people of the world. Such a service used for entertainment in a foreign country will give a false impression and be an unbearable disgrace, as it will represent an institution abhorrent to the American people, and an organization that has been false and faithless in its dealings with the people of the United States."

EDITORIAL NOTES.

A high official in Rome committed suicide because his daughters insisted on wearing harem skirts. The cable does not tell us whether they wore their harem skirts to the funeral.

The meanest man has been found in Texas. He was arrested for stealing milk from an orphan asylum.

TWO EDWARDS, A COMPARISON

The Prince of Wales Compared to His Grandfather, the Late King Edward, When the Latter Was a Prince

In appearance the Prince of Wales bears a distinct likeness to the late King when his Majesty was his age, though his Royal Highness is rather fairer and of slighter build than was King Edward when a boy and the Prince's features are sharper; but the heir to the Throne has unquestionably inherited his grandfather's expressive eyes. This fact is especially noticeable when the Prince is amused; then his eyes become laughter-lit and the blue deepens, and his whole expression very much recalls that of the Prince of Wales of fifty-three years ago, says a writer in M. A. P.

The upbringing and education of the future monarch is being conducted on different lines from those followed in the early training of the late King. King Edward, I believe, was always of the opinion that he himself was brought up over strictly.

Severe Discipline

Between the ages of ten and eighteen his late Majesty was allowed little personal liberty, and had to strictly conform to a severe code of discipline, under which Queen Victoria and the Prince Consort thought it wise to place him, but which the young Prince found irritating, and which certainly seemed to him sometimes unnecessarily severe.

The present heir to the Throne has been, and is being, allowed to exercise his own judgment in many matters which the late King had decided for him by his tutors or parents.

For example, when the late King was a boy, all his intimate friends were chosen for him, and the companionship of one or two were not specially welcome to the young Prince.

But the friends of the present Prince of Wales are entirely of his own choosing. Nothing has been done to force the companionship of anyone on him whom he did not personally desire to have as an intimate friend, yet in Lord Wendover and Mr. Edward Knollys, the Prince has two friends whom their Majesties would certainly have selected themselves to be his associates.

A Studious Prince

The heir to the Throne, however, is of a more reserved disposition than was his grandfather as a boy. The late King certainly desired to have a larger circle of friends than does the present Prince of Wales, and, no doubt, this made the choice of associates for the then eldest son of the Sovereign rather a difficult matter.

The present Prince of Wales is, undoubtedly, more studious than was his grandsire when a boy; but, I believe, that is because his Royal Highness has never been forced to study as was the late King, upon whom great pressure was put by his tutors in his early days.

As a matter of fact, though the Prince of Wales could read and write at five years old, no pressure at all was put on him to acquire any knowledge from books until he was six years old, and even then his studies were never made unduly severe.

It may be noticed that the Prince was confirmed a year earlier than was King Edward, but his Royal Highness has not, perhaps, attended so many functions, or been as much before the public as King Edward had when his late Majesty reached his sixteenth birthday.

The love of his home is, indeed, playing a very important part in the formation of the character of the heir to the British Throne, and his great affection for his only sister has been a potent influence for good in his young life. Fond as King Edward was of his sisters, he never, as a boy, made a companion of any of the Princesses as the Prince of Wales has of the Princess Mary, who has joined him in countless sporting expeditions with gun and rod; and these home influences in the Prince's life have tended to strengthen, not to weaken, his manliness of character.

EARL OF LEITRIM

His Offers Every Encouragement to His Tenants

The Earl of Leitrim has always taken a deep personal interest in the management and improvement of his estate in Donegal, which covers 53,000 acres. He offers every encouragement to his tenants to avail themselves of the Land Purchase Acts, and to become owners of the land they till. Lord Leitrim, who is one of the largest landowners in the North of Ireland, is great-nephew to the third Earl, whose murder on his own estate caused so profound a sensation about thirty years ago. He succeeded to the title when a boy of thirteen. The Earl fought in South Africa with the Irish Yeomanry, and celebrated his majority in the Boer prison at Nooitgedacht.

THE CHILDREN AT THE GATE

Why that the world is bitter-sweet,
And its fortunes come too late;
But twilight falls with the pattering feet
Of the children at the gate.
And I know whatever my toil may be,
Their arms in the evening will necklace me!

I say that the world has stormy skies
And faintly the sad stars shine;
But night brings stars when the children's eyes
Look tenderly into mine.
And I know, whatever my toil may be
These eyes are welcoming lights to me!

—Frank L. Stanton.

A VERY GOOD PRINCIPLE, TOO

My cardinal principle has been to avoid trouble.—Mr. Roosevelt.

Captured Slave Girls

San Francisco Police Raid Chinatown and Discover Six Chinese Girls.

San Francisco, March 13.—A spectacular raid in Chinatown last night resulted in the capture of six Chinese slave girls, said to have been illegally imported and purchased for the sum of $25,000. The girls were removed to the Angel Island Immigration station, and will be held to await the action of the Government.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

NEW WORK FOR THE PHYSICIAN.

At a meeting of the association of medical colleges across the border, the speakers agreed that "their profession was "overcrowded"—the unfit and the quacks swamping the competent—but differed as to the remedies. Some advocated higher and stricter entrance requirements, and others free medical education.

Of course, free education would destroy the diploma mills operated for private profit in Uncle Sam's domain but would it not also tempt hundreds, if not thousands, of additional students to enter medicine? High requirements are desirable in the interest of the public health, but to make them too high is to make a monopoly of medicine—which public sentiment would scarcely sanction. However, the trend has been in the right direction.

As regards the undue congestion in the profession, it is true that there are too many doctors from the old-fashioned point of view, not only in the United States, but also in Canada, b

ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise ocearning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amoont necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr, Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

GUELPH STATION OLD LANDMARK

Interesting History of the Old Log House Now Used by the Canadian Pacific Railway

One of the most picturesque landmarks of Ontario is the beautiful old manor house now used, in all its rustic dress, by the Canadian Pacific Railway at Guelph. It was built upwards of a hundred years ago by the late Mr. John Galt when Commissioner of the Canada Company, one of the pioneer land companies of this country. This famous old structure is soon to be abandoned, it appears, for more modern and commodious quarters, but steps are being taken to preserve the present historic spot as an interesting link between the past and the present. It is one of the oldest houses in this part of Canada, still has the old 7 x 9 windows, its log arches, and other adornments, of the early nineteenth century. Mr. Galt, who left more than one of these footprints on the sands of Time was father of Sir Thomas Galt, late Chief Justice of Common Pleas, and also of Sir A. T. Galt, one time Finance Minister of Canada. The late Mr. Galt was the happy possessor of much Scotch humor, and left a legacy of writings of much merit, notably, "The Annals of the Parish."

Mr. Galt, in his autobiography, gives a graphic story of his joys and sorrows in the prosecution of his arduous duties of Commissioner. Arriving in Upper Canada in 1827 he began his work of colonization, and obtaining information respecting the country, having received permission to attempt a settlement he directed an inspection of a block or tract of upwards of fifty thousand acres of the Company's purchase for the purpose of finding within it an eligible situation for a town. All reports agreed in recommending the spot where Guelph now stands. As it was too early in the year to undertake field operations, he decided to wait a few weeks, and gave orders that operations should commence on St. George's Day, April 23rd, 1827, and appointed a national holiday for the ceremony. "In the meantime," writes Mr. Galt, "as I imagined it would not be difficult to persuade the directors to erect a central office for the Company there, and as a tavern and hotel were indispensable, I set about procuring plans." Mr. Galt was the architect, and, as he believed "the style of a building should always indicate and be appropriate to its purpose," on every corner of the building he placed rows of glasses, bottles, punch-bowls and wine decanters. "Such an exhibition," he says, "as did not require a man to be a god to tell it was an inn." On April 22nd he went to Galt, "a town named after me long before the Canada Company was imagined." The next morning, in company with Dr. Dunlop, whom he met at Hon. Wm. Dixon's, they walked towards the site (Guelph), some eighteen miles away, half of which was through forest. They lost their way and wandered alone like "babes in the woods," until they discovered a hut inhabited by a Dutch shoemaker, who directed them to the outskirts of the forest. Next they came to the cabin of a squatter, who informed them that all the men had gone forward. About sunset, dripping wet, they arrived near the spot they were in quest of, and found the men, under Mr. Prior, whom he had employed, kindling a roaring fire. After drying out, Mr. Galt proposed that they go to the spot chosen for the town. "By this time," writes Mr. Galt, "the sun was set, and Dr. Dunlop, with his characteristic drollery, having doffed his wet garb and dressed himself, Indian fashion, in blankets, we proceeded, with Mr. Prior, attended by two woodmen with their axes.

"It was consistent with my plan to invest our ceremony with a little mystery, the better to make it remembered. So, intimating that the main body of the men were not to come, we walked to the brow of the neighboring rising ground, and Mr. Prior having shown the site selected for the town, a large maple tree was chosen, on which, taking an axe from one of the woodmen, I struck the first stroke. To me, at least, the moment was impressive, and the silence of the woods, that echoed to the sound, was as the sigh of the solemn genius of the wilderness departing forever.

"I do not suppose that the sublimity of the occasion was unfelt by the others, for I noticed that after the tree fell there was a funereal pause as when the coffin is lowered into the grave. It was, however, of short duration, for the doctor pulled a flask of whiskey from his bosom, and we drank prosperity to the City of Guelph."

The first emigrants were from La Guayra in South America, 57 in number, and on August 12th, the King's birthday, Mr. Galt invited a number of friends and gave a public dinner in the market house to the inhabitants. Subsequently Mr. Galt removed his family to Guelph, being induced to repair, for a residence, the receiving house which Mr. Prior had erected for settlers, as it was much better than such sort of buildings usually are. He had hoped that ultimately the house would make a good residence for Mr. Weld, of Lulworth Castle, latterly Cardinal Weld, whom he desired to allure to Guelph. Here is Mr. Galt's description of the residence which, as stated before, is now used as a C.P.R station:

"Having in some sort a kind of taste in architecture, it seemed to me that the house could be made into a comfortable ecclesiastical abode, and, accordingly, although it was only ten feet high in the ceiling, I employed my best skill in laying it out. The reader will please to recollect that it was but a cottage of one story and formed of trunks of trees. As I have said, however, before, it was of its kind very beautifully constructed by Mr. Prior, Extempally. I only added a rustic portico to it of trees with the bark, but illustrative of the origin of the Ionic order. It did not cost five pounds. The interior was planned for effect, and on entering was imposing, but the hall and two principal rooms were only twenty feet some inches square."

SEATS OF SOVEREIGNS

The Coronation Chair at Westminster is the Most Interesting

We often hear people talk about "the King upon his throne," but does it ever occur to us to ask, "Which throne?" There are five in London alone; so this question is not so unnecessary as might at first appear.

The most magnificent throne of the British Sovereigns is that at Windsor Castle. This throne was presented to Queen Victoria by an Indian maharajah, and is of carved ivory inlaid with various costly jewels.

The throne from which the King opens prorogues, and dissolves Parliament, is made of teak, and has a gilded canopy. It occupies a raised position in the House of Lords.

There are three thrones in the London palaces, that in Buckingham Palace being especially remarkable for the sumptuous dais on which it stands.

But of all, the throne, or coronation chair, in Westminster Abbey, is by far the most interesting. It is solidly put together, and is made of oak. Placed under the seat is the famous Coronation Stone of Scone, at which town generations upon generations of Scottish kings were crowned before the union of Scotland and England on the accession of James I. This is a large slab of sandstone and, according to the old Scottish legend it is the identical stone upon which Jacob laid his head when he dreamed of the angels and the ladder to heaven at Bethel, and which he afterwards anointed with oil.

In striking contrast to the costly throne of Windsor Castle is the throne of the Dutch kings at the Hague. It is a comparatively simple piece of furniture—a kind of glorified arm-chair with drapery. The throne in Amsterdam is more majestic. Over the seat is a crown, supported by ornamental lions studded with jewels. The canopy of this throne is exceptionally fine.

The Czar of Russia and the Sultan of Turkey each have a large number of thrones. But it is doubtful if there are any in the whole world one superior to the silver throne of the German Emperor in Berlin. This magnificent piece of workmanship has an enormous shield, also of silver, over the seat, and the canopy is profusely decorated with eagles and crowns.

BABY PRISONERS

Infant of Eighteen Months Charged as a Wanderer

A baby of eighteen months, Frank Warwick, was charged in London, England, under the Children's Act, with wandering, and was carried into court by the matron. The magistrate remarked that it seemed ridiculous to charge one so young, but the police inspector replied that he had had to charge babies under twelve months old. A further remand was ordered.

When taken into court on a previous occasion young Frank caught sight of his mother, who is charged with exposing her children in a manner likely to cause them injury, and there was no further peace until he was allowed to cling round her neck.

The magistrate thought it absurd to charge children of that age, and ordered them to be sent to the workhouse.

There was another scene when an attempt was made to separate little Frank from his mother. Both mother and child had to be taken out together and when the actual separation took place the little boy's sobs could be heard throughout the court.

THE LEANING TOWER

The Famous Structure is in Danger of Collapsing

Unless remedial measures are taken, it is possible that the famous leaning tower of Pisa may ultimately collapse as did the Campanile at Venice a few years ago. Measurements taken by an English engineer in 1839 showed the tower to be 15½ feet out of the perpendicular. Measurements taken recently show that the divergence has increased to 16½ feet. It should be within the resources of modern engineering to excavate below the tower, bring it gradually back to the vertical, and place beneath it an absolutely secure foundation.

Are You Going West This Spring?

If so, there are abundant opportunities to do so, via Grand Trunk Railway System to Chicago and thence connecting lines. Low rates every day to Manitoba, Saskatchewan and Alberta. Exceedingly low rates each Tuesday, March 14th to April 25th inclusive, to principal points in Saskatchewan and Alberta, including points on Grand Trunk Pacific Railway. Reduced rates for one-way tickets, March 10th to April 10th inclusive to Vancouver, B. C., Spokane, Wash., Seattle, Wash., Portland, Ore., San Francisco, Cal., Los Angeles, Cal., Mexico City, etc. Before deciding on your trip, consult any Grand Trunk Agent, or address A. E. Duff, District Passenger Agent, Toronto, Ont. M1t15

Balsamic Essences

Make Wonderful Cure for Catarrh, Colds, Bronchitis, Throat Weakness.

To cure an ailment in the throat or chest, to rout out catarrh or Asthma, it is essential that the medicine be conveyed directly to the affected parts. This is why no other remedy has achieved such world-wide success as Catarrhozone, which alone can be breathed in one second to every air cell in the breathing organs. The Healing vapors of Catarrhozone mix with the breath and descend through the throat, down the bronchial tubes, to the deepest air cells in the lungs —all parts are saturated with the rich, piney essences that ease, heal and cure.

Catarrhozone has entirely displaced the old-fashioned remedies, such as cough syrups, sprays, tablets, and sedative powders. It contains none of the opium, chloral and drowsy narcotics, so commonly found in liquid cough and catarrh remedies.

The extraordinary curative power of Catarrhozone is well explained in a letter from A. B. Cowan, the well known restauranter of Carleton, who writes: "Some time ago I suffered severely from a frightful cold in the head and chest. It was nothing but one continual cough, hawk, headache from morning till night. My nose and throat were so completely stuffed up that I could scarcely breathe. Catarrhozone eased the cough instantly, that would not yield even to the doctor's medicines. Hour by hour Catarrhozone relieved and by pursuing its treatment I have been permanently cured of all trace of Asthma, Catarrh and Bronchial Irritation."

Once you try Catarrhozone you'll realize how indispensible it is—the large dollar size contains an indestructible hard rubber inhaler and sufficient medication to last two months. Smaller trial sizes 25c and 50c. Beware of the substitutor and imitators of Catarrhozone—use the genuine and you'll get cured. By mail from the Catarrhozone Company, Kingston, Ont.

The Morning Times

PETERBOROUGH, ONTARIO

WEDNESDAY, MARCH 14, 1911.

Shipment of Horses.

R. H. Leary has purchased a car load of heavy horses in Toronto for shipment to the Crow's Nest Pass.

Funeral of the Late John Stodhart This Afternoon.

The funeral of the late John Stodhard will take place this afternoon, at one-thirty from the deceased late residence, Water street north, to Little Lake cemetery. Rev. R. Pogue will conduct services at the house at one o'clock.

Central School Re-Opens To-day.

The Central school will re-open to-day. It has been thoroughly fumigated and the Board of Health considers the building to be safe from all danger. But very few public school children have been affected with scarlet fever, the disease being confined chiefly to infants and adults.

Must Not Carry Gun.

The carrying and sale of fire-arms, air guns, knuckle dusters, sand bags, and other dangerous weapons is to be prohibited in Ontario, Hon. J. J. Foy, Attorney-General, introduced a bill to that effect in the Legislature yesterday. Exception is made for certain cases, such as the militia and persons to whom permits have been granted by police magistrates.

Tax Too High Says Hotelmen.

Representatives of hotelmen of all parts of the Province interviewed the Hon. W. J. Hanna for nearly three hours yesterday for the purpose of discussing the new tax of five per cent on all bar receipts exceeding $40 a day. Mr. James Haverson, K.C., was the chief spokesman, and the other twenty-five delegates presented tabulated statements of their bar receipts to show that the new tax would seriously affect their business.

Interred in Little Lake Cemetery.

The funeral of the late Mrs. Catharine Graham took place yesterday afternoon.

Canon Davidson conducted the services at the home and at Little Lake cemetery, where deceased was interred.

The floral tributes were many and beautiful and the cortege was followed to the cemetery by a very large number of friends and acquaintances of the late Mrs. Graham. The pall-bearers were ex-Mayor Rush, Robt. Fair, Alex. Elliott, E. A. Peck, P. Campbell and H. Winch.

Object to Mormons.

It is said that the Mormon Church [illegible] its work in several Ontario cities, of which Peterborough is one. The Ottawa Journal speaks out plainly against allowing these people to get a foothold in this Province. Their creed is decidedly off-color, and should not be countenanced. Let us hope that when the Mormon "prophets" arrive they will get a cool reception.

Boys' Mass Meeting.

A mass meeting for boys and men will be held in St. Andrew's church next Sunday at 4.15. Boy scouts invited to attend in a body. The lovely time of youth is our Italy and Greece, full of gods, temples and bliss, but which, alas! so often goths and vandals stalk through and strip with their talons." Boys, come to St. Andrew's Sunday, March 19th and hear about the Goths and Vandals. Bring your father; they were boys once, maybe they are boys yet. Sometimes we do not count a man's years until he has nothing else to count.

PROTESTANTS VS. CATHOLICS.

The large congregations which have attended Park-street Church during the past three Sundays to hear the series of sermons on the doctrines of the Roman Catholic Church, indicates the deep general interest that is being taken in the world-wide war that is being waged between Protestants and Catholics. While Rev. Mr. Riddiford is careful not to hurt the sensibilities of any of his hearers, he is at the same time, endeavoring to show, from a Protestant standpoint, where the Church of Rome stands. Rev. Mr. Pogue of St. Paul's, also recently delivered thoughtful sermons on similar lines. In Toronto Catholic priests have recently delivered a series of addresses to non-Catholics. There probably never was a time in the history of the world where Protestants and Catholics are so aggressive as they are at the present time.

Children's Aid Society

For the care of neglected and ill-treated children. Incorporated by Act of Legislature, 1893. Information required. Informants' names kept strictly private. Office hours, 10 to 12 a.m., 1 to 3 p.m. George Clarkson, Agent and Assistant Secretary. Office, Division Court Building, [illegible]

SOCIETY EVENTS

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

G. E. Ainsworth of Orillia, is registered at the Munro House.

Miss M. L. Robinson, of Toronto, is a guest of the Munro House.

Mrs. (Dr.) Dale, of Oakwood, is visiting her sister, Mrs. F. Mullet.

Mrs. W. H. Denham will receive today and not again this season.

Mr. J. Clark, of Toronto, is at the Munro House.

Mr. W. Scollard, of Young's Point, is visiting in the city.

Mr. Wm. Buchanan of Goderich, is a guest at the Snowden House.

Mr. and Mrs. Quinn and family left for Vancouver, B.C.

Mr. Wilbert Spencely, 317 Smith street, who has spent the winter in Winnipeg, returned home to-day.

Miss Alberta Gooding is visiting with her school friend, Miss Ione Heintzman, in Toronto, this week.

Rev. Canon Davidson has returned home from Toronto, where he has been conducting a two weeks mission.

The funeral of the late Mrs. Fredenburg, who passed away in Toronto on Monday, took place yesterday afternoon at 3.30, from the residence of her brother-in-law, Mr. Fredenburg, 207 Murray street.

State of Ohio, City of Toledo, Lucas County. ss.

Frank J. Cheney makes oath that he is a senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn before me and subscribed in my presence, this 6th day of December, A.D., 1886.

A. W. GLEASON, (Seal) Notary Public

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

St. Luke's Girls' Auxiliary.

At the annual meeting of St. Luke's Girls' Auxiliary, the following officers were elected:

Hon. President—Mrs. E. A. Langfeldt.
President—Mrs. Wm. Lang.
Vice-President—Miss L. Stewart.
2nd Vice-President—Miss Clara Mitchell.
Cor. Sec'y—Miss May Moore.
Rec. Sec'y—Miss Isabel Hay.
Treasurer—Miss Lucy Baxter.
Dorcas Sec'y—Miss Pearl Mitchell.
P.N.C. Convenor—Mrs. Basuclerc.
Organist—Miss M. Rogers.
Delegates to Annual—Mrs. Wm. Lang and Miss Pearl Mitchell; substitutes, Miss Maud Stewart and Miss Elsie Dawson.
Executive—Miss Elsie Dawson and Miss Ethel Clark.

After the meeting refreshments were served.

When buying a cough medicine for children bear in mind that Chamberlain's Cough Remedy is most effectual for colds, croup and whooping cough and that it contains no harmful drug. For sale by all dealers.

THE SIGN BY-LAW.

A Similar Measure That Winnipeg City Council Proposes to Adopt.

As some people seem to think that our sign by-law is too rigorous a measure, and that merchants paying a fee for the privilege of owning illuminated signs should be absolved from all responsibility in case of accident; in which contention they are supported by one or two of Peterborough's Aldermen, the following will be found of interest:—

The Winnipeg Free Press says:

A draft for a new by-law for the City of Winnipeg to govern all street signs and making special provisions for overmanging signs was discussed at length yesterday by a special committee of the works and property board, and a committee of business men who have met the committee before on several occasions. Several changes were agreed to and the amended by-law will now go before the council. The new by-law provides that suitable guarantee bonds must in every case be given by the owner of the sign or the owner of the building to which it is attached, and absolving the city from all responsibility in case of accident. All signs are to be inspected regularly by the city electrician, who will have the power on giving five days' written notice, to take down any sign not complying with the by-law. The sign owner must bear the expense of taking down the offending signs.

The annual fees for inspection are set as follows. Signs, projecting over two feet from lot line, 50c; over five feet, $1; over six feet, $1.50; over eight feet, $2; over ten feet, $2.50. For vertical signs, the fee is set at 5 cents per square foot. The size of signs overhanging the sidewalk is regulated:—If 16 feet wide the sign may be ten feet in length from lot line; over 14 feet, sidewalks, 8 feet; over 12 feet sidewalks, 7 feet; over 10 feet sidewalks, 5 feet; and over 8 feet sidewalks, 3 feet.

In the event of a tenant moving and leaving his sign behind, the owner of the building must remove it within 30 days.

On petition to the city council signed by three-fifths of the property owners in any one city block, all signs in that block may be ordered down by the city.

BAHAMA ISLANDS FAVOR ANNEXATION

VOTE OF 23 TO 6 IN LEGISLATURE IN FAVOR OF UNION WITH CANADA.

Island Offers Valuable Market For Manufactured Goods — Several Canadian Financial Interests in the Islands.

Montreal, March 15.—At the moment there looms in sight the question of an annexation movement in which Canada is offered a new ocean Province. A cablegram received here yesterday by Mr. T. McCaulay announced that at Monday's meeting of the Legislative Assembly a motion was adopted inviting the Dominion Government to appoint a committee for the purpose of opening negotiations for the annexation of the Bahama Islands by Canada.

DECIDED VOTE.

Twenty three members of a total of twenty-nine voted in favor of the proposition, and immediate action is anticipated. Previously the matter was discussed at a meeting of citizens, at which strong public sentiment in favor of the annexation was expressed.

It is said by Canadians who winter in the Islands that public feeling is strongly in favor of the proposal.

FINANCIERS INTERESTED.

There are now several Canadian financial interests in the islands. Canadian insurance companies practically control this branch of business. The Royal Bank is represented in the Islands and does a thriving business at Nassau. Mr. McCaulay, who knows the situation throughout, and who has been a resident of the islands is most enthusiatic, describing them as the "Future Florida of Canada." He also declares that there are fine business openings.

A GOOD MARKET.

For instance, the islands require manufactured products, while they have to offer fruits, vegetables and flowers. At the moment Canada takes large quantities of vegetables from the islands. Practically all the winter tomatoes used here come from the Bahamas. There is considerable vacant land on the islands, offering fine immigration and agricultural prospects.

At an immense meeting of the citizens of Nassau, held on February 20, which was addressed by a number of Canadians then visiting the islands, a resolution favoring the admission of the islands to the Canadian Federation was carried by a standing vote with general enthusiasm, there being but two dissenting voices. A committee of six members of the Legislature was appointed to give effect to this expression of opinion. At a subsequent meeting a week later, February 27th, a small group wished to postpone the conclusion of the question, but the sentiment was so overwhelmingly opposed to postponement, and in favor of annexation that the chairman and three or four members who had called the meeting withdrew their motion, not even considering it worth while to put it to a vote.

Subsequently a resolution was introduced requesting the governor to invite the Government of Canada to a conference to consider whether annexation to the Dominion of Canada was feasible and desirable, and if so, on what terms it would probably be carried out.

The Bahamas are a chain of Islands 600 miles in length, lying between the southeast corner of Cuba and Florida. They have a total area of 4,466 miles, and a population of 60,000, chiefly of negro race. The capital is Nassau, with a population of 12,000. The Islands export chiefly sponges, turtles, pine apples, oranges and sisal fibre.

RESENTED NOSE-PULLING.

Globe, Ariz., March 15.—Geo. Shanley, capitalist and cattle raiser, was shot and killed last night by City Marshall Anderson, while they were at supper with friends in a Chinese restaurant. During a quarrel Shanley pulled Anderson's nose.

"Do that again and I'll kill you," Anderson is said to have yelled.

Shanley repeated the nose-pulling and the next second a bullet penetrated his heart.

Anderson gave himself up.

JOSEPH BATTEN GRAND MASTER

Elected to Head of Eastern Ontario Orangemen.

Smith's Falls, Ont. Mar. 15.—Sir Knight W. H. Sproule, of Ottawa, was this morning elected senior deputy grand master of Royal Black Chapter of Ontario East, which means that he will probably be the Grand Master for 1912-13.

The Black Knights wound up their convention by electing the following officers for 1911: Grand Master, Sir Knight Joseph Batten, Peterborough; Deputy Grand Master, W. H. Sproule Ottawa, and W. McMechan, Madoc; Grand Chaplain, Rev. W. H. Fitzgerald, M.A., Kingston; Honourary Grand Registar, James Kelley, of Lindsay; Deputy Grand Registrar, N. A. Howard Moore, Peterborough; Grand Treasurer, T. C. McConnell, Springbrooke; Deputy Grand Treasurer, S. H. Thompson, Madoc.

Grand Lecturers, C. J. Smith, of Madoc and E. A. Morrow, of Sterling. Grand Censors, E. A. Denby, of Lyndhurst and J. A. Sanderson, of Kemptville. Standard Bearers, J. Tompkins, of Kemptville and W. E. Tunman, of Cookston, Grand Pursuivant, J. W. Elliott, of Danford.

The officers were installed by Bro. Thos. Gilday, of Montreal, the Grand Master of Royal Black Chapter of British North America.

Reporter Jailed for Shielding Informant

Constable Gave Him a Murder Tip, and He Refused to Say Who It Was.

Atlanta, Ga., March 15.—Because T. J. Hamilton, a reporter for the Augusta Herald, refused to give the Police Board the name of a policeman who gave him a "tip" on a murder story, he must return to jail and finish serving a sentence of five days, or pay a fine of $50, imposed for contempt. This was the decision handed down by the Supreme Court here to-day.

"MISS" CORRIGAN'S NAME IS CHARLES.

Author of the Harem Skirt Sensation in Owen Sound and at Wiarton.

Owen Sound, Ont., March 15.—Miss C. Corrigan, whose picture with the harem skirt appears in the Toronto News of last night, is really an enterprising young man named Charles Corrigan. He appeared on the streets in Wiarton last week and his make-up was so good that only those who really knew him were wise.

German Strategist Says Japan is Planning to Strike a Blow

AN AMERICAN NAVAL BASE, CONSTRUCTED IN THE PHILIPPINES IS A MENACE TO JAPAN.

It Will Not Be Denied Even by Those Who Have Been Skeptical, That Japan is Preparing for an Aggressive War.

Berlin, March 15.—"An American naval base, constructed in the Philippines, is an intolerable menace to Japan. Supremacy in the waters of the Far East is a life necessity to Japan, and her statesmen, realizing this, are planning to strike, and soon," declares Count Ernest Reventlow, Germany's most noted strategitical expert and writer on military subjects.

"It will not be denied even by those who have hitherto been skeptical," says the Count, "that Japan is preparing for an aggressive war against the United States. The main object of the war against Russia was not the annexation of land, but to prevent permanent occupation by Russia of Korea, Kwantung, and Port Arthur.

"Leading Japanese statesmen are now convinced that Japan as a great power cannot continue to exist unless she possesses naval supremacy in the Pacific. She must continue to command the Chinese market. America is her rival here and the Panama Canal has for one of its main objects the conquest of the Chinese markets by creating a shorter way of communication between America's Atlantic ports and the Chinese coast.

TO SEIZE ISLANDS.

"The Japanese plans for conquest provide for the seizure of the Philippines, the Hawaiian Islands, the American Samoan Islands, and Guam. By this means Japan would create a permanent and unalterable advantage for herself. The most powerful American fleet conceivable would be helpless in such an immense area of operation as the Pacific ocean without advance bases, so that capture of these bases by Japan would render that country the undisputed Mistress of the Pacific ocean.

"There is no doubt that Japan is now in a position to seize these Islands, because they are either unfortified, or insufficiently fortified, and efficient protection by the American fleet impossible.

"Sudden seizure of these islands is neither improbable or impossible.

"A very significant sidelight on Japan's attitude toward the use of the Philippines as a naval base was afforded by the fact that a large floating dock, conveyed to the port of Olongapo with great difficulties, developed a leak in a most inexplicable manner and sank. This, and many circumstances that have been kept quiet, show that Japan is almost ready to deprive America of her naval bases."

Japan was hard at work, preparing for war, he says, when the American fleet went to the Pacific, and this produced "temporary tranquility," but Japan is now ready to strike.

Summing up his conclusions, the Count says:

"The seizure of the islands belonging to America in the Pacific would be essentially an act of defence on the part of Japan, notwithstanding the aggressive character of realizing the plan. I repeat it is a life question for Japan, and there is no doubt whatever that her rulers are fully aware of this truth."

HON. ROBT. ROGERS CRITICIZES *RECIPROCITY* PACT.

Ottawa, March 15.—Hon. Robert Rogers, Minister of Public Works of Manitoba, is here to-day. He came east on a business trip and stayed off a day in Ottawa.

"There is no substantial demand in the West in favor of reciprocity," he declared, in answer to a query. "What there is comes from a few who would sacrifice their citizenship to save their friends at Ottawa who are in a hole.

"We who know the real sentiment, are ready to measure swords on the question with the Government whenever it wants to."

Would Allow Chinamen to Bring in Their Wives

Ottawa, March 15.—There was an animated discussion in the Senate yesterday on the question of Chinese wives. It came up during the consideration of the amendments to the Immigration Act, and Senator Thompson asked if there were many marriages between Chinamen and white women.

On a provision allowing a Chinese born in Canada to bring in a wife without payment of a head tax, Senator Lougheed said the bill should go farther in this direction. In his opinion the law should be broadened so every Chinese should have the right to bring in a wife without payment of the tax. Such a regulation would be in the interest of morality.

Sir Richard Cartwright replied that his own inclination was towards liberality in this direction suggested by Senator Lougheed. He would lay the proposal before his colleagues in the Government and give a decision on third reading.

Opposition Demand A Royal Commission

Ottawa, Ont., Mar. 15.—Reciprocity will get another delay in the Commons this afternoon when David Henderson, of Halton, will present an amendment to the motion to go into committee asking for the appointment of a royal commission to investigate all the circumstances connecting the organization, operation, and Failure of the Farmers' Bank.

The debate is expected to occupy the whole day, as Mr. Foster and Major Sharpe are loaded up with long speeches, and it may be midnight before a division is reached.

Why This Farmer in P.E.I. is Glad

DODD'S KIDNEY PILLS CURED HIS RHEUMATISM OF THIRTY YEARS STANDING.

Now He *Is* Helping Hundreds of Other Islanders Tell That the One Sure Cure for All Kidney Diseases is Dodd's Kidney Pills.

Alma, Prince Co., P.E.I., Mar. 15.—(Special)—Cured of Rheumatism and Heart Disease after thirty years suffering, Wm. J. Vincent, a well known farmer living near here is spreading the news throughout this tight little Island that Dodd's Kidney Pills are the sure cure for Kidney Diseases.

"I had been bothered with a lame back, Rheumatism and Heart Disease for over thirty years, Mr. Vincent states. "For days I would be laid up in bed. At times it caused me great pain to even turn in bed. I tried all kinds of liniments, plasters and electric belts, but got no relief till I used Dodd's Kidney Pills. Three boxes of them cured me."

Hundreds of other residents of the Island have used Dodd's Kidney Pills and they all tell the same story: No case of Kidney Disease, no matter how severe or of how long standing, can stand before Dodd's Kidney Pills. They are the one sure cure of every Kidney Disease from Backache to Bright's Disease.

GENERAL STRIKE IS THREATENED

BOTH SIDES EXPRESS DETERMINATION TO "STAND PAT."

Fifteen Thousand Men—General Organizer Says Tie-Up May Be Ordered on Monday—Want Differences Submitted to Arbitrators.

New York, March 15.—Defiance from both sides to-day placed greater New York face to face with another stagnating express strike and which threatens to affect 15,000 men in this vicinity and likely tie up express traffic in other cities. Following a conference of the Executive Council of the International Brotherhood of Teamsters last night and early to-day, it was decided that an ultimatum be sent to Adams Express Co., unless officials of that company consented to submit arbitration on the demands of the men. Both sides this morning expressed the determination of "standing pat."

THREATEN GENERAL STRIKE.

A committee has been appointed to confer with the officials of the Adams Express Company., and enter negotiations with a settlement in view.

Wm. H. Ashton, general organizer, of the International Brotherhood of Teamsters, announced this morning that he had hopes of a settlement. "The men are determined to fight for their rights," he said. "We believe that we are in the right in this matter. Arbitration with the company is the just and logical solution of the difficulty. If it is necessary to call a general strike, it will begin on Monday."

HELPING-HAND BIBLE CLASS.

Of Park Street Baptist Church Held Enjoyable Social Evening.

The Helping Hand Bible Class of Park street Baptist Church held a social evening last night in the Sunday school hall, Rev. Mr. Riddiford occupied the chair. After the opening hymn and prayer by the pastor, the chairman made a few remarks and called the programme as follows:

Selection—Orchestra.
Skipping—Mr. Lilley.
Instrumental—Mr. Harold Follis.
Remarks—Mr. Moore.
Speech—President Theobald.
Duet—Messrs. Bridge and Woods.
Club Swinging—Mr. Lilley.
Recitation—Mr. Simms.
Selection—Orchestra.
Doxology.

A game of carpet ball was played between the ladies and gentlemen, after which a dainty luncheon was served.

THE WEATHER.

Fine and cold.

Immigrants Arriving A Fine Class of People

Montreal March 15.—The railway and steamship companies have their hands full these days handling the heavy immigration traffic that has developed in the last couple of weeks. Other season's records have already been broken.

Nearly eight hundred of the finest type of future Canadian citizens passed through Montreal last night on special trains provided by the C.P.R. and G.T.R. Seven hundred of them landed at St. John, N.B., from the C.P.R. ss. Lake Manitoba, and on arrival in this city were divided into two parties, those leaving for Manitoba taking a special train.

There were over four hundred immigrants in the first party and it took a train of twelve cars to transport them. They were a fine looking crowd and nearly all of them were fairly well-to-do. Most of them expected to make their homes in the cities of Winnipeg and Vancouver.

ZION FARMERS' CLUB.

Farm Stock More in Need of Improvement than Property.

The Zion Farmers' Club held a most successful meeting in Zion Hall on March 9th. The house was filled and the audience was favored with the following programme:

Instrumental—Miss E. Bell.
Recitation—Miss L. Deyell.
Solo—Mrs. J. Mann.
Recitation—Mr. H. Bell.
Solo—Mr. A. B. Mann.
Reading—Mr. C. Graham.
Solo—Mr. B. Bell.
Recitation Mr. S. Milburn.

Mr. C. E. Moore gave a very interesting report of Farmers' Institute convention held in Toronto.

The feature of the evening was a debate, "Resolved that farm stock is in more need of improvement than farm property!"

The affirmative was taken by Messrs. Tate, Richardson and Hunter, of Pine Grove Farmers' Club, while Messrs. Stubbs, Milburn and Roseboro, of Zion Farmers' Club, took the negative.

The speakers on both sides brought out many good points, showing the need of improvement in both stock and property.

The affirmative won the debate by one point.

The ladies then served refreshments and the evening closed with the singing of the National Anthem.

TWENTY MEN WERE CAUGHT BY WALL

A COLD WAVE COMING.

Duluth, Minn., March 15.—With a drop of seventy degrees in 18 hours, the thermometer this morning on the street registered five below.

LABRADOR FOLK ARE STARVING

THEY HAVE BEEN CUT OFF FROM SUPPLIES BY GREAT ICE FIELDS FOR MONTHS.

Winter a Rigorous One—Thought a Band of Trappers Have Lost Their Lives in Newfoundland.

North Sydney, C.B., March 15.—That the rigorous winter just closing has caused extreme suffering and probably many deaths among the hardy inhabitants of the barren Labrador peninsula, who have been cut off for months by great ice fields from the possibility of securing food and clothing, is the fear felt here and in Newfoundland. The last reports from the bleak country to the north, which were received late last fall, said that the food supplies were almost exhausted and that hundreds of the natives, mainly fisherfolk and their families, were on the verge of starvation. Months have passed since the stricken Labrador people have secured help nor has word come to the outside world as to how they are faring in their extremity.

Repeated efforts have been made to carry succor to the starving people. Vessels laden with supplies of food and of clothing have failed repeatedly to pierce the ice floes which choke the Strait of Belle Isle, the narrow stretch of water which separates Labrador from the Northern coast of Newfoundland.

The present misfortunes of the Labrador people had their beginning in the failure of last season's fishing catch.

A blizzard which swept over Newfoundland and Labrador last week is believed to have further accentuated the suffering.

A blanket of snow reached in some places a depth of from 20 to 30 feet deep. It is said that a large band of trappers who were operating in an interior section of Newfoundland are missing.

Bonar Law, Canadian, Given a Safe Seat

London, Mar. 15.—Lord A. Compton, M.P., for Brentford, has resigned. He had a majority of 3075 in the election last December. He is making way for Joynson Hicks, who will be the Unionist candidate in the bye-election.

Bonar Law, the Canadian, was adopted to-day as Unionist candidate in Boothe, Lancashire, where Col. Sandys, who was unopposed in the general election, has resigned in his favor.

London, March 15.—Mrs. Crippen's estate has been proved at £175. Letters of administration have been granted to the deceased's sister, Theresa Hunn.

FIRE RUINS FELL ON SCORE OF MEN IN NASHVILLE, BURYING THEM ALIVE.

Nine Dug Out of Debris—Only One Dead Body Recovered—Several of The Injured Will Die.

Nashville, Tenn., March 15.—About 20 workmen engaged in tearing down the old brick and stone skeleton of the J. F. Hall & Co. building on Third avenue, near the public square, were caught by falling walls to-day.

Every available ambulance was rushed to the scene of the disaster, and a score or more of volunteers, among them Mayor Howes, assisted the firemen in clearing away the debris. Members of the rescue party heard the groans of the imprisoned workmen.

When the fire department arrived there were four men in the fourth and fifth storey windows of a wall that was still standing. They escaped by rushing to the front of the walls, when the collapsing structure was seen to sway in the wind. An aerial truck brought these men to safety.

At noon rescuers had brought out nine men, only one being dead at that time, although several others were fatally injured.

Probably eight or ten men are in the cellar of the building, and rescuers are responding to their cries for water. It is believed several of these are fatally hurt.

TRAMPS WINTERED IN A CEMETERY

Stored Their Food in Coffins and Slept on Funeral Urns.

Nyack, N.Y., March 15.—Two men describing themselves as tramp printers are under arrest here charged by the police with having made their home for the greater part of the winter in a vault in the Rockland Cemetery. The men are said to have lived for nearly three months in the damp room, measuring ten by twelve feet. Their impoverished bed of straw and blankets were spread upon two coffins, and funeral urns afforded a storehouse for their food.

Sixteen Cases of Meningitis on Ships

New York, March 15.—Guard against further arrival of cases of spinal meningitis from Greece will be set, and probably a State and Federal investigation into the widespread epidemic of the disease in that country will be undertaken.

Among Greek passengers in the steerage of two steamers which have arrived this week were sixteen victims of spinal meningitis, seven of whom had died on the voyage. The other nine cases, which are being treated at the quarantine hospital, are probably fatal ones, it is said.

ARE YOU USING AN OILY LINIMENT.

Beware of Any Thick, Greasy Liniment That Contains Acids and Strong Ammonia.

No doctor would think of prescribing a greasy, thick, ammonia liniment—they can't penetrate and in consequence are unable to reach the source of pain. The best liniment for general household use is "Nerviline," which is sold under positive guarantee to cure pain.

Nerviline is sure to cure pain because it is immensely stronger than other liniments, because it is more penetrating, because it relieves the congested conditions that creates pain, because it restores circulation of the part. Now you understand why one person in three throughout the Dominion of Canada uses Nerviline. These people have tested it. They know how good it is, because in the hundred and one minor ailments that afflict us at all times they found Nerviline always cured. Nerviline is an absolute antidote to pain, powerful, soothing, and certain in its action.

Nerviline is inestimably the finest remedy for pain found in the world. Not an ache or pain anywhere that Nerviline does not cure.

Try Nerviline for neuralgia, headache, sciatica, lumbago, stiffness, rheumatism—wherever there is a soreness or pain, rub on Nerviline and you'll be cured. Refuse anything offered you instead of Nerviline, large 25c bottles, five for $1.00. All dealers, or The Catarrhozone Co., Kingston, Ont.

THE MORNING TIMES

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

THURSDAY, MARCH 16, 1911.

CIVIL SERVANTS' SALARIES.

Sir Allen Aylesworth's point of view is usually that of a lawyer. He has a legal respect for precedent, and that may explain his attitude towards Mr. Beauparlant's bill, which would make the salaries of civil servants subject to garnishee. He objects to its provisions because a great deal of adthority has said of the civil servant that:

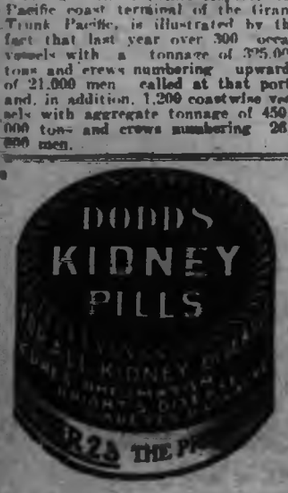
"The compensation allotted to him under this Act is by way of salary, the object of which is to enable him to maintain such a position in life as will save him from the necessity of risking his character by incurring these temptations which persons reduced to poverty are necessarily opposed to, and which would render him an unfit person to be again employed as a servant of the Crown. For this purpose public policy requires that he should not be permitted to assign it away."

To this the Minister of Justice adds his own opinion that the country does not get the best possible returns for its money if "the civil servant is liable to the duns of the continually besetting creditors."

It has occurred to other members of the House of Commons, where the question is being discussed in a nonpartisan spirit, that both the Minister and the authority whom he quotes appear to pre-suppose a till-death-do-us-part attachment between civil servant and office. If the "besetting creditor" so harasses an employe of any large business corporation as to impair his usefulness, the corporation lets the employe go. Why should the Government of Canada do otherwise? If a civil servant insists upon running into debt to such an extent that liability of garnishee would "reduce him to poverty and render him an unfit person to be again employed as a servant of the Crown," the logical course would seem to be that his service to the Crown should end. These are instances of course, where sickness or family misfortune might create an embarrassing indebtedness, but these cases are the exception, and could be dealt with as such.

The arguments brought forward against Mr. Beauparlant's bill do not disclose a single reason why the attitude of the Government towards its employes should be different from that of any other employer who is vitally interested in the efficiency of his staff.

The growth of Prince Rupert, the Pacific coast terminal of the Grand Trunk Pacific, is illustrated by the fact that last year over 300 ocean vessels with a tonnage of 395,000 tons and crews numbering upwards of 21,000 men called at that port, and, in addition, 1,200 coastwise vessels with aggregate tonnage of 450,000 tons and crews numbering 26,000 men.



DUMB ANIMALS

Some Queer Habits of Cats, Mice, Flies, Snakes, Goldfish and Sheep

A fly on a window pane will crawl to the top, fly back to the bottom and crawl up again. This order is seldom reversed. Why, no one knows. It is on record that a fly crawled up a window pane thirty-two times, returning each time a-wing.

Hens scratch for food with the sun behind them, the reason being that the rays reflect on the minute particles. A blind hen will pick grain and not miss a kernel.

Cats seldom lie with their feet to the fire. Usually they lie on their left side. Dogs lie with their forepaws to the fire.

A mouse will ignore a food supply sufficient for a meal and run great risks to nibble at a wholesale supply. It will hide at the source of food supply and not depart therefrom until actually disturbed. It is not true that a mouse runs to its hole at the first alarm.

Find a harmless little snake the length of a lead pencil and provide a box for it in the house, visit it daily, and at the end of three months it will crawl to you for food.

Goldfish usually swim around a globe to the right. They can be taught to take a fly out of the hand in six weeks' time. The presence of other fish in the globe is generally ignored by goldfish. Drop a piece of chip on the surface of the water and it will frighten a fish.

Sheep spend more time grazing than do cattle and horses. Sheep will eat for twelve hours out of the twenty-four.

DRY PICKED POULTRY

A Series of Recent Experiments in Cold Storage

Canadian exporters of poultry should be interested in a recent series of experiments in connection with the cold storage of poultry, which have shown that the method of scalding chickens by plunging them in water just below boiling point to facilitate the removal of the feathers affects the keeping quality of the prepared birds. This method in the past has been very commonly practised by exporters of poultry in the United States and other countries. The experiments under review revealed the fact that deterioration is greater in the case of scalded fowls than in those that were dry-picked, and the bacteriological examination proved that the number of bacteria was increased when the birds were drawn before being placed in cold store. Dry-picked birds in good condition, promptly stored and kept for three and six months, are stated to have been hardly distinguishable from freshly killed fowls.

NOT AN IDLE DUKE

Norfolk Has Charge of the Coronation Preparations

One duke at any rate cannot be accused of leading an idle life. This is the Duke of Norfolk, who, as Earl Marshal of England, has practically the whole of the arrangements for the Coronation in his hands. He has opened special offices to deal with the many matters of detail with which he is confronted, and is at work there early and late. The Duke is a particularly fast worker, and has the routine of his department at his fingers' ends, while his memory is little short of marvellous, and he can recall without much effort what was done at the last Coronation.

THE MISCHIEVOUS MATCH

One of the Chief Causes of the Daily Fire Loss

The common match is a Canadian mischief maker. It was one of the chief causes of an average daily fire loss last year of $64,639, or $3.14 per capita. It helped to swell the list of deaths by fire, numbering 266.

OLD ENGLISH GENTLEMAN

Sir Oswald Mosley is a Type of Old Times

A living copy of the familiar figure created by artists to represent John Bull is Sir Oswald Mosley, who is endeavoring to popularize wholemeal bread. And not only has Sir Oswald earned for himself the title of John Bull by reason of his appearance, but also on account of his characteristics. He is a country gentleman of the old school, a keen agriculturist, a great breeder of short horns, an extensive gardener, and possesses a fine museum of British birds. But he takes to modern pleasures gaily, judging by the fact that he is as keen a motorist as he is a lover of horseflesh. He owns a number of cars and is a prominent member of the Automobile Club. It is because he considers that present-day indigestion and decay of teeth is due to fancy white bread that Sir Oswald is encouraging the villagers of Rolleston, Staffs, of which place he is squire, to use wholemeal bread.

BEAVER IN THE WEST

A strange animal has been attracting the wonder of residents along the banks of the Assiniboine river in the vicinity of Armstrong's Point. The district is thickly wooded, and some mystery surrounded the movements of the visitor. A young man decided to do his part in unraveling its peculiar features, and procured a gun, went out late one afternoon recently, and on sighting the animal burrowing in the snow, shot it in the head. On investigation he was surprised to find that he had killed a beaver.

COLDS: THEIR COST AND PREVENTION.

The "common cold" has for some time been regarded as a regrettably common nuisance, but we are indebted to the Boston Chamber of Commerce for a thoroughly scientific study of it. That body employed a committee of physicians to investigate the average economic cost of mere colds and to suggest safeguards. The report of that committee is interesting and should be passed along.

In the first place, the average cost of colds—including loss of salary or wages or earnings—is $22.17 for every six months. This estimate is based on returns from 568 persons in a variety of occupations.

In the second place, colds are not due to the things generally regarded as their causes. When we are scolded for wearing thin clothing, when we are solemnly warned against drafts, or when we are accused of carelessness generally we may demur to the complaint. Colds are due to a germ which is highly infectious, and this germ is ubiquitous. There is no dodging it. The thing to do is to look after our general health and to fortify the whole system against the germ. Colds are preventable as tuberculosis is preventable. Ventilation of rooms, exercise, walking, deep breathing, moderation in eating and drinking—these are the "remedies" for colds.

The advice will not be new to many but its source should make it impressive.

A high official in Rome committed suicide because his daughters insisted on wearing harem skirts. The cable does not tell us whether they wore their harem skirts to the funeral.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

PROTECTION OF CROWNED HEADS

The Care and Cares of Monarchs—Great Watchfulness of the Royal Guards

Most spirited monarchs rebel more or less against being taken care of, although their rebelling is the cause of much anxiety and worry to those upon whom rests the responsibility of their safety. A truly difficult task is reported to be that of the plain-clothes officers who are told off to "shadow" King Alfonso of Spain when he visits this country, for the adventurous young monarch takes so keen an interest in everything that takes his fancy that he often runs what are under the circumstances very serious risks. On one occasion, when there were decided possibilities of a determined attempt upon the young King's life, he terrified the detectives by strolling into a penny shooting gallery on the Edgware Road and making quite a lengthy stay there, his personality being very easily recognisable by the rather peculiar features with which the public are familiar through the illustrated papers.

Few people realise the amount of work which the visits of foreign rulers mean to the New Scotland Yard authorities, nor the risks which have to be run by detectives, in frequenting the haunts of well-known revolutionists to discover if any plans of violence are afoot. Most of the leaders in such movements are well known to the police of all countries, and any unusual activity in the way of communications between or visits from such known characters, is notified immediately to the country apparently the object of concentration. No known Anarchist or Nihilist is ever free from the vigilance of the police, or leaves one shore for another without a notification being flashed across to his destination by the sleepless watchers whose care, all unknown to the cheering crowds, has many a time prevented a national gala-day from becoming a scene of bloodshed, panic, and carnage.

Few sovereigns and their families are less to be envied by the ordinary irresponsible person than the Czar of all the Russias, his frail wife, and little children. The watchfulness of his guards is never for a moment relaxed. Even in his country residence of Tsarskoe Selo armed soldiers are always within earshot, and the royal children are not left unescorted at their childish games. The effect of this constant anxiety and suspense is reported to have a terrible depressing influence upon the beautiful Czarina's health, and there is a certain rather unchildlike gravity on the faces of the boy Czarevitch and the little Grand Duchesses which is intensely pathetic.

"ONE MORE CHANCE"

A Funny Story at the Expense of a Man Who Imbibed Too Freely

An amusing story, which has the merit of being true, is told of a gentleman well known in a town not far from Birmingham. He had entered into festivities with such zest that he found himself strangely drowsy when he boarded his motor-car. Telling the chauffeur to drive on, he lay down on the floor of the car, and as soon was fast asleep. The car sped away on its journey, and the chauffeur, peering ahead, thought he saw an unusual glare in the sky in the direction of his master's house. As he approached nearer he saw that the glare was caused by a big fire. There were crowds of curious sightseers, and a posse of police blocked the further progress of the car. It was at this point that the slumbering gentleman awoke. The flames, ascending through the Stygian night-shadowy forms dodging in and out amidst the smoke, and the confused murmur of many tongues broke in upon his dazed consciousness. He moaned, and then, kneeling down in an attitude of entreaty, was heard to say: "O, Lord, give me one more chance!"

LONG ON THE ROAD

A letter posted in Spain 23 years ago has just been delivered in Shotts without a word of explanation. Perhaps the authorities thought such a courtesy would be superfluous, considering that both the sender and the addressee died years ago.

WANTS CAT-O'-NINE TAILS

A juryman who was on duty at the Scotish Circuit Court states that the work has convinced him that the community is getting into a condition of silly sentimentality with regard to the treatment of criminals, and he pleads for the introduction of the cat-o'-nine tails and the triangle.

SOME ANCIENT BREAD

Two loaves of bread baked ninety-three years ago in Germany form the relic contained in a glass case at the home of Joseph Hummel, a business man in the States. They are reminders of the famine that swept Germany in 1816 and 1817. Wheat then sold for $35 a bushel. The loaves were heirlooms in the Hummel family and came into Mr. Hummel's hands when he was visiting his old home in Wurtemberg twenty years ago.

"IN THE CLOUDS"

Taking advantage of the brilliant light furnished for a gigantic illuminated fountain recently erected in Vienna, scientists there have made some interesting calculations as to the height of the clouds. By means of a projector it was found that a beam of light could be sent up to the clouds, producing upon them a luminous spot capable of being observed simultaneously from points on the earth two or three miles apart. By such observations the height of certain clouds of the cirrus variety was found to be nearly 33,000 feet, or 6¼ miles.

USING PIGEONS

Carry Messages in Australia for Lighthouses

Pigeons in Australia are used for carrying messages between Hobart and Maatsuyker Island lighthouse, a distance of about seventy-five miles. Last winter the birds called a physician for a lighthouse attendant and undoubtedly saved his life. Three birds are liberated with messages every three weeks, and when accidents occur, three additional birds are set free. Twelve birds in all are used for the service.

While messages have not always reached their destination the service has been highly satisfactory. The Marine Board has in view some collapsible cases which may be adjusted under the bird's wing, and in which considerable information might be carried.

The birds are fed on peas, given plenty of gravel and fresh water, and kept thoroughly clean, with plenty of exercise.

The raising of pigeons as carriers in Australia has become quite a thriving industry, there being at present about 20,000 of the birds on the Australian settlement.

WELL TO KNOW

A reasonable, intelligent man with a fair amount of energy can make his way in the world.—Archdeacon Westcott.

The sunniest spots in the kingdom are the Channel Islands, which enjoy sunshine during 39.9 per cent. of the time the sun is above the horizon in the course of a year.

FINE LAKE TROUT

Many Varieties of the Finny Tribe Caught in the North

A Government expedition consisting of Professor A. E. Barlow, of McGill, Professor Guillin, of Queen's, Mr. Fairbault, of the Dominion Geological Survey, J. H. Valiquette, engineer of the Provincial Department of Mines, spent three and a half months in Northern Quebec, in the region between Lake St. John and James Bay. While the members were largely engaged in prospecting they found the waters abounding in many varieties of fish. In some of the lakes members of the party took speckled red trout up to five and six pounds in weight. Huge gray lake trout or touladi were captured as well as white fish, pike and pickerel. Plenty of feathered game was seen. The only big game killed was a bear, the animals being numerous along the route followed by the explorers. This route traversed some of the hunting ground of the Montagnais Indians, and members of the latter were acured as guides for the expedition.

FIVE ACRES, PLUS

What Boys Were Able to Do on a Small Farm

Near a Maritime Province town a man, his wife, and two sons lived on a five-acre lot. The head of the house ran a carriage shop and paid little attention to the land. The boys paid less attention, and were on the road to nothing in particular. The father died, leaving the place involved. Then the boys awakened, and began to till the five acres. Last year they expected to sell by the end of the season over one thousand dollars' worth of produce from the five acres. Among other things they marketed one half acre of tomatoes and one acre of green beans. The little farm is no longer involved.

A MILE PER DAY

Building Programme of the Canadian Northern Railway

One mile of new railway for every day of the year for the past twelve years is the construction record of the Canadian Northern Railway in Canada. In 1911, in Alberta alone, the Canadian Northern will endeavor to build one mile a day for every working day of the year. In other words they will come pretty close to constructing 300 miles of railway within the province if they carry out their programme for the coming year.

Are You Going West This Spring?

If so, there are abundant opportunities to do so, via Grand Trunk Railway System to Chicago and thence connecting lines. Low rates every day to Manitoba, Saskatchewan and Alberta. Exceedingly low rates each Tuesday, March 14th to April 25th inclusive, to principal points in Saskatchewan and Alberta, including points on Grand Trunk Pacific Railway. Reduced rates for one-way tickets, March 10th to April 10th inclusive to Vancouver, B. C., Spokane, Wash., Seattle, Wash., Portland, Ore., San Francisco, Cal., Los Angeles, Cal., Mexico City, etc. Before deciding on your trip, consult any Grand Trunk Agent, or address A. E. Duff, District Passenger Agent, Toronto, Ont. M11t15

STOPS A COUGH IN ONE NIGHT

The Story of Sufferers From Bronchitis, Asthma and Catarrh Proves the Value of Catarrhozone.

A cough may be Catarrhal with a dry tickling in the throat, it may be accompanied by a partial stoppage of the nostrils and shortage of breath Often there is a gagging in the throat and every cough tears and hurts.

Coughs have a hundred different causes, yours may be due to any of the following :—

Asthma	Inflamed Throat
Exposure	Bronchitis
Enlarged Tonsils	Pneumonia
Inflammation	Croup
Stomach Disorders	Pleurisy

The one remedy upon which physicians are relying to-day is Catarrhozone. It removes the cause of the cough, doesn't smother it. Catarrhozone is soothing, healing "direct cure" and cures the conditions that cause the cough.

Catarrhozone is infinitely superior to cough medicines, tablets, sprays, and emulsions, which for the most part are of no practical value except to ease the cough for the time being. Often liquid cough remedies contain opium, morphine and cocaine! With Catarrhozone you take no drugs—you employ nature's way—just inhale Catarrhozone's soothing, healing vapor and relief and cure follow promptly.

It's simply wonderful to think how quickly a bad throat or catarrh can be cured with Catarrhozone. Its rich balsamic vapor is carried along with the breath to the innermost recesses of the lungs, bronchial tubes and chest, making it impossible for the germ of any disease to live. Thus soreness in the chest is at once alleviated—phlegm is loosened and ejected from the throat, old standing coughs are removed.

REMEMBER THIS, you breathe Catarrhozone and it will cure any Winter ill. Large size, guaranteed, costs $1.00, and lasts two months; smaller sizes, 25c and 50c. Beware of imitations and insist on "CATARRHOZONE" only. By mail from the Catarrhozone Co., Kingston, Ont.

The Morning Times
PETERBOROUGH, ONTARIO
THURSDAY, MARCH 16, 1911.

St. Luke's Lenten Services.

Rev. Canon Allen, of Millbrook, conducted Lenten services in St. Luke's last night, preaching an impressive sermon.

Gone to Smith's Falls.

Messrs. J. B. McWilliams, P.D.G. M.; C. E. Wiley, D.M.; C. H. Patterson, W.M. No. 1175; E. F. Reid, D. M. No. 50, and W. Moffat, R.C. No. 80, left yesterday for Smith's Falls, where they will attend the Grand Orange Lodge of Ontario East.

Lenten Services at St. John's.

The special Lenten address at St. John's last night was given by Rev. H. A. Bracken, M.A., of Toronto, one of the rising clergymen of that city, and was listened to by a large congregation.

Cost $5.75 Each.

Four young men were fined $5.75 each for being drunk and disorderly on Tuesday. All paid with the exception of one, who when given the alternative of having his fine paid by a friend, or spending fifteen days in jail, preferred the latter.

Sleighing About Gone.

The sleighing on the down town streets is about gone, but on the side streets there is still some sleighing left. All the heavy teaming now has to be done on wheels.

Laid at Rest.

The funeral of the late John Stoddard took place yesterday and was largely attended, interment taking place in the Little Lake Cemetery. Rev. Mr. Pogue, pastor of St. Paul's Church, of which the deceased was a consistent member, conducted religious services at the house at 1 o'clock.

A Close Call.

An accident which might have proved more serious occurred on Saturday last to Mr. Wm. Clapper and son Low, when the boom on the derrick broke and fell on the shoulders of the elder; also striking the younger man and severely bruising his limbs. Both are doing as well as can be expected and are grateful that they escaped with their lives.

Real Estate Changes.

W. H. Manning has disposed of his residence occupied by himself and the double house on the next property to the west, to Mr. H. O. Fish. He intends to go to Los Angeles, Cal.

Knox Church Special Services.

As the series of meetings in Knox Church are drawing to a close, the interest in them is on the increase. Last night the church was well filled. Mr. Woodside delivered a most impressive address. The services will continue to-night and will conclude tomorrow evening.

Tries to Suicide.

A former resident of this city attempted suicide on Monday last by cutting his throat. He was living with his son. He was removed to the Western Hospital, where hopes are entertained for his recovery. For many years he was in business at Hall's Bridge and at Lakefield. "Dick" Purser, as his old friends know him, at one time kept the Commercial Hotel, corner of George and Brock street.

Very Sudden Death.

Mr. Stephen G. Hetherington, 500 Charlotte St. took suddenly ill about 1.30 yesterday and passed away in a few minutes. Heart failure was given as the cause of death. He leaves a wife and family of four boys and one girl, who have the sympathy of the community in their irreparable loss. Mr. Hetherington was well known and highly esteemed by his many friends. The family consists of Sydney, George, Walter and W. P. Hetherington, proprietor of the Peterborough Laundry, and Mrs. J. S. Ferguson, of Pontypool.

The funeral arrangements will be announced in to-morrow's Times.

Sale of Offensive Weapons.

Hardware men are specially affected by Hon. Mr. Foy's measure respecting the sale of offensive weapons It provides that every person who sells any bowie-knife, dirk, dagger, metal knuckles, skull cracker or slung shot, or who sells a revolver, pistol or air gun to any person other than one holding a certificate issued under section 118 of the Criminal Code, or one being over 18 years of age, who produces to and leaves with the vendor a permit in writing, signed by the Superintendent of Provincial Police, or a Chief Constable of the Municipality, allowing him to purchase a revolver, pistol or air gun, shall be guilty of an offence and liable on summary conviction to a penalty not exceeding $200 or less than $25, or to imprisonment for a term not exceeding six months with or without hard labour or to both.

State of Ohio, City of Toledo, } ss.
Lucas County.

Frank J. Cheney makes oath that he is a senior partner of the firm of F. J. Cheney & Co., doing business inthe City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn before me and subscribed in my presence, this 6th day of December, A.D., 1886.

Take Hall's Family Pills for constipation.

SOCIETY EVENTS

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mr. Geo. B. Hilliard, Lakefield, was in the city yesterday and gave The Times a call.

Mr. and Mrs. Robert Allen have returned from their honeymoon tour, and will reside in the city.

Mrs. Fred Gillespie and Lloyd, of Toronto, formerly of Peterborough, are in the city renewing acquaintances.

Mrs. Ross of Markham street, and Master Frank, of Toronto, are the guests of Mrs. H. P. Kennedy, Aylmer street for a few days.

Robt. Clancy, who has been attending the Peterborough Business College, has accepted a position with the Bell Telephone Co.

Messrs. G. C. Wainwright, manager of the Bank of Ottawa, G. W. Hatton and T. S. Medd, left last night for Chicago. They will return at the end of the week.

Mr. W. T. C. Boyd and Mrs. Boyd, Bobcaygeon, have returned from England, where they have spent the winter. Their two daughters who went with them, are attending school in the Old Country.

HE DETESTED WOMEN

Bachelor Who Bequeathed All Estate to His Twelve Horses

The highly-original will of an eccentric bachelor, Emil von Bitony, is reported by a Vienna correspondent. The deceased, the brother of a well-known Hungarian deputy, was sixty-five years old, detested women, and lived on a war footing with all his relations. In his will he bequeathed his real and personal estate, worth about $200,000, to his twelve draught horses. As executors of the will named the Society for the Protection of Animals at Budapest, stipulating that the interest on his property should be devoted to the care of these twelve animals, and that upon the death of one of them another aged horse was to be taken in and cared for, so that the number of twelve might always be maintained. Herr von Bitony's relatives were naturally amazed at the contents of the will, and the deputy, Herr Aluisius Bitony, will dispute it. Negotiations have been commenced with the above-mentioned society, and $30,000 was offered it, but refused.

REVEALED BY A DREAM

Webdale's Body Was Found Hanging From a Beam

A remarkable dream has led to the discovery of the body of Mr. Thomas Cook Webdale, London. Mrs. Copperwheat, a prominent member of the mission, dreamed one night that she went to the mission hall and found Mr. Webdale seated in front of the rostrum. His head was bowed, and she went up to him and placed a handkerchief over his neck. When she awoke she was greatly perturbed, and at her urgent request her husband went with another member of the mission to the hall, and spoke to the tenant of a shop beneath the mission building. They were told that Mr. Webdale had been seen to enter the hall, and they tried to gain an entrance, but found the door locked. When the door was eventually forced open Mr. Webdale's body was found hanging in front of the rostrum, suspended from a beam by a handkerchief knotted round his neck.

CHIEF FOOD SOURCE

New York Commercial Says It Will Change to Canada

The difference between Canada and the United States in the matter of grain production, according to the "New York Commercial," is this: "While the available areas are about all occupied and production has practically reached the maximum in the States, Canada, with 50 per cent. greater productive capacity, will be a long way off from her maximum yield in twenty years to come. And it is largely a question of land conditions. Canada's wheat growing belt is four times greater than that of the United States and only five per cent. of Canada's western agricultural area is under cultivation. There are 71,000,000 acres of wheat lands which will make these western provinces richer, more populous, more dependable for food supplies than the Western States can ever become. The centre of food supremacy will change to Canada."

A FATAL JOKE

A Fancy-Dress Prank that Ended in a Sad Tragedy

The terrible outcome of a holiday joke is reported from the wilds of Sicily. Two young women who had taken part in some holiday festivities had ended up at a masked ball. Anna Ripill and her niece, Antonina Polizi, a girl of 16, thought it would be a grand joke to visit a relative, Luigi Savarino, steward on the big estate near Parisico, dressed as Sicilian brigands. Their disguise was all too effective, for when they approached Savarino's house he mistook them for the real article, ran indoors, came out on the balcony, and, gun in hand, called out "Who's that?" The two women did not reply, but pointed their harmless unloaded weapons straight at the frightened steward. Savarino then fired two shots. One killed the younger woman, and the other seriously injured her aunt. On discovering his mistake Savarino took to his heels. He is still in hiding.

STREET ICE CREAM

In the forthcoming Government of London Bill a set of clauses is intended to strengthen the powers of the Council in dealing with the ice-cream barrows and stalls. It will subject to a penalty any manufacturer or dealer who makes or stores ice-cream or the materials used in making it "in a place likely to render them injurious to health, or expose such commodity or materials to infection."

THE EYES OF THE SOUL

In a little book just published, entitled "The Deathless Soul," the writer gives many reasons for believing in existence after death. Dreams, he contends, show the independence of the soul from the body. "Think out your dreams," he says, "for they will prove to you that in your soul dwell miraculous powers. In your waking hours, you see by the aid of your physical eyes. In your dreams, when your physical eyes are closed, you see with equal clearness of view. With what eyes do you see? Unquestionably with the eyes of the soul. In dreams the soul overcomes the law of death. This is only one of the miraculous revelations of the soul's power afforded by dreams. Its marvellous annihilation of time and space has already been referred to. In an hour, in a minute, in a moment, we travel far, and accomplish superhuman deeds."

Y.M.C.A. DIRECTORS.

Work of Association Progresses in Every Branch.

The Board of Directors of the Young Men's Christian Association held its regular monthly meeting on Tuesday night, the President, Mr. J. J. Turner, Jr., being in the chair. The following directors were present, Messrs. McFarlane, Sisson, Connal, Soden, Hartley, Bennett, Kerr, Gilchrist.

The reports of the different committees were read as follows: Membership, R. J. Soden; Physical, J. H. Connal; Religious, Mr. Hartley; Property, A. McFarlane; Boys' Department reported through General Secretary. The General Secretary's report was received and showed the work to be in a most encouraging condition. The reports of the different chairmen showed that the committees were looking after the work with an earnestness that speaks well for the association.

ADVERTISE IN THE TIMES.

A MODERN MIRACLE

FACTS SHOWS HOW ZAM-BUK CURES ARE PERMANENT

1. He had Eczema for 26 years.
2. His hands were so bad he had to wear gloves day and night.
3. Doctors said he could never be cured.
4. For 26 years he tried for cure in vain.
5. Then he tried ZAM-BUK.
6. ZAM-BUK cured him.
7. TO-DAY, three years after his cure, he says: "I AM STILL CURED—there has been no return."

Mr. T. M. Marsh of 101 Delorimier Ave., Montreal, has had this wonderful experience of Zam-Buk. Mr. Marsh has lived in Montreal for over 30 years, many of them at his present address. He is well known and is willing to satisfy any enquirer as to the genuineness of his cure. He suffered 26 years from eczema in the hands and had to wear gloves day and night, the itching was so terrible when the air got to the sores. Doctors said there was no cure. Three years ago Zam-Buk cured him. Interviewed a few weeks ago he said:—

"From the day I was cured by Zam-Buk to the present moment I have had no trace of the eczema and feel sure it will never return. When I think of the marvellous cure Zam-Buk worked in my case I am more and more impressed by the value of this great household balm. I have had letters of enquiry from all over Canada, and am glad to personally corroborate the published facts of my cure."

It is by watching cases like this that Zam-Buk has won for itself a world wide reputation. Unequalled for eczema, ulcerations, piles, blood poisons, inflamed sores, cold sores, chapped hands, babies' eruptions, varicose ulcers, burns, cuts, etc. All druggists and stores sell 50c box, or Zam-Buk Co., Toronto, for price

THE MINES DEVELOPING MACHINE WILL BE INCORPORATED

It is One of the Greatest Inventions of the Age for the Speedy Development of Mines

A device which will, when installed, be the means of placing hundreds of mining properties, now laying idle, on a producing and dividend paying basis. It will develop a mine in months where it now requires years. It will be the means of bringing sure and quick returns on mine investments which are now slow on account of the long time required to either reach the ore bodies or develop them to an extent which admits of productions on a large scale.

IT CAN BE USED IN ALL MINING REGIONS.
IT CAN BE USED IN DRIVING IRRIGATION TUNNELS.
IT CAN BE USED IN DRIVING TRANSPORTATION TUNNELS.
IT CAN BE USED IN DRIVING DRIFTS AND UPRAISES IN MINES AND IT WILL WORK IN ALL KINDS OF FORMATION.
IT DRIVES A COMPLETE TUNNEL, DRIFT OR UPRAISE, AND SHAPES ITS WORK ON A SCIENTIFIC PRINCIPLE.

Contracts have already been signed for the use of enough of these machines to keep a large factory busy building them for many months, and I predict that before 5 years many hundred of them will be in use.

A corporation will be organized within a short time to own and handle the machine, and it will be capitalized for $1,000,000 divided into 1,000,000 shares. One-half of the stock will be placed in the company's treasury.

YOU CAN NOW BUY PRE-ORGANIZATION STOCK AT 25c PER SHARE (either for cash or ten-payment installments) BUT YOU CANNOT BUY IT FOR LESS THAN 50c PER SHARE AFTER THE INCORPORATION-TAKES PLACE.

GET IN ON THE GROUND FLOOR IN THIS ENTERPRISE. TAKE ADVANTAGE OF THE PRE-ORGANIZATION OFFER NOW.

TENDERS.

SEALED TENDERS addressed to the undersigned at Ottawa, and marked on the envelope "Tender for Illuminating Oil and Oil Fuel," will be received up to noon of the

TWENTIETH DAY OF MARCH, 1911.

for supplying and delivering 190,000 Imperial gallons more or less of illuminating oil and 55,000 Imperial gallons more or less of oil fuel made according to specifications prepared by the Department of Marine and Fisheries.

Specifications and forms of tender can be procured from the Collector of Customs at Toronto, Petrolea, Sarnia and from the Agents of this Department at Montreal, Quebec, St. John, Halifax, Pictou, Charlottetown, and from the Purchasing and Contract Agent, Marine Department, Ottawa.

Each tender must be accompanied by a deposit cheque equal to five per cent. of the total amount of the tender.

No tender will be considered except for oil strictly in accordance with the specifications and put up in packages as called for in said specifications. The cases and cans containing samples of oil submitted with tenders must also be strictly in accordance with the specifications and will be taken as samples of the packages offered.

The Department reserves the right to accept the whole or any part of the tender.

Papers inserting this advertisement without authority from the Department will not be paid for same.

A. JOHNSTON.
Deputy Minister of Marine and Fisheries.

MEN—YOU NEED NERVE

EARLY INDISCRETIONS AND EXCESSES HAVE UNDERMINED YOUR SYSTEM

The nerves control all actions of the body so that anything that debilitates them will weaken all organs of the system. Early indiscretions and Excesses have ruined thousands of promising young men. Unnatural Drains sap their vigor and vitality and they never develop to a proper condition of manhood. They remain weaklings, mentally, physically and sexually. How you feel? Are you nervous and weak, despondent and gloomy, specks before the eyes with dark circles under them, weak back, kidneys irritable, palpitation of the heart, baneful, debilitating dreams, sediment in urine pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, premature decay, bone pains, hair loose, etc.

This is the condition our New Method Treatment is

GUARANTEED TO CURE

We have treated diseases of Men for almost a lifetime and do not have to experiment. Consult us FREE OF CHARGE and we will tell you whether you are curable or not.

We guarantee curable cases of NERVOUS DEBILITY, VARICOSE VEINS, BLOOD AND SKIN DISEASES, GLEET, BLADDER URINARY AND KIDNEY COMPLAINTS

Free Booklet on Diseases of Men. If unable to call write for QUESTION LIST FOR HOME TREATMENT

CHAIN OF MARINE DISASTERS—TUG CAPTAIN REPORTS HAVING SEEN BODIES FLOATING OFF CLEVELAND.

SILVER SPRAY OF ERIE GOES DOWN IN STORM CARRYING EIGHT MEN TO THEIR DEATH—FOUR OTHER TUGS MISSING.

The Independent Tire Co. Will Locate Here if They Get a Loan of $40,000 at 3 Per Cent.

To Buy Site, Erect a Three Story Building, and Install $75,000 Worth of Machinery by July 1st, 1912--To Employ an Average of 100 Hands the Year Round

The City Fathers met in special session last night to consider a by-law to aid the location in Peterborough of the Independent Tire Co., a corporation being inaugurated to carry on the business of manufacturing rubber tires for autos, and other vehicles.

There were present: the Mayor, Aldermen Brown, Edgar, Anderson, Morgan, Graham, Kenneghan, Metheral and Duncan.

The by-law was laid over till this evening, or to-morrow evening, pending securing the company's agreement to employ 75 or 60 hands upon the city second and final payment of the loan asked for. The by-law as read last night, the premises of which were consented to by the company's representative when here and subsequently approved of by their solicitor, provides that they shall employ not less than an average of 100 hands the year round after they have been inoperation twelve months. This his worship took exception to, rightly contending that 75 hands should be employed on receipt of the city's loan in full, and that the company should operate for the first year with at least that number of hands, after which they shall continuously employ not less than an average of 100 hands each and every year during the life of the agreement.

Council agreed with the Mayor—the by-law was amended on these lines and will pass council immediately on receipt of the company's acquiescence in the amendment. It will then go to the people within four weeks' time.

WHAT THE CITY OFFERS.

To loan the cost of a site and building, up to $40,000, at 3 per cent. interest; first half of this cost up to $20,000, to be paid when a site is purchased and a building erected thereon, the second half, also up to $20,000, to be advanced within thirty days after the factory is equipped with $75,000 worth of machinery.

To exempt the building, land and machinery for ten years, from all taxes except school and local improvement rates.

The city will have to pay 4½ per cent. on the debentures it issues for $40,000. It is estimated that the company would pay out in wages $60,000.

WHAT THE COMPANY MUST DO.

Should the by-law pass, the company will lend themselves to the following conditions:

To show a paid-up capital of $150,000, and before April 1st, 1911, to apply for permission to increase that capital to $350,000.

To purchase a site by July 1st, 1911.

To erect thereon a three-storey building of sufficient size to employ 100 hands, and to install $75,000 worth of machinery, free of all incumbrances. This to be done by July 1st, 1912.

To give the city a mortgage on land, building and machinery.

To pay back $2,000 of the loan each year, and interest at 3 per cent. upon so much as shall not be employing not less than 50 or 70 hands the first year, and 100 or more every year thereafter.

Should the company fail to live up to their agreement, the city is to have the power to call in their loan, and foreclose if not responded to.

Ald. Brown thought the only reason citizens would have to oppose this measure would be that of a precedent of laxity regarding other agreements. The street railway, for instance, had not lived up to their agreement.

The City Solicitor replied, that the Railway Co. had lived up to their agreement. And further, they now propose to extend their line to Byeraville this year.

TROOPS IN PERIL.

Muskogee, Mich., March 16.—Mrs. Frank Scott, of Highland, Kan., brought her family of thirteen children to this city on one railway ticket. There were three sets of triplets and two of twins all under five years.

FIRE SWEEPING PENSACOLA, FLA.

FLAMES BROKE OUT IN UNION DEPOT AND WERE DRIVEN BY FIERCE WIND.

Ten Blocks Are Affected—At Last Report the Whole City Appeared to be in Peril.

Montgomery, Ala., March 16.—Reports by telephone at noon to-day indicate that a fire, starting at nine o'clock this morning, threatens to destroy Pensacola, Fla.

Information is that the fire has gained headway in ten city blocks.

The flames are fanned by a stiff north-west wind.

Ten buildings in eight different blocks have been destroyed. The fire started near the Union Depot.

Pensacola is 40 miles east of Mobile. It has a population of about 25,000. The place is much visited as a healthful resort. It has gas, electric light, water and street railway plants.

Britain Told Japan About Move of U. S.

London, March 16.—An effort was made in the House of Commons to-day to ascertain the views of the Japanese Government on President Taft's suggestion of an American-British general arbitration arrangement, but Sir Edward Grey declined to reveal them.

The Foreign Secretary admitted that the Government at Tokio had been made aware of the British Government's views on the subject, but he refused to lay Japan's answer on the table of the House on the ground that to do so would be premature.

36 Prisoners Break Recital of Charge

Viterbo, Italy, March 16.—A brief strike of the jurymen, who are to decide the fate of the Neapolitan Camorra, slayers and thugs, and an attack on a photogrgpher by Alfano, alias "Erricone," the Camorra leader, enlivened the trial to-day.

As soon as the court opened the foreman of the jury presented a protest from its members against serving for small pay in view of the prospects of a long trial. The jurors are to receive only ninety cents a day. Judge Bianchi promised to send the protest to the office of the Minister of Justice and the trial then proceeded.

The attack on the photographer came while the prisoners were on their way to court. Alfano recognized among the corps of newspaper camera men a representative of a Naples newspaper, which had attacked the prisoners.

The prisoner tried to break away from his guards, but was subdued after a short struggle. Shrieking and cursing the Camorra leader was thrust into his cage after he had spat in the face of the photographer. The actual work of the trial to-day began when the Chancellor read the act of accusation. This filled thirty pages and was expected to occupy about five hours.

Blown Through Building.

Hamilton, March 15.—John Nevilles a shoe repairer, was blown through the side of his shop this morning in a gas explosion that liftch the roof off the building. Although badly hurt and severely burned he will recover. Last night he disconnected the gas meter. To-day when he went into the shop and lit his pipe, there was a heavy explosion

The "pasha" skirt is the latest. You can make one by sewing two flour sacks together down to a little below the middle and punching holes through the bottoms. Try it. We haven't time.

THIRTEEN TRAVEL ON ONE TICKET.

Tangier, March 16.—A despatch from Fez says that the entire army of the Sultan of Morocco has been surrounded south of the city by an overwhelming number of tribesmen. Retreat has been cut off and unless reinforcements reach the army, all the 3,000 Government troops will be massacred.

CRIPPEN CASE IS DUPLICATED

WIRELESS TELEGRAPHY FACILITATES CAPTURE OF FLEEING ALLEGED MURDERER.

Leader of Russian Band—As Result of Messages Flashed Across the Atlantic—Fugitive Arrives in New York in Irons.

New York, March 16.—Wireless messages flashed over the Atlantic for three days by the operator on the American liner St. Louis, which docked to-day, led to the arrest on the German liner Zerten, of a man who is accused of being the leader of a band, which last January, murdered a pawnbroker, his wife, cashier and typist, in the little town of Mistowitz, Russia.

LIKE CRIPPEN CASE.

The dramatic capture of the accused slayer after he had escaped the dragnet of the Russian detectives has only one parallel in the police annals of the world. It is the case of Dr. Hawley Harvey Crippen, the dentist who was recently hanged in London for the murder of his wife, Belle Elmore.

KILLS A GUARD AND ESCAPES

SENSATIONAL OCCURRENCE AT AN ASYLUM CONDUCTED BY BELGIAN MONKS AT LONGUE POINTE.

Montreal, Que., March 16.—Left by his keepers tightly strapped to his bed, with his hands menacled in front of him, Auguste Panneton, 25 years of age, an inmate in the St. Benoit Joseph Asylum at Longue Pointe, managed to escape on Tuesday night by tearing away the iron bars in a small window over the door of his cell. Outside he killed Francois d Haine, a guard, who tried to capture him, beating out his brains with a length of lead pipe which he had evidently concealed in his cell. He then liberated another patient, Raphael Gadbois, and both escaped from the asylum. Neither had been recaptured up to noon to-day.

An attempt was made to keep the tragedy quiet by the priests who conduct the institution, a sect of Belgian monks. The coroner was notified however, and he immediately ordered an investigation. Special officers were started out this morning to hunt for the escaped lunatics.

It is feared that a second tragedy may follow that of Tuesday night, if the men are not speedily recaptured. Panneton is the son of a prominent banker of Three Rivers, Que., and his insanity seems to have taken the form of an intense hatred of his parents. The priests of the asylum told coroner McMahon that Panneton had several times remarked that if he ever succeeded in escaping he would go straight to Three Rivers and kill his father.

How Panneton succeeded in relieving himself of his bonds and loosening the heavy iron bars that covered the window is a mystery. This is the point which is being investigated by the coroner and police. No one witnessed the escape or the killing of the guard.

Oil, Oil, Beautiful Oil! For the Sts. This Year

The City Board of Works arrived at the conclusion that they would exercise their own judgment as to street sprinkling this year—by oil or water. It had been, it was offered, impossible to secure a concensus of opinion from citizens regarding the use of oil, which, like the Reciprocity Pact, had its opponents and its supporters. Consequently the Board must assume all responsibility and exercise the courage of its convictions which was decidedly in favor of oil. They will so report to Council at the next meeting.

Ald. Graham—"I am in favor of oil, as much as possible. But I think that George street in the centre of the town should be oiled as late on Saturday evenings as possible."

Ald. Morgan—"The Ashburnham people want their streets oiled, whether the rest of the citizens do or not."

Ald. Brown—"I say, sprinkle the streets with oil, as water does not satisfactorily allay the dust nuisance. Some caution should be taken, however, to keep down the odor. Perhaps a better quality of oil could be used this year than was sprinkled on the roads last year!"

The City Engineer reported decidedly in favor of oil.

Ald. Graham offered that one of the confectioners had told him that were the streets oiled between 11 and 12 Saturday nights, he would not object to the process, as at that hour all confectionery on hand is put away in cases until Monday morning.

The City Engineer remarked that all dealers in oil for street purposes admit that there is no way of eliminating the odor, but that of evaporation, which takes place in from 24 to 36 hours.

Ald. Graham moved, seconded by Ald. Duncan,—That oil be used generally this year for street sprinkling—Carried.

The business section of the city will be sprinkled Saturday nights, between 11 and 12, if the committees recommendation to Council is adopted, which it will be unless sufficient protest is forthcoming to warrant deference by the City Fathers to public opinion in favor of water.

Four Boats Missing and Vessel Burned off the City of Cleveland

GIRLS FIGHT ARMED MARSHALLS.

Lexington, Ky., March 16.—Two mountain girls, Bettie and Nannie Paskett, seventeen and eighteen respectively, assisted by their mother, Maria Paskett, fought off Deputy U.S. Marshal J. M. Potter, and a posse at Long Fork, Pike County, to-day, when they attempted to arrest Chas. Paskett, charged with moonshining.

Bettie Paskett fought with a shot gun, while her sister used a revolver. Chas. Smith, a member of the posse, was fatally wounded. Garfield Smallwood, another member, lost a finger. Reinforcements have been sent to arrest the women.

TUG CAPTAIN REPORTS HAVING SEEN BODIES FLOATING OFF CLEVELAND.

It is Feared That Four Other Tugs Have Met the Same Fate as The Silver Spray.

Cleveland, March 16.—The tug Silver Spray, of Erie, Pa., foundered this morning in a violent gale outside Cleveland harbor and the eight men on board were drowned.

They were: James Purdy, Captain; Charles Purdy, Charles Purdy jr., Robert Watts, engineer; and Thomas Reed, of Erie, Pa.; Edward Holmes, Charles Brasse and Henry Anderson of Cleveland.

The Silver Spray and another fishing tug, the Sisco, left Cleveland yesterday. The violence of the gale which sprang up last night aroused uneasiness for the safety of the tugs and a search was instituted during the night.

The Silver Spray belonged to Erie, Pa.

Several small craft were driven int the lake by the icy wind and were rescued with difficulty.

The Effie B. Missing since yesterday morning, made her way into the harbor at 4 o'clock this morning. Her crew of eight men were almost frozen.

Erie, Pa., March 16.—In addition to the Silver Spray that went down off Cleveland this morning, four other tugs are missing, and it is the opinion of lake men, that they have met the same fate as Captain Purdy's Silver Spray. The missing tugs are: The Lloyd May, Monarch, Jerold B, and The Swan.

The Lloyd May is commanded by Captain Charles Purdy, the father of Captain James Purdy who went down on the Silver Spray.

The Monarch is owned by Murphy Bros., of this city and the Jerold B. is commanded by Captain C Bryce.

Do you know that fully nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp, or chronic rheumatism, and require no internal treatment whatever? Apply Chamberlain's Liniment freely and see how quickly it gives relief. For sale by all dealers.

THE WEATHER.

A little higher temperature.

Crown Point, Ind., is going to establish a number of bumps for the purpose of reducing the speed of automobiles as they pass through that place. As most of the automobiles that reach Crown Point bear eloping couples from Chicago, we are led to suspect that somebody has a pernicious desire to disturb love's young dream.

Disastrous Ending of a Remarkable Career

New York, March 16. George H. Munroe was found guilty to-day in the Federal Court of using the mails to defraud in connection with the sale of stock of the English, American and Canadian Marconi Wireless Telegraph Companies. Judge Hough sentenced him to three years in the Federal prison at Atlanta. Munroe operated as a stock broker under the firm name of Munroe & Munroe.

Munroe is alleged to have secured $500,000 by his operations.

COUNCIL DECIDES WEIGHING OF COAL ON MARKET SCALES MUST BE PAID FOR

Ald. Brown gained his point last night, and succeeded in getting the market by-law amended to provide that all coal weighed on the market scales shall be paid for at 5c a load. Ald. Duncan, chairman of the Property Committee, reported, recommending this change.

Ald. Brown explained that in raising this question, he did not wish to either favor or injure anyone. The paying for weighing of coal would enhance the value of the market tolls and incidentally bring into the city much increased revenue. As to this proving a hardship to the poor, well any citizen who can't afford the 5c charge per load for weighing, let him leave his name with the market clerk, and he (Ald. Brown) would pay the toll. In 1905 the present by law was passed, imposing upon the Chief of Police the duty of having up to 80 loads of coal weighed on the market, the city to pay the toll, and this clause should be lived up to. The poor man has evidently not taken advantage of free weighing of coal for, whereas when he was market clerk some 80 loads were weighed for domestic purposes, this number has almosted down to twenty-three loads weighed by Mr. Fisher on the market scales last year for domestic use. But coal for the Armouries, the customs house, the post office, and all large buildings, is weighed on the market scales, and he could not see why either the city or the market clerk should lose the legitimate revenue therefrom.

Ald. Morgan said he had introduced the by-law allowing for free weighing of coal as a protection for citizens at large, and he did not propose to add 5c a load to the present price of coal—$7.50.

Ald. Duncan moved, seconded by Ald. Brown, moved the adoption of the report.

Ald. Morgan and Anderson moved that the clause providing that coal weighed shall be paid for, be struct out.

The amendment lost, and the report carried.

The by-law was then read and adopted. All coal weighed on the market scales hereafter will have to be paid for at 5c the load. Any coal weighed under instructions from the Chief of Police, up to 80 loads will be charged to the city.

Ald. Duncan reported that the local post office has refused to carry mail to the Isolation Hospital on account of its distance and lack of sidewalks, unless by special ruling of the department.

Ald. Duncan was instructed to request Postmaster Stratton to ask the ruling of the department to this effect, and was authorized to have a post box erected at the gate to the hospital.

Sixty in Peril On The S. S. Manchuria

Washington, March 16.—Sixty men are in peril to-day aboard the stranded British steamer Manchuria, that has been ashore on the Virginia coast, thirty miles south of Cape Henry, for about a week.

The little island life-saving station has reported to the U.S. life-saving service here that an intense northwest storm is raging, and the vessel is in danger momentarily of going to pieces.

WOMAN'S AUXILIARY.

Of St. John's Church Held Annual Meeting—Election of Officers.

St. John's branch of the Woman's Auxiliary held a most successful annual meeting last Tuesday afternoon. The attendance was large and all the reports presented showed an advance in the work.

The 25th Anniversary Thank Offering collection was a good one, with prospects of an increase from absent members. The following officers were elected:

Hon. President—Mrs. Vernon.
President—Mrs. J. C. Davidson
1st Vice-President Mrs. A. Stevenson.
2nd Vice-President Mrs. Campbell.
Secretary—Miss Mencke.
Treasurer—Mrs. Aylmer.
Dorcas Sec'y—Mrs. Best.
Lit. Sec'y—Miss Archer.

Delegates to Toronto Annual—Mrs. Davidson, Mrs. Stevenson, and Miss Mencke.

Substitutes—Miss McClellan, Mrs. Turner, Mrs. Morris (Juniors.)

WEDDING BELLS.

The wedding was solemnized at the Knox Church manse on Wednesday night at 8 p.m., of Stephen John Watson to Miss Mabel Irene Sharpe, in the presence of witnesses. The ceremony was performed by Rev. H. J. Keith. Mr. and Mrs. Watson will reside on Sherbrooke street.

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Stomach and Liver Tablets, keep your bowels regular and you will avoid these diseases. For sale by all dealers.

City Board of Works in Session Last Night

The City Board of Works met last night at 7.30. There were present: Mayor Morrow, chairman Ald. Metheral, Aldermen Duncan, Graham, Anderson, Brown and Morgan.

The Engineer reported as to complaints of dumping objectionable garbage on the river banks, which is contrary to law.

The chairman and City Engineer were instructed to take whatever action is necessary to stop the nuisance.

HARVEY STREET SEPTIC TANK

The Board was notified that the plans and specifications for a septic tank for receiving sewage from the Harvey-Waterford streets district had been approved of by the Provincial Board of Health, providing, however, that should said septic tank become a nuisance, or be considered not satisfactory by the inspector for the Provincial Board, necessary steps be taken to provide other sewerage facilities for the district named.

The Board will enquire if septic tanks have ever proven unsatisfactory elsewhere before the city proceeds with the installation of the septic tank under consideration. It would be an expensive matter to install the tank and run chances of its being reported as unsatisfactory by the Provincial Board inspector.

The Otonabee Navigation Company wrote that they will have their store house on Mark street, approaching the wharf, removed as soon as possible.

NEW WALKS AND STEPS AT VICTORIA PARK.

The Board went into the question of the Horticultural Society's application for a grant of $200 to assist in building a new concrete walk and steps in Victoria Park. The County Council has agreed to give $100 for this purpose providing the city grants $200. The chairman and the Engineer were instructed to consult with the Society as to details regarding the proposed work, and report back to the Board.

SURFACE WATER.

The Engineer was instructed to report as to the miniature lake of surface water that forms on Weller street every spring and in rainy weather; also to investigate other spots in the city where water gathers and becomes a nuisance.

On motion of the Mayor, seconded by Ald. Graham, the Engineer was authorized to construct a surface drain on Hunter street from West side of Aylmer street to the Creek, and catch basins at each of the four corners, with an intermediate one if necessary. The work to be done this year.

GRADER AND SWEEPER.

Ald. Graham moved, seconded by Mayor Morrow,—That the chairman and Engineer be authorized to purchase a light street grader.—Carried.

Ald. Graham moved, seconded by Ald Brown,—That the chairman and Engineer report as to the cost of a street sweeper.—Carried.

CEMENT FOR CONCRETE WORK

Ald Metheral reported that probably cement could be purchased this year for $1.60 or less than last year.

The Mayor moved, seconded by Ald. Anderson,—That the chairman advertise for the cement required this year in the customary manner.—Carried.

How to cure a cold is a question in which many are interested just now. Chamberlain's Cough Remedy has won its great reputation and immense sale by its remarkable cure of colds. It can always be depended upon. For sale by all dealers

Royal, Afternoon 5c, Evening 10c

FIND OUT IF YOU HAVE CATARRH

Don't Wait Till Consumption Develops, Cure Yourself Now.

CATARRHOZONE.

In the discovery of this wonderful curative medicine the entire race is given freedom from Catarrhal diseases, including Asthma, Bronchitis and Throat Weaknesses.

Is catarrh in your nose?
Does it affect your hearing?
Is your throat husky?
Are your eyes watery?
Is your breath offensive?

These are the indications of Catarrh—now why continue to live in misery when cure is guaranteed with Catarrhozone? So sure is Catarrhozone to cure that thousands recommend it—tell of its wonderful merit after being cured themselves. Read this:

How Catarrhozone Cures.

Miss Worrel is a resident of Clarksville, Da., and has been the means of pointing the way to health of many of her friends.

"I received such extraordinary benefit that I have induced many of my friends to use it also. My catarrh was so bad a year ago that I despaired of ever getting cured. I am sure my lungs were somewhat affected also. The relief I got from Catarrhozone was remarkable. I improved under this treatment very quickly, and was cured so thoroughly the disease has never returned."

Get the large dollar size of Catarrhozone; it contains a beautiful hard rubber inhaler and medicine that lasts two months. Smaller sizes, 25c and 50c each. Beware of imitations—accept only "Catarrhozone," sold by all reliable dealers or by mail from The Catarrhozone Company, Kingston, Ont.

THE MORNING TIMES

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

TIMES PRINTING COMPANY,
Publishers and Proprietors,
Peterborough, Ontario.

FRIDAY, MARCH 17, 1911.

ENGLAND'S EXPERIMENT WITH GOVERNMENT TELEGRAPH.

We printed a few days ago an article in the London Spectator which tells an interesting story of England's experience with the government telegraph. That this article is written with a strong bias against public ownership of public utilities is clear, but we have no desire to get into the question of advocacy on one side or the other. We wish merely to call attention to the recital of fact and to suggest that the points that are made deserve consideration wherever problems of governmental efficiency are being studied.

It appears that when a plan for the purchase of the telegraph by the postoffice was brought up an enthusiastic postoffice official, Mr. Scudmore, deceived himself and others with estimates that were more imaginings. The purchase price jumped from £2,500,000 to £7,000000 by the time the government bought, and then £4,000,000 was added owing to a little oversight. It was discovered after the deal had gone through that the telegraph companies did not have a freehold interest in their wires along the railroads, as was supposed, but that their interest was in leases only, and so it was necessary to settle the claims of the railroads.

Now as to the business. Dreams of a net revenue of 8.8 per cent on the capital were dissipated. No interest at all was paid on the capital out of profits after the second year. The system is kept going by government grants, and is a charge against the taxpayer. The cost of working the lines has increased, gross revenues are below gross expenditures, rate reductions have been an unprofitable venture. At this date there is a commercial loss of £35,000,000; each year there is an additional loss of £1,000,000; the working cost per thousand telegrams is more than it was thirty years ago. It is proposed, therefore, by critics of the system that instead of perpetuating it and acquiring the business of the National Telephone Company as well the government should create a new authority to take over both utilities.

We shall say nothing of the new scheme, but it is obvious that if the facts are honestly presented they constitute a very severe arraignment of government management.

RAILWAY MEN NOW HAVE OWN HOTEL

Built Jointly by the Companies for Benefit of Engineers and Those Working Excursion Trains

A novel hotel was opened in Blackpool, England, not long ago. It has been built by the joint railway companies for the benefit of their engine-drivers and guards working excursion trains into the town, and who have to stay over night. Hitherto, they have had to find lodgings where they could, and in the height of the summer season this has been no easy matter.

In future they will be able to go to their own luxurious "Railway Hotel," where they will be able to obtain a good meal, a refreshing bath, and a quiet rest. The imposing premises are situated on the side of the line just before entering Central Station. There are about fifty bed-rooms, with space for a score more, if needed. Shops occupy the ground floor. The first floor is given over to a large reading-room and dining-room, fitted with fifty lockers, in which the men may store victuals they may take with them.

There are also a kitchen, half a dozen bath-rooms, and room for drying wet clothes. The dormitories are on the second and third floors, divided into cubicles. The roof is flat, and here the guests may recline on seats and enjoy the sun and sea air.

SEVEN LATER WONDERS

The Last of Modern Wonders is the Ship Lusitania

Of the seven modern wonderworks of the world not one is American, says a writer in "Harper's Magazine." One of them, 400 years old, has its inspiration in religion—St. Peter's at Rome, the largest church ever built; the second, 100 years old, is the greatest triumphal arch ever erected, commemorating the victories of the great conqueror Napoleon I., the other five are modern engineering works. Of the utilitarian works the Suez Canal easily comes first. The next great engineering work was also French, the Eiffel Tower, rising 1,000 feet into the air. The third great wonder is the Firth of Forth Bridge. The fourth modern wonder is the St. Gothard tunnel, 13 miles long, under the Alps. The seventh and last of the modern wonders are twin cousin ships, the Lusitania and Mauretania.

CAUSES OF SEA TIDES

Attraction of the Sun and Moon Upon the Water

A correspondent of "Science Siftings" asks how does science explain the law of gravitation. Why do all bodies attract or repel each other? Why moon has influence upon tides? Can that be explained by opposite electrification of these two planets (moon and earth). The answer is that no explanation for the fact of the gravitation of matter has ever been found. The attraction of the sun and the moon upon the waters of the earth produces the tide. There is no reason to suppose that electricity has any part in the production of tides. On the side of the earth towards the moon, the water is nearer the moon than the solid earth, and is attracted more than the earth. This lifts the water up in a tide.

THE SOLDIER ARCHBISHOP

Dr. Maclagan's Good Story Against Himself

Born on the anniversary of Waterloo in 1826, it was suggested to the father of Dr. Maclagan, the ex-Archbishop of York, that the boy should be a soldier. "But it is Sunday," said the nurse: "he ought to be a minister." As events turned out the infant pleased both, for after serving four years in the Army his thoughts turned to the Church, and he ultimately became an Archbishop. He was a wonderful church-worker and a noted raconteur. Furthermore, he was not above telling a story against himself. Staying at the house of a well-known peer he, as his custom was, rose early to take a before-breakfast stroll, during which he met his host, and together they paced the gravel in front of the windows. Suddenly a voice cried from one of these: "George! George! Don't forget that you haven't brushed your teeth and you haven't said your prayers." The Archbishop, to whom these homely admonitions had been addressed by his wife, left, looking guilty, to perform these forgotten rites.

BIRD CHORUS AT DAWN

The bird chorus at dawn is of daily occurrence, and nothing quite like it is to be heard for the rest of the day. It begins and ends suddenly. After about an hour comparative silence falls; the day's work has begun—the serious business of seeking food, building nests, and tending the young. And whether it is because they are so particularly busy I do not know but there is no better time than the very early morning in all the day for watching birds. They are never so approachable as then, and, paddling about in the dew-laden grass, with unstockinged feet thrust into an old pair of tennis shoes, I have found myself on such friendly terms with them as I knew that, later in the day, they would not tolerate.

A FATAL LOAN

A fatal loan was mentioned at an inquest held at Hackney on a two-year-old child who had been burned to death. The mother said she once had a fireguard, but some time ago she lent it to a neighbor who had omitted to return it.

School Report.

Report of S.S. No. 5, Belmont, for the month of February, names in order of standing:

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for purchased homestead in certain districts. Price $3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Boys' Mass Meeting.

A mass meeting for boys and men will be held in St. Andrew's church next Sunday at 4.15. Boy scouts invited to attend in a body. The lovely time of youth is our Italy and Greece, full of gods, temples and bliss, but which, alas! so often goths and vandals stalk through and strip with their taloss." Boys, come to St. Andrew's Sunday, March 19th and hear about the Goths and Vandals. Bring your father; they were boys once, maybe they are boys yet. Sometimes we do not count a man's years until he has nothing else to count.

ADVERTISE IN THE TIMES.

Former General Haskell of Oklahoma wept when he heard his virtues enumerated by an after-dinner speaker. It doesn't take much to affect some people.

A high official in Rome committed suicide because his daughters insisted on wearing harem skirts. The cable does not tell us whether they wore their harem skirts to the funeral.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise ofearning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

THE GOLD QUEEN MINING COMPANY,

FIELD TELEPHONES

A Travelling Office Which May be Used in Future Wars

For many years the armies have had their field telephone and telegraph lines. The wire to construct these lines, the instruments, and all other accessories, were carried in wagons; but development to that extent that permits of their being carried by a person or on horseback is of recent years. At first a fine wire was unwound from small reels as the advance was made. If this line was to become a semi-permanent one, the wire, says Major B. W. Atkinson, was elevated upon lances stuck in the ground by signal corps, men following the line as it unrolled, or it might be placed upon the branches of trees or other supports.

In carrying this delicate line of communication to the front it was necessary, whenever the person transporting the line wished to communicate with the rear, for him to stop, and by driving a metallic pin into the ground and attaching the wire the connection was made and communication could be held. There were two great drawbacks to this system. Communication could not be made without stopping and making the ground connection. It occurred to an officer that it might be possible to make the horse the means by which the grounding of the wire could be obtained, and thus do away with the necessity of dismounting and driving the metallic pin.

After several experiments he met with success, and the moving "telephone and telegraph office" is the result. This is accomplished by placing a small piece of copper, properly connected with the instrument, against the body of the horse, and as the horse has always one or more feet on the ground while moving at any gait, except the gallop, which would seldom be resorted to, a connection is made through the animal's body by way of its hoofs.

Experience has shown that few horses object to the slight electric sensation after one or two trials, and they soon travel along without minding it at all. This moving office (it is both telephone and telegraph, for the telegraph buzzer is used) has played an important part in field manoeuvres held during recent years. When a mounted operator is sent out to accompany a reconnoitring party, a flanking detachment, or any body of troops whose duty takes them away from the main body, it is possible for the Commander of the main body, by means of this travelling office, to keep informed of what is going on in the direction of the patrol. The officer in command of the detached troops simply rides at the side of the operator and dictates a message to him to be repeated by telephone or sent by the telegraph buzzer, or takes the telephone receiver on this telephone (it is both a transmitter and a receiver) and talks direct to headquarters. Of course, when the "office" is halted for some little time, the ground connection is made to relieve the horse.

This little travelling office will highly play an important part in future wars, for it will take the place of many mounted orderlies. The recent Russo-Japanese War presented the spectacle of one general commanding a force that operated over a front of 40 miles in length. The old-fashioned "wig-wag" of the signal corps would be unable to transmit orders so rapidly as necessary on such fields of operations, and therefore the telegraph will take the place of mounted messengers.

DON'T NEED UNDERTAKERS

Neither Chemists or Doctors Wanted in Cobena, Spain

There is at least one spot in the world where everybody is happy, prosperous and well. The only people who don't get on there are chemists, doctors and undertakers.

In the village of Cobena, near Madrid, disease and death are practically unknown. Two years ago, the local chemist, in despair, gave up the sale of drugs, and took to selling sweetstuffs and confectionery. As there hasn't been a death for eight years, half of the cemetery has been turned into pleasure-garden and the undertaker has fled the place.

The doctor, who had been living for years on his capital, hoping against hope, recently decided to emigrate. The inhabitants generously decided to raise a subscription to help him on his way; but, no—he would not accept charity from those who had so persistently declined to oblige him in the usual way.

LIVING PICTURES THAT TALK

After months and months of experimenting Mr. Thomas Edison, the famous inventor, has perfected the "Kinetophone," or talking picture-machine. According to the inventor himself, it has proved one of the most difficult problems he ever tackled. Before a specially invited audience, the other day, he gave an exhibition. On a screen appeared a lecturer, who described the new machine. In the synchronization between his words and his gestures there was no flaw. Then came a frock-coated juggler. He threw an iron ball on the floor, and there was an accompanying crash. He dropped a plate, and one heard it smash; and when he pressed the bulb of a motor-horn, it "honk-honked."

NEWFOUNDLAND'S WEALTH

The riches of the encompassing seas are practically inexhaustible. Newfoundland has the largest cod fishery in the world. The great banks, 600 miles long, are but a day's sail from St. John's and the whole Atlantic coast of Labrador, 1,100 miles long, a fishing ground of incalculable wealth, is under the jurisdiction of Newfoundland. Land can be obtained from the Government of Newfoundland on easy terms, practically free, and intending emigrants have only to make inquiries at the Crown Lands Department at St. John's, Newfoundland, to obtain all information required.

THE APPLAUDER OF PLUCK

He was sitting on one of the seats on Primrose Hill reading a review of the cricket season, and now and then he sighed and glanced at me. At last he spoke. "It's a hard thing," he said, "to have seven dull months before you."

I agreed.

"No fu nin life for me," he went on, "until next May."

"I'm very sorry," I said. "Are you ill?"

"No, not ill," he said; "merely without any motive, any real interest."

"But winter has plenty of entertainment," I suggested.

"Not for me," he said. "Cricket's my game. I care for nothing else."

"Oh," I said, "I see. Do you play much?"

"No, I don't play at all," he replied, "I look on. I never miss a match at Lord's, and if there's nothing at Lord's I go to the Oval. I have a kind of semi-official position."

"Indeed," I said. "What is that, may I ask?"

"It's not paid, of course," he answered. "And the M.C.C. have nothing to do with it. As a matter of fact, I lead the applause on both grounds."

"That must keep you busy," I said.

"Oh, I don't mean all the applause," he explained. "I don't clap everything. The applause that I lead is not for strokes, but for heroism."

"I don't quite understand," I said.

"Well," he continued, "you must often have seen a batsman get a nasty knock from the ball? Yes? Well, then you have noticed that he stops a moment or two to rub his leg, or stands," while very often the wicket-keeper pats him on the back?"

"Yes."

"Very well, then, when he has done and resumes batting, there is a ripple of applause round the ring, isn't there? I lead that."

I congratulated him.

"Yes, I felt that such courage and endurance ought to be recognized, especially after attending a match of two where no notice was taken of it, so I took up the thing seriously."

I congratulated him again.

"But this has been a bad summer," he said. "Too wet. The ball rarely rose. A dry summer is the time! But it's all over now, anyway. No fun till next May."

"What about football?" I asked. "That's full of injuries."

"Oh, I can't stand football," he said. "It's too cold. Besides, injuries are part of the game. No, I'm a cricketer all through, that's what I am."—Punch.

SMALLEST POLICE STATION

Recently Erected in Hyde Park, and Fitted With Telephones

Probably the smallest, but certainly not least efficient police-station in London, England, is the one which has recently been erected in Hyde Park. In outward appearance it differs but little from the many policemen's shelters so often to be seen in our parks and open spaces.

The similarity, however, soon disappears, when the interior is inspected, for there are telephones fitted for the use of the police, by means of which communication can be made all over London.

Hyde Park is essentially the platform of free speech, as well as the best open-air pulpit in the country. Sometimes religious meetings are interrupted, and differences occur in the crowds harangued by the many orators who resort to the park to propagate their views. If it were not for the ever-vigilant police officers these minor disturbances might spread and assume proportions which would be serious.

With the aid of this diminutive police-station, however, reinforcements can very quickly be brought on the scene, so that in future serious conflicts between rival factions at Hyde Park should be conspicuous by their absence.

NOTHING BETTER

Nothing can be too high, or too great, or too good, for a man to do than to spend his life in the services of the class from which he sprang.—Mr. Herbert Burrows.

Are You Going West This Spring?

If so, there are abundant opportunities to do so, via Grand Trunk Railway System to Chicago and thence connecting lines. Low rates every day to Manitoba, Saskatchewan and Alberta. Exceedingly low rates each Tuesday, March 14th to April 25th inclusive, to principal points in Saskatchewan and Alberta, including points on Grand Trunk Pacific Railway. Reduced rates for one-way tickets, March 10th to April 10th inclusive to Vancouver, B. C., Spokane, Wash., Seattle, Wash., Portland, Ore., San Francisco, Cal., Los Angeles, Cal., Mexico City, etc. Before deciding on your trip, consult any Grand Trunk Agent, or address A. E. Duff, District Passenger Agent, Toronto, Ont. M11t16

Failed to Cure Rheumatism.

Miss Flora Chapman Vividly Describes Her Sufferings and Ultimate Cure with "Nerviline."

"After being an enthusiastic user of Nerviline for years, I feel it my duty to tell you personally what your wonderful preparation has done for me.

"I suffered torture from rheumatism and heart trouble, tried scores of so-called remedies, consulted for weeks and months with Toronto's most eminent physicians, but derived only slight benefit.

"A friend insisted on my using Nerviline, and to my surprise a vigorous rubbing of this powerful liniment eased the pains and reduced the stiffness in my joints. I continued to use Nerviline and was permanently cured. I am now perfectly well, and for three years have had no rheumatism at all. I know many families where no other medicine but Nerviline is kept—it is so useful in minor ailments like earache, toothache, neuralgia, coughs, colds, lumbago and sciatica. I call Nerviline my "Life Guard," and urge all to try its merit."

CURED 3 YEARS.

Dec. 17th, 113 Palmerston Avenue, Toronto.

Refuse anything else offered instead of Nerviline. 25c per bottle, five for $1.00. All dealers, or The Catarrhozone Co., Kingston, Ont.

A meeting of the Ladies' Aid Society of St. Andrew's Church, took place last night in the church parlors and some business of importance was transacted.

Passed With Honors.

At the mid-winter examinations of the Toronto College of Music, Miss Edith Leadbetter and Master Edward Frith, pupils of Mrs. Greenslade, passed their piano examinations with first-class honors.

Thank Friends.

The family of the late Mrs. Pennington Alexander desire to thank the friends who showed so much kindness during her sickness and for the expressions of sympathy on her death.

Funeral To-Day.

The funeral of the late Stephen G. Hetherington will take place this afternoon from the family residence, 500 Charlotte street, to Little Lake cemetery. The service at the house will take place at 2.30 o'clock and the funeral will leave the house at 2.45.

Mr. E. A. Peck Nominated.

Of the fifty-nine candidates nominated for Benchers of the Law Society of Upper Canada, Mr. E. A. Peck of this city, is one of those in the field.

Postponed One Week.

Owing to a change in Miss Macdonald's Ottawa programme, her visit to Peterborough has been deferred one week. She will tell the interesting story of life in Japan on Sunday afternoon, March 26, at 4.15 and will also speak in the Y.W.C.A. drawing rooms on the following Tuesday afternoon.

A Lone Porker.

A good-sized pig slowly meandered down George-street yesterday, occasionally pausing, to take a look at his surroundings. The porker may have been on his way to the Matthews pork packing establishment. He did not even meet a policeman, or was his pigship interfered with in any way until lost sight of near the C.P.R. station.

J. Lockie Wilson To-Night.

J. Lockie Wilson, will be the chief speaker at the Agricultural Societies' dinner this evening at the National Hotel. His address will deal with stock raising and farm matters generally. There should be a good attendance from town and country.

Will Also Apply to Peterborough.

Lindsay Warder: At the conclusion of the police court proceedings held yesterday afternoon, when a local citizen was fined for assaulting a fellow man, His Worship, Magistrate Jackson, commented on the number of unemployed men in Lindsay who were able to spend their time in the police court. He thought that they might be better employed elsewhere, and he would be glad when the railway and saw mill work would be in full swing.

State of Ohio, City of Toledo, } ss.
Lucas County.

Frank J. Cheney makes oath that he is a senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn before me and subscribed in my presence, this 6th day of December, A.D., 1886.

A. W. GLEASON, (Seal) Notary Public

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

Closing Session To-Night.

To-night's meeting will be the last of the series of special services being held in the Knox Church. Rev. Mr. Woodside will leave on Saturday morning to be in his own pulpit for Sunday. Mr. McBratney will go to Cobourg. Those who have not heard either Mr. Woodside, or Mr. McBratney, should not miss to-night's service.

Death of Samuel Stewart.

After an illness of short duration, there passed away an old and respected resident of Otonabee in the person of Mr. Samuel Stewart, of Lot 17, Con. 15. The deceased was a life long and highly respected resident of the township in which he lived. He was eighty-nine years of age. There are left to mourn his loss a widow, two sons and two daughters. The sons are J. R. and J. B. Stewart, both of Otonabee. The daughters are Mrs. R. R. Armstrong, of Melita, Manitoba, and Mary, at home. The funeral will take place to-day at 2.30, from the above residence to Little Lake cemetery.

Lindsay Shoe Store Burgalised.

Some time during Sunday night, or early Monday morning a burglar or burglars entered the Foy Shoe Store, and carried off a sum of money from the safe. Entrance to the store was gained by forcing in the front door. In some unaccountable manner the safe was opened and the money extracted—some $40 or $50 in all. No damage whatever was done to the safe, and the crook, whoever he was, covered up his tracks nicely. As there is no clue to the perpetrator of the daring theft. There have been a number of bad looking characters around the town lately, and it behooves the merchants to have their stores securely locked at night. Discretion is the better part of valour.

The Mormon Invasion.

Rev. J. W. Williams, who claims to be a Mormon elder, was in the city yesterday for a few hours on his way east. He called to pay his respects to The Times on account of an article that appeared in these columns a few days ago, dealing with the followers of Brigham Young and Joe Smith. Williams, who is a young man, claims that the Mormons no longer practice polygamy, and are the only true followers of the Divine Master. He thought the "gentile" press should not oppose them in their great proselyting movement which is going on in Europe and throughout America. When asked if the Latter Day Saints, as they prefer to call themselves, were going to send "missionaries" into Ontario, he said that they were already at work in several places, and Peterborough would undoubtedly have its turn in the near future.

WARSAW.

A large number of young people came to town last Saturday to skate but were disappointed as the ice was in much the usual condition, being softer than usual.

Mrs. Stewart Payne and her daughter Miss Marie, have returned to spend a few weeks in the village. Mrs Payne intends to move from Warsaw, having sold her property to Mr. John Dene. We hope to have Mr. Dene a permanent resident in a short time.

The stage, driven by Mr. Ernie Carveth was put on wheels on Tuesday for the first time. Sleighing is almost done, many of the farmers using the wheels.

The local saw mill is doing a rushing business. Besides their own cut, the proprietors have a large number of logs to cut for the farmers about here.

A great many are starting the sugar making. It promises to be a good season, as the sap runs exceptionally well. Mr. R. Gunn is very busy repairing sap pails and evaporator pans.

The anniversary services of the Warsaw Methodist Church, were held Sunday evening and a most enjoyable tea on Tuesday evening. A large crowd thoroughly enjoyed the dainties set before them by the ladies, while a most enjoyable programme was rendered after.

Mr. Aitkin left for the west last week. This was a genuine surprise, as most had expected him to spend the summer in Ontario. Mrs. Aitkin and family will remain here.

The Women's Institute held a very interesting and instructive meeting at the home of Mrs. Geo. Taylor last Thursday. A notable feature was that each member was called upon to give some entertainment or a good recipe to the meeting.

On Friday evening Mrs. Dave Miller entertained the Boy Scouts, giving them a very instructive lesson in bandaging. The boys are much enthused in their work.

Mr. Brown, rector of the local Presbyterian Church holds a meeting at the manse every Friday evening for the study of the lesson for the next Sunday. He wishes all interested to attend these meetings, which are very interesting and helpful to both teachers and scholars.

The local stores are displaying their new spring goods in all lines. There is much lively competition since Mr. Payne started his new store.

Mr. W. Archer of Fenelon Falls, is visiting his friends Mr. Clifford's family. No doubt Mr. Archer will receive a warm welcome.

SOCIETY EVENTS

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mr. W. Hope, of Toronto, is a guest at the Oriental.

Mr. Geo. Parent left yesterday for Portland, Oregon.

Mrs. (Dr.) Frederick, left on a visit to Campbellford yesterday.

Mr. Peter McInnis, of Ottawa, is staying at the Munro House.

Mr. Alex. G. Castleton, of New York, is a guest at the White House.

Mr. D. Lowe, of Hamilton, is registered at the Snowden House.

Mr. A. L. Andress, of Indian River is a guest at the Munro House.

The many friends of Mrs. S. D. Hall will be glad to learn that her condition is steadily improving.

Miss Minnie Walker has returned to Welcome after visiting her friend, Miss Beach, Charlotte street.

Mrs. H. F. Downey, of 298 Boswell avenue, has returned from Whitby, after spending a few days with her mother, who is very ill.

Mr. J. W. Fewer has returned to the city, after being confined to his home in Stratford for the past two months. His many friends will be glad to see him again.

ON LOVER'S GRAVE

Tragedy of Dancing Girl's Passion for Dead Aviator

Indirectly aviation has claimed another victim in the person of a young Montmartre dancing girl who was devotedly attached to the 22-year-old aviator Edmond Poillot, killed at Chartres some days ago. His death came as a dreadful blow to the girl, and her grief was such that she decided to put an end to her life. She carried out her intention in dramatic style, shooting herself on the grave of Poillot in the cemetery of Montmorire. When she heard of her sweetheart's death she hurried off to Chartres, and the scene when she was taken to see the dead aviator in his coffin was touching in the extreme. She was taken back to Paris, where she bought a wreath of roses. She followed the hearse to the cemetery on the day of burial, and was in a terrible state during the night. The next afternoon she left her home, walked to the cemetery, knelt down on her dead lover's grave, and, placing a revolver against her heart, pulled the trigger. She was found a few seconds later quite dead, her head lying on the wreath of roses, already, says the Leader, beginning to fade.

MINTO, A SPORTSMAN

Few Outdoor Diversions in Which He Does Not Excel

Lord Minto is probably the finest all-round sportsman in the peerage. As a young man at Cambridge he was so devoted to sport that he took his degree in a riding costume covered by an academic gown. Immediately after the ceremony he leaped into a saddle and galloped off to the racecourse, where he arrived just in time to win the University Steeplechase. Ever since then his success as a sportsman has been remarkable. Indeed, there are few outdoor diversions in which he does not excel, for he is a fine shot, a fearless rider, a good oarsman, and a keen angler. As a soldier Lord Minto has been through many rousing scenes. He fought with the Turkish Army in 1887, he was with Lord Roberts in Afghanistan two years later and served as Chief of Staff to General Middleton against Riel in the Canadian Rebellion of 1885. Added to this, he helped to extinguish burning Paris after the Commune, and was implicated with the Carlists on the Spanish frontier. Probably the most extraordinary event in Lord Minto's varied and interesting life, however, was the breaking of his neck and recovering after having been completely given up by the doctors. Lady Minto was a daughter of the late General Charles Grey, who was a favorite Private Secretary to Queen Victoria. Since her marriage Lady Minto has shared in a good many of her husband's adventures. Once she journeyed with him from Ottawa to Montreal, a distance of over 100 miles, in Canadian canoes, and camped out at night. On another occasion she caused a sensation by riding on the cowcatcher of a locomotive in far-away Klondike.

CHINESE CHARITY

Convert to Christianity to Devote Wealth to Salvation Work

A valuable lesson in charity is daily being given at Ottumwa, Idaho, by a Chinaman, Lin You. He is the chief assistant of a Salvation Army captain in a great work among Ottumwa's poor, and the former resident of the Celestial kingdom is using Western ideas of how to dispense charity. When first locating in America, Lin You engaged in the laundry business, and saved $20,000, which he has since spent in converting his fellow countrymen to the Christian religion. While Lin You has not completely mastered the English language, his earnestness to spread the faith has been demonstrated by his appearance at the street meetings of the Salvation Army, and therein taking an active part.

He is greatly in love with the United States, but will return to his native home and convert his brethren to the Christian religion. Lin You was converted to the Christian faith about thirty years ago, joining the Presbyterian Church in Kansas City, and ever since his conversion he has been an active church worker. He later went to Boston, where he did missionary work among the Chinese. Lin You opened a mission and during his stay in Boston converted 150 brethren to the Christian faith.

USES OF A MOUSTACHE

Dr. Paul Kleger, the famous Viennese physician, declares that the growing fashion of shaving the moustache is responsible for the growing number of patients suffering from headaches and diseases of the respiratory organs. Among 500 cases of serious headaches and diseases of the nose and throat he had counted 420 patients who had their moustaches shaved off. The moustache is of course a natural protection for the nose against the invasion of cold air, dust, and microbes. Women are not so often in the streets and wear veils to protect themselves, and their nostrils are narrower than those of men.

ALLIGATOR SHOOTS CHUTES

The very last creature that the average man would select as a trick animal is the alligator; yet even that deliberate brute can sometimes hit a swift pace. It has even been trained to shoot the chutes with easy grace. This feat is performed regularly at an alligator farm in California, the big saurian waddling up the incline at the other side and sliding down the water chutes at express train speed. At this novel farm there are five hundred or more specimens, ranging from the huge bull to the newly hatched, lizard-like youngsters. They are raised for their hides, although the sale of little fellows for "pets" and the admission to the grounds help to swell the profits of this unusual business.

DIED IN THE GOAL.

Was Committed to That Institution As Being Insane.

The inquest to ascertain the cause of death of John Chesney, who passed away in the gaol was held yesterday.

The deceased was sixty-two years of age, and was committed to the common goal on Thursday of last week as being insane. He died in that institution on Wednesday and the coroner's jury empanelled by Coroner Dr. Greer as required in such cases, found yesterday morning that death was due to paresis or paralysis of the insane.

The inquest was held in the goal, with the following jury: C. Clementi, foreman; Percy Doughty, Sam. Long, Ed. Finnis, Bert Cadigan, M. Henry, Arthur Johnson, W. Edwards, Chas. Wesley, Cecil Smith, Archie Moore, Chris. Wood.

H. Kesbitt, the gualer, was the first witness. He testified that the deceased had been committed to the goal on March 8th, 1911, as being insane. He was ill when he came and had been in a semi-unconscious condition ever since, being confined to his bed. A couple of prisoners had waited on the deceased, who had to be fed with a spoon. The witness was satisfied that he had had every care possible.

Dr. Caldwell, the goal physician, testified that he had attended Chesney from the day after he had been admitted, until his death. The deceased was lying on the floor when the witness came and had gradually became more unconscious and weaker. Although he could not say definitely as to the cause of death, to the best of his knowledge he would put it down to paresis. He did not know whether the early history of the case would correspond with the diagnosis but it appeared to be paresis at the last. He had been informed that Chesney was a temperate man and there was no reason to suppose there was any other disease. Coroner Dr. Greer explained to the jury that paresis was paralysis of the insane.

The jury brought in a verdict in a few minutes that death was caused by paresis.

Emperor William has decided to attend the coronation of King George. London critics of the Emperor are already asserting that his purpose is to make King George play a secondary part in the show.

Do not use Soap, Naphtha, Borax, Soda, Ammonia or Kerosene with GOLD DUST

GOLD DUST has all desirable cleansing qualities in perfectly harmless and *lasting* form.

The GOLD DUST Twins need no outside help. No matter what you wish to clean—dishes, clothes, pots and pans, floors and woodwork, refrigerator, bath room or what not, GOLD DUST *alone* will do all the work—and do it better than anything else.

More than that, GOLD DUST will do all the hard part of the work without your help, saving your strength and temper.

GOLD DUST is a good, honest, vegetable oil soap in powdered form—scientifically combined with purifying ingredients of magic power.

Children's Aid Society

For the care of neglected and ill-treated children. Incorporated by Act of Legislature, 1893. Information required. Informants' names kept strictly private. Office hours, 10 to 12 a.m., 1 to 3 p.m. George Cochrane, Agent and Assistant Secretary, Office, Division Court Building.

THE MINES DEVELOPING MACHINE WILL BE INCORPORATED

It is One of the Greatest Inventions of the Age for the Speedy Development of Mines

A device which will, when installed, be the means of placing hundreds of mining properties, now laying idle, on a producing and dividend paying basis. It will develop a mine in months where it now requires years. It will be the means of bringing sure and quick returns on mine investments which are now slow on account of the long time required to either reach the ore bodies or develop them to an extent which admits of productions on a large scale.

IT CAN BE USED IN ALL MINING REGIONS.
IT CAN BE USED IN DRIVING IRRIGATION TUNNELS.
IT CAN BE USED IN DRIVING TRANSPORTATION TUNNELS.
IT CAN BE USED IN DRIVING DRIFTS AND UPRAISES IN MINES AND IT WILL WORK IN ALL KINDS OF FORMATION.
IT DRIVES A COMPLETE TUNNEL, DRIFT OR UPRAISE, AND SHAPES ITS WORK ON A SCIENTIFIC PRINCIPLE.

Contracts have already been signed for the use of enough of these machines to keep a large factory busy building them for many months, and I predict that before 5 years many hundred of them will be in use.

A corporation will be organized within a short time to own and handle the machine, and it will be capitalized for $1,000,000 divided into 1,000,000 shares. One-half of the stock will be placed in the company's treasury.

YOU CAN NOW BUY PRE-ORGANIZATION STOCK AT 25c PER SHARE (either for cash or ten-payment installments) BUT YOU CANNOT BUY IT FOR LESS THAN 50c PER SHARE AFTER THE INCORPORATION TAKES PLACE.

GET IN ON THE GROUND FLOOR IN THIS ENTERPRISE. TAKE ADVANTAGE OF THE PRE-ORGANIZATION OFFER NOW.

TENDERS.

SEALED TENDERS addressed to the undersigned at Ottawa, and marked on the envelope "Tender for Illuminating Oil and Oil Fuel," will be received up to noon of the

TWENTIETH DAY OF MARCH, 1911.

for supplying and delivering 100,000 Imperial gallons more or less of illuminating oil and 55,000 Imperial gallons more or less of oil fuel made according to specifications prepared by the Department of Marine and Fisheries.

Specifications and forms of tender can be procured from the Collector of Customs at Toronto, Petrolea, Sarnia and from the Agents of this Department at Montreal, Quebec, St. John, Halifax, Pictou, Charlottetown, and from the Purchasing and Contract Agent, Marine Department, Ottawa.

Each tender must be accompanied by a deposit cheque equal to five per cent. of the total amount of the tender.

No tender will be considered except for oil strictly in accordance with the specifications and put up in packages as called for in said specifications. The cases and cans containing samples of oil submitted with tenders must also be strictly in accordance with the specifications and will be taken as samples of the packages offered.

The Department reserves the right to accept the whole or any part of the tender.

Papers inserting this advertisement without authority from the Department will not be paid for same.

DRAMATIC HALT TO CAMORRIST TRIAL

CHIEF OF BAND NEARLY BREAKS UP THE TRIAL BY SOBBING APPEAL.

Great Excitement Ensued—Change of Front Noticed in Abetemaggio, on Whom Crown is Depending to Sustain the Charges.

Viterbo, March 17.—There was a dramatic halt to the great Camorrist trial of Enrico Alfano, head of the Neapolitan society, and his 38 associates to-day, when Alfano rose in the steel cage where he is confined and addressed the court. His voice was broken by silent sobbing as he pleaded for the release of himself and his companions.

JURORS WEPT.

As he proceeded the prisoner drew a handkerchief from his pocket and held it before his eyes. So impassioned was the appeal of the prisoner that many of the spectators and the jurors began weeping. As he ended he sank upon the floor, his frame shaken by his sobs, which could be plainly heard all over the room. The petition of Alfano, or "Ferricone" as he is known, almost ended the trial for the day, so great was the excitement in the court room.

CASE MAY COLLAPSE.

That fear has sealed the lips of Giovanni Abetemaggio, the Camorrist, whose confession led to the arrest of the band of terrorists, was a persistent report circulated concurrently with the opening of court to-day. From the developments it was feared that the whole case of the Government for the extinction of the Camorra will collapse.

The belief that Abetemaggio would refuse to testify against his associates grew out of the contention of the opposing lawyers over the question whether the betrayer would testify as a witness or a defendant.

AMNESTY PROMISED.

It has been understood all along that amnesty had been promised Abetemaggio in consideration of the help he had given the carabineers in the investigation of crimes now under way. However, at the last minute, it is said, agents of the Camorra were able to get in communication with Abetemaggio, despite the heavy guard of police and soldiers maintained.

You are probably aware that pneumonia always results from a cold, but you never heard of a cold resulting in pneumonia when Chamberlain's Cough Remedy was used. Why take the risk when this remedy may be had for a trifle? For sale by all dealers!

FINE FOR DIVORCE SEEKERS.

Reno, Nev., March 17.—The popularity of the State of Nevada as a place to secure quick action in divorce cases was increased last night. The Legislature let down the bars further than they have when both Houses passed a bill making a residence of six months the only requirement in divorce actions. The privilege of leaving the State "when necessary" is to be accorded to all who are establishing a residence. The bill now goes to the Governor

WILL GOVERNMENT GO TO PEOPLE?

OBVIOUSLY FEAR RESULT OF APPEAL TO THE ELECTORS.

The Government Halts—Agitation Throughout the Country is Beginning to Bear Fruit.

Ottawa, March 17.—The Government's halt in regard to reciprocity is much discussed to-day and regarded as somewhat significant.

The reason assigned is the desire to put through supply for the emergent requirements of the public service.

There is some ground for this, doubtless, but those who follow the situation closely think that the agitation throughout the country against the pact is commencing to bear fruit.

If the Government is persuaded to go ahead at all with the proposals it has at least been impressed upon it that an attempt to rush matters will not be allowed.

A week ago nothing but reciprocity was talked and the announced action was then to push it through regardless of any consideration. One does not hear much of that now and apparently it is considered wise to apply the brakes and go slowly.

An appeal to the country is what the opponents of the pact want and what they will insist upon.

The Government is obviously afraid to let people decide, and the present hold-up, while other reasons are assigned for it, is really in the hope that the agitation will subside.

The indications, however, are that in place of subsiding, public hostility as time goes on and real effect of reciprocity is considered, will be so intensely increased as to bring about one of two results—the abandonment of the scheme or dissolution and an appeal to the country.

HON. A. G. MACKAY

LEADER OF THE OPPOSITION IN ONTARIO HOUSE.

FURNESS LINER BURNED IN RIVER

BIG OCEAN FREIGHT STEAMER TOOK FIRE ON THAMES AND WAS DESTROYED.

Forty Men All Rescued—Quantity of Creosote in Cargo—Iron Plates Red Hot to Water's Edge.

London, March 17.—The Furness Line freight steamer North Point, which sailed this morning for Philadelphia, was destroyed by fire in the Thames two hours after she left her wharf. The crew of forty were taken off in safety, after which the vessel had been beached. She carried no passengers.

The steamer was off Purfleet, about fifteen miles from London, when the fire broke out in the general cargo, which included a quantity of creosote. The flames spread swiftly and enveloped the craft, the heat being so intense that the plates were rendered red hot to the water's edge. There was barely time in which to run the vessel ashore and permit the sailors to escape.

What Comes in the Trail of the Cold

SPELLS DANGER UNLESS YOU CURE IT WITH DODD'S KIDNEY PILLS.

Peel County Man Tells of Three Months Pain, that He Found a Complete Cure for, in the Great Canadian Kidney Remedy.

Rockside, Peel Co., Ont., March 17—(Special)—In these days when nearly every one has a cold and the cold brings on some form of Kidney Disease, the statement of Ernest F. Davidson, a well known resident of this place, is of general interest.

"When I would bend over," Mr. Davidson says, "a pain caught me in the small of the back, and I had other symptoms which I knew were caused by the Kidneys being out of order. It was a cold that started my trouble, and I suffered for three months. Then I started to use Dodd's Kidney Pills, and three boxes cured me so that it has never come back. That's why I recommend Dodd's Kidney Pills."

If your cold leaves you with a touch of Rheumatism or Lumbago or a pain in the back, you can be sure that your Kidneys are affected. Then you are in danger. Neglected Kidney trouble means Rheumatism, Dropsy, Grave, or Bright's Disease. The safeguard is Dodd's Kidney Pills. They always cure.

RESOLUTION MOVED BY HON. A.G. MACKAY

That the Loyalty of Canada Is a Purchasable Quantity or Saleable to the States.

The resolution which Hon. A. G. MacKay moved in the Legislature yesterday in amendment to the anti-reciprocity resolution introduced by Sir James Whitney was as follows:

"(a) That as a result of the policy which has been pursued by the Administration of the Rt. Hon. Sir Wilfrid Laurier in the development of her trade resources and transportation facilities Canada is now enjoying a period of unexampled prosperity; her trade is expanding in all directions; her population is rapidly increasing; her ability to work out her own destiny as a part of the British Empire is beyond dispute, and her people are prosperous and contented.

"(b) That in the latest achievement of trade policy, when consummated, the Administration of the Rt. Hon. Sir Wilfrid Laurier will have attained the objective of all Canadian statesmen since 1866, and will open to the producers of the natural products of Canada a vast and lucrative market, at their doors without injury to any Canadian interest whatsoever.

"(c) That Canada is, and for a long time will continue to be, an agricultural country, producing a large surplus of food products which must find a foreign market, and the free entrance of such food products into the United States will result in a very material increase in the income of the Farmers of Canada (who are the largest and most important class in the country), with a corresponding increase in the value of their farm lands and betterment in their condition of life.

"(d) That the trade agreement, which will achieve these results will in nowise restrict the freedom of Canada to make what arrangements in tariff matters she may desire with Great Britain or other countries, or to alter or vary the agreement with the United States at her pleasure.

"(e) That the proposed trade agreement with the United States for reciprocity in natural products is a measure heartily to be approved as tending to increase the prosperity and contentment of all the people of Canada;"

UPPER HOUSE PASSES ANNEXATION MOTION.

Montreal, Que., March 17.—Advice received from Nassau this morning announces that the Upper House of the Bahama Legislature has by a unanimous vote endorsed the resolution favoring annexation to the Dominion passed last Monday by the Lower House.

The successful passage of the measure through the Legislature has given rise to wild popular rejoicing.

P. C. I. Students Won the Debate

The Philomathian Society of the Collegiate Institute held an open meeting in the Assembly Hall last evening.

The feature of the evening's programme was a debate between the Normal School and the Collegiate Institute, on the following question:

"Resolved that public ownership of public utilities would be in the best interests of Canada."

The leader of the affirmative was Harold Matthews, of the Institute, and he was supported by Meredith Huycke. The leader of the negative for the Normal School was Miss Knox, and she was supported by Mr. Clubine. The judges were: R. E. Wood, K.C., E. L. Goodwill and Rev. I. Couch. The decision of the judges was unanimously in favor of the affirmative.

The musical portion of the programme consisted of the following numbers:

Violin Solo—W. Wilson.

Vocal Solo—G. H. Fergusson, B.A.

Instrumental Duet—Miss G. Gumpricht and Miss H. Greaves.

There was a large and appreciative audience. Mr. J. Harstone ably acted as chairman.

Banker's Wife Was Searched for Diamonds

New York, March 17.—Mrs. Jos. B. Hull, wife of the president of the Merchants' Bank, in Savanah, Ga., one of the richest men in the south, and her daughter, Elizabeth, were victims on their arrival on the steamship Lusitania of one of the most remarkable hunts for a diamond necklace by treasury agents in the history of the customs department.

FORCED TO DISROBE.

Under the direction of Special Treasury agent Wilson, Mrs. Hull and her daughter were taken back onto the steamer and forced to disrobe. Their shoes and even their hair were searched for the gems that the treasury agents believed the family had purchased on the other side and were trying to smuggle into this country. The search, however, failed. A few trinklets and presents that had been undervalued to the extent of a few hundred dollars were found in the trunks, but there was no sign of the necklace.

"BRUTAL AND OUTRAGEOUS."

Mr. Hull, and his son, Daniel, who is a cotton broker of this city and Savanah, were at the pier, but in spite of their protests the search was kept up. Mrs. Hull and her daughter were in tears when the search was ended and characterized the whole proceedings as "brutal" and "outrageous."

ALMOST HYSTERICAL.

When Mrs. Hull and her daughter came off the ship, they were almost hysterical. After they had been calmed somewhat Mrs. Hull said:

"This is a terrible outrage, it is a very sad ending to what she had looked forward to as a delightful home-coming. We were searched in the most brutal manner. They even made us undo our clothing and searched even our shoes and stockings, and hair."

FIFTEEN DEAD BODIES RECOVERED.

Nashville, Tenn., March 17.—With fifteen bodies recovered, all of which have been identified, and with four or five men thought to have been in the ruins at the time of the tragedy still missing, the death list resulting from the collapse of the walls of the J. H. Fall building Wednesday will, it is thought, go beyond eighteen.

Mrs. Melder Goes to Prison for 20 Years

Albany, March 17.—The jury in the case of Mrs. Edith Melber, charged with the murder of her four-year-old son last January, brought in a verdict of murder in the second degree yesterday afternoon, after being out two hours and nineteen minutes. Justice Howard immediately sentenced the woman for an indeterminate period of not less than twenty years' imprisonment at hard labor at Auburn Prison, with life the maximum. Mrs. Melber showed not the slightest trace of emotion when the verdict was rendered nor did she waver when sentence was pronounced.

Albany, March 16.—The jury in the Melber case will get the case for consideration before 4 o'clock. It is believed that the jurors will agree quickly. Opinion here favors a verdict of acquittal on the ground of insanity. She is being tried for the murder of her five-year-old son.

WOMEN CROWD IN.

When the trial was resumed to-day the court room was crowded to a greater degree than ever, women forming the major portion of the spectators.

The defence rested its case immediately after the opening of the court and Attorney Geo. M. Palmer, former minority leader of the Assembly, began his final plea for the defendant.

The defendant showed signs of suppressed excitement, but took her seat in a composed manner and studied the jurors with eyes a-squint.

Both sides rested at 10.26 o'clock. Mr. Palmer then began his summing up.

THE SUMMING UP.

Mrs. Melber wept for the first time since the trial began when Attorney Palmer pictured in pathetic words colors of her miserable life. Juror Chas. Wiltsie was also in tears and other jurors were visibly affected.

Mr. Palmer quoted from Robert Burns' "Sorrows of Man," and illustrated the treatment accorded Mrs. Melber by the Smiths and the Children's Home of Schenectady by drawing a parallel from the parable of the "Good Samaritan." His frequent Scotch quotations showed he was playing particularly on the native emotions of juror Wiltzie. Women throughout the court room were in tears as Mr. Palmer drew a life picture of a man with the world against him and only his dog as a companion, which he slew and took his own life that others might not rob him of his only treasure.

BETRAYED BY FRIENDS.

Mr. Palmer said that Mrs. Melber had been betrayed by her friends. He scored her acquaintances and relatives for testifying against her.

ADVERTISE IN THE TIMES.

Agricultural Society's Banquet a Success

The banquet given last night at the National Hotel, under the auspices of the West Peterborough Agricultural Society, was fairly well attended. The President, Mr. R. H. Leary, occupied the chair. After the good things provided had been partaken of the chairman proposed the toast, "The King", during which the national anthem was sung.

Mr. Leary, in a few well chosen words, set forth the object of the gathering and gave a brief account of the progress of the Peterborough Fair Association.

Splendid addresses were delivered by Mr. J. Lockie Wilson, of the Department of Agriculture, Toronto, and Dr. Simmons, President of the Provincial Fairs Association, both of whom imparted much information in respect to the three most important departments of Agricultural activity, viz: Farming, Stock Raising and Dairying.

Addresses were also delivered by His Worship Mayor Morrow, Warden and others.

A hearty vote of thanks was tendered Mr. Wilson and Dr. Simmons for their thoughtful and instructive addresses.

Stormy Scene Follows Charge Against Women

St. Petersburg, March 16. An extraordinary charge against women students caused a sensational scene in the Duma last evening. An interpellation on recent incidents in the High Schools was under discussion when Deputy Sheriff Ubrussoff, a member of the Extreme Right, alleged that female students during the revolutionary period consorted in gundreds with drunken sailors in order to carry on the revolutionary propaganda more successfully.

Shouts of "Down with the Black Guards," and similar indignant protests arose from the left benches and started a scene of uproar and great disorder. The President was unable to control the Deputies. Ubrussoff tried to resume speaking but in vain, and the President was obliged to ask him to leave the tribune, as the hour allowed the speakers had elapsed.

Ubrussoff's supporters raised a great outcry, and the President closed the sitting. The opposing factions rushed towards the tribune, but officials threw themselves between the two parties and prevented a collision.

St. Patrick's Day ENTERTAINMENT WAS A Great Success

The entertainment given in the Grand Opera House in honor of St. Patrick, the patron saint of Ireland, was an unqualified success. The building was filled to the roof and everyone present appeared to enjoy the presentation of the charming operetta of "The Golden Slipper," by St. Celia's Choir, assisted by 200 pupils of St. Peter's and the Convent schools, in drills, character and action songs, pantomimes, etc. The vocal selections by St. Peter's choir and Boys' Glee Club was a feature of the evening. The following was the programme:

—Part I.—

(a)—"The Isle That's Crown'd With Shamrock."

(b)—"The Irishman's Toast."

—Boys of St. Peter's School.

Vocal Quartette—"Believe Me If All Thom."

—Messrs. Henshaw, Daly, Quinlan and Hickey.

Song—"Under the Old Umbrella."

—Helen McCarthy, Joe Clancy

Vocal Quartette—"Kerry Dance."

Misses M. Clancy, K. Gannon.

Messrs. Henshaw and New.

(a)—"Hibernia's Champion Saint."

(b)—"The Day We Celebrate."

—Girls of the Convent School

—Part II.—

Character Song—"The Tall Top Hat"

—Boys' Glee Club.

Recit. and Pantomime—"Minuet."

—The Little Ones

"The Hobby Horse Brigade."

—Twenty-Eight Boys.

Song—Selected—Mr. H. Quinlan.

—Opperetta—

Act I.—"The Arrogant Homestead." Madge receives a visit from Dame Cronin.

Act II.—"The Princess' Reception. Loss of the Golden Slipper."

Act III.—"Village Maidens entertain an Emissary of the Princess Dame Cronin discloses the Secret of the Mysterious Visit. Madge is borne in Triumph to the Palace amid strains of "O, How Happy are We."

GOD SAVE THE KING.

—Cast of Characters—

Madame Arrogant—A proud and haughty dame—Miss Emma Beroober.

Her Daughters—Frieda, Miss Margaret Merrill; Stella, Miss Eileen McCabe.

Madge—A ward of Madame Arrogant—Miss Carrie White.

Princess Otillia—the Regent—Miss Ethel Jayes.

Dame Cronin—A Sorceress—Miss Lily Simons.

Lady Rosamond—Miss Florence Leahy.

Lady Revere—Miss Lilian Clancy.

Lady Osmund—Miss Eva Lajeunesse.

Eneratido, A Court Emissary—Miss Harriet Pierce.

Village Maidens, Court Attendants, Etc.

The management deserve unstinted praise for the successful way everything connected with the entertainment was put on and handled.

STATEMENT OF ONE OF THE ACCUSED—PRINCIPAL DEFENDANT IS IN ENGLAND.

The Other Five Are in Canada—Coal Matters Involved in Politics Says Mr. Francis.

Chicago, Ill., March 17.—With bench warrants served to-day on George M. Steward, George A. Ball and Pierre G. Beach, Federal officers to-day were "up a tree" in the Alaskan land fraud cases. Because of the absence of Albert C. Frost, the principal defendant, in England, and the other five in Canada, it was impossible to serve them with indictments returned by the Federal Grand Jury. The missing five are: Frank Watson Seattle; Henry C. Osborne, Gwyn L. Francis and Francis H. Stewart, of Toronto, and Duncan M. Stewart. The indictments are against the nine men and a charge that they attempted by means of a fraudulent dummy entry scheme 1,000 acres of land in Alaska, which are said to be worth $50,000,000. Frost is said to have been head of the alleged conspiracy.

Mr. Gwyn L. Francis gave the following statement to a reporter this morning:

"The real trouble is that Alaska coal matters have become involved in United States politics.

"I have no definite information, but suppose the charges are based on the provisions of the United States law prohibiting locators from taking up more than one location, and prohibiting any dealing with locators before issue of patents. Neither Mr. Osborne nor myself could locate coal claims, not being United States citizens, and we never even had any communications with any locators.

"We had no communication with anyone in Alaska Central matters except Mr. Frost, and I do not believe that he committed any breach of the United States land laws, as he has more than once told me (that more than once told me that he had been careful not to do so."

NO LINIMENT LIKE "NERVILINE"

Fifty Years' Use Proves It the Strongest, Safest, Best.

1,000,000 Bottles Sold Annually.

The unexampled success of "Nerviline" is due to the fact that it is five times stronger, three times more penetrating, more pain-relieving than any other liniment.

One million bottles used every year—think what this means! Surely stronger proof is not possible that Nerviline is a trusty liniment, a household remedy upon which mothers can depend in case of accident or sudden sickness. Scarcely an ache or a pain that Nerviline won't cure—banning the hundreds of ailments for which it is guaranteed are the following:—

Headache	Neuralgia
Sciatica	Rheumatism
Lumbago	Chest Colds
Sore Back	Toothache
Earache	Cramps
Diarrhoea	Bowel Disorders

Doctors will tell you that nothing but the purest and most healing antiseptic drugs are used in Nerviline—That's why it is so safe for general family use, for the baby as well as the parent. If you haven't tried Nerviline, do so now—your neighbors are almost sure to know of its manifold merits and uses.

Refuse any substitutes for Nerviline sold the world over in large 25c bottles, five for $1.00, all dealers, or The Catarrhozone Co., Kingston, Ont.

FINAL MEETING LAST NIGHT.

Services in Connection With Knox Church Ended.

The two weeks' special services in connection with Knox Church were concluded last night, when the church was filled to overflowing to hear Rev. Mr. Woodside's parting words. Mr. McIlretney sang very sweetly during the evening.

The meetings were a decided success, many having decided to lead Christian lives.

New York, March 17.—Mr. William J. Bryan was robbed at the Majestic Theatre of a neat handbag containing $75 and a valuable souvenir, according to information at police headquarters to-day.

A Refined Comedy Sketch
SINGING and DANCING

These are two of the best Comedy Acts that have been at the Royal since a long time. All lovers of good clean refined Comedy should not miss the Royal to-night or to-morrow. Everything in both acts is new and different from any other acts on the Circuit.

THE WORLD'S BEST MOTION PICTURE PLAYS.

Another change of motion pictures for to-night's special picture show. Some of the best dramas and funniest comedies ever seen. Edison's Selig's Biograph's etc., besides the new pictures, Selig's great masterpiece "The Padre" a tale of the early missions in California will be repeated to-night.

ADMISSION
Royal, Afternoon 5c, Evening 10c

A Sneezing Epidemic

It's Not Influenza—But Catarrh that Comes With Change of Seasons.

Every second person that you meet seems to have a nasal and stuffed feeling in the forehead and nostrils. To cure promptly, say half an hour, there is nothing worth using except Catarrhozone. You inhale its balsamic vapor, and feel as if you were among the Norway Pines. This is because Catarrhozone contains a healing medicine, light as pine air, which is breathed straight into the lungs and bronchial tubes. Away goes the cold, sneezing and catarrhal cough cease, bronchial irritation stops; in short, you are cured of catarrh by a pleasant, simple remedy free from sedative and irritants. Catarrhozone is a good safe, family remedy for coughs, colds, croup, sore throat, that may be taken by young and old with absolute certainty of swift permanent cure. Try "Catarrhozone," but beware of the substitutor who may try to induce you to take something instead of "Catarrhozone." Large size lasts two months. Price $1.00. Smaller sizes 25c and 50c. Sold by all dealers, or The Catarrhozone Company, Kingston, Ont.

THE MORNING TIMES

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

SATURDAY, MARCH 18th, 1911

MEANTIME—BIGGER NAVIES AND HEAVIER BURDENS.

The British secretary for foreign affairs, Grey, is a sincere peace and arbitration man. He is deeply appreciative of President Taft's "bold" advocacy of unlimited and unqualified arbitration; he hopes a model treaty can be negotiated between England and the United States; he regrets the constant and alarming growth of war or defense budgets; he frankly says that the same rate of growth for another generation must lead to revolution on the part of the poor and hard-working taxpayer. But—the insane rivalry in shipbuilding and army enlarging, in fortification and preparation, cannot be stopped. The most civilized nations are the worst offenders in this fatal competition, but in spite of their "civilization" and intellectual pride they must go on sowing the seed of discontent and rebellion.

Why? Because, says Grey, no single power can afford to drop out of the race, to start the reform on its own hook. England might like to limit armaments, but there is Germany. France might follow England but, again, there's Germany.

Could not an international conference be called to discuss limitation of armaments and budgets—to discuss it boldly and frankly? Yes—but—no power wants to issue the call for such a conference; it might be construed as a "sign of weakness;" the jingoes would raise a hue and cry; the fools would be thrown into panic, and the cheap political demagogues would make capital of the "dishonor" to the nation.

A vicious circle, truly. In spite of arbitration, of alliances, of peace talk, of disclaimers of warlike designs, armies and navies go on expanding and taxation grows heavier every year. There is no gain to the citizen and toiler. What incredible folly! What a tragic farce! Can't two or three powers quietly agree to sign a call for a conference to limit armaments and reduce war budgets? We offer this wonderful original idea to the wise statesmen and great powers free of charge.

MINER'S STRIKE PROBABLE IN CROW'S NEST DISTRICT.

Old Agreement Expires April 1st—Men Demand More Wages and Recognition of Union.

Winnipeg, March 16.—C.P.R. headquarters has given out the following: A big strike of coal miners is expected in the Crow's Nest district and all through the West. Two years ago there was a strike in the Crow's Nest Pass involving all the coal miners there. It was settled through the medium of a board of conciliation and the agreement expires April 1st. Negotiations are now under way for a new agreement, but it is not expected that a settlement will be reached before April 1st and it is likely that on that date work will be suspended in the coal mines in the Crow's Nest and the Canmore districts. The mines affected have a daily output of approximately 15,000 tons of coal and coke. The number of men affected is three thousand.

WANT OPEN SHOP.

The points of dispute are wages and the recognition of the open shop. The leading domestic coal miners are the C.P.R. mines at Bankhead, A. R. and I Company's mine at Lethbridge and the Canada West at Taber, and many other smaller mines.

A struggle of any duration would result in the closing of the smelters in the West Kootenay as they are dependent on the Crow's Nest for coke. It might also affect a few of the smelters in Montana.

SAVING DADDY'S EYES

Daddy was to go blind—quite, quite blind—unless he could get up to the big hospital where clever doctors gave people back their sight.

This was what Jack and Jill were thinking of as they sat on the fence that ran round Farmer Adams's cornfield.

That field was like a beautiful, golden sea now, with bright-red poppies peeping out here and there.

In a few days the reaping-machines would be at work—the corn would be gathered in.

Daddy had worked in that field last harvest-time, and now he was sitting at home, waiting to go blind, because it cost money to travel all the way to the big hospital, and he had not been able to earn any for so long.

"Jill," said Jack, suddenly, "I have got a plan! How would it be if we were to ask Farmer Adams to let us take Daddy's place in the harvesting? I am fourteen and you are nearly that, and we are both of us big for our age, and, oh, Jill, we could get enough money, perhaps, to send him to the hospital!"

"Jack," gasped Jill—"oh, Jack, do you think we really could? Do you think Farmer Adams would really let us work like that, and pay us like grown-up hands?"

"I don't know for certain," was the slow reply. "Let's go and ask him."

Farmer Adams was a big, gruff man, but his eyes were very kind as he heard their request.

"Um!" he said, looking down at them. "Want to work, do you? But you aren't old enough."

"Oh, yes, we are!" cried Jack. "And we are awfully strong! The two of us together would make up for daddy, sir; and we could take just the one wage. We know all about the corn—daddy has often told us. Could you take us on, sir? It is for daddy's eyes, you see."

The farmer frowned fiercely.

"Right!" he said. "I'll have you."

And so Jack and Jill joined the harvest hands, toiling with a right good will, their merry faces brown as berries in the hot sun.

And Farmer Adams watched them, a queer look in his eyes.

Every evening he paid them for their day's work—not one wage between them, but one each; and Jack and Jill went home bursting with pride, for this showed them he counted them as grown-up hands.

Then came the evening when the last load of golden sheaves was carted up the lane, Jack sitting astride the foremost horse, Jill walking soberly behind. She was feeling dreadfully afraid that when they counted up their earnings they would find they had not enough.

"Come here," said Farmer Adams, when the other hands had been paid off. "Here is your wage, and right well you have earned it! And here is a bit of gold for you for luck!"

Half a sovereign each! There was no fear now in Jill's anxious little heart.

"Run along!" grunted the farmer, when they would have tried to thank him. "Run along home! And God bless the pair of you!"

With beating hearts and shining eyes, they scampered up the road. And a few days later daddy went up to the hospital, where the doctors gave him back his sight.

NARROW ESCAPES

Thrilling Experiences of Sir Claude de Crespigny

Sir Claude Champion de Crespigny, who has recently given to the public a highly interesting volume entitled "Forty Years of a Sportsman's Life," is credited with having more lives than the average cat, and with possessing more marvellous good luck than any other personage in the pages of Debrett. Indeed, in his younger days it was regarded as quite in the ordinary course of things that Sir Claude's name should periodically be mentioned in connection with some particularly narrow escape from sudden death. In the matter of broken bones alone few men have been more peculiarly unfortunate than this most popular of Essex sportsmen, against whose name must be placed two leg bones, fractured in a balloon accident, three arm bones fractured whilst hunting, three ribs broken by a fall during a steeplechase, and another by a more prosaic cab accident, to say nothing of various fingers broken in boxing or by kicks from horses. To this may be added repeated visitations of concussion of the brain, none of which, however, have seriously affected his health. In his early days Sir Claude, who is now sixty-three, qualified both as soldier and sailor. He was in the Royal Navy for five years, and then spent four years as an ensign in the 60th Rifles. Since then few parts of the world have failed to witness his adventures in one form or another. He is one of the very few men who have ever crossed the North Sea in a balloon, and he is also one of the still rarer few who who have escaped alive out of the coils of a python. He has had miraculous escapes from sharks in Bermuda and falling trees in Florida. Once, in India, he got into uncomfortably close quarters with an infuriated wounded tiger, which he subsequently despatched. Sir Claude is also the only European who ever swam the narrow gut of the first cataract of the Nile, and he was among those who witnessed the accident on the warship Sultan, which so nearly proved fatal to the late King Edward, then Prince of Wales. The Prince, who had been examining the working of a new type of gun, turned round to ask one of the officers a question, when the windlass took charge, and, running round with terrible velocity, only by a hair's breadth missed the Prince's head.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for purchased homestead in certain districts. Price $3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Boys' Mass Meeting.

A mass meeting for boys and men will be held in St. Andrew's church next Sunday at 4.15. Boy scouts invited to attend in a body. The lovely time of youth is our Italy and Greece, full of gods, temples and bliss, but which, alas! so often gothe and vandale stalk through and strip with their talons." Boys, come to St. Andrew's Sunday, March 19th and hear about the Goths and Vandals. Bring your father; they were boys once, maybe they are boys yet. Sometimes we do not count a man's years until he has nothing else to count.

ADVERTISE IN THE TIMES.

Former General Haskell of Oklahoma wept when he heard his virtues enumerated by an after-dinner speaker. It doesn't take much to effect some people.

A high official in Rome committed suicide because his daughters insisted on wearing harem skirts. The cable does not tell us whether they wore their harem skirts to the funeral.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise ocearning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock-bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

AUSTRALIA'S DESTINY.

Spirited Immigration Policy Should Be Inaugurated by Island Continent.

London, March 16.—The Hon. Wm. Murray, Premier of Victoria, speaking with regard to Henderson's proposal for the building of an Australian navy, says it emphasizes again the imperative need of a spirited Australian immigration policy. With the present population, he said, the Commonwealth was unable to fulfill her destiny.

OPENED CROP OF HEN, CLEANED IT STITCHED IT UP

HEN RECOVERED AND LAID EGG ON SHELL OF WHICH STITCHES WERE REPRODUCED.

A Remarkable, True Story—Mr. Morden Neilson, the Owner of the Chicken, Has the Curiosity.

(From The Toronto Star.)

If Mr. Morden Neilson, of Gladstone avenue, Toronto, were not such a well known business man, and if he could not produce the proofs of his story, one would be inclined to put him down as the best nature fakir of modern days, for he has a tale to unfold that puts to shame any of the best efforts of people of that ilk.

HEN FILLED UP ON OATS.

About a week ago Mr. Neilson put out a liberal supply of oats for his hens to gorge themselves on, and they succeeded admirably. One of them exceeded the limit and accumulated in its crop a mass of oats that would not go either up or down.

The hen is about a year old and Mr. Neilson hated to see it die. Although not a qualified Vet. Mr. Neilson decided that he knew enough about surgical operations to at least make an experiment.

No anaesthetics were used, and though the hen did not take kindly to what was taking place, in a short while the crop was opened up. From it Mr. Neilson extracted a mass of oats about two-thirds the size of an ordinary baseball.

SEWED UP CROP AND SKIN.

Then came the delicate part of the operation. With an ordinary needle and white thread the crop was sewn up and then the outside skin was treated in the same manner. About fifteen stitches were put in altogether.

The hen was then put out in the yard, but it looked on things in a different light for some days, and developed a good sized grouch. Food that would tempt any hen was placed before it, but like a little boy who had been whipped by his mother, the food was left untasted not because it did not want it bad enough, but just because it decided that someone would be pleased were it partaken of.

BEGAN TO LAY.

In three days the grouch wore off, and the hen decided to associate with its fellows. Having made up its mind to live, it concluded that it had better get busy and repay Mr. Neilson for the trouble he went to to save its life. It thought it over for two days, and then being seized with a bright idea off it went to a nest and proceeded to lay an egg.

Mr. Neilson happened to be in the yard when he happened to see the sick pullet hop from a nest and start cackling, as hens are wont to do. he went over to the nest to see the egg.

STITCHES ON THE EGG.

It was a mishapeo, and a closer examination revealed a spot in the centre of the egg about the size of a ten-cent piece. It was as if pressed into the shell, and around it were marks just like those made on the hen's crop when the stitches were in.

"It sure is extraordinary," said Mr. Neilson. "I don't attempt to explain how it happened. All I know is that I have the egg yet, and I am going to keep. The hen hasn't laid its second egg yet, so I can't tell whether it is going to keep it up. I imagine, though, that having decided to give me a souvenir of the operation, it will now proceed to forget about it. It is now running around the yard, all unconscious of the feat it has performed, and just as happy as any of the others in the flock."

FOXES FOR PROFIT

The Skin of the Silver Fox is Steadily Rising in Value in this Country

A good deal has been written of late years as to the possibilities of raising foxes for profit, says Rod and Gun. Mr. T. L. Borrowman, of Wyoming, Ontario, is believed to be the pioneer in the field of fox raising in confinement in Ontario and he has met with a good deal of success. In the course of a recent interview he said: "The breeding of the silver fox is comparatively new, and is so full of little points and conditions that are required to make a success of it at the start, that few, unless they have acquired some knowledge beforehand, are successful at first. The silver fox is our most valuable fur-bearing animal. His skin is steadily advancing in price, and within the last five years has advanced over three hundred per cent. At the Lampson January fur sales in London, England, 1910, there were skins sold that brought as high as $3,000, so it is easily seen now how profitable a business it is. It was at one time thought that the silver fox would not breed in captivity, but they are now raised quite successfully in wire pens. They breed once a year, in March, their young numbering from three to nine, according to the age of the mother. The puppies attain their full growth by fall, and the stock is generally disposed of by then. I sell almost all my surplus stock alive, as there are a great number of people eager to start into breeding them. I have been in the business for the past sixteen years, but owing to not knowing how to handle them, was unsuccessful for a number of years, but now I have the best of success with them I think I have one of the most profitable businesses in Lambton or any other country."

SURROUNDED BY WOLVES

Blind River Man Killed Two, the Rest Being Driven Off

A story of an attack by wolves upon a hunter named Thomas Koswack is told by a local paper at Blind River. Koswack was hunting in the neighborhood of one of the Hope Lumber Company's camps when in the dark of the evening he was surrounded by the wolves. He shot and killed two, but still the fierce animals pressed upon him. Fortunately, however, the noise of the wolves and the shooting attracted the attention of those at the camp, and reinforcements arrived in time to drive off the wolves. The hunter believed his life to be in danger, and thinks he was saved only by the arrival of assistance. Bounty was claimed upon the two animals killed.

NURSERY STOCK

The Principal Regulations Governing the Importation Thereof

The attention of all persons who intend to import nursery stock into Canada is called to the regulations of "The Destructive Insect and Pest Act," which may be obtained on application to the Department of Agriculture, Ottawa.

In particular they should note the following regulations governing the conditions under which nursery stock may be admitted:—

"5. All persons importing nursery stock into Canada shall give notice to the Minister of Agriculture within five days of despatching the order for the same, and they shall again notify the Minister on the arrival of the shipment in Canada."

"Notice shall also be given to the Minister by all transportation companies, Custom House brokers and other persons importing or bringing nursery stock into Canada, immediately such a consignment is received by them. Such notice shall include the name of the consignor and the consignee, the points of origin and destination, the name of the company carrying the nursery stock, as well as the nature, quantity and origin of same."

"6. European nursery stock, and such other imported vegetation or vegetable matter as the Minister may determine, entering Canada, may be allowed to proceed and shall be inspected at the point of destination, but must not be unpacked except in the presence of an inspector."

RACERS WITH JEWEL CASKETS

With Age and Success the Collection Frequently Becomes Valuable

Every great racehorse, says an English exchange, has his special toilet case, marked with his name and provided with a special lock. Each animal has his own basins, pans, and pails for the toilet, his feeding utensils, brushes and combs.

A racehorse has many sets of towels of various grades, and has blankets for all weathers. These are marked and numbered, and are kept beautifully clean and well aired. The belongings of the horse are carried about in his toilet case when travelling.

Besides all this luxury every great horse nowadays must have a jewel-case, and with age and success the the collection frequently becomes very valuable. In the casket, which is a compartment of the box, are kept the various trinkets presented by admirers. These consist largely of articles of wear, such as bridles finished in silver and gold, silver-chained and mounted halters, and combs and brushes mounted in handsome style.

FOR A SEED FARM

The 960-acre large Bow Park Farm, near Brantford, has been sold to the Dominion Canners' Hamilton, which includes about 50 canning factories and controls a large proportion of the canned goods in Canada. The property is to be converted into a seed farm, to grow and improve vegetable seeds which have so far been mostly imported from other countries.

Are You Going West This Spring?

If so, there are abundant opportunities to do so, via Grand Trunk Railway System to Chicago and thence connecting lines. Low rates every day to Manitoba, Saskatchewan and Alberta. Exceedingly low rates each Tuesday, March 14th to April 25th inclusive, to principal points in Saskatchewan and Alberta, intending points on Grand Trunk Pacific Railway. Reduced rates for one-way tickets, March 10th to April 10th inclusive to Vancouver, B. C., Spokane, Wash., Seattle, Wash., Portland, Ore., San Francisco, Cal., Los Angeles, Cal., Mexico City, etc. Before deciding on your trip, consult any Grand Trunk Agent, or address A. H. Duff, District Passenger Agent, Toronto, Ont. M11t15

SATURDAY, MARCH 18th, 1911

Men For The Drives.

Yesterday Mr. Ted Cavanagh shipped a gang of men to the lumbering district of North Bay.

Italian Laborers.

A gang of about 30 Italian laborers arrived in town on the early C.P.R. train yesterday, and were transferred to the Grand Trunk for Lindsay. They will work on the new C.P.R line now under construction through Victoria County.

A Pleasant Evening.

Mr. and Mrs. Robert Hull, 266 Wescott-street, entertained a number of their friends to a dinner at their home last night. After the good things provided had been disposed of the evening was spent pleasantly in music, games, &c. Mrs. Hull made a delightful hostess, all present enjoying themselves most heartily.

The Priesthood and the Pope.

To-morrow evening, Rev. Mr. Riddiford, of the Park street Baptist Church, will preach the third of a series of sermons on the principle doctrines of the Roman Catholic Church, the subject being "The Priesthood and the Pope." These addresses have created considerable interest and have been largely attended.

A Fierce Runaway.

A rather spirited runaway took place yesterday on Stewart street. A team of horses attached to a pair of bob-sleighs became frightened at a street car and ran away. At a street corner the sleighs slewed and threw the driver head first into a snow bank and practically destroyed the sleighs. The infuriated animals were caught below the C.P.R. crossing. The driver was not seriously injured.

Another Man on Blacklist.

A local young man was blacklisted in the Police Court yesterday morning. He appeared in court on a charge of being drunk and disorderly in a public place. He also was charged with non-support of his wife and family. The chief gave evidence to the effect that the accused was a habitual drinker, so the accused was accordingly blacklisted.

Taking Census in June.

The taking of the census will commence early in June and it is expected it will be completed in about a week. The modus operandi of the commissioners will be to select enumerators, one for each polling subdivision, who will receive five cents for each name registered by them. In addition they will be paid a further sum for other information which they collect. The census commissioner is paid three cents a name and is allowed a certain sum for other expenses. The enumerators are now being selected.

Two Drunks Fined.

John McGee of North Monaghan, was charged at the Police Court yesterday, with being drunk and disorderly on the street. He pleaded guilty and was fined $2.00. He paid the fine. Another young man also from North Monaghan, and who is at present employed in the Cordage Works, was charged with being drunk while on the black list. He pleaded not guilty. He was also fined $2.00.

New Telephone Line.

Lakefield News: Mr. Stubbs of the Bell Telephone Co., Peterborough accompanied by Mr. Wm. Batten, were in Dummer township last week, and were successful in securing twelve subscribers on a new telephone line between Warsaw and Crowe's Landing, Stoney Lake. The new line will have its central at Lakefield, and will be in connection with the local line.

When her child is in danger a woman will risk her life to protect it. No great act of heroism or risk of life is necessary to protect a child from croup. Giver Chamberlain's Cough Remedy and all danger is avoided. For sale by all dealers.

Annual At-Home.

The Young Ladies' Mission Band of St. Andrew's Church held an Irish At Home last evening in the Church Hall, which was tastefully and appropriately decorated for the occasion. A large number were present, and thoroughly enjoyed the program, which consisted of a comedy entitled "Dr. Carsall," songs, drills and recitations, all of an Irish nature. At the conclusion of the program dainty refreshments were served by members of the Society, which brought to a close a very pleasant evening.

Barbers to Be Licensed.

The bill before the Legislature respecting barbers, provides for the issuing of licenses to those engaged in that business. Stringent sanitary regulations are to be enforced, which will be under the control of the local Board of Health. Any barber doing business without a license after 1st July next, when the Act goes into force, will be subject to a penalty not exceeding $25. The Act also provides that no person shall carry on the occupation of a barber who has any form of tuberculosis or venereal disease, or any contagious or infectious disease.

A Record Winter.

It is generally contended that the winter of 1910-11 has broken all records for severity. Along in December and the early part of January the oldest inhabitant recalled a few of the old-fashioned winters of his youth which he thought were equal to this one in severity, but not a word has been heard from him since the bear came out to search for his shadow on Candlemas Day. As a matter of fact of the ninety days of the past three months the mercury has been down to zero or below on fully 70. There has been only one or two really soft days all winter and the first of March found the winter's accumulation of snow, practically undisturbed.

SOCIETY EVENTS

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mr. Grant Elliot, of Ida, is visiting friends in the city.

Mr. and Mrs. F. J. McDonnel, who have been visiting friends here, returned to their home in Belleville yesterday.

Miss Irene Douglas leaves to-morrow for Brockville, where she will enter a hospital as nurse-in-training.

KEEP THE AIR PURE.

To the Editor of The Times:—

Sir,—Kindly allow me to suggest to our civic authorities the need of keeping closed (except when needed to be opened for drainage purposes) the manholes leading to the filth in the sewer. All winter, I with others of that vicinity, have had to pass by the manhole on Stewart St. north of Dublin St., from which manhole emanated a rotten stench. Also, the need of stopping in some way, ladies, men and children breathing the smoke fumes of vile tobacco and poisonous cigarettes. Almost without exception, we cannot go down street, without inhaling this poisoned air. Also the need of stopping profanity and obscenity in talk and action on our public streets. We are not forgetful of, nor ungrateful for, the efforts that have been and are being put forth to enforce our good laws. A gentle hint given by way of putting the proper authorities in remembrance, I hope it will be taken kindly.

M. T. BUTCHER.

BIRTHS.

HALL.—On Friday, March 17th, '11, to Mr. and Mrs. Basil D. Hall, a son.

TURNER—On Sunday, March 12th, 1911, to Mr. and Mrs. F. C. S. Turner, 156 Walnut street, Winnipeg, a daughter.

Sedentary habits, lack of outdoor exercise, insufficient mastication of food, constipation, a torpid liver, worry and anxiety, are the most common causes of stomach troubles. Correct your habits and take Chamberlain's Stomach and Liver Tablets and you will soon be well again. For sale by all dealers.

ADVERTISE IN THE TIMES.

GENERAL BOOTH, HIS COURTSHIP

Gave the World a Peep Into His Personal History—A Lifelong Attachment

General Booth gave the world a peep into his personal history—full of touching incident—on the occasion of the twentieth anniversary of the death of his wife. He said:

"In tender remembrance I recall to mind the day—April 10, 1852—when I met my beloved wife, and commenced a relationship which has lasted from that day to this and which I am reckoning will continue to the closing hours of my earthly history, and be renewed at the gates of the Celestial City. We met that evening at a sort of public festival of some Methodist people with whom we were both associated. Between the tea drinking and the speaking Catherine Mumford was introduced to me by a mutual friend, who spoke of her in terms of the strongest admiration."

Never Dislodged

"No doubt," proceeded the General, "I involuntarily threw my heart's door wide open, not knowing, perhaps, what I was doing, and she, not what she was doing, walked in and took the first place there. From that place she was never dislodged—indeed, from it there was never the least inclination to remove her, and there never will be."

There were difficulties in the way of an engagement. He felt that his position was not equal to the responsibility of keeping a wife and home in comfort.

"These views led me to look upon the unexpected situation in which I found myself as a real calamity, and I fought with all my might against the strange feelings that had taken possession of my breast. What could I do with a wife? In the first place I was without any settled income, and had no immediate prospect of finding one, having just separated myself not only from business, but from the people in whose ministry I had the prospect of a call. . . . However, we looked carefully at each other and at our circumstances, and found that we were both quite prepared to wait any number of years that might be necessary before marriage; and with this understanding we entered into an engagement that lasted for nearly forty years in this world, and will, I fondly believe, last forever in the world to come."

Three Years' Courtship

Three years, as a matter of fact, elapsed before the marriage was celebrated. Those years were devoted by the General to making the most of his opportunity for saving the people to whom he ministered. "In all this," he went on, "this beautiful woman strove, in season and out of season, in circumstances pleasing or painful, to keep me faithfully and self-denyingly to my task."

Mrs. Booth did not speak at any of her husband's meetings until some years after her marriage, always giving as her reason her conviction that she was not called to the duty.

"We had had a number of testimonies" said the General, referring to a meeting at Gateshead, "and I was on the point of closing the meeting, when I saw my wife rise from her seat, and, trembling with emotion, walk up the aisle, asking for permission, as she did so, to deliver a message which was on her heart. I thought something had happened to her, and so did the people. Stepping down from the pulpit, I asked, 'What is the matter, my dear?' She replied, 'I want to say a word.' I was so taken by surprise that I could only say, 'My dear wife wishes to speak,' and I then sat down. The influence which rested on the congregation convinced every thoughtful person present that this was the beginning of a marvellous career. When men listened to her all questions of sex were forgotten. That it was a woman who was speaking was seldom thought about. Her personality was lost in the message she delivered."

Her Fatal Illness

"I shall never forget," said the General, in conclusion, "the day that my darling wife crossed the room in which we were sitting and, putting her arms round me, told me how she had received the sentence of death in herself. She had been to consult some eminent surgeons, and they had each informed her that she was smitten with the terrible disease of cancer, which in a couple of years' time, unless some miracle were performed, would certainly carry her away. The agony I suffered through the thirty-two long months which intervened between the announcement of her sad fate and its realization I could not describe. All that time I seemed to see death drawing nearer and nearer, until at length, with her hand pointing to the text, 'My grace is sufficient for thee,' which was hanging before her, she passed away into the presence of her Lord."

CONSTABLE'S RECORD

Police-constable Richard Leighton, who has just retired after 27 years' service in the Hull Police Force, always carried with him a diary in which he recorded his experiences. He has set them out as follows:—

Walked up one street 19,677 times.
Rendered first aid in 121 cases.
Has been called in to 121 quarrels between man and wife.
Has received 15 black eyes, 13 kicks and 6 bites.
Has served under 4 chief-constables, 7 superintendents, 15 inspectors, and 90 sergeants.

A PECULIAR JURY

A Stepney inquest seems to have been conducted with holy orders. The list of jurymen included the names Bishop, Priest, Friar, and Monk; and the name of one of the witnesses was Deacon.

Children's Aid Society

For the care of neglected and ill-treated children. Incorporated by Act of Legislature, 1892. Information required. Informants' names kept strictly private. Office hours, 10 to 12 a.m., 1 to 3 p.m. George Cochrane, Agent and Assistant Secretary, Office, Division Court Building.

THE MINES DEVELOPING MACHINE WILL BE INCORPORATED

It is One of the Greatest Inventions of the Age for the Speedy Development of Mine

A device which will, when installed, be the means of placing hundreds of mining properties, now laying idle, on a producing and dividend paying basis. It will develop a mine in months where it now requires years. It will be the means of bringing sure and quick returns on mine investments which are now slow on account of the long time required to either reach the ore bodies or develop them to an extent which admits of productions on a large scale.

IT CAN BE USED IN ALL MINING REGIONS.
IT CAN BE USED IN DRIVING IRRIGATION TUNNELS.
IT CAN BE USED IN DRIVING TRANSPORTATION TUNNELS.
IT CAN BE USED IN DRIVING DRIFTS AND UPRAISES IN MINES AND IT WILL WORK IN ALL KINDS OF FORMATION.
IT DRIVES A COMPLETE TUNNEL, DRIFT OR UPRAISE, AND SHAPES ITS WORK ON A SCIENTIFIC PRINCIPLE.

Contracts have already been signed for the use of enough of these machines to keep a large factory busy building them for many months, and I predict that before 5 years many hundred of them will be in use.

A corporation will be organized within a short time to own and handle the machine, and it will be capitalized for $1,000,000 divided into 1,000,000 shares. One-half of the stock will be placed in the company's treasury.

YOU CAN NOW BUY PRE-ORGANIZATION STOCK AT 25c PER SHARE (either for cash or ten-payment installments) BUT YOU CANNOT BUY IT FOR LESS THAN 50c PER SHARE AFTER THE INCORPORATION TAKES PLACE.

GET IN ON THE GROUND FLOOR IN THIS ENTERPRISE. TAKE ADVANTAGE OF THE PRE-ORGANIZATION OFFER NOW.

INS AND OUTS

A young man, who is on a winter vacation down south, in a letter to a friend, says that it is embarrassing to have to write home for money. True enough, but it's a whole lot better than walking back.

Everything appears to indicate that Sir Wilfrid is about to have the time of his life.

Father McColl believes in fighting the enemies of his Church, "without gloves." It is not a case of Everybody Works But Father.

Some men have greatness thrust upon them and others start a bank.

Yes, it is true, that advertising costs money, but it's cheaper than going out of business.

It is said that ballooning improves the sight. This is at least true, in the extent that it enables some to see their finish.

Roller skating will again become a favorite pastime in Peterborough, its chief advantage being that a thaw does not melt the ice.

A baby down east has learned to talk fluently at the age of 7 months. No sex is mentioned, but the sporting spirit of this great family journal thinks it would be safe to bet $125,000 that it is a girl.

The assessors in some parts of the city are called extortionists, but what they are called in some other parts would not look well in print.

The Easter bonnet jokes serve a good purpose if they keep the husbands good natured while they are paying the bills.

ANNUAL TENNIS BANQUET.

The Pleasing Affair to be Held on April 4th.

The annual meeting and banquet of the Peterborough Lawn Tennis Association will be held on April 4th. Plates will be laid for those holding tickets on April 4th only. Ladies interested in tennis for the coming season are invited to attend and may obtain tickets from Mr. R. J. Devey. Gentlemen willing to assist in the promotion of the game are asked to obtain their tickets from Messrs. Sandford Hall, W. Coleman or W. H. Cluxton.

The buying of a ticket helps, even if you cannot come, as the net cost of the supper is 50c, and there are other expenses. Let us all give the game a boost.

Young Man Wanted.

We have an opening for a young man to learn bookbinding, one of the best of trades. Apply at Times bookstore.

TENDERS.

SEALED TENDERS addressed to the undersigned at Ottawa, and marked on the envelope "Tender for Illuminating Oil and Oil Fuel," will be received up to noon of the

TWENTIETH DAY OF MARCH, 1911.

for supplying and delivering 190,000 Imperial gallons more or less of illuminating oil and 55,000 Imperial gallons more or less of oil fuel made according to specifications prepared by the Department of Marine and Fisheries.

Specifications and forms of tender can be procured from the Collector of Customs at Toronto, Petrolea, Sarnia and from the Agents of this Department at Montreal, Quebec, St. John, Halifax, Picton, Charlottetown, and from the Purchasing and Contract Agent, Marine Department, Ottawa.

Each tender must be accompanied by a deposit cheque equal to five per cent. of the total amount of the tender.

No tender will be considered except for oil strictly in accordance with the specifications and put up in packages as called for in said specifications. The cases and cans containing samples of oil submitted with tenders must also be strictly in accordance with the specifications and will be taken as samples of the packages offered.

The Department reserves the right to accept the whole or any part of the tender.

Papers inserting this advertisement without authority from the Department will not be paid for same.

FEARS JAPAN IS READY TO STRIKE BLOW

HAS HER EYE ON AMERICAN POSSESSIONS IN THE PACIFIC—WAR DEPARTMENT IS BUSY PREPARING PLANS.

A BRIGADE OF REGULAR ARMY BEING SENT TO GARRISON THE HAWAIIAN ISLANDS—ARE AT BREAKING POINT.

UNITED STATES COULD MUSTER MILLION SOLDIERS

THINKS SHE COULD WIPE OUT THE MIKADO'S ARMY IN SHORT TIME.

Japan Might Obtain Temporary Advantage by Seizing United States Pacific Possessions—Would be Bankrupt in Two Years.

Washington, March 18.—A warning from General Nelson A. Miles, formerly Commander-in-Chief of the United States Army, that America's island possessions in the Pacific are in a source of weakness found immediate echo in official circles to-day. While General Miles believes that war between Japan and the United States is unlikely, he is of the opinion that if it came, Japan would seize the possessions of the United States in the Pacific.

AMERICA'S STRENGTH.

Though General Miles believes that America could put an army of 1,000,000 perfectly equipped men in the field in the event of war, experts on such far embracing questions asserted that the strategic value given the United States by the completion of the Panama Canal far out-distanced the preparedness in the importance of defensive preparations.

With the Panama Canal completed this country could concentrate her entire navy upon either coast upon short notice, while a hostile nation would be handicapped.

WAR WITH JAPAN.

General Miles thinks that a war between Japan and the United States would result in the complete annihilation of the Mikado's Empire, because of America's unlimited resources. America is fitted to carry on warfare for a period of unlimited duration, whereas Japan could be bankrupt within two years of fighting he asserts.

WILL SUBMIT TO ARBITRATION TREATY TO EXTRA SESSION.

Augusta, Ga., March 18.—President Taft will submit the arbitration treaty just negotiated between this country and Great Britain to the Senate during the extra session and to strongly urge its ratification. This plan was announced here to-day.

MURDERED BY SUITOR

REJECTED LOVER SHOOTS DOWN YOUNG GIRL.

Crazed Foreigner Murders His Sweetheart Then Commits Suicide.

New York, March 17.—While eating lunch with 30 other girls in the foreign department of the Edison Electrical Works, in East Orange, this afternoon, Miss Ivy Reid, 21, was shot and killed by Jose Bovedt, a rejected suitor. As the other girls fled screaming and panic-stricken, Bovedt turned the pistol on himself and committed suicide. The youth had been discharged six weeks ago because he persisted in annoying Miss Reid, and since then had been sending threatening letters to her.

Sheffield Choir Sails.

Sheffield, Eng., March 18.—The Sheffield Choir had an enormous send-off yesterday morning on leaving for Canada. Crowds cheered at the landing stage, Liverpool, as the steamer Victorian sailed with the Chorus singing the National Anthem and "O Canada."

FEARS JAPAN IS PLANNING TO SEIZE AMERICAN POSSESSIONS IN THE PACIFIC

BITTER FEELING BEING WORKED UP BETWEEN U.S. AND JAPAN.

Both Countries Mustering Troops and Warships Are Fully Manned.

San Francisco, Cal., March 18.—Color was given to the stories from foreign capitals that the Japanese are planning to seize the American possessions in the Pacific when it became known to-day that the War Department has given orders to throw a complete brigade of the regular army into Honolulu to garrison the Hawaiian Islands.

It was stated at the Presidio to-day that the Second Infantry has passed through Tucson, Arizona, en-route to San Francisco, where it will embark immediately for Honolulu. Officers of this regiment assert that their orders indicate that they will remain permanently on the Hawaiian Islands, or until the present "war scare" blows over. The Second was originally ordered to Texas, but this is believed to have been a "blind" to cover its movements towards the Pacific Islands.

The movement of these regiments are made all the more significant by the fact that Col. John A. Bodie, chief engineering officer of the Department of California, went to Honolulu last week in connection with the War Department's plans for the fortifying of the islands. This has given rise to the rumor that the department is preparing to plant mine fields in Pearl Harbor, the United States naval base on the islands. The report is going round in army circles here that the garrison of the philippine Islands will be similarly reinforced and that the Hawaiian garrison may be increased still more.

THREE REASONS GIVEN.

Washington, March 18.—Three reasons for necessity for action by the United States, not only to forestall an alliance between Mexico and Japan, but also to block an effort on the part of the Japanese to make tools of several South American Republics is what this Government believes to be secret preparations for war, became known here to-day as follows:

1. The purchase of battleships by Brazil and the Argentine Republic, and the reported contemplation of similar purchases by other South American republics, who can have no possible need for such vessels, and who may be acting as agents for Japan.

2. The recent unwonted diplomatic activities of Japan in South America and particularly in Mexico, where it might almost be said a close intimacy has sprung up.

3. Fear that Mexico, despite its protestations of friendliness for this country, would really do all in its power to strengthen the Japanese position, because of the inherent hatred which every Mexican has for "gringo."

These reasons were given by a high official of the Government who is thoroughly familiar with conditions in Mexico.

"A MATTER OF ETERNITY."

From the Westminster Gazette.

The utterances of Mr. Champ Clark recall a little incident which occurred when one of the Montreal boats was leaving Toronto on a bright August afternoon. As the boat would visit Charlotte and other New York ports, the Stars and Stripes was displayed as well as the Union Jack. A United Statesser of the genuine "Jefferson Brick" type was standing in the bow, and as he gazed at his beloved flag he remarked "How long do you suppose it will be before that flag wades over the whole of Canada?" "It's only a question of time." "Excuse me," interrupted a Daughter of the Empire, with the light of twenty battles in her eyes, "It's a matter of eternity." The man from across the line did not ask for further information.

SERVED TWENTY YEARS FOR A CRIME HE DID NOT COMMIT

Pittsburg, March 18.—Andrew Toth was released from the penitentiary here to-day after serving twenty years for a crime he did not commit. Toth was accused of murdering a fellow workman at the furnaces and sentenced to prison for life. Recently it was discovered that he was a half mile from the scene of the crime. Governor Tener promptly signed the pardon.

TERRIBLE RAVAGES OF THE BUBONIC PLAGUE IN INDIA

London, March 18.—During the month of February, the deaths from the plague in India reached the enormous total of 86,498.

The disease has become such a fixture in that country that its ravages are little heard of except through the occasional official statistics.

The British Indi offices report that the epidemic was particularly virulent this year, and adds that the most persistent efforts to stamp it out have failed to effect a permanent improvement in the situation.

A SNAKE STORY.

Cobourg, March 18.—(Special.)—An apple with a garter snake embedded in it is a curiosity reported from Colborne, where it was found in a barrel of Ben Davis, which was being repacked at a Colborne fruit house.

The snake was over half an inch in diameter and about eighteen inches long. The supposition is that it made its way into the barrel while it was in the orchard, and not finding a way of egress decided to seek winter quarters by imbedding itself in the finest specimen of Ben Davis it could select. It is stated that the apple which was a big one, was perfectly sound around the opening in which the serpent was imbedded. It is one of the most novel occurrences that apple men have yet met with.

WOMAN KILLS KAFFIR WHO WAS IN BEDROOM

Johannesburg, March 18.—The wife of a miner named Burgers, residing near Germiston, on returning home with her young sister at midnight, told a native servant to go to bed. The man replied that he would sleep in the kitchen and make coffee for his master when he returned.

Subsequently Mrs. Burgers was awakened by her sister, who said that she had felt somebody touch her. Mrs. Burgers seized a shot gun, and striking a match, found the servant by her bed, only half clad, with a chopper in his hand. She immediately fired, wounding her servant fatally. Her sister was also wounded.

A similar incident is reported from Krugersdorf, where a married woman was awakened in the night, to find a native in the room. Her husband and a male lodger engaged in a desperate struggle with the native, finally overpowering him and giving him into custody.

Lord Gladstone last January reprieved a native who had been sentenced to death at Umtali, in Rhodesia, for attacking a white woman.

His action caused a storm of indignation in South Africa, which has been justified by the frequency of attacks on white women since that date.

WONDERFUL ROOSEVELT DAM WAS FORMALLY OPENED

WILL WATER THE SALT RIVER VALLEY IN ARIZONA.

Reclaiming to Fertility 240,000 Acres of Land—Dam Located in Mountain Range.

Phoenix, Arizona, March 18.—Adorned in gala attire, Phoenix today declared a three-day festival. The entire population, mingling among which were many strangers and "the only living ex-President," adjourned to the site of the Roosevelt Dam for the dedication exercises of that great mountain of masonry.

The structure, one of the wonderful engineering achievements with which Uncle Sam is transforming his desert lands into fertile and productive farm lands, was completed February 5th, and formally dedicated by ex-President Roosevelt to-day.

Its dimensions are startling. At the base it covers an acre of ground. Its height is 280 feet, on top it is 1,080 feet long. At the bottom it is 170 feet thick. A twenty-six storey building covering a city block would not fill the space occupied by this towering masonry structure.

Located in a canyon heretofore inaccessible, 62 miles from the nearest railroad, the construction of this dam involved many problems and taxed the ingenuity of the builders to the utmost. Their first problem was the construction of the broad highway. For twenty miles this traverses a trackless desert and for forty two miles more the road was literally carved from canyon walls or blasted from the steep-sided mountains.

A REMARKABLE HIGHWAY.

It is now considered one of the most remarkable highways in the world. It opens up to the traveling public a country unrivaled in grandeur and beauty and makes easy access to some of the best preserved cliff dwellings in the southwest.

In preparation for the construction of the dam the Government engaged in many activities. An immense power plant was installed near the site selected for the structure. A cement mill was built with an output of 500 barrels daily. It has turned out, in all approximately 340,000 barrels, at a saving to the Government of more than $615,000. Two farms were operated to supply provisions for the camp and forage for the live stock. Domestic water supply was piped from springs miles distant.

YANKEE FISHERMEN DREAD RECIPROCITY

Montreal, March 18.—Twenty-three Gloucester fishermen passed through here en route for Washington, declaring that Canadian reciprocity would kill fishing in Gloucester.

PHYSICIANS INVESTIGATE

THE SELF-SACRIFICE OF THE PHYSICIANS.

Medical Men From McGill and Harvard Will Investigate Terrible Sleeping Sickness.

Boston, Mass., March 18.—With the characteristic sacrifice of physicians, Dr. J. L. Todd of the medical department of McGill University of Montreal, and Dr. Simon B. Wolbach assistant professor of bacteriology at the Harvard Medical School, have departed for the unknown tracts of West Africa to study the so-called "sleeping sickness" and its allied diseases among the natives. The two physicians have a single white hunter as escort, and will brave the dangers of hostile natives in their efforts to discover the primary source of the baffling disease.

PHILIPS GETS HIS LIBERTY

PRISON DOORS WERE THROWN OPEN TO HIM ON SATURDAY.

Leaves Kingston After Serving Five Years, Less Good Conduct Reduction.

Kingston, March 18.—(Special.)—At noon to-day the big prison doors at Portsmouth opened for Joseph Phillips, head of the defunct York County Loan Company, he having served a term of four years and three months. His sentence was five years, but for good conduct nine months were cut off. Phillips is looking well, in fact, much better than when he entered the prison.

He is the last of the big financial men to be released. However, it will not be long before his place is taken by another, W. R. Travers. During his stay in prison, Phillips was employed as clerk in the offices.

THE ANTI-CIGARETTE MEETING HELD YESTERDAY AFTERNOON

A very large attendance gathered yesterday afternoon at St. Andrew's Church, where an anti-cigarette meeting was held.

The Boy Scouts were in attendance and greatly enjoyed the meeting.

Rev. W. C. Ringland officiated as chairman.

Howard Armstrong and Palmer Wiley, of the local Boy Scouts, gave interesting speeches.

Mr. Tate, the boys' secretary of the Y.M.C.A., was next called upon. He gave a fitting address for the occasion, pointing out how cigarettes destroyed the youths' strength as an athlete.

Mr. Goodwill followed with a splendid speech, which greatly interested the Boy Scouts. He pointed out that to be a soldier or a Scout, a youth should never use tobacco in any manner.

The chairman then made a few remarks on "Cigarette Fiends."

A collection was then taken up and after singing another hymn the meeting dispersed.

The musical part of the programme was under Mr. Devey.

THE PROGRAMME.

The following was the programme:
Chairman—Rev. Mr. Riddiford.
Hymn—Onward Christian Soldiers.
Prayer—
Scripture Reading—Rev. Mr. Keith.
Recitation—"The Boys of To-day are the Men of To-morrow." Palmer Wiley.
Short Address—"Why a Scout does not Smoke Cigarettes," Howard Armstrong (Barney).
Hymn—"Stand up, Stand up for Jesus."
Address—Mr. Tate, of Y.M.C.A.
Address—E. L. Goodwill.
Hymn—Yield Not to Temptation.
Offering—
Benediction.

Demand Resignation of Sifton and Others.

Ottawa, March 17.—The grain-growers of Sinclair, Man., in Brandon constituency, according to a wire received here to-day have passed a resolution calling for the resignation of Hon. Clifford Sifton and Messrs. Lyle and Simpson of the Manitoba Legislature for their stand in opposition to reciprocity.

CHINESE ARE SELLING THEIR CHILDREN TO GET FOOD

TERRIBLE SUFFERING IN THE FAMINE DISTRICT—DYING RAPIDLY.

In Two Counties Alone Over A Quarter of a Million People Are Starving to Death.

Washington, D.C., March 18.—That the only saleable property remaining to the starving people in the Chinese counties of Nanhsuchow and Mengchen are their children, which are being exchanged for food, is the statement of Consul Wilder, in a report to the State Department from Nanking, China. In these two counties alone, he estimates the number of starving at three-quarters of a million.

Outside the City of Nanking 100,000 famine refugees are without food or clothing, and are sleeping in the mud in the open air. Thousands are even lying in the water, the living mingling with the dead, which the authorities have failed to remove from the refugee camp.

In the famine district the people are dying so rapidly that no attempt is made to number the fatalities. By Imperial edict, taxes have been remitted in three of the famine districts, and it is expected that similar action will be taken throughout the entire famine region.

Consul Wilder reports that the moneys contributed for famine relief is being honestly expended. The American Red Cross and the State Department are co-operating in sending the money contributed in the United States to China, but much more is needed.

ADVERTISE IN THE TIMES.

FIRED AT THE TRAIN

Three Trainmen Shot by Strike Sympathizers in Ambush.

Lexington, Ky., March 17.—One railroad fireman is dead, another dying and a locomotive guard is also fatally wounded as a result of an attack made upon a Queen and Crescent train by strike sympathizers early to-day near King's Mountain. The sympathizers of the strikers, who were in ambush, fired a hundred shots at the train.

PASSED AWAY AT A COUNTRY DANCE.

Challenged His Host to Dance and Dropped.

Smith's Falls, March 19.—After challenging his host, Mr. James Anderson, of Franktown, near Smith's Falls, to give an exhibition of step-dancing, and competing with him for several moments, Mr. Andrew Burrows, aged 64, of Smith's Falls, collapsed, sat down on a lounge and expired in a few moments, and before a doctor could reach him.

It was the unfortunate man's last challenge. He had spent the day with Mr. Anderson, and there was a dance at the house that night. All enjoyed the festivities, and shortly after midnight, when the fun was at its height, Mr. Burrows in fun, challenged Mr. Anderson to give an exhibition dance.

After they had been dancing for several moments and several present had vigorously applauded, Mr. Burrows said he was done out. A few moments later he was dead.

POLITICAL LIFE TOO STRENUOUS FOR PREMIER OF SASKATCHEWAN

Saskatchewan Leader of House Has to Leave Province For His Health.

Regina, Sask., March 19.—Premier Walter Scott has collapsed under the strain to which he has been subjected for two months as the result of the vigorous assault of the opposition at the legislature, and will shortly leave the Province for his health. In his absence Hon. Mr. Calder will lead the Government. The Premier announced last night that dissolution would not be sought this year, and supplies were voted thus ending three weeks' deadlock.

Young Man Wanted.

We have an opening for a young man to learn bookbinding, one of the best of trades. Apply at Times bookstore.

Another Farmers Bank.

New York, March 17.—Disclosures in connection with the Carnegie Trust Company are causing much feeling in Wall Street against the politicians. Sentiment in the street is that the Grand Jury should not stop with the officers of the bank, but should discover why the State Department of Banks permitted the institution to remain open under conditions now officially proved to have existed for years.

HON. WALTER SCOTT,

NEARLY KILLS GERMAN

GOTCH THREW SAMSON OVER HIS HEAD.

Samson Lights on His Head Fracturing His Skull—Gotch Was Detained.

Chicago, March 17.—Henry Bahn, a 260-pound German wrestler, known to followers of the sport as "Samson," is in a hospital here to-day with a fractured skull, as the result of his meeting last night with Frank Gotch, the world's champion.

The men were to have wrestled for two out of three falls. After a struggle of a little more than seven minutes, Gotch obtained a leg hold and tossed the German over his head Bahn landed on the back of his head unconscious.

The hospital physicians, after a careful examination, said that the German's injuries are probably not fatal.

Acting Chief of Police Schuettler, who attended the match, entered the ring when Bahn fell unconscious and ordered Gotch to remain in the building until physicians had determined how serious the German was injured.

Gotch was released after the first examination was made.

HONOR PAID TO MR. J. D. McDONALD

Mr. J. D. McDonald, who has been promoted from District Passenger Agent of the Grand Trunk Railway at Toronto to Assistant General Passenger Agent of the Company at Chicago, was presented with a beautiful gold watch for himself and a handsome club bag, with silver fittings, for Mrs. McDonald, at a complimentary banquet tendered by over 80 of his transportation friends, at the Albany Club, Toronto, on Friday night.

Dr. J. D. Orr, Manager of the Canadian National Exhibition, was the toastmaster, and Mr. McDonald was seated at his right hand.

Mr. A. F. Webster, General Steamship Agent, and Mr. A. J. Taylor, General Agent of the Chicago, Milwaukee & St. Paul Railway, made the presentation of the watch, after paying high tribute to the worth of the recipient, and Mr. Harry Parry, Buffalo, General Passenger Agent of the New York Central Railway, and Mr. B. H. Bennett, Toronto General Agent of the Chicago & Northwestern Railway, made the gift of the Club bag.

Addresses were delivered by Mr. McDonald, who, in a felicitious speech, acknowledged the gifts as well as the honor done him. Messrs. Harry G. Elliott, G.P.A., Montreal; Thos. Henry, of the R. & O. Navigation Co., Montreal; R. L. Thompson, D.P.A., of the C.P.R., Toronto; W. A. Wilson, New York Central Lines, Toronto; B. W. Folger, G. M. Niagara Nav. Co.; B. L. Jones, G.M. Gorge Electric R.R.; and W. F. Herman, G.M. Buffalo & Cleveland R.R.

Musical numbers were provided by Mr. W. McIlroy, general ticket agent of the Canadian Pacific Railway, Peterboro, and Mr. F. A. Sanscekivell, Toronto, general agent of the Soo line.

Mr. McDonald has hosts of friends in Peterborough and throughout the district, who will join The Times in wishing him good luck in his future course.

It is said that ballooning improves the sight. This is at least true, in the extent that it enables some to see their finish.

How to Tell Bronchitis

Always Recognized by Dry Hackle, Cough and Rough Breathing.

Any doctor will tell you that only by a remedy carried by air direct to the affected parts can bronchitis be cured. The very reason why Catarrhozone cures is because it contains a healing medicine lighter than air, which is breathed through the bronchial tubes and lungs, carrying soothing balsams and essences as it goes. No wonder after twenty years of awful suffering, Capt. James Dunlop, of Kingston, commander of the R. & O. str. "Bohemian" was cured thoroughly by Catarrhozone. "I suffered 20 years, and although I took treatment all that time permanent relief was not obtained till I used Catarrhozone, which is the best known cure for Bronchitis on the face of the globe, pleasant to use, quick to relieve, and sure to cure." A truly wonderful treatment for Catarrh, Asthma, Throat Trouble and Bronchitis is Catarrhozone—thousands it has cured, say so.

Get a large dollar outfit of Catarrhozone; it contains a beautiful polished hard rubber inhaler and medication to last two months. Smaller sizes 25c and 50c, at all reliable dealers, or The Catarrhozone Company, Kingston, Ont.

THE MORNING TIMES

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

TIMES PRINTING COMPANY,
Publishers and Proprietors,
Peterborough, Ontario.

MONDAY, MARCH 20, 1911.

GERMAN EMPEROR'S GARAGE.

The extent to which the German Emperor supports the automobile industry, and the personal interest which he displays in developments pertaining to automobiling are well illustrated in a report prepared on the exhibition of the Imperial cars at the New Palace on the occasion of the recent visit of the Czar of Russia.

Nineteen cars were on display, and the program also shows that five others are in the Imperial service at Corfu, and that six additional cars had been ordered for delivery between January 1 and April 1 of this year.

The landaulet is regarded as the basic form of the whole organization the equipment of the cars is identical so that every car is in position for being employed in His Majesty's own service. Uniformity of wheel dimensions, moreover, secures uniformity in the maintenance work. Nearly all the German makes are represented in the garage, and His Majesty himself is in position to obtain first hand information in regard to the improvements and innovations that take place in the automobile industry.

The Emperor personally follows the developments of the automobile industry with very great interest, reads the news which in this respect appears in the daily press abroad, as well as at home, and it frequently happens that he himself sends clippings containing interesting information to His Excellency, the Chief Stable Master, in order to inquire whether such improvements, etc., have already been adopted on his machines or to order them tried out.

FATHER McCABE SPEAKS OUT.

Father McCabe of Maidstone is not going to stand by and see Bishop Fallon of London set upon by the French Clergy. If Bishop Fallon prefers the English language to French, so does Father McCabe. He does not believe in bi-lingualism in Ontario. English is the tongue for Canada, and the children should go out on life's battlefield equipped with that language.

Into any disputes between two bishops or priests of a Church no outsider cares to venture, nor can he do so without inflicting more injury than he can render aid to the side he advocates. But bilingualism is not a question of religion at all. As far as I can learn there appears to be a desire on the part of the Roman Catholic Church in Quebec to have French accepted as the language especially deserving the care and promotion of the Church in Canada. This English-speaking Catholics resist, and will resist. Latin is the historic language of the Church the world over; they say it needs no other language, and cannot assume the responsibility of recognizing, petting, and promoting any other language. Were it done, the reasons would be political and racial, rather than religious, and with these ulterior reasons non-French Catholics cannot be expected to sympathize.

An overwhelming public opinion in Ontario will support the stand taken by Bishop Fallon. In the end it will prove that his Lordship was wise to cause the protest to come from within the Church, rather than wait for it to come from without. Even those of us who refuse to join in the calculated outcries which are raised from time to time in Ontario against "French domination" are not prepared to see bilingualism become aggressive and forget that it is a guest among us.

WILL GIVE AWAY MILLION POUNDS

Dr. D. K. Pearsons, Aged 90 Years, May Not Get Rid of It All Before His Death

Mr. Andrew Carnegie is not the only millionaire who has determined to "die poor." His bosom friend, Dr. D. K. Pearsons, of New York, who, after earning a modest livelihood as a medical practitioner, made two million sterling by buying real estate and timber, has made a similar resolution. But he is finding it a difficult matter to get rid of his wealth and even now, after giving away with a lavish hand for over twenty years, he finds that he still has a million pounds to dispose of. And, as he is ninety years of age, it is quite possible that he will fail in his determination to die poor. The aged philanthropist, however, is firmly convinced that he will live to the age of 100, and that he will be able to get rid of his million of money in that time.

Certainly he does not lack suggestions from outside. Last month he received no fewer than 5,000 begging letters, mostly from worthless people. "There are beggars of all kinds," he says. "Mothers with daughters approaching the marriage age have sent me photographs, asking me to provide them with a marriage portion.

A Cool Request

"One of the funniest was from a German burgomaster. It contained photographs of the German official, his wife, and twelve children, half of whom are daughters who are soon to be married. 'My income is only $750 a year,' he wrote, 'and I find it very difficult to maintain myself and family in the position which my office demands. Will you not bestow a "dot" of $5,000 on each of my daughters, so that they can make suitable matches?'"

Like Mr. Carnegie, Dr. Pearsons has given a great deal of money to education. Forty-seven colleges and institutes of learning are what he calls "his children," for he has no real offspring of his own. They are scattered throughout twenty-four States, and range from a seminary in New England, where he attended school as a boy, across to the Pacific University.

Gives Away "Savingly."

His favorite institution is Berea, in Kentucky, to which he has given over $500,000, and he is at the present moment making arrangements to give another $500,000 to this institute, where, he states, "a country boy or girl can get a better education than at any other college in the States."

Dr. Pearsons has some original ideas about charity.

"I give my money away," he says, "in the same manner that I made it—savingly." The beggar, adventurer, and swindler find little encouragement. Every request for a donation is thoroughly investigated, and if it is found to come from a needy and worthy institute, the purse-strings are opened freely, but otherwise no amount of pleading can get a single penny out of Dr. Pearsons.

He declares "that he has spent more sleepless nights in the twenty years since he has been giving away money than all the rest of his life," but adds that "he has had a bushel of fun." "Coffins were not meant to carry money in" is one of his sayings, two others being, "Always be your own executor" and "When people call me a stingy old Puritan I take my hat off to them and consider that I have been complimented."

CARDINAL VIRTUES

Some of the Things Benjamin Franklin Set Himself to Acquire

Among the cardinal virtues which Benjamin Franklin set himself to acquire were:

Silence.—Speak not but what may benefit others or yourself; avoid trifling conversation.

Order.—Let all your things have their places; let each part of your business have its time.

Resolution.—Resolve to perform what you ought; perform without fail what you resolve.

Frugality.—Make no expense but to do good to others or yourself; that is, waste nothing.

Industry.—Lose no time; be always employed in something useful; cut off all unnecessary actions.

Sincerity.—Use no hurtful deceit; think innocently and justly; and, if you speak, speak accordingly.

Justice.—Wrong none by doing injuries, or omitting the benefits that are your duty.

Moderation.—Avoid extremes; forbear resenting injuries, so much as you think they deserve.

Cleanliness.—Tolerate no uncleanliness in body, clothes, or habitation.

Tranquility.—Be not disturbed at trifles.

AN EXPENSIVE SPORT

The United Kingdom Spends $30,000,000 a Year on Sport

Deerstalking is apparently one of the most expensive forms of sport ever invented. According to a Crofters' Commission Report, there are 169 deer forests in Scotland, with a total area of about 2,000,000 acres. The yield of stags from these forests has been set down to 4,500 each season, and the rental at about $675,000. So in rent alone, the tenants of deer forests pay $150 for each stag they bring down, and other expenses bring this sum up to nearly half as much again. The totals of the cost of shooting and fishing in the United Kingdom have been set down as about $25,000,000, of which nearly one-third is spent in Scotland.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for purchased homestead in certain districts. Price $3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

He Said He Was Going to Marry Pierpont Morgan's Daughter—Passeton Uncaught.

Montreal, March 17.—Raphael Gadbois, one of the men who escaped from St. Benoit Joseph Asylum for Inebriates, leaving Francois D'Haine dead in a corridor, with his skull crushed by a blow from an iron bar, was captured by detectives in the central part of Montreal late yesterday. He was without gloves or hat. He declared he was going to New York to marry J. Pierpont Morgan's daughter.

Auguste Passeton, who is considered dangerous, is still at large.

The asylum officials are dumbfounded at the ingenuity shown by Passeton, who released himself from a straight jacket, and unscrewed the bars from over the transom with a screw driver made of a nail sharpened on a stone.

ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

SURVEYOR DISCOVERS DIAMONDS IN BRITISH COLUMBIA MOUNTAINS

Surveyor Discovers Crystals in Olivine Mountain Near the Tulameen River.

Ottawa, March 16.—The Director of the Geological Survey announces that diamonds have been discovered by the survey in a British Columbia rock, the first recorded discovery of diamonds in Canada. The rock carrying the crystals is a peridotite of the variety known as dunite, consisting of olivine and chromite.

The rock specimens in which the diamonds were found were collected by Mr. Charles Camsell on Olivine Mountain, near the Tulameen river, where Mr. Camsell has been making a geological examination for the survey.

The diamonds found occur in the chromite and not in the olivine of the rock. The chromite occurs as short, irregular, veinlike segregations an inch or more in width, in irregular masses, and as small, disseminated grains through the rock. Gold and platinum also occur in the chromite.

On account of the small size of the diamonds, and the irregular distribution of the chromite the discovery is of scientific rather than of commercial importance.

KILLED IN COBALT MINE.

Albert Sullivan, Formerly of Killaloe, Ontario, Caught in Gas Explosion.

Cobalt, March 16.—Albert Sullivan 30 years old, a drill runner at Temiskaming Mine, was killed at the bottom of the shaft at 5 o'clock this morning after settling off the dynamite. It is not known just how the accident happened, but may have been caused by a gas explosion. There were no marks on the body. Sullivan was down 580 feet alone. When he did not show up after the charge had exploded a search was made and the body found.

DON'T LIKE YOUTHFUL WIDOWS.

Ocean City, N.J., March 17.—The New Jersey Conference of the Methodist Church has approved a plan to cut down the annuities of youthful widows of ministers, to discourage the old preachers from marrying young wives.

LONDON BANKER TAKES HIS LIFE

SENSATION IN ENGLISH METROPOLIS CAUSED BY SUICIDE OF PROMINENT MAN.

Parr's Bank Quite Safe—Dead Man Had Been Manager of a Branch—Bank's Capital 62 Millions.

London, March 17.—A sensation has been caused in financial circles by the suicide of R. F. Carnegie, manager of the Lombard street branch of the Parr's Bank Limited, whose body was discovered in his office at the Bank to-day.

The affairs of the institution are said to be in perfect order.

Parr's Bank, Limited, of which C. F. Parr is chairman of the Board of Directors, and R. W. Halley general manager, was originally Parr's Banking Company, was so registered in 1865. In 1892, it was amalgamated with the Alliance Bank, Limited. On amalgamation with the Consolidated Bank, Limited, in 1904, the present name was adopted.

The authorized capital is $62,500,000. For years it has paid a dividend of 19 per cent. per annum.

UNITED STATES GOVERNMENT WILL STRENGTHEN PACIFIC COAST LINES

Washington, D.C., March 17.—On April 1st next, mines will be planted in the San Francisco harbour. Three companies of artillery under the command of Captain Johnson will place the explosives. The War Department has issued all the orders for the work. These facts became known here to-day and it was learned that plans are under way to materially strengthen all the Pacific coast defences.

WERE PHYSICALLY EXHAUSTED AT HALF-TIME AND REFUSED TO CONTINUE GAME.

Beaverton Girls Quit—Ice Was Heavy But Cannington Ladies Went on Again and Played Boys' Team.

Cannington, March 16.—A fairly large crowd turned out to witness the return game between the Beaverton and Cannington ladies hockey teams here last night. Owing to the heavy condition of the ice the Beaverton ladies were all in at half-time, and refused to continue the game, the score then being 2—0 in favor of Cannington.

The Beaverton team were all at sea on the larger ice, and failed to work in any combination play whatever. But the excellent combination work of the Cannington forwards and the grand defence made it impossible for the others to score. The alertness and prompt action of the Cannington goal tender was something worth watching.

After the Beaverton ladies refused to continue the game, Cannington then lined up against a boy team and after a fast twenty minutes the game resulted in a draw, neither team scoring. This was to give the spectators the worth of their money.

The line-up:

—Cannington—
Goal—Ruth Clark.
Point—Maude Halward.
Cover—Olive Burgiss.
Rover—Isabel Turnbull.
Centre—Violet Shier.
L. Wing—Sadye Clarke.
R. Wing—Gladys Woodward.

—Beaverton—
Goal—Theresa Leahey.
Point—Winnifred Lytle.
Cover—Elma Suter.
Rover—Cora Myers.
Centre—Winnifred Grant.
L. Wing—Elsie Grant.
R. Wing—Evelyn Myers.
Goals — For Cannington, Sadye Clarke.
Referee—M. Roache, Beaverton.

SIFTON SPEAKS AT HAMILTON

HE SAYS THE GOVERNMENT IS STEERING THE SHIP INTO UNKNOWN SEAS.

Hamilton, Mar. 17.—The Hamilton branch of the Canadian Manufacturers' Association held their annual banquet last night at the Royal Hotel, and Hon. Clifford Sifton was the principal speaker.

Hon. Mr. Sifton said that while he represented a constituency of farmers and was speaking to a body of manufacturers, it had caused no change in his views, because they were based upon the opinion that there was no conflict between any two interests in the country. He was not concerned with the policy of Sir John A Macdonald or any other worthies past. The policy of the Liberal Government of 1897 had been adapted after full and careful consideration, and he shared in the belief that it was a good policy. Not long after negotiations which resulted in failure the Government went to the country with the same policy, with the exception that Sir Wilfrid Laurier repeatedly declared that Canada would look no more to Washington, and that any policy that would be adopted would be Canadian. He believed that was a fair and reasonable policy then, and he still believed it, though his former friends did not seem to think this way.

They were in his opinion steering the ship of state into unknown seas. In January, 1911, there was no country in the world which was better off than Canada, and surely it was not wise to disturb the prosperous conditions that existed for something very uncertain. This radical change had been fastened upon the people of Canada without them having been given a chance to express themselves.

No country ever took from the soil its produce and exported it in raw state and retained its agricultural predominance.

Are You Going West This Spring?

If so, there are abundant opportunities to do so, via Grand Trunk Railway System to Chicago and thence connecting lines. Low rates every day to Manitoba, Saskatchewan and Alberta. Exceedingly low rates each Tuesday, March 14th to April 25th inclusive, to principal points in Saskatchewan and Alberta, including points on Grand Trunk Pacific Railway. Reduced rates for one-way tickets, March 10th to April 10th inclusive to Vancouver, B. C., Spokane, Wash., Seattle, Wash., Portland, Ore., San Francisco, Cal., Los Angeles, Cal., Mexico City, etc. Before deciding on your trip, consult any Grand Trunk Agent, or address A. E. Duff, District Passenger Agent, Toronto, Ont. M11t16

GAS DISTENDED HIS STOMACH

Caused Palpitation and Prevented Sleep. When Health Was Good, Cure Followed Use of "Nerviline."

"My last wish will be," writes Harry P. Pollard, a well-known boot and shoe traveller of Hartford, "that everyone with a bad stomach may learn as I did, before it's too late, that Nerviline is the one remedy to cure. Why, I was in mighty bad shape, my digestion was all wrong, and every night I would awaken with a start and find my heart jumping like a threshing machine. This was caused by gas on my stomach pressing against my heart. When I started to use Nerviline I got better mighty fast. It is certainly a grand remedy for the travelling man, keeps your stomach in order, cures cramps, breaks up chest colds and sore throat prevents lumbago or rheumatism, —in fact there hasn't been an ache or pain inside or outside for the past two years that I haven't cured with Nerviline. Do you wonder I recommend it?"

TESTIMONIAL NO. 4980

For general household use Nerviline has no equal; it will cure the aches and ailments of the entire family—refuse anything but Nerviline, 25c per bottle, five for $1.00, all dealers or the Catarrhozone Co., Kingston, Ont.

PETERBOROUGH, ONTARIO

MONDAY, MARCH 20, 1911.

10 Patients in Isolation Hospital.

There are already ten cases in the Isolation Hospital.

Garrison Signalling Class.

All those who desire to enrol in the above class are required to parade at the Armouries on Monday, March 20, at 8 o'clock p.m. J. K. Rackham, Sig. Lieut.

Try Our Teas.

Try our package Teas at 50, 60 and 70 cents a pound, it isn't its strength, but the flavor, which we offer you in these teas. WALTER ROBERTSON, Inverlea Grocer.

Meat Will Soar.

The Times is informed that meat is likely to be high during the coming summer. Much of what Ontario consumes in the way of beef, comes from the West, and thousands of cattle died in Albert and Montana this winter.

Auxiliary Meeting.

The Ladies' Auxiliary in connection with the Children's Aid Society will meet at the home of Mrs. W. Hopwood, 113 Simcoe street, this afternoon at 4 o'clock.

St. Patrick Remembered.

Rev. Father McGuire, of Douro, delivered an address on St. Patrick in the Sacred Heart Church last night. There was a large attendance, the address being of a very interesting character.

Do you know that of all the minor ailments colds are by far the most dangerous? It is not the cold itself that you need fear, but the serious diseases that it often leads to. Most of these are known as germ diseases. Pneumonia and consumption are among them. Why not take Chamberlain's Cough Remedy and cure your cold while you can? For sale by all dealers.

"The Shadow of the Cross."

The mysterious painting of the "Shadow of the Cross," will be on exhibition at the Y.M.C.A. for one week, commencing, Thursday, March 23, 1911.

Watch the Caterpillar.

A well known gardener and tree man informed the Times that this is the season for the farmers to be on the lookout for the eggs of the tent caterpillar in their orchards, as they can now be easily removed from the trees and save a large amount of labor in the spring.

Park Street Services.

Last night the Baptist Church on Park street was filled to overflowing to hear the fourth of Rev. W. C. Riddiford's series of addresses on Roman Catholic Doctrines. The subject last night was "The Priesthood and the Pope," and was a thoughtful and impressive address.

Is Doing Well.

Ross Allen who was so shockingly injured at the saw mill at Buckhorn a few days ago, is recovering and doing well. Great sympathy is felt for the poor young fellow, by his friends in Buckhorn, to be so horribly disfigured. He was one of the best Hockey players on the Buckhorn team.

A piece of flannel dampened with Chamberlain's Liniment and bound onto the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest give it a trial and you are certain to be more than pleased with the prompt relief which it affords. Sold by all dealers.

A Fine Lecture.

Mr. S. J. Keyes, B.A., of the Normal School Staff, gave a very interesting and instructive talk on a trip through the British Isles, Friday night last, in St. James' Methodist Church, under the auspices of the Brotherhood. Mr. Keyes has a pleasing delivery and has the faculty of keeping his audience thoroughly interested from start to finish.

Saturday's Market.

The market on Saturday last was not largely attended. The following were the prevailing prices:

Eggs, 20c.
Butter, 30c.
Chickens, 70c to 90c.
Apples, 35c peck.
Potatoes, 90c per bag.
Pork, dressed, 10c and 12c pound.
Beef, 8½c and 9½c pound.

May Apply to Peterborough.

Bobcaygeon Independent: Some promoter is sending around circulars to the various towns asking what they have to offer in the way of bonus, loan, power, exemption from taxes, etc., for a factory. Someone in the Legislature proposed to remove the privilege from municipalities of granting any such bonus, exemptions, etc., to the manufacturers, and it will be a blessing to the province if the proposal is put into force.

Shipment of Good Horseflesh.

Lindsay Post: Mr. W. A. Weese, the well-known horse buyer, shipped 19 horses Wednesday, three pair of them tipping the scales at 3200 lbs. a pair. Taking them as a load they were the finest lot that has left this town for a long time. Mr. Weese has got more waiting for shipment. There were three good heavy expressers in the load. Mr. Weese accompanied the load to its destination. He expects to sell twelve of these horses to go to Sydney, Cape Breton.

Buckhorn Man is Badly Hurt.

Some six weeks ago, while Councillor John McKinty, of Harvey, was out in his bush cutting some logs, a tree in falling caught a little cedar one about four inches through, bending it down, like a spring pole. Mr. McKinty gave the caught end a clip with his axe, and it flew up with unexpected force catching him under the chin, and knocking him over insensible. He walked home afterwards, about a mile and a half. The jaw seemed to be dislocated, or paralized as he had no feeling in it. He has been unable to use it since, and has been compelled to take what sustenance he could by spoon. If the neck veterbrae is in some way affected, it will certainly be serious. His friends are much concerned with his condition, for John is popular, and much esteemed by all.

If you have trouble in getting rid of your cold you may know that you are not treating it properly. There is no reason why a cold should hang on for weeks and it will not if you take Chamberlain's Cough Remedy. For sale by all dealers.

A SPLENDID ADDRESS.

Hon. Charles Murphy Delivers Fine Address in Ennismore.

The entertainment in Ennismore on St. Patrick's Day, under the auspices of St. Martin's T.A.S., was a great treat.

Hon. Chas. Murphy, the Secretary of State, was the principal speaker of the evening, and with him on the platform, were Rev. F. J. McGuire, chairman of the evening; Rev. Dr. O'Brien, Messrs. D. O'Connell, Jas. Lynch, F. D. Kerr, J. C. Sullivan, James O'Brien, the members of the T.A.S. committee and the Township Council.

Hon Mr. Murphy gave a splendid lecture on "A Ramble Through Ireland," The hall was crowded to the doors. During the evening an address of welcome was presented to Hon. Mr. Murphy by Mr. P. J. Scollard.

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is a senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

SOCIETY EVENTS

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mrs. H. M. Gilchrist is visiting friends in Toronto.

Mrs. J. P. Archer and her little son Staunton, of Campbellford, are visiting Mrs. Touchbourne, Benson avenue.

Mrs. M. S. Farrell, of Madoc, is visiting her cousin, Mrs. T. W. Meredith, Lock street.

Capt. P. J. Young, of Young's Point and Mr. Leo Young, of Peterborough, have returned from a trip to New York and Rochester, N.Y.

We were pleased to have a call on Saturday from our old friend Mr. W. H. Clixton, of Bobcaygeon, who is spending a few days in the city. Mr. Clexton carried on a large and successful insurance business in Peterborough for many years, removing to Bobcaygeon several years ago.

The many friends in Peterborough, of Hon. H. R. Emmerson, formerly Minister of Railways and Canals, will regret to learn that he is ill with typhoid fever, at his home in Dorchester N.B.

Dr. Alex Robertson who carried on a dental business in this city for some time, and who subsequently removed to Tweed, is in the city, and is stopping at Mrs. Breeze's, Bethune street. The Dr. is not at all well, being in town for the purpose of receiving medical treatment from Dr. Scott. His many friends hope to see him completely restored to health.

TARGET SHOOTING CONTEST.

Professionals and Amateurs Make Good Scores at Yeates Brothers' Gallery.

The target shooting contests which are held weekly in Yeates Bros. gallery, George street, are becoming more interesting each week. Last week there was a seven handed tie up till Saturday evening, when Mr. Gutterson happened along and with a score of 58 points, out of a possible 60, captured the prize. Following are the scores:

—Professional—

C. Gutterson	58
A. C. Miller	57
Jos. Vinette	57
F. D. Cole	57
Wm. Gill	57
G. R. Powell	57
W. Richmond	57
C. Callaghan	57
J. Huseby	56
A. Chapman	56
H. Blade	56
G. Bidgood	56
D. C. Wills	56
Geo. McNally	55
Nor. Perry	55
J. Simmons	55
L. W. Pearson	55
D. Dennie	55
P. Gettas	55
Ed. Dopie	55
J. T. Bothwell	55
J. Pearson	55
T. S. Matthews	54
Hugh Mackey	54
A. Davidson	54

Prize—Box of Bachelor Cigars.

—Amateur—

In the amatuer contest John Gillespie captured the honors with a score of 59, John Brumwell running second with 58. Following are the scores:

J. Gillespie	59
J. Brumwell	58
Earl Edgar	57
Geo. McNally	57
Oscar Bulmar	57
Wm. Curtin	57
C. Taylor	57
James Wilson	56
J. Rose	56
P. Robson	56
H. Walsh	55
J. MacGowan	55
J. Reynolds	55
J. Merritt	55
J. McRae	55
J. D. Stewart	54
A. Bouskill	54
F. Andrews	54
Jos. Kelbrick	54
E. Quinlan	54

Prizes—1st, Box Arabella Cigars; 2nd, a Pipe. The prizes next week will be well worth trying for.

MR. R. F. PIER HONORED.

Is Banquetted by C. G. E. Co. Employees on Leaving the City.

Mr. R. F. Pier, who has for 14 months filled the important position of foreman of the Transformer Department of the C.G.E. Company, and who is about to leave the city, was tendered a banquet on Friday night at the Oriental Hotel by the employes of his department.

The chair was splendidly filled by Mr. W. Allen, who made an ideal toastmaster. The following was the toast list:

"The King."

"The Canadian General Electric Company," proposed by Mr. Frank Convery. Responded to by Mr. Milson of the Test Department.

"The Transformer Department," proposed by Mr. Jack Stiner and responded to by Mr. Jos. Hopkins.

"Our Departing Guest," proposed by Mr. Allen, and responded to by Mr. Pier.

"Department Bosses," proposed by Mr. L. Campbell and responded to by Messrs. Stiner, Grosse and Gordon.

"Transformer Hockey Team," proposed by Mr. Pier and responded to by Mr. Bert Dorris.

"The Ladies," proposed by Mr Alf. Ellis and responded to by Mr. James Derocher.

"Our Sister Department," proposed by Mr. Wilson and responded to by Mr. Robt. Cottrell.

"The Press."

"Our Hosts."

During the programme enjoyable vocal selections were given by Messrs Stacey, Townrow and Allen and well played instrumental selections by Mr. Barry.

In the afternoon the employees of the Transformer gave other evidence of their esteem for Mr. Pier by presenting him with an eulogistic address and a handsome pipe and tobacco jar. The address was read by Mr. Bert Dorris, and the presentation was made by Mr. Wm. Jamieson.

SERIOUSLY INJURED.

Yesterday afternoon while the S.A. Band was holding their meeting on George street, a livery horse driven by three young men took fright and became unmanageable. The horse upset the rig seriously injuring one of the occupants. He was taken into a drug store in an unconscious condition and medical attention was given him, after which he was removed to his home.

NOTICE

NOTICE is hereby given that a by-law was passed by the Council of the City of Peterborough, on the sixth day of March, A. D., 1911, providing for the issue of debentures to the amount of $10,000, for the purpose of paying for extensions made in the Waterworks System of the City of Peterborough, in the year 1910, and that such by-law was registered in the registry office, of the County of Peterborough, on the eighth day of March, A. D., 1911.

Any motion to quash or set aside the same, or any part thereof, must be made within three months after the first publication of this notice, and cannot be made thereafter.

Dated the 8th day of March, 1911.

S. R. ARMSTRONG, Clerk.

Children's Aid Society

For the care of neglected and ill-treated children. Incorporated by Act of Legislature, 1892. Information required. Informants' names kept strictly private. Office hours, 10 to 12 a.m., 1 to 3 p.m. George Cochrane, Agent and Assistant Secretary, Office, Division Court Building.

THE MINES DEVELOPING MACHINE WILL BE INCORPORATED

It is One of the Greatest Inventions of the Age for the Speedy Development of

A device which will, when installed, be the means of placing hundreds of mining properties, now laying idle, on a producing and dividend paying basis. It will develop a mine in months where it now requires years. It will be the means of bringing sure and quick returns on mine investments which are now slow on account of the long time required to either reach the ore bodies or develop them to an extent which admits of productions on a large scale.

IT CAN BE USED IN ALL MINING REGIONS.
IT CAN BE USED IN DRIVING IRRIGATION TUNNELS.
IT CAN BE USED IN DRIVING TRANSPORTATION TUNNELS.
IT CAN BE USED IN DRIVING DRIFTS AND UPRAISES IN MINES AND IT WILL WORK IN ALL KINDS OF FORMATION.
IT DRIVES A COMPLETE TUNNEL, DRIFT OR UPRAISE, AND SHAPES ITS WORK ON A SCIENTIFIC PRINCIPLE.

Contracts have already been signed for the use of enough of these machines to keep a large factory busy building them for many months, and I predict that before 5 years many hundred of them will be in use.

A corporation will be organized within a short time to own and handle the machine, and it will be capitalized for $1,000,000 divided into 1,000,000 shares. One-half of the stock will be placed in the company's treasury.

YOU CAN NOW BUY PRE-ORGANIZATION STOCK AT 25c PER SHARE (either for cash or ten-payment installments) BUT YOU CANNOT BUY IT FOR LESS THAN 50c PER SHARE AFTER THE INCORPORATION TAKES PLACE.

GET IN ON THE GROUND FLOOR IN THIS ENTERPRISE. TAKE ADVANTAGE OF THE PRE-ORGANIZATION OFFER NOW.

Use the coupon in making your subscription, either for cash or installments, and make all remittances payable to

TENDERS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Plaza between Dufferin P.M., on Monday, April 3, 1911, for and Sapper's Bridges, Ottawa," will be received at this office until 4.00 the construction of a Plaza between Dufferin and Sapper's bridges, alterations to Dufferin bridge, and demolition and reconstruction of Sapper's bridge.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. 10 p. c. of the amount of the tender which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, March 16, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

ANNUAL TENNIS BANQUET.

The Pleasing Affair to be Held on April 4th.

The annual meeting and banquet of the Peterborough Lawn Tennis Association will be held on April 4th. Plates will be laid for those holding tickets on April 4th only. Ladies interested in tennis for the coming season are invited to attend and may obtain tickets from Mr. R. J. Devey Gentlemen willing to assist in the promotion of the game are asked to obtain their tickets from Messrs. Sandford Hall, W. Coleman or W. H. Clixton.

The buying of a ticket helps, even if you cannot come, as the net cost of the supper is 50c, and there are other expenses. Let us all give the game a boost.

TENDERS.

SEALED TENDERS addressed to the undersigned at Ottawa, and marked on the envelope "Tender for Illuminating Oil and Oil Fuel," will be received up to noon of the

TWENTIETH DAY OF MARCH, 1911.

for supplying and delivering 100,000 Imperial gallons more or less of illuminating oil and 55,000 Imperial gallons more or less of oil fuel made according to specifications prepared by the Department of Marine and Fisheries.

Specifications and forms of tender can be procured from the Collector of Customs at Toronto, Petrolea, Sarnia and from the Agents of this Department at Montreal, Quebec, St. John, Halifax, Pictou, Charlottetown, and from the Purchasing and Contract Agent, Marine Department, Ottawa.

Each tender must be accompanied by a deposit cheque equal to five per cent. of the total amount of the tender.

No tender will be considered except for oil strictly in accordance with the specifications and put up in packages as called for in said specifications. The cases and cans containing samples of oil submitted with tenders must also be strictly in accordance with the specifications and will be taken as samples of the packages offered.

The Department reserves the right to accept the whole or any part of the tender.

Papers inserting this advertisement without authority from the Department will not be paid for same.

DESIRES TO HAVE CANADA EXEMPT FROM PAPAL DECREE

RELATING TO MIXED MARRIAGES PASSED THREE YEARS AGO.

Ministers Hold Meeting—Toronto Association Formed a Committee to Take the Matter Up.

Toronto, March 20.—To have Canada exempted from the Papal decree relating to mixed marriages, passed in 1908, is the plan formulated by the Toronto Ministerial Association, at a meeting held in the Central Y. M.C.A. building to-day, and a committee was appointed to that end at the conclusion of an address by the Rev. Dr. Hincks.

"The decree is incompatible with Canadian law," he said "as it gives a definition of adultry that our criminal law does not."

He said that it has introduced a new law with regard to mixed marriages. A man who was tired of his wife can have the contract annulled by the Church, which is also in contradiction of our laws.

Dr. Hincks explained that the new law did not attack the legality of a mixed marriage at all; but only struck at the validity, and that this itself brings them into conflict.

He cited some countries where the request had been made by the bishops and clergy that they be exempted for a certain period, and the request had been granted by the Holy See, and in some cases where an extension of time had been asked it was granted. This, he said, showed that there was uneasiness in the City of Rome itself with regard to the application of the law.

The committee which will have charge of the work will be composed of the following clergymen: Dr. Hinks, J. W. Peddie, Dr. Braithwaite, Dr. Gilray and W. Brewing.

A piece of flannel dampened with Chamberlain's Liniment and bound onto the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest give it a trial and you are certain to be more than pleased with the prompt relief which it affords. Sold by all dealers.

POPE REFUSES TO RENEW RELATIONS.

Madrid, March 18.—Hope of a compromise in the dispute between the Spanish Government and the Vatican was dispelled to-day by king Alfonso's receipt of the positive refusal of the Pope to renew friendly relations unless all measures affecting the Catholic Church in Spain are first submitted to the Vatican for approval.

The reply was submitted to Premier Canalejas, who urged that a rigid anti-clerical campaign in defiance of the Pope be begun at once. Alfonso, however, is reluctant to abandon the efforts at compromise.

PEOPLE WELCOME PLAN

ARBITRATION BETWEEN U.S. AND BRITAIN EVOKES HEARTY RESPONSE FROM CHURCH LEADERS.

To Show the Statesmen—Public on Both Sides of Ocean to Endorse the Proposal.

New York, March 20.—A cable despatch from the Tribune's correspondent in London states that the proposals for an Anglo-American arbitration treaty were welcomed in hundreds of churches yesterday. The Anglican clergy were not silent, but the heartiest responses were from the Evangelical Free Churches, since the National Council has sent out a general appeal for an emphatic expression of approval of the peace movement. The Rev. B. M. Meyers, chief organizer of the Council, stated yesterday that demonstrations prove that the Free Churches of the Kingdom are solidly behind Sir Edward Grey and that it remains for the churches in America and the leaders of Peace Societies to show whether they are prepared to support the British Free Churchmen.

NEW BRITAIN NATIVES KEEP THE YOUNG WOMEN CAGED

London, March 18.—In some parts of New Britain the natives have a custom of placing young women in strict seclusion before marriage by imprisoning them in cages for several years until they reach a marriageable age. The Rev. George Brown, D.D., who has spent many years of his life in the South Sea Islands endeavoring to stamp out polygamy and cannibalism among the natives, describes how on one occasion he inspected a number of these human cages.

"The atmosphere inside them was hot and stifling," he says. "The cage was quite clean, and contained nothing but a few short lengths of bamboo for holding water. There was only room for a girl to sit or lie down in a crouched position on the bamboo platform, and when the doors are shut it must be nearly or quite dark inside. They are never allowed to come out except once a day to bathe in a dish or wooden bowl placed close to the cage. They are placed in the cages when quite young and must remain there until their marriage."

Y.M.C.A. NOTES

There was a good attendance at the wrestling class last night. Many are taking advantage of the wrestling lessons and the class promises to turn out some crack wrestlers.

ACKERMAN NIGHT.

To-night will be Ackerman Night at the Y.M.C.A.

The building will be thrown open to all employees of the local establishment.

The gymnasium and swimming tank will be in full swing.

Special features of the evening will be a tug-of-war and a bowling match between selected teams of the popular firm.

BASKETBALL.

To-morrow night the Whirlwinds meet with the famous Pirates in a City League match at 9 o'clock.

No admission is charged to see these games and the public should take advantage of this. Everybody will be made welcome—Everybody come.

BOWLING.

The bowling match last night resulted in a win for the Mivies. The game was very close, the Millards being nosed out by only 19 pins.

To-morrow night the Midgets clash with the Lancashire trio.

As both teams are struggling hard for second place there promises to be something doing.

YOUR BLOOD IS TAINTED
ULCERS, BOILS, SWOLLEN GLANDS, BLOTCHES, PIMPLES, AND ALL SKIN AND BLOOD DISEASES ARE COMPLETELY CURED BY THE NEW METHOD TREATMENT

We desire to call the attention of all those afflicted with any Blood or Skin Disease to our New Method Treatment as a guaranteed cure for these complaints. There is no excuse for any person having a disfigured face from eruptions and blotches. No matter whether hereditary or acquired, our specific remedies and treatment neutralize all poisons in the blood and expel them from the system. Our vast experience in the treatment of thousands of the most serious and complicated cases enables us to perfect a cure without experimenting. We do business on the plan—Pay Only for the Benefit You Derive. If you have any blood disease, consult us Free of Charge and let us prove to you how quickly our remedies will remove all evidences of disease. Under the influence of the New Method Treatment the skin becomes clear, ulcers, pimples and blotches heal up, enlarged glands are reduced, fallen out hair grows in again, the eyes become bright, ambition and energy return, and the victim realizes a new life has opened up to him.

YOU CAN ARRANGE TO PAY AFTER YOU ARE CURED

IF MONEY IS NOT VOTED GOVERNMENT MAY APPEAL TO THE PEOPLE AT ONCE

WILL PRESS A VOTE ON SUPPLY AND MAKE THE OPPOSITION SHOW ITS INTENTIONS.

If Money Not Voted May Appeal to People—Dissolution Would Be Likely to Result From Obstructionist Tactics.

Ottawa, Ont., March 20.—The political situation is getting to quite an interesting stage, and there is every possibility of lively times in the Commons for the next two weeks. The fiscal year ends a week from next Friday, and so far there is but a moiety of the supply voted which is necessary to carry on the business of the country.

Whatever happens, the King's Government must be carried on without supply, and so far as the Opposition have, since the reciprocity proposals were introduced, shown their determination to block supply. They have asserted out of Parliament their determination to force the Government to go to the country on the reciprocity issue, and to do so, if necessary, by the refusal to vote supply. Their determination in this regard will probably be put to the test to-night or to-morrow. The Bank of Canada bill may block the way to-day for some time, and it may be late in the evening before the motion to go into supply is reached. But reached it will be, and it is understood to have been resolved by the Cabinet that four out of the five sitting days shall be devoted to supply, only one being assigned to reciprocity, which is, after all, not a matter of immediate urgency, and can well be left over while the business of voting supplies is given precedence.

It is understood that the Finance Minister will at the earliest opportunity propose the passage of an interim supply bill.

When he does, the attitude of the Opposition will have to be made clear. Should they definitely refuse any supply, only one alternative must result, a dissolution of Parliament and an immediate appeal to the country.

Such a course would involve three very important consequences. It would prevent this participation of Canada in the Imperial Conference summoned for May 22; it would prevent the attendance of the Premier and his Ministers, including the attendance of the Parliamentary contingent which would deprive Hon. G. E. Foster and other Conservatives of an interesting trip; and, most important of all, it would rob the West of the increased representation which must follow from the taking of the coming census.

The Conservatives may be willing to force an election upon the reciprocity issue, but whether they would be ready to compel an appeal to the people with the responsibilities involved in the three conditions cited is a question which only time can solve.

OBITUARY

Mr. James Madill passed away yesterday morning at the residence of his son, Mr. Wm. Madill. The deceased was 90 years of age, and came to Peterborough only a few weeks ago from Ohio, where he has resided for some time. He began to sink soon after his arrival, the journey evidently being too much for his years. He had been a life-long resident of Picton and a prominent agriculturist of that section. A few years ago he gave up farming and removed to Whitby where he lived in retirement. Deceased was a consistent Presbyterian, having been an elder for over 50 years. In 1906 Mr. and Mrs. Madill celebrated the 69th anniversary of their wedding. Mrs. Madill passed away one year later, after which Mr. Madill sr., removed to the home of his daughter, Mrs. Gadsby, of Marietta, Ohio, where he has resided until the occasion of his visit to this city six weeks ago.

There are left to mourn his loss six sons and one daughter. The sons are Thomas, of Syracuse, N.Y., John of St. Catharines, Benjamin, James and Walter, of Toronto, and William Madill, druggist, of this city. The daughter is Mrs. Gadsby, Marietta, Ohio.

The funeral will take place to-morrow. Service will be held at the residence of Mr. Wm. Madill, 554 Aylmer street. The Rev. R. Pogue will officiate, after which the remains will be conveyed via G.T.R., at 11.45 to Whitby, where interment will take place.

SARAH CORKERY.

There passed away early yesterday at her residence, 180 Antrim street, Sarah, youngest daughter of Mrs. S. Corkery. She had been ill for some months, the immediate cause of her death being heart failure.

There are left to mourn her loss two sisters, Mrs. Ed. Rogers, Rochester, N.Y., and Mrs. Ed. Milloy, of Cedar Bluffs, Nebraska, and two brothers, Michael of Lafleck, Sask., and Patrick at Harwood.

MRS. WILLIAM MOHER.

On Saturday last, Mrs. William Moher, Douro, passed quietly away in her 82nd year. Deceased was a life-long and esteemed resident of Douro, where she was well-known and greatly beloved.

MRS. ALBERT COSTELLO.

Yesterday morning Mary Loretta McAuliffe, wife of Mr. Albert Costello passed away, after a lingering illness, at the family residence 271 McDonnell street. The deceased, who was only 27 years of age, was born in Emily Township, where she had many friends.

The funeral will take place this morning at nine o'clock to St Peter's Cathedral and thence to St. Martin's cemetery, Monaghan.

TWO HUNDRED BLACK CANADIANS.

Winnipeg, March 20.—Tomorrow 200 negroes from Oklahoma will arrive at the Manitoba border en route to a black colony near Emerson. It is said the Government proposes to interpose every legal obstacle to their entrance. Dr. John Jones, United States Consul-General, has been ordered to the border to see that the negroes receive fair treatment.

ARE SPREADING TROUBLE IN THE SPANISH CAPITAL

Lisbon, March 20.—The Monarchists, taking advantage of the divisions and antagonisms among the Republicans, are distributing money lavishly to spread dissatisfaction in the capital and throughout the Provinces.

The Government's postponement of the elections for the fourth time, not until May 4, has made a disagreeable impression upon the public. The announcing reason for this delay in submitting to the people the choice of a President and Government, is that the clergy have undue anti-Government influence in various northern districts, and there is need of more time to further the Republican campaign.

The British Foreign office has informed the Portuguese Government that it will receive a representative of the Republic quite unofficially, and will not recognize him in a diplomatic capacity.

It is on these conditions that Teixe Ira Gomez, the new envoy goes to London.

CITY SOLICITOR HALL IS ENTIRELY BLAMELESS

The Times is informed that considerable feeling exists over the fact that the agreement between the city and the street railway company calls for no extensions to their system. Some are inclined to blame City Solicitor Hall for what they choose to regard as a bad bargain. This is not fair to Mr. Hall. The Council of 1904 passed the by-law, and before doing so submitted it to the ratepayers for ratification. The people passed it, and therefore the charge against Mr. Hall as well as against the Council of that year is not valid. Mr. Hall has proved himself to be a most capable and efficient legal guardian of the city's interests, and so far as we can see, has always given his best efforts to promote its well being, both legally and otherwise.

NINE THOUSAND STRIKE.

Wheeling, March 20.—More than 9,000 men went out on strike in the Eastern Ohio and Pittsburg district coal fields to-day in response to an order issued by President Lewis, of the United Mine Workers of America.

DIAR WILL RESIGN

BROTHER OF LEADER OF MEXICAN REVOLT THINKS COMPROMISE HAS OCCURRED.

A Temporary President—New Election to Follow Shortly After Dictator Has Left Office.

New York, March 20.—Senor Jose Yves Limantour is on his way to Mexico City to assume the Presidency of the Mexican Government, for a time at least, according to Gustave Madero, brother of the Mexican revolutionist leader. The retirement of Diaz, Madero says, will pave the way to a peaceable settlement of the revolution and the holding of a general conference with representatives of the majority of all the voters, to elect a president.

STORY IS DENIED.

Washington, March 20.—Flat denial of the report that President Diaz of Mexico is to abdicate in favor of Jove Yves Limantour was made by Ambassador De La Barra here today.

TO GET KING'S MEDAL

REGINALD TUPPER, A SON OF SIR CHARLES, RECEIVES UNIQUE DISTINCTION.

Cable Despatch News—John Redmond Says Fear of Oppression for Minority Is a Gross Insult.

London, March 20.—The King's medal to the selected cadet of the cruiser Cornwall has been presented to Reginald Tupper, a son of Sir Charles. Admiral Fawkes conveyed to the recipient the King's congratulations, remarking the great satisfaction it gives the King to see the mother, which sent out her best people to the colonies, receiving their sons back to win prizes here.

REDMOND AND HOME RULE.

London, March 20.—John Redmond speaking at Glasgow, said the fear of oppression of the Protestant minority is a gross insult. He reminded all having such a fear of the experience of Canada, and if that did not satisfy them he was willing to put into the constitution any safeguards, desirable. Mr. Dillon speaking at Halifax, said all the Premiers of the self-governing colonies are strong Irish Home Rulers.

REHEARSAL.

The rehearsal of the Conservatory Madrigal Club will be held this evening, and a full attendance is requested. This will be the last rehearsal that will be held before the concert, which takes place on Tuesday evening next, March 28th.

UNITED STATES FEARS THE ADVANCE OF THE YELLOW MAN

Portland, Me., March 20.—Speaking at the celebration of the birth of General Neil Dow here, Congressman Richmond P. Hobson yesterday declared that only by preserving the vitality can the white race defend itself from the yellow peril.

"Here in America we are making the last stand of the white race," he said. "Eight hundred million yellow men in the Far East want America, and if this generation is robbed of its vitality the next generation will hear the hoofbeats of the yellow man's horse, and the nation will perish.

"So long as the men of this country maintain their manhood we are safe from the yellow peril, and I believe that the verdict of the people will be that the 'great destroyer' of manhood, the liquor traffic must itself be destroyed."

The meeting of which Congressman Hobson was a speaker was held under the auspices of the Women's Christian Temperance Union and marked the opening of a campaign for the retention of constitutional prohibition in Maine which is to be put before the voters in the fall.

TAFT WANTS CANADIAN TRADE AGREEMENT TAKEN UP FIRST

Washington, March 20.—President Taft will oppose any revision of the tariff without first securing a report from the Tariff Board, and any action of the Democrats with the aid of the insurgent Republicans during the extra session toward downward revision of the textiles scheduled will be threatened with a veto.

This is the information which the President allowed to become known to-day. He wants the extra session to take up reciprocity first, the permanent establishment of the Tariff Board second; possibly the English arbitration treaty and then a speedy adjournment.

As for the re-opening of the tariff question, he wants that postponed until the regular session of the Congress in December.

PAPAL DECREE WORSE THAN LOOSEST DIVORCE SYSTEM

SAYS REV. DR. HINCKS SERMON ON POPE'S PRONOUNCEMENT ON MIXED MARRIAGES.

"Canada Will Not Stand For It, No More Than Germany Did," He Declared to His Congregation.

Toronto, March 20.—"Canada will not stand for it any more than Germany did," declared Rev. W. H. Hinks to a congregation which crowded Broadway Tabernacle last night to hear his second sermon on the Papal decree regarding mixed marriages.

People in the balcony began to applaud this statement, but the preacher smothered the applause. "Don't do that, please," he said. Thereafter there was absolute silence.

CANADIAN LAW, ROME'S DECREE.

"This rule of Rome clashes with the law of Canada," declared Mr. Hincks, and he went on to show that the decree nullified all engagements between Protestants and Catholics unless made in writing in the priest's presence. A Roman Catholic young man might promise to marry a Protestant girl, and yet Rome would free him from his promise for no other reason than her religion. Canadian law would fine him $5,000 for breaking his promise, and he was confident that when the clash came between Canadian law and this Papal decree, the law would triumph.

"The Roman Catholic Church is the one that stood out strongest against all forms of divorce, but this decree is a looser law than the worst divorce law of the worst State in the world, because to get a divorce in those States some wrong, committed after marriage, has to be proven against either husband or wife. This rule breaks up homes and leaves children without parents in cases of mixed marriages not performed by a priest."

PETITION TO PARLIAMENT.

The preacher called on all good Canadian citizens of both creeds to petition the Dominion Government against the enforcement of the decree in Canada. He deplored mixed marriages but when such a marriage had been consummated no church or man should be allowed to step in, separate husband and wife, and leave children without a name.

Next Sunday night Mr. Hincks will answer all questions on this subject, sent to him by Wednesday next.

AGED CHATHAM WOMAN WAS BURNED TO DEATH.

Chatham, Ont., March 20.—Mrs. Ann McMillan, an aged lady residing in this city, passed away last evening at nine o'clock, as a result of burns received on Saturday afternoon. Mrs. McMillan, who is 86 years of age, lived with her son, who was away from home on Saturday. She tried to light a gas stove when her apron caught on fire. A neighbor heard her screams and rushed in and put out the flames, but not before she was seriously burned about the face and hands. The shock to her system, coupled with the Painful burns, caused her death.

CALLED HER SWEETHEART

BOOKER T. MADE GOO GOO EYES AND GOT BEAT UP.

Famous Negro Educator Was Roughly Hauled by Enraged Husband—Dr. Washington's Explanation.

New York, March 20.—Dr. Booker T. Washington, the negro educator, was under the care of a physician in his apartments at the Hotel Manhattan to-day, while his assailant Albert Ulrich was awaiting arraignment in the West Side Police Court. Ulrich, who lives at 114 West Sixty-Third street, and who claims that Dr. Washington had spoken to his wife in the hallway of the apartment building where the Ulrichs lived, saying, "Hello, Sweetheart," is charged with assault. While Dr. Washington's injuries were not serious they were exceedingly painful, as his left ear was nearly torn off and there were sixteen stitches in his head.

WOMAN CONFIRMED.

The educator gave a fuller explanation of the attack to-day, declaring that he believed his assailant was intoxicated. On the other hand, Mrs. Ulrich went to court to testify that Washington had not only addressed her in a familiar manner, but had bowed to her upon the street, smiling at her and had later tried to peep into the Ulrich apartments.

STORY OF A CONFESSION GOES UNDENIED---JARDINE AN IDIOT

Goderich, Ont., March 20.—A report that Edward Jardine, who was committed for trial on a charge of murdering Lizzie Anderson last September, has made a complete confession, is being discussed in police circles to-day.

PLEADS INSANITY.

It is stated that Jardine made a full statement of the crime to Dr. Bruce Smith, Inspector of Prisons and Asylums, who paid a visit to the place where Jardine is confined on Saturday. The doctor accompanied by Chief Coroner Arthur Jukes Johnson, was here to examine into the sanity of Jardine and George Vanstone, who murdered his little son some weeks ago. In the course of the examination Jardine is said to have stated that he did kill the girl and that he was temporarily insane at the time the deed was committed.

Lizzie Anderson was last seen on the Goderich Fair ground about 6 o'clock and on the evening of September 20th last. A week later her body was found in the cellar of a deserted building on the outskirts of the town. The throat had been cut with a knife and the clothes stripped from the body.

In his alleged confession Jardine says that he enticed the girl to the lonely house and in the struggle which followed during which the girl threatened to expose him, Jardine struck her first on the head and then cut her throat. He then cut the clothing from her body. He is said to have told the doctor where the knife would be found with which the deed was committed.

NOTHING TO SAY.

"I have nothing to say," was the statement of Crown Attorney Seager when asked whether the story of a confession was true.

Jardine's defence it is said will be insanity, when he is placed on trial here at the regular Assizes on April 11th.

CONFESSION OF SOME KIND.

Goderich, March 20—It is now certain that Jardine did make a confession of his guilt to Drs. Smith and Johnson, of Toronto, in the jail here on Saturday.

JARDINE AN IDIOT.

A startling statement was made by an official this morning. He said that the examination of Jardine by the inspector and the specialists revealed the fact that Jardine was insane and his mind in a state of idiocy. The report, said the official, will show that the prisoner has been in this condition for some time and was therefore not entirely responsible when the crime was committed.

NO OTHER ARRESTS.

No arrests have been made or are in prospect and the confession may not have implicated anyone else.

Sheriff Reynolds was unwilling to speak of the matter, saying, "I have no authority to say anything either one way or the other." He said the story was not one for the public and the one who let it loose would be responsible.

L. E. Dancey, the prisoner's lawyer returned from Toronto on Saturday and is to-day confined to the house and will not be interviewed.

Jardine's behaviour has always been cheerful since the beginning of his imprisonment, up to about a week ago and since Saturday, he has not been so gay, it is said. Members of his family are not permitted to see him and have been excluded from conversation with him for some time past. By the orders of Crown officials all visitors are to be henceforth refused admission to the prisoner.

Mrs. Jardine repudiates the ideas that he had made a full confession. She said this morning, "I was nearly crazy when I heard about it. It can't be true. I hope you won't advertise anything so false as that." She said Drs. Smith and Johnson did not pay her a visit on Saturday, although neighbors say they did.

Officials are pestered with phone inquiries and interviews but beyond the statement that they will not say anything about it, nothing can be learned from them.

Wesley Anderson, father of Lizzie Anderson, the murdered girl, said this morning, "It's the best thing he could do, and I am glad if he has confessed it all."

ROYAL

TODAY

The Royal has secured a big Attraction for to-day, the "Sugimoto's Japanese Troupe," a family of five Japanese performers, the cleverest performers in the world to-day. Do not miss the Royal the first three days of this week.

ADMISSION

How to Tell Catarrh

An Experienced Physician Says the Following Symptoms are Sure Signs.

You can always tell catarrh by the following well known signs :—

Eyes red and watery ?
Difficulty in breathing ?
Are the nostrils stuffy ?
Do you sneeze frequently ?
Is your throat hoarse ?
Do you spit phlegm ?
Oppression in the chest ?
A ringing in the ears ?

If you have any of these indications of catarrh cure the trouble now—stop it before it gets into the lungs or bronchial tubes—then it may be too late. The remedy is "Catarrhozone," a direct breathable cure that places antiseptic balsams and healing medication on every spot that's tainted by catarrhal germs.

There can be no failure with Catarrhozone—for years it has successfully cured cases that resisted other remedies. "No one can know better than I the enormous benefit one gets from very first day's use of Catarrhozone," writes T. T. Hopkins, of Westvale, P.Q. "I had for years a stubborn case of Bronchial Catarrh, ear noises, headache, sore eyes, stopped-up nose and throat. It affected my appetite and made my breath rank. Catarrhozone cured quickly."

Get Catarrhozone, use it and you are sure of cure—beware of imitations and substitutes. Large size Catarrhozone with hard rubber inhaler lasts two months and is guaranteed. Smaller sizes 25c and 50c. By mail.

THE MORNING TIMES

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

TUESDAY, MARCH 21, 1911.

TUBERCULOSIS SUNDAY.

Sunday, April 30th, 1911, has been chosen in the United States as tuberculosis day, and it is expected that in 200,000 churches there will be some reference to the "great white plague" and the means of combating it. Last year, on "Tuberculosis Sunday," over 40,000 sermons were preached on the prevention of consumption. This year the National Association asks that meetings be held on Sunday, April 30th, or on any day near that date, at which there will be some adequate reference to the subject. They do not ask that the whole sermon be devoted to the subject, but that in some way the matter be brought to the attention of the people. The National Association is planning to gather statistics from thousands of ministers to show just how seriously the problem affects the churches. To some, it may be, the healing ministry of the church may seem somewhat foreign to her proper work, but most of us have come to recognize that anything which is so intimately associated with the physical well-being of the nation cannot be a matter of indifference to the pulpit. Good health is not religion; but any religion which ceases to concern itself with the national health will soon cease to be numbered with aggressive national forces. Canada might do worse than have her own national tuberculosis Sunday.

FREAK BILLS GALORE IN U.S.

The world is still as full of minor wrongs and shortcomings as a midsummer morass is full of mosquitoes. Witness the number and range of the freak bills now before the state legislatures of the United States.

Several of these bills are concerned with people's clothes and related belongings. A representative at Springfield protests against the hobble skirt and its sister in shame, the harem skirt. South Dakota would prescribe the manner in which women shall dress their hair for church and theater. In Delaware, several bald-headed senators are scrutinizing a "hair grower" which is promoted by one of their colleagues. Texas, to guard against the disillusions that sometimes follow hasty marriage, is taking a stand against false hair, false teeth and wooden legs.

The brute creation also receives considerable attention from various quarters. A representative in Ohio would stop the killing of crawfish. A colleague of his would prohibit the "smoking out" of raccoons. A senator in Delaware would abolish mosquitoes in his own district.

It will be seen from these luminous typical instances that the vast circle of the law is composed of many infinitesimal segments, and that the minds of some of our constituted law makers are infinitesimal, too. But when we consider how many measures of great pith and moment are wrecked in legislative halls, oftentimes as much to the dismay of the more simple-minded solons as to that of the general public, we may feel more indulgence toward an exhibition of idio-syncrasies which marks a determination to secure, in default of big results, such lesser ones as may be grasped.

Specialists in diseases of Skin, Blood, Nerves, Bladder and Special Ailments of men.

One visit advisable : If impossible, send history for free opinion and advice. Question Blank and book on diseases of men free. Consultation free. Medicines Furnished in tablet form. Hours : 10 a.m. to 1 p.m., and 2 to 6 p.m. Sundays, 10 a.m. to 1 p.m.

"GUARD, TURN OUT!"

How the British Soldier Deals With Spies

Nowhere is there such an Empire chain as that in which every link is a British "Tommy." Wherefore the latter is an expert on the spy, and, reading of the recent Portsmouth affair, will smile a little indulgently, then seek an obscure nook—not the sentry-box—and settle down to "watch with ever-peering eyes."

It is an Indian billhook, rifle slings are on the prowl. Or a Pathan spy. The two hours' term of duty is like eternity, the British "Tommy" has become an Ismanish—an Ismarish with ever-peering eyes.

The bull-frog's lugubrious croak is interrupted by the tiny tinkle of a stone in a can hung on barbed wire. Immediately something sinuous and shiny shows on the spot where an inexperienced recruit might have stood; a shuffle—it has gone. And in a twinkling the sentry stands, with fixed bayonet, imprisoning the Pathan in the sentry-box.

Not that dramatic turning of the tables, but the simultaneous, blood-curdling shriek, "Gy-ard-rd, t'n out!" sends a quiver into the very marrow of the native's bones, and in less than sixty seconds he is forced by the business ends of bayonets, held in sturdy British hands, through the guard-room door.

Locked in the magazine-yard of a Mediterranean station, a few years ago, the sentry feared his two hours were lengthening into three; his shouts through the gate brought no response. Fighting his overpowering inclination to doze, he was soon startled by a rustle.

With a brisk, staccato challenge, he waited, with his bayonet at the "Charge." The hesitation, and then the defiant, strange-voiced "Frent!"—instead of the usual "Relief!"—put him on his guard. Waiting in the shadow, he saw two masked natives enter, knives glinting in their hands.

In a moment he had struck one to earth with the butt of his rifle, and then swiftly pinned the other with his bayonet. The guards were discovered drugged with chloroformed, administered whilst they slept. Papers found on the spies left no doubt as to the intended fate of the magazine—and of the unsuspecting sentry in it!

Deliberate intention of spying has occasionally been traced to foreigners in our ranks. With some ability as actor and linguist, the unscrupulous alien has little difficulty in entering our ranks; and, some years ago, an armorer-sergeant, of doubtful nationality, was detected at Jersey, Channel Islands, disposing of details of a new British rifle to the French authorities.

It recently came to light that a man had earned a pension in both the German and British armies.

At one of our most important foreign forts our soldiers were once badly trapped.

It was known that a Teutonic spy was in the vicinity, bent on making plans, and so the sentry on a magazine, one moonlight night, kept eager watch, and soon was startled by a loud rustling in the adjacent trees. Going cautiously forward, he suddenly observed the figure of a man perched high on the bough of a tree, half hidden by the leaves.

The sentry's first impulse was to use the business-end of his bayonet; on second thoughts, he determined to constrain his captive to his uncomfortable perch all night. The idea was thoroughly to the taste of the relieving sentries, each of whom, during his two hours' duty, stood right under the tree, gazing exultantly at the figure aloft, and indulging in satirical remarks, anything but complimentary or consoling.

At dawn, a triumphant guard proceeded to dislodge the captive. He responded not to their taunts; he did not budge an inch. A private at once climbed aloft, and in doing so, shook down a lifelike effigy!

By this clever ruse, the spy had effectually diverted attention while acquiring the information he required and departed.—Answers.

A SMART BOY

Why the Office Lad Took his Master's Lunch

The English office-boy is generally voted a cheeky young rascal, as cunning as a fox. A few days ago a city councillor had, on the recommendation of a friend, taken into his employ a youngster just from school, who had credentials for being smart and—rare virtue—well-behaved. The lad had evidently been well-drilled, and his first day or two gave promise of being a valuable acquisition to the office. His employer one afternoon, called the boy and said, "Run over to the restaurant and get a cup of tea and some biscuits; here's sixpence, and be quick." A cheerful "Yes, sir," and the boy disappeared. Half an hour passed by, and no sign of the lad's return. Getting impatient, the employer went into the clerk's office, where he found the boy hard at work. "Did you get that cup of tea and biscuits, laddie?" asked the chief. "Yes, sir; thank you very much," beamed the lad and the nonplussed councillor went back to his sanctum ruminating on the folly of careless speech.

A GONDOLA FIRE ENGINE

It is obvious that, as the public thoroughfares of Venice are canals instead of streets, motor-driven or horse-drawn fire apparatus have no place. Consequently the latest Venetian fire department is composed in the main of gondolas, provided with hand pumps. The gondolas are driven through the water by means of long oars or sweeps, operated by the firemen. When the fire is reached, two of the crew work the pump, which draws the water up from under the boat, and the third member holds the nozzle and directs the stream. The water can be thrown as high as the second storey of a building. Fires in Venice, however, are few and far between, owing to the stone construction of the buildings.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for purchased homestead in certain districts. Price $3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Homeseekers' Excursion.

to Western Canada (via Chicago), including certain points on Grand Trunk Pacific Railway, April 4th, 18th. May 2nd, 16th, 30th. June 13th, 27th. July 11th, 25th. August 8th, 22nd. Sept. 5th, 19th. Winnipeg and return, $33.00; Edmonton and return, $41.00. Tickets good for 60 days. Proportionate rates to principal points in Manitoba, Saskatchewan and Alberta. Homeseekers' excursion tickets will also be on sale on certain dates via Sarnia and the Northern Navigation Company.

Secure tickets and illustrated literature from any Grand Trunk agent, or address A. E. Duff, District Passenger Agent, Toronto, Ont.

The Easter bonnet joins serve a good purpose if they keep the husbands good natured while they are paying the bills.

ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 300 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

ROMAN CATHOLIC PRAYERS AND TOO MUCH FRENCH

Irregular Conditions in the Schools of Ontario—Government Grants to Be Withheld.

Too much instruction in the French language, the defective teaching of English and the holding of Roman Catholic prayers during school hours are some of the illegal conditions which school inspectors found in some of the public schools in Stormont, Glengarry, Prescott and Russell counties.

Violations of the public school laws have been alleged in regard to many places in these counties and the Ontario Government ordered a special investigation into the matter. The inspectors were told that if irregularities were found to be kept up they should withhold the legislative grant.

The reports of the inspectors are given in the annual report of the Minister of Education, and they make interesting reading.

Following is a summary :—

No. 1, Cambridge—Complaints here of too much instruction in French ; catechism in school hours and closing of school on church holy days; inspector reports that, considering the conditions, English teaching is fair ; grant withheld until law is obeyed.

Nos. 12 and 11, Cambridge and Russell—Complaints here of catechism in school hours and Roman Catholic teachers always employed ; this case is in the courts ; inspector finds school now conforming to the law ; grant withheld.

No. 1, Cumberland — Roman Catholic prayers during school hours ; with a poor teacher the French instruction causes loss of time to English-speaking pupils ; at present good teacher with satisfactory instruction in both languages ; grant withheld pending assurances that inspector's instructions are being followed.

No. 16, Cambridge (given as No. 4, Cambridge—Complaints of catechism in school hours ; of children being allowed to go home at 2.30 p.m., and of poor English instruction ; present teacher is doing fairly well, though English is still weak ; no Protestant pupils attend this school ; children of Form 1. are allowed to go home at recess.

No. 10, Finch, Stormont—Found that Roman Catholic prayers and catechism were used in school hours ; both French and English taught ; all pupils French. Trustees have been notified of illegalities and teacher told to teach more English. Grant withheld pro tem.

No. 10, Lancaster Glengarry — School attended by both Protestants and Roman Catholics ; catechism has been taught a quarter of an hour each day during school hours. Teacher instructed to cease doing so.

No. 9, Caledonia, Prescott — During school hours Roman Catholic prayers and catechism. Grant withheld pending receipt of trustees' certificate to observe the law.

Nos. 13 and 14, Caledonia and South Plantagenet—Roman Catholic religious exercises contrary to law ; English well taught. Grant withheld.

No. 14, East Hawkesbury—Defective teaching of English and use of Roman Catholic prayers in past years, but now there is well qualified teacher and law is obeyed.

L'Original — Complaints of insufficient English taught and religious exercises contrary to law ; inspector finds English fairly well taught ; Roman Catholic prayers used and school closed on holy days, three or four times a year. Trustees have undertaken to stop this and to observe the law.

Unions 13 and 14, Plantagent and Cambridge—This school now conducted according to law. Charge that two trustees ignore the third is true.

THE BIG FIGHT IS ON IN EARNEST AT OTTAWA

Ottawa, March 20.—It is now evident that the big fight of the Opposition is on in earnest. No public business of any account has been done by Parliament last week. Some private bills have been advanced a stage, and some money was voted for immigration, but that is all.

It is freely reported that the Opposition means to drive the Government to the country, if possible, to test the feeling of the people on the reciprocity agreement.

The Government now suspects that this is the move to be made by the Conservatives, and it is stated that the Government will test the situation this week by means of an interim supply bill, which Mr. Fielding will introduce. It is believed that he will do so to-day.

Meanwhile, March 31, the end of the fiscal year, is drawing very near, and the Government must get money.

Both political parties are remarkably confident of the outcome of the issue, if there is an election upon the reciprocity agreement.

GERMAN'S ACT IS CONDEMNED

Crowland, March 14.—At a meeting held on Saturday by the Crowland Reform Association, they passed a resolution condemning Mr. German for misrepresenting the riding. The resolon was as follows :

"Moved by Amasy Matthews, seconded by Wallace Tufts, and resolved :

"That we, the Liberals of the Township of Crowland, in the County of Welland, having carefully considered the question of the proposed trade agreement with the United States, providing as it does for a free interchange of natural products, without unduly affecting the protection afforded to Canadian manufacturers, desire to express our approval of the same and our confidence in the Right Hon. Sir Wilfrid Laurier and his Government.

"We further desire to express our disapproval of the attitude taken on this question by W. M. German, K.C. member of this county, who, without any consultation with our mandate from the Liberals who elected him to the honorable position which he now holds, has seen fit to oppose this measure."

The Food Drink

Many people drink O'Keefe's "Special Extra Mild" Ale solely for its food properties. Being brewed of finest hops and malt, it contains all the body and brain building elements of these grains. It is because we use the best, that

O'Keefe's
Special Extra Mild ALE

is so rich and creamy—so thoroughly enjoyable—as well as so nutritious and wholesome. It's "extra mild" remember, and never makes you bilious. In Crown stoppered bottles. No broken cork or tinfoil in the glass.

"The Beer that is Pure always O.K."

W. MORTON KELLY SHOOTS HIMSELF

Toronto, March 15.—Driven to despondency by the realization that his health was in danger, W. Morton Kenley, aged 26, teller in the Toronto branch of the Bank of Montreal, committed suicide in the bank basement at 9.15 this morning by sending a 32-calibre revolver bullet into his right temple. He had been in Ottawa yesterday attending the funeral of a relative, which experience is thought to have made him more melancholy.

STEADY, TRUSTWORTHY.

The manager of the local branch of the bank stated that the young man had always been a steady, trustworthy official, and there is not the slightest suspicion that financial embarrassment had anything to do with his act. His place in the "cage" was taken yesterday by another clerk, who found everything as it should be.

Kenly returned from Ottawa this morning, and proceeded to the cloakroom in the basement of the bank, where he removed his hat and coat. A few minutes later a report was heard, and a couple of the staff hurrying down, found the young fellow lying near the door of the furnace room, with a smoking revolver at his side. He died without regaining consciousness, and the body was removed to the Morgue.

CROWD GATHERED.

The occurrence caused no excitement or flurry in the general office of the bank upstairs, although a large crowd of morbidly curious men and women blocked the sidewalk at the corner of Yonge and Front streets, while the body was being conveyed to the wagon.

WAS WITH ONTARIO BANK.

Young Kenly came to the Bank of Montreal when that institution absorbed the Ontario Bank five years ago, and had since been a clerk in the local office. He boarded along with his mother, who is his only immediate relative, at 266 Bloor street west. The family lived originally in Ottawa.

The man was neatly dressed in a blue serge suit, and his pockets contained in addition to the usual assortment of watch, knife, pen, and trinkets $30.58 in cash.

"I believe that Kenly was worried to desperation over his weak constitution," said one of his fellow-workers. "He was always very delicate, and had several times been denied eligibility to the Bank Pension Fund by the medical examiner. A few minutes ago a local insurance agent was in here and told me that Kenly had desired to take a policy with his company, but had failed just a couple of days ago to pass the medical examination. The young fellow's books were certainly all right."

UTAH OPPOSES RECIPROCITY.

Salt Lake City, Utah, March 14.—The State Senate yesterday adopted a memorial to Congress protesting against certain features of the Canadian reciprocity agreement. It had been adopted previously by the House.

Everything appears to indicate that Sir Wilfrid is about to have the time of his life.

Sprained Wrist And Ankle

After Being Laid up With Great Pain for Ten Days, Relief Was Gained Instantly by Applying

NERVILINE.

One of the most soul-distressing accidents that can befall one is a bad ankle or wrist sprain. "If I had only known of 'Nerviline' earlier, I could have saved myself an enormous amount of pain, and many agonizing nights of sleeplessness." Thus writes P. P. Quinn, a young farmer living near Brockville.

TESTIMONIAL NO. 4266.

"I tumbled from a hay loft to the barn floor and sprained my right ankle and left wrist. They swelled rapidly and caused excruciating pains. It was not convenient to go to the city, and the liniment in the house was useless. When I got Nerviline relief came quickly. It took down the swelling, relieved the pain, and gave me wonderful comfort.

"I can recommend Nerviline for strains, bruises, swellings, muscular pains, and sore back. I have proved it a sure cure in such cases."

Think what it might some day mean to you to have right in your home, ready for an accident or emergent sickness, a bottle or two of Nerviline. Get it to-day. 25c. or five for $1.00, all dealers or The Catarrhozone Co., Kingston, Ont.

The Morning Times

PETERBOROUGH, ONTARIO

TUESDAY, MARCH 21, 1911.

Building Launches.

There will be more gasoline launches than ever this summer. Many new crafts are being built this winter.

A Good Address.

Rev. Mr Trumpour, of All Saints' Church, delivered a thoughtful and interesting address last night at the meeting of the Young People's Guild of St. Paul's Church.

Executive Meet.

The newly elected executive of the Children's Aid Society met at the residence of Mrs. Hopwood, Simcoe-street, yesterday afternoon, when matters of importance was disposed of, and plans for the season perfected

California Oranges.

Local jobbers are receiving an ample supply of California oranges. The fruit shows good condition. While the market is firm, the retail prices are reasonable, the average being—126's, 40c; 150's, 35c; 176's, 30c; 200's, 25c.

Burned While Cooking Meat

While preparing the evening meal yesterday, Mrs. R. Mead, Reid-street, was painfully burned by an explosion of coal gas. Her eyes and face were singed with the flame which burst forth. Fortunately her daughter was present and helped her mother to bed, when remedies were applied that relieved the pain.

Fined $20 and Costs.

A young man belonging to this city was fined $20 and costs at the Police Court for assaulting another young man belonging to Norwood. Mr. F. D. Kerr appeared for the accused, but was unable to save him from a fine of $20 and $18.10 costs. He was given ten days to pay up. The plaintiff was also punished for being drunk and fined $2. Mr. G. N. Gordon appeared for plaintiff.

Well Known Traveller Dead.

Word has been received through Mr. Robert Fair of the death in England of Mr. W. E. Williams, who for eighteen years had been making semi annual trips to Peterborough in the interests of the firm of Rylands and Sons, Manchester, carpet manufacturers. The late Mr. Williams was a man of sterling integrity and of strict honesty in all his business dealings. His many Peterborough friends will regret to hear of his death.

Leaving For the West.

Mr. J. J. Smith and family leave for the West in a few days, where they will reside in future. They will take up their abode in Abernithy, Sask. Mr. Harold Smith was remembered by his friends on Friday evening, who presented him with a handsome suit case and address. The address was read by Mr. A. L. McGill, while Mr. Everett Kidd made the presentation. There were about 40 young men present and a delightful evening was spent in dancing and games. The Times joins in wishing the family every success in their new home.

Chinese Famine Fund.

The following amounts have been received for the Chinese Famine Fund:

Previously acknowledged	$156.25
Friend	2.00
Miss Laidlaw	1.50
A. Brown	5.00
Miss E. Morrow	6.00
J. M. Sargent	2.00
D. F. Drummond	1.00
W. E. White	1.00
R. G. Clifford	1.00
Mrs. A. R. Campbell	2.00
St. Andrew's Church	44.50
	$225.25

Hint to Summer Cottagers.

District Passenger Agent R. L. Thompson, of Toronto, held a conference with the keepers of summer resorts in Muskoka regarding the mosquito nuisance. Mr. Thompson suggested that they utilize oil, and submitted data to prove that its use for obviating the pest had been most successful, from a scientific standpoint, in a number of localities. They were much impressed with Mr. Thompson's talk, and a mass meeting of cottagers will be held at the lakes to discuss the proposition. Mr. Thompson stated that about 200 barrels of oil, at $3 a barrel, would be sufficient to destroy the mosquitoes in that district. Here is a pointer for Stony and Rice Lake cottagers.

From the Old Sod.

Lindsay Warder: A carload of horses from England passed through Lindsay this week on their way to Sir William Mackenzie's stables at Kirkfield. They were an excellent lot of equines.

A Case of Sour Grapes.

Lindsay Post: A local merchant was heard criticizing the council the other day for not making stronger efforts to secure the rubber works, which is likely to go to Peterboro. Time will tell whether his criticisms are justified and we will be in a position to see which town was "rubbered."

Georges to Meet.

Mayor Morrow has received a letter from the Lieutenant-Governor on behalf of the Governor-General, asking him to call a meeting in order to secure the participation of different "Georges" of Peterborough in the coronation presentation which will be made to his Majesty King George V. by the Georges of Canada. Similar meetings are being called all over the Dominion to get the scheme on a working basis, and His Worship, the Mayor has called a meeting for to-night in the Council Chamber to effect a local organization. Being a George himself, our popular Mayor, is naturally interested in the proposal and he would like to have everyone in Peterborough, whose Christian name is George, to be present to-night to assist in this unique presentation to His Majesty.

The Coming 12th.

Cobourg Sentinel-Star: From an issue of the Cobourg Star of 1853, we notice that over 10,000 Orangemen attended a big demonstration held here on July 12th of that year. From present appearances over that number will attend the demonstration here on July 12th this year—fifty years later. Amongst the bands that will be here are the Sylvester Band of Lindsay, 57th Regimental Band of Peterboro, Oshawa, Port Perry, Port Hope, Welcome, Belleville Millbrook and several others, besides numerous fife and drum bands. It is altogether likely that prizes will be given for the best brass and reel bands. The speeches will be given at Victoria Park and the line of march will be from the Town Hall down King to D'Arcy Street, to University Ave., along University Avenue to William Street, down William to King and along King street to the Park. The local committee are working hard to make it the most successful ever held in the district.

State of Ohio, City of Toledo, Lucas County. ss.

Frank J. Cheney makes oath that he is a senior partner of the firm of F. J. Cheney & Co., doing business inthe City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn before me and subscribed in my presence, this 6th day of December, A.D., 1886.

A. W. GLEASON, (Seal) Notary Public

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

SOCIETY EVENTS

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mrs. B. Shortly, 550 Aylmer street will not receive this afternoon.

Mrs. James Long, 561 Reid street, will not receive to-day.

Mr. C. Young, left on the 11.45 G.T.R. train yesterday for Haliburton.

Mr. E. F. Mason left on the 8.30 G.T.R. train yesterday for Orillia.

Mr. Harry Long left for the West yesterday, where he will reside for the summer.

Mr. Chas. L. Brewer, of Chas. Robertson Co., Montreal, went to London yesterday on the noon train.

Miss Amy Parsons, of Omemee, is spending a few weeks in the city, the guest of Miss Ethel Rehill, George street.

Rev. E. Winchester, of Knox Church, Toronto, is the guest of Mr H. M. Gilchrist, 172 Antrim street.

Mr. W. F. Johnston's many friends will be pleased to learn that he has so far recovered from the attack of grip, from which he has been suffering as to be able to be out again.

Miss Laura Edwards entertained a number of her friends the other evening. A very enjoyable time was spent by all present. During the evening Miss Mabel Little was surprised by a linen shower.

Mr. J. J. Thompson, the popular physical director of the Local Y.M.C.A., is suffering from a bad knee. His many friends wish him a speedy recovery.

THE CANADIAN PACIFIC RAILWAY COMPANY. Dividend Notice.

At a meeting of the Board of Directors held this day the following dividends were declared:—

On the Preference Stock, two per cent. for the half-year ended 31st December last.

On the Common Stock, two and one-half per cent. for the quarter ended 31st December last, being at the rate of seven per cent. per annum from revenue, and three per cent. per annum from interest on proceeds of land sales and other extraneous assets.

Both dividends are payable 1st April next, to shareholders of record at 3 p.m. on 1st March next.

Warrants will be mailed on 21st March next.

By order of the board.

W. R. BAKER, Gen'l. Manager.

Montreal, Feb. 15, 1911.

VOL XXXIV NO. 68 PETERBOROUGH, ONTARIO, WEDNESDAY MARCH 22, 1911 PRICE TWO CENTS

GEORGES' MEETING LAST NIGHT A HUGE SUCCESS

ENDORSED THE MOVEMENT OF THE GEORGES OF THE EMPIRE MAKING A PRESENTATION

To His Majesty King George V. at the Time of His Coronation—A Committee Formed to Take Up the Matter.

A large number of Georges gathered at the Council Chamber last night, in order to see that every George in Peterborough would be given notice of the fact that it was his privilege to contribute to the present to be given to His Majesty King George V. at the coming coronation.

His Worship Mayor Morrow opened the meeting by reading the letter which he received from the Lieutenant-Governor.

The letter stated that all Georges were given the opportunity to subscribe anything from 5c to $5.00 towards the present.

His Worship then called on any of the Georges present to give suggestions of the best way to deal with the matter.

Mr. George Hatton then suggested the selecting of a George Committee to attend to looking up the Georges and the receiving of subscriptions.

George No. 2 suggested the canvassing of all the Georges in the city.

George No. 3 suggested having advertisements placed in the local papers.

George No. 4 was in favor of selecting a George Society to co-operate with the George Committee.

No. 5 suggested the looking up of the Georges in each ward, by one appointed George in each ward.

The next suggestion was that two or three be appointed in each ward as a committee.

Dr. George Cameron then made a few remarks.

Major Bennett was in favor of taking up a collection among the Georges present.

His Honor Judge Edmonson was in favor of having two or three in each subscribing. He also stated that it wasn't a matter of how much could be collected, but the most important thing was to get a good list of the Georges.

Ald. George Duncan then moved that this meeting of Georges endorse the idea of the Georges of the Empire making a presentation to His Majesty King George V., at the time of his coronation, and that a committee be formed to take charge of the matter of receiving subscriptions and be composed of the following:

W. G. Morrow.
George W. Hatton.
Dr. Geo. S. Cameron.
Geo. W. Howson.
Geo. Maitland.
Geo. Duncan.
Geo. Ball
Geo. Austin.
Geo. A. Gilleapie.

This was seconded by Major Bennett and the motion was carried. Mr. Frank Adams was appointed as treasurer.

City Clerk Armstrong was appointed secretary.

He suggested having cards printed and put in the windows of stores and banks, informing the Georges of their duty.

A collection was then given in by the Georges present.

The committee then selected the following business centres as places for receiving subscriptions:

SOUTH WARD—R. C. Braund's, Mrs. Halpin's, Geo. Gobeen's.
CENTRE WARD—Quaker Oats, T. A.S., Y.M.C.A., The Banks.
WEST WARD—Lillico's Store, G. Riley's, Matthews Store, Lynch's Grocery Store.
NORTH WARD—Kernaghan's, Allison's, Hoopers.
EAST WARD—Bell's Grocery store Kylie's, Kerr's.

The members of the committee were then appointed to look up the Georges in the different wards.

The meeting then adjourned and the committee will call another in the near future.

NEITHER PARTY WOULD CARE TO BE RESPONSIBLE FOR DISSOLUTION AT PRESENT STAGE

Ottawa, March 21.—The probability of an early appeal to the country on reciprocity is the big theme of discussion on Parliament Hill to-day, and the almost general opinion among the members is that it is very remote. The talk of obstructive tactics by the Opposition when the House goes into supply is not credited. As a matter of fact it is stated that obstruction has not even been considered by the Conservative party.

Many private members on both sides of the House are really in a very awkward position to be plunged into an election at the present stage of public opinion. Liberals representing Eastern manufacturing constituencies and Conservatives sitting for some of the Western farming districts would, it is felt, find themselves up against a rather hard proposition in securing re-election unless they bolted from the party.

Another feature of the situation pointing to the impossibility of going to the country at the present juncture, before the census, is that the Liberals will hardly take any such step, the West not having the representation to which it will be entitled a year hence, and on the other hand the Conservatives cannot well take any action which would have the effect of placing upon them the onus of forcing such practical disfranchisement.

CLOSING ON THURSDAY.

Toronto, March 21.—The Legislature will close on Thursday, if the plans of the Premier do not miscarry. There will be a night session Wednesday, and by that time the bulk of the business on the order paper will have been despatched. It is expected that bi-lingual schools will be brought up by Mr. Howard Ferguson on Wednesday.

That Peculiar Lightness and Flavor

Found in the finest biscuit, rolls, cake, etc., is due to the absolute purity, fitness, and accurate combination of the ingredients of the Royal Baking Powder. The best things in cookery are always made with the Royal Baking Powder. Hence its use is universal—in the most celebrated restaurants, in the homes of the people, wherever delicious, wholesome food is appreciated.

Royal Baking Powder

is sold in every civilized country, the world over.

It is the only Baking Powder made from Royal Grape Cream of Tartar.

ROYAL BAKING POWDER CO., NEW YORK.

STREET RAILWAY COMPANY WILL MAKE EXTENSIONS THIS YEAR

HAVE LIVED UP TO THEIR AGREEMENT WITH THE CITY IN EVERY RESPECT.

Extract of Agreement Under Which The Franchise Was Granted—Present Service is Better Than That in Many Small Cities.

At the Council meeting held last Thursday evening, the bottom fell out of the hue and cry that has been raised from time to time in the press (not in The Times, however,) that the Peterborough Street Railway Co had not lived up to their agreement with the city, respecting the conditions governing their franchise. City Solicitor E.H.D. Hall, in his usual positive manner, unequivocally told Council, in reply to Ald Brown, that the company had lived and were living up to their agreement with the city. As in substantiation of Mr. Hall's contention, we draw attention to the following extract from said agreement, which covers the controversy in question

EXTRACT FROM AGREEMENT RE RADIAL RAILWAY.

NOW THIS INDENTURE WITNESSETH that the parties hereto mutually agree as follows:—

1. The Company shall build and put in operation for passenger, express and freight business at least five miles of electric railway in continuous or connected series of lines in the Town of Peterborough, and in the Township of North Monaghan by reopening the line formerly used by the Peterborough and Ashburnham Street Railway Company and by extending the present line to the River Otonabee, provided the consent of the Township of Monaghan can be obtained to such extension in North Monaghan and by constructing a new line from the corner of Park and Charlotte Streets along Park Street north to McDonnel Street, and from the corner of Park and McDonnel Streets to Jackson Park.

2. The lines of the railway described in the first paragraph hereof shall be built, equipped and operated not later than the 1st day of July, 1904.

3. That in case the Company shall on request of the Council, to be made after the first day of July, 1910, neglect after notice in writing being served upon the Company or an officer thereof, in accordance with a resolution of the Council, requiring the construction of a railway on additional streets in the Town of Peterborough, to build and have in operation such railway within nine months after giving of such notice, the franchise of such streets shall revert to the Corporation and the Corporation shall in that case have the right to grant a franchise of such last streets to any other Company or person and any other Company or person shall have the right to cross the tracks of the Company with its line or lines of railway without payment of any sum for the privilege of so crossing except an equitable share of the cost of making the crossings and maintaining the same.

Clause Five in the foregoing extract is plain enough in that it does not bind the company to lay their tracks on any street or streets named by the Council after July 1st, 1910, although should they fail to respond to such a request within nine months after due notice of same is given, then the franchise of such streets reverts again to the city. This, however, would not affect the company's rights on any streets upon which they are already operating.

EXTENSIONS THIS YEAR.

Since securing their street franchise eight years ago, the Street Railway Company have extended their lines to the river, southward, and to Jackson's Park, northward. And now Mr. Larmouth assures The Times that the railway will be extended this summer to Byersville, at the southwestern corner of the city's limits, a distance of one mile; and an additional two miles of track will probably be constructed this coming fall in the north and west. The latter section, if built, would be ready for operation in the spring of 1912.

Mr. Larmouth figures that the cost of a loop to connect the northern end of the Jackson Park line with George street would be too expensive He said. "We would have to build a viaduct over the Grand Trunk lines, and could not run down one hill and up the other without considerable danger, although we have sufficient power for the purpose. We shall not be able to get much under way before the coming fall owing to difficulty in securing apparatus and material."

NEW CAR BARN.

"The company will erect a new car barn at once, to cost $10,000, next to the present barn on King street, and are ordering three new cars of the pay-as-you-enter type. These will be somewhat larger than our present cars and will have seating accommodation for thirty, instead of twenty-eight people, while of course, the platforms will be larger."

"Does that mean that you are going to inaugurate the pay-as-you-enter system on all your cars?" Mr. Larmouth was asked.

"No," he replied, "we couldn't expect to put that system into force without making over our present cars We will try it on the new cars, and if it proves satisfactory, as I expect it will, we will adopt it entirely. It is the best system, as it does away with the possibility of accidents, as the conductor is always on hand."

THE PRESENT SERVICE.

The Times would certainly like to see a loop connecting Jackson Park with George street north, and connection made with East City, and is optimistic of such connections being eventually constructed. The consummation of such anticipated missing links, if practicable, would not only be very acceptable to citizens, but should prove profitable to the company. The service we have, however, is a good one, and leaves but little room for criticism, if any. The cars are run on schedule time, and make close connections. The tracks are kept open under all conditions, oftimes at the cost of running cars all night. The cars are roomy and comfortable and the courtesy of the company's servants is marked. To be brief, there are many cities of Peterborough's size that cannot boast of as good a street car service as we enjoy from day to day, and the present system will unquestionably be extended as opportunity offers.

AMENDMENTS TO LICENSE ACT.

OVER $50 A DAY—The 5 per cent. tax on bar receipts of over $50 a day, not $40 as laid down in first draft of bill. This will produce $60,000 in Toronto and $80,000 a year in the rest of the Province.

LICENSE REDUCTION BY VOTE—Municipal Councils will not be allowed in future to reduce licenses. This can be done only by vote of electors, and by-law must be submitted if petition is received containing 10 per cent. of names on voters' list. After passing, no further reduction can be made for three years.

RIGHT OF SEARCH—The powers of officers to search for liquor that is being smuggled into "dry" districts are greatly increased, and instead of being limited to trains or express companies, they can search trunks, bags, or other receptacles, which are believed to contain liquor intended for sale, whether in control of any person or not.

SUMMER LICENSES—No petition is required for a renewal.

RESIDENT VOTERS—Only bona-fide voters in permanent residence may vote on local option by-law.

QUASHING—By-law cannot be quashed on ground of creating monopoly.

INTERESTING AND INSTRUCTIVE LECTURE BY REV. JOHN MACNEILL

The Rev. John MacNeill, of Walmer road Baptist Church, Toronto, gave a very interesting and instructive lecture last night to a large audience at the Murray street Baptist Church. His subject, "The Making of a Nation," afforded him every opportunity to display his well-known ability as a platform speaker, and the subject presented sufficient scope for a very entertaining lecture. Mr. MacNeill divided his subject so that it would be more easily comprehended and touched on national disease, the contribution of Nature towards the building of nations, the contribution of other nations in its various phases; also our own contribution to help build up a national spirit. He referred at length to the nations of the old world, the reasons for their success and failures and most eloquently referred to our own Canada as possessing all the qualities for building up a great and strong nation within the British Empire. His lecture was heartily applauded by the large audience and it certainly was a treat to listen to his able treatment of the subject. At the close of the lecture a most hearty vote of thanks was tendered him by the audience.

ROBLIN IS DISAPPOINTED AT LAURIER'S OFFER TO MANITOBA

LASHES FOR WIFE BEATER.

Montreal, March 21.—For the first time in eighteen years in the local courts, a man was sentenced to be whipped to-day. William Garvais, for brutally beating his wife, was condemned to a year in jail and six lashes.

LIBERAL PROVISION FOR ADMINISTRATION GOES WITH THE OFFER OF BOUNDARY EXTENSION.

Roblin is Disappointed—Wants to Make the Terms Offered an Issue to Overthrow Reciprocity.

Winnipeg, Man., March 21.—In the Legislature last evening Premier Roblin laid on the table the offer of the Ottawa Government, as to the terms of the Manitoba boundary extension. Anticipations of a debate were, however, disappointed, for the Premier, after stating that the offer was a bitter disappointment to him, said that he would move a resolution on the subject, probably on Wednesday.

The offer of the Dominion Government comes after a long dispute between the Federal and Provincial Governments. It will no doubt be made the issue of the next Federal election in the hope of diverting attention from reciprocity.

By the last census the population of the territory proposed to be annexed is some three to four thousand mostly Indian, and it is urged that the cost of administration per head of the new territory will decrease as the country becomes settled up. The offer of the Ottawa Government is phrased as follows:

"In consideration of these matters the sub-committee recommends that so soon as the Legislature of the Province of Manitoba shall have consented to the proposed increase of its limits, and shall have agreed to the terms and conditions hereinafter set out, Parliament shall enact the boundary extension as previously offered."

The main condition is as follows:

"That inasmuch as the said Province will not have the public lands, mines and minerals and royalties incident thereto in the added territory as a source of revenue, there shall be paid half-yearly in advance by Canada to the Province, in addition to any payments with or allowances at present enjoyed an annual sum based on the population of such added territory as ascertained at each census thereof, as follows:

"The sum payable until the population of such added territory reaches 100,000 shall be $200,000; thereafter, until such population reaches 150,000 the sum of $250,000; and thereafter the sum shall be $300,000."

BABIE SWILL WEAR TAGS

Discourages the Promiscuous Hugging of Helpless Infants.

New York, March 20.—According to the World, mother who wish to follow the latest fad in the nursery must equip their children with printed labels bearing the words "no me bese (do not kiss me)." The tags, specimens of which have just reached this country, are the result of a European campaign against the promiscuous kissing of children. The wording is in Spanish because the ide is said to have originated with Queen Victoria of Spain.

On hygienic grounds so the story goes, the queen directed that her three children should not be embraced by all and sundry court attendants who desired merely to show their loyalty.

A FRIEND IN NEED

To Many a Weak Stomach—

Grape-Nuts FOOD

"There's a Reason"

THE BAHAMAS' REQUEST HAS REACHED ENGLAND

London, March 21. The Government of the Bahama Islands have lost no time in acting on the resolution passed by both houses of the Legislature endorsing the proposal that the islands should seek annexation as a new Province of the Dominion of Canada. In the House of Commons yesterday Mr. Harcourt, in reply to a question, stated that the Imperial Government had received a cable announcing the fact that such a resolution had been passed and asking permission to transmit to the Canadian Government an invitation to a conference with a view to the Islands entering the confederation.

Mr. Harcourt stated that no action would be taken as yet, as the Home Government proposed to wait until they had received the text of the resolution before deciding whether the request should be granted or not.

The most common cause of insomnia is disorders of the stomach. Chamberlain's Stomach and Liver Tablets correct these disorders and enable you to sleep. For sale by all dealers.

GREAT NEGRO EDUCATOR MAKES FIRST PUBLIC EXPLANATION

New York, March 21.—Complete denial of the allegations made against him by Mr. and Mrs. Albert A. Ulrich was made here this afternoon by Booker T. Washington, the noted negro educator, in a statement which he issued at the Manhattan Hotel. It was his first complete statement of defence since he was seriously beaten by Ulrich Sunday evening.

The statement was given out less than an hour before the time set for Dr. Washington's appearance in the West Side Police Court to prosecute Ulrich on a charge of assault.

"I arrived in New York on the 16th. When I got here I found a letter awaiting me from the secretary, E. J. Scott, which was dated from Tuskegee. Mr. Scott informed me that Mr. Smith the auditor of the Institute would be in New York about the same time I got there.

"It is customary for all the department heads of Tuskegee to write me annually giving me the year's progress of the work. I wanted to see auditor Smith in relation to a change in the accounts of farm work of the institution concerning which work Mr. Seth Low had already written me a letter. The department heads who write to me typewrite their letters, but in the case of Mr. Scott's letter there was no copy, and it was written in his own handwriting. Unfortunately I tore the letter up, but as near as I can recall I have written down what it contained from memory.

"'I am glad I learned from Mr. D. C. Smith a few days ago that he was fast finishing up his work here and is likely to be in New York about the same time as you are,'"

"He sometimes stops with some friends or relatives, the McCrary's, I think, is the name, at No. 114 63rd street. I thought that possibly you might want to get in touch with him there regarding Mr. Low's letter."

"On the day that this happened I had been to the Church of the Pilgrims in Brooklyn. I left there about 5 p.m. and came back to my hotel. I remained around the hotel until about 9 o'clock in the evening. I thought I would go up to 63rd street and see if I could find Mr. Smith there. I went up in the subway. I believe that I got off at 59th street and walked over to 114 63rd street.

"I thought I had the name pretty well in my head. I remembered the number of the house, but wasn't quite certain of the name. I went into the vestibule and picked out the name that seemed most like the one I had in mind. The name I saw, I think was Cleary. I rang the door bell several times, but there was no answer. I thought that the people had gone to church and would soon be back. When there was no answer to my ringing I walked up and down the block for perhaps fifteen minutes. Then I returned and again rang the same door bell, but got no answer. I returned a third time, put on my glasses and was ringing the bell of the Cleary letter box when a man rushed in from the street. His collar was off and he appeared to have been drinking.

"As near as I could remember he asked me this: 'What are you doing around here? Are you breaking into my house? You have been hanging around here for the past four or five weeks.'

"Then he struck me on the head.

"'Let me explain what I am doing here,' I cried. But he struck me four or five times."

FOLLOWED NO WOMEN.

Continuing, Dr. Washington said: "I then retreated into the street, and then he rushed at me and struck me on the head with a stick. I then ran, at least when I got near the Park I stumbled and fell and a plain-clothesman came towards me. He showed his badge and said he was an officer. I asked for protection and he made the other stop striking me.

"As I am a man of honor I spoke to nobody on my way to the house, or in the vestibule. I certainly followed no white woman. I would not know Mrs. Ulrich if I saw her.

"I don't recall that anyone passed me as I was in the hallway and no one spoke to me there. I didn't peek through any key hole. This is absolutely ridiculous."

HAMILTON WOMAN HELD FOR MURDER OF HER HUSBAND

REVEREND BIGAMIST SENTENCED.

Amite City, La., March 21.—Rev. Clyde Doyle to-day pleaded guilty to a charge of bigamy and was sentenced to four years in the penitentiary. Doyle came here two years ago and married a Miss Mixson. Later it was learned that he had a wife in Texas. He fled, but was captured and brought back here.

WHY DO CHILDREN LIKE ZAM-BUK?

A Chat With Mothers.

Whenever my children have any sore places, cuts, or skin troubles, they ask for Zam-Buk. They can always depend upon it doing what is needed.

So says Mrs. A. Alee, of 170 Chatham Street, Montreal.

A missionary, writing from the West Coast of Africa, says: "One boy who was treated for a bad case of ulcer, came back recently and said 'I like best that green medicine.' The 'green medicine' was Zam-Buk."

Now why should children, all the world over, show such a marked preference for Zam-Buk?

Children, like Zam-Buk because, as soon as applied to a burn, a cut, or a sore, it stops the pain and then gradually, but surely, it heals. As soon as the pain of a wound or sore is relieved a child can go on with its play and leave Zam-Buk to finish off the healing.

Mothers might look a little more deeply into the action of Zam-Buk. First, it is highly antiseptic. As soon as applied it stops all danger of festering, blood-poisoning and inflammation. Second, it is soothing. It cools the wound or sore; allays the irritation, stops the pain and smarting. Then, thirdly, it stimulates the cells, beneath the injured part, to healthy action, and causes the speedy creation of new, healthy tissue.

Just try Zam-Buk for cuts or burns, or cold sores, or eczema, ulcers, rashes, bad leg, piles, varicose ulcers, or any inflamed or diseased condition of the skin. Its effect will highly satisfy you. All druggists and stores 50c box, or free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations and cheap, worthless substitutes.

Chicago, March 21.—The mystery of the death of Chas. Schenck, Superintendent of the Northwestern Gas Light & Coke Company, who was shot and killed by his wife, early on Saturday morning, was not cleared up to-day, despite the fact that Mrs. Schenck is being held on remand for the coroner's jury, charged with the murder.

Mrs. Schenck still maintains that she shot her husband believing him to be a burglar. Evidence at the inquest tended to prove that two shots were fired from the revolver that killed Schenck, although she maintains that she shot only once.

The shooting followed a celebration of St. Patrick a day at the home of Chick Fraser, one time baseball star, a dance and entertainment at Park Ridge Hall and a final jollification at the Schenck home which ended at 1 a.m.

Mrs. Schenck is a native of Hamiltan, Ontario, and her brother has arrived to assist her.

Hamilton, Ont., March 21.—Mrs. Jessie Schenck, the Chicago woman, who shot her husband early Saturday morning, is a former Hamilton girl. Her maiden name was Miss Jessie Staunton. It is eight years since the woman left Hamilton.

John W. Sickelsmith, Greensboro, Pa., has three children, and like most children they frequently take cold. "We have tried several kinds of cough medicine," he says, "but have never found any yet that did them as much good as Chamberlain's Cough Remedy." For sale by all dealers.

Heaviness at Pit of the Stomach

A Feeling of Uneasiness Before and After Meals Is Quickly Cured With Nerviline.

Nearly everyone gets an occasional attack of indigestion and knows just what that heavy feeling means in the stomach. "I was subject to stomach derangements and my health was seriously hampered on this account. After meals I belched gas, had a weighty sensation in my stomach and over my left side. The first relief I got was from Nerviline—I used it three times a day and was cured. I continue to use Nerviline occasionally, and find it a wonderful aid to the stomach and digestive organs." The above letter comes from Mr. P. R. Stetson, wife of an important merchant in Brockton, and still further proof of the exceptional power of Nerviline is furnished by A. E. Rossman, the well known upholsterer of Chester, who writes: "Let everyone with a bad stomach use 'Nerviline,' and I am sure there will be few sufferers left. I used to have cramps, rumbling noises, gas on my stomach and severe fits of indigestion. Nerviline was the only remedy that gave me relief, and I found it so entirely satisfactory that I would like to have my letter of recommendation published broadcast in order that others may profit by my experience."

NERVILINE RESTORES WEAK STOMACHS

You'll find a hundred uses for Nerviline—it's a trusty household remedy that sells to the extent of a million bottles per year—that's the best proof that it must cure and give unlimited satisfaction. Refuse anything offered in place of Nerviline. 25c per bottle, five for $1. All dealers, or The Catarrhozone Co., Kingston, Ont.

WEDNESDAY, MARCH 22, 1911.

THE MORMON DANGER.

We drew attention this week to the great, secret and insidious activity of the Mormons, and how they are invading Canada, says the Kingston Standard. Very good authorities state that Mormonism is a serious menace to the United States—in wealth it is said to be far greater than the National City Trust or the United States Steel Corporation, and its political and social power is infinitely more widespread and portentous. We are told that it controls several of the larger systems of the railways, some of the largest industries, and a third of the members of the Senate, that its membership is enormously in the increase, and that as an organization it has sworn secretly to destroy those who oppose it and to set up a Mormon Constitution and government in place of the present one.

In Great Britain the attention of the Government has been drawn to the Mormon's activity and the matter is being seriously investigated with a view to action. A few days ago in the Dominion House Sir Wilfrid Laurier was asked the following questions:

1. Is the government aware that a band of Mormon Elders are said to be travelling through Canada preaching their doctrines and endeavoring to obtain converts to their faith?

2. Is the government aware, that according to newspaper accounts, these men have obtained several converts in the city of Montreal?

In view of the fact that polygamy is contrary to the civil and moral law of this country will the government take immediate steps to prevent these elders from preaching their doctrine and personally canvassing in order to obtain converts?

Sir Wilfrid replied that he had no information on the subject.

It should be remembered that Great Britain, Germany and the United States are all alarmed at Mormon activities; the matter is an urgent one; it is not a new one; the press throughout Canada have drawn attention to it, and we hope our government will take early action.

THE LEGAL PROFESSION AND THE POOR BOY.

There is a general tendency to lengthen all professional courses. In medical schools the course is now generally five years, and, while there are still several of diploma mills in the country, the entrance examinations are being stiffened everywhere. On the whole the tendency is wholesome, but it can be carried too far.

The proposal to enforce by legislation a "higher standard" is a debatable one. The state is entitled to prevent unfit persons from practicing medicine or law, but not every student who is too poor to devote five or more years to preparation is necessarily unfit.

Let the state test applicants thoroughly. Let it prescribe standards and enforce them by rigorous examinations. But let it not destroy the opportunities of the poor boy by making every profession a monopoly of the sons of rich men.

OBITUARY.

ROBERT FANNING.

In the death of Mr. Robert Fanning, Peterborough loses an esteemed citizen. The sad event took place on Monday night after a week's illness from pneumonia. Mr. Fanning was born in Otonabee, where he lived until 25 years ago, when he moved to Peterborough. He was a consistent member of St. Paul's Church and was active in everything that was good. He leaves to mourn his loss a widow, five sisters and one brother, two sons and one daughter. They are as follows: Mrs. Packingham, Miss Sarah, Hattie, Mrs. Dryden, Toronto and Mrs. Heard and James of this city. The sons are Stewart, of Quebec, Samuel of this city, and the daughter, Miss Edith, also of this city. The funeral will take place this afternoon at 3.30 o'clock from the family residence, 255 Reid street and proceed to Little Lake cemetery. Service will be held at the house at 3 o'clock. The Rev. R. J. Pogue will officiate.

MRS. CARROLL.

Mrs. Carroll, who formerly resided in Cobourg, passed away at the House of Providence on Monday. The remains were sent to Cobourg for interment, which took place yesterday.

JOHN STEERS.

There passed away at Yellow Grass Sask., on the 18th inst., John Steers formerly of Peterborough, aged 18 years. The deceased was stricken with pneumonia about two weeks ago. His many friends in Peterborough will regret to learn of his demise.

MISS JANET HUNTER.

After a long illness Miss Janet Hunter passed away at her home at Cobourg on Monday, aged 36 years. The deceased lady lived in this city until about ten years ago, and was highly esteemed. Her death will be regretted, as she was of a most lovable disposition and made friends everywhere. She was a daughter of Mr. Geo. Hunter, of Philadelphia, who carried on business in Peterborough for many years. She is survived by her brother, George, of Philadelphia, and Mrs. Kemp of this city. The funeral will take place from the residence of Mrs. Kemp, 181 River Road, Auburn, this afternoon, at 2.30.

A RUMOR OF MURDER

REPORT THAT RUSSIA'S AMBASSADOR HAS BEEN KILLED SITES ST. PETERSBURG.

Stolypin Stays Awhile—Situation Would be Critical If Story Is True, and Premier Would Wait.

Cologne, Germany, March 21.—A despatch to the Cologne Gazette from Pekin reports that M. Korostovetz, the Russian minister to China, has been murdered in Pekin, thus repeating the rumor which was current in St. Petersburg yesterday, but which had not been confirmed at a late hour last night.

WINE-BIBBING RAT

A Notable Recent Addition to the London Zoo

Some notable additions have recently been made to the London Zoo, mainly in the shape of new birds. Among these are four kea parrots.

The kea, or Nestor notabilis, which is found in New Zealand, is a carnivorous bird. It perches on the back of a sheep, and fixing its claws into the wool, probes deeply into the flesh with its powerful beak. The kea is rarer than it used to be, owing to a price being put on its head by the Government.

Another recent acquisition is the blue-cheeked barbet. The note of the barbet resembles the sound of striking metal. Thence the bird has gained the name of the coppersmith, or the tinker-bird.

Among the new mammals there stands out conspicuously the Great Galago. This odd little creature has been nicknamed by the Portuguese the "Rat of the Cocoanut Palm." One great authority, Sir John Kirk, has asserted that it is incapable of resisting the fascinations of palm wine, and will brave captivity for the sake of indulging in its favorite drink.

ITALIAN LOVE TRAGEDY

A Husband Shoots His Wife and Her Lover

An amazingly tragic story comes from Italy. One of the wealthiest citizens of Leghorn, suspicious of his wife's fidelity, pretended to be going away on a visit to Florence, and meanwhile watched events from a house which he had hired opposite to his own. He saw a friend of his enter about midnight, and on crossing to his own house, discovered the former in his wife's boudoir. He immediately shot the man, and then, at her own request, inflicted the same penalty on his wife. On explaining the cause of the disturbance to a mob which had gathered in the street below he was loudly cheered.

RED CORAL

The red coral that is used for necklaces is a horny axis which supports a number of soft bodied animals, or polyps, the entire structure bearing a strong resemblance to a small shrub. The fishermen, after they have brought this shrub-like colony to the surface, clean the soft animal matter away, preserving the red core, or axis, which is sold for the manufacture of jewelry. Although red coral contains lime, it is largely composed of a substance akin to horn, and, like horn, it takes a fine polish. Animal substances of this nature almost invariably change their color when brought into intense heat.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for purchased homestead in certain districts. Price $3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

HALL'S BRIDGE.

On Saturday last a heavy rain storm passed over this part of the country, leaving the roads in a poor condition, and the sleighing almost finished.

Mr. Howard Spafford of Rockcroft, is at present the guest of Mr. Robert Calvert.

Mr. Fred Easson has the misfortune of having his leg badly injured, while driving from Buckhorn to Lakehurst last week. We hope for a speedy recovery.

The relatives of Mr. John Chesney, have the sympathy of the community in his sudden demise at Peterboro, the remains being taken to Lakefield cemetery on Friday.

The council met at Buckhorn on Saturday last.

Miss Blanche Ivey left on Friday for Winnipeg. We wish you success in your future home Miss Ivey.

Mrs. Taylor and Miss Richmond, spent last week at Nogoe's Creek.

Mr. J. Jones and Miss Ruby returned home on Saturday from visiting friends in Lindsay.

The many friends of Ross Allen are pleased to hear that he is recovering, although slowly.

Mr. Stevens of Peterboro, ably filled the pulpits of the Presbyterian circuit on Sunday last.

Mr. R. Freeborn spent Saturday in Lakefield.

ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let those savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 300 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

BRITISH ARMY OFFICERS ON FURLOUGH ARE RECALLED

London, March 20.—All officers of the British army who are on furlough have been ordered to return to their commands at once. No explanation of this action was vouchsafed by the War Office to-day and as a result there was considerable excitement. The mobilization of American troops in Texas has caused widespread discussion here and the news that the English army is to be put in fighting trim has increased this. Several of the officers are now in the United States.

JAPANESE DIPLOMATS ACTIVE.

London, March 20.—Japan is attempting to gain the advantage of the United States in diplomatic relations with Great Britain by attempting to renew with that country their treaty of offensive and defensive alliance four years before it expires. In some quarters this step on the part of the Mikado's Government is looked upon as highly significant.

The Panama Canal, the keystone in the arch of America's fabric of defences on the Pacific coast, will not be completed until 1915. The present treaty expires that year. With the canal in effect the United States would be practically invincible upon the Western coast, due to the possibility of fleet movements from one coast to the other. While the United States could send her warships through the canal, the hostile power would have to take the longer course aroun the Horn.

INADVERTENTLY BETRAYED.

The negotiations of Japan were inadvertently betrayed by Carlyon Willfroy-Dellairs, M.P., vice-chairman of the British navy League, in the course of a lecture on war courses in the Royal Naval College.

It is believed that powerful pressure has been exerted to prevent a renewal of the alliance. The "international peace" addresses of Foreign Minister Grey in Parliament at this time are believed to have an effect more far-reaching than a temporary discussion in the debate on the naval appropriation clause in the budget.

BRITISH SYMPATHIES.

Through the fact that the Foreign Office would renew the treaty without referring the matter to Parliament an attempt will be made to interpellate the Government upon the ground that the matter is of too much importance to the world's peace to be handled in camera.

While time and again it has been expressed in recent years that the sympathies of Great Britain are with the United States, the treaty has for its terms the compulsion of England to aid Japan in the event of war with a foreign power.

JAPANESE MENACE.

Albuquerque, N.M., March 20.—Colonel Theodore Roosevelt, while here, admitted to his friends that the Japanese menace on the Western coast of Mexico is serious, and he is said to have told his old Rough Rider friends that in the event of war he would ask the President's permission to organize and recruit it in the southwest.

Roosevelt has just come from El Paso, where it is said he was startled by inside information concerning Japanese activity.

LINED WITH JAPS.

The whole West coast, he was told, is lined with them, and it was declared to him that the only reason for the mobilization was that the State Department had been informed of a league between Diaz and the Japanese by which the latter in exchange for coaling stations would aid in suppressing the revolution.

STRENGTHENING DEFENCES.

Washington, March 20.—It is reported here to-day that within three months the garrisons in the United States far east possessions will be reinforced by 12,000 infantry, cavalry and artillery.

DEMOCRATS FRAMING UP THEIR PROGRAMME

Washington, March 20.—It is the expectation of chairman Underwood that the Democratic members of the House Ways and Means Committee will begin work on tariff questions this week, and by the time the extra-ordinary session of Congress convenes on April 4, some plan will have been mapped out to govern the committee's procedure after the bill necessary to carry out the Canadian reciprocity has been framed.

The most complex question that will come before the committee is whether any tariff questions will be placed upon the Canadian bill as riders, or whether such schedules as the committee decides should be revised, shall be treated as separate measures.

INTERESTS WILL BE HEARD.

The certainty that hearing will be demanded by producing and manufacturing interests affected by any proposed revision of the tariff may determine the committee not to complicate the Canadian question with consideration of such schedules as wool and woolens, cotton or agricultural implements.

In re-organizing the House of Representatives under the new rule which precipitated the downfall years ago of "Cannonism," the Democratic members of the Ways and Means Committee appreciate that they are putting it to its first test the new order of things for which legislative warfare was waged for years.

KEENE ITEMS

The Sons of Rest met as usual on Saturday night last in the hall of wisdom. In the absence of the President, Tom Decackey, the district organizer took the chair. After engaging in a short pithy address, he ordered the brethren to take their respective places. He then rose and informed the brethren that he was not feeling very well and did not intend to make a speech, as he had a toothache, earache, headache and backache, and would under these aching circumstances declare the meeting open for general business. Hosier Roach rose to his feet and laid a charge against Yankey Mac for indulging in cigarettes on Sunday last. Decackey appeared much annoyed at Mac and fined him $10, to be paid in 2 days or 1 year and three days in jail with hard labor buckswing wood.

Nevermiss Wright rose and laid a charge against Nimrod Sluggit for prospecting for ore on our public streets. Decackey told Nimrod that he had to cut out such transactions as that and imposed a fine of $100 and 2 cents, to be paid at once. Nimrod paid the fine and left the hall in a passion.

Ponty Mac rose and said it was his painful duty to lay a charge against Bismark Miller for trespassing on another township for a young wife. Decackey told Bismark that it was contrary to the rules of this society to not patronize home trade, and therefore would impose a fine of $1000, to be paid in one month or six years in Central prison.

Muttering Elliot rose and in a very excited manner, laid a charge against Farmer Shearer for devoying a hired girl from a neighbor. Decackey became very wrathy and imposed a fine of $60, to be spot cash or one year in jail. Shearer paid the fine.

Howlier Doris laid a charge against Ponty Mac for being so absent minded as to leave his watch on the shore of Rice Lake. Decackey said he would learn Ponty a lesson to not be so careless and forgetful and fined him $600, to be paid in four days, or six weeks in jail.

Chittery Hall rose and laid a charge against Poney Moore for whistling in his store and setting his cat a dancing. Decackey told Poney to not blow his whistle so loud in the future and fined him ten cents, to be paid in one day or two hours in jail. Poney paid the fine and went home whistling "He's a Jolly Good Fellow."

Decackey now rose and told the brethren the closing hour had arrived. He then asked Ponty Mac and Montgomery McCarthy to sing the closing ode. The meeting then closed until next Saturday night at the usual hour.

INDIAN RIVER

The roads are in a very bad condition, and it is almost impossible for the farmers to get around.

Mr. W. H. Borland has captured a sea cow, which he intends putting on exhibition in a few weeks. Mr. Borland says he has only one drawback, and that is the food has to be all ground as the animal has very few teeth.

Mr. P. T. Walker has his new swimming pond nearly completed. Mr. Walker expects many swimming contests the two noted ones being John Duff and P. McCrea.

Mr. James Fitzgerald, C.P.R. lineman, was home for a few days.

Mr. R Letford shipped a carload of cattle from here on Monday.

Mr. J. O'Toole and Mr. J. Londergon, stock breeders, of this place, intend to import a carload of horses from Scotland for the season.

Mr. J. P. Collins predicts an early spring, as he saw a sparrow last week.

CURES CATARRH

Stomach dosing was found ineffective, and the principle of inhalation was finally perfected. Even the Romans and the Ancient Greeks used it, but not in the scientific manner that the physicians prescribe to-day. The most wonderful results have been secured with a new treatment known as "Catarrhozone," which sends germ destroying vapors directly into the air passages of the nose, throat, bronchial tubes, and lungs.

Rich, Pure Essences are Breathed Right to the Spots That Are Sick. Cure Follows.

Catarrhozone proves especially good in those chronic cases where mucus drops down the throat, sickens the stomach, and pollutes the breath. When the nostrils are stuffed, only a few breaths through the inhaler are needed to clear the passages, and where there is coughing and sore bronchial tubes, the soothing, healing properties of Catarrhozone act almost as magic.

Once you stop taking medicine into the stomach and get the healing oils and pure balsams of Catarrhozone at work you can be sure of quick and lasting cure for nose colds, catarrh, weak lungs, bronchitis and speaker's sore throat.

CATARRHOZONE.

Beware of imitations. Three sizes, 25c, 50c and $1, the latter being guaranteed. Sold by all dealers in medicine, or by mail from the Catarrhozone Co., Kingston, Ont.

TUESDAY, MARCH 21, 1911.

The Pay Car.

The pay car of the Grand Trunk passed through here at 10.15 a.m. yesterday.

Ackerman's Night Postponed.

On account of the employees of Ackerman's having to work over time this week, their evening at the Y.M.C.A. will be postponed for a week.

Ice Still Firm.

The ice on Chemong and Rice Lakes is still firm, and teams are crossing daily. It is said to be thicker this year than usual, and hence will not break up so soon.

To Investors.

We call the attention of investors to the advertisement of Messrs. Fleming & Marvin, 310 Lumsden Building, Toronto, who are financing the Dome Extension mining proposition. This stock is generally regarded as a winner.

When you have rheumatism in your foot or instep apply Chamberlain's Liniment and you will get quick relief. It costs but a quarter. Why suffer? For sale by all dealers.

Canadian Club.

The Canadian Club hopes to be able to announce the names of some prominent men, soon, who will be speakers at the next meeting of the club, which is to be held at an early date.

Dorcas Society.

The Dorcas Society will meet this afternoon at the Home of Mrs. Kerr, 566 Gilmour street. Will all the ladies kindly make an effort to be present.

Mr. Dobbin to Speak.

Mr. F. H. Dobbin will give an informal talk on the "Art of Furniture Making," at 3.30 this afternoon, in the Armories. The Women's Art Association will issue membership tickets. The general public will be admitted free. A silver collection will be taken at the door.

Maple Sugar Season.

The season of Maple sugar is now at hand, and the delicious syrup will soon be offered for sale on the market and in the stores. Most of our readers know that the first sap is the sweetest and best, so that the early sugar and syrup is to be preferred.

First Car to Chemong.

Mr. T. C. Murton, a popular local representative of the McLaughlin-Buick Automobile Company, took a car up to Chemong yesterday, the first of the season. Mr. Murton found the roads exceedingly muddy, but the splendid car made by this company had no difficulty in making the trip in 22 minutes.

Astronomical Society.

Last night, Mr. T. A. S. Hay city engineer, gave an address at the meeting of the Astronomical Society, held in the Collegiate Institute Hall, on "An Easy Lesson on How the Distances to the Heavenly bodies are Measured." This was followed by a short talk on the planet Jupiter. The addresses were interesting and very instructive. The attendance, unfortunately was not large.

A Painful Accident.

Mr. Taylor McBrien, a blacksmith employed at the William Hamilton Company's Foundry, met with a painful accident on Monday afternoon. When pounding some red hot iron, a piece flew up and struck him on the face, lacerating his lower lip so badly that several stitches had to be put in by Dr. Morgan. It will be some days before Mr. McBrien will be able to resume work.

Broke Through the Ice.

A number of boys were playing on the ice on the edge of the creek near the West Ward School yesterday, when one of them broke through and came near being drowned. The water is quite high in the creek at present, and the current swept the little fellow off his feet. He was rescued by a larger boy, who happened to be close by when the accident occurred.

Were Duly Honored.

At the regular meeting of Lansdowne Lodge, No. 25, S.O.E., held Monday evening, Bro. S. A. Oke, W. Secretary, was presented with an S.O.E. gold signet ring, and Bro. C. Wood, W. Treasurer, with a jewel of merit, and both brethern was given the rank of Past Presidents, in recognition of their long services in their respective offices. The presentation was made by Bro. E. W. Elcombe, D.D., on behalf of the lodge. There was a good attendance, one candidate was initiated and three propositions were presented. There will be a degree meeting to-night, at 8 o'clock.

SOCIETY EVENTS

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mr. C. Walters went to Campbellford yesterday.

Mr. Will O'Brien, of Toronto, is in the city.

Mr. D. W. Dumble, K.C., was in Lakefield yesterday on business.

Mr. W. H. Pretty was in Lindsay on Monday.

Mr. Parker Davis, Bobcaygeon, was in the city yesterday and favored The Times with a call.

Mrs. C. G. Graham, 188 Dalhousie street, will not receive again this season.

Messrs. Donaghue, Hennessey and Conelly, left on the 5.35 G.T.R. train yesterday afternoon for the West.

Mr. Walter Flowers is again able to be out, after several months of illness.

Mrs. Ross F. Downey, 298 Boswell avenue, will receive this afternoon, and not again this season.

Dr. E. V. Frederick was in Toronto yesterday assisting in an operation on a patient from this vicinity, at the Toronto General Hospital.

Mr. J. T. Paul, representing the Edwardsburg Starch Co., is in the city on business, and gave The Times a call.

Lindsay Post: Mr. A. Grant, Superintending Engineer, of Peterboro passed through town to-day en route to Rosedale in connection with the Trent Valley Canal operations.

Mr. J. P. De Vaughn, the Division Passenger Agent of the Buffalo, Rochester and Pittsburg Ry. Co., left on the noon train for Toronto, after spending a short time in the city.

State of Ohio, City of Toledo, Lucas County. ss.

Frank J. Cheney makes oath that he is a senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

MAIL CONTRACT.

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, 5th May, 1911, for the conveyance of His Majesty's Mails, on a proposed contract for four years, six and six times per week each way, on a circular route with Peterboro as starting point, from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tender may be obtained at the Post Office of Peterboro & Fowler's Corners and at the Office of the Post Office Inspector at Kingston.

G. C. ANDERSON,
Superintendent.

Post Office Department, Mail Service Branch, Ottawa, 17th March, 1911.

NOTICE

NOTICE is hereby given that a by-law was passed by the Council of the City of Peterborough, on the sixth day of March, A. D., 1911, providing for the issue of debentures to the amount of $10,000, for the purpose of paying for extensions made in the Waterworks System of the City of Peterborough, in the year 1910, and that such by-law was registered in the registry office, of the County of Peterborough, on the eighth day of March, A. D., 1911.

Any motion to quash or set aside the same, or any part thereof, must be made within three months after the first publication of this notice, and cannot be made thereafter.

Dated the 8th day of March, 1911.

S. R. ARMSTRONG,
Clerk.

M9-16-23

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Plaza between Dufferin P.M., on Monday, April 3, 1911, for and Sapper's Bridges, Ottawa," will be received at this office until 4.00 the construction of a Plaza between Dufferin and Sapper's bridges, alterations to Dufferin bridge, and demolition and reconstruction of Sapper's bridge.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. 10 p. c. of the amount of the tender which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

Department of Public Works,

Ottawa, March 16, 1911.

VOL. XXXIV NO. 69 PETERBOROUGH, ONTARIO, THURSDAY MARCH 23, 1911 PRICE TWO CENTS

PETERBORO' AMUSEMENT CO TO OFFER HIGH CLASS VAUDEVILLE

NO MOVING PICTURES TO BE SHOWN BY THIS CONCERN IN ITS MAMMOTH TENT.

The License Fee Was Fixed Last Night by Council at $75—Entertainments to Be on a Par With Those at Shea's in Toronto.

The City Fathers met in special session last night.

There were present, Mayor Morrow, Aldermen Kernaghan, Ballar, Morgan Anderson, Metheral, Edgar, Brown, Graham and Duncan.

The Citizen's Committee organized for the purpose of making a united effort to secure the passage of the Independent Tire Company's by-law, waited upon council for information as to what date it is proposed to submit this measure to the ratepayers. The date fixed upon was Tuesday, April 25th, providing nothing unforeseen intervenes between now and noon to-day, when Council will meet to pass the by-law in legal form. The hours for voting will be from 9 a.m. to 7 p.m.

The members of the Citizen's Committee present were D. W. Dumble, K.C., W. H. Denham, Harry Winch, R. M. Glover, Alex. Elliott, R. S. Kinghan, Geo. H. Gillespie and A. J. McClellan.

PETERBOROUGH AMUSEMENT COMPANY.

Mr. Burnham was present on behalf of the Peterborough Music Co, which proposes to offer high-class vaudeville attractions this summer in a tent with a seating capacity of 1000. The tent to be erected on the lot adjoining the Customs House on George street.

Mr. Burnham asked that a license fee be fixed for this organization as soon as possible, to permit of a summer contract for attractions being signed with the Colonial Amusement Co., with headquarters at Hamilton, Ont. There are two circuits controlled by this company—a summer and a winter one—and it is necessary that a contract for the former be signed by April first. Mr. Burnham added that no moving pictures are to be shown, and the vaudeville entertainments will be on a par with those presented at Shea's in Toronto.

City Clerk Armstrong advised the Council that the by-law governing amusements fixed the license fee for theatres at $50 a year; for vaudeville and moving pictures, $40; for tent amusements at $20 per week.

The tent entertainment to be offered by the Peterborough Amusement Co. would consequently come under the $20 per week clause, as no provision had been made in the by-law for permanent half-year offerings under canvas.

This was conceded to be out of all season, and Ald. Morgan thought the by-law should be amended to fix a six-months license fee for the Peterborough Amusement Co. at $50.

Ald. Anderson offered that before this is done it would be advisable to go into the whole question of licenses for amusement houses again. The fees for moving picture houses are too low, compared with other towns and cities. In Port Hope, for instance, such houses are licensed at $60 a year. The by-law should be carefully discussed at an early date, with a view to amendment.

Ald. Anderson moved, seconded by Ald. Ballar.—That Mr. Burnham's request be referred to the Finance Committee.—Carried.

Ald. Morgan moved, seconded by Ald. Graham,—That the fee for the Peterborough Amusement Co. be fixed at $50 for six months—from May 1st to November 1st—on condition that should the amusement licenses be increased, then the foregoing fee be increased proportionately.

Mr. Burnham said this amendment would be satisfactory to him as the new company are willing to pay a license fee of $75 for six months. Incidentally he remarked that they intended to sell soft drinks.

Ald. Morgan here withdrew his motion, and, on motion of Ald. Metheral, seconded by Ald. Kernaghan, the license fee for the Peterborough Amusement Co. was fixed at $75 for the six months.

SHEFFIELD CHOIR.

Mr. Walter Stocker asked that the city do something in the way of tendering a reception to the Sheffield Choir, who are returning to Peterborough for the second time. Other cities are entertaining this musical body, and he thought the least Peterborough could do would be to extend the cities greetings in the shape of a suitable address of welcome. He did not look for any expense being incurred to entertain the body. (Mr. Stocker is responsible for bringing this great musical body back to Peterboro on its return engagement). Incidentally Mr. Stocker remarked that its 240 members are the guests of Dr. Harris for a tour of six months and two weeks, and they are giving their services free. This matter was referred to the Reception Committee with power to act.

WANT A HOME FOR THE FEEBLE-MINDED OF THE PROVINCE

Toronto, March 22.—A large deputation of ladies, representing local councils of Women in all parts of the Province, waited on Hon. J. W. Hanna this morning to ask that an institution be provided for the care of the feeble-minded. The deputation was introduced by Mayor Geary and the speakers were: Mrs. Lyle of Hamilton, Mrs. Huestis of Toronto, Dr. Charteris of Chatham, Mr. Macdonell of Kingston, and Mr. McNeillie of Lindsay. As Mr. Hanna had other pressing engagements, the speeches were made very brief.

The speakers pointed out the need a large institution where feeble-minded could be isolated according to sex and properly looked after. Such people were a menace to society because of their tendency to immorality and the degeneracy of their offspring.

Mr. Hanna said that he had not been allowed by Dr. Helen MacMurchy to forget any of the facts and figures relating to this problem. They could be assured that the Government would take some action in the near future. At present it was engaged with the new prison farm and the extension of the asylums, and could not take on too much. The care of the feeble-minded, however, was a question marked and underlined for attention in the near future.

MARINE DISASTERS WERE PLENTIFUL.

Boston, March 20.—Fully 125 persons perished in accidents which befell New England, Canadian and Newfoundland vessels, or other craft which met disaster in Western Upper North Atlantic waters during the fall and winter season now ending. In all one hundred vessels are ashore, sunk, abandoned, or in collision during the past six months. Of the number 75 were schooners, 7 steamers, 7 barges, 3 barkentines, 2 barks, 2 brigantines, 2 tugs, one a $25,000 auxiliary steam yacht, and one power boat. Sixty-five of the hundred were total wrecks. The loss of life on stranded vessels was greatest on the Newfoundland and Massachusetts coasts. The Maritime Provinces were remarkably free from fatalities, although many natives of that section of Canada were lost in wrecks elsewhere or perished on several craft long posted as "missing."

The combined financial loss is estimated at nearly 21,000,000.

10,000 Sewing Machine Workmen on Strike.

Glasgow, March 22.—Ten thousand workmen employed in the Singer Sewing Machine Works, near Kilbowie, about eight miles from this city, went on strike to-day.

CLEVELAND'S SUPERIOR Baking Powder

[illegible] Co., New York.

Independent Tire Co. Agree to Pay 4 1-2 Per Cent. on Money Loaned Them by the City

TRUST MAGNATES MUST STAND TRIAL.

Chicago, March 22.—United States Judge Carpenter in a decision on demurrers to the indictments charging ten Chicago packers with conspiracy in connection with the formation of the alleged beef trust, to-day ruled that the "immunity bath" administered to the packers in 1905 is not in force and the packers will have to stand on the present criminal indictments.

The demurrers barred out the contention of the packers that they furnish the evidence upon which the case was founded and that the immunity granted to them at that time still is in force.

TO EMPLOY 40 HANDS IN 30 DAYS AFTER INSTALLATION OF PLANT, AND 60 HANDS WITHIN 60 DAYS THEREAFTER.

Prospects Are Exceptionally Bright for Employing 300 Hands in three Years Time—Building and Plant will be Capable of Accommodating a Staff of 600.

Mr. Hastings, representing the Independent Tire Co., met the City Fathers last night re the by-law under consideration, providing aid for the company should they locate in Peterborough.

The city originally proposed to loan the company the cost of a site and building up to $40,000 at 3 per cent., and give them ten years' exemption. The company agreed to buy a site, pardon of Salvi. Salvi protested that the ring was placed in the bed by carbineers for the purpose of manufacturing evidence.

CAUSE OF COMMOTION.

As the cross examination progressed to-day President Bianchi suddenly produced the ring and holding it in his fingers so that it could be seen by all in the courtroom said:

"This is the ring found in the home of your woman associate."

This statement called forth a chorus of protests from the prisoners who shouted, "No! No!" "It is not Cuocolo's ring, it is not his ring."

The cries grew louder and were taken up by sympathizers in the audience. Then lawyer Ligsori, on the board of Attorneys at Naples, who is defending the informer Gennaro Abatemaggio, pushed his way to the space in front of the great steel cage and staring into the eyes of the accused men exclaimed: "Yes, that is Cuocolo's ring."

This interruption brought the scores of lawyers for the defence into the fray and as the excreration of the prisoners grew louder, these lawyers made a verbal attack upon Ligsori, that threw the whole court room in to an uproar. In the babel of which one could distinguish repeated exclamations: "Who pays you the price of Abatemaggio's shame?" "You are paid from the secret funds of the Government." "You were sent here under orders from the Carbineers."

This attack was encouraged by the prisoners who applauded as they exclaimed: "Bravo, bravo."

LIKE LAMBS TO THE SLAUGHTER.

For a moment Giovanni Rapi, the alleged treasurer of the Camorra and known as the proprietor of gambling places in Naples, Rome and Paris, held the centre of the stage when he pressed his face against the bars of the cage and cried: "We are innocent. We have been betrayed. We have been sold like lambs to the slaughter."

At this point Enrico Alfano, known also as Erricone, the alleged actual head of the Camorra, now the lesser light in the "Beautiful Reformed Society," made himself heard, crying, dramatically: "I call from the other world the soul of my poor brother Ciro, who died in prison, to witness that we are flesh and blood sold by the Carbineers to the inquiring judges who lent themselves to this infamous market."

ALL BURST INTO TEARS.

By this time both prisoners and lawyers were pretty well exhausted, and suddenly the accused men, as with one accord, burst into tears. The priest, Ciro Vitozzi, looked as though he had been stricken with apoplexy. The wife of Mariano de Gennaro, one of the alleged actual assassins, screamed and fell to the floor in convulsions.

The savage invectives were continued for ten minutes, when the President unable to restore order, announced a temporary adjournment.

EARL'S DAUGHTER WOULD BE NURSE.

New York, March 20.—A special cable from London says Nurse Grimston is the name of which Lady Syston is the name of which Lady Sibyl, the fifth daughter of the Earl and Countess of Verulam, is known at the London hospital, the nurse's training home, where she has begun a course of preliminary instruction in bandaging and other methods of aiding the ill and injured. If, after two months, she has passed the examination, she will be admitted as a probationary nurse in the hospital and undergo two years of training. Lord Grimston is her only brother.

THE PRESIDENT'S ATTITUDE

Washington, March 22.—A measure for popular election of senators, or one of similar purport and effect has four times passed the House of Representatives, and it will not demand any extended hearings or discussion at the extra session. It will pass the House without difficulty.

That will give the Senate something to talk about while the House is preparing and considering Canadian reciprocity and the various "pop gun" schedule by schedule revision bills, which the Democrats declare they are certain to pass, the President's objections notwithstanding.

The President's reported attitude in respect to tariff legislation at the special session, apart from Canadian reciprocity, has had the effect of stiffening up the Democrats, and has made them all the more determined to pass several schedule-by-schedule bills.

KING GEORGE AND QUEEN MARY WILL GO TO INDIA

London, March 22.—King George to-day officially gave his approval of the details for his Coronation. The King conferred with the privy council when the plans were gone over and ratified. It was decided that the Coronation Durbar at Delhi, India, should be held on December 12 next, when King George and Queen Mary will be present. Both will sail for India about the middle of November.

THE CANADIAN SECURITIES STAND WELL IN FRANCE

Montreal, Que., March 22.—Mr. O. B. d'Aoust, head of Mr. L. J. Forget's Paris office, is now in the city, and speaks with enthusiasm of the standing of Canadian securities and Canadian affairs in the French capital.

Mr. d'Aoust declares that now for some time past Canada has taken the place formerly occupied by United States in the minds of French investing public. Arrangements, he said, have been concluded for the visit of a large group of capitalists to Canada in June. They will travel across the Dominion from coast to coast.

AN OFFICIAL APOLOGY TO THE HON. MR. SIFTON

Montreal, March 22.—An official apology from the student body of McGill will probably be tendered to Hon. Mr. Sifton for the indignities to which he was subjected on Monday night by the rowdy element of the under graduates. A memorial is being circulated in the University, and largely signed.

Civil actions for damages amounting to $1,400, including the cost of the carriage that was burned, may also add to the discomfort of the students, and somebody will have to pay. About a dozen students will be made the defendants, it is stated.

THREE CAR LOADS OF NEGROES APPLY FOR ADMISSION.

Emerson, Man., March 22.—Three cars of Oklahoma negroes arrived here to-day en route to Calgary and Edmonton. They brought many household goods and appear prosperous, but are held at the border pending examination. Dr. Jones, United States Consul-General, is here by instructions from Washington, to aid the negroes in being admitted.

TAFT WRITES TO EXPRESS TRUST IN THE NEGRO

President Taft has written a letter of sympathy to Dr. Booker T. Washington.

President Taft's letter, written by himself in longhand, was as follows:

"My Dear Dr. Washington,—

"I am greatly distressed at your misfortune, and I hasten to write you of my sympathy, my hope that you will soon recover from the wound inflicted by insane suspicion or viciousness, and of my confidence in your integrity and morality of character, and in your highest usefulness to your race and to all the people of this country.

"It would be a nation's loss if this untoward incident in any way impaired your great power for good in the solution of one of the most difficult problems before us.

"I want you to know that your friends are standing by you in every trial, and that I am proud to subscribe as one of them.

(Signed) WM. H. TAFT."

MORE HOLIDAYS IN ALL THE RURAL SCHOOLS

Several amendments to the Public and High School Acts will be brought before the Legislature this afternoon.

One of these makes a uniform school term for rural as well as town and city schools, giving the former the last two weeks of August as additional holidays. In future all schools will open on September 1.

The difficulty which some districts have been under, after the larger portion had been annexed to a town or city, and it was found to necessitate a heavy burden to maintain a school, probably suggested a change by which the city and country boards may erect and maintain a school for the joint use of the country section and a portion of the city. The Minister of Education must agree to this.

Absence of High School teachers may be excused on account of "acute inflammatory condition of the teeth and gums," as well as a physician's certificat of illness.

A new examination may be added to the High School course. At present pupils who have taken a couple of years' work and move into another school, have no certificate as to the work they have done.

The Minister will be given power to establish "an examination for entrance to the Middle School," to be called the "Senior High School Entrance," while the present one will be called "junior."

Boards in unorganized districts are allowed to appoint truant officers.

The Minister of Education will be given authority to determine from time to time the number of inspectors to be appointed by a municipal board in any city or separate town.

No municipal Board of Education can be formed except by vote of the ratepayers.

ARRESTED LAST NIGHT.

A young Englishman was arrested last night by Sergt. Adams and will appear in the Police Court this morning, charged with the theft of a watch and $5. The watch was found on his person, but the money was not recovered. The robbery was committed at a boarding house on Hunter street, west of George.

THE WEATHER.

Fine and a little colder.

ACCUSED CAMMORISTS SCREAMED AND CURSED

SOBBED HYSTERICALLY WHILE THEIR FEMALE FRIENDS FAINTED.

Prisoners Shouted That They Had Been Sold for Slaughter—Trial Adjourned.

Viterbo, Italy, March 22.—Angry exchanges between opposing counsels at to-day's session of the trial of the Camorrists provoked a demonstration from the prisoner's cage, beyond the control of the court officials, that necessitated a suspension of the proceedings. The accused men alternately cursed in a rage and sobbed hysterically, while their women friends in the audience screamed and fainted, the wife of one of the prisoners being seized with convulsions.

CROSS-EXAMINED SALVI.

This morning Salvi was called for cross-examination. It is charged that he is the man who furnished the final evidence of Cuocolo's treachery in the Camorra, and so brought about his sentence of death. In a letter written from the prison, where he was confined for robbery, he asserted that Cuocolo had betrayed him because he had given a share in booty of his crime to another Cuocolo. He called upon his brother Camorrists to avenge him. It is asserted that according to the rules of the Camorra a ring was taken from the hand of the murdered man to be sent to Salvi in proof of the fact that his wish for vengeance had been observed.

Carbineers claim to have found this ring in the mattress of a bed at the home of a woman known as the consort a building thereon, install some $75,000 worth of machinery, and within twelve months continuously employ at least 100 hands on an average the year round. The city agreed to advance half the cost of said site and building on purchase of the former and erection of the latter, up to $30,000, and the remaining half, up to $20,000 within 30 days after the installation of machinery. The company to pay back $2,000 a year off the principal borrowed.

At last Thursday's meeting at which Mr. Hastings was not present, the council proposed to amend the by-law already prepared and agreed to by the former, to read that, within 30 days after the payment of the second half of the loan, at least 60 or 70 hands should be employed the first year, and 100 or more every year thereafter. The matter was then referred to Mr. Hastings, in Toronto, who came down last night to go into the question again with council.

Mr. Hastings pointed out that in a new plant of the nature required by the company it would be impossible to get the machinery in satisfactory running order for a month or two hence the company would not be justified in guaranteeing continuous employment for 60 or 75 hands within 30 days after payment to them of second half of loan. Then difficulty would be found in getting and retaining desireable help; many engaged at first would unquestionably be found unsuitable, and naturally considerable time must elapse before a competent staff could be settled permanently. The loan they want to apply on the machinery, which they purpose buying on a 30 days' test basis. We are, he continued, willing and anxious to increase our staff as rapidly as possible, and the prospects are sufficiently encouraging to warrant us in looking forward to employing 300 hands within three years' time. The growth of the rubber tire industry, both in Canada and the States is phenomenally large and rapid. We contemplate erecting a three storey building much larger than the by-law calls for, capable of accommodating even 400 hands.

Mr. Hastings was anxious to meet the council in every way possible and agreed that the company shall employ 40 hands on receipt of $10,000—half of the second half of the proposed loan of $40,000—, and 60 hands within 60 days thereafter on receipt of the remaining $10,000.

To the Mayor, Mr. Hastings replied that the company guaranteed to have $150,000 paid up capital before the last half of the city's loan is paid. We must have it, he said, as we propose adding $80,000 to the loan of $40,000 in site, building and plant, and will need the remainder as a working capital.

In reply to council, Mr. Hastings could not see why objection should be raised in any quarter to their getting the loan at 3 per cent. At least twenty-five or thirty families will locate here permanently, and the taxes from them would readily offset the 1½ per cent. difference between the interest the company pays and the 4½ per cent. rate at which the city's debentures sell. However, he did not wish 1½ per cent. interest to stand between his company and the city, and agreed that 4½ per cent. be charged on the loan.

The clauses at issue were settled last night as follows:

The company are to employ 40 hands on receiving $10,000 of the second half of the loan of $40,000 and 60 hands on receiving the remaining $10,000 within 60 days thereafter. Within 12 months of installation of machinery they are to employ at least 100 hands continuously on an average the year round.

They will pay 4½ per cent. interest on the loan.

As the solicitors required a little time to accept the by-law agreeably on the foregoing lines the council adjourned till to-day at noon, when the measure will be passed unless nothing unforeseen intervenes.

Smith's Falls, March 22.—The contract for double tracking the C.N.R. between Smith's Falls and Belleville has been awarded to Messrs. Jones and Girouard at Ottawa. They will begin work at once.

SPENT 35 YEARS IN JAIL

INNOCENT MAN SPENDS LIFE IN PRISON.

He is Pardoned But Returns to the Prison, Where he Dies—A Remarkable Case.

Glen Falls, N. Y., March 22.—Thirty-five years in prison on an unjust accusation cast such a shadow over the life of John H. Devine that liberty was of no benefit to him and he fled back to the penitentiary. His death there recalls the history of his life of dirty years. The conviction of Devine, it was learned after many years of his sentence for murder had been served, was the result of carelessness in the prosecution of the case.

SENSATION IN A QUEBEC COUNTY

INVALID RESTORED TO HEALTH AFTER FIVE YEARS SUFFERING.

Antoine Bouchard Cured His Kidneys by Using Dodd's Kidney Pills and His Dropsy, Cramps and Backache Were Cured Too.

St. Hilarion, Charlevoix, Co., Que. March 23 — (Special) — Charlevoix County is ringing with the wonderful cure of Antoine Bouchard. For five years he was practically an invalid; to-day he is a well man. Dodd's Kidney Pills did it, and the people of this neighborhood are more than ever convinced that they are the one sure cure for all Kidney ailments.

Interviewed concerning his cure, Mr. Bouchard said:

"My sickness started with a cold, which developed into Kidney Disease, and for five years I suffered from Dropsy, Cramps in the Muscles, Backache and Nervousness. It took two dozen boxes of Dodd's Kidney Pills to cure me, but they did cure me completely. They are a wonderful remedy."

Dodd's Kidney Pills simply cure diseased Kidneys. But the different diseases Mr. Bouchard suffered from are all caused by diseased Kidneys. Dodd's Kidney Pills cured them by curing the Kidneys.

THE WOMEN AS VOTERS

POLLED MORE THAN 10,000 VOTES IN MILWAUKEE AND UPSET SOCIALIST SLATE.

Did Things in Tacoma, Too—Voted in Favor of Preventing the Treating System in Hotels and Bars.

Milwaukee, Wis., March 22.—All political precedents were set at naught and politicians here to-day are all at sea as the result of yesterday's school board primary when the women of Milwaukee polled more than 10,000 votes.

The women after a vigorous campaign succeeded in defeating the socialist slate for the Milwaukee school board. Two socialists were nominated and the women placed twelve non-partisan candidates in nomination to oppose them. Of the fourteen four are to be elected.

ROYAL

BIG ATTRACTION
Two Special Acts
THE HARRIS TWINS
The World's
GREATEST FLEXIBLE MARVELS.
Tom Harris
In Song and Stories
THE ORIGINAL CUT-UP TOMMIE.

These are two Extra Special Acts secured at extra expense from the Majestic Theatre, Toronto, to replace the Japanese troup who owing to sickness had to cancel their engagement for those three days. The Harris Twins are without doubt the best Acrobats in America to-day, one of them is the closest back bender in the world bar none. Tom Harris, their father, is one of the world's greatest comedians.

MOTION PICTURES.

Another change of motion pictures for to-night's big picture show. All new, all of the best and most up-to-date subjects, comprising dramas, comedies, educational and comic pictures. A special feature film for to-night will be "A Country Girl," a most interesting story, one to please everyone, and four other pictures.

ADMISSION
Royal, Afternoon 5c, Evening 10

HORSE DISTEMPER

Prince Edward Farmer Solemnly Declares Nerviline Is a Specific.

"After fifty years' experience in raising horses I can safely testify that no remedy gives such good results for an all-round stable liniment as Nerviline." Thus opens the very earnest letter of J. J. Evanston who lives near Wellington, P.E. "I had a very valuable horse that took distemper a month ago, and was afraid I was going to lose him. His throat swelled and hard lumps developed. His nostrils ran and he had a terrible cough. I tried different remedies, but was unable to relieve my horse of his pain and suffering till I started to use Nerviline. I mixed a bottle of Nerviline and sweet oil and rubbed the mixture on the throat and chest three times a day and you would scarcely believe the way that horse picked up. Nerviline cured him. I also use Nerviline for colic in horses and cows, and earnestly recommend it to every man that is raising stock."

NERVILINE CURES QUICKLY

For strains, sprains, swellings, colic, distemper, coughs, and colds, no liniment will prove so efficacious in the stable as "Nerviline"—it's good for man or beast, for internal or external use. Wherever there is pain, Nerviline will cure it. Refuse substitutes. Large bottles 25c, five for $1.00, at all dealers or The Catarrhozone Co., Kingston, Ont.

The Morning Times

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

Publishers and Proprietors,
Peterborough, Ontario.

THURSDAY, MARCH 23.

THE SHOT VERBAL HEARD THE WORLD OVER.

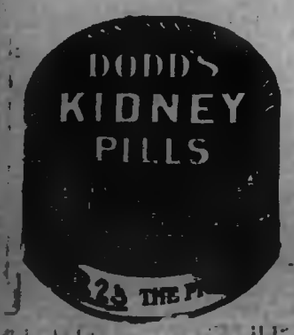
Sir Edward Grey's strong indorsement of President Taft's suggestion for an unlimited and unqualified treaty of arbitration between Britain and the United States has excited deep interest and spirited comment all over the world. The comment is not all relevant or apt, and not all friendly, but much of it is encouraging. Even in Germany certain moderate and quasi-official papers refer sympathetically to the possibility of an agreement for the limitation at armaments and defense budgets.

There is no doubt whatever that morally the effect of an ideal and model treaty of arbitration between the United States and the British Empire—for, of course, a treaty with Britain means a treaty with all her colonies and dependencies—would be great and beneficent. Other powers would sit up and take notice; the question would become a "practical" one in the most militant circles of *continental Europe*; objections now deemed solid would on closer inspection reveal their hollowness.

However, some writers have very acutely observed that the actual state of things between England and America would undergo no change. An ideal treaty is now possible because no serious questions between the two nations are outstanding, and because war between them is generally believed to be almost "unthinkable." Such a treaty would affect the naval and military programme of neither party, for our neighbors are not building war ships or forts with an eye on England, and England is not maintaining a two-power navy with an eye on Washington.

If substantial, practical results, if economy and reductions of military-naval budgets be desired, Anglo-German relations are the relations that need attention. German approval of limitation of armaments would involve French, Austrial, Italian approval as well. England suspects Germany and Germany England. There is the "sorest spot" in European diplomacy. Better relations between these two powers would improve the whole world situation wonderfully, and fortunately there are signs that such relations are in sight. The present talk of Anglo-American arbitration will tend to hasten them, provided the absurd notion that such arbitration would somehow menace other powers is promptly punctured. A treaty of arbitration is *not* a treaty of alliance, defensive or offensive, directed against any third power.

Paris, March 20.—At Cerbere, in France, an eagle swooped down into an open barn, and was about to carry off a child or two, when it was seized by the neck and killed by a large farm house dog.



ALMA TADEMA'S LUCKY NUMBER

"Hard Work and Plenty of It" Is the Recipe He Gives for Success

Sir Lawrence Alma-Tadema, R.A., has just been celebrating his seventy-fifth birthday, and congratulations have reached him from all parts of the world. His marvellous painting, "Caracalla and Geta," contains no fewer than 2,500 figures. Sir Lawrence is one of the most painstaking and conscientious artists living, so exacting that if a canvas fails to satisfy his almost hypercritical taste he will destroy it, though it may represent the work of many months.

"Hard work and plenty of it," is his recipe for success; and there are few mornings in the summer when he is not at his easel at four or five o'clock.

"Many people," he says, "are surprised when they hear that I have not visited Greece or Egypt—the two countries that have figured so much on my canvases"; and the confession is remarkable when one considers the brilliance and fidelity with which he has made these countries live for us in his pictures.

Sir Lawrence always speaks gratefully of his earliest patron, Gambart, the picture-dealer, who, in two orders, commissioned seventy-six pictures, and was so delighted with them that he not only voluntarily raised the price, but attended a dinner given to the artist at Brussels, and "close to my plate," says Sir Lawrence, "I found a handsome silver claret jug and a cheque for $500."

While the famous artist believes in hard work, he will not deny that he is susceptible to luck. His own lucky number is seventeen. He was seventeen when he first met his wife; their first house had that number; it was on August 17th twenty-five years ago that the work of remodelling his home began, and on November 17th that he took up his residence there. His second marriage was in 1871, and here seventeen is the result of the figures added together. He resides in the artistic quarter of St. John's Wood, and the number of his house is again a multiple of seventeen.

MUD AND STONES

For Tay Pay—What He Said at End of Last Election

T. P. O'Connor, in his column, "The Autocrat at His Newspaper," in his own M.A.P., commented as follows at the close of the last election of 1910 in Great Britain:

As a cynic, I may congratulate all parties alike upon the result of the General Election. The men who won are in; the men who lost have gained "a moral victory."

What I particularly admire is the clear expression of the will of the people at a place like Gloucester. The will of the people is represented by 3,903 and the won't of the people is represented by 3,899 votes. Thus the difference between the will and the won't was exactly 4 votes, out of 7,802. At Exeter, the will was turned into a won't on a recount!

The less said about my own contest in the Borough of Tub Thump—the better. My Election Address was a disastrous failure. Instead of saying what I thought about the House of Lords, I said what I thought about the electors, and they took their revenge. Tub Thump is a Cathedral City and all my clothes are covered with mud and small stones.

KEEP RECORDS

Farmers Should Not Work in the Dark—Know Profits

Do you keep a record of all the work you do on the farm in order to produce certain crops? Do you keep a record of the value received from such crops? If not you are working in the dark.

The successful business man keeps an accurate account of all his transactions, consequently he knows which are paying lines and which are not. He can then form his plans to discard the non-paying lines and improve on the paying ones.

In the same way the progressive farmer knows, by keeping accurate accounts which operations to follow with a profit, and which to avoid.

If you have not already started a system of bookkeeping on the farm, begin now!

Keep an account of each and every operation around the farm, as well as of results. It matters not how crude the system may be at first, you will improve it *from time to time*.

LOW DIET

Bread and wine are the chief articles of diet of the poorer classes in Protected France.

SEASIDE FOR WHALES

Dundee whalers are rejoicing in the biggest catch for 20 years, and the whales are lamenting accordingly.

TAXES PAID BY ANIMALS

The natives of the Congo pay their taxes in kind, as might be expected in a territory just beginning to be civilised. The value of domestic animals in that country is such that one wishes it were nearer Canada in view of the high price of meat here. A bullock is valued at about $3.90, a cow $11, a horse $17, a sheep 30 cents. The camel commands the highest price, viz., $20. The custom of payment in kind is not so remote as most persons would think. The reverend the late Professor Flint, of Edinburgh, has stated that during the time he was Professor of Moral Philosophy in St. Andrews he was accustomed to receive part of the emoluments of his chair in kind from the farms belonging to the University. This would be prior to 1876, in which year he was translated to Edinburgh.

APSLEY EVENTS.

A very pretty wedding took place in the Anglican Church, Apsley, on Tuesday, March 14, when Miss Alice, only daughter of Mr. and Mrs. William James, Chandos, became the bride of Mr. Harry E. Grieves, of Saspatchewan, in the presence of a large number of guests. The ceremony was performed by Rev. Christopher Lord. The bride was becomingly attired in grey satin de chene, and trimmed with fillet lace and soutache braid, with hat to match, and was assisted by Miss Jennie Phillips, who also looked charming in pink silk mull. The groom was supported by Mr. Alfred James, a brother of the bride. The bride entered the church at 3.30, leaning on the arm of her father, to the strains of Mendelssohn's wedding march played by the organist, Miss Grant. After the ceremony all drove to the home of the bride's parents, where a sumptuous wedding dejeuner was served, the bride and groom being showered with rice as they passed through the village. The bride was the recipient of a large number of handsome and costly presents. The happy couple left on Thursday morning for their future home in Saskatchewan. Our best wishes for a long and happy life goes with them.

A valentine social which was to have taken place some time ago, but was postponed on account of sickness and death in the neighborhood, was held in the Templars' Hall, on Friday evening, March 10. The valentines were cut in two parts, the ladies receiving one part and the gentlemen the other. Each person had to hunt for their partner, who would have the corresponding part of the valentine, and whoever it might be they were to have tea together. After the valentines were matched the following programme was rendered:

Chairman's address—E. Phillips.
Reading—Miss Edna McIlmoyle.
Solo—Rev. Mr. Garbutt.
Instrumental-Violin—W. Staples.
Solo—Miss Brown.
Speech—Fred Bullied.
Refreshments.
Recitation—Miss Bessie Hales.
Mouthorgan solo—Harry Smith.
Solo—Miss Ella Brown.
Recitation—Miss Ethel Bullied.
Mouthorgan solo—Roy Masters.
God Save the King.

Beware of Imitation Sold on the Merits of Minard's Liniment

Attend Remington Business College
269 College St., TORONTO

A strictly high grade business training school, which annually sends out hundreds of young men and women fully equipped for a successful business career.

The commercial world offers splendid opportunities for all who have received a Remington training.

Individual instruction. Pupils may enter at any time.

Send for copy of our new booklet. A postal card will bring it.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

MAIL CONTRACT.

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, 5th May, 1911, for the conveyance of His Majesty's Mails, on a proposed contract for four years, six and six times per week each way, on a circular route with Peterboro as starting point, from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tender may be obtained at the Post Office of Peterboro & Fowler's Corners and at the Office of the Post Office Inspector at Kingston.

G. C. ANDERSON,
Superintendent.

Post Office Department, Mail Service Branch, Ottawa, 17th March, 1911.

California Oranges.

Local jobbers are receiving an ample supply of California oranges. The fruit shows good condition. While the market is firm, the retail prices are reasonable, the average being—126's, 40c; 150's, 35c; 176's, 30c; 200's, 25c.

ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise eearning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr, Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

TOWN WAS CAPTURED AND SACKED BY THE REBELS

Zacatecas, Mexico, March 21.—The town of Tahenango, in the southern part of Zacatecas, has been captured and sacked by rebels according to word received here to-day. All the houses were plundered and the bank was looted of $5,000. The insurrectos lost seven killed and eight were wounded

The town was defended principally by volunteers.

AMMUNITION FOR TROOPS.

San Diego, Cal., March 21.—The steamer George W. Elder arrived here this morning from San Francisco with 4,200,000 round of ball ammunition aboard consigned to the United States troops.

LONDON CLUBS ARE SEVERELY ARRANGED BY THE W.C.T.U.

London, Ont., March 21.—A deputation from the Women's Christian Temperance Union waited on the Ministerial Association yesterday and made serious charges of immorality against the young men's clubs and the Public schools. "There are forty clubs in the city," said Mrs. Thornley, "doing great injury to the young men and boys. In these clubs I am informed, not only is liquor drank, but gambling goes on, and not only gambling, but the social evil is practised."

Regarding schools, Mrs. Thornley said: "The immoral tendencies today start in the schools and colleges. Impropriety starts in the primaries and runs right through our schools. A mother was telling me just a little while ago that the elder pupils of a certain school were holding secret meetings in a barn nearby. She said: 'My little ten-year-old boy was a door-keeper for them.' She said that not one but twenty would count those reached by this immorality."

RUSHING TO WESTERN LANDS AT A THOUSAND A DAY

Calgary, March 21.—General Passenger Agent, C. B. Foster, of Winnipeg, who is in the city on a regular visit, said the he expected the swarm of immigrants from Europe passing over the C.P.R. main line to total from 600 to 1000 a day. So far the immigration figures have been far heavier than last year's. Mr. Foster states, "and train load after train load of newcomers poured westward last week. The rush from the United States has hardly started yet so far the majority being from the Old Country, but we expect a large number from across the border this season."

Calgary, March 21.—P. L. Nasmith General Manager of the Alberta Railway & Irrigation Company, arrived here this morning from Lethbridge. Interviewed, he said: "There are hundreds of acres of fall wheat, and so far prospects for a bumper crop are excellent."

Mr. Nasmith expects that many of the British settlers who are now pouring into Calgary will take up land in Lethbridge district, and with this expectation the lands in that district are being extended. People are flocking up from the United States, and immigration from the south this year will be greater than ever.

MEXICO WANTS ALL THE U. S. TROOPS REMOVED

Washington, March 23. — Mexico, through her Ambassador, Don Francisco Leon De LuBarra, has expressed a strong hope that the 20,000 American troops should leave the immediate neighborhood of the border.

President Taft has shown the deepest sympathy with Mexico in her internal trouble, but has also evidenced a strong desire for some information from the Mexican Government as to when the revolution will end and cease to be a menace.

It can be said positively that there will be no invasion of Mexico at the present time, no matter what may occur in the near future, unless it is authorized by Congress.

Congress will be in session within two weeks, and it is not expected that anything will occur between now and then which will compel the President to act on his own responsibility.

MANIACS ON THE RAMPAGE.

Beat Up Guard and Escape From Washington Hospital.

Washington, March 20.—After beating into unconsciousness Henry Wentworth, a guard at the Government hospital for the insane, five maniacs of that institution escaped last night attired in guards clothes. Two were captured later, but the others are still at large. The condition of the guard is critical.

CAPTURED.

Winnipeg, March 20.—Gaston Mayrosia, who killed Nicholas Gevarri in a sensational pistol duel at a local hotel on Saturday in the presence of a large crowd, was captured at midnight without a struggle. The tragedy was the climax of a Corsican feud. Both men are prominent in the under world.

THE C. P. R. IS READY TO PUSH THE WORK

Lindsay Post. The middle division is preparing to man and equip no less than 28 construction trains, for use in connection with the project work on the Victoria Harbor line, the double tracking of the road from the Union Station to Leaside Junction and the enlargements and improvements to the Toronto freight and passenger terminals at West Toronto, North Toronto, the Don and Cherry street. The work will begin as soon as the frost is sufficiently out of the ground, and will be rushed as fast as possible in order that a great part of the construction may be completed during the coming summer.

THE NEW APOSTOLIC DELEGATE ARRIVES

Ottawa, March 23. — Monsignor Stagni, the new apostolic delegate to Canada, has arrived from Italy. He is said to bear with him the Canadian decrees formulated two years ago at Quebec by the Plenary Council and carried to Rome last spring for ratification by the Vatican.

He was met at New York by Monsignor Sinnott of Ottawa, who will act as secretary to the Papal Legate.

State of Ohio, City of Toledo, Lucas County. ss.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that insomnia, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and mental powers are invigorated; all drains cease—the more vital waste from the system. You feel yourself a man as I know marriage cannot be a failure. Don't let quacks and failure rob you of your hard earned dollars.

NO NAMES USED WITHOUT WRITTEN CONSENT

THREATENED WITH PARALYSIS

BEFORE TREATMENT

AFTER TREATMENT

Peter E. Simmons relates his experience: "I was troubled with Nervous Debility for many years. I lay it to indiscretion and exposure in youth. I became very despondent and didn't care whether I existed or not. I imagined everybody who looked at me guessed my secret weakness. I became a mental wreck, weakened memory, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair coming, memory poor, etc. Numbness in the fingers set in and the doctors told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, but received little benefit. I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and continue to do so.

CURES GUARANTEED OR NO PAY

We treat and cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES and all Diseases peculiar to Men.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

PETERBOROUGH, ONTARIO

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTER.

The Barber's Bill.

Mr. Geo. H Gooderham's barber's bill in the Legislature has been withdrawn, but Mr. Gooderham said he would introduce it again next session.

A Good Start.

Alex Fitzgerald set the pace yesterday for the Y.M.C.A. bowling enthusiasts, by rolling the creditable score of 268.

Y.M.C.A. Bowling.

In the bowling tournament the Midgets defeated the Lancashire Trio by the close margin of 10 pins.

New Industry.

The Model Foundry & Pump Works business, owned by T. H. Ruth and J. Condon, is being started on the property opposite the Quaker Oats Co., and formerly occupied by the Dickson Co.

What About Marys' Meeting?

Now that the Georges have taken the lead it is up to the Marys to call a meeting and get busy, in order to get a contribution toward the present for Her Majesty Queen Mary, to be presented at the coming coronation.

To Investors.

We call the attention of investors to the advertisement of Messrs. Fleming & Marvin, 310 Lumsden Building, Toronto, who are financing the Dome Extension mining proposition. This stock is generally regarded as a winner.

The American Hotel License.

The License Board met last night in Inspector Stewart's Office to take up the matter of the license of the American Hotel. Nothing definite was done, but the Board will meet again on Saturday night.

Preserving Our Timber.

A bill has been passed by the Ontario Legislature to enable counties to purchase lands for reforestation purposes by which debentures may be issued for this purpose to the amount of $25,000. There are large tracts in Peterborough County that could be reforested with great advantage to the country.

A Fine Display.

Messrs. Warne Bros. have a fine display of diamonds on exhibition in their windows on George street, which is not only a credit to themselves but also to the city. Probably never before was their a finer display of precious stones. These diamonds were imported direct from European diamond merchants, and are of the latest patterns. The exhibit is well worth a visit.

Thimble Party.

A Thimble party will be held at the Children's Shelter this afternoon at 2 o'clock. Everybody who can do so, is cordially invited to attend.

A Fine Drink.

The fine lager manufactured by the Kuntz Brewing Company of Waterloo is rapidly becoming a favorite beverage in Peterborough. It is delicious in flavor, invigorating and nourishing. See advertisement elsewhere.

Creek on the Rampage.

The creek is now on its yearly rampage, although the water is not, overflowing its banks to any very serious extent The only danger is from ice forming under the bridges which span the streets and causing trouble. As the ice this year is thick and heavy, trouble may be experienced unless a careful watch is kept.

The Bus on a Tear.

Yesterday morning the team of horses attached to the Oriental bus took fright and ran away. They proceeded up street at a two minute clip, making the windows jingle as they passed along in their wild career. They were finally caught in the north end No damage was done to either the bus or the horses.

On Inspecting Tour.

Mr. Frederick Nicholls, General Manager of the Canadian General Electric Company, Toronto, accompanied by Mr. J. G. Ashworth, Assistant General Manager, and Mr. J. A. Bremner, Controller, came down from Toronto on Tuesday and inspected the new buildings in course of erection here by the company. They found everything in good shape, and returned to Toronto in the evening.

Women's Art Association.

A gathering of ladies connected with the Womens' Art Association took place yesterday afternoon in the lecture room at the Armouries when Mr. Dobbin gave an informal talk on "The Art of Furniture Making." At the close of Mr. Dobbin's address tea and cake were served.

A Step in Advance.

A bill has passed the Ontario Legislature to enable school boards to establish special classes for children who are backward of abnormally slow in learning, or who from physical or mental causes require special training. These will be subject to medical inspection. By this a long felt want will be filled. All teachers will recognize the advantage of having such classes.

The Generous Georges.

We, the undersigned, residents of the City of Peterborough, Canada, bearing the name of George, subscribe to the fund being raised to make a presentation from "The Georges of the Empire," to His Majesty King George V., at the time of his coronation:—George Walford Hatton, David George Hatton, George I. Eaton Hatton, George Stewart Cameron, George W. Bennett, George W. Austin, George H. Howson George W. Lundy, George J. Sherry, George Maitland, George Mather, W. George Morrow, Master George A. Stevens, George Richardson, George Denison Dunsford, George Wm. Johnston, George Cocks, George R. Coleman, George Ball, George Telford, George Donald West Cameron.

CLOSING EXERCISES.

Public Are Invited to the Closing Exercises of the Y.M.C.A.

The public are invited to the closing exercises in the local Y.M.C.A., which will take place on Friday evening, March 24th, 1911. The following programme will be given by the "Gym members

Camp Scene—
German Horse and Spring Board—Business Boys.

Exhibition—Members of Wrestling Club.
Presentation of Trophies and Prizes by the President, Mr. J. J. Turner, Jr.
Dumb-bell Drill—Junior Class.
German Horse—Intermediate Leaders.
Game—
Tumbling—Junior Boys.
Elephant Jumps—Collegiate Class
God Save the King
Music will be supplied by the Salvation Army Band.

Y.M.C.A. Basket Ball.

Pirates Defeated the Whirlwinds by a Score of 50 to 24.

In the City League Basket Ball match last night the Pirates defeated the Whirlwinds by a score of 50 to 24. Although the score is lop-sided it does not indicate the playing. The Whirlwinds worked hard, but the fast combination of the Pirates produced a deadly affect on the former. Douglas Loomis referred very satisfactorily and won the admiration of both the teams.

The following is the line-up:

—Pirates—
Forward—Nicholls and Hanwell
Centre—Murray.
Defence—Fitzgerald.
—Whirlwind—
Forwards—Halpin and Harper.
Centre—Bartlett (Ellis)
Defence—Ellis (Bartlett)

Coughs, Colds, Bronchitis

If there is an ailment in the throat or chest, it is surely essential that the remedy be conveyed direct to the affected part. It's because the healing vapor of Catarrhozone is breathed into the sore, irritated throat and bronchial tubes, because its balsamic fumes kill the germs and destroy the cause of the trouble. These are the reasons why Catarrhozone never yet failed to cure a genuine case of Catarrh, Asthma, Bronchitis or Throat Trouble.

The wonderful soothing vapor of Catarrhozone instantly reaches the furthest recesses of the lungs, produces a healing, curative effect that is impossible with a tablet or liquid, which goes merely to the stomach, and fails entirely to help the throat and lungs.

To permanently cure your winter ills, your coughs, sneezing, and Catarrh, by all means use a tried and proven remedy like Catarrhozone. But beware of the substitutor and imitator. Look for Catarrhozone only, 50c and $1, at all dealers.

CATARRHOZONE

JUST BREATHE IT.

LITTLE LOCAL LINES

At St. Luke's last night Rev. F. J. Sawers preached a special Lenten sermon to a large congregation.

Another tuberculosis meeting is called for to-night at the Council Chamber.

There are eleven scarlet fever patients in the Isolation Hospital. The hospital was completed none too soon.

The funeral of the late James Madill was held yesterday morning. The remains were sent to Whitby for interment.

The Brock street rink is again open for roller skating, and is being largely patronized

The Times requires a bright young man as junior reporter. Apply at business office.

Ladies of the city are asked to attend the Sewing Circle at the Children's Shelter this afternoon at two o'clock.

Rev. H. E. Abraham, of Port Hope will address the people of the preparatory service at the Knox Church to-morrow evening, when new members will be received.

SOCIETY EVENTS

Mrs. J. R. Stratton, "Strathormond," will receive this afternoon.

Mr. S. Fair left here yesterday morning on the flyer for his home in Sunderland.

Rev. Canon Allen, of Millbrook, conducted lenten services in St John's last night.

Dr. L. F. Robinson, V.S., is able to be about again after two months' confinement with rheumatism.

Mr. H. A. Middleton, District Manager of the Kuntz Brewing Company, whose headquarters is in Lindsay, was in town yesterday on business. He was accompanied by Mr. A. Bauer, Waterloo, manager of the company.

OBITUARY.

THOMAS HARRINGTON.

Yesterday morning an old and esteemed resident of Ennismore passed away, after a lingering illness in the person of Mr. Thomas Harrington, aged 36 years. Deceased leaves to mourn his death his wife and four small children, two boys and two girls.

The funeral will take place to-morrow morning at 9 o'clock to St. Martin's church, thence to St. Martin's cemetery for interment.

ADVERTISE IN THE TIMES.

THE MINES DEVELOPING MACHINE WILL BE INCORPORATED

It is One of the Greatest Inventions of the Age for the Speedy Development of Mines

A device which will, when installed, be the means of placing hundreds of mining properties, now laying idle, on a producing and dividend paying basis. It will develop a mine in months where it now requires years. It will be the means of bringing sure and quick returns on mine investments which are now slow on account of the long time required to either reach the ore bodies or develop them to an extent which admits of productions on a large scale.

IT CAN BE USED IN ALL MINING REGIONS.
IT CAN BE USED IN DRIVING IRRIGATION TUNNELS.
IT CAN BE USED IN DRIVING TRANSPORTATION TUNNELS.
IT CAN BE USED IN DRIVING DRIFTS AND UPRAISES IN MINES AND IT WILL WORK IN ALL KINDS OF FORMATION.
IT DRIVES A COMPLETE TUNNEL, DRIFT OR UPRAISE, AND SHAPES ITS WORK ON A SCIENTIFIC PRINCIPLE.

Contracts have already been signed for the use of enough of these machines to keep a large factory busy building them for many months, and I predict that before 5 years many hundred of them will be in use.

A corporation will be organized within a short time to own and handle the machine, and it will be capitalized for $1,000,000 divided into 1,000,000 shares. One-half of the stock will be placed in the company's treasury.

YOU CAN NOW BUY PRE-ORGANIZATION STOCK AT 25c PER SHARE (either for cash or ten-payment installments) BUT YOU CANNOT BUY IT FOR LESS THAN 50c PER SHARE AFTER THE INCORPORATION TAKES PLACE.

GET IN ON THE GROUND FLOOR IN THIS ENTERPRISE. TAKE ADVANTAGE OF THE PRE-ORGANIZATION OFFER NOW.

Use the coupon in making your subscription, either for cash or installments, and make all remittances payable to

Homeseekers' Excursion.

to Western Canada (via Chicago), including certain points on Grand Trunk Pacific Railway, April 4th, 18th, May 2nd, 16th, 30th, June 13th, 27th, July 11th, 25th, August 8th, 22nd, Sept. 5th, 19th. Winnipeg and return, $33.00; Edmonton and return, $41.00. Tickets good for 60 days. Proportionate rates to principal points in Manitoba, Saskatchewan and Alberta. Homeseekers' excursion tickets will also be on sale on certain dates via Sarnia and the Northern Navigation Company.

A piece of flannel dampened with Chamberlain's Liniment and bound on to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest give it a trial and you are certain to be more than pleased with the prompt relief which it affords. Sold by all dealers.

AT THE POLICE COURT.

Cases Before Magistrate Dumble Yesterday.

James Cook, a big stalwart fellow appeared before Magistrate Dumble yesterday morning on a charge of non-support. The case was adjourned for a week to see if he would get to work.

Mr. Cochrane, who laid the charge, gave evidence to the effect that on Saturday night he had received a telephone message from a certain lady, notifying him that the Cook family had no provisions. He authorized this lady to see that they were supplied. The bill for the goods sent them, was produced in court as evidence.

The accused has been arrested before on the same charge. Mr. Cochrane said that the man apparently never does much work. His wife was a very worthy woman.

A BLACKLISTER.

Michael Murphy, a blacklister, was on Tuesday evening under the exhilarating influence of liquor. He was creating a disturbance at his home, when arrested, breaking things up and abusing his sick wife.

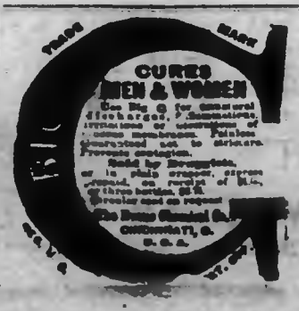
After taking some evidence, the Magistrate remanded him for a week to give him a chance to get the liquor out of his system before disposing of his case.

A DRUNK.

William Foster was apparently on the verge of the T D's and has been wandering about the streets. He was remanded for a week.

Merchandise Barned Worth $3,000,000.

Buenos Ayres, Argentina, March 22 Fire broke out in the Customs House here to-day and, making its way through the storehouses uncontrolled, destroyed merchandise valued at $3,000,000



NOTICE

NOTICE is hereby given that a by-law was passed by the Council of the City of Peterborough, on the sixth day of March, A. D., 1911, providing for the issue of debentures to the amount of $10,000, for the purpose of paying for extensions made in the Waterworks System of the City of Peterborough, in the year 1910, and that such by-law was registered in the registry office, of the County of Peterborough, on the eighth day of March, A. D., 1911.

Any motion to quash or set aside the same, or any part thereof, must be made within three months after the first publication of this notice, and cannot be made thereafter.

Dated the 8th day of March, 1911.

S. R. ARMSTRONG,
Clerk.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Plaza between Dufferin P.M., on Monday, April 3, 1911, for and Sapper's Bridges, Ottawa," will be received at this office until 4.00 the construction of a Plaza between Dufferin and Sapper's bridges, alterations to Dufferin bridge, and demolition and reconstruction of Sapper's bridge.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. 10 p. c. of the amount of the tender which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

Department of Public Works,

Ottawa, March 16, 1911.

VOL. XXXIV NO. 70 PETERBOROUGH, ONTARIO, FRIDAY MARCH 24, 1911 PRICE TWO CENTS

THE PETERBOROUGH HEALTH ASSOCIATION

There was a very discouraging attendance at the tuberculosis meeting last night, which was held in the Council Chamber. Among those present were: Mr. W. H. Moore, Mr. J. W. Bennet, Dr. Boucher, Dr. Halliday, Father McColl and Rev. Canon Davidson.

Mr. W. H. Moore acted as chairman and called on Mr. Bennet for the minutes of the last meeting.

The minutes stated that the name suggested for the association was the Peterborough Health Association, with the following officers:

Hon. President—(Not yet appointed).

President—Mr. W. H. Moore, K.C.

Vice-President—Rev. Father McColl Dr. Boucher and T. F. Matthews.

Secretary—Dr. Cameron.

Treasurer—Mr. E. C. McLeod, local manager of Bank of Nova Scotia.

Executive Committee—Dr. McPherson, Medical Health Officer; Dr. McNulty, chairman of Board of Health; His Honor Judge Huycke, Dr. Halliday, Dr. Neal, Mr. R. C. Braund, Mr. J. W. Bennet, Mr. E. A. Peck, Dr. M. A. Morrison, Mayor Morrow, and two representatives from the Ministerial Association.

Dr. Halliday then said a few words in which he stated that the name, Peterborough Health Association, should be used instead of Tuberculosis Association, as the latter was a name that contained in it a fearsome dread.

Rev. Father McColl was also in favor of the name, and as there was no opposition that name was decided upon.

A unique speech was delivered by Rev. Canon Davidson. He stated that he was in favor of the name chosen for the association. He also explained that the association should co-operate with the Board of Health and not only attend to consumptive cases, but also to patients afflicted with other diseases; also to see that the streets be kept in a sanitary condition.

Mr. Bennet moved that the Executive Committee proceed with the corporation of the association and prepare a set of rules and by-laws.

The movement was seconded by Rev. Canon Davidson and carried.

The date for the next meeting was not decided on, but will likely take place in the course of a few weeks.

The meeting then adjourned.

HIGHWAYMAN SHOT THREE MEN TO SECURE TIME CHECKS

KILLED ONE AND SERIOUSLY INJURED TWO WOODSMEN FOR THEIR TIME-CHECKS.

Which Were Worthless—The Three Laid Out All Night—One Man has Nine Cuts About His Body.

Port Arthur, March 23.—To get possession of three woodmen's time checks, a man, whose name is not yet known to the authorities, held up a party of three woodsmen, all Finlanders, on their way out from the Pigeon River Lumber Company's camp, near Silver Mountain, killing one of them and very severely wounding the others, using a revolver and hunting knife, one of the victims has nine cuts about his body.

The men were on the road leading from the camp to the railroad, intending to take a train to Port Arthur, when they were met by a stranger who offered to direct them to the railway by a short cut. His offer was accepted, and at a convenient moment the stranger opened fire on the three, killing one and incapacitating the others. He took their time checks, which are of no value to him because he cannot cash them.

Leaving the victims to their sufferings, the assailant made off. The two laid out wounded and bleeding beside the dead body of their companion all night, and yesterday one managed to reach the railway and get the news to Silver Mountain, whence it was forwarded to Port Arthur. Provincial Constable Simons left for the scene, but he was not able to get on the track of the fleeing murderer before to-day.

SESSION IS OVER.

The closing of the Provincial Legislature takes place to-day at 3 p.m. The cavalry escort will be furnished by the Royal Canadian Dragoons and the 10th Royal Grenadiers will furnish a guard of honor while the 9th Battery Canadian Field Artillery will fire a salute of 15 guns.

BUSY IN THE WEST

Tremendous Increase in Lumbering in Manitoba.

Winnipeg, March 23.—Spring comes on apace in the West. There is a deal of snow to melt but the process is going on as fast as warm, bright sunshine and evaporating winds can make it. Reports from the woods tell of the biggest year in lumbering. cordwood, ties and telegraph poles, that the woodsmen have had in a good many seasons. Twenty thousand men have been working throughout the winter and have piled up a lumber cut that will go near to one hundred million feet, and this in the territory tributary to Winnipeg alone. Four million ties, 250,000 poles and 200,000 cords of wood are other items in the winter's cut which cost in wages, half a million dollars and will give Winnipeg market the nearest to a sufficient supply in the lines named that it has had in a long time.

SEVENTY-FIVE ADDITIONAL GUARDS WERE REQUIRED

PASSAGE BETWEEN PRISONERS AT THE CAMORRISTS' TRIAL.

Passionate Outbursts—Matteo Dramatically Denies the Indictment That He Made a False Beard for Confederate.

Viterbo, Italy, March 23.—Seventy five additional guards were stationed in the court room to prevent a recurrence of yesterday's riot when the trial of Enrico Alfano, alias "Erricone," and his 38 fellow Camorrists, was resumed to-day. Ferdinand de Matteo, who is accused of luring Gennaro Cuocolo to his death on the lonely roadway leading to Torre del Greco, was placed on the stand and interrogated by President Bianchi of the Assize Court.

Matteo is charged in the indictment of having lured Cuocolo by the promise of a fruitful diamond robbery which might be committed in the Cupa Calastro community. A rich Neapolitan owned a villa there and Cuocolo was to inspect the grounds and plan the robbery.

Accordingly Matteo and Cuocolo set out to look over the grounds and if necessary, rent an adjoining villa, in order to further the plans for the great diamond coup. It is charged that, while the two men were walking along the road, Cuocolo was attacked by Matteo and five associates, who were hiding. Matteo striking the first blow. When this was recited to-day, Matteo grew violently excited.

"I know nothing of that murder nor of the murder of Maria Cuocolo Gennaro's wife," he cried.

Nicola Morra is one of the party of five who helped Matteo slay Cuocolo.

THE BEAUTIFUL SOCIETY.

"Nor would I associate with Morra," continued the witness. "I have for years wanted vengeance on Morra for betraying the beautiful society, and I would have nothing to do with him under any circumstances."

Morra did not seem indignant at this accusation of betrayal for he merely glanced at Matteo, then began twirling his moustache.

A demonstration was narrowly averted during the interrogation of Matteo, when the prisoner suddenly flung himself on his knees, and raising his arms, screamed in a voice that echoed through the court: "I am a victim of the Carabineers and they would crucify me as Christ was crucified."

The other defendants cried out but they were subdued by the additional guards before a tumult could be precipitated.

A WIG-MAKER HIMSELF.

This dramatic incident followed a number of passages between the prisoner and the court. The indictment had charged Matteo with manufacturing a false beard for Corrado Sortino, another of the alleged slayers of Cuocolo. When this charge was pronounced, Matteo cried:

"Signor, President, I am innocent. Why should I make a false beard for Sortino when he is a wig-maker himself and could easily have made one himself?"

President Bianchi replied: "Yes, he is a wig maker, but our evidence shows that he could not make a beard, whereupon you made it."

After this Sortino arose in the prisoner's rage and interrupted the proceedings.

"Allow me to say that I can make a beard and I will demonstrate that I can to this court," he cried.

The President assured Sortino that this interests would be protected by the court and the interrogation proceeded.

A London scientist claims to have discovered how to control the growth of human beings. He says it will be possible in future to make people grow tall or leave them short, and even the shape of the nose can be regulated according to the desires of its proprietor. Hope on. The time may come when there will be no fat people to crowd you in a car seat.

ADVERTISE IN THE TIMES.

Independent Tire Co's. By-Law Passed First and Second Readings Yesterday

BY-LAW WILL GO TO THE RATEPAYERS ON TUESDAY, APRIL 25th.

The Terms of the Agreement in Brief—Strong Representative Citizens' Organization Endorses the Measure—Present Concensus of Opinion is That It Will Carry at the Polls.

The City Council at noon yesterday passed the first and second readings of the by-law to aid the location in Peterborough of The Independent Tire Co., of Toronto, Limited, and the measure will now go to the people on Tuesday, April 25th, with every indication of its readily securing the necessary three-fifths vote of the ratepayers qualified to vote on such measures. The concensus of opinion amongst our City Fathers is that but very few, if any, will turn down this proposition in its amended form, other than those citizens who habitually mark a negative cross against every by-law. A strong and representative citizens' organization is convinced that this agreement is in the best interests of the city, and will actively engage in an energetic campaign to secure its passage at the polls. Ald. Buller, at yesterday's Council meeting, considered that the company had gone more than half way in agreeing to amendments of the original draft of the agreement in order to strengthen Council's hands with the ratepayers. He considered this proposition a safe and profitable one for the city to enter into, in every respect.

Although the full by-law will be published in these columns to-morrow perhaps the following summary of the agreement as it now stands, in newspaper vernacular and void of legal trimmings, will be acceptable to our readers:

The company has already been incorporated with an authorized capital of $40,000 and on or before April 15th, 1911, they are to apply to increase this capital to $350,000. Not later than July 1st, 1912, they are to have sufficient of the preferred stock of the company to realize in cash at least $150,000.

On or before July 1st, 1911, the company shall have acquired, free of incumbrances, a site in this city for its factory.

On or before July 1st, 1912, they shall have erected thereon a three-storey building of brick, concrete or steel, at least 200 x 50 feet in size; and have installed at least $75,000 worth of machinery free of all liens and charges. On or before July 1st, 1912, they are to have same in operation.

Within 30 days after July 1st, 1912, the company shall have in its employ 40 hands, and in 60 days thereafter 60 operatives; at the expiration of twelve months they are to employ at least 100 hands for at least ten months in the year.

The city is to advance the cost of a site and building, up to $40,000. Should the cost of such be only $30,000, then the loan will be but $30,000. Payments of loan will be as follows, on a $40,000 basis: When site and building is in company's possession, free of incumbrances, $20,000; when $75,000 worth of machinery is installed, free of liens and charges, and 40 operatives working, $10,000; when 60 operatives are employed, the remaining $10,000.

The city will raise the loan by issuing debentures at 4½ per cent., and the company will pay the city trust 4½ per cent. on the money they borrow. The company will pay back $2,000 a year off the principal.

For a period of ten years from January 1st, 1912, the company shall be exempt from all taxes, rates and assessments, except taxes for school purposes and local improvement assessments rates and taxes for which they shall be and remain liable.

As security for the repayment of the loan, the city is to hold a first mortgage on the lands and buildings and fixtures thereon, and also a first chattel mortgage on the machinery and plant as an additional security.

In these days when cities and towns are vieing with each other in a race after industries, on all kinds of inducements, the foregoing seems to be a safe and promising investment for Peterborough to enter into. The Independent Tire Co., of Toronto, which purposes manufacturing rubber tires for automobiles, and other similar goods, is backed, the Times is informed, by strong financial men. At any rate the industry is a flourishing and growing one in the States, is yet in its infancy, and this proposition can scarcely be considered as a venture. And it does not seem reasonable to suppose that any concern would secure a site and building at a cost of $40,000, and install $75,000 worth of machinery without bright prospects ahead of them for running the plant at its pledged ultimate capacity of 100 hands in the shortest possible time.

The by-law has been very carefully prepared by the City Solicitor, and is as binding as such a measure can be. The whole agreement has received deliberate consideration at the hands of Mayor Morrow and his colleagues, and has the unequivocal endorsation of the whole council and many representative citizens.

The city would be safely secured in its loan of $40,000 by first mortgages on property valued at least at $115,000. And the company is to pay the city the same interest the latter pays for the debentures required to be issued to raise the loan

IS A HONEYMOON PUBLIC BUSINESS.

Mr. Allan Studholme says it is up to the member for East Ottawa, Mr. D. J. McDougal, who is on his honeymoon in Southern Italy, to return a portion at least of his indemnity.

When a resolution was introduced to pay the full indemnity to Hon. Dr. Reaume, Mr. Fox (Victoria), Dr. Godfrey (West York), and Mr McDougal (East Ottawa), excusing their absences for a portion of the session as the result of illness or the demands of public business, Mr. Studholme objected to Mr. McDougal being included.

"He is not on public business (laughter); he's on pleasure (more laughter). They can laugh and take all the fun they like," he retorted, "but when a man who is elected takes unto himself a partner and absents himself, he is not on 'public business.'"

The resolution passed

BRITAIN, UNITED STATES, FRANCE AND JAPAN IN PACT FOR THE WORLD'S PEACE

Washington, March 23.—Leading diplomats expect that, within a short time, announcement will be made at the White House and European Chancelleries of the formation of a world-wide peace federation, organized under the leadership of President Taft. The first step towards this organization, it is declared to-day, have embraced Japan, the United States, France and Britain.

IMPORTANT STEP.

The conferences held at the White House yesterday are understood to have been marked by important progress in the negotiations. President Taft talked for some time with Baron Uchida, Ambassador from Japan, and Robert Bacon, United States Ambassador to France.

Besides laying the Japanese "war scare" Baron Uchida and President Taft are said to have discussed a general arbitration treaty which will embrace Japan, the United States, France and England. With these four powerful nations in a general arbitration treaty, the peace of the world would be assured for all time.

Diplomats say that the treaty between the four nations is now well under way, and that it will be simultaneously announced in Washington London, Paris and Tokio. It is supposed that Austria, Italy, Russia and Germany are now being sounded by Washington on these plans.

PRESIDENT TAFT RIDICULES THE JAPANESE WAR SCARE

Washington, March 23.—President Taft squelched the "Japanese war scare" yesterday. At the request of the President, Baron Uchida, the Japanese Ambassador, called at the White House after luncheon and in a long talk with Mr. Taft was assured that there was no foundation for the reports that this Government in ordering the troops to Texas and the Mexican border, had one eye directed across the Pacific.

The President told the Japanese Ambassador that never, so far as his knowledge permitted him to speak, had the relations between the United States and Japan been more friendly. He also told callers that he was very much surprised when he returned from his southern vacation to find reports in circulation of trouble with Japan. He said that such reports were most ridiculous and unwarranted.

CHARACTER OF ULRICH AND HIS WIFE IS ASSAILED

New York, March 22.—Albert A. Ulrich, accuser of Dr. T. Washington the negro educator, disappeared from his home at 114 West 63rd street to-day. His disappearance followed the publication of the charge that the woman who posed as Mrs. Ulrich and accused Dr. Washington of insulting her subsequently was not Ulrich's real wife.

LOOKING FOR REAL WIFE.

Friends of Dr. Washington set out to-day to establish this charge and instituted a search in Orange, N.J., for the real Mrs. Ulrich and her two children. If she is found a statutory charge will also be placed against Ulrich in addition to that of assault for which he was held yesterday in $500 bail.

Neighbors of Ulrich said to-day that he had gone to Irvington-on-the Hudson to remain until his case comes up in court.

BIG ATTRACTION
Two Special Acts
THE HARRIS TWINS
The World's
GREATEST FLEXIBLE MARVELS.
Tom Harris
In Song and Stories
THE ORIGINAL CUT-UP TOMMIE.

These are two Extra Special Acts secured at extra expense from the Majestic Theatre, Toronto, to replace the Japanese troop who owing to sickness had to cancel their engagement for those three days. The Harris Twins are without doubt the best Acrobats in America to-day, one of them is the closest back bender in the world bar none. Tom Harris, their father, is one of the world's greatest comedians.

MOTION PICTURES.

Another change of motion pictures for to-night's big picture show. All new, all of the best and most up-to-date subjects, comprising dramas, comedies, educational and scenic pictures. A special feature film for to-night will be "A Country Girl," a most interesting story, one to please everyone, and four other pictures.

ADMISSION
Royal, Afternoon 5c, Evening 10

BIG PROFITS IN OIL.

Guaranty Oil Company Has Bright Future.

The attention of investors is called to the advertisement elsewhere in this issue of the Guaranty Oil Company. The stock of this Company has now advanced to 60c per share, par value $1. A further advance in the near future is assured. Everything points to big things for this excellent and well managed company.

The company recently bought a sixty acre Coalinga property with seven producing wells has made another purchase. It now has the property of the Manhattan-Midway, consisting of forty acres of patented land in section 32, 32-24, Midway field. It has two producing wells on it, and will be fully developed by the present owners. This is in the heart of the gusher territory. The American Oilfields gusher is 1300 feet from the property, and that of the Sunset Monarch only 1400 feet distant.

The Guaranty Company now has 1800 acres of oil lands in the various fields of the State, all of which are to be developed as fast as the management can accomplish the work.

A card addressed to Mr. R. L. Cox, Managing Director, Citizens National Bank Building, Los Angeles, Calif. will bring prospectus and full particulars.

"Shadow of the Cross."

The mysterious painting of "The Shadow of the Cross," arrived here yesterday morning and is now on exhibition at the Y.M.C.A.

With the electric lights on, it is seen to be a beautiful painting of Jesus Christ, standing on a knoll. When the lights are turned out Jesus' outline is plainly seen and from His shoulder a large cross is visible. A rather brilliant light comes off the canvass. No phosphorus, radium, or other light giving chemicals are used; it is simply a freak painting and a phenomenon, well worth one's time to see.

THE WEST IS CALLING OUT FOR FARM HELP

Saskatoon, March 23.—Already the cry of the Western farmer for farm help during the coming season is heard. The cry seems to come as a wail over the results of the past year. Never yest has there been sufficient laborers obtainable to prepare the many thousand acres of tillable land in the west for the grain, and much less to harvest it when for want of this assistance it is being wasted away by the acres.

This year the call from the West will be louder than ever. Higher salaries to both experienced and inexperienced help will likely have to be paid. No man coming from the East will be able to say that he arrived at any of the Western land offices and was not offered work. In fact, the reverse will likely be the case, and the farmer who in the past has possibly drawn too broad a line between experienced and inexperienced help will be forced probably harder than ever before to take the position of a beggar, rather than hold himself aloof as a chooser.

It is believed already in the West, that many farmers will be willing to advance to experienced men, whose names they may be able to obtain through the various Government agents, transportations direct to their destinations. Such a guarantee of work should obtain for any such agriculturist the right class of men, who might otherwise might not be tempted to leave their own farms in the East. During the past season salaries were paid to good men by the Western farmers up to three dollars a day, including their board and other general incidental expenses, making it almost worth while for an Eastern farmer to place another man in charge of his farm at home, while he himself seized the excellent opportunity of going West to see just what this promised land really is that he has been reading so much about.

The Central Saskatchewan Consolidated Boards of Trade grasped time by the forelock at their regular quarterly meeting held in Saskatoon this week. The farmers throughout that Province are being requested to send in to the secretary of the Federated Board a notification of how many men they would likely require during the coming season.

When buying a cough medicine for children bear in mind that Chamberlain's Cough Remedy is most effectual for colds, croup and whooping cough and that it contains no harmful drug. For sale by all dealers.

FINAL CROP ESTIMATE SASKATCHEWAN LEADS

Winnipeg, March 23.—The Saskatchewan Government has prepared its final estimate of last year's crop, and it shows that the Province leads the Dominion and is second only to one State of the union as a wheat producing country. Despite the bad year there were 72,666,300 bushels of wheat raised. It was only overtopped by the State of Minnesota which raised a little over 94,000,000 bushels. The average yield was 15.58 bushels per acre. Saskatchewan's oat crop is jumping ahead at an enormous rate, and last year it was 62,315,295 bushels representing an average yield of 30.40. Under barley 238,394 acres produced 5,859,011 bushels.

RETAINING MOISTURE.

The Department of Agriculture figures that improper or insufficient preparation of the soil to retain moisture was a more important factor that the lack of rainfall in accounting for the year's decrease of production, and states that where scientific methods of farming were pursued, profitable and altogether more satisfactory crops were harvested.

The following figures comparing the yield of the four largest States is interesting:

Minnesota, 94,080,000 bushels.
Saskatchewan, 72,640,000 bushels.
Kansas, 62,008,000 bushels.
South Dakota, 46,720,000 bushels.

The total value of the farm crops of the province is put at $92,335,190.

MEMBERS OF FIRST PARLIAMENT.

Port Hover, Ont., March 23. —Peter Lawson, a member of the first parliament of Canada after Confederation, died here this morning. He was over 90 years of age, and in his younger days ran a tannery here.

USED BURNING OILS

BURNED INITIALS ON GIRLS' BACK.

E. E. Hosmer, of Lynn, Mass. Fined $250 as Result of Treatment of Infantile Paralysis.

Lynn, Mass., March 23.—Because Edward E. Hosmer burned several children with a powerful acid or oils in an effort to cure them of infantine paralysis he has been fined $250 for practicing medicine without a license.

Mrs. H. J. Perkins, of No. 217 Euclid avenue, was the principal witness against Hosmer. She testified that he had burned the back of her seventeen-year old daughter Alice to the bone, and that he had also branded her with his initials "E. H." at one time until there was not a spot large enough to place a dime on which was not burned and seared from the powerful mixture he used.

Mrs. Perkins testified that after she had tried practitioners in Christian Science, osteopathy and several other cults she called in "Dr. Hosmer, as he was known. She said that he had given her a written guarantee to cure her daughter Alice of infantine paralysis within four months, and that she had already paid him $100 and owed him another $100 for treatment and visits.

Mrs. Mary Sturgeon of No. 30 Stickney street, testified that Hosmer had treated her son and her daughter with the burning oils.

TAX ON BACHELORS ASKED.

Minnesota Legislature May Order Money Used to Support Spinsters.

St. Paul, March 23.—The legislature of Minnesota is seriously considering a bill to impose a tax of $5 annually upon all male persons above the age of 30 years who are unmarried or who cannot prove that they are persons of such moral character as to be unfit for matrimony. It is designed to use the money collected by this "male poll tax" for the support of indigent spinsters if the bill is passed.

According to the bill's provisions it will be in force from and after Feb. 29, 1912.

LOUIS BROQUET CARRIED ELEVEN PASSENGERS IN HIS MACHINE

Douai, France, March 23. Aviator Louis Broquet made a record performance to-day when he carried eleven passengers in his monoplane a distance of two miles.

The flight was made at a height varying from 50 to 75 feet. The total weight of the 12 persons was 1,315 pounds, and the combined weight of the machine and its occupants was 2,062 pounds.

The best previous performance of the kind was made by M. Le Martin, who on February 2nd took up seven passengers on a five minute trip.

DISTRESS IN THE STOMACH

Hundreds of Thousands of Bottles of Nerviline Used Every Year for Curing Cramps, Diarrhoea, and Stomach Disorders.

Deadly cramps—the symptoms are not to be mistaken. Suddenly and without warning the patient experiences such agony in the stomach as to contort the countenance and cause him to cry aloud for help.

LETTER NO. 6917. Then it is that the wonderful power of Nerviline can make itself felt—it cures so quickly, you would think it was made to cure cramps, and cramps only.

"Last summer I was stricken with a frightful attack of cramps. I feared the pain in my stomach would kill me.

"My eyes bulged out and the veins in my forehead stood out like whipcords.

"My cries attracted a neighbor, who came to my assistance, and in a moment or two handed me a half a teaspoonful of Nerviline in some sweetened water.

"It seemed as if an angel had charmed away the pain. In ten seconds I was well. Nerviline has a wonderful name in this locality, and is considered best for cramps, diarrhoea, flatulence, stomach and bowel disorders. I urge all my friends to use Nerviline.

"MANLEY M. LEGOARDE,
Williamsburg.

No home is safe or can afford to miss the manifold advantages of having Nerviline on hand in case of accident or emergent sickness. 25c a bottle, five for $1. All dealers, or The Catarrhozone Company, Kingston, Ont.

The Morning Times

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

PEACE PROPAGANDA AND THE PRACTICAL.

The discussion of international arbitration since the publication of Earl Grey's speech is proof of the general weariness of the burden of preparedness for war. Enthusiasts over military glory, with their growing demands for armies and navies, have contributed to a situation which is becoming intolerable. When they harp upon their favorite string of the visionary and the practical they have a convincing answer in their own extravagance.

Hundreds of millions and billions of dollars are taken from taxpayers for the most irrational system of insurance that was ever established. No one doubts that if the nations were pledged to arbitration they would keep their pledges, but these same military enthusiasts would fight against pledges and continue the waste. That is what they call being practical. On the other hand, they declare that a common-sense arrangement that is dictated by justice, economy and business, to claim no more for it, is visionary.

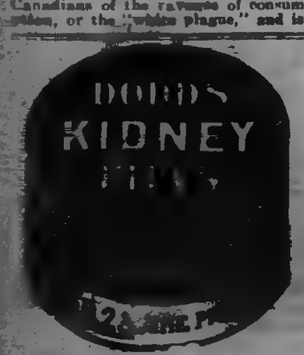
They have with them the strength of tradition and the excitement of jingoism, and they will continue to work them both for all they are worth. But they are meeting with a constantly growing opposition that puts against their own visions the needs of the great producing masses, who are feeling more and more that they are one the world over. Increasing numbers of these producers believe that to be taxed and to be killed for the exaltation of a few strutting personalities, for the assertion of a dubious honor and the confusion of governmental machinery with facts in our lives that are of far deeper import, is not the very summit of the practical.

PROPER REST AND RECREATION.

What causes the increased number of mental diseases which asylum statistics record to-day? Is it due to "burning the candle at both ends" or the wearing conditions of present day business life, or a combination of both? These are questions often asked, but not so easily answered.

Dr. Hobbs, of Guelph, discussed this question before the Supreme Circle of the Canadian Home Circles in Toronto, and his views are most interesting, coming as they do from a man so versed in the subject. His conclusion appears to be that in order to avert these mental collapses people must take proper rest and allow recreation to alternate with work at high pressure.

He declared that derangements of the nervous system are gradually becoming a menace to the health of the nation. There has been for some years a general recognition by Canadians of the ravages of consumption, or the "white plague," and is-



olation in special hospitals is doing much towards lessening the spread of this deadly scourge. Already in the Eastern States the great neurologists or nerve specialists are advocating public sanitaria for the proper care and isolation of nervous wrecks, who have been compelled by the exigencies of life to burn the candle at both ends, resulting in serious exhaustion of the nerve centres, and subsequent fatal collapse. Sooner or later it will be forced home to us, says Dr. Hobbs in referring to the remedy, individually and collectively, that proper rest and recreation must alternate with working at high pressure, which has become a habit of the toiler of to-day.

CANADA'S DIAMOND DEPOSITS

The recent announcement that diamonds have been discovered in Canada for the first time is true only in so far as the recent diamond discoveries are the first which have received official notice, says the Ottawa Journal. Yet in Yukon and throughout the northern portions of Canada such discoveries have been mooted for a long time past. In Yukon, more than once, Indians have been found with rough, uncut diamonds in their possession, but the wily red man, despite traditions as to his innocence and trustfulness, knew as well the value of such discoveries as any white man, and as a result only the most general information could be obtained as to the location of the find.

During the preparations for the Alaskan-Yukon world's fair at Seattle when the northland was being ransacked for its treasures, several fine white, uncut diamonds were located in the possession of Indians, prospectors and others. In addition to these, rubies and garnets were also found, in their rough state, in the possession of prospectors. Moreover, it is known that certain coast Indian tribes possessed medicine men who had some of these stones in their possession, for before the white mans arrival most valuable and curious things of this kind found their way to the possession of the chiefs and the medicine men. When the white man came some of these stones fell into their hands, but in the wild rush for gold the lesser possibility of the discovery of diamond mining was neglected. Yet there have always been well known northerners, men like Bill Juneau, after whom the Alaska city of Juneau is named, who declared they knew a location where a few diamonds at least had been picked up.

Diamonds, as is generally known, are not as a rule found on the surface. In Brazil and in South Africa a few surface discoveries were made by natives and prospectors, just as has been the case in the Canadian barrens, but it took years before its real value of the discoveries were known. And so it may well be in Canada. The recent official acknowledgement of the existence of diamonds in Canada, taken with past confirmatory incidents, may encourage diamond prospectors to turn their attention in this direction, and thus lead to the establishment of an industry employing hundreds of men and millions of capital. So long as men and women are what they are, the diamond will remain in demand as the king of precious stones, and past attempts do not seem to encourage the idea that diamonds will be manufactured commercially in desirable sizes for many years to come, if ever.

OLDEST SHIP AFLOAT

"Polly," 126 Years in the Service Still on the Sea

Much has been said lately about the American vessel, the "Polly," 83 years old, still keeps to the sea. She is in her 103th year of service. This is a respectable age for a vessel, but there are older ones on the British register. The oldest, says the Manchester Guardian, in the "Jessie," of Carnarvon, but we know nothing of her except that she is 122 years old. The next in order of age is the "May," of Whitehaven, sometimes called the "Molly Ashcroft," to distinguish her from other "Mays." The "May" was built at Cowes in 1798 so she is 112 years old, six years older than the American vessel. Tonnage is a very variable quantity according to the system of measurement. The "May" was originally rated at 34 tons, but she has been registered by the Board of Trade as 13.76 tons. Visitors to Ramsey had an opportunity of seeing her there on a fishing expedition last summer.

For all her 112 years, the "May" is still capable of coming through an adventure or two. She came from Whitehaven in a gale nine years ago and was brought there by her present owner, who regularly flakes in her with a crew of three or four. She is a "jigger smack"—that is, she had a small after-mast. She was dismasted in a gale last winter, but she is in first-class trim to-day, and her owner speaks highly of her qualities. Of course, the question is always asked how far an old boat has been patched up and how much of the original fabric remains. As a matter of fact, the "May" was practically rebuilt 18 years ago but a boat must be sound to stand extensive repairs, and the fact, therefore, does not really detract so much as one might think from the wonder of her immense age.

LIFE OF ADVENTURE

Navy Man's Experiences in Greenland, the Crimea, and China

Few men have been fated to have a more thrilling life of adventure than Tom Grant, gateman, driver, and crossing-keeper at Bo'ness Dock, who died at the ripe age of seventy-eight.

Son of a whale harpooner, he had an inbred desire for the sea, and at the age of eleven was bound for four years as an apprentice to the whaling trade. His ship was ice-bound off Greenland, and ultimately became a total wreck, and many were the dangers he passed through before landing with the rest of the shipwrecked crew in a boat on a Danish settlement.

On the completion of his apprenticeship he entered the merchant service, and later joined the Royal Navy. He was present at the blockading of the Baltic on the outbreak of the Crimean war in 1854. Three years later he was at Calcutta during the Indian Mutiny, and subsequently he was sent to Hongkong on the outbreak of the disturbances in China in 1860, playing a conspicuous part in the cutting of the heavy chains and hawser which blocked the progress of the British Fleet. He was also present at the burning of Pekin Palace.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

MAIL CONTRACT.

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, 5th May, 1911, for the conveyance of His Majesty's Mails on two proposed contracts for four years, six times per week, each, between: 1, Peterboro and Fowler's Corners; 2, Peterboro and the Township of North Monaghan; both over certain specified roads, datives from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tender may be obtained at the post offices of Peterboro & Fowler's Corners and at the Office of the Post Office Inspector at Kingston.

G. C. ANDERSON,
Superintendent.

Post Office Department, Mail Service Branch, Ottawa, 17th March, 1911.

ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

THE KING'S REPORT

His Majesty Will Probably do Away With an Old Practice

King George is contemplating the discontinuance of the historic practice of receiving the Prime Minister's nightly report of the proceedings in Parliament.

This report has hitherto taken the form of an autograph letter to the King from the leader of the House. It was the established etiquette for the Minister, in this missive, to use the third person and to address the Sovereign in the second. Thus Mr. Gladstone would begin his written communications to Queen Victoria: "Mr. Gladstone presents his humble duty to your Majesty."

The date of the introduction of this epistolary form is unknown. Mr. Greenville's letters to George III. are in the ordinary form of everyday correspondence, but twenty years later Charles James Fox employed the phraseology which Mr. Asquith now follows: "Mr. Fox has the honor of transmitting to your Majesty," etc.

In days gone by, Mr. Balfour could be seen towards the end of the sitting writing, in the Chamber, his summary for King Edward of the day's proceedings. Other leaders of the House, however, such as Mr. W. H. Smith, Lord Randolph Churchill, Sir Michael Hicks Beach, and Sir William Harcourt, preferred to compose their nightly letter to Queen Victoria carefully in their private rooms.

During Sir Henry Campbell-Bannerman's illness, King Edward suspended the practice out of kindly consideration. King George will, in future, be content to receive the official report which is issued to members, and he regards the leader's private summary as superfluous.

BELGIUM NOW RELIES ON THE BRITISH NAVY

HOLLAND'S PROPOSED FORTIFICATIONS, URGED BY KAISER, CONSIDERED MENACE BY GOVERNMENT AT BRUSSELS AND THREATENS TO DISTURB THE PEACE OF EUROPE.

Brussels, March 24.—The proposal to fortify Flushing and thus to give Holland command of the mouth of the Scheldt and the entrance to Antwerp has still to be considered by the Dutch parliament. It is stoutly opposed by the Socialists, and it is possible that the whole thing may be dropped. But whether Flushing is or is not fortified, the suggestion has drawn dramatic attention to Germany's ceaseless struggle toward the North Sea.

A fortified Flushing can be no possible service to Holland. She possesses a long coast line, and Flushing is miles away from her great cities. It is the end of one of the trans-North sea routes, and it is the home of a colony of English book-makers, but neither fact justifies a costly system of defense; or, rather, offense, because a fortified Flushing would be a serious and constant menace to the independence of Belgium and the peace of Europe.

I have been discussing to-day the present European situation with M. de Mares, the editor of the Independance Belge, the Brussels correspondent of the Paris Temps, and a skilled and particularly well-informed critic of foreign affairs.

Nervous Position.

Belgium is always nervous. Her position makes her so. But this Flushing scheme has made the possibilities of the future very real and very disturbing.

It is generally accepted that in case of another Franco German war the Germans would—bothering themselves not at all about neutrality or treaty rights—immediately march the army corps always ready at Elsenborn, between Coblentz and Aixla-Chapelle, along the Meuse, with the idea of attacking France via Liege and Namur.

It is often urged in England that we have no use for a large army and that there can never be justification for landing an attacking force on the continent. But it is forgotten that we signed a treaty in 1831 pledging ourselves to protect the neutrality of Belgium and that every one here is persuaded that, should a European war occur, that neutrality would be violated.

The parties to the 1831 agreement were Great Britain, France, Prussia, Austria and Russia. But, as M. de Mares insisted, it is to Great Britain and to Great Britain alone that Belgium looks for protection if the possible moment of peril arrives.

Our interest, therefore, in the preservation of the status quo in the Netherlands is the real one, that we might have to fight for it.

Defense at Antwerp.

If an English army corps was sent to Belgium, Antwerp is the obvious port of disembarkation. The Belgians are at present reconstructing the defenses of Antwerp, and will shortly be surrounded by a chain of forts 27 miles in circumference, perfectly equipped according to the latest teaching of military science. If the frontiers are crossed and it is impossible successfully to hold back the invader, the Belgian army would retire behind the Antwerp fortifications and wait for help from Great Britain. With Flushing fortified, this help must be delayed, and possibly long enough to render it useless.

There is a general belief here that Holland has completed some sort of secret alliance with the German empire. It is true that the Dutch people, in common with all the smaller nationalities of north Europe, have little love for the Prussians. It is true, too, that Queen Wilhelmina's Germanic sympathies have considerably affected her popularity. But that there is a close understanding between the two governments was, it is contended, made absolutely clear by this Flushing scheme, which could be of no utility to Holland, but which completes Germany's line of resistance when her great war machine is called into activity.

It must be remembered, too, that Holland's independence is not guaranteed. She has no strong backer morally bound to support her. Would it be wonderful, therefore, if she made the best possible arrangements for herself with her powerful and ambitious neighbor?

Constant Menace.

Certainly expert opinion here is that, with Germany able to challenge Great Britain at sea, both Belgium and Holland, would become as Saxony and Wurtemburg are. It is far easier to realize this constant German menace in Brussels than it is in London. The German outposts are close by. The railway is nearly complete the links Stavelot to Malmedy and opens the valley of the Meuse to the army corps at Elsenborn. And the one thing that will make it unlikely that the army corps will move is a British fleet so great and powerful that to oppose it would be mere folly.

"An invincible British navy," declared M. de Mares, "is necessary for the preservation of liberty and peace."

It is worth while quoting these words when economania is once again asserting itself in the house of commons. M. de Mares is a liberal. The preservations of small nationalities used to be the main object of liberal foreign policy. The pity of it is that the inevitable, natural and entirely defensible ambitions of the German empire are still not realized in England. Here it is easier to believe.

Germany's way to the North Sea is barred. Holland holds the mouths of her rivers. Belgium possesses in Antwerp not only the best situated port in Europe, but the port that is being made wealthy by the abounding output of German factories.

This is the really vital point. There are 10,000 Germans in Antwerp. They live in the best houses. They are rich and prosperous. Every year and every month German trade increases.

INDECENT BOOKS

PUBLISHED BY FIRMS OF REPUTE IN ENGLAND—HARMFUL TO ALL READERS.

Their Tone is Debasing—Association to Be Formed to Bring Pressure to Bear on Publishers.

London, Eng., March 22.—Protest against certain "novels issued by publishers of repute, which are not only unfit for perusal by a modest girl or a right-minded lad, but are likely to do harm to the moral character of all readers," is made in a circular letter addressed to the London Press by a number of peers, prelates, and school masters. The circular says: "Many of these works of fiction are not indecent in the ordinary sense of the word, but their whole tone has a tendency debasing and demoralizing. In them open vice and licentiousness is palliated, and even justified. To appeal to the authors and publishers of these books seem of little use and the law requires strengthening before their circular can be stopped."

Meanwhile parents and school masters, and all to whom the training of boys and girls is entrusted, are asked to set themselves against the circulation of such novels, and expose their character when "it can be detected by the titles, which are absolutely colorless and misleading.

It is hoped that an association may be formed, by means of which wholesome pressure can be brought to bear on publishers, circulating libraries, and book stalls. The best known signatures are the Archbishop of Canterbury, Lord Balfour, of Burleigh, Sir John Wolfe Barry, Sir James Crichton Browne and Edward Littleton, head master of Eton.

CITIZENS ARMY TO DEFEND SOUTH AFRICA

Plans for Formation of Corps Which Will Ultimately Number 100,000 Men.

Capetown, March 24.—General Smuts outlined his scheme for the defence of the South African Union in parliament yesterday for the purpose of discussion. He set forth three main points, the first being the provision of small striking forces, easily mobolized, on the basis of the existing Cape Mounted Rifles. These forces would perform police duties in peace and would be equipped with their own artillery. The difficulty of this system would be the provision of a reserve for war time.

Secondly, General Smuts indicated the establishment of citizen forces on the lines of Lord Kitchener's Australian universal service scheme. He proposed dividing the union into districts superintended by instructional officers with yearly camps for all men between the ages of 18 and 26. Enlistment is to be voluntary where possible, otherwise by ballot.

Regarding the coast defences, General Smuts indicated that considerable sums would be asked for the adequate defense of Capetown and Durban, which would be manned partly by imperial troops, ultimately paid by South Africa, and partly by South Africans. He paid the highest tribute to Lord Methuen and called him "almost a Boer himself," which evoked loud National cheers. He anticipated the eventual withdrawal of the imperial troops and the formation of a citizen army, which, including reserves, would at no distant date be 100,000 strong.

I wasted $100! then Zam-Buk Cured me for $1.

If you are suffering from any form of skin disease or injury, read this!

Mr. Arthur Fairbank, of 547 Lansdowne Ave., Toronto, is the speaker, and he says: "A bad eruption on my forehead quickly spread until it covered my scalp with foul and painful sores. I went to a doctor who treated me for it. Still the sores spread until almost the whole of my head was affected. As the doctor's treatment did me very little good, I left it off and tried various home remedies.

"Then I tried blood mixtures, but not one of them did me any good. I was by that time in a shocking condition, and as a last resource I went to a skin specialist. He treated me for a period and I must say never for one moment got any better. They would itch and burn at times until I was nearly mad. I must have spent over $100 on useless remedies, when one day a friend asked me why I had not tried Zam-Buk, and gave me a little. That little did me more good than all the long treatment I had had from doctors and specialists. I immediately sent for a supply of the balm. Very soon I began to see and feel a great difference in the sores, and finally Zam-Buk cured me at a trifling cost. If I had got it at first it would have saved me dollars, and more and hours of pain."

For all forms of skin diseases, ulcers, abscesses, eczema, ring worm, blood poisoning, etc., Zam-Buk is a sure cure. It soon heals old wounds, cuts, burns, bruises, and sores, chaps, and sore lips. All druggists and stores at 50c. box, or Zam-Buk Co., Toronto, for price. Refuse substitutes and imitations.

DASHES HERE AND THERE BY TIMES' REPORTER.

Local Reporter Wanted.

We have an opening for a bright lad as local reporter. Apply at this office.

Route Boys Wanted.

A couple of good reliable boys wanted at The Times office to carry morning routes. Wages $1 per week.

When given as soon as the croupy cough appears Chamberlain's Cough Remedy will ward off an attack of croup and prevent all danger and cause of anxiety. Thousands of mothers use it successfully. Sold by all dealers.

Guilty of Theft.

At the Police Court yesterday, a young man named Harry Bennett, pleaded guilty to stealing a watch from Mrs. Kate Reid, Hunter street. He was remanded for a week.

A Painful Accident.

While working on a punching machine at the Electric works on Tuesday, Mr. Harry Noyes, Sherbrooke street, had the first finger of his left hand severed. Dr. Young was called and had the sufferer removed to Nicholls hospital, where another piece of the finger had to be amputated. He returned to his home yesterday, but will be unable to work for a few weeks.

An Impudent Swindle.

One instance how the Toronto departmental stores deceive their country patrons is thus given. Mr. Geo. Vickers writes to the Barrie papers to expose the methods of Toronto mail order houses, and instances in particular the case of a line of Crompton corsets. These goods were advertised by a Toronto house as a regular $1.50 line, and offered 300 pairs of them for Saturday only at $1 a pair. Mr. Vickers says the same corsets are regularly sold in every up-to-date store in the Province at $1 a pair, and the pretence that they were worth $1.50 and were a special bargain at $1 was an impudent swindle.

Straight Talk on Danger of Colds

Let your cold gain headway and you can't keep it from running into Catarrh.

Catarrh never stays in the same place—it travels down into the lungs, then it's too late!

Drive colds and catarrh right out of your system while you have the chance.

Easily done by inhaling Catarrhozone, which instantly reaches the true source of the trouble, gets right where the living germs of catarrh are working.

CATARRHOZONE.

A Convenient Inhaler Treatment Is the Proper Remedy to Cure.

You see, Catarrhozone is simply healing balsams and rich, pure essences, and is able to patch up the sore spots and remove that tender sensitive feeling from the nose and throat.

Hawking and spitting cease, because the discharge is cured. The nostrils are cleared, headache is relieved, breath is purified. Every trace of Catarrh, bronchial and throat weakness is permanently cured.

Shun medicines that contain harmful drugs—use a safe remedy that is prescribed by doctors, that is used in hospitals, that is endorsed by thousands. Catarrhozone has cured. For trifler 25c, there's nothing half so good.

Three months' treatment, large size, $1, and guaranteed. Small size, 50c, all reliable dealers, or The Catarrhozone Co., Kingston, Ont. Beware of dangerous substitutes and imitations for "Catarrhozone."

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

The Marriage Laws.

Editor Morning Times:—

Sir,—I hope the local Ministerial Association will join the movement promoted by Rev. Dr. Hincks, of Toronto, in order to put an end to the interference of the Roman Catholic Church in connection with mixed marriages. Surely it is not too soon for all decent minded people to take action. Public opinion will not tolerate this kind of work in Canada. Let criminal action be taken if necessary, as suggested by Dr. Hincks, and this will no doubt put an end to further interference by priests.

A. W. HARVEY.

No More Bonuses.

Editor Morning Times:—

Sir,—As the Times is fearless in its efforts to promote the general weal, I make bold to say things in its columns that it is, I believe, time for the ratepayers of Peterborough to consider their financial position before voting further bonuses to factories. We have some big expenditures looming up in the near future, which will have to be provided for, such as the disposal of sewage, filtration plant, &c. It will take but little foresight to see a tax of 30 mills looming up in the future unless we go slow.

RATEPAYER.

Englishmen Are Good Citizens.

Editor Morning Times.

Sir—In your issue of this morning you report the arrest of a young Englishman for the theft of a gold watch and $5. In the interests of justice I wish to state that the person arrested was an "American" and not as stated an Englishman. In my experience I have found Englishmen to be invariably honest and straight in their dealings. Hoping you will kindly insert this in your next issue, I am

Yours sincerely,

MRS. ALEX. REID,
Temperance House.

Peterboro, March 23, 1910.

The Proposed Hotel.

Editor Morning Times.

Sir—I see that it is proposed to build a new modern hotel in Peterborough, and I would like to say that if such an hotel is built, and made to cater to the American tourist trade, it would do more to build up our city than anything else. Peterborough is midway between the lakes, so that people can take to the water either north or south, in time to get back to their hotel same night.

I only hope the rumor is true, and that a modern hotel will be one of our city's greatest drawing cards.

F. E. M.

CATS RIDE IN AIRSHIPS?

Humane Society Objects to Scheme of Manager of Washington Show.

Washington, March 24.—The following advertisement appeared in an afternoon paper to-day:

WANTED—500 cats of presentable appearance; must be at least 3 months' old. Apply at Exposition Building, N. Capitol and M. Sts.

Officers of the Humane Society investigated and discovered that the manager of a show has a number of miniature aeroplanes which he wishes to fly through the auditorium with cats as passengers. The officers protested to the police and the matter will be thrashed out in the police court.

In the mean time small boys are scouring about through the city corralling all the cats they can find.

The United States may soon be bounded on the north by reciprocity and on the south by revolutions.

ADVERTISE IN THE TIMES.

FOR PUBLIC HEALTH

C.P.R. Starts an Anti-Spitting Campaign Over Its System

The Canadian Pacific Railway Company has started an anti-spitting campaign covering its whole system. Especially in country places the waiting rooms of railway companies are frequently offensive because of the spitting habit, and the Canadian Pacific is being congratulated upon this further evidence of an advocacy of common decencies and public health.

NO DOCTORS' BILLS

In Japan a Doctor Never Asks a Poor Patient for Fees

A Japanese doctor never dreams of asking a poor patient for a fee. There is a proverb among the medical fraternity of Japan, "When the twin enemies, poverty and disease, invade a home, then he who takes aught from that home even if it be given him, is a robber."

"Often" remarked a recent lecturer on life in Japan, "a doctor will not only give his time and medicine free to the sufferer, but he will also give him money to tide over his dire necessities. Every physician is his own dispenser, and there are very few apothecaries' shops in the empire.

"When even a rich man calls in a doctor he does not expect that he will receive a bill for medical services. In fact, no such thing as a doctor's bill is known in Japan, although nearly all modern practices are in vogue there. The strict honesty of the people does not make it necessary for the doctor to ask a fee. When he has finished his visits to the patient a present is made to him just as much as the patient can afford. The doctor accepts, bows, thanks his patient, and the transaction is settled."

SHOULD STALLIONS BE WORKED?

Advantage of Developing Muscles in Chains or Cart

The question is sometimes asked, Should stallions be worked? The point is of more than academic interest, for it gives expression to a widely-held belief that it is to the advantage of a sire to be broken in chains and harness. The laws of our roads, at least of our towns, unlike Continental laws, do not permit of the working of stallions in crowded thoroughfares, but there is no law against the use of the stallion in the ordinary operations of the farm, writes an authority in an English exchange. Usually the stallion owner possesses not one, but several horses, consequently there is no necessity for working them, as the ordinary farm work is undertaken either by geldings or mares. Where the individual has a stallion which he keeps for use in the neighborhood the question deserves to be further considered as to whether or not the advantages outweigh the disadvantages. It is clearly an advantage to develop the muscle of a stallion either in chains or in cart. It is this additional advantage which renders his temper more docile and he is more amiable to handle.

Most breeders, however, look upon the subject from a different point of view. They contend that the exhaustive work of a season demands compensation in the form of a rest, and usually paddock life during the off season is the lot of the stud horse. Again, there are stud horses which breeders think are too valuable to take any risks with, consequently they put them where they can get outdoor exercise with the least danger to themselves and at the same time derive all the benefit accruing from fresh air. In the majority of cases, however, it would be an indubitable advantage to exercise the stallion at ordinary farm work and prior to the season to fit him again in appearance as well as in fact for his work.

THE GREAT SEAL

Is Not Used in England as Much as Formerly—Election Echoes

The busiest man in London on Dissolution Day and probably the least flustered—was Sir Kenneth Augustus Muir-Mackenzie, Clerk to the Crown in Chancery, and Master of the Ceremonies at the General Election.

Sir Kenneth set the election machinery in motion by sending out the writs from the Crown Office. The documents were entrusted to messengers of the Great Seal, who employed taxi-cabs to take them to the General Post-Office, and to the various returning officers for the London divisions. The election being over, all the ballot papers are sent to the Clerk to the Crown, who will store away some thirty tons of them, representing the votes of the nation's entire electorate.

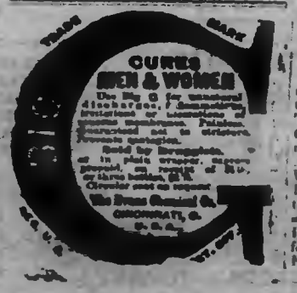
Sir Kenneth Muir-Mackenzie has been Permanent Secretary to the Lord Chancellor for over a quarter of a century, and, says M.A.P., no man knows more than he does about the intricacies of a General Election.

All functions relating to the Great Seal are under his control, and he signed his name on Dissolution Day to the writ for the General Election, to which the Great Seal is appended. Sir Kenneth does not employ the Great Seal quite so often nowadays as formerly, when it was responsible for the use of four hundredweight of wax every month. Only exceedingly important documents pass under it in the present, such as commissions, warrants, and appointments.

A curious feature in its use is that the cords with which it is attached to the documents vary in character according to their importance—silver thread cords for a General Election writ, and silk and woollen cords for parchments of lesser account.

The Great Seal is removed at intervals, and Sir Kenneth hands on the old one to the Lord Chancellor, who regards it as a fitting perquisite.

Every year, also, the Lord Chancellor is entitled to take the richly-embroidered purse in which the Seal is kept, and the wife of one Chancellor had the hangings of her bed made of these beautiful purses.



TRADE MARK
CURES MEN & WOMEN
The Big G for Unnatural discharges, Inflammations, Irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Prevents contagion. Sold by Druggists, or in plain wrapper, express prepaid, for $1.00, or 3 bottles, $2.75. Circular sent on request.

CINCINNATI, O.
U.S.A.

LITTLE LOCAL LINES

The sidewalks are coated with ice, making the walking exceedingly dangerous.

The ice on Chemong Lake never was better than at present, teams crossing daily.

The street cars were out of business from 6 to 7 o'clock yesterday morning, there being no "juice" on account of trouble at the power house.

The test of the large turbine engine at the new water works plant has been made and the report of the engineer will soon be made public.

A blaze yesterday morning in the summer kitchen of Mr. Harry Foote's occasioned a loss of about $40, and gave the fire department a run.

His Worship Police Magistrate D. W. Dumble, yesterday ordered a vicious dog belonging to Mr. James B. James, to be shot. The execution took place yesterday.

Yesterday morning a milk van collided with a street car, upsetting the milk. One of the windows of the vestibule of the car was broken.

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Sold by all dealers.

OBITUARY.

MRS. THOMAS McMURRAY.

The death occurred in St. Joseph's Hospital yesterday, of Bridget, beloved wife of Mr. Thomas McMurray, of Douro.

The deceased had been ill but a short time, the immediate cause of death being heart failure.

Those left to mourn her death is a husband and six sons, Fred and Joseph, of North Shore, Garrett, Frank and Patrick, of Douro, and Thomas, of Peterborough.

The funeral will take place from the residence of her son, Garrett McMurray, Douro, at 9 o'clock tomorrow morning to St. Joseph's church thence to St. Joseph's cemetery.

Excursion to Winnipeg and Grand Trunk Pacific Ry. Points.

In connection with settlers and round trip homeseekers excursions to the West on April 4th the Grand Trunk Ry. Coy., will run a special through train from Toronto to Edmonton, leaving Toronto at 11 p.m., April 4th via Chicago, St. Paul and Winnipeg without change, arriving at Edmonton 7 p.m., April 7th. This train will carry Pullman Tourist sleeping cars with porter in charge. Berth rate to Winnipeg will be $3.75 for lower and $3.00 for upper. To Edmonton lower berth will be $8.15 and the upper $5.40. Mr. McCutcheon, commissioner for the Alberta government along with our travelling passenger agent will accompany same to see there is no trouble or delay and to look after the interests of the passengers. Consult City Ticket Agent Grand Trunk Ry. for rates, reservations and full particulars.

THE MINES DEVELOPING MACHINE WILL BE INCORPORATED

It is One of the Greatest Inventions of the Age for the Speedy Development of Mines

A device which will, when installed, be the means of placing hundreds of mining properties, now laying idle, on a producing and dividend paying basis. It will develop a mine in months where it now requires years. It will be the means of bringing sure and quick returns on mine investments which are now slow on account of the long time required to either reach the ore bodies or develop them to an extent which admits of productions on a large scale.

IT CAN BE USED IN ALL MINING REGIONS.
IT CAN BE USED IN DRIVING IRRIGATION TUNNELS.
IT CAN BE USED IN DRIVING TRANSPORTATION TUNNELS.
IT CAN BE USED IN DRIVING DRIFTS AND UPRAISES IN MINES AND IT WILL WORK IN ALL KINDS OF FORMATION.
IT DRIVES A COMPLETE TUNNEL, DRIFT OR UPRAISE, AND SHAPES ITS WORK ON A SCIENTIFIC PRINCIPLE.

Contracts have already been signed for the use of enough of these machines to keep a large factory busy building them for many months, and I predict that before 5 years many hundred of them will be in use.

A corporation will be organized within a short time to own and handle the machine, and it will be capitalized for $1,000,000 divided into 1,000,000 shares. One-half of the stock will be placed in the company's treasury.

YOU CAN NOW BUY PRE-ORGANIZATION STOCK AT 25c PER SHARE (either for cash or ten-payment installments) BUT YOU CANNOT BUY IT FOR LESS THAN 50c PER SHARE AFTER THE INCORPORATION TAKES PLACE.

GET IN ON THE GROUND FLOOR IN THIS ENTERPRISE. TAKE ADVANTAGE OF THE PRE-ORGANIZATION OFFER NOW.

Use the coupon in making your subscription, either for cash or installments, and make all remittances payable to

P. H. LUND, Consulting Engineer
Temple Court Bldg., Denver, Colorado.

SOCIETY EVENTS

Mr. Harry Rush, son of ex-Mayor Rush, has been appointed manager of the St. Lawrence Boulevard Branch of the Dominion Bank in Montreal.

Mr. E. F. Mason, President of the Otonabee Navigation Company, is in Toronto, to-day.

Miss Ethel Brown, who is the guest of her sister, Miss Bertha Brown, of Gilmour street, will return to her home in Montreal to-day.

Mrs. Wm. Steinkruss and daughter Violet, have been visiting friends at Minden, for a week, have returned to their home.

DOWNER—LITTLE.

A very pretty house wedding took place at the home of Mr. Witham Little, Stewart street, on Tuesday afternoon, when his daughter Mabel E., was united in the holy bonds of matrimony to Mr. George W. Downer, of Frobisher, Sask., and formerly of Peterborough. The ceremony was performed by Rev. Mr. Pogue.

The bride's dress was of pale blue silk, and she wore the conventional veil of white tulle, with orange blossoms.

Mendelssohn's wedding march was played by Miss Laura Edwards and during the signing of the register Miss Bertha Curtis sang, "O Perfect Love."

Mr. and Mrs. Downer left amid a shower of confetti, on the I.S.C.P.R. train for their new home in Frobisher, Sask.

LITTLE LOCAL LINES

The sidewalks are coated with ice, making the walking exceedingly dangerous.

The ice on Chemong Lake never was better than at present, teams crossing daily.

The street cars were out of business from 6 to 7 o'clock yesterday morning, there being no "juice" on account of trouble at the power house.

The test of the large turbine engine at the new water works plant has been made and the report of the engineer will soon be made public.

A blaze yesterday morning in the summer kitchen of Mr. Harry Foote's occasioned a loss of about $40, and gave the fire department a run.

His Worship Police Magistrate D. W. Dumble, yesterday ordered a vicious dog belonging to Mr. James B. James, to be shot. The execution took place yesterday.

Yesterday morning a milk van collided with a street car, upsetting the milk. One of the windows of the vestibule of the car was broken.

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Sold by all dealers.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Plaza between Dufferin P.M., on Monday, April 3, 1911, for and Sapper's Bridges, Ottawa," will be received at this office until 4.00 the construction of a Plaza between Dufferin and Sapper's bridges, alterations to Dufferin bridge, and demolition and reconstruction of Sapper's bridge.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. 10 p. c. of the amount of the tender which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, March 16, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

TRIFLES make PERFECTION but PERFECTION itself is no TRIFLE

You would marvel at the rigid rules of cleanliness under which

THE ORIGINAL KUNTZ LAGER

Is brewed. Every trifling detail is carefully looked after---but the result is PERFECTION. Order sone today--

AN IMMENSE TROUSSEAU.

Boston Bride-to-be Has Two Rooms Full.

Boston, March 24.—If an expert seamstress, dressmaker and embroideress were to work eight hours every day for three years, there would still be a great amount of work to be done if it was hoped to have such a trousseau as Miss Gladys Underwood exhibited to her friends who gathered in her home to partake of tea in celebration of her coming marriage to W. Cleveland Foote.

Eight years ago Miss Underwood began work on her wedding trousseau finishing article after article, until now, with everything completed, she has two large rooms in her father's house filled with beautiful clothes.

VOL XXXIV NO. 71 PETERBOROUGH, ONTARIO, SATURDAY MARCH 25, 1911 PRICE TWO CENTS

CHIEF CROWN WITNESS THEY SAY IS INSANE

ABBETEMAGGIO, WHO WAS TRAPPED INTO REVEALING THE SECRETS, IS SAID TO BE IRRESPONSIBLE.

Defence Set Up Theory—Prosecution Has Verified His Story—He Now Professes to Be Repentant.

Viterbo, Italy, March 24.—This was the day set for the interrogation of Gennaro Abbetemaggio, the Camorrist informer, about whose confession the State has built up the evidence upon which it is hoped to rid the country of the criminal organization that for years has exacted tribute from the rich and poor, robbing and murdering with practical immunity. In anticipation of his witnessing what may cost him his life, great crowds gathered early in the vicinity of the Court of Assizes, and when the session opened the room was packed to its capacity.

The defence so far as Abbetemaggio is concerned, will be that the man is insane, a theory strengthened by his desperate boldness. Professor Ottolenghi, an alienist from the University of Rome, has been retained to examine the informer, and as the professor was not in court during the morning hours, Abbetemaggio's interrogation was deferred until the afternoon, and President Bianchi opened the proceedings with the examination of Gennaro Ibelli, following this with the questioning of Luigi Arena.

Ibelli is asserted to be the head of that branch of the Camorra which operates in the Vesuvian villages. He was one of the party that dined with Enrico Alfano on the night that Gennaro Cuocolo and his wife were murdered. He was arrested soon afterwards, but released upon the false representation of the priest, Ciro Vitozzi. According to Abbetemaggio one of the offences of Cuocolo was his defiance of Ibelli. He is charged with having been one of those who instigated the murder. This Ibelli denied to-day, and he also denied that he had dined with the other leaders of the Camorra on the night in question. He said that he knew Alfano and Guiseppe de Marinis, another of the chiefs, only in a business way.

Luigi Arena was then called, and his story afforded much interest to the spectators. Arena is the man who is charged with having called upon his brother Camorrists to kill Cuocolo in revenge for his own betrayal. Abbetemaggio says that Cuocolo wished a portion of the spoils of a robbery committed by Arena and a few companions. This was refused, whereupon Cuocolo denounced the robbers to the police, and they were immediately imprisoned. From his cell Arena sent a postal card to one of the leaders asking for Cuocolo's death as a traitor to the Camorra. The Carabineers claim to have found this post card, and also Cuocolo's ring, which was to have been sent to Arena in proof that justice had been done.

Replying to the President, Arena said:

"This story of Abbetemaggio is a fable. I am not a Camorrist. While in prison I was a Camorrist, it is true, for in prison all men are Camorrists. I challenge anyone to produce the post card which I am said to have written to de Marinis. Abbettemaggio, in support of his own romance, related to the police, made up this story of the post card, and the pretended witness who saw it is a myth. I am innocent of this crime and Abbetemaggio's statement that I asked for Cuocolo's death, and that I was responsible for his murder is false."

Abbetemaggio was trapped into his revelations by the police spy Marshal Capezzuti, of the Legion of Carabineers in Naples. The latter gave the informer the money with which to be married and to set himself up in business in return for information which the marshal said he wished to secure in order to use it as a means of securing membership in the Camorra.

WITH HALF A MILLION.

London, March 24.—Two hundred and fifty Englishmen sailed on the Empress of Ireland to-day for Alberta, each with $2,000 capital

MAY REMAIN AT HOME

HE MAY MISS CORONATION IF TRADE TREATY IS NOT PASSED FIRST.

To Avoid Conference—Attempt Would be Made to Blame Opposition for Failure to Take Part in Imperial Conference.

Ottawa, March 24.—It is not by any means certain that Sir Wilfrid Laurier will attend the Imperial Conference and the coronation this year.

The Prime Minister has booked his passage for May 12th and at the gathering, where large and vital Imperial interests and policy are to be discussed the representation of Canada would be essential.

The Government of Canada, however, has not seen fit to make any representation or suggestions of subjects for the conference and is seemingly indifferent on the question.

It is now said that the Premier will stand by reciprocity pact and will not go to Great Britain until it is disposed of. If the agreement is passed before May he will go. If it has not passed he will stay behind and attend to it. In that event an attempt of course would be made to shoulder the responsibility on the Opposition, but really it is believed the Prime Minister is indifferent about going at all to the conference.

If the long-continued fight against reciprocity, which is sure to take place, is any possible excuse for the failure of Canada to join in the Imperial discussion it is said that the Government will not hesitate to avail itself of it.

How to cure a cold is a question in which many are interested just now. Chamberlain's Cough Remedy has won its great reputation and immense sale by its remarkable cure of colds. It can always be depended upon. For sale by all dealers.

TO TACKLE THE TRUSTS

WILL PRESS CASE AGAINST THE SHOE MACHINERY COMBINE TO THE LAST COURT.

Opposition is Stubborn, But Prosecution Will be Carried to the Limit.

Ottawa, March 24.—The fear so frequently expressed that the reciprocity agreement would lead, sooner or later, to the crowding into Canada of the huge United States mergers, or trusts, should be greatly quieted by a few words that were uttered in the House yesterday afternoon by Hon. Mackenzie King, Minister of Labor.

Some time ago the Government under the Anti-combines Act, introduced by Mr. King and passed last session, decided to investigate the methods of a certain Montreal concern, known as the United Shoe Machine Corporation, a branch of a large corporation in the United States. Yesterday Mr. McLean of Huron drew the attention of the Government to the fact that the company had applied for an injunction to restrain all investigation. Mr. King replied that he was aware of what was being done and that argument would be begun in Montreal to-day.

HEAVY WORK IN A WESTERN QUARRY

BROUGHT ON KIDNEY TROUBLE THAT DODD'S KIDNEY PILLS CURED.

There is a Lesson for Workmen in the Story Told by John McMullen, of Robinson's Camp, Alberta.

Robinson's Camp, The Gap, Alta., March 24—(Special)—Men who work hard and make heavy lifts have learned that the back is the first part of the body to call for help, and John McMullen, who works in the quarry here has proved to his own satisfaction and that of his fellow workmen that it is really the Kidneys that require relief. "Last summer," says Mr. McMullen, "I had some heavy work in the quarry here, which was hard on my back.

"My head also ached, and I got so that I was always tired and nervous, and was often dizzy. I sent for two boxes of Dodd's Kidney Pills and they fixed me up."

The Kidneys are the first organs to feel heavy work and tear on the body. If you cure them when they first call for help all will be well. If you neglect them Rheumatism, Bright's Disease, Gravel or Diabetes will be the result. Dodd's Kidney Pills always give the help they need. They always cure.

RUSSIA AND CHINA ON VERGE OF CONFLICT

London, March 24.—With cable advices from the Far East declaring that the outbreak of war between Russia and China will occur within a few days, Lloyds to-day raised their rate to cover risks on the outbreak of hostilities within the next few weeks from five to ten guineas per cent.

SAYS WAR IS INEVITABLE.

A big London firm trading to China to-day was advised by its Far Eastern connections that war between Russia and China is inevitable.

A private cable to another big China exporting house here asserted that war will be declared within a few days.

TROOPS ON THE MOVE.

Both nations are rushing troops towards Manchuria, which will be the preliminary field of conflict, according to these advices.

JAS. GIRWIN GETS MARKET TOLLS AT NINE HUNDRED AND FIFTEEN DOLLARS

AARON COMSTOCK AWARDED THE CONTRACT FOR CARE AND SERVICE OF DAN SPENCE AMBULANCE AT $200.

By-law Governing Conveyance of the Night Soil Along City Streets Approved of—Phone Connection With the Isolation Hospital. A Name Wanted for the Isolation Hospital.

The Property Committee of the City Council met last night and opened the following tenders for the market tolls:

W. H. McDonald	$900.00
James Girwin	915.00
Walter Fisher	880.00

The tender was awarded to Jas. Girwin at $915.

The following tenders for the care and service of the Dan Spence Ambulance were received:

Aaron Comstock	$200.00
D. Bellegham	400.00

The tender was awarded to Aaron Comstock $200.00 for the year 1911-1912.

The chairman was authorized to arrange with the Bell Telephone Co. for connection with the Isolation Hospital.

A by-law providing that all night soil shall be conveyed through the streets in water-tight receptacles was approved of and will be submitted to the Council.

John Williams' offer of a dumping ground at $400, the same price as last year, was accepted.

The Electric Insulation Co. wrote, asking for specifications regarding rewiring the City Buildings, which will be forwarded them.

On the suggestion of City Clerk Armstrong the Committee are considering a suitable name for the Isolation Hospital. Suggestions are invited. We have a King Edward school, a Queen Alexandra school and it is in order that the new hospital should have some other cognomen than "Isolation."

DIED AN AWFUL DEATH WAS FOUND IN QUICKSAND

Elizabeth, N.J., March 24.—His body covered by quicksand to the depth of several inches, which prevented discovery by searchers for the last sixteen days, the body of John Donnell, sixty seven years old, was found accidentally late yesterday afternoon by an employe of the Health Department here. Indications are that the aged man died in great agony while held a prisoner by the sands, which drew him in slowly until his body was out of sight.

Sixteen days ago Donnell left his desk at a local factory and took a familiar path over the meadow to his home. He probably lost his way.

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Stomach and Liver Tablets, keep your bowels regular and you will avoid these diseases. For sale by all dealers.

PASSENGERS IN PERIL STEAMER ASHORE

Sydney, N.S., March 24.—The Newfoundland steamer Bruce from Port au Basque for Louisburg, is ashore at Port Nova near Scatterie, with 120 passengers. It is reported that three drowned. The steamer Louisburg is leaving for the scene of the wreck.

THE LATEST REPORT.

Sydney, N.S., March 24.—The latest report about the Bruce indicates that she will be a total loss. Nothing but her funnel is to be seen above the water. The point where she struck is exposed and there is a heavy sea running. The three persons drowned are reported to have been passengers. They probably lost their lives while attempting to get ashore.

FIVE FIREMEN WERE BURNED TO DEATH

Milwaukee, Wis., March 24.—Twenty firemen on the roof of a four-storey building crashed down into the blazing ruins of the Middleton Manufacturing Company's plant here to-day.

Five dead were taken out and four badly injured firemen were rescued from the blazing heap.

Practically the whole Milwaukee department was at work at the blaze of the plant, which threatened to spread throughout the thickly built wholesale district. A company of firemen were at work on the roof of the building. Without warning the walls, undermined by the flames beneath, gave way, and the entire roof with nineteen firemen crashed down into the blazing wreckage.

The comrades of the buried men armed with hooks and axes, attacked the huge heap of blazing debris, under the protection of streams of water, guided by cries and moans from the buried men, they attacked the blazing ruins, digging out the dead and wounded. Five of the firemen horribly mutilated were taken out dead. One body was headless.

The other fourteen, some of them unconscious, were rushed to the hospitals, where several were pronounced fatally hurt. Twenty minutes before the crash came the firemen had succeeded in carrying from the upper floors of the blazing structure thirty girls, *panic stricken.*

Wobbly Nerves?

Quit, and try

POSTUM

"There's a Reason"

INS AND OUTS.

Some boys accidentally hit the editor of this great family journal with a snowball the other day as he was passing, but he merely laughed. There is nobody so sociable as he when things are coming his way.

* * *

The Ontario Legislature does not always make mistakes. That motion to adjourn was a fine stroke of business.

* * *

The reciprocity discussion has not cut much figure in Peterborough, but it must be remembered that Jimmie Stratton has not got his second wind yet.

* * *

Sir William Van Horne who owns several thousand acres in Western Canada, is strongly opposed to the reciprocity pact. In other words he has grounds for complaint.

* * *

Very few women exercise the rights of franchise at our municipal elections. Perhaps they have an idea that it is necessary to tell their age before they can vote.

* * *

At a hockey match in the Brock street rink a short time ago a man went forward to fight a man in the gallery. This would suggest that an arrangement should be made in future whereby ticket holders who secured a black eye should get their money back as they pass out.

* * *

We can all agree, however, that the Peterborough Tankard curling rinks has a fine future behind it.

* * *

In connection with the vote on reciprocity it may soon be necessary to have the ballots which are being sent to the Toronto News, shipped by freight.

Makes Home Baking Easy

ROYAL

BAKING POWDER

Absolutely Pure

The only baking powder made from Royal Grape Cream of Tartar

NO ALUM, NO LIME, NO PHOSPHATE

IN FAVOR OF RECIPROCITY.

(From Toronto Saturday Night.)

The considerable section of the community which favors the reciprocity pact and which has no doubt been distressed by the antagonism which the Taft-Fielding treaty has aroused in many quarters, has reason to rejoice over the incident which has escaped the attention of Eastern newspapers. From a Calgary source one learns that the inmates of Ponoka Insane Asylum near Strathcona, Alta., have in conclave assembled passed a resolution in favor of the treaty. Surely this will cheer the drooping spirits of the reciprocity advocates!

THE LIBRARY BOARD HOLD MEETING.

Busy Session and Considerable Business Transacted.

A special meeting of the Public Library Board was held on Wednesday night, with the following in attendance: Messrs. E. H. D. Hall, chairman; Mayor Morrow, T. F. Matthews, D. Walker, J. Corkery, H. Ritchie, A. Mowat, H. R. H. Kenner and Dr. McNulty.

Among other business transacted, the chairman brought up the question of providing extra assistance to the Librarian, and it was moved by Mr. Morrow, seconded by Mr. Matthews that Miss Rose be engaged to assist in the Library for one months at $25.00.—Carried.

Mr. Walker, chairman of the Library Committee, reported verbally that books to the value of $97.60 had been received and placed on the shelves and about $300 worth had been ordered.

The Property Committee presented the following report:

1. The application of the Janitor for an increase in salary was considered and we recommend that he be paid at the rate of $400 per year, beginning March 1st, 1911.

2. We recommend that the contract of removal of ashes be given to H. Edmondson, carter, at 40c per load, and that the Janitor keep an account of the loads and certify to the account.

3. We recommend that the chairman of the Board be authorized to sign a contract with the Otonabee Power Company for lighting the Library for a term of five years at $1.32 per year, net, payable monthly for the basement and main floor, and the upper floor to be supplied by meter.

The Finance Committee recommended that the refund of $5.00 to F. Doletski, being deposit paid by him as security for books loaned, be approved.

The payment of the following accounts was also recommended:

Times Printing Co., $7.08; Peterborough Examiner $41.70; Review Printing Co., $12.01; John Dougall & Sons, $1.00; William Weatherstone $14.70; W. H. Hamilton $4.20; Higgins' Hardware Co., $3.75; A. A. Fowler, $1.60; Albert Britnell $97.68; Davis Thompson Co., $2.30; F. C. Cubit, 35c; Trebilcock Bros., $5.10; R. J. Soden, $4.45, $83.03; $12.10; Ontario Coal Co., $73.30.

There was a demonstration made in the window of Richard Hall & Sons dry goods store yesterday, of the King Edward Vacuum Cleaner.

CATHOLIC CHURCH AND CIVIL COURT ANNUL MARRIAGES

Montreal, March 24.—A brief period of married bliss came to an end yesterday for Eugene Hebert and Marie Emma Clouston, when Judge Laurendeau ruled that under the existing civil laws in the Province a Protestant Clergyman cannot legally marry two persons of the Roman Catholic faith, and that if he performs such a ceremony it is null and void. Their wedding was performed in 1908 by Rev. W. Timberlake, a Protestant Minister. The usual certificate was issued, and for a time the couple lived as man and wife. Later, however, the husband discovered that he was not married according to the Canons of the Church to which both parties belonged, and he secured an ecclesiastical annulment of the marriage.

ANNULMENT CONFIRMED.

This done he proceeded before the civil courts to secure a legal status to the ecclesiastical annulment of the wedding. This was granted by Judge Laurendeau, who held that under the present law two Roman Catholics in the Province can only be legally married by a priest of their own church, and by the parish priest of one of the two parties.

At the time of the marriage it was known that both were Catholics and his Lordship therefore legally confirmed the religious decree.

It is unlikely that an appeal may be taken to the decision as it is held by several Protestant clergymen that the action of Judge Laurendeau is not upheld by the law.

PRINCIPALS NOT PRESENT.

Neither of the principals were in court when the judgment was rendered, and neither has refused any objection to the annulment of the marriage. On this account, though Protestant Ministers declare that Judge Laurendeau's interpretation of the law is open to question, it is held that it would be a difficult matter to re-open the case.

Mr. Hebert and Miss Clouston refuse to discuss any plans they may have for the future.

DECREE COULD NOT APPLY IN HANEY FAMILY BREAK

Toronto, March 24.—That his continued presence in her home against her wishes was the cause of Mrs. Michael J. Haney leaving her home in Rosedale last December, and remaining away ever since, was denied this morning by Rev. Father Burke, the Editor of the Catholic Register and Canadian Extension.

Mrs. Haney, in a letter to one of her daughters who had followed her example, charged the Catholic priest with a disregard for the privacy of the home, and finally causing an estrangement with her husband, who had chosen that Father Burke should remain, and she should go, if need be.

MRS. HANEY'S LETTER.

The letter which appeared in the Telegram last night is as follows:

"Reports have reached me from time to time of the reason given which caused me to leave home in December. I think it would be wise to have those who know who are interested that my sole reason was the continued presence in my home of Father Burke. You know, dear, how our lives have altered since his coming nine months ago. His curiosity of things not concerning him, his rudeness, both to me and to you children, his sly insinuations about my friends and things we held sacred, his complete disregard for our privacy and comfort generally, may all have come from ignorance rather than intent, but have been none the less hard to bear. I begged many times that he might make his home elsewhere saying I was willing that he might visit our home at any time so long as he did not make his home there. And my wish, as you know, was ignored.

"Finally when it came to a choice whether he or I remain, I was told I could go, that Father Burke would remain." And how soon you and ——— followed me!

"I alone am responsible for my action. It was never suggested nor did it occur to me to leave my home until it was made impossible for me to stay there with no objectionable a tenant."

FATHER BURKE'S DENIAL.

Father Burke denies that he stayed there for nine months; or that he was ever asked to go, or that he even suspected there was any desire that he should leave. He is just as emphatic in the assertion that "no Tametre" decree has had nothing to do with this mixed marriage, or that the Church influenced the situation in the slightest degree.

"Yielding to the solicitation of the head of the house," said Father Burke, "and not knowing that in this he was not representing every one who had a right to elect in this matter, I did not remain a few nights at Mr. Haney's.

THOUGHT HE WAS WELCOME.

"I never had an indication that my presence was objectionable. If I had, I shouldn't have remained there one moment as can be readily enough understood.

"I thought the laws of hospitality were sacred, and that the ordinary canons of decency were understood by all the parties.

"If I have been the cause of this unseemly family quarrel, and the sectarian hate it has engendered, I am sorry; but I have been the innocent cause, and I leave it to the public, even the Protestant public, of Toronto, to say who has a right to be aggrieved.

DECREE DID NOT APPLY.

"The Ne Temere marriage law has no earthly connection with this except in the temerarious manner, from all points of view, in which it has been used.

The decree could in no sense apply to this marriage, Father Burke added, for this took place thirt-five years ago.

"Had you any knowledge that your presence was not desired by Mrs. Haney or other members of her family?

"There was not the slightest sign given me that I was an unwelcome guest. I never knew it even on leaving. On the contrary, Mrs. Haney repeatedly asked me to come, and to come more frequently that I was doing."

She mentions your being there for nine months," was offered.

"I was not there more than a dozen nights in my life." Father Burke replied. "I leave people to judge of the case by her own letter.

CALLS IT AN INSULT.

"It is the work of a foolish woman. So far as I am concerned I can be under this insult as long as anyone else, for I am too well known. No one is effected by it. So far as the family is concerned there was no religion in it, except a mere formal social affair. The Church had nothing to do with it at all."

GRAND TRUNK PACIFIC WILL BUILD HUNDREDS OF MILES OF NEW RAILROADS IN WEST

Winnipeg, March 24.—The Grand Trunk Pacific to-day awarded contracts for $17,000,000 of work in the West. The contracts are as follows, to be completed this year: Calgary branch, 143 miles; Battleford branch 59; Melville, Regina branch, 68; Alberta Coal branch 72; Biggar to Calgary, 50. There will be 265 miles of main line track laid as well as 200 miles further grading on branch lines. Arrangements are also being made for the erection of 140 station buildings and 100 hotels.

Shooting Pains in Side, Arms, Back

Prove the Presence of Rheumatism Virus, Which is Cured Quickest by Nerviline—Rub It In.

Pains in the muscles, in the sides, the back, the neck, or the chest—they always carry with them great discomfort. If the inflammation is severe the pain will be intense. If allowed to continue they are dangerous. Nothing so quickly cures local inflammation and drives away pain as Nerviline. Nerviline does this because it penetrates so deeply. Nerviline is not only powerful, but soothing. By relieving congestion it cures pain. It does this always. It cannot fail because it is a true antidote for pain. You can scarcely find anybody that will not tell you wonderful things about the pain-curing power of Nerviline. Remember, that there is not an ache or pain that Nerviline will not cure immediately. Nerviline is an anchor of health in every household.

Refuse anything that may be offered you instead of Nerviline, which is guaranteed for rheumatism, neuralgia, sciatica, lumbago, and all muscular aches and pains.

NERVILINE CURES RHEUMATISM

Large 25c bottles or five for $1.00, at all dealers, or The Catarrhozone Company, Kingston, Ont.

SATURDAY, MARCH 25, 1911.

THE CHINESE NAVY.

Without knowing or, perhaps caring much about the details we have been aware in this country that quietly, but none the less energetically, the work of reform and the adoption of modern ideas was progressing in China. In the northern provinces especially the army of China has been developed into a modern fighting machine under the discipline of European and American authority. Throughout the Empire schools have been established; hostility to railroads has disappeared; industries have been started; opium-using has been legislated against; foot-binding has been frowned upon and the Chinese have so far already conquered ancient superstitions that they are cutting off their queue.

If further proof of the great strides China is making were needed it would be found in the fact that the Chinese government now proposes to finance a foreign loan of $25,000,000 with which to begin the re-creation of its fleet. Under the presidency of Prince Tsai Shuan, an uncle of the Emperor, an effective Navy Department has been established and it is due to the recommendations of the Prince that the new navy is to be begun. It will be remembered that Prince Tsai Shuan on his recent visit to this country, where he was most cordially received, paid particular attention to our navy-yards.

Most gratifying to our sense of justice and gratitude should be the news that the Chinese are anxious that most of this foreign loan should be placed in the United States, and that most of the orders for material for new ships and navy-yards will be purchased in this country. This is, of course, business, but it is due, undoubtedly, in part to the fair and honorable treatment we have always accorded China. She has not forgotten, it seems, that we were the only nation to refund part of the indemnity wrung from her after the Boxer trouble, and though our actions in that matter were not altruistic, but simply honesty, the Chinese are grateful.

PUBLIC OWNERSHIP.

The Calgary Albertan, is an excellent special number just issued, tells some things about the result of municipal ownership in its home city which Eastern towns may well ponder. For instance:

Calgary owns its own electric light and power plant. It is valued at $600,000. Last year it produced a net revenue of 24,000 after providing for operating expenses sinking fund, and interest on debentures. Calgary owns its own waterworks system, in which $1,700,000 has been invested. Last year it produced a gross revenue of $108,430 and after paying operating expenses and fixed charges, gave a net profit of $8,936. Calgary owns its own street railway system. It is valued at present at $516,000. There will be added $484,000 in extension in 1911, bringing the total investment up to $1,000,000. The net revenue for 1910, over operating expenses and fixed charges in the way of interest on debentures, sinking fund, etc., was $60,000, or 4½ per cent., profit on capital invested.

In other western centres similar gratifying results have been obtained The case of Medicine Hat might be cited, that place having the lowest municipal tax rate in Canada, 14 mills. Here is the secret.

On the assessment of four and a quarter millions, a tax of only 14 mills is levied, and the city has public improvements and utilities which make it the rival of any city in the West and the superior of many. The debenture indebtedness for the year of 1910 was $616,000, public work and improvements undertaken during the year amounted to $196,000—an expenditure of $20.97 per capita. This low tax rate under those conditions is made possible by the revenue producing utilities owned and operated by the city. The famous natural gas is a resource which contributes a net surplus of $22,000 per year to the city treasury, although gas is supplied to the householders at 13½c per thousand feet. From 1,400 services a revenue of $43,375 was derived. The waterworks system is also on a paying basis, the receipts from 1,100 services being $4,300 last year. Of this $200 was profit.

But municipal ownership would still be a failure if public service so operated were revenue producers without being satisfaction producers. It is gratifying to learn that the utilities of Calgary and Medicine Hat are excellent as well as profitable.

ON GABLEHORN IN GREAT STORM

The Remarkable Experience of Alpine Travellers During a Passing Hurricane

From Zermatt, says George D. Abraham, we had climbed to the top of the Unter Gablehorn in perfect weather. Not a cloud was visible until late in the morning, but during the halt on the summit curious mist-wraiths accumulated, and after descending to a point just above the first gap on the ridge, a sudden wind sprang up, and clouds began to spin around the peak somewhat like a whirlwind. Almost simultaneously a shrieking northerly gust brought along a stinging shower of hailstones, followed by vivid flashes of lightning. Clinging to the exposed narrow ridge of the tip of that fragile peak, I remembered contrasting myself with a squirrel on the top of a small tree, an easy target for a small boy's aim. We must certainly have seemed tempting prey for Nature's thunderbolts.

The storm increased impetuously, but fortunately the rocks were easy enough to allow of a hurried descent. Then with curious suddenness the wind dropped, an ominous calm succeeded the tourmente, though the lightning flickered incessantly. The first peculiarity I noticed was a tingling sensation in the tips of my fingers whenever they grasped or released a handhold. One of my companions was bareheaded, and his hair had assumed such an upright bristly appearance, that we made humble jokes at his expense. Still, he was not the kind of man whose hair stands on end with fright, and we soon began to realize that we were all more or less alike, and simply charged with electricity, which was silently discharging from our finger ends. Our ice-axes began to give off sparks that would have roused to envy the electrically isolated motorist.

Just before we gained the shelter of the gap, a tremendously vivid flash of lightning splattered on the opposite rocks, and the whole mountain ourselves included, seemed to shudder with the simultaneous thunder crash. Instinctively we looked up for falling stones, but nothing fell in our direction. A few seconds later there was an even still brighter flash, and at the same time I felt an electrical shock in my arm which held the ice-axe. My companions suffered likewise, so, as we were now only a few feet above the gap, we dropped our axes precipitately, for they were evidently a source of danger.

When we reached the neighborhood of the axes same rocks afforded partial shelter whilst the storm continued, and dense black clouds rolled across, heavily laden with powdery snow. All the time a strange flashing noise appeared to flit here and there amongst the rocks, but gradually the space between the lightning and the thunder-crash grew appreciable. Then, after a fierce repetition of hailstones, the disturbance began to subside. In rather more than half an hour we were able to breathe more freely and enjoy the prospect as the mist rolled up, disclosing the sunlit valley 5,000 feet below with the monolithic Matterhorn piercing the surging vapor.

AN ELDERLY SPINSTER

How She Got Even With an Inquisitive Lawyer

At a recent trial in Scotland an elderly spinster was called to the witness-box to be examined.

"What is your age, madam?" inquired the counsel.

"Sir," answered the witness, "I am an unmarrit woman, and dinna think it right to answer that question."

The Judge interposed, and told her she should answer.

"Oh, weel, then," she said, reluctantly, "I am fifty."

"Not more than fifty?" questioned the counsel, sternly.

"Weel, dinna fash yersel'," she replied, "I am sixty."

The inquisitive lawyer still futher asked if she had any hopes of getting married, to which Miss Jane replied: "Weel sir, I wiana tell a lie, I hiana lost hope yet"; scornfully adding, "but I widna marry you, for I'm sick and tired o' your palaver already."

FIRST ENGLISH NEWSPAPER

The first paper published in England was the "Weekly News," edited by Nathaniel Butler, which made its first bow to the public as long ago as the year 1622, in the year of the Great Plague. The same year (1622) saw the birth of the "London Weekly Courrant," and a score years later came a small family of "Mercuries," followed in 1662 by Sir Roger L'Estrange's "Public Intelligencer." Of all this breed of 17th century newspapers two have survived to our day—the "London Gazette" and Berrow's "Worcester Journal," which, as the "Worcester Postman," first saw the light in 1690, the year of the Battle of the Boyne.

Beware of Imitation Sold on the Merits of Minard's Liniment

Attend
Remington Business College
269 College St., TORONTO

A strictly high grade business training school, which annually sends out hundreds of young men and women fully equipped for a successful business career.

The commercial world offers splendid opportunities for all who have received a Remington training.

Individual instruction. Pupils may enter at any time.

Send for copy of our new booklet. A postal card will bring it.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

MAIL CONTRACT.

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, 5th May, 1911, for the conveyance of His Majesty's Mails on two proposed contracts for four years, six times per week, each, between: 1, Peterboro and Fowler's Corners; 2, Peterboro and the Township of North Monaghan; both over certain specified roads, dating from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tender may be obtained at the post offices of Peterboro & Fowler's Corners and at the Office of the Post Office Inspector at Kingston.

G. C. ANDERSON,
Superintendent.

Post Office Department, Mail Service Branch, Ottawa, 17th March, 1911.

ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let those savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

ALBERTA GAME LAWS

New Provisions Governing the Slaughter of Chickens

The Alberta Government have made important amendments to the Game Act. Perhaps the most important of all are the provisions for the protection of prairie chickens, the slaughter of which has been so common in the past. In future hunters will be limited to ten chickens per man per day. The opening of the duck season will be changed from August twenty-third to September first.

In future a residential bird license of $1.25 will be necessary before game birds can be shot. Provision is made for the protection of Hungarian partridge.

Game wardens in the future are to possess the power to make arrests. Fines of not less than $50 or more than $100 are provided for offenders under the Act.

Non-residents, the guests of settlers, must pay $5 for the privilege of hunting as under the old Act. A provision is also made that residents, accompanying non-residents without licenses, are equally offenders under the law.

BABY HEIR TO MILLIONS

Some idea of the wealth to which the baby son recently born to Earl Fitzwilliam is heir may be gathered from the fact that the late peer's estate was valued at considerably over $10,000,000. Earl Fitzwilliam has large estates in England and Ireland which are said to produce him nearly $700,000 annually. A practical mining peer, the Earl has played many parts in his time, having himself as a boy worked in a coal mine, mining engineer, big-game hunter, soldier, yeoman, and magistrate.

THE FLAVOR

and purity of our beer wins many friends. No expense is spared in the brewing and bottling.

Calcutts' Lager Beer Ale and Porter

costs you no more than you have often paid for inferior kinds. If you would get the best results drink Calcutt's.

20,000 Bushels Barley wanted. Highest price paid at Grower for well cleaned Barley.

CALCUTT BREWING AND MALTING CO
Limited

Prize fight promoters in Los Angeles are going into the courts to try to prove that an affair in which the contestants knock each other senseless and get money for it is not a prize fight, but a mere boxing exhibition. It is always hard to get promoters of prize fighting to have a good opinion of the law.

A GREAT VIOLINIST

A Few Stories That are Told of Jan Kubelik

Many amusing and interesting stories are told of Kubelik, the great violinist. Here are a few of them:

One of Kubelik's most treasured possessions was a violin made by Guarnerius, for which he paid £2,000. Some time ago young Franz von Vecsey, the prodigy, visited Kubelik, and was permitted to play upon the costly instrument. When the boy had finished, Kubelik deprived him of his breath by presenting him with the violin. Kubelik uses a "Strad," the gift of Mrs. Walter Palmer, and a Tourte bow which belonged to the famous violinist, Ernst, and was given to him by that artiste's widow.

At a very small London party a lady gave a start on opening her programme. "Oh, Kubelik," she exclaimed. "How delightful! I have heard so much of Kubelik. But what is it? Is it a new game? A kind of ping-pong, I suppose?"

At a reception at the Waldorf Astoria, New York, Kubelik retired to a corner after playing, rather ill at ease and silent. A young girl, approaching him, said, "Pardon me, sir, but your handkerchief is hanging out of your pocket." "Thank you," said Kubelik —"thank you for this warning. You know the company better than I do!"

In the cause of charity, Kubelik is ever ready with his art. Once he was asked to play in a lunatic asylum because the resident medico thought, with Congreve, that music had charms to "soften rocks." The violinist mounted the improvised platform and played a lively Slav dance. The patients seated about the concert-room seemed deeply interested, and beat time with feet and heads. When Kubelik finished, a pretty young woman rose and beckoned to him. The musician imagined that she wanted an encore, and asked the doctor to inquire what she would like. Before the doctor could approach her she cried at the top of her voice: "Well, to think of the likes of me being here, while the likes of him should be at large in the world!" This was Kubelik's first and last experience of a lunatic asylum.

Kubelik's English has not always been so good as it is now; indeed, he speaks it brokenly still. When he was a guest of Canon Fleming at York, and was being shown round the Canon's house, he shook his luxuriant head of hair in front of the Canon's parrot. The bird naturally expressed considerable surprise. "Ha," exclaimed the violinist, "he tink I am an ourang-goutang!"

DESCRIBED HIS PARENT

A Twelve-Year-Old Boy's Essay on "My Father"

The twelve-year-old son of a well-known Liverpool doctor was asked the other day to write an essay on "My Father." This is what he produced, and the doctor himself confesses that the portrait is not a bad one:—

"My father is a very moody person. Sometimes when he comes home on Saturday he will give me sixpence instead of three pence. When he is in a bad mood, I ask him for my three-pence, and he says 'Humph,' and after a good deal of grumbling he gives it to me. The way to make him in a bad mood is to ask him the time when he is reading his paper. On Sunday morning he generally develops; he is rather good at enlargements and has been working wildly at them. Whenever he drops a plate and smashes it, he is a little farther off Heaven and nearer to the other place—I do not think I need mention it. On Saturday he generally goes to a football match all by himself. At one time he took up German, but that has altogether died out. In the morning from about eight or nine he is very bobbish and sings and dances all over the place. His favorite song is 'The Songs of Araby.' Whether he sings all this because of the night before I do not know, but I do not think so. He is very fond of smoking, and once made himself ill. He likes playing the piano, but when you want him to play nothing will induce him, simply because he is not in a mood. Altogether he is not a bad sort."

A GREAT FIGHTER

An Incident in the Career of General Hills-Johnes

General Sir James Hills-Johnes had only been in the Bengal Artillery four years when he won the coveted V.C. in the Indian Mutiny, in 1857, at the age of twenty-four. He was in charge of a cavalry picket outside Delhi when a large body of Sowars suddenly dashed from the side. To save his guns, Lieutenant Hills actually charged the enemy alone, thinking that the diversion he would cause would give his gunners time to load. For the next few minutes he had a very lively time indeed, for he was plunged into a series of hand-to-hand fights such as we read of in stories of the old crusading days. Two men at the young officer put out of action one after the other, but no sooner was he rid of these opponents than he was charged by two more, and he and his horse were sent flying. However, he went on fighting till his sword was twisted out of his hand and then he fought with his fists, being eventually rescued from certain death by the late Sir Henry Tombs, who also gained his V.C. on that memorable day.

A HINT FOR SMOKERS

Place a small metal button at the bottom of the bowl of your pipe. It will not only effect a saving of tobacco, but ensure cleanliness, and prevent the pipe becoming clogged. It is a most useful and convenient plug.

NINETY "NOT OUT"

"If I had my life to live over again I would, without hesitation, be a Free Church minister. There never was such golden opportunity for the man with a Christian message as to-day." Thus Dr. Guinness Rogers, the veteran preacher, orator, and politician, who recently entered upon his ninety-first year. Dr. Rogers has a ministerial record of sixty-five years and is the oldest surviving ex-Chairman of the Congregational Union. And, in spite of his great age, his voice is still as clear as a bell, and his energy amazing. Needless to say, he has some interesting recollections, and can look back to the time when there was hardly a daily paper in the provinces. In the house of his father, a minister, they had to be satisfied with a weekly journal which cost five-pence a copy. To-day, as he once remarked, porters pick out of an empty train more newspapers than were taken in a whole town seventy years ago.

State of Ohio, City of Toledo, Lucas County. ss.

Frank J. Cheney makes oath that he is a senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn before me and subscribed in my presence, this 6th day of December, A.D., 1886.

A. W. GLEASON,
(Seal) Notary Public

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

DANGEROUS BODYGUARDS

Few Sovereigns Careless in Avoiding Danger Died in their Beds

It is not always the case that a trusted royal bodyguard proves worthy of confidence, and history gives several instances like that of the Praetorian guard under the later Roman Emperors, who became virtual rulers of the Empire, and deposed and replaced at will the nominal wearers of the imperial purple. So, too, the Mamelukes of Egypt who used to choose a ruler from among their own number and were afterwards so dangerous to the new Turkish Government that Mehemet Ali arranged a treacherous massacre of the whole regiment.

It is one of the ironies of history that those kings who have been the most careful to avoid possible danger have very seldom died in their beds. The experience of ages goes to show that a king who is the special object of relentless, unwearying enmity and hatred cannot often escape his doom; although at times the trust engendered by a clean conscience and a sense of popularity has left a blameless monarch open to a wanton or insane criminal, where a less beloved prince might be on his guard or not unprotected.

A DANGEROUS WEAPON

An Acton woman got a summons against her husband for assaulting her with the Christmas holly.

THE KING'S TREASURES

Guarded Beyond the Hopes of the Most Daring Burglar

Special precautions were taken to safeguard the Royal treasures during their removal from Marlborough House to Buckingham Palace. Four detectives were especially detailed to guard them. These personal treasures consist of gold and silver works of art and some exquisite Dresden china, a number of valuable pictures, and a large quantity of very rare antique furniture. In addition to these valuables, there is, of course his Majesty's collection of stamps and a big library containing a number of extremely rare editions.

There is only one attempt on record in the past hundred years to burgle Buckingham Palace, which is most carefully watched night and day by the police detectives both inside and out. The private entrance used by members of the Royal Family was one evening left ajar by the Prince Consort, and almost immediately afterwards it was entered by a man who was permitted by the servant at the entrance to pass. Subsequently, the man was stopped when attempting to enter one of the private apartments and was given in charge of the police—a plan of the Palace was found on him.

It may be remembered that some years ago, when some of Queen Alexandra's collection of miniatures were sent to be reframed, four of them were stolen. They were, however, recovered very shortly afterwards. As a rule, the Royal treasures are so carefully watched and guarded that the most daring and ambitious burglar never hopes to capture them.

RUSSIAN HOLIDAYS

There are no fewer than eighty-six general holidays in a year in Russia.

SMALLEST TREE

The smallest tree that grows in Great Britain may be seen on the very top of Ben Lomond. It is the dwarf willow, which at maturity reaches a height of only two inches.

A STRANGE RECOVERY

How a Gentleman Came into Possession of an Ancient Clock

A gentleman who occupies a responsible position under the Birmingham City Council is responsible for the following story: "Some time ago business took him to Sunderland where circumstances brought him into a side street. Here his attention was attracted by a small clock of unusual design exhibited for sale in a second-hand shop. An irresistible impulse prompted him to stop and examine the clock, vainly trying to recall where he had seen it before. As he did so, the vigilant tradesman came forward. The clock was produced, and upon opening the door the strange interest the clock possessed for the Birmingham visitor was explained. Inside was a brass plate, which the prospective purchaser instantly recognized as bearing the name of his grandmother. As a boy-visitor to his grandmother's house some forty-eight years ago, the clock had always exercised a peculiar fascination for him, and upon the death of the old lady he understood that it had been claimed by some relatives of her husband. How it found a place in the Sunderland second-hand shop is a mystery, for the old lady had died in her quiet native Devonshire village. The clock now adorns my informant's Edgbaston residence."

ALCOHOL FROM SAWDUST

A Story About Mark Twain and the Table-leg

There is a story of Mark Twain to the effect that he was once asked whether he was in favor of Prohibition, and he replied that he was not, adding, "What is the use of Prohibition when a man can saw off the leg of a table and get drunk on it?" He was, of course referring to the fact that alcohol has been made from sawdust.

For quite a century past chemists have been experimenting with a view to seeing whether alcohol could be obtained from wood and other cellular substances in commercial quantities. Despite the many experimenters who have engaged in the task with a zeal worthier, perhaps, of a better cause, their efforts have been hitherto unsuccessful. All they have been able to do has been to transform the wood into sugar by hydrolysis, and to convert the sugar thus obtained into alcohol by fermentation; but these processes are too costly to render them practicable from a commercial point of view.

RAISING SUNKEN SHIPS

Filled with Air Which Drives Out the Water

The French submarine boat Narval, which was wrecked and sunk some time ago, has been raised, and has served for some interesting experiments which prove the unreliability of the often recommended method of raising sunken ships by filling them with air. The Narval was sunk by admitting water, and was then filled with air under pressure by the torpedo pumps of two other submarines. Before sufficient water could be expelled the cover of the manhole, which was connected with a view of resisting external pressure alone, was forced open, and the water rushed in. The cover was then made fast by divers, and air was again pumped into the hull. Suddenly the stern of the boat appeared above the surface of the water, while the bow still touched the bottom, so that the boat assumed an almost vertical position. Finally the bow was also raised from the bottom by pumping in still more air. In contrast with this the process actually used in the practical raising of the vessel was far simpler and easier. A scow was anchored over the sunken boat, to which it was attached by chains at low tide. The rising tide lifted the scow and the submarine, and at high tide they could be towed to port. It was shown that it was possible to raise the submarine without making use of the tide by sinking the scow to a certain depth by means of water ballast, making it fast to the submarine, and then pumping out the water.

MANUEL'S CHARACTER

The Ex-King Said to be Cast in a Lofty Mould

King Manuel has not been given much chance of showing the mettle of which he is made. But those who profess to know, describe him as a youth of high character and affectionate disposition, anxious to do his duty as a constitutional sovereign. "Verasity," says a writer in the Star—"I would almost call truthfulness personified—is a good description of the king. He is too courageous to prevaricate even. He is a sincere friend of his friends; most liberal in religious matters; no bigot, and respects all who live up to their religion. In this he is exactly like his mother, the Queen. His tastes are decidedly artistic; literature, music and painting he revels in. In personal habits he is most simple, scrupulously methodical and punctual, an early riser, a keen observer and reader of character. He has an unfailing memory, and recalls faces and names marvellously. I believe him to be pure-minded, moral, straightforward, amiable and affable. He is lovable and amiable, and no one I know comes nearer to my definition of 'a perfect gentleman.'"

A SPORTING CHANCE

The sun was just rising above the eastern horizon when Thomson inserted his latchkey in the front door. Slowly and carefully he picked his way upstairs, but his efforts at quietness were of the loudest possible description, and the inevitable occurred. Mrs. Thomson thrust her head over the bannisters. "Well," she said, with deep thrown, "are you just coming home from the club, or going out to breakfast?"

"I'm not sure, love," replied the erring one, "but—hic—I'll send you for it."

ENGLAND'S EXPERIMENT WITH GOVERNMENT TELEGRAPH.

We printed a few days ago an article in the London Spectator which tells an interesting story of England's experience with the government telegraph. That this article is written with a strong bias against public ownership of public utilities is clear; but we have no desire to discuss the question of ownership on either side or the other. We think, however, to call attention to the material facts and to suggest that the people that are made deserve consideration wherever problems of governmental efficiency are being studied.

It appears that when a plan for the purchase of the telegraph by the postoffice was brought up an enthusiastic postoffice official, Mr. Scudamore, deceived himself and others with estimates that were mere imaginings. The purchase price jumped from £2,000,000 to £7,000000 by the time the government bought, and then £4,000,000 was added owing to a little overspight. It was discovered after the deal had gone through that the telegraph companies did not have a fourth interest in their wires along the railroads, as was supposed, but that their interest was in leases only, and so it was necessary to settle the claims of the railroads.

Now as to the business. Dreams of a net revenue of 8.6 per cent on the capital were dissipated. No interest at all was paid on the capital out of profits after the second year. The system is kept going by government grants, and is a charge against the taxpayer. The cost of working the lines has increased, gross revenues are below gross expenditures, rate reductions have been an unprofitable venture. At this date there is a commercial loss of £35,000,000; each year there is an additional loss of £1,000,000; the working cost per thousand telegrams is more than it was thirty years ago. It is proposed, therefore, by critics of the system that instead of perpetuating it and acquiring the business of the National Telephone Company as well the government should create a new authority to take over both utilities.

We shall say nothing of the new scheme, but it is obvious that if the facts are honestly presented they constitute a very severe arraignment of government management.

PROPER REST AND RECREATION.

What causes the increased number of mental diseases which asylum statistics record to-day? Is it due to "burning the candle at both ends" or the wearing conditions of present day business life, or a combination of both? These are questions often asked, but not as easily answered.

Dr. Hobbs, of Guelph, discussed this question before the Supreme Circle of the Canadian Home Circles in Toronto, and his views are most interesting, coming as they do from a man so versed in the subject. His conclusion appears to be that in order to avert these mental collapses people must take proper rest and allow recreation to alternate with work at high pressure.

He declared that derangements of the nervous system are gradually becoming a menace to the health of the nation. There has been for some years a general recognition by Canadians of the ravages of consumption, or the "white plague," and isolation in special hospitals is doing much towards lessening the spread of this deadly scourge. Already in the Eastern States the great neuralogists or nerve specialists are advocating public sanitaria for the proper care and isolation of nervous wrecks, who have been compelled by the exigencies of life to burn the candle at both ends, resulting in serious exhaustion of the nerve centres, and subsequent fatal collapse. Sooner or later it will be forced home to us, says Dr. Hobbs in referring to the remedy, individually and collectively, that proper rest and recreation must alternate with working at high pressure, which has become a habit of the toiler of to-day.

CATS RIDE IN AIRSHIPS?

Humane Society Objects to Scheme of Manager of Washington Show.

Washington, March 24—The following advertisement appeared in an afternoon paper to-day:

WANTED—500 cats of presentable appearance; must be at least 3 months' old. Apply at Exposition Building, N. Capitol and M. Sts.

Officers of the Humane Society investigated and discovered that the manager of a show has a number of miniature aeroplanes which he wishes to fly through the auditorium with cats as passengers. The officers protested to the police and the matter will be thrashed out in the police court.

In the mean time small boys are scouring about through the city corralling all the cats they can find.

When given as soon as the croupy cough appears Chamberlain's Cough Remedy will ward off an attack of croup and prevent all danger and cause of anxiety. Thousands of mothers use it successfully. Sold by all dealers.

ONLY A PIN

A Glance at the Trade of Pin-Making—Complex Machinery Used

A very long bridge of years, indeed, spans the time since a lady's "pin money" was really used for the object its name suggests. And there is an equally wide difference between the pins used by "my lady" of these days and the almost invaluable little article we should find it so hard to do without to-day.

At one period in our history the importation of pins into this country was forbidden by law, although an august personage as Queen Catherine received here from France, where, at that time most of the pins were made. They were expensive articles, and "pin money" was a consideration, and one with which no lady of any pretentions to fashion could afford to dispense.

Another law with regard to pins was passed in 1543, and it enacted that the sale of pins should be prohibited unless "double-headed," or with "heads fast soldered to the shank." As, unless it be provided with a firm head, a pin is practically useless to us. This law will be read with considerable amusement by ladies of to-day.

When, in 1626, the pin-making trade was introduced into Great Britain by one Tilsby, the manufacture of the article was for some time confined to Stroud, but it quickly spread to London, Bristol, and Birmingham; and it is at the great metropolis of the Midlands that most of our pins come from nowadays, although some are still made in Warrington and Dublin.

Most complex is the machinery used now in pin-making. It is a wonderful thing where all the pins go to, and how scarce they are when they are wanted. And the wonder becomes all the greater when we remember that a large factory will turn out many millions of pins in a day and that there are many factories keeping up this output.

In older pattern machines there used to be eighteen processes, but these have superseded, and now the wonderful mechanisms not only make the pins complete, but stick them in the familiar pale blue papers that everyone knows so well.

Black pins and ladies' hairpins are given their hue by being placed in a revolving chamber, so that they are kept on the move all the while the enamelling process is going on. By this means the enamel settles quite evenly, and a smooth black lustre on the pins is the result.

"It's only a pin," is a remark sometimes heard. Yes, it's only a pin, but it represents, nevertheless, the outcome of one of the greatest triumphs man's inventive genius has ever won, and an article, humble though it be, that few would care to be without.

A DANGEROUS HANDFUL

Alligator Hunting Not a Suitable Occupation for Timid

That one-half of the world does not know how the other half lives is a good deal truer than some people imagine. There are dozens of strange ways of earning a living which these following the more common-place occupations never dream of. Among these surely alligator catching is one on the strangest.

The commercial value of these strange reptiles is, of course, their skins, and for this reason quite a small army of men hunt them regularly in the tropical regions among the rivers and swamps of the Nile and Ganges. They live to a great age—some are known to be 500 years old, and by the tremendous strength which they can exert when occasion calls for it, one would imagine that the older they live the stronger they grow.

Besides an unusual amount of pluck and resource in handling the alligator, one needs to have a keen eye and a sharp hand. For holding shut the jaws of an alligator one and a half times your own length is life with the joy left in; trying to hold these same jaws open is experience gained too late to be of use. And the alligator in its native land is not as it appears to be at the Zoo, a sleepy and slow-moving creature, but very quick and lively in all its movements.

NOT A HENRY VIII.

A Good Story in Which Bonar Law Figured

As his name indicates, Mr. Andrew Bonar Law, M.P., who has completed his fifty-second year, is a Scot. However, he can also claim to be a Canadian, for he first saw the light in the Dominion, his father being the Rev. James Law, M.A., of New Brunswick. Mr. Bonar Law first entered Parliament in 1900. At a demonstration in Glasgow he referred to Mr. Balfour's attitude on the fiscal question. He pointed out that "the English people love a compromise," and instanced the course taken by Henry VIII. at the time of the Reformation, whereupon the following question was handed up to be answered: "Is the candidate aware that Mr. Balfour is a bachelor, and that Henry VIII. was much the reverse?" "Yes," replied the candidate, "but possibly Mr. Balfour might not be a bachelor if he could be sure of getting rid of his wives as easily as Henry VIII."

HOW A LICK SAVED A LICKING

Daniel Webster was frequently punished when a boy for appearing at school with dirty hands. On one occasion it occurred to him as he was nearing the school that his hands were hardly likely to pass muster, and having no other means of cleaning them, proceeded to lick one of them as clean as he could. On reaching school he was interrogated as to the condition of his hands, both of which were carefully concealed behind him, whereupon he produced the cleaner of the two for the inspection of the master.

"Daniel," said the master sternly, "if you can find a dirtier hand than that in all the school, I'll let you off."

The answer was immediate.

"Here it is, sir," said Daniel, and with the exclamation he produced the dirtier hand from behind his back.

"GIVE YOUR SON A DEED"

If, by way of illustration, you will review the history of the men in your town who have made money out of real estate, you will find that in each and every instance their profits were made from real estate acquired at ground floor prices.

More money can be made by those who acquire a realty interest in a town at its inception per dollar invested than from investments made after a period of years.

Do you know that you can purchase with $5 cash a full sized residential lot in Bow City, Alberta

the logical location for a great city, a city which is destined to be known, the world over, as a market place annually for hundreds of thousands of bushels of grain, grown on the vast irrigated fields surrounding Bow City, a shipping point for coal from the great Bow Centre Collieries, and a purchasing depot for hundreds of prosperous farmers resident throughout Southern Alberta.

To-day is your opportunity to acquire an interest in Bow City at the ground floor price.

It will be too late six months hence, to apply for a lot in Bow City at the present prices and on such easy terms as are offered you in this advertisement.

Why not follow Russell Sage's advice given in a letter published some years ago to the fathers in the Western States:—

"Buy your son a lot in a town being the "centre of a great agricultural country—when "he comes of age that lot will be worth considerable money and will provide a handsome "stake for him in life; it is at least most substantial life insurance—sure and certain."

Buy your son a $50 lot in Bow City, the coming metropolis of the western prairies. In a very short time he can re-sell the same at a big increase, which money he will find advantageous in business pursuits or in a college course.

Bow City, the centre of the great granary of Southern Albert has a future concerning which no sane business man or banker has any doubt.

When you are assured of the success of the city, when you have proven to you beyond the shadow of a doubt that Bow City will, in the very near future, be one of the most active, one of the most progressive towns on the Western prairies, you should not hesitate to acquire at least one $50 residential lot, when same is on sale on such easy terms as 10 per cent cash and the balance 10 per cent per month until paid—a deed at any time.

Bow City is in the heart of a famous irrigated farming belt whose farmers are assured of a crop every year. They are prosperous and their prosperity will naturally enhance the value of Bow City real estate.

The great coal mines of Bow City will furnish work for 1,000 to 1,500 miners daily, these miners will constitute a substantial basis for a successful city.

The present owners of Bow City have decided that no licenses shall be issued for the sale of spirituous liquors; they intend that this great mining and agricultural centre shall be free from any traffic in intoxicating drinks—it will be a clean city.

Bow City is the headquarters of a railway which taps a territory unparalleled for richness in crops and natural resources.

The Sale of Bow City lots opened but a few days ago

If you are desirous of acquiring a $50 residential lot close in you should lose no time in making application by wire direct to the General Agents of the townsite, or to the nearest sub-agent.

Do not delay by sending your apulication by mail.

Wire at once your reservation for one or more lots On receipt of wire your name will be placed on the closest-in unsold lot or lots and same will be held in your name, allowing you sufficient time for your cash payment, mailed same day you wire, to travel from your home to the head office.

You may find it to your advantage, if you are desirous of securing a business opening, or a business lot, to write for copy of the plans, booklets and descriptive matter concerning Bow City, all of which may be had on application, free of charge.

L. T. FISHER, Box 391, Lynchburg, Va.

BY-LAW NUMBER

A By-Law to aid the Independent Tire Company of Toronto Limited.

Passed the day of 1911

WHEREAS the Independent Tire Company of Toronto (Limited) has been incorporated under the provisions of the Ontario Companies Act with the authorized capital of $40,000 which will be increased to $350,000, and has proposed to the Council of the City of Peterborough to establish the factory of the said Company in and to carry on its business as manufacturers of rubber tires for automobiles and other similar goods at the said City, and for that purpose to purchase land for a site for and erect thereon a building of the material and size and to install therein machinery of the value hereinafter set out, and to employ in said factory within the times hereinafter mentioned, the number of operatives hereinafter provided for, provided the City will agree to assist the said Company by advancing to it by way of loan the cost of said land and building not exceeding in all the sum of $40,000 the same to be advanced and repaid as hereinafter mentioned and will grant the said proposed Company exemption from Municipal Taxes on the said land, building and the machinery and plant therein, and on the business assessment of the Company for the term of ten years on the conditions hereinafter set out.

AND WHEREAS there is at present in the said city no other manufacturing establishment carrying on the same business as the one intended to be carried on by the said Company, and it is desirable and in the public interest in order to secure the location of the said factory in the city of Peterborough, to accept the said proposal upon the terms and conditions hereinafter set out.

AND WHEREAS it has been arranged between the said Company and the Council that the said Company shall in the meantime purchase pay for and obtain a conveyance to the Company of the land required for the site of said factory and after the purchase thereof, proceed to erect the necessary building thereon for its purposes, of the material and of at least the size hereinafter mentioned, and to instal therein machinery and plant to the value of at least $75,000 to be free of all liens, and to be included in the mortgage hereinafter provided for, and when said land is purchased and conveyed as aforesaid and said building is erected and ready for occupation, that the Corporation will advance to the Company one-half the cost of the land and buildings up to the sum of $20,000, and when said machinery and plant have been installed therein at the cost aforesaid and the said factory has been in operation and employing therein at least forty operatives for thirty days, and the Company shall have stock subscribed and paid for in cash to the amount of $150,000, that the Corporation will advance to the Company one quarter of the cost of said land and buildings up to the sum of $10,000; and when the said factory has been in operation for a further period of sixty days and employing therein at least sixty operatives will advance to the Company the other one quarter of the cost of said land and building up to the sum of $10,000; provided the terms and conditions hereinafter mentioned entitling the Company to the same have been fully complied with and the security hereinafter mentioned has been given.

AND WHEREAS in order to enable the Corporation to make the said loan it will be necessary to issue the debentures of the Corporation for a sum not exceeding the sum of $40,000 or such less sum as may be required for the purpose aforesaid, which is the amount of the debt intended to be created by this By-law, but as the said sum is to be payable in instalments as aforesaid and it is undesirable to have any part thereof in hand and unused, it will be to the advantage of the Municipality to issue the said debentures in instalments, the said debentures shall be issued in instalments not exceeding in all $40,000, when the same is required for the purposes of this By-law, but so that the first instalment shall be issued within two years and the others within five years from the passing of this By-law.

AND WHEREAS the amount of the whole rateable property of the Municipality according to the last revised assessment roll is the sum of $8,873,145 and the amount of the existing debt of the Municipality, exclusive of local improvement debts payable by local special rates, but including the debt of $452,000.00 incurred for the purchase and improvement of the waterworks, is the sum of $1,144,158.17 and there is no part of the principal or interest in arrear.

AND WHEREAS there will require to be raised annually during the currency of the debentures to be issued hereunder to pay the interest on the said debt a sum not exceeding the sum of $1,800 less such part of the said sum as may be received from the said Company by way of interest on the said loan and the interest that may be received on the investment of the instalments of the said loan as the same are repaid and the instalments of principal to be received from the said Company in the repayment of the said loan, being sufficient for the purpose of repaying the same at the maturity thereof, it is not necessary that a sinking fund should be created for that purpose, but all payments received from the said Company in repayment of the said loan and for interest on same shall be paid to the Peterborough City Trust to be held and invested and applied as to said principal in payment of the said debt at the maturity thereof and as to the interest on the said loan and on the investments of the portion of the principal repaid in payment or reduction of the said indebtedness, but in the event of a sinking fund for the purpose of paying the said debentures shall be raised in any year during the currency of the said debentures, that the same may be required, a sum sufficient with the estimated interest on the investment thereof at the rate of four per cent. per annum to pay the said debt or the balance thereof when the same becomes due.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF, ENACTS AS FOLLOWS:—

1. This By-law shall take effect on the final passing thereof, but shall not have any force or effect unless and until the said Company shall have delivered to the Corporation a duly executed agreement to carry out on its part the provisions of this By-law to be performed, observed and kept by the Company, and also an undertaking agreeing not to oppose the construction of any sewers or sidewalks as local improvements that the Council may desire to construct under the provisions of the Municipal Act relating to local improvements.

2. It shall be lawful for the Corporation of the City of Peterborough to borrow the sum of $40,000 or such less sum as may be required for the purposes aforesaid, and to issue the debentures of the Corporation therefor in instalments as the same are required, such debentures to be sealed with the Corporate Seal of the City of Peterborough, and to be signed by the Mayor and Treasurer, and countersigned by the Secretary of the Peterborough City Trust, to be payable within twenty years from the date of the issue thereof respectively, and to bear interest at the rate of four and one-half per centum per annum, payable half-yearly on the thirtieth day of June and thirty-first day of December in each year, and to have coupons attached thereto for the payment of such interest—such debentures as to principal and interest to be payable at the office of the Secretary of the Peterborough City Trust at the City of Peterborough, or at such other place as the said Council may by resolution appoint.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate sufficient therefor upon all the rateable property of the City of Peterborough the sum of $1,800 for payment of the interest on said debentures or such less sum as may be necessary to pay the interest on debentures issued under this By-law at the said rate of four and one-half per centum per annum, less however the interest that may be received from the said Company and on the investment of any instalments repaid by the said Company on said loan, and no sums except as hereinafter provided shall be raised as a sinking fund to pay the said debentures at the maturity thereof, but the amount received in repayment of the said loan shall be paid to the Peterborough City Trust and by said Trust invested, held and applied for the payment of the said debentures at the maturity thereof, provided, however, that if by reason of the non-payment of the said loan or any instalment thereof, a sinking fund is necessary for the purpose of providing for the payment of the said debentures, or any of them, when the same become payable, there shall be raised and levied each year that the same is required for said purpose a sum sufficient with the estimated interest on the investment thereof at the rate of four per centum per annum to pay the said debentures at the maturity thereof.

4. There shall be paid to the said Company if and when it shall become entitled thereto under the terms hereof, so much of the said sum authorized to be borrowed under the provisions hereof as the Company shall be entitled to by complying with the terms and conditions hereinafter set out and furnishing proof satisfactory to the Council of the same and upon and only upon the said terms and conditions, namely:—

(1) That the said Company shall on or before the 15th day of April, 1911, apply to increase its authorized capital to at least $350,000 and will issue and dispose of as soon as may be possible and in any event not later than the first day of July, 1912, at least sufficient of the preferred stock of the Company to realize in cash at least the sum of $150,000, which together with the loan to be advanced under this By-law shall be used for the purchase of the land for the site for and the erection and equipment of the said building and the whole balance not required for these purposes shall be retained and used as working capital.

(2) That the said Company shall on or before the first day of July, 1911, have acquired and shall hold by a good title in fee simple free of incumbrances a site for its factory in the City of Peterborough of sufficient size for its purposes.

(3) That the Company shall on or before the 1st day of July, 1912, have erected on said land a three-storey building of brick, concrete or steel, with basement, suitable for its business at least 200 feet by 50 feet in size, or its equivalent and of a capacity sufficient to employ at least one hundred operatives, and shall on or before the first day of July, 1912, have the same equipped with machinery and plant suitable for the said business at a cost for said machinery and plant of at least $75,000 which said machinery and plant shall be free of all liens, charges and incumbrances, except the chattel mortgage to the City Trust hereinafter mentioned and shall on or before the 1st day of July, 1912, have the same in operation and employing therein the number of operatives above mentioned, the cost of said building and machinery and plant as represented by the Company, if not agreed to by the Council to be ascertained and fixed by a valuator agreed on by the Company and Council, or if they cannot agree on the appointment of a valuator within two weeks after the Company has furnished its evidence of such value to the Council, then by arbitrators appointed under the provisions of the Arbitration Act.

(4) That the Company shall have entered into a covenant with the Peterborough City Trust satisfactory to the City Solicitor to observe, perform and keep all the terms, conditions stipulations and agreements in this By-law set out to be observed, performed and kept on its part including the following:

(a) That the Company will pay to the Peterborough City Trust interest at the rate of four and one-half per cent. per annum on the amount of the said loan or the portion thereof from time to time remaining unpaid until the whole of said loan is repaid, said interest to be computed from the dates the respective instalments of the loan are advanced to the Company and to be paid half-yearly on the 30th day of June and the 31st day of December in each year commencing with the first half day after the first half of the loan is advanced and will repay to the said City Trust the principal of said loan in annual instalments of $2,000 each, the first of such instalments to be made on the 31st day of December, 1912, and yearly thereafter, with the right to said Company to increase the amount of said annual payments or to repay the whole of the said loan or any balance thereof that may remain due, at any time in the meantime, with the right to the Council of the said Corporation in its discretion to demand repayment of the said sum or the balance thereof then remaining unpaid, if at any time (except in the case of strikes or damage by fire as hereinafter provided) the said Company shall have in its employment at its said manufacturing establishment in the City of Peterborough (after the first year of its operation) an average of less than one hundred operatives, or during the first year the number of operatives above mentioned within the time provided such repayment to be made within three months after the said Council shall have passed a resolution making such demand and mailed a copy thereof addressed to the said Company at the City of Peterborough. Provided that the provision as to the employment of operatives shall be taken to be complied with if such operatives are employed on an average of ten months in each year.

PROVIDED HOWEVER, that if the failure to employ the said number of operatives as above mentioned in the said manufacturing establishment is due to a general strike of the employees or of a sufficient number of them to prevent the said Company carrying on the said manufacturing business in the regular manner or to the destruction or damage of the buildings or machinery by fire or tempest, so as to prevent the said Company carrying on the said business in the regular manner, the time during which the business shall cease to be so carried on in consequence of such strikes or destruction or damage of the said buildings or machinery, not exceeding in either case one year, shall not be counted in the period to entitle the Council of the said City to demand payment of the amount of the said loan or the balance thereof then due as above mentioned.

(b) That in case default shall happen to be made of or in the payment of the said sum or any instalment thereof, as provided by sub-clause (a) hereof, or of any part thereof or of or in the payment of the interest on the same as provided in said sub-clause (a) or of any part thereof for the space of one month after the same becomes due and payable, or in case of default of or in the doing, observing, performing, fulfilling or keeping of any of the other provisions, agreements or terms herein or in said covenant mentioned, and such default shall continue for one month, then in every such case the whole of said sum or that portion thereof remaining unpaid shall forthwith become due and payable, and it shall and may be lawful for the City Trust, after giving written notice to the said Company of its intention in that behalf, either by service on the President or Secretary of the Company or by letter addressed to the Company at the City of Peterborough, not less than thirty days previously, and without any further notice or consent or concurrence of the said Company, to enter into possession of and hold the lands of the Company and the buildings thereon and the machinery and plant therein or thereon, and whether in or out of possession of the same if thereunto authorized by By-law of the Corporation of the said City, to make any lease or leases thereof, or of any part thereof and also if and when considered advisable and if thereunto authorized by By-law of the Corporation of the said City, to sell and absolutely dispose of the same or any of them or any part or parts thereof for any sum or sums and in any way the said City Council may by said By-law direct, and the said City Trust if thereunto authorized as aforesaid, shall have power and authority to assure and convey the same if and when so sold to the purchaser or purchasers thereof by proper and sufficient conveyance and conveyances.

(c) That the said Company will until the whole of the said loan is repaid keep the said lands and buildings and the said machinery and plant in good order, condition and repair according to the nature and description thereof, and in case of neglect or default in so doing the provisions mentioned in sub-clause (a) hereof shall apply by reason of such neglect or default, and the amount of the said loan or of that portion then unpaid together with the interest thereon shall become payable as in said sub-clause (a) set out.

(d) That the said Company will insure and until the said loan is fully repaid will keep insured against loss or damage by fire the said buildings and machinery and plant in the sum of at least the full amount of said loan or the balance thereof remaining unpaid in some Insurance Company or Companies approved of by the said City Trust (such approval not to be unreasonably withheld) and will pay all premiums and sums of money necessary for such purposes as the same shall become due, and will make the amount payable under the policy or policies payable to the said City Trust, as its interest may appear, and will deliver to the said City Trust the policy or policies of insurance when issued and the receipts thereto appertaining respectively not later than three days before the premiums on the said policies become due respectively, and in default thereof the said City Trust may pay any premiums or sums of money necessary for said insurance and the said Company shall forthwith repay same with interest at the rate of six per cent. per annum to the said City Trust it being understood that in the event of the said Company effecting its insurance on its buildings and machinery in the form of a blanket policy or policies and causing the loss, if any, thereunder to be made payable to the said City Trust to the extent of the unpaid amount of said loan it shall be a sufficient compliance with the said provision as to delivery of policies if the said Company shall deliver to the said City Trust a duplicate of said policy or policies or an acknowledgement by the Insurance Company or Companies of the interest therein of the said City Trust.

(e) That the said Company as security for the repayment of the said loan will execute and deliver to the said City Trust a first mortgage on the said lands and the buildings and fixtures thereon which fixtures shall as far as said mortgage is concerned, be held to be part of the realty and covered and embraced in said mortgage and will also execute and deliver to the said City Trust a chattel mortgage as a first charge on the said machinery and plant as additional security for said loan which said mortgages shall be continuing securities until the said loan is fully paid off according to the terms and conditions of this By-law.

(f) That the said Company shall at all times until the said loan is paid off have at least $75,000 worth of machinery and plant in said building, but shall be at liberty from time to time to substitute new and modern plant and machinery for the plant, machinery and fixtured in the said manufacturing establishment, provided the said new and modern plant and machinery is of equal or greater value than that for which it is substituted, and notice is given to the Secretary of the City Trust, giving the price and description of such substituted plant and machinery.

5. Provided the said Company shall have executed and delivered to the Corporation the mortgages and covenant above provided for and shall in every respect have complied with, carried out and performed the terms and conditions on its part herein mentioned, entitling it to the same, the said City Council will pay to the said Company one half of the loan herein provided for as soon as the said building of the size and capacity heretofore set out is fully erected on the said land and is ready for occupation, and will within thirty days after said building is fully equipped with machinery and plant, free of all liens, charges and incumbrances except the said chattel mortgage to the City Trust and costing not less than $75,000, and the Company has stock subscribed and paid for in cash to the amount of at least $150,000, and the said factory is in operation and employing therein at least forty operatives, pay to the said Company one quarter of the said loan; and will within sixty days thereafter, provided the above mentioned conditions are complied with and at least sixty operatives are employed in said factory, pay the said Company the remaining one quarter of said loan.

6. Provided the said Company shall carry out and continue to carry out the terms and conditions of this By-Law, and in the said covenant set out, to be observed, performed and kept by it, and shall on or before the dates above mentioned purchase the said site, erect the said building and equip the same as aforesaid and thereafter have the same in operation and employing therein the number of operatives above mentioned, the land and buildings of the Company used exclusively for manufacturing purposes and the plant machinery and the business assessment of the Company shall for a period of ten years from the first day of January, 1912, be exempt from all taxes, rates and assessments, except taxes for school purposes and local improvement assessments, rates and taxes for which they shall be and remain liable, and the oath of the assessor or assessors shall be amended accordingly, but provided said Company shall fail or neglect during said term of ten years to carry out the said terms and conditions and to operate and carry on the said business as aforesaid, and employ therein the said number of operatives, then such exemption shall cease and the rates and taxes payable in respect to the said land buildings machinery plant and business assessment shall be and become payable in the same manner as if this By-Law had not been passed.

7. The said Company shall, prior to the first day of March in each year file with the City Clerk a statutory declaration made by two officers of the Company, who shall therein state their knowledge of the facts, proving the extent to which the Company has complied with and is observing all the terms, conditions and provisions of this By-Law and those contained in the said covenant, and on neglect of the said Company to furnish such declaration, it shall be prima facie taken that such terms, conditions and provisions have not been performed, observed and kept.

8. For the purpose of taking the votes of the duly qualified electors on this By-Law the following adjoining Polling Sub-divisions shall be united namely:—1 and 3, 2 and 5, 6, 7, 8 and 9, 10 and 11, 12 and 14, 15 and 18, 16 and 17, 20 and 21.

9. The votes of the electors of the City of Peterborough qualified to vote on By-Laws for creating debts shall be taken upon this By-Law on the 25th day of April, 1911, commencing at the hour of nine o'clock in the forenoon and closing at the hour of seven o'clock in the afternoon of the same day, at the following places and before the following Deputy Returning Officers with the following Poll Clerks, that is to say:—

POLLING SUB-DIVISIONS NUMBERS 1 AND 3.

Place, M. H. Halpin's, 39 George Street. Deputy Returning Officer, Josiah Robertson; Poll Clerk, W. Mason.

POLLING SUB-DIVISIONS NUMBERS 2 AND 5.

Place, T. J. Murray's, 111 Rubidge Street. Deputy Returning Officer, J. P. Bryson; Poll Clerk, A. Graham.

POLLING SUB-DIVISION NO. 4.

Place, L. Spry's, 210 Stewart St. Deputy Returning Officer, W. Vanevery; Poll Clerk, T. O. Rush.

POLLING SUB-DIVISIONS 6, 7, 8 AND 9.

Place, City Council Chamber. Deputy Returning Officer, T. B. McGrath; Poll Clerk, A. S. Maguire.

POLLING SUB-DIVISIONS NUMBERS 10 AND 11.

Place, J. E. Lillico's, 356 Charlotte St. Deputy Returning Officer, F. Brownscombe; Poll Clerk, J. O. Moas.

POLLING SUB-DIVISION NO. 12.

Place, R. Bagley's, 363 Babb's Lane. Deputy Returning Officer, F. J. A. Hall; Poll Clerk, T. G. Robinson.

POLLING SUB-DIVISIONS NUMBERS 13 AND 14.

Place, N. Routley's, 392 Brock St. Deputy Returning Officer, A. Sawers; Poll Clerk, N. Routley.

POLLING SUB-DIVISIONS NUMBERS 15 AND 18

Place, T. H. Hooper's, 601 George Street. Deputy Returning Officer, G. H. [illegible]; Poll Clerk, [illegible] Kennedy.

POLLING SUB-DIVISIONS NUMBERS 16 AND 17

Place, J. J. Cook's, 153 Dublin Street. Deputy Returning Officer, John Sawers. Poll Clerk, J. J. Cooks.

POLLING SUB-DIVISION NO. 19.

Place, J. T. Braund's, 720 George Street. Deputy Returning Officer, T. W. Robinson. Poll Clerk, Jas. Middleton.

POLLING SUB-DIVISIONS NUMBERS 20 and 21

Place, Former Village Hall. Deputy Returning Officer, R. Hamilton; Poll Clerk, John Kerr.

POLLING SUB-DIVISION NO. 22.

Place, George Coon's, 559 Rogers St. Deputy Returning Officer, J. T. Craig; Poll Clerk, E. Dillon.

10. The 26th day of April, 1911, at the hour of twelve o'clock noon, and the City Clerk's office are hereby fixed as the time when and the place where the Clerk will sum up the number of votes given for and against the By-Law.

11. The 24th day of April, 1911, at the hour of twelve o'clock noon, and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively on behalf of the persons interested in and promoting or opposing the passing of the By-Law respectively.

Mayor.

Clerk.

ANIMAL INTELLIGENCE

Sportsmen Contribute Many Instances Showing Animal Reason

News dispatches told a story the other day of a swarm of bees that boarded an out-going steamer in England and took passage for Ireland. The bees apparently knew exactly what they wanted and took this intelligent means of accomplishing their purpose, embarking just as the vessel was about to sail and leaving in a very orderly and circumspect manner upon reaching their destination.

A noted scientist has just published interesting data on a certain little microscopic worm that builds a dainty little home in which to live, plastering its walls inside and out in a most workmanlike manner to resist all sorts of weather, and providing barred windows to keep out intruders.

If insects possess these qualities of instinct, which seem almost of a human order, it is doubtless true that animals actually do think and act in accordance with their ideas, even to the extent of careful premeditation, adjusted with nicety of calculation, to the intelligent consideration of cause and effect.

Dr. Zell, a German naturalist, has collected many instances to prove that animals learn by experience, and thus become wiser than their uninstructed parents. Game animals of all kinds, he avers, have learned the range of modern rifles. Greyhounds quickly learn to let rabbits alone, and fox-hounds pay no attention to either rabbits or hares. Killer whales and gulls follow whaling vessels just as vultures follow an army. Crows accompany the chamois hunter as soon as they have seen the result of his first successful shot, and rough-legged buzzards follow the sportsmen after winged game.

Add so through the whole list, to which every sportsman could contribute remarkable instances, convincing testimony would easily prove that human beings do not possess a monopoly in intelligence, and in some cases the predominance of intellect would rest in favor of the lower order of creation.

PENSIONS FOR HORSES

An Eccentric Austrian Bachelor Makes a Remarkable Will

The highly-original will of an eccentric bachelor, Emil von Bissoy, is reported from Vienna. The deceased, the brother of a well-known Hungarian deputy, was sixty-five years old, detested women, and lived on a war footing with all his relations.

In his will he bequeathed all his real and personal estate, worth about $100,000, to his twelve draught horses. As executors of the will he named the Society for the protection of Animals at Budapest, stipulating that the interest on his property should be devoted to the care of these twelve animals, and that upon the death of one of them another horse was to be taken in and cared for, so that the number of twelve might always be maintained.

Herr von Bissoy's relations were naturally amazed at the contents of the will, and the deputy, Herr Aluaius Bissoy, will dispute it. Negotiations have been commenced with the above-mentioned society, and $20,000 was offered it and refused.

FASCINATION OF "MACBETH"

There are not many cleverer linguists than Miss Braddon, the popular novelist. She reads French, German, Spanish, and Italian with equal facility, and the rapidity with which she works is amazing, 1,500 words an hour being her average output. In the earlier days she was a famous horsewoman; now her leisure is devoted to her dogs, her gardening, and collecting old silver, curios, and bric-a-brac. One of her hobbies is a passion for the play of "Macbeth." She will travel a long distance to see it performed, and could sit it out night after night.

FROM CLERK TO MILLIONAIRE

Just over forty years ago the son of a Cologne banker went to England to seek employment as a clerk. It was Sir Ernest Cassel, the famous financier and philanthropist, who has retired from business. Securing a situation in the office of a Liverpool grain merchant, he stayed there for three years, and at the end of that time was only earning twenty-five shillings per week. Then he went to London, entered a financial house, and, before he was thirty, had established an international reputation as a shrewd, far-sighted and successful financier. Amongst his most important achievements are the inauguration of the Central London Railway, the raising of China's big loan after her defeat by Japan, and the negotiations for financing the Nile irrigation works. He was one of the first men to see the immense possibilities of Egypt.

HUNDRED YEARS WITHOUT STRIFE

Prominent Canadians Speak of the Proposed Celebration of a Century of Peace

Several prominent Canadians were asked for their opinion regarding the approaching celebration of one hundred years of peace between Great Britain and the United States.

Mr. R. L. Borden

"What should be done to celebrate worthily the approaching Centennial of Peace?" asks Mr. R. L. Borden, M.P. "Establish a permanent and effective disarmament upon the great inland waterways of Canada and the United States. Extend the same principle of disarmament to all the borders between the two countries from the Atlantic to the Pacific. Establish upon firm foundations a permanent treaty

MR. R. L. BORDEN, M.P.

of arbitration between the Empire and the Republic. Proclaim the Centennial of Peace as a day of National Thanksgiving in both countries, and in every city, town and village let the bells ring out their tones of rejoicing and the voice of praise and thanksgiving be heard in all the churches; and in each country erect a stately national memorial consecrated to the splendid memory of one hundred years of peace and to the firm assurance of its enduring continuance."

Hon. F. L. Haszard

"On noting the important events of the day," said Hon. F. L. Haszard, Premier of Prince Edward Island, "one is struck by the announcement that very soon we will be called upon to commemorate the one hundredth anniversary of Peace between Canada and the United States. To the credit of these two great and growing countries it can be truthfully said that no better example could be set to the world at large than the fact that amidst the many vicissitudes through which they have passed, the utmost good feeling has prevailed. It is true that questions of moment have at various times existed, but resort to amicable methods has always been attended with satisfactory results. Are we not therefore justified in believing that the time has come when the nations of the earth should adopt like means and thus avert the terrible devastation of war with all its baneful results. If our advanced civilization stands for anything, first and foremost our aim should be directed towards the attainment of that much desired understanding between the nations by which all great national questions and disput es will be adjusted by a Peace tribunal. May we not therefore hope that the year 1911, with the munificent gift of ten million dollars in the cause of Peace, by the world's well-wisher, Andrew Carnegie, will see securely laid the Foundation Stone of Peace."

Hon. Walter Scott

"The more I think of the fact the more astounded I become that Christian civilization has failed to put an end to war between nations," said Hon. Walter Scott, Premier of Saskatchewan. "The present spectacle of Europe heaping taxes upon taxes and grinding the faces of scores of millions of the poor to maintain huge equipments of war is a lesson for the contemplation of the people of America. Because the proposed celebration of the century of Peace, which has subsisted with inestimable advantage to both Canada and the United States, may be a powerful means of instruction to all peoples against the stupendous folly of the "mailed fist" method of disposing of international disputes, I most heartily approve the idea of the celebration."

TRACTION-ENGINE HEARSE

Old Showman's Dying Wish Leads to Novel Funeral Scene

There was a novel funeral scene at Cardiff when the remains of Mr. John White, aged seventy-seven, a well-known amusement caterer in South Wales, were laid in the grave. On his death-bed Mr. White asked that his coffin be taken to the cemetery on the huge traction engine "General White," generally used to haul the show to the fair grounds.

Thousands of people assembled on the way to the cemetery to witness the passing of the cortege. The traction engine, beautifully decorated with wreaths, duly drew the hearse. On the front was a large floral heart, in the centre of which was a design of the Prince of Wales's feathers in white flowers. The wheels were draped with crape.

The police admitted to the cemetery only the actual mourners. This course was taken to prevent a recurrence of the damage done during a recent military funeral, when many graves were trampled on by an unwieldy crowd.

The traction-engine was halted at the cemetery gates, and the coffin carried to the graveside by mourners.

THOMAS EDISON WAS PERSEVERING

Overcoming Difficulties in His Youth, He Was Enabled to Rise to Fame

For three months Thomas Edison, the famous inventor, had attended the public school at Port Huron, Michigan, where his parents lived; and at the end of that time his teacher described him as "addle-pated boy." And Edison himself has confessed that he was always at the foot of the class, and had come almost to regard himself as a dunce, whilst his father entertained anxieties as to his stupidity.

Mrs. Edison, however, had faith in the intellect of her boy. She insisted on taking him away from the school and teaching him herself, with the result that before he had reached the age of twelve he had read, with his mother's help, such works as Gibbon's "Decline and Fall of the Roman Empire," Burton's "Anatomy of Melancholy," and the "Dictionary of Sciences."

Experiments in the Cellar

But before he reached this age, according to Frank Lewis Dyer and Thomas Comerford Martin, he had begun experiments in chemistry. And much mysterious work did he do in the cellar of the house, but he found himself handicapped by want of pocket-money. He therefore became a newsboy, overcoming the reluctance of his parents, particularly that of his mother, by pointing out that he could, by this means, earn all he wanted for his experiments and get fresh reading in the shape of papers and magazines free of charge.

The Grand Trunk Railway had been extended from Toronto to Port Huron, and he was successful in getting permission to go on the local train as a newsboy.

"After being on the train for several months," to quote Edison's own words, "I started two stores in Port Huron—one for periodicals and the other for vegetables, butter, and berries in the season. These were attended by two boys who shared in the profits. The periodical store I soon closed, as the boy in charge could not be trusted. The vegetable shop I kept up for nearly a year. After the railroad had been opened a short time they put on an express, which left Detroit in the morning and returned in the evening. I received permission to put a newsboy on this train." It was about this time that the Civil War broke out, and as the war progressed Edison found that the daily newspaper sales grew so rapidly that he could give up the vegetable store.

A New Use for Smoking-Cars

In these days no use was made of the smoking compartment, as there was no ventilation, and if was turned over to young Edison, who not only kept papers there and his stock of goods as a "candy butcher," but soon had it equipped with an extraordinary variety of apparatus. There was plenty of leisure on the two daily runs, even for an industrious boy, and thus he found time to transfer his laboratory from the cellar and reestablish it on the train. Surely the country could have presented at that moment no more striking example of the passionate pursuit of knowledge under difficulties than this newsboy, barely fourteen years of age, with his jars and test tubes installed on a railway baggage car.

But alas! one day, while conducting his experiments in the smoking-car, young Edison nearly set the train on fire, with the result that he was bundled off at the next station with his entire outfit—laboratory, newspapers, and everything else—and left on the platform tearful and indignant. It was through this incident that Edison acquired the deafness that he has suffered from all through his life, a severe box on the ear from the scorched and angry conductor of the train being the direct cause of the infirmity.

Hard times followed his ejectment from the rolling stock of the Grand Trunk Railroad, and he was down to his last cents when he succeeded, in 1869, in getting a job with a telegraph company in New York. And such good use did he make of his opportunity that he was able to remedy a big breakdown in the system when he had only been in the situation a short time, the result being that he was put in charge of the whole telegraph plant at a salary of $300 a month.

This enabled him to give more scope to his inventive faculties, and, after a little while, the manager of the telegraph company called him into his office one day and said, "Now, young man, I want to close up the matter of your inventions. How much do you think you should receive?" "I had made up my mind," said Edison, "that, taking into consideration the time and trifling pens I was working at, I should be entitled to $5,000, but could get along with $3,000. When the psychological moment arrived I hadn't the nerve to name such a large sum, so I said to the manager, 'Well, suppose you make me an offer.' Then he said, 'How would $40,000 strike you?'" Thus, in an inconceivably brief time Edison passed from poverty to independence, made a deep impression as to his originality and ability on important people, and brought out valuable inventions. He then set up in business on his own account, and soon was employing fifty men.

How he ultimately developed the telephone, the phonograph, the incandescent light, and a hundred and one other inventions, has often been told, and the extent of his achievements may be gathered from the fact that a list of Mr. Edison's patents alone occupies twenty pages of his latest biography.

BY-LAW NUMBER

A By-Law to aid the Independent Tire Company of Toronto Limited.

Passed the day of 1911

WHEREAS the Independent Tire Company of Toronto (Limited) has been incorporated under the provisions of the Ontario Companies Act with the authorized capital of $40,000 which will be increased to $350,000, and has proposed to the Council of the City of Peterborough to establish the factory of the said Company in and to carry on its business as manufacturers of rubber tires for automobiles and other similar goods at the said City, and for that purpose to purchase land for a site for and erect thereon a building of the material and size and to install therein machinery of the value hereinafter set out, and to employ in said factory within the times hereinafter mentioned, the number of operatives hereinafter provided for, provided the City will agree to assist the said Company by advancing to it by way of loan the cost of said land and building not exceeding in all the sum of $40,000 the same to be advanced and repaid as hereinafter mentioned and will grant the said proposed Company exemption from Municipal Taxes on the said land, building and the machinery and plant therein, and on the business assessment of the Company for the term of ten years on the conditions hereinafter set out.

AND WHEREAS there is at present in the said city no other manufacturing establishment carrying on the same business as the one intended to be carried on by the said Company, and it is desirable and in the public interest in order to secure the location of the said factory in the city of Peterborough, to accept the said proposal upon the terms and conditions hereinafter set out.

AND WHEREAS it has been arranged between the said Company and the Council that the said Company shall in the meantime purchase pay for and obtain a conveyance to the Company of the land required for the site of said factory and after the purchase thereof, proceed to erect the necessary building thereon for its purposes, of the material and of at least the size hereinafter mentioned, and to instal therein machinery and plant to the value of at least $75,000 to be free of all liens, and to be included in the mortgage hereinafter provided for, and when said land is purchased and conveyed as aforesaid and said building is erected and ready for occupation, that the Corporation will advance to the Company one-half the cost of the land and buildings up to the sum of $20,000, and when said machinery and plant have been installed therein at the cost aforesaid and the said factory has been in operation and employing therein at least forty operatives for thirty days, and the Company shall have stock subscribed and paid for in cash to the amount of $150,000, that the Corporation will advance to the Company one quarter of the cost of said land and buildings up to the sum of $10,000; and when the said factory has been in operation for a further period of sixty days and employing therein at least sixty operatives will advance to the Company the other one quarter of the cost of said land and building up to the sum of $10,000; provided the terms and conditions hereinafter mentioned entitling the Company to the same have been fully complied with and the security hereinafter mentioned has been given.

AND WHEREAS in order to enable the Corporation to make the said loan it will be necessary to issue the debentures of the Corporation for a sum not exceeding the sum of $40,000 or such less sum as may be required for the purpose aforesaid, which is the amount of the debt intended to be created by this By-law, but as the said sum is to be payable in instalments as aforesaid and it is undesirable to have any part thereof in hand and unused, it will be to the advantage of the Municipality to issue the said debentures in instalments, the said debentures shall be issued in instalments not exceeding in all $40,000, when the same is required for the purposes of this By-law, but so that the first instalment shall be issued within two years and the others within five years from the passing of this By-law.

AND WHEREAS the amount of the whole rateable property of the Municipality according to the last revised assessment roll is the sum of $8,873,145 and the amount of the existing debt of the Municipality, exclusive of local improvement debts payable by local special rates, but including the debt of $452,000.00 incurred for the purchase and improvement of the waterworks, is the sum of $1,144,158.17 and there is no part of the principal or interest in default.

AND WHEREAS there will require to be raised annually during the currency of the debentures to be issued hereunder to pay the interest on the said debt a sum not exceeding the sum of $1,800 less such part of the said sum as may be received from the said Company by way of interest on the said loan and the interest that may be received on the investment of the instalments of the said loan as the same are repaid and the instalments of principal to be received from the said Company in the repayment of the said loan, being sufficient for the purpose of repaying the same at the maturity thereof, it is not necessary that a sinking fund should be created for that purpose, but all payments received from the said Company in repayment of the said loan and for interest on same shall be paid to the Peterborough City Trust to be held and invested and applied as to said principal in payment of the said debt at the maturity thereof and as to the interest on the said loan and on the investments of the portion of the principal repaid in payment or reduction of the said interest, but in the event of a sinking fund for the purpose of paying the said debt, there shall be raised in any year during the currency of the said debentures, that the same may be required, a sum sufficient with the estimated interest on the investment thereof at the rate of four per cent. per annum to pay the said debt or the balance thereof when the same becomes due.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF, ENACTS AS FOLLOWS:—

1. This By-law shall take effect on the final passing thereof, but shall not have any force or effect unless and until the said Company shall have delivered to the Corporation a duly executed agreement to carry out on its part the provisions of this By-law to be performed, observed and kept by the Company, and also an undertaking agreeing not to oppose the construction of any sewers or sidewalks as local improvements that the Council may desire to construct under the provisions of the Municipal Act relating to local improvements.

2. It shall be lawful for the Corporation of the City of Peterborough to borrow the sum of $40,000 or such less sum as may be required for the purposes aforesaid, and to issue the debentures of the Corporation therefor in instalments as the same are required, such debentures to be sealed with the Corporate Seal of the City of Peterborough, and to be signed by the Mayor and Treasurer, and countersigned by the Secretary of the Peterborough City Trust, to be payable within twenty years from the date of the issue thereof respectively, and to bear interest at the rate of four and one-half per centum per annum, payable half-yearly on the thirtieth day of June and thirty-first day of December in each year, and to have coupons attached thereto for the payment of such interest—such debentures as to principal and interest to be payable at the office of the Secretary of the Peterborough City Trust at the City of Peterborough, or at such other place as the said Council may by resolution appoint.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate sufficient therefor upon all the rateable property of the City of Peterborough the sum of $1,800 for payment of the interest on said debentures or such less sum as may be necessary to pay the interest on debentures issued under this By-law at the said rate of four and one-half per centum per annum, less however the interest that may be received from the said Company and on the investment of any instalments repaid by the said Company on said loan, and no sums except as hereinafter provided shall be raised as a sinking fund to pay the said debentures at the maturity thereof, but the amount received in repayment of the said loan shall be paid to the Peterborough City Trust and by said Trust invested, held and applied for the payment of the said debentures at the maturity thereof, provided, however, that if by reason of the non-payment of the said loan or any instalment thereof, a sinking fund is necessary for the purpose of providing for the payment of the said debentures, or any of them, when the same become payable, there shall be raised and levied each year that the same is required for said purpose a sum sufficient with the estimated interest on the investment thereof at the rate of four per centum per annum to pay the said debentures at the maturity thereof.

4. There shall be paid to the said Company if and when it shall become entitled thereto under the terms hereof, so much of the said sum authorized to be borrowed under the provisions hereof as the Company shall be entitled to by complying with the terms and conditions hereinafter set out and furnishing proof satisfactory to the Council of the same and upon and only upon the said terms and conditions, namely:—

(1) That the said Company shall on or before the 15th day of April, 1911, apply to increase its authorized capital to at least $350,000 and will issue and dispose of as soon as may be possible and in any event not later than the first day of July, 1912, at least sufficient of the preferred stock of the Company to realise in cash at least the sum of $150,000, which together with the loan to be advanced under this By-law shall be used for the purchase of the land for the site for and the erection and equipment of the said building and the whole balance not required for these purposes shall be retained and used as working capital.

(2) That the said Company shall on or before the first day of July, 1911, have acquired and shall hold by a good title in fee simple free of incumbrances a site for its factory in the City of Peterborough of sufficient size for its purposes.

(3) That the Company shall on or before the 1st day of July, 1912, have erected on said land a three-storey building of brick, concrete or steel, with basement, suitable for its business at least 200 feet by 50 feet in size, or its equivalent and of a capacity sufficient to employ at least one hundred operatives, and shall on or before the first day of July, 1912, have the same equipped with machinery and plant suitable for the said business at a cost for said machinery and plant of at least $75,000 which said machinery and plant shall be free of all liens, charges and incumbrances, except the chattel mortgage to the City Trust hereinafter mentioned and shall on or before the 1st day of July, 1912, have the same in operation and employing therein the number of operatives above mentioned, the cost of said building and machinery and plant as represented by the Company, if not agreed to by the Council to be ascertained and fixed by a valuator agreed on by the Company and Council, or if they cannot agree on the appointment of a valuator within two weeks after the Company has furnished its evidence of such value to the Council, then by arbitrators appointed under the provisions of the Arbitration Act.

(4) That the Company shall have entered into a covenant with the Peterborough City Trust satisfactory to the City Solicitor to observe, perform and keep all the terms, conditions stipulations and agreements in this By-law set out to be observed, performed and kept on its part including the following:

(a) That the Company will pay to the Peterborough City Trust interest at the rate of four and one-half per cent. per annum on the amount of the said loan or the portion thereof from time to time remaining unpaid until the whole of said loan is repaid, said interest to be computed from the dates the respective instalments of the loan are advanced to the Company and to be paid half-yearly on the 30th day of June and the 31st day of December in each year commencing with the first gale day after the first half of the loan is advanced and will repay to the said City Trust the principal of said loan in annual instalments of $2,000 each, the first of such instalments to be made on the 31st day of December, 1912, and yearly thereafter, with the right to said Company to increase the amount of said annual payments or to repay the whole of the said loan or any balance thereof that may remain due, at any time in the meantime, with the right to the Council of the said Corporation in its discretion to demand repayment of the said sum or the balance thereof then remaining unpaid, if at any time (except in the case of strikes or damage by fire as hereinafter provided) the said Company shall have in its employment at its said manufacturing establishment in the City of Peterborough (after the first year of its operation) an average of less than one hundred operatives, or during the first year the number of operatives above mentioned within the time provided such repayment to be made within three months after the said Council shall have passed a resolution making such demand and mailed a copy thereof addressed to the said Company at the City of Peterborough. Provided that the provision as to the employment of operatives shall be taken to be complied with if such operatives are employed on an average of ten months in each year.

PROVIDED HOWEVER, that if the failure to employ the said number of operatives as above mentioned in the said manufacturing establishment is due to a general strike of the employes or of a sufficient number of them to prevent the said Company carrying on the said manufacturing business in the regular manner or to the destruction or damage of the buildings or machinery by fire or tempest, so as to prevent the said Company carrying on the said business in the regular manner, the time during which the business shall cease to be so carried on in consequence of such strikes or destruction or damage of the said buildings or machinery, not exceeding in either case one year, shall not be counted in the period to entitle the Council of the said City to demand payment of the amount of the said loan or the balance thereof then due as above mentioned.

(b) That in case default shall happen to be made of or in the payment of the said sum or any instalment thereof, as provided by sub-clause (a) hereof, or of any part thereof or of or in the payment of the interest on the same as provided in said sub-clause (a) or of any part thereof for the space of one month after the same becomes due and payable, or in case of default of or in the doing, observing, performing, fulfilling or keeping of any of the other provisions, agreements or terms herein or in said covenant mentioned, and such default shall continue for one month, then in every such case the whole of said sum or that portion thereof remaining unpaid shall forthwith become due and payable, and it shall and may be lawful for the City Trust, after giving written notice to the said Company of its intention in that behalf, either by service on the President or Secretary of the Company or by letter addressed to the Company at the City of Peterborough, not less than thirty days previously, and without any further notice or consent or concurrence of the said Company, to enter into possession of and hold the lands of the Company and the buildings thereon and the machinery and plant therein or thereon, and whether in or out of possession of the same if thereunto authorized by By-law of the Corporation of the said City, to make any lease or leases thereof, or of any part thereof and also if and when considered advisable and if thereunto authorized by By-law of the Corporation of the said City, to sell and absolutely dispose of the same or any of them or any part or parts thereof for any sum or sums and in any way the said City Council may by said By-law direct, and the said City Trust if thereunto authorized as aforesaid, shall have power and authority to assure and convey the same if and when so sold to the purchaser or purchasers thereof by proper and sufficient conveyance and conveyances.

(c) That the said Company will until the whole of the said loan is repaid keep the said lands and buildings and the said machinery and plant in good order, condition and repair according to the nature and description thereof, and in case of neglect or default in so doing the provisions mentioned in sub-clause (a) hereof shall apply by reason of such neglect or default, and the amount of the said loan or of that portion then unpaid together with the interest thereon shall become payable as in said sub-clause (a) set out.

(d) That the said Company will insure and until the said loan is fully repaid will keep insured against loss or damage by fire the said buildings and machinery and plant in the sum of at least the full amount of said loan or the balance thereof remaining unpaid in some Insurance Company or Companies approved of by the said City Trust (such approval not to be unreasonably withheld) and will pay all premiums and sums of money necessary for such purposes as the same shall become due, and will make the amount payable under the policy or policies payable to the said City Trust, as its interest may appear, and will deliver to the said City Trust the policy or policies of insurance when issued and the receipts thereto appertaining respectively not later than three days before the premiums on the said policies become due respectively, and in default thereof the said City Trust may pay any premiums or sums of money necessary for said insurance and the said Company shall forthwith repay same with interest at the rate of six per cent. per annum to the said City Trust it being understood that in the event of the said Company effecting its insurance on its buildings and machinery in the form of a blanket policy or policies and causing the loss, if any, thereunder to be made payable to the said City Trust to the extent of the unpaid amount of said loan it shall be a sufficient compliance with the said provision as to delivery of policies if the said Company shall deliver to the said City Trust a duplicate of said policy or policies or an acknowledgement by the Insurance Company or Companies of the interest therein of the said City Trust.

(e) That the said Company as security for the repayment of the said loan will execute and deliver to the said City Trust a first mortgage on the said lands and the buildings and fixtures thereon which fixtures shall as far as said mortgage is concerned, be held to be part of the realty and covered and embraced in said mortgage and will also execute and deliver to the said City Trust a chattel mortgage as a first charge on the said machinery and plant as additional security for said loan which said mortgages shall be continuing securities until the said loan is fully paid off according to the terms and conditions of this By-law.

(f) That the said Company shall at all times until the said loan is paid off have at least $75,000 worth of machinery and plant in said building, but shall be at liberty from time to time to substitute new and modern plant and machinery for the plant, machinery and fixtures in the said manufacturing establishment, provided the said new and modern plant and machinery is of equal or greater value than that for which it is substituted, and notice is given to the Secretary of the City Trust, giving the price and description of such substituted plant and machinery.

5. Provided the said Company shall have executed and delivered to the Corporation the mortgages and covenant above provided for and shall in every respect have complied with, carried out and performed the terms and conditions on its part herein mentioned, entitling it to the same, the said City Council will pay to the said Company one half of the loan herein provided for as soon as the said building of the size and capacity heretofore set out is fully erected on the said land and is ready for occupation, and will within thirty days after said building is fully equipped with machinery and plant, free of all liens, charges and incumbrances except the said chattel mortgage to the City Trust and costing not less than $75,000, and the Company has stock subscribed and paid for in cash to the amount of at least $150,000, and the said factory is in operation and employing therein at least forty operatives, pay to the said Company one quarter of the said loan; and will within sixty days thereafter, provided the above mentioned conditions are complied with and at least sixty operatives are employed in said factory, pay the said Company the remaining one quarter of said loan.

6. Provided the said Company shall carry out and continue to carry out the terms and conditions of this By-Law, and in the said covenant set out, to be observed, performed and kept by it, and shall on or before the dates above mentioned purchase the said site, erect the said building and equip the same as aforesaid and thereafter have the same in operation and employing therein the number of operatives above mentioned, the land and buildings of the Company used exclusively for manufacturing purposes and the plant machinery and the business assessment of the Company shall for a period of ten years from the first day of January, 1912, be exempt from all taxes, rates and assessments, except taxes for school purposes and local improvement assessments, rates and taxes for which they shall be and remain liable, and the oath of the assessor or assessors shall be amended accordingly, but provided said Company shall fail or neglect during said term of ten years to carry out the said terms and conditions and to operate and carry on the said business as aforesaid, and employ therein the said number of operatives, then such exemption shall cease and the rates and taxes payable in respect to the said land buildings machinery plant and business assessment shall be and become payable in the same manner as if this By-Law had not been passed.

7. The said Company shall, prior to the first day of March in each year file with the City Clerk a statutory declaration made by two officers of the Company, who shall therein state their knowledge of the facts, proving the extent to which the Company has complied with and is observing all the terms, conditions and provisions of this By-Law and those contained in the said covenant, and on neglect of the said Company to furnish such declaration, it shall be prima facie taken that such terms, conditions and provisions have not been performed, observed and kept.

8. For the purpose of taking the votes of the duly qualified electors on this By-Law the following adjoining Polling Sub-divisions shall be united namely:—1 and 3, 2 and 5, 6, 7, 8 and 9, 10 and 11, 13 and 14, 15 and 18, 16 and 17, 20 and 21.

9. The votes of the electors of the City of Peterborough qualified to vote on By-Laws for creating debts shall be taken upon this By-Law on the 25th day of April, 1911, commencing at the hour of nine o'clock in the forenoon and closing at the hour of seven o'clock in the afternoon of the same day, at the following places and before the following Deputy Returning Officers with the following Poll Clerks, that is to say:—

POLLING SUB-DIVISIONS NUMBERS 1 AND 3.

Place, M. H. Halpin's, 39 George Street. Deputy Returning Officer, Josiah Robertson; Poll Clerk, W. Mason.

POLLING SUB-DIVISIONS NUMBERS 2 AND 5.

Place, T. J. Murray's, 111 Rubidge Street. Deputy Returning Officer, J. P. Bryson; Poll Clerk, A. Graham.

POLLING SUB-DIVISION NO. 4.

Place, L. Spry's, 210 Stewart St. Deputy Returning Officer, W. Van-Every; Poll Clerk, T. O. Rush.

POLLING SUB-DIVISIONS 6, 7, 8 AND 9.

Place, City Council Chamber. Deputy Returning Officer, T. B. McGrath; Poll Clerk, A. S. Maguire.

POLLING SUB-DIVISIONS NUMBERS 10 AND 11.

Place, J. E. Lillico's, 356 Charlotte St. Deputy Returning Officer, F. Brownscombe; Poll Clerk, J. O. Moss.

POLLING SUB-DIVISION NO. 12.

Place, R. Begley's, 363 Babb's Lane. Deputy Returning Officer, F. J. A. Hall; Poll Clerk, T. G. Robinson.

POLLING SUB-DIVISIONS NUMBERS 13 AND 14.

Place, N. Routley's, 392 Brock St. Deputy Returning Officer, A. Sawers; Poll Clerk, N. Routley.

POLLING SUB-DIVISIONS NUMBERS 15 AND 18

Place, T. H. Hooper's, 601 George Street. Deputy Returning Officer, G. H. [illegible]; Poll Clerk, [illegible] Kennedy.

POLLING SUB-DIVISIONS NUMBERS 16 AND 17

Place, J. J. Cook's, 153 Dublin Street. Deputy Returning Officer, John Sawers; Poll Clerk, J. J. Cooke.

POLLING SUB-DIVISION NO. 19.

Place, J. T. Braund's, 720 George Street. Deputy Returning Officer, T. W. Robinson; Poll Clerk, Jas. Middleton.

POLLING SUB-DIVISIONS NUMBERS 20 and 21

Place, Former Village Hall. Deputy Returning Officer, R. Hamilton; Poll Clerk, John Kerr.

POLLING SUB-DIVISION NO. 22.

Place, George Coon's, 559 Rogers St. Deputy Returning Officer, J. T. Craig; Poll Clerk, E. Dillon.

10. The 26th day of April, 1911, at the hour of twelve o'clock noon, and the City Clerk's office are hereby fixed as the time when and the place where the Clerk will sum up the number of votes given for and against the By-Law.

11. The 24th day of April, 1911, at the hour of twelve o'clock noon, and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively on behalf of the persons interested in and promoting or opposing the passing of the By-Law respectively.

Clerk.

ANIMAL INTELLIGENCE

Sportsmen Contribute Many Instances Showing Animal Reason

News dispatches told a story the other day of a swarm of bees that boarded an out-going steamer in England and took passage for Ireland. The bees apparently knew exactly what they wanted and took this intelligent means of accomplishing their purpose, embarking just as the vessel was about to sail and leaving in a very orderly and circumspect manner upon reaching their destination. A noted scientist has just published interesting data on a certain little microscopic worm that builds a dainty little home in which to live, plastering its walls inside and out in a most workmanlike manner to resist all sorts of weather, and providing barred windows to keep out intruders.

If insects possess these qualities of instinct, which seem almost of a human order, it is doubtless true that animals actually do think and act in accordance with their ideas, even to the extent of careful premeditation, adjusted with nicety of calculation, to the intelligent consideration of cause and effect.

Dr. Zell, a German naturalist, has collected many instances to prove that animals learn by experience, and thus become wiser than their uninstructed parents. Game animals of all kinds, he avers, have learned the range of modern rifles. Greyhounds quickly learn to let rabbits alone, and foxhounds pay no attention to either rabbits or hares. Killer whales and gulls follow whaling vessels just as vultures follow an army. Crows accompany the chamois hunter as soon as they have seen the result of his first successful shot, and rough-legged buzzards follow the sportsmen after winged game.

And so through the whole list, to which every sportsman could contribute remarkable instances, convincing testimony would easily prove that human beings do not possess a monopoly in intelligence, and in some cases the predominance of intellect would rest in favor of the lower order of creation.

PENSIONS FOR HORSES

An Eccentric Austrian Bachelor Makes a Remarkable Will

The highly-original will of an eccentric bachelor, Emil von Bissoy, is reported from Vienna. The deceased, the brother of a well-known Hungarian deputy, was sixty-five years old, detested women, and lived on a war footing with all his relations.

In his will he bequeathed all his real and personal estate, worth about $100,000, to his twelve draught horses. As executors of the will he named the society for the protection of Animals at Budapest, stipulating that the interest on his property should be devoted to the care of these twelve animals, and that upon the death of one of them another horse was to be taken in and cared for, so that the number of twelve might always be maintained.

Herr von Bissoy's relations were naturally amazed at the contents of the will, and the deputy, Herr Aluius Bissoy, will dispute it. Negotiations have been commenced with the above-mentioned society, and $20,000 was offered it and refused.

FASCINATION OF "MACBETH"

There are not many cleverer linguists than Miss Braddon, the popular novelist. She reads French, German, Spanish, and Italian with equal facility, and the rapidity with which she works is amazing, 1,500 words an hour being her average output. In the earlier days she was a famous horsewoman; now her leisure is devoted to her dogs, her gardening, and collecting old silver, curios, and bric-a-brac. One of her hobbies is a passion for the play of "Macbeth." She will travel a long distance to see it performed, and could sit it out night after night.

FROM CLERK TO MILLIONAIRE

Just over forty years ago the son of a Cologne banker went to England to seek employment as a clerk. It was Sir Ernest Cassel, the famous financier and philanthropist, who has retired from business. Securing a situation in the office of a Liverpool grain merchant, he stayed there for three years, and at the end of that time was only earning twenty-five shillings per week. Then he went to London, entered a financial house, and, before he was thirty, had established an international reputation as a shrewd, far-sighted and successful financier. Amongst his most important achievements are the inauguration of the Central London Railway, the raising of China's big loan after her defeat by Japan, and the negotiations for financing the Nile irrigation works. He was one of the first men to see the immense possibilities of Egypt.

ADVERTISE IN THE TIMES.

HUNDRED YEARS WITHOUT STRIFE

Prominent Canadians Speak of the Proposed Celebration of a Century of Peace

Several prominent Canadians were asked for their opinion regarding the approaching celebration of one hundred years of peace between Great Britain and the United States.

Mr. R. L. Borden

"What should be done to celebrate worthily the approaching Centennial of Peace?" asks Mr. R. L. Borden, M.P. "Establish a permanent and effective disarmament upon the great inland waterways of Canada and the United States. Extend the same principle of disarmament to all the borders between the two countries from the Atlantic to the Pacific. Establish upon firm foundations a permanent treaty

MR. R. L. BORDEN, M.P.

of arbitration between the Empire and the Republic. Proclaim the Centennial of Peace as a day of National Thanksgiving in both countries, and in every city, town and village let the bells ring out their tones of rejoicing and the voice of praise and thanksgiving be heard in all the churches; and in each country erect a stately national memorial consecrated to the splendid memory of one hundred years of peace and to the firm assurance of its enduring continuance."

Hon. F. L. Haszard

"On noting the important events of the day," said Hon. F. L. Haszard, Premier of Prince Edward Island, "one is struck by the announcement that very soon we will be called upon to commemorate the one hundredth anniversary of Peace between Canada and the United States. To the credit of these two great and growing countries it can be truthfully said that no better example could be set to the world at large than the fact that amidst the many vicissitudes through which they have passed, the utmost good feeling has prevailed. It is true that questions of moment have at various times existed, but resort to amicable methods has always been attended with satisfactory results. Are we not therefore justified in believing that the time has come when the nations of the earth should adopt like means and thus avert the terrible devastation of war with all its baneful results. If our advanced civilization stands for anything, first and foremost our aim should be directed towards the attainment of that much desired understanding between the nations by which all great national questions and disputes will be adjusted by a Peace tribunal. May we not therefore hope that the year 1911, with the munificent gift of ten million dollars in the cause of Peace, by the world's well-wisher, Andrew Carnegie, will see securely laid the Foundation Stone of Peace."

Hon. Walter Scott

"The more I think of the fact the more astounded I become that Christian civilization has failed to put an end to war between nations," said Hon. Walter Scott, Premier of Saskatchewan. "The present spectacle of Europe heaping taxes upon taxes and grinding the faces of scores of millions of the poor to maintain huge equipments of war is a lesson for the contemplation of the people of America. Because the proposed celebration of the century of Peace, which has subsisted with inestimable advantage to both Canada and the United States, may be a powerful means of instruction to all peoples against the stupendous folly of the "mailed fist" method of disposing of international disputes, I most heartily approve the idea of its celebration."

TRACTION-ENGINE HEARSE

Old Showman's Dying Wish Leads to Novel Funeral Scene

There was a novel funeral scene at Cardiff when the remains of Mr. John White, aged seventy-seven, a well-known amusement caterer in South Wales, were laid in the grave. On his death-bed Mr. White asked that his coffin be taken to the cemetery on the huge traction engine "General White," generally used to haul the show to the fair grounds.

Thousands of people assembled on the way to the cemetery to witness the passing of the cortege. The traction engine, beautifully decorated with wreaths, duly drew the hearse. On the front was a large floral heart, in the centre of which was a design of the Prince of Wales's feathers in white flowers. The wheels were draped with crepe.

The police admitted to the cemetery only the actual mourners. This course was taken to prevent a recurrence of the damage done during a recent military funeral, when many graves were trampled on by an unwieldy crowd.

The traction-engine was halted at the cemetery gates, and the coffin carried to the graveside by mourners.

NEED FOR TRAINED SERVANTS

An untrained servant may have the best will in the world, but she will only muddle through.—Lady Waldegrave.

NEEDLE-WORKERS

Among the best needle-workers in the world are the men of Japan, their chief rivals being the women of Persia.

THOMAS EDISON WAS PERSEVERING

Overcoming Difficulties in His Youth, He Was Enabled to Rise to Fame

For three months Thomas Edison, the famous inventor, had attended the public school at Port Huron, Michigan, where his parents lived; and at the end of that time his teacher described him as "addle-pated boy." And Edison himself has confessed that he was always at the foot of the class, and had come almost to regard himself as a dunce, whilst his father entertained anxieties as to his stupidity.

Mrs. Edison, however, had faith in the intellect of her boy. She insisted on taking him away from the school and teaching him herself, with the result that before he had reached the age of twelve he had read, with his mother's help, such works as Gibbon's "Decline and Fall of the Roman Empire," Burton's "Anatomy of Melancholy," and the "Dictionary of Sciences."

Experiments in the Cellar

But before he reached this age, according to Frank Lewis Dyer and Thomas Commerford Martin, he had begun experiments in chemistry. And much mysterious work did he do in the cellar of the house, but he found himself handicapped by want of pocket-money. He therefore became a newsboy, overcoming the reluctance of his parents, particularly that of his mother, by pointing out that he could, by this means earn all he wanted for his experiments and get fresh reading in the shape of papers and magazines free of charge.

The Grand Trunk Railway had been extended from Toronto to Port Huron, and he was successful in getting permission to go on the local train as a newsboy.

"After being on the train for several months," to quote Edison's own words, "I started two stores in Port Huron—one for periodicals and the other for vegetables, butter, and berries in the season. These were attended by two boys who shared in the profits. The periodical store I soon closed, as the boy in charge could not be trusted. The vegetable shop I kept up for nearly a year. After the railroad had been opened a short time they put on an express, which left Detroit in the morning and returned in the evening. I received permission to put a newsboy on this train." It was about this time that the Civil War broke out, and as the war progressed Edison found that the daily newspaper sales grew so rapidly that he could give up the vegetable store.

A New Use for Smoking-Cars

In those days no use was made of the smoking compartment, as there was no ventilation, and it was turned over to young Edison, who met only kept papers there and his stock of goods as a "candy butcher," but soon had it equipped with an extraordinary variety of apparatus. There was plenty of leisure on the two daily runs, even for an industrious boy, and thus he found time to transfer his laboratory from the cellar and reestablish it on the train. Surely the country could have presented at that moment no more striking example of the passionate pursuit of knowledge under difficulties than this newsboy, barely fourteen years of age, with his jars and test tubes installed on a railway baggage car.

But alas! one day, while conducting his experiments in the smoking-car, young Edison nearly set the train on fire, with the result that he was bundled off at the next station with his entire outfit—laboratory, newspapers, and everything else—and left on the platform tearful and indignant. It was through this incident that Edison acquired the deafness that he has suffered from all through his life, a severe box on the ear from the scorched and angry conductor of the train being the direct cause of the infirmity.

Hard times followed his ejectment from the rolling stock of the Grand Trunk Railroad, and he was down to his last cents when he succeeded, in 1869, in getting a job with a telegraph company in New York. And such good use did he make of his opportunity that he was able to remedy a big breakdown in the system when he had only been in the situation a short time, the result being that he was put in charge of the whole telegraph plant at a salary of $300 a month.

This enabled him to give more scope to his inventive faculties, and, after a little while, the manager of the telegraph company called him into his office one day and said, "Now, young man, I want to close up the matter of your inventions. How much do you think you should receive?" "I had made up my mind," said Edison, "that, taking into consideration the time and trifling pains I was working at, I should be entitled to $5,000, but could get along with $3,000. When the psychological moment arrived I hadn't the nerve to name such a large sum, so I said to the manager, 'Well, suppose you make me an offer.' Then he said, 'How would $40,000 strike you?'" Thus, in an inconceivably brief time Edison passed from poverty to independence, made a deep impression as to his originality and ability on important people, and brought out valuable inventions. He then set up in business on his own account, and soon was employing fifty men.

How he ultimately developed the telephone, the phonograph, the incandescent light, and a hundred and one other inventions, has often been told, and the extent of his achievements may be gathered from the fact that a list of Mr. Edison's patents alone occupies twenty pages of his latest biography.

A GALICIAN BRIDE

A Galician bride, who measures 8 feet 2 inches in her stocking soles, is in London at present arranging for her wedding trousseau.

Homeseekers' Excursions.

to Western Canada (via Chicago), including certain points on Grand Trunk Pacific Railway, April 4th, 18th, May 2nd, 16th, 30th, June 13th, 27th, July 11th, 25th, August 8th, 22nd, Sept. 5th, 1911. Winnipeg and return, $23.00; Edmonton and return, $41.00. Tickets good for 60 days. Proportionate rates to principal points in Manitoba, Saskatchewan and Alberta. Homeseekers' excursion tickets will also be on sale on certain dates via Sarnia and the Northern Navigation Company.

ADVERTISE IN THE TIMES.

CHICAGO MERCHANT MAKES STATEMENT.

After Spending Thousands of Dollars and Consulting the Most Eminent Physicians, He Was Desperate.

CHICAGO, Ill.,—Mr. J. G. Decker, of 126 Van Buren St., a well-known wholesale dry goods dealer, states as follows:

"I have had catarrh for more than thirty years. Have tried everything on earth and spent thousands of dollars for other medicines and with physicians, without getting any lasting relief, and can say to you that I have found Peruna the only remedy that has cured me permanently.

"Peruna has also cured my gifted catarrh. Cincinnati is in the house for an attack of cold, which it invariably cures in a very short time."

$10,000 PROFITS IN SIX MONTHS

High class business enterprise operating in South America will give $20,000 in Preferred Stock for $10,000 cash. John Butler, 45 Jacobson Bldg., Denver, Colo.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTER.

Local Reporter Wanted.

We have an opening for a bright lad as local reporter. Apply at this office.

Route Boys Wanted.

A couple of good reliable boys wanted at The Times office to carry morning routes. Wages $1 per week.

Ice Disappearing.

The ice in the Little Lake is fast disappearing. The channel is now open from the Otonabee bridge through the lake to the lower lock.

Bell Company's Extensions.

The Bell Telephone Company is gradually increasing its network of lines through the country. Peterborough being the centre of a very extensive radius. The latest rural line in between Millbrook and Cavanville, along the 10th concession.

Activity Near Renboro.

Work is being pushed on the C.P.R. grain line west of Renboro. A camp is being constructed near Fleming's Corner and a large gang of men is at work. It is understood a station will be built at this corner, says the Lindsay Post.

Do you know that fully nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp, or chronic rheumatism, and requires no internal treatment whatever? Apply Chamberlain's Liniment freely and see how quickly it gives relief. For sale by all dealers.

Mr. Pappas' New Sign.

Mr. M. Pappas has ordered a new and handsome electric sign for the Royal Theatre. It will show an acrobat spinning a ball on his feet, all in electric lights. The sign will reach 45 feet in the air and will show flashing effects entirely new and original.

St. Peter's Ladies' Literary Society

A very interesting and instructive address was delivered last night by Rev. Father Fitzpatrick, of Ennismore, on "Macbeth," at the meeting of the St. Peter's Ladies' Literary Society. A good musical programme was also in evidence.

Henry Johnson's Bequests.

The late Mr. Henry Johnson of Hastings, well known in Peterborough, left $40,000 to the mission fund of this diocese, from which $300 of the interest is to be given each year to increase the income of the clergyman at Hastings. He also left $10,000 to the widows and orphans fund and $20,000 to Wycliffe College. We believe it will be a year or two before the interest from these funds are available but after that it will be a great help in connection with the excellent work being done by the college and these two synod funds.—Parish and Home.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

A Proposed Hotel.

Editor Morning Times,

Sir,—I see by the Times that there is talk of a big modern hotel being built in Peterborough, and I would give a word of warning to those contemplating investing their money in order to make it safe, I would have the City Council give a bonus of $25,000 or $50,000 on mortgage at a reasonable rate of interest, so that the owners would not be in danger of having a by-law passed to cancel their license. If the License Commissioners could be induced to take some stock, then there would be double security.

VERITAS.

A Union Station.

Editor Morning Times,

Sir,— A prominent railway man told me in Toronto the other day that Peterborough should agitate in favor of a union railway station. He said, if this was done, they would be believed, secure it. It would be a great boon to the travelling public, who have to cart their baggage from one station to the other when making a transfer. This is a matter for the Board of Trade to take up. I hope a move will be made in this direction soon.

KNIGHT OF THE GRIP.

A New Suggestion.

Editor Morning Times,

Sir,—I see by the city papers that our Mayor and Aldermen are proposing to expend themselves into a loan company in opposition to the Toronto Loan and Savings Company, which owns most of the town. As a ratepayer, I do not think that the city's finances can possibly compete with the large and wealthy institution such as the above. Would it not be policy for the Aldermen to hand the loan which they propose to make to the Rubber people over to the above named company, who are certainly more capable of handling large loans than the already highly mortgaged Corporation of the City of Peterborough is. This would save the expense of a by-law. If our City Fathers desire an investment for their surplus money, let them purchase the only water power that is now left on the Otonabee River, viz., the Lakefield power. The ratepayers then would have something to show for their taxes. Hiring manufacturers to locate here by bonuses and loans should be now a thing of the past.

Thanking you, Mr. Editor, I am,

Very sincerely yours,

TAXPAYER.

Transient Traders.

Editor Morning Times,

Sir,— I notice by the local press that a pedlar was up before County Police Magistrate Edminson, charged with infringment of the Transient Traders' By-law. I think, sir, that this by-law is not enforced as it should be. We now have ample police officers, and I would suggest that Chief Thompson see that they are given something to do that will be of real service to the people. Just why outside people are allowed to come in and peddle their goods around, is hard to explain. Perhaps the by-law dealing with transient traders is not strong enough. If so, it should be strengthened without delay. A Toronto firm only this week canvassed the business men of the city for orders for printing, notwithstanding there are three good job printing offices in Peterborough. As a rule these people do an inferior class of work for which their prices are usually higher than charged by local printers. This is only one of the many cases. A few days ago a man called at my house with rugs, of which he informed my wife he had sold many. Is this fair to Mr. Crossman or Mr. Richard Hall?

I hope the Times will take this matter up, and see that our business men get the protection to which they are entitled.

MERCHANT.

Well Fixed For Shows.

Peterborough is likely to be well provided for with theatres and places of entertainment and amusement this summer. The Peterborough Amusement Co., which is about to start business, will doubtless be a special attraction to theatre-goers. Then we will have an occasional call to the Grand Opera House, after which comes the Royal Theatre, the Crystal and the Princess. With two roller skating rinks in full blast, and many other attractions, Peterborough people should not weary of the summer nights.

ALMOST DIED OF MALIGNANT TONSILITIS

ALMOST DIED OF MALIGNANT TONSILITIS.

Another Case Proving That Catarrhozone Cures When All Else Fails.

The case of Mr. James H. Barton the well-known publishing agent, of Stratford, is most remarkable. For seven years he suffered from weak throat, treated with numerous physicians, used a score of remedies—but was not cured. Among the symptoms from which he suffered were:

Frontal Headache	Sore Chest
Influenza	Bronchitis
Nasal Catarrh	Hoarseness
Weak Throat	Croupy Cough

"For years I suffered from a chronic weakness of nose, throat and lungs. My chest was sore, my throat irritable, and I had a harsh, croupy cough that was always worse in the morning. During bad weather I was completely prostrated with Catarrh, bronchial irritation, and all the manifold discomforts of influenza.

"When I began using Catarrhozone a beneficial effect was noticeable at once. My breathing became free and easy, I slept better, my chest was eased, and the thick phlegm and coughing that made me so sick passed away. Once, when my son was threatened with malignant tonsilitis, Catarrhozone cured him in two days."

Catarrhozone is certain to cure because its healing vapor is carried with the breath direct to the seat of the chest, nose or throat trouble. Being composed of the purest balsams and pine essences, it immediately allays irritations, facilitates the ejection of mucus, soothes and stimulates the lungs and bronchial tubes.

To those in fear of changeable weather—those who easily catch cold—those who work among the lung-chilling surroundings, or where dust, impure air, fog, or damp can effect them—let them get Catarrhozone and use it several times daily. Large size, sufficient for two months' use, guaranteed, price $1.00; smaller sizes 25c and 50c. Beware of imitators and substitutors, and insist on getting "Catarrhozone" only. By mail from the Catarrhozone Company Kingston, Ont.

Excursion to Winnipeg and Grand Trunk Pacific Ry. Points.

In connection with settlers and round trip homeseekers excursions to the West on April 4th the Grand Trunk Ry. Coy., will run a special through train from Toronto to Edmonton, leaving Toronto at 11 p.m., April 4th via Chicago, St. Paul and Winnipeg without change, arriving at Edmonton 7 p.m., April 7th. This train will carry Pullman Tourist sleeping cars with porter in charge. Berth rate to Winnipeg will be $3.75 for lower and $3.00 for upper. To Edmonton lower berth will be $6.15 and the upper $5.40. Mr. McCutcheon, commissioner for the Alberta government along with our travelling passenger agent will accompany same to see there is no trouble or delay and to look after the interests of the passengers. Consult City Ticket Agent Grand Trunk Ry. for rates, reservations and full particulars.

LITTLE LOCAL LINES

The old Rockland Hotel, Bobcaygeon, is being rebuilt.

The Rev. F. J. Sawyers, of Lakefield preached at the All Saints' Lenten services last night.

The Times was yesterday shown an egg measuring 5¼x6¼ inches. It was the product of a hen belonging to Mr. F. Garner, East City.

The funeral of Mrs. Thomas McMurray will take place this morning at 10 a.m., instead of 9 o'clock as announced in the Times. Interment will take place at St. Joseph's cemetery, Douro.

The fire department received a call to a chimney fire on Thursday, at 586 Rubidge street. The house is occupied by Mrs. Anna S. Pearce. No damage.

The Mission Band of Charlotte street Methodist Church held a handkerchief bazaar and social last night in the lecture hall. There was a good attendance and everything passed off pleasantly.

The Ladies' Aid of St. Andrew's Church held a very enjoyable at home at the residence of Mrs. J. Stanger, 311 Stewart street, yesterday afternoon from 3 to 5.30 and in the evening from 7.30 to 10 o'clock. A very enjoyable time was spent.

SOCIETY EVENTS

Mr. W. E. Brooks of Young's Point was in the city yesterday on business.

Mrs. N. A. Howard-Moore and daughter, Miss Daisy, are in Kingston, visiting the former's mother.

Rev. Jas. Rollins, of St. Andrew's Church, conducted preparatory service at Millbrook last night.

Mr. Jos. J. Lynch of East City, accompanied by Miss Florence Lynch have returned from a two weeks' visit in Yale, Mich.

Mrs. Chas. Munns, St. Thomas, who has been visiting relatives in this city, will return to her home today.

A quiet wedding was solemnized last night at 7 o'clock at St. Luke's Church, Ashburnham, the contracting parties being Mr. Thomas Richard White and Annie Elizabeth Blackburn. Rev. Dr. Langfeldt officiated. Mr. and Mrs. White will reside on James street, East City.

OBITUARY.

MRS. JAMES EDGECOMBE.

Yesterday morning there passed away at the family residence, 697 Water St., a well-known and highly esteemed citizen in the person of Mrs. James Edgecombe, at the age of 59 years. The deceased lady was born in Belfast, Ireland, and emigrated to Canada with her brothers and sisters and settled in Canada, removing soon after to Streetsville. She subsequently moved to Cobourg and finally to Peterborough, where she was united in marriage to Mr. James Edgecombe. Of a very kindly disposition and much given to works of charity, the deceased was greatly beloved by all who knew her. She leaves to mourn her death besides her husband, two daughters, four sisters and three brothers.

The funeral will take place on Monday afternoon at 3 o'clock and proceed to Little Lake cemetery for interment. Service will be held at the house at 2.30 p.m. Rev. J. Couch will officiate.

THE MINES DEVELOPING MACHINE WILL BE INCORPORATED

It is One of the Greatest Inventions of the Age for the Speedy Development of Mines

A device which will, when installed, be the means of placing hundreds of mining properties, now laying idle, on a producing and dividend paying basis. It will develop a mine in months where it now requires years. It will be the means of bringing sure and quick returns on mine investments which are now slow on account of the long time required to either reach the ore bodies or develop them to an extent which admits of productions on a large scale.

IT CAN BE USED IN ALL MINING REGIONS.
IT CAN BE USED IN DRIVING IRRIGATION TUNNELS.
IT CAN BE USED IN DRIVING TRANSPORTATION TUNNELS.
IT CAN BE USED IN DRIVING DRIFTS AND UPRAISES IN MINES AND IT WILL WORK IN ALL KINDS OF FORMATION.
IT DRIVES A COMPLETE TUNNEL, DRIFT OR UPRAISE, AND SHAPES ITS WORK ON A SCIENTIFIC PRINCIPLE.

Contracts have already been signed for the use of enough of these machines to keep a large factory busy building them for many months, and I predict that before 5 years many hundred of them will be in use.

A corporation will be organized within a short time to own and handle the machine, and it will be capitalized for $1,000,000 divided into 1,000,000 shares. One-half of the stock will be placed in the company's treasury.

YOU CAN NOW BUY PRE-ORGANIZATION STOCK AT 25c PER SHARE (either for cash or ten-payment installments) BUT YOU CANNOT BUY IT FOR LESS THAN 50c PER SHARE AFTER THE INCORPORATION TAKES PLACE.

GET IN ON THE GROUND FLOOR IN THIS ENTERPRISE. TAKE ADVANTAGE OF THE PRE-ORGANIZATION OFFER NOW.

Use the coupon in making your subscription, either for cash or installments, and make all remittances payable to

P. H. LUND, Consulting Engineer
Temple Court Bldg., Denver, Colorado.

COUPON.

LOOKING FOR WAR BETWEEN RUSSIA AND CHINA

FAMILIES OF RAILROAD EMPLOYEES ON RUSSIAN LINES PREPARE TO DEPART.

Stolypin Still Premier—Czar Backs Down to Him, But Would Not Yield to Kokovsef.

Vladivostock, March 25.—Persistent rumors are current here that a mobilization of troops soon will be ordered. The families of railroad employes on the Russian Eastern lines are preparing to depart.

A NEW ULTIMATUM.

St. Petersburg, March 25.—Russia is on the point of addressing to China an ultimatum fixing a date for entire satisfaction of her demands.

The Chinese replies to Russia's successive notes dealing with the demands of Russia in Mongolia have been described by the Chinese Government as conciliatory, but the text in each case has been unsatisfactory to Russia because it has evaded the points at issue.

The Novoe Vremya in a leading article which betrays the irritation of the Government, accuses the Chinese of mockery, and demands that an ultimatum with a fixed term for its satisfaction be sent to China.

Premier Stolypin, who last Monday sent in his resignation, has agreed to remain in office, and the cabinet crisis therefore is at an end.

OBITUARY.

THOMAS KEMP.

On Saturday afternoon there passed away at the family residence, Mr. Thomas Kemp, an old and esteemed citizen. Mr. Kemp was about eighty years of age and leaves a family of six sons and one daughter, namely: Harry, of Grenville, R.I.; George, of Lawrence, Mass.; Samuel, William, John and Thomas, of this city, and Mrs. Flannery, of Peterborough.

A RANCHER ASSASSINATED

Edmonton, Alb., March 25.—William Lennox, a wealthy American rancher of the Buffalo district, was assassinated by an unknown man, who fired through a window of his house yesterday. John Tartler, a neighbor and another man, name unknown, are under arrest.

DIAZ CABINET RESIGNED

NEW MINISTERS WILL BRING POPULARITY TO THE GOVERNMENT.

Limantour is Prominent—Revolutionary Leader Madero Not Recognized—However, Reforms Which He Advocated May be Granted.

Mexico, March 25.—President Porifirio Diaz, whose entire Cabinet resigned yesterday, will form his new Cabinet of men close to the people. Senor Jose Yves Limantour will be the directing force in the formation of the new ministry. Following the situation of the new portfolio President Diaz is expected to relinquish office to one of its members as President, pro tem, and sail for Europe, perhaps never to return to America.

Miguel Ahumada, Governor of Chihuahua, and one of the most popular of the Diaz followers in Mexico, is slated to be the new minister of Interior, succeeding Ramon Corral. Senor Limantour, it is believed, will be tendered the important post of Minister of Foreign Relations, to succeed Enrique Creel, who is unpopular with the masses. The people have confidence in Limantour.

MONTREAL COUPLE WERE MARRIED ON THE QUIET

Montreal, March 25.—Rev. William Timberlake, pastor of Centenary Methodist Church, who married Eugene Hebert and Marie Emma Clouard the annulment of whose marriage by Judge Lauendeau, has aroused widespread indignation in Protestant circles, when interviewed to-day declined to express any opinion on the case, as he had not had time to study its legal aspect.

"It appears that great injustice could result from such a condition of affairs," he said, "but I would not care to criticize the judge's action. He probably was justified legally in his decision."

"The young couple came to me late in the evening of July 14th, 1908," he said. "They both spoke English and it did not occur to me that they might be both Roman Catholics. At that time no discussion of this point of the law had been started and naturally I never gave the matter a thought.

"The couple came to my house and were married in my parlor. They had a special license and did not tell me to what church they belonged. I did not know that proceedings were being taken to annull the marriage until I read a report of Judge Laurendeau's decision in the papers the other evening.

Efforts to trace the whereabouts of Mr. Hebert and his former wife have proved fruitless. Both have evidently determined to avoid publicity. The addresses are not entered on any of the court records, the place of residence merely reading, "Montreal." As no objection was entered to the annullment of the marriage by either party, neither was called as a witness and therefore their addresses were not asked for by the court. The lawyer who handled the case refuses absolutely to disclose their whereabouts, evidently acting under instructions.

TARGET SHOOTING CONTEST.

Good Scores and Keen Competition at Yeates Bros.' Shooting Gallery on Saturday Night.

More and more interest is being taken in the target shooting contests every week. There was a large crowd of spectators present Saturday evening to witness the finals. The following were the scores:

—Professional—

A. C. Miller (Box of Cigars)	58
H. Mackey	58
H. Youngman	58
J. Simons	57
J. Dugan	57
C. Gutterson	57
W. Bickel	57
W. Gill	56
D. Dinah	56
W. Edmunson	56
W. Kennedy	55
R. Perry	55
E. Clarkson	55
A. Geddes	55
J. Killbrick	54
W. Brummwell	54
J. Vinette	54
C. Callaghan	54
G. Bussell	54

At the amatuer target D. O'Leary won in the shoot off from Robinson and McNally by a score of 57. He received a nice meerchaum pipe. F. Robinson captured the second place, and also received a pipe in case. The scores:

—Amatuer—

D. O'Leary	57
B. Robinson	57
L. McNally	57
J. Thornton	55
Z. Murphy	55
A. Taylor	55
W. Cook	54
W. Hall	54
C. Mills	54
W. Curtin	54
F. Heffernan	53
J. Rose	53
T. Gilgour	53
G. Cowling	52
D. Calder	52
M. McMahan	52
G. Metcalfe	50
F. Reynolds	50

Next week there will be one good prize for the professional contest and two for the amatuers which will be well worth trying for.

Dome Extension Stock.

As in the case of Preston-East Dome, the stock o fthe Dome Extension was a recent flotation which met with considerable success, the stock being four times over-subscribed in 24 hours. The splendid location of this property which is 200 acres, adjoins the famous Dome mine, and the fact that it is practically under the same management have influenced very heavy buying in this issue. A shaft has been sunk on this property at a depth of 25 feet, and values up to $200.00 per ton have been obtained, and in a formation which indicates a very large body of milling ore, and the stock is considered to offer a splendid opportunity, and believe it can be safely bought around present prices, as the increasing interest in Porcupine issues will undoubtedly result in carrying it much higher.

ROYAL

BIG ATTRACTION

THE MANHATTAN MUSICAL COMEDY COMPANY

DIRECT FROM BUFFALO, N.Y.

Evening—25c to Everyone.

A TERRIBLE HOLOCAUST IN NEW YORK

[SCORES OF PANIC STRICKEN PEOPLE JUMPED FROM BURNING BUILDING TO THEIR DEATH]

OFFICE BUILDING SATURDAY EVENING

Hundreds of People Perished in Fire which Broke out in the Seventh Floor of the American Book Building, No. 1 Washington Place—150 Bodies Have So Far Been Recovered

FIFTY MEN AND WOMEN JUMPED TO THEIR DEATH FROM THE SEVENTH FLOOR

New York, March 25.—(Special.)—Fire broke out in the seventh floor of the American Book Building No. 1 Washington place, on the corner of Broadway, this afternoon.

One hundred and thirty seven bodies have now been recovered from the fire. One thousand may have perished.

EIGHTEEN PEOPLE LEAPED FROM EIGHTH FLOOR.

Eighteen people leaped from the eighth floor and were killed.

There was a law school in this building, and other like establishments. If these had their usual attendance, it is feared many hundreds have perished.

The flames at 5.30 were under control, but for some time the firemen were unable to enter the ruins.

50 MEN AND WOMEN JUMPED TO THEIR DEATH.

7 o'clock.—Fifty men and women jumped to their deaths late this afternoon, and 100 others were burned to a crisp in a fire which started on the seventh floor of the big factory-office building at 29 Washington place.

The fire fighters on the scene estimate that at least 250 perished, as at 6.30 137 bodies had been recovered. There is believed to be at least another 100 bodies in the ruins.

Most of the dead were employes of the Triangle Waist Company, which had its lofts on the seventh, eighth, ninth and tenth floors of the building.

The building was rated as fireproof. The fire started in the electric motor box which supplied power to the hundreds of sewing machines on the various floors.

SOME OF CHAMP CLARK'S IDEAS

"The Democrats will pass the Canadian reciprocity bill."

"It seems pretty well understood that they will pass other tariff legislation and that they will adopt the schedule by schedule plan."

"I do not think we Democrats are going to wait on the report of any board to do our revising."

"If we find we are accomplishing something, there is no telling when we will stop."

"I do not believe President Taftbecause it is a Democratic measure," will dare veto a tariff bill merely—From the New York Herald.

WESTERN FARMERS PURCHASING MILLIONS OF DOLLARS' WORTH OF FARMING IMPLEMENTS

Calgary, Alta., March 25.—The bright sunny weather of the past few days and the spirit of spring has awakened with a rush the agricultural interest of the Province, the farmers are busy purchasing farm implements and preparing to put in spring seed. It is conservatively estimated by dealers in agricultural implements that no less than $10,000,000 worth will be purchased by farmers this spring, their estimate being based on the figures of $7,000,000 last year, and the fact that all conditions point to a bumper crop, owing to an excellent close winter and late spring.

MR. FIELDING GUARDED BY POLICE SAID TO HAVE BEEN HELD-UP

Ottawa, March 25.—A startling rumor was going around the lobbies of the House of Commons to-day, to the effect that one night not long ago Hon. Mr. Fielding was held up by a man on Metcalfe street and his pockets gone through with the object of discovering certain papers relating to the reciprocity negotiations.

The report could not be confirmed, but it received a certain amount of corroboration in the fact that there sat in the public gallery last, as there has sat for the last five days, a plainclothesman of the Dominion police, whose duty it has been and is to see that Mr. Fielding gets home safely.

It may be only a coincidence, but the fact remains that the finance minister has his protective guard every night when he leaves the hill for his house on Cooper street.

LAND HUNGRY SETTLERS FROM STATES COMING IN THOUSANDS TO TAKE UP CANADIAN LAND

INVASION OF AMERICAN FARMERS WILL BE DOUBLE THAT OF ANY PREVIOUS YEAR.

One New Town Will Be Started in Western Canada Every Three Days—Eastern Canada Missing Opportunities.

Winnipeg, March 25.—Thousands, and tens of thousands of United States citizens are filled with the rare-old instinct to "hit the trail." It has itched in their hearts and burned in their pulse throughout the winter, and they are struck with the irresistable stampede feeling that will eventually land them in one of the sunset Provinces of Canada.

A. R. Davidson, of Davidson and McRae, says that beyond all doubt this will be the greatest year of settlement for the Western Provinces. "More people and more money are coming than ever before," are his words. G. H. Perkins, secretary of the William Pearson Company, says: "We have agents all through the Middle and Western States who are keeping us in touch with the situation, and we are convinced that the movement from the States this season will be double that of last year. It will be overwhelming. You can't keep them back."

"The attitude of the Bankers' Association of the Western States," he said, "is an evidence that they have given up all hope of being able to stem the tide. Prior to March 1st, of this year, they had agreement among themselves not to loan money to be put into Western Canada lands no matter what the security. On that date they changed all this, and are very glad to loan all the money for this purpose that is needed.

"The feature of the movement this year is that it effects all that vast territory from Pennsylvania on the east to Nebraska and Wyoming on the west, and as far south as Missouri and Tennessee. A year or two ago all the movement into Canada was from the States of North and South Dakota, Minnesota, Iowa, and Wisconsin. The whole Mississippi valley is in the throes of an 'on to Canada movement that nothing can check. The whole thing is a problem in simple arithmetic. In his own home the American farmer finds the price of land has risen to $200 an acre. In former years he could start his boys up in business by buying land adjoining his own, and they could move on when they were of age. Now, however, this land cannot be bought, and so he travels west and north.

"The Americans are after this country," said Mr. Perkins, "and there is such an apathy among eastern Canadians in regard to grasping this opportunity that it seems to be somewhat on a par with the white man driving out the Indians.

ADVERTISE IN THE TIMES.

TRUSTS OPPOSE AN INVESTIGATION

Montreal, March 25.—(Special).—Argument in hearing the motion of a writ of prohibition to prevent Judge Laurandeau, W. J. White, K.C., and J. C. Walsh, from sitting as a board of investigation under the Combines Act into the alleged monopoly of the United Shoe Machinery Co. of Canada, has been set over un-til next Tuesday.

The extension was granted in other that the parties to the case might have time to prepare their arguments.

THE DIXIE FLYER DROPPED THROUGH BRIDGE INTO RIVER

Ocilla, Ga., March 25.—The Dixie Flyer on the Atlantic Coast Railway went through a trestle over the Alapaha River near here at 5 o'clock this morning, killing seven passengers. Five coaches were derailed.

The coaches are ten feet under the water. Ten bodies have been recovered so far, but many others are thought to be beneath the debris and water. The fireman of the train is among the known dead. Flagman Legrade escaped, while engineer Eugene Green is reported badly hurt.

Special trains carrying nurses and physicians have been rushed to the scene from nearby towns.

CONDUCTOR MISSING.

Savannah, Ga., March 25.—Atlantic Coast Line physicians have left here for the scene of the Dixie Flyer wreck near Ocilla. Conductor Parnell, of Savannah, in charge of the train is reported missing.

BRIDEGROOM WAS FOUND DEAD IN THE SNOW

St. Petersburg, March 25.—A tragic story is reported from the little town of Holoskvitsa, in Russian Poland, of a young girl who lost her lover on the day that had been fixed for her wedding.

Ivan Marchon, the son of a wealthy land-owner at Smolina, was to have been married to Katrina Ritkar, and great preparations were being made in the girl's home for the celebration of the event. On Sunday afternoon Marchon left Smolina to ride to Holoskvitsa, a distance of several miles, and he was never seen again alive.

The guests assembled for the wedding, but waited in vain for the bridegroom. Finally the bride, who could not endure the suspense any longer, left with her father and a party of friends to drive in the direction of Smolina in the hope of seeing the missing lover.

When they had gone half way they found the young man laying dead in the snow beside his horse. The girl was taken home in an unconscious condition, and it is feared that her mind has been unhinged by the shock.

Tourist Cars to Western Canada

There is no more comfortable way to travel to the West than in a Canadian Pacific tourist sleeping car. These cars run from Toronto to Winnipeg, Calgary and Vancouver daily at 10.10 p.m. Berths are fully equipped with bedding, every traveling convenience is afforded and an attentive porter is in charge. The extra cost is very small and tourist cars are attached to each Homeseekers' special train from Toronto. Early application to local C. P. R. Agent should be made for berths.

Sedentary habits, lack of outdoor exercise, insufficient mastication of food, constipation, a torpid liver, worry and anxiety, are the most common causes of stomach troubles. Correct your habits and take Chamberlain's Stomach and Liver Tablets and you will soon be well again. For sale by all dealers.

THE WEATHER.

Southeasterly winds, mild with a few showers.

ISLAND SWEPT BY THE FLAMES.

New York, March 25.—Two hundred families were made homeless to-day by a fire which destroyed all the buildings on Barren Island, off Jamaica, L.I., early to-day. A high wind swept the flames over the entire colony within a brief time.

JOHNSON JUGGED AT LAST

JACK JOHNSON'S AUTO LANDS HIM IN JAIL—HE IS CHAUFFEUR OF A BARBER NOW.

Was Repeatedly Warned—He Pleaded Guilty—So There Is Little Chance of His Entering an Appeal.

San Francisco, Cal., March 25.—Jack Johnson, heavyweight pugilist of the world, was to-day sentenced to twenty-five days in jail for speeding his automobile.

The sentence came when Johnson was arraigned after having pleaded guilty to scorching through Golden Gate Park a few nights ago.

Within the past few weeks, the negro pugilist has been arrested several times on charges of speeding, but each time has either escaped conviction or has received only a fine. Last week Johnson was arrested and let off with a small fine on his promise to quit driving his auto so fast. The court warned him at that time that on his next offence he would be sent to jail. When Johnson was arraigned on Thursday he pleaded guilty and to-day was set for sentence. The fact that he pleaded guilty, it is believed, precludes the possibility of appeal.

When arraigned to-day, Johnson, in explaining how he happened to be speeding, merely said he "forgot."

The negro was immediately taken to the city jail for later transfer to the county bastile. His attorneys began at once to scour the city to find a superior judge with whom to lodge a complaint.

PEACE PROPAGANDA

The discussion of international arbitration since the publication of Earl Grey's speech is proof of the general weariness of the burden of over military glory, with their growing demands for armies and navies, have contributed to a situation which is becoming intolerable. When they harp upon their favorite string of the visionary and the practical they have a convincing answer in their own extravagance.

Hundreds of millions and billions of dollars are taken from taxpayers for the most irrational system of insurance that was ever established. No one doubts that if the nations prepared less for war. Enthusiasts were pledged to arbitration they would keep their pledges, but these same military enthusiasts would fight against pledges and continue the waste. That is what they call being practical. On the other hand, they declare that a common-sense arrangement that is dictated by justice, economy and business, to claim no more for it, is visionary.

When her child is in danger a woman will risk her life to protect it. No great act of heroism or risk of life is necessary to protect a child from croup. Give Chamberlain's Cough Remedy and all danger is avoided. For sale by all dealers.

ST. JAMES' CHURCH.

Anniversary Services Held Yesterday—Large Congregations.

The second annual anniversary in connection with St. James Methodist Church took place yesterday. Eloquent and impressive sermons were preached morning and evening by Rev. H. M. Manning, of Whitby, to large congregations. Thank offerings were taken up at both services, which went to liquidate the debt on the Church property.

There was a rally of Sunday school workers and scholars in the afternoon, at which spirited addresses were delivered.

This evening the annual congregational meeting will be held, at which reports from the various church organizations will be read. A supper was served during the evening.

THIRTY-FIVE LIVES LOST IN WRECK OF STEAMER

Victoria, B.C., March 25.—With 29 passengers and crew on board, the steamer Sechelt, a small shelter-deck steamer operated between Victoria and Sooke by the British Columbia Shipping Company, capsized off Beachy Head yesterday. It is believed all on board were lost.

The Sechelt left yesterday afternoon with about 35 passengers, mostly laboters, bound for the Canadian Northern Railroad construction camp at Peddar Bay, and a crew of four men with Captain H. B. James, manager of the company in charge.

The morning a boy arrived at Esquimalt in a gasoline launch from William Head quarantine station, with news that the steamer had capsized. All the boy knew was that the Sechelt had capsized and he believed all were drowned. He had been sent to get assistance.

The tug William Joliffe was sent as soon as the news was received and wireless messages were sent to the Australian liner Miowera, which left for the Antipodes early this morning notifying Captain Morrise of the disaster.

The steamer seemingly made the call at William Head and proceeded to Peddar Bay, when she encountered the strong southwest squalls which prevailed about 4.30 p.m.

She was then off Beachy Head, a wooded cliff forming the western entrance at Beachy Bay. Not until news is received from the tug William Joliffe will it be known what was the fate of those on board the capsized steamer.

The Sechelt was 82 feet in length, with a gross register of 73 tons.

Cold on The Chest

Had Suffered for Weeks—Used Fourteen Different Remedies Without Effect.

Cured Quickly By "NERVILINE."

No stronger proof of the wonderful merit of Nerviline could be produced than the letter of Miss Lucy Mosher, who for years has been a well-known resident of Windsor, N.S.

"I want to add my unsolicited testimonial to the efficacy of your wonderful liniment, "Nerviline," I consider it the best remedy for a cold, sore throat, and wheezing tightness in the chest, etc., and can state that for years our home has never been without Nerviline. I had a dreadful attack of cold, that settled on my chest, that fourteen different remedies couldn't break up. I rubbed on Nerviline three times a day, used Nerviline as a gargle, and was completely restored. I have induced dozens of my friends to use Nerviline and they are all delighted with its wonderful power over pain and sickness.

TESTIMONIAL NO. 3785.

"You are at liberty to publish this signed letter, which I hope will show the way to health to many that need to use Nerviline.

(Signed) "LUCY MOSHER."

All sorts of aches, pains and sufferings—internal and external—yield to Nerviline. Accept no substitute; 25c per bottle, or five for $1.00. All dealers, or The Catarrhozone Company, Kingston, Ont.

MIXED MARRIAGES

In virtue of a Papal decree known as "No Temere" marriages performed by Protestant clergy are null and void. If a Catholic marries a non-Catholic without the assistance of a recognized Roman Catholic priest, the Church declares that no marriage has taken place and that the children are illegitimate. The decree does not apply only to marriages that may be contracted in the future. It is made retroactive.

There are hundreds, perhaps thousands, of people affected in Canada, says the Toronto News. Many of them are being annoyed and worried by the assertions that they have never been married, that they are living in sin, and that they must put away the wives or the husbands they love in order to receive absolution. The decree had its origin in the Council of Trent, and, it is said, was in abeyance for over 300 years. But the present Pope is ultra-conservative and sees the world as it was in the middle ages. Therefore the decree is revived. In Germany and in Hungary so fierce a protest was evoked by its promulgation in 1908 that already the law is suspended. If the people of Canada submit to an edict so cruel and so absolutely iniquitous public sentiment must be dead.

The Roman Church or any other religious body in this country is subject to the laws of the State. The time has not yet come when the King's authority is to be usurped either by Bishop or Presbyter. Marriage is not only a religious rite but a civil contract. The laws define who may perform it. Every Protestant minister and every Roman Catholic priest when performing a marriage ceremony is the direct representative of the King. The position of the Church is secondary and incidental. The most elaborate rite with candles and full choral service is in no sense more binding than the hasty word of a Justice of the Peace.

Already, even in Ontario, there have been a number of cases of clerical interference that should not have been permitted. Homes have been broken up through the criticism of unduly zealous clergy. It is about time that one of these cases came before the courts. A suit against someone for the alienation of a husband's or a wife's affections or for non-support is about due in order to make it particularly clear that our marriage laws come from the Throne through Parliament, and that interference from Rome will not be tolerated. In this country separation a mensa et thoro and divorce are governed wholly by the law. The Church has no legal or moral status in interfering with a civil contract.

THE WAXWORKS AT WESTMINSTER

Wax Effigies of Some of the Most Notable Figures in History Find a Place There

People have a curiously mistaken idea that the only place in London where one can see really good wax figures is at Madame Tussaud's, but this is a great error on their part.

The waxworks at Westminster Abbey are also very interesting, and from an historical point of view, they may also be regarded as most venerable antiquities.

Years ago, in the early days of English history, people liked to be sure of their facts. There were no newspapers to herald the goings on of royalties, and every piece of news that was handed on from one to another came originally from an eye witness of the scene described.

Therefore, when a king died, as there were no newspapers in which one could read a discreet description of his dying moments, it became necessary to announce the fact in some more direct fashion. It was no use saying a king was dead, the statement had to be proved, and so it became customary to embalm the dead body of the king and to bear it openly upon the bier to its last resting place, so that the populace might see for themselves that there was no deception.

After a bit fashions changed, as they will, and instead of the king being embalmed and placed upon his bier, he was embalmed and placed within it, and a waxen effigy of the deceased sovereign was modelled from his dead figure and dressed in his best Sunday-going-to-meeting suit, and borne with pomp and heraldry on his coffin in the place of the poor, dead body.

When the body had received reverent burial at the Abbey the waxen effigy was placed upon the tomb, so that all might see what the sovereign had looked like upon earth. After a bit these effigies were found to lumber up the place, and it was decided to gather them together and to put them in the Islip Chamber, where they could be seen by the curious public for the small sum of threepence, which in those early days of which I write went into the pockets of the Minor Canons and Lay Vicars.

Sovereigns of Many Epochs

Many effigies were gathered in the chapel up the winding stair, but one by one they have crumbled to dust till only a few remain.

Queen Elizabeth is there in all her glory. Arrayed in the huge ruff with which her numerous pictures have made us so familiar, a velvet, gown, stitched with gold, a jewelled stomacher, and very high-heeled shoes.

She was so given over to the vanities of this world, that even when dying she insisted upon being arrayed in all her finery, and finally she died on the floor dressed as if for some great Court carnival, as you see her in the Islip Chamber. They say that the contents of her wardrobe on her death amazed everyone, so crowded was it with garments of all sorts, many of which the Queen had never even seen, much less worn.

By her side stands that merry monarch Charles II., in red velvet and priceless lace ruffles. There is a weird fascination in the pallid, ugly face of this well-known lady-killer, surrounded by a falling mass of inky black curls. His face wears a half cynical smile, as if he found even death amusing. He was the most attractive scion of the very attractive house of Stuart, if historians are to be believed, and also the most unreliable.

Next him stands one of the fair ladies he loved so gaily, the beautiful Duchess of Richmond, clad in the robes she wore at the coronation of Queen Anne. This fair lady was so beautiful that she sat for the design of Britannia on the copper coinage, a compliment to her classical features that she no doubt much appreciated.

Sidelights on Royalty

The Duchess of Buckingham is also here, a lady who is historically notorious for taking the deepest interest in funerals and their trappings—even her own. When she lay a-dying she ordered the canopy that was to be held over her hearse to be brought for her inspection, to see if it met with her approval. A Duchess of Buckingham could not quit this mortal sphere without every attention being paid to what was due to her rank and position in life. She probably knew the old saying, that if you want a thing done well you should do it yourself—and acted upon it.

William and Mary are also here, standing side by side, Mary completely over-topping her small, disagreeable-looking husband, whom she adored. They say that William, like many another husband, never fully appreciated his wife till she lay dying, and that then his grief knew no bounds.

William was a martyr to asthma, and this trying ailment may partly have accounted for his most uncertain temper, but in the death-chamber of his wife he strove to stifle his most persistent cough in case he might disturb her. But this kind attention on his part disturbed poor Queen Mary more than the cough. He had never bestowed any petits soins on her in life, and so, poor lady, she did not look for them in death, and she repeatedly asked where her husband was, and could not believe he was by her side because she did not hear his cough. What curious side-lights these little domestic details throw upon our knowledge of history! What a pity a few more have not come down to us! Lord Chatham and Lord Nelson are also here, but they are not genuine effigies, only fakes.

Lord Chatham was added to the collection by way of making a larger show, and Lord Nelson, arrayed in the clothes he wore at the battle of Trafalgar, even down to the patch over one eye, was shamelessly put here to attract back the fickle public, who deserted Westminster Abbey for St. Paul's when the national hero was buried there.—M. de L. Bartlett.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

MAIL CONTRACT.

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, 5th May, 1911, for the conveyance of His Majesty's Mails on two proposed contracts for four years, six times per week, each, between: 1, Peterboro and Fowler's Corners; 2, Peterboro and the Township of North Monaghan: both over certain specified roads, dating from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tender may be obtained at the post offices of Peterboro & Fowler's Corners and at the Office of the Post Office Inspector at Kingston.

G. C. ANDERSON,
Superintendent.

Post Office Department, Mail Service Branch, Ottawa, 17th March, 1911.

ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let those savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise ocurring for you 500 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

SIGHT REGAINED

Miraculous Recovery of Blind Carpenter of Frome, England—His Faith Was Rewarded

Totally blind for twenty-five years William Stone, a carpenter, of Frome, England, has just recovered the sight of one of his eyes in a manner little short of miraculous.

He met with an accident nearly thirty years ago which destroyed the left eye, and later the sight of the remaining eye began to fail. Stone sought advice in turn at Bristol, Bath, and the London Ophthalmic hospitals, but soon the world became dark and he was blind.

Almost everybody in Frome knew the blind man Stone, and his recovery has left the town agape with astonishment, for the manner of it is the most surprising thing possible. While washing his face, his finger came into rough contact with the eye. He cried out, but the note of pain changed suddenly to that of joy, for at that instant Stone was able to see his hand. He was soon able to distinguish various objects in the room before he collapsed, overcome by the shock of his sudden restoration to the light.

He still has some difficulty in recognising persons, but he is able to read the advertisements on a hoarding on the other side of the street, and has seen a motor-car for the first time.

"I was able to look my wife in the face again," he said to an interviewer "I have never ceased to trust in God, and my faith has been rewarded. Henceforth my life will be one long thanksgiving."

HANDICAPPED HUMANITY

What Life is Like to a Really Ugly Woman

To fight life's battle as an ugly woman is to hold a terrible millstone hanging round one's neck. Only those who themselves suffer in this way can fully realize, or begin to realize, how terrible such sufferings can be.

I know I am ugly—repellent. Fate was cruel to me, and sometimes I shudder when I look at myself in the glass. I need not write in detail of my physical defects, let me but say that children have cried when they have seen me, and seared my heart with their cry as with a white-hot iron. For I think would love children, and have them to love me.

At school I never realized its significance. I was eighteen when, one bitter day, an incident crammed the fact into my brain that I am not as other woman are. That is twelve years ago, and in those years I have had countless hours of untold misery.

First Signs

Quite unconsciously, men and women show me how I appear to them the first time I meet them. I have learnt to study their expression as they say, "How do you do?" and to watch for those minute signs of surprise or displeasure in their faces as they look at me. I would give anything to feel that I could go amongst strangers without seeing the trifling lift of an eyebrow, or noticing a nervous constraint of manner, which shows they are thinking how intensely ugly I am. But there is a malignant fascination in watching their play of expression, in looking out for those trifling mannerisms which play such a horribly jangling tune on my heart.

Occasionally I have met men with such self-control that they gave none of those signs I know so well. Women are more merciless. Even if it is done unconsciously, their eyes always betray their thoughts when I meet them. If people deign to take an interest in me, it is the same interest that they might take in some hideous reptile. The tragedy of it, for me, is that I can always see it.

With odd irony, Fate has given me a love for beautiful things. Sometimes, when I have been talking to a woman with an exquisite face, and watched the glory of her smile, I have felt that I would willingly sacrifice my life to look as she looked for a solitary day, feel that men worshipped me because I was lovely, and women hated me because I was more lovely than they were. And then the mad senselessness of such hopeless longings comes to me; I feel a wild despair creeping through my veins, and I long with every fibre of my being to make her as I am for one solitary day, so that she may know the agony she caused me by a look. But such bitter, cruel thoughts must be repressed at all costs. That way madness lies.

Oblivion and—the Truth

At times—perhaps in a drawing-room, while talking to men and women whom I know—I have forgotten my dreadful disfigurement, and drifted into the thought that I was an ordinary human being to look at, until some chance reflection of my face in a mirror brought home to me the terrible truth with a jar and I crept silently away, and hid myself in my room, with my tears of mortification.

I have tried living the life of a recluse, so that I might be spared the cruel glances, which are none the less cruel because they are unconscious; but solitude brought with it a heavier pang when I remembered why I was a social outcast. Then I took my courage in both hands, and tried to face the world as though I cared nothing for its opinion. For a time I was quite unmoved by furtive glances and subtle signs of disgust; but in a month the bitterness of my position began to eat into my soul relentlessly once more, and I retired for ever into the place where Fate had placed me—the unenviable background.—Answers.

ALTERED MEANINGS

Some Words that Have Changed Their Signification

To prevent, which is now to successfully obstruct, meant in its Latin original to anticipate.

A girl was anciently a young person of either sex.

Mountebank was the term applied of old to the patent medicine vendor who mounted a bench to proclaim his wares. It is from the Italian.

Paradise in Oriental tongues meant only a royal park.

Astonished means literally thunderstruck, coming from "attonare."

A knave was once merely a lad and a villain only a peasant.

To be silly was in its ancient sense to be blessed.

To be officious was to be courteously ready to do kindly office.

If a man was facetious, in the early English, he was but urbane.

An idiot was a private citizen as distinguished from an office-holder.

Frontispiece, if considered from its Latin source is not a picture in the front of a book, but the front view of something. The Latin word is "frontispicium."

"Beldam" is not an abusive term in its French source, but means a fair lady.

Shamefaced comes from a good Anglo-Saxon term which means not one exhibiting shame, but one protected by shame, being therefore innocent and modest.

A GALLANT CORNET

Sir George Wombwell, who recently celebrated his golden wedding, is probably best remembered for his gallantry in the Valley of Death at Balaclava. In the memorable charge, though he was not on duty with the 17th Lancers, in which he was a cornet, and extra galloper to Lord Cardigan, he rode on the right flank. Twice he had his mounts shot from under him, but he went to within a hundred yards of the terrible battery unscathed.

WOULD NOT FOLLOW HIM

Chedomir Milkovitch, a Belgrade policeman, committed suicide after his sweetheart had informed him she would not leave her situation to follow him on his new beat.

FATED FAMILY

Frederick Parker, of Hanley, who has just died from injuries received in a fall from a ladder, was the third of a family of four brothers—all housepainters—to die in this manner.

CATTLE GO TO CHURCH

Two bullocks entered Emmanuel Church, Nottingham, during the sermon. After visiting the baptistry they left without doing any damage.

State of Ohio, City of Toledo, Lucas County. ss.

Frank J. Cheney makes oath that he is a senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn before me and subscribed in my presence, this 6th day of December, A.D., 1886.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

HOPE OF WALES

Mr. Lloyd George on the Religious Activity of the Day

Lloyd George, in opening a bazaar in Wales, in which Mrs. Lloyd George is president, said of late he had had some experience of extracting money, and he hoped the promoters of that bazaar would not meet with his difficulties, and that their efforts would not arouse resentment, as he seemed to have done, among the customers at his little bazaar. (Laughter).

Within recent years, he said, he had motored more than ever through the sterile and wild parts of Wales, across great mountain moors, with hardly a habitation in sight, perhaps only a shepherd's cot, but he has never gone very far without seeing a little chapel somewhere or other in the wilderness. (Hear, hear.)

"I am also struck by the way Nonconformity is dealing with the rapid changes which are taking place, not so much in the character of the population as in its training and outlook. There are two conditions in the life of Wales which contain elements of peril to the spiritual life of any nation. One is the great access of material prosperity and the other is the enormous improvement in the educational outfit and facilities of the people. Both are full of peril to the spiritual life of the people unless they are properly dealt with, and unless measures are adapted of utilising them.

"For all the education was very much like carrying a lamp in the darkness — it illumined all the immediate vicinity, enabling one to see everything that was near with greater clearness, but it was very apt to darken the vastness around. At the great centres of learning on the Continent students saw material things with greater clearness, and thus for a moment darkened or thickened the darkness of impenetrable mysteries around them. Nonconformity realized the perils. Its ministry had become a better trained and educated one, and one which was quite adequate to cope with the new generation which was springing up in Wales with an intellectual awakening which was on of the greatest features of its rational life at the present moment. These were things that filled the heart of anyone loving Wales with a great sense of hope and of confidence as to the future of the country." (Cheers.)

WEANING THE FOAL

Preparations Should Be Made Weeks Before Separation

Preparations for weaning the colt should be made many weeks before it is to be actually separated from the dam. One of the first things to do in the way of preparation is to halter-break the foal. This is not a difficult thing to do if it is undertaken early in its life, and the earlier it is begun the easier it will be. Another thing in this preparatory course is to teach the foal to eat grain. This can best be done by feeding grain to the dam in a shallow box placed on the ground or the floor where the foal can easily reach it. The little fellow will see its dam. One of the first things to do is her example and begin to nibble at it. Once it has got a taste, it will be on hand to get its share every time the dam is fed.

The best age to wean is five months, but if one has plenty of cow's milk, and it is desired to wean the youngster sooner, it may be weaned at four months or even earlier. In case the foal is weaned early and milk is fed it should be diluted with water and sweetened with a little sugar.

WHAT BAD TEETH DO

According to a New York doctor, two decayed teeth in the mouth of a boy are sufficient to retard him six months in his studies.

COLDS
QUICKLY CURRED

Everybody has a cold. Some resort to tablets and powders that contain dangerous drugs, and death from heart depressing remedies is not infrequent.

It's poor policy to neglect a cold—especially when it can be cured so quickly without medicine.

You can send the soothing vapor of the pine woods, the richest balsams and healing essences, right to the cause of your cold by inhaling Catarrhozone.

Little drops of wonderful curative power are distributed through the whole breathing apparatus in two seconds.

Like a miracle, that's how Catarrhozone works in bronchitis, catarrh, colds, and irritable throat. You simply breathe its oily, fragrant vapor, and every trace of congestion and disease flees as before fire.

Catarrhozone Cures

No trace of the disease remains after Catarrhozone is used—no more matter to clog up the nose and cause you to cough and spit—no more headache and hearing ears.

Cure is absolute.

Because Catarrhozone contains such healing balsams and soothing antiseptics it can't help curing every kind of catarrh, throat, lung and bronchial trouble.

Don't experiment longer—Catarrhozone means sure cure. Two months treatment (guaranteed), price $1.00; smaller sizes 50c, at all dealers, or the Catarrhozone Company, Kingston, Ont.

The Morning Times
PETERBOROUGH, ONTARIO

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTER.

Store Renovated.

Mr. Chas. Banks is having his store renovated in order to make room for the spring stock.

All In a Name.

One of the vaudeville performers at the Royal Theatre said he named his horse "George Morrow" because it was a mare.

Local Reporter Wanted.

We have an opening for a bright lad as local reporter. Apply at this office.

Route Boys Wanted.

A couple of good reliable boys wanted at The Times office to carry morning routes. Wages $1 per week.

Will Be Prosecuted.

The Times is advised by circular from the Department that it is the intention of the Register General of Ontario to enforce the law against all those who do not register the births, marriages or deaths that may occur in their households.

A Fine Picture.

A large, handsomely mounted group photo of the Normal School students for 1911 is on exhibition at Richard Hall & Sons' display window. The faculty of the institution are also included in the photo, and the picture attracts considerable attention.

A Big Attraction.

The Royal Theatre has booked for this evening, and Tuesday and wednesday nights, the Manhattan Musical Comedy, direct from Buffalo—a company of fifteen performers, and is one of the best companies on the road. This is believed to be the best performance yet at the Royal Theatre, and the admission is only ten cents—afternoon and evening.

Won the Gold Medal.

Mr. Jas. McNicholl, window dresser for Messrs. Richard Hall & Sons, has been awarded a gold medal for the window dressing competition inaugurated by the Dry Goods Review. The medal is a very handsome one, and we congratulate Mr. McNicholl on his success.

You are probably aware that pneumonia always results from a cold, but you never heard of a cold resulting in pneumonia when Chamberlain's Cough Remedy was used. Why take the risk when this remedy may be had for a trifle? For sale by all dealers.

Dog Fight.

On Saturday afternoon a lively dog fight took place at the corner of George and Charlotte streets. A bull dog and a terrier mixed it up for a few minutes, but the terrier soon got the worst of it and made well its escape.

The Exemption Raised

The Provincial Secretary has agreed to raise the exemption slightly in his tax on licensed hotels. In cities the five per cent tax on bar receipts will apply daily on over $60, and in towns and country over $50. Show Days, Circus Days and Picnics, etc., the country hotels will have to whack up five per cent to the province.

Bad for Summer Cottagers.

Bobcaygeon Independent: It is reported that the unusual thickness of ice in the lakes has caused exceptionally heavy expansion, which has had a demoralizing effect on the wharves, crushing them in towards the shore. As a general thing it is only the moving ice when the lakes are breaking up that does damage, but this year the expansion of 32 inches of ice has been irresistable.

Ashburnham Boy Scouts.

A meeting was held on Saturday night at St. Luke's Church, when the organization of the No. 4 troop of Boy Scouts was completed. The troop will have a good membership, consisting of boys from 11 years and over.

Our Street Railway.

The Street Railway Company will add three new motors per-manently for vary on their equipment. As compared with other places of similar size, Peterborough has good reason to be proud of her electric car service. There is a general desire to have a line extended to East City as speedily as possible.

A Young Girl Arrested.

A young girl named Lena Van Norman, was found wandering the streets and when taken into custody was unable to give a satisfactory explanation of her conduct to the police authorities. Sentence was suspended and she was handed over to the care of the Salvation Army.

The Late Mrs. Edgecombe.

The funeral of the late Mrs. James Edgecombe, the particulars of whose demise appeared in Saturday's issue, will take place this afternoon at 3 o'clock and proceed to Little Lake cemetery for interment. Service will be held at the house at 2.30 p.m. The Rev. I. Couch will officiate.

Saturday's Market.

The market on Saturday was well attended. The following prices prevailed:

Maple Syrup $1.25 to $1.50 gal.
Eggs, 17c to 18c.
Butter, 28c.
Potatoes, 90c bag.
Pork 11c and 12c.
Beef, 9c and 10c.
Chickens 75c each.

Might Be Good Plan.

Port Hope Guide:—Deputy Chief Whatley has ordered policemen to take young girls given to roaming the streets at night, home to their parents, and to warn the parents that their offspring will be arrested if they continue to frequent the streets. These instructions have been put into force already in Hamilton. What about the girls in smaller places roaming the streets? It is certainly no safer in towns and villages than in cities.

Excursion to Winnipeg and Grand Trunk Pacific Ry. Points.

In connection with settlers and round trip homeseekers excursions to the West on April 4th the Grand Trunk Ry. Coy., will run a special through train from Toronto to Edmonton, leaving Toronto at 11 p.m., April 4th via Chicago, St. Paul and Winnipeg without change, arriving at Edmonton 7 p.m., April 7th. This train will carry Pullman Tourist sleeping cars with porter in charge. Berth rate to Winnipeg will be $3.75 for lower and $3.00 for upper. To Edmonton lower berth will be $6.15 and the upper $5.40. Mr. McCutcheon, commissioner for the Alberta government along with our travelling passenger agent will accompany same to see there is no trouble or delay and to look after the interests of the passengers. Consult City Ticket Agent Grand Trunk Ry. for rates, reservations and full particulars.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

Hats Off.

Editor Morning Times,—

Sir,—Why do not the moving picture managers insist on having their lady patrons remove their hats. It would be a whole lot better for everybody.

THEATRE-GOER.

The Proposed Loan.

Editor Morning Times,—

Sir,—I cordially endorse what your correspondent "Taxpayer" says in regard to the proposed loan to the Rubber Company, as he calls it. If Mayor Morrow desires to help this company, let the Toronto Savings & Loan Company, of which he is manager, lend the money. If the security offered is good enough for the ratepayers, it should be good enough for his loan company.

COMMON SENSE.

Reciprocity is Farmer's Rights.

Editor Morning Times,—

Sir,—In trying to remove an artificial barrier between two countries of kindred tongue and thereby restoring better trade relations and prosperity we believe if Premier Laurier and President Taft are successful, they will make names for themselves that will live on down through the ages.

J. R. Anderson, treasurer of the Eastern Ontario Dairymen's Association, says: "I had 35 cows and had I been able to sell the product of those cows in the United States my income for six months would have been $3.00 a day greater than it was." Now why should we on account of an imaginary line such as we have between Canada and the United States be barred from such a market.

Outside of the dairy produce, we have another export which we have not mentioned, that is barley. Canada produces malting barley of a quality the equal of which cannot be grown in the United States. For this reason American brewers will pay a higher price for Canadian than for their own home grown barley.

The duty, however, which is 30c per bushel makes the price of Canadian barley prohibitive to them. With free trade in barley, however, the trade that once flourished will again be re-established.

Thanking you for the space in your valuable paper, I am respectfully yours.

CHEESEMAKER.

A FOOD STORY

Makes a Woman of 70 "One in 10,000."

The widow of one of Ohio's most distinguished newspaper editors and a famous leader in politics in his day, says she is 70 years old and a "stronger woman than you will find in ten thousand," and she credits her fine physical condition to the use of Grape-Nuts:

"Many years ago I had a terrible fall which permanently injured my stomach. For years I lived on a preparation of corn starch and milk, but it grew so repugnant to me that I had to give it up. Then I tried, one after another, a dozen different kinds of cereals, but the process of digestion gave me great pain.

"It was not until I began to use Grape-Nuts food three years ago that I found relief. It has proved, with the dear Lord's blessing, a great boon to me. It brought me health and vigor such as I never expected to again enjoy, and in gratitude I never fail to sound its praises." Name given by Postum Co., Battle Creek, Mich.

"There's a Reason."

Look for it in the little book, "The Road to Wellville," to be found in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

MISSIONARIES AS EMPIRE BUILDERS

To Their Influence is Due the Acquisition of Many Large Territories

The expansion of South Africa is largely the work of the missionaries. In Bechuanaland the northern route was for a long time kept open solely by their influence. Some of the earliest roads were known as "Missionary Roads," and many place-names preserve the memory of individuals.

Indirectly the missionaries account for the Transvaal and Orange River Provinces. For though England had to pay $1,000,000,000 for the war of conquest, in contrast to the inexpensiveness of missionary labor, it was nevertheless to that latter that the great Boer Trek of 1836 was due, which resulted in the founding of the Republics. For had not Dr. Philip been so doughty a champion of the natives, and so trusted an adviser of the Government, the Boers would never have moved out.

Some Great Sentences

Of the great achievements of Livingstone it is unnecessary to speak; but we must not forget that they opened the country to successive incursions of Englishmen, and that John Mackenzie, the missionary, was one of the first to follow him. It was Mackenzie who saved the native states from extinction by the Boers, and, as Deputy-Commissioner of Bechuanaland, helped to found that province. It has been said that if his advice had been taken the Boer War would have been averted. The Moffat Treaty of 1888 with the Matabeles laid the foundation of Rhodesia for Britain. Yet that treaty was the work of a missionary, the Rev. J. S. Moffat, son of the famous Dr. Moffat.

Basutoland, the Switzerland of South Africa, Britain owes to a French missionary, Coillard of the Zambesi. Moshesh, the able Basuto chief, governed with a Cabinet of French missionaries.

Listen to Rhodes and Stead

Barotseland also, now known as North-West Rhodesia, is due to French Missionaries. Though it is as big as the German Empire it did not cost a single life. Coillard advised Lewanika, the king, to put himself under the protection of some European nation, and with great disinterestedness recommended the British. Convinced by past experience of the good judgment of the missionary, Lewanika agreed, and in consequence his country became a British Protectorate in 1890.

North-East Rhodesia, again, Britain owes to Stewart of Lovedale. By his exploration of the Chire country he supplied Lord Salisbury with the information on which he formed the British Central Africa Protectorate. By the founding of Livingstonia he did much more still to establish British authority there. It was only just in time to anticipate the great partition of the Continent, and to resist the Portuguese claim to the Nyasea region as well. As Cecil Rhodes once said: "We owe all Rhodesia to you Scotch missionaries." Or, as Stead more dramatically put it, "The frontier has advanced on the stepping-stones of missionary graves."

ELECTRICITY ON OLYMPIC

Power Plant on Modern Steamer is No Small Affair

The electrical power plant of a modern transatlantic steamer is no small installation. The steamer "Olympic" is to be provided with four units generating 2,144 horse-power. This power will be employed in lighting the vessel and for radiators in the first-class quarters; for cooking purposes, for operating various machines, cranes, winches, etc., and for running two passenger elevators and eight freight elevators. The lighting system will total 100,000 candle-power. At present, while being fitted up, the vessel is furnished with electric light and power from a 320-kilowatt plant on a tug moored alongside. The tug is also provided with a steam fire pump for use in case of emergency.

FORTY MILES A DAY

Archdeacon Sinclair Has Taken Many a Long Walk

It was a London policeman who, referring to the splendid physique of Dr. Sinclair, Archdeacon of London, whose forthcoming retirement has been announced, said, "He ought to be one of us." Dr Sinclair stands considerably over 6 feet in height, and is broad in proportion. His father was one of fifteen children, the shortest of whom was 6 feet in height and the tallest 6 feet 7 inches. One day the tallest of the Archdeacon's aunts was accosted by an Irish beggar woman, who invoked blessings on her head in the hope of alms. Finding her blandishments in vain, the woman changed her tone, and exclaimed, "At least ye might give me your shoe to make a cradle for my baby." In his days of greater leisure, Dr. Sinclair used to ride a good deal and cycle—he once cycled from London to Thurso, 730 miles—and he has tramped his forty miles a day for several days in succession, and even slept out on a moor in Scotland after such a walk.

A ROYAL PREACHER

Prince Max, brother of the King of Saxony, whose writings have aroused much criticism of late, will be favorably remembered by many. About a dozen years ago he was a devoted worker among the poor of Whitechapel, where his mission sermons drew large congregations to the German Church. Subsequently he won wide popularity in Paris, and all the religious rank and fashion of the French capital flocked to hear his sermons.

Low Round Trip Rates to Ninety Northwest Points

Exceptionally low rates to principal points in Western Canada on Canadian Pacific Homeseekers' Excursions, leaving Toronto Tuesday, April 4th, at 2.30 p.m., and every second Tuesday during the summer. Tickets are good for sixty days with liberal stop-over privileges. Special trains are run by the fastest and most direct route—avoiding any change of cars and possible delays. Berths in tourist sleeping cars can be secured at a small additional cost. Full particulars given in Homeseekers' pamphlet, copies of which may be obtained from any C. P. Ry. Agent or direct from R. L. Thompson, District Passenger Agent, C. P. Ry., Toronto.

THE MINES DEVELOPING MACHINE WILL BE INCORPORATED

It is One of the Greatest Inventions of the Age for the Speedy Development of Mines

A device which will, when installed, be the means of placing hundreds of mining properties, now laying idle, on a producing and dividend paying basis. It will develop a mine in months where it now requires years. It will be the means of bringing sure and quick returns on mine investments which are now slow on account of the long time required to either reach the ore bodies or develop them to an extent which admits of productions on a large scale.

IT CAN BE USED IN ALL MINING REGIONS.
IT CAN BE USED IN DRIVING IRRIGATION TUNNELS.
IT CAN BE USED IN DRIVING TRANSPORTATION TUNNELS.
IT CAN BE USED IN DRIVING DRIFTS AND UPRAISES IN MINES AND IT WILL WORK IN ALL KINDS OF FORMATION.
IT DRIVES A COMPLETE TUNNEL, DRIFT OR UPRAISE, AND SHAPES ITS WORK ON A SCIENTIFIC PRINCIPLE.

Contracts have already been signed for the use of enough of these machines to keep a large factory busy building them for many months, and I predict that before 5 years many hundred of them will be in use.

A corporation will be organized within a short time to own and handle the machine, and it will be capitalized for $1,000,000 divided into 1,000,000 shares. One-half of the stock will be placed in the company's treasury.

YOU CAN NOW BUY PRE-ORGANIZATION STOCK AT 25c PER SHARE (either for cash or ten-payment installments) BUT YOU CANNOT BUY IT FOR LESS THAN 50c PER SHARE AFTER THE INCORPORATION TAKES PLACE.

GET IN ON THE GROUND FLOOR IN THIS ENTERPRISE. TAKE ADVANTAGE OF THE PRE-ORGANIZATION OFFER NOW.

Use the coupon in making your subscription, either for cash or installments, and make all remittances payable to

LITTLE LOCAL LINES

There was a good business done by ther merchants on Saturday last.

A large flock of wild geese were seen flying north yesterday.

The Times has a vacancy for a young man as local reporter.

Marathon Lodge, K. of P., Contributed $7 towards the chimes fund.

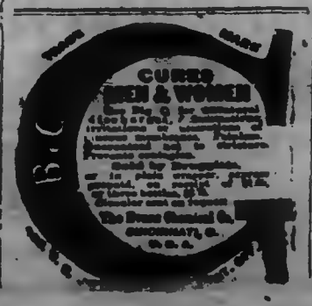
The 57th Band propose to give another of their fine concerts in the Armouries in the near future.

Mr. J. C. Eaton has the plans out for a new town hall which he proposes to build and present to Omemee village.

All members of No. 6 Company of the 57th Regiment are requested to meet in their quarters at the Armouries this evening at 8 o'clock.

Rev. C. H. Coon of Mark street Methodist Church has accepted a cordial call to the Grace Methodist Church at Trenton. He will take his new charge in June.

Ex-Reeve Maloney, of Douro, was recently presented with a beautiful Morris Chair, accompanied by an address, by his many friends in the township, on his removal to Peterborough, where he will reside in future.



SOCIETY EVENTS

Mr. C. Fairwell is in Lindsay today on business.

Mrs. A. Kidd, of Fraserville, was in town on Saturday.

Mr. Jas. Dickson, O.L.S., Fenelon Falls, was in town Saturday.

Messrs. Guerin and Sweeney leave to-day for Vancouver, via Chicago.

Mr. C. Jenney, travelling passenger agent of the Grand Trunk, spent Saturday morning here.

Mr. E. Peck, of the Nordheimer Piano Co., went to Riverdale on the noon train, Saturday.

Mrs. T. J. Wilson of Stewart St., entertained in honor of her guest, Miss Laishley, of Toronto.

Mr. N. A. Howard-Moore has gone to New York, where he has accepted a lucrative position.

Mr. and Mrs. A. A. Fowler entertained the members of the Mark street choir and a few of their friends on Friday evening. Dainty refreshments were served before the party separated.

Miss Julia Choate, Peterborough's talented violinist, will take part in the Earl Grey competition at Winnipeg in April.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Plaza between Dufferin P.M., on Monday, April 3, 1911, for and Sapper's Bridges, Ottawa," will be received at this office until 4.00 the construction of a Plaza between Dufferin and Sapper's bridges, alterations to Dufferin bridge, and demolition and reconstruction of Sapper's bridge.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. 10 p. c. of the amount of the tender which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

Department of Public Works,

Ottawa, March 16, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

VOL XXXIV NO. 73 PETERBOROUGH, ONTARIO, TUESDAY MARCH 28, 1911 PRICE TWO CENTS

R. L. BORDEN SOON TO RETIRE M'BRIDE TO TAKE HIS PLACE

MONTREAL POLITICIANS HEAR THAT CONSERVATIVE LEADER WISHED TO GIVE UP THE POST.

Due to Private Affairs—He is Unable, It is Explained, to Devote Sufficient Time to Politics at a Time When Much is Demanded.

Montreal, March 27.—The immediate retirement of R. L. Borden from his ten-year leadership of the Conservative Opposition in the Federal Parliament is anticipated here. Those prominent in the councils of the party go so far as to say that they understand that Mr. Borden will make his announcement to-morrow.

No political significance can be read into the retirement of the Conservative chieftain at this critical moment. His business relations have, it is explained, so grown apace that he finds it impossible to afford the requisite time to politics, especially with a great national issue before the House and an appeal to the people in prospect. Mr. Borden is unable to give his whole time to his party, and believing that in their grasp the Conservatives now have the greatest opportunity of a generation, he is unwilling in any way to jeopardize their roseate chance. Therefore Mr. Borden will ask the Conservative Opposition to choose another leader.

As to his successor, several names have been mentioned. It is practically certain that the new leader will not be chosen from the Speaker's left but that an invitation will be issued to some Conservative who has made good in provincial politics. A man is wanted with a strong local following. Outstanding are Sir James Whitney, Premier of Ontario, and Hon. Richard McBride, Premier of British Columbia. Either would add strength to the Conservative camp in its forthcoming tussle. Both head Governments with large majorities in their respective provinces.

LOOKS LIKE McBRIDE.

The shrewd ones, however, are firmly convinced that the westerner will be the likely successor to R. L. Borden.

It is hardly possible in any case, that Sir James Whitney could be induced to leave Ontario.

SON OF THE WEST.

Hon. Richard McBride is the most prominent son of the westernmost province, where he was born forty years ago. He is a great political fighter—he comes from Irish stock. Consequently, it was only four years after he entered the B.C. Legislature in 1896, that he won his way to a seat in the Dunsmuir Cabinet as Minister of Mines. He broke with the Government when he took Hon. Joseph Martin into the fold, and in 1903 he became leader of the Opposition. Only a few months passed before his party came into power. McBride, himself, became Premier, and at the general elections of November, 1903, February, 1907, and November, 1909, he was sustained by increasing majorities. It is not the first time he has been merited as a leader of the Federal Opposition.

HON. R. L. BORDEN

Leader of the Conservative Opposition in the House of Commons, Who May Retire From Political Life.

A WEDDING GIFT FROM SIR WILFRID

Chief Paudash, of Rice Lake Indians, Honored.

Mr. Johnson Paudash, Chief of the Rice Lake Indians, returned from Ottawa yesterday, where he has been on business in connection with matters between the Indians of Hiawatha and the Government. Chief Paudash had interviews with Sir Wilfrid Laurier, Hon. Frank Oliver and others, and it is understood that the relief asked for will be granted. Chief Paudash who is soon to be married, to Miss Florence, daughter of the Chief of the Scugog Indians, was presented, while in Ottawa, with a handsome silver tea set, by the Premier.

Y.M.C.A. NOTES.

Tuesday's Class.

To-night will be the closing class for the Tuesday night members of the "gym." All members are requested to be present.

Stereoptican Lecture.

Next Friday evening Dr. Marsh will give a stereoptican lecture on "A Trip Through Labrador." No admission will be charged and no doubt there will be a large number present.

Wrestling Class.

A fairly large number attended the wrestling class last night.

A SHOCKING SIGHT IN THE NEW YORK FACTORY RUINS

TALK OF SIFTON OPPOSING GRAHAM

Ottawa, March 27.—There is more talk in parliamentary circles to-day in regard to the political future of Hon. Clifford Sifton, and the story that he will desert the Liberals, and go over to the Conservative side, opposing Hon. Geo. Graham in Brockville, is revived. There is however, no confirmation of the story.

FORMER HAMILTON WOMAN WHO SHOT HER HUSBAND IS STARVING TO DEATH

Chicago, Ill., March 27.—Mrs. Theresa Schenk, formerly of Hamilton, Ont., who killed her husband in their Parkridge home recently, according to Coroner Hoffman, is in a critical condition. He believes she is dying.

"Mrs. Schenk has not eaten a thing or slept a natural wink since her husband's death," said the coroner. "Life seems to have lost all its charms for her and I don't think she ever will face an official inquisition for the killing."

Another development is that the life insurance companies with which Schenk held policies are threatening to fight payment of the claims. It was estimated that Schenk might have taken poison before he was shot as his body was near a medicine chest.

RURAL P. M.'S WANT FIFTEEN DOLLARS A MONTH MORE

Ottawa, March 25.—A deputation of about 40 members of the Postmasters' Association of Canada interviewed Hon. Rodolphe Lemieux.

To increase the minimum salary for postmasters in rural offices from $35 to $50 per month, and to increase the commission from 50 per cent. to 60 per cent. in the sale of stamps, also to be granted a more liberal rent allowance, together with necessary supplies for the work of the offices.

A second request was to the effect that a system of classification for the money order offices providing or possible promotion be made, and Mr. Turriff also asked that a more strict regulation for libelling newspapers be enforced. Hon. Mr. Lemieux made a favorable reply, stating that in most cases the postmasters were justified in asking for a change, and that their request would receive attention.

AMERICAN SOLDIERS KILL AND INJURE MEXICAN REBELS

El Paso, Texas, March 27.—A detachment of United States soldiers and insurrecto sympathizers fought a running battle 50 miles west of Del Rio, Texas, late yesterday afternoon, according to advices received here to-day.

The civilians were attempting to smuggle arms across the border when they were surprised by the United States troops. When commanded to surrender they refused to do so and began firing on the American soldiers. The volley was returned and two of the insurrectos' friends were killed. The rest fled, abandoning the munitions of war.

Three thousand rounds of ammunition and 100 rifles were captured.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

POLES ON THE STREETS.

Editor Morning Times.

Sir,— I see that some attention is being given by the City Council to paving the streets of the central portion of the city. Before anything of this kind is done I hope the unsightly poles which disfigure the streets will be removed. It would be absurd to do any paving with these poles stuck here and there.

We have a progressive Mayor and Council and the people look to them to have the telegraph companies remove their poles as speedily as possible. Until this is done it will be useless to think of putting down fine pavements.

—Citizen.

WHO COUNTS THE MEN?

Editor Morning Times.

Sir,—I would like to ask through your "Public Opinion" column, in the event of the Independent Tire By-law being carried, what guarantee have we that a minimum of 40 men will be employed. Who counts the men? Surely there should be some system in regard to matters of this kind? I am not opposed to granting the Company the assistance asked for, but I would like to know that it will be a square deal, and that the city will not be flim-flamed.

—A.J.K.

EASTER EGGS.

Editor Morning Times.

Sir,—When and where were eggs first used on Easter, and what are they supposed to signify? J.W.S.

Reply—It is generally asserted that the use of eggs at the Easter season was derived from a custom long antedating the Christian festival. The Persians, for instance, used eggs as a New Year's gift, as symbolizing fecundity and prosperity. The Romans had egg games in honor of Castor and Pollux, who were said to have been hatched from an egg of the swan Leda. As the new year with the Romans began at the Easter season, the egg custom was easily transferred from the Pagan to the Christian festival. Furthermore, eggs always formed a part of the Passover feast of the Jews. Some writers, however, have doubted whether Easter eggs had any connection whatever with ancient superstitions. In the fourth century, the eating of eggs during Lent was forbidden by the church. As the unorthodox hens continued to lay there was a large accumulation of eggs at the close of Lent, and on Easter Day they were set out in great platters upon the tables. The simple fact of the abundance of eggs at medieval Easters is sufficient to account for the fancy for decorating them, giving them away or using them for the children's games.

Montreal, March 27.—While the Eastern Division of the Fire Brigade were responding to an alarm last night for a small blaze in a grocery store of Joseph Charbonneau, 800 Lafontaine street, Fireman T. Gauthier fell under the wheels of the ladder truck on which he was riding and was fatally injured. He was picked up unconscious and hurried to the Notre Dame Hospital, where an examination by physicians brought out that there were practically no hopes for his recovery.

EMPLOYES WERE CONFINED IN DEATH TRAP BEHIND LOCKED DOORS.

Manslaughter Charges Will Be Laid Against Those Responsible for New York Horror—Helpless Girls Were Locked in Factory to Prevent their Smuggling out Pieces of Lace.

New York, March 27.—District Attorney Whitman announced to-day that he would demand from the New York county grand jury indictments charging manslaughter and criminal negligence as a result of the holocaust in the Triangle Waist Company factory Saturday afternoon. Evidence has been presented to Mr. Whitman that several doors were locked, thus preventing many of the victims from escaping. Negligence is charged to the owners of buildings and Rudolph T. Miller, superintendent, will be called upon to explain the lack of protection for the workers.

To-day the horror of the fire grew with each succeeding hour. One hundred and forty-five bodies had been recovered up to 7 o'clock this morning and the search was still going on. Of those recovered ninety had been identified. Probably two score will never be identified, the bodies being charred and battered beyond recognition.

Of the ninety bodies identified only 16 were men. The victims whose bodies had been claimed by their families, were mostly young girls, one of them being only 14 years of age. Another was a girl of fifteen. Six were sixteen years, twelve were seventeen, thirteen were eighteen, twelve were nineteen and the remainder twenty or over.

While thousands were tramping the lanes of death in the morgue at the western foot of twenty-sixth street, in an attempt to identify the remaining dead, three other investigations in addition to that of District Attorney Whitman were under way. They are being prosecuted by the fire department, the police department, and the coroner's office.

Governor Dix in Albany has the holocaust under advisement to-day, and is expected to order a State investigation with a view to securing the enactment of new laws for the protection of factory workers.

Despite a rainstorm, thousands had gathered outside the morgue when the doors were opened at 8 o'clock. Many were women, carrying babies in their arms, and sobbing hysterically. Police reserves and detachments of mounted police were necessary to handle the crowd.

Through the night many doctors worked over the corpses, washing and clothing them and turning them over to embalmers who placed them in glass covered coffins for the inspection of the identifiers. Scores of guards were stationed through the morgue to prevent an outbreak.

While the death march proceeded through the morgue, a pall of gloom hung over the east side where nearly all the victimes lived. Scores of them were the only support of their families.

District Attorney Whitman declared that his evidence would be presented to the April grand jury. Many witnesses were summoned.

THE BY-LAW SHOULD PASS

Yesterday one of the city Aldermen called on The Times to say that the letters which appeared in the "Public Opinion" column of this paper were not calculated to assist in the passage of the by-law in favor of the Independent Tire Company. We explained that the letters referred to were not the opinions of this paper, and that The Times was strongly in favor of granting the company the assistance asked for. We are pleased to see that the Council and Board of Trade as well as many of the leading citizens are doing all they can to ensure the passage of the by-law. We will refer to this important matter later on.

BISHOP FALLON ISSUES WARNING SPEAKS ON MARRIAGE LAWS

London, Ont., March 27.—Bishop Fallon confirmed a large class in St. Mary's (R.C.) Church last night and in the course of his sermon dealt briefly with the marriage laws of the Catholic Church.

"I wish to warn you," he said, "against paying any attention to the nonsence and twaddle which is being printed in the papers now in this regard. It is a piece of impertinence to say that the Church cannot make marriage laws to govern her own people. She has made the law, and Catholics will abide by it or get out of the Church.

"Matrimony is a sacrament in the eyes of the Church, and when she says 'what God has joined together let no man put asunder,' she means it for the rich and the poor, the old and the young, the lettered and the unlettered alike. There is no way to get around it.

"There is much nonsence now in the papers, on the market, on the street corners and elsewhere. Pay no attention to it. It's no new law the Catholic Church has made. Her position has not been changed one iota in this regard. She will not countenance the word divorce, and she also claims the right to make the laws to govern the marriage of her people."

WOULD-BE SUICIDE LOST HIS NERVE

Lindsay, Ont., March 27.—George Willis, 26 years of age, who was brought to the Lindsay jail a few days ago, awaiting removal to the asylum, endeavored to end his life by hanging himself Sunday morning. He cut his bedding into strips and made a noose. After being suspended for a short space, he lost his nerve and let himself down again.

Two Fast City League Games Last Night.

There were two games last night in the City League. Both of them were very closely contested as the score indicates.

In the first one the Ponies succeeded in trimming the Pirates by a score of 29—26.

The line-up was as follows:

—Ponies—
Flowers (Captain)
Wallis.
English.
Shore.
Turner.

—Pirates—
Hastis (Captain)
Nicholls.
Davis.
Hanwell.
Fitzgerald.
Referee—D. Loomis.

The second game was between the Giants and Fairies. It resulted in a win for the Fairies. The half-time score was 13-13, with a final score of 26-25. F. Ellis refereed satisfactorily.

—Giants—
Loomis (Captain)
Cressman.
Downing.
Tait.
Sisson.

—Fairies—
Caniff (Captain)
Elliott.
Hall.
Fleming
Turner.

THE LATE MRS. PATTERSON.

Mrs. Patterson, who resided with her son at 583 Downie street, died on Sunday night, at an advanced age.

The funeral takes place this morning. The deceased will be interred at Burleigh cemetery.

THE WEATHER.

High winds, shifting to northerly, colder with snow flurries.

NERVOUS, LIFELESS DEBILITATED MEN

YOUNG MEN AND MIDDLE-AGED MEN, the victims of early indiscretions and later excesses, who are failures in life—you are the ones we can restore to manhood and revive the spark of energy and vitality. Don't give up in despair because you have treated with other doctors, used electric belts and tried various drug store nostrums.

Our New Method Treatment has snatched hundreds from the brink of despair, has restored happiness to hundreds of homes and has made successful men of those who were "down and out." We prescribe specific remedies for each individual case according to the symptoms and complications—we have no patent medicines. This is one of the secrets of our wonderful success as our treatment cannot fail, for we prescribe remedies adapted to each individual case. Only curable cases accepted. We have done business throughout Canada for over 20 Years.

CURABLE CASES GUARANTEED OR NO PAY

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. Write it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion Free of Charge. Books Free—"Boyhood, Manhood, Fatherhood." (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. No names on boxes or envelopes. Everything Confidential. Question List and Cost of Treatment FREE FOR HOME TREATMENT.

TEN MILLIONS OF PEOPLE TO VIEW THE CORONATION

HON. RICHARD M'BRIDE

Who May Succeed Mr. Borden as Leader of the Conservative Opposition in the House of Commons.

WITH EVENT THREE MONTHS AWAY ALL ENGLAND IS AGOG WITH EXCITEMENT.

Many Brilliant Pageants—And Imperial and Royal Ceremonies that Will be Epoch-Making.

London, March 27.—With the coronation less than three months distant, all England is astir with preparations for the celebration. Brilliant pageants are being organized to emphasize the loyal love of the subjects of a great Empire for the Sovereign who on June 22 will be enthroned and crowned in Westminster Abbey as King George V.

In addition to the coronation ceremony on June 22, the Royal progress through the streets of London on June 23, the naval review off Spithead the next day, the gala performance at the opera on June 27, and the service at St. Paul's on June 29, the King and Queen will welcome 100,000 children as their guests at the Crystal palace on June 30. Then will come the visits to Ireland and Scotland, to be followed by a journey to Carnarvon for the investature of the Prince of Wales on July 13. It is expected that more than 30 miles of London streets will be traversed by the King and Queen during the splendid festivities of May and June, and it is estimated that the Coronation and its attendant spectacles will be witnessed by ten million spectators.

In all the colossal work of organization for the Coronation celebration the reception of Royal guests, and of delegates from the oversea Dominions there is one supreme arbiter, the King, to whom are referred all intricate questions of plan and precedent, and his swift and sure decisions clarify and dispose of numerous problems every day.

As an evidence of the great influx from overseas it is announced by the most important steamship lines that every steamship that arrives in an English port on any day from the end of March until the third week in June will be filled to her passenger carrying capacity with visitors anxious to see or take part in the festivities of the Coronation. More than twenty great ships will, it is reported leave each week from Canadian and American ports when the great rush commences in May, each crowded with passengers bound for this country. Each week thereafter until the coronation celebration is ended some eight thousand visitors from the other side of the Atlantic will land in this country. It is believed there will be at least one hundred and fifty thousand visitors from the United States this season, and that one hundred thousand more will come from Canada and the British Colonies.

18 LEFT STEAMER IN TIME

THIRTEEN WENT DOWN TO THEIR DEATH.

Presbyterian Missionary and His Wife, Returning From Son's Wedding, Among Victims of "Sechelt" Capsize.

Victoria, B.C., March 27.—With nine passengers and a crew of four on board, the steamer Sechelt, a small shelter deck steamer, operated between Victoria and Sooke by the British Columbia Shipping Company, capsized off Beachy Head.

THE VICTIMS.

Among the known dead are:—The Rev. W. J. Burns and wife, Presbyterian missionaries at Sooke, who had been in Victoria, attending their son's wedding; J. S. Henderson, aged 32, of Cody, Wyoming, surveyor for Canadian Northern; Captain James, and Engineer Young.

The other victims were all Italians and Greek railway laborers.

There were 31 people aboard, including four of the crew, when the steamer left Victoria. Of these 18 passengers refused to proceed beyond William Head, because of rough weather, and debarked. They returned to Victoria by railroad.

The tugs Joliffe and Madge returned from a search of the waters near William Head. They could find no trace of any wreckage nor of any living human beings.

PATIENT CAMORRA TO ABANDON TRANQUILLITY AND SPEAK OUT

Viterbo, Italy, March 25.—The Attorneys for the defence flocked to the Santa Maria in Gradi to-day to consult with their clients on the counter attack to be made upon the informer Gennaro Abbetemuggio when the trial of the 36 Camorrists is resumed next Tuesday. They found the sorest lot of criminals ever gotten together in an Italian prison.

With a fine show of indignation the accused declared that when permitted to speak, they would refute their former associates "inventions." During the recital they had composed themselves with great discretion in order not to create an incident disturbing the serenity of the Court which certainly must eventually acknowledge their innocence.

To what extent their indignation was assumed was impossible to determine for these desperate men have been trained in a school where dissembling under pressure is an art. There is no doubt, however, that Abbetemuggio's cleverness in telling his story yesterday filled the Camorrists with genuine rage. Posing as a penitent prepared if need be, to give his life in expiation of his crimes, the informer made a deep impression and the lawyers for the defence realize that a strong cross-examination will be necessary if the confession is to be discredited. A long list of questions to be asked Abbetemuggio was decided upon to-day.

The priest Ciro Vitozzi during the conference with his lawyer, delivered to the latter the memoirs which he has been occupied in preparing during his confinement. Placing the manuscript in the hands of his adviser the Priest said: "They are flesh of my flesh. They are the cry of a martyr whose spotless conscience must appeal to justice."

The memoirs are not very interesting. They contain a repetition of matters already known, an attack upon the jailers at Naples who are described as "worse than those of the Inquisition;" and wind up with an eulogy of the author who appears to be consumed with self-pity. His whole life, he says, has been devoted "to reclaiming lost lambs to the fold."

Viterbo, Italy, March 25. The most sensational session of the trial of the Camorrists, who are charged with the murder of Gennaro Cuocolo and his wife, occurred to-day when Gennaro Abbetemuggio, the ex-member of the murderous gang who turned state's evidence against his former brothers in crime, took the stand. The court room was crowded.

Abbetemuggio as he was interrogated, stood outside his cage erect and his chest well forward, as though challenging the world. He spoke aloud throughout and endeavored to give strength to his arguments with dramatic gestures. He described the organization of the Camorra, its degrees, plans and modes of working. He said he knew everything concerning the organization, because he was its most active member until 1907.

The witness enumerated thefts he had committed with Luigi Arena, who sat in the big cage with the other prisoners, glaring at Abbetemuggio and biting his lips as though he would like to eat the informer. Abbetemuggio recounted how Giovanni Rapi, treasurer of the Camorra, was made receiver of their stolen goods.

When he reached the climax of his testimony, Abbetemuggio summarized the Camorra by saying: "It is a filthy association."

FOR FAMILY USE

An Ideal Remedy for Coughs, Sore Throat, Catarrh, Weak Chest.

After having made a special study of the treatment of the throat and lungs for twenty years, Prof. D. Jackson, states that in his opinion no preparation for general family use is so efficient, so healing, so certain to cure as Catarrhozone.

All his reasons for making this claim for Catarrhozone, Dr. Jackson says:

"Catarrhozone is free from opium.

"The patient can breathe its rich, balsamic fumes direct to the diseased spot.

"It is a remedy that treats and cures causes—prevents disease spreading.

"Reaches the innermost recesses of the throat, nose, bronchial tubes and lungs.

"Alleviates chest soreness.

"Stops coughing instantly.

"Prevents bronchial irritation.

"Relieves clogged nostrils.

"Cures sniffles and nasal catarrh.

"Prevents La Grippe.

"Has proven itself a cure for weak lungs, loss of voice, speakers' sore throat, asthma, bronchitis, catarrh, coughs, colds, and Winter ills."

Catarrhozone is unquestionably the world's greatest breathable cold, cough and catarrh medicine, and being free from all drowsy drugs, entirely safe for children and old folks; it makes an ideal family remedy. Recommended by the medical profession and sold by all reliable dealers. Beware of imitations, get "Catarrhozone" only; large size lasts two months, and is guaranteed, price $1; smaller sizes 25c and 50. By mail from the Catarrhozone Company, Kingston, Ont.

The Morning Times

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

FRESH AIR.

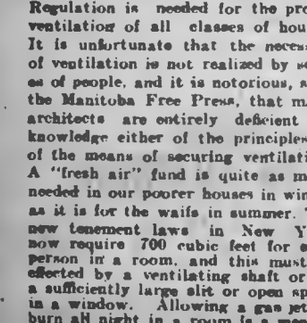
There is no more important matter tending to the health of the people than the heating of their houses in winter and in securing pure air. Many people, to save heat, never open a window for pure air in the winter time. This is simply monstrous. Regulation is needed for the proper ventilation of all classes of houses. It is unfortunate that the necessity of ventilation is not realized by scores of people, and it is notorious, says the Manitoba Free Press, that many architects are entirely deficient of knowledge either of the principles or of the means of securing ventilation. A "fresh air" fund is quite as much needed in our poorer houses in winter as it is for the waifs in summer. The new tenement laws in New York now require 700 cubic feet for each person in a room, and this must be effected by a ventilating shaft or by a sufficiently large slit or open space in a window. Allowing a gas jet to burn all night in a room is a menace to health, for it is held that a burning gas jet will use as much of the oxygen of the air as five persons in breathing. These statements apply not only to residence rooms, but also to factories, warehouses, shops and public buildings. The startling statement is given that in a large government office when in the old, badly ventilated room, the cases of sick leave for a year of the clerks amounted to 18,796 days; when the new, well-ventilated quarters were obtained the annual number fell to 10,714 days—a marked tribute to good ventilation.

MENTAL DISEASES.

What causes the increased number of mental diseases which asylum statistics record to-day? Is it due to "burning the candle at both ends" or the wearing conditions of present day business life, or a combination of both? These are questions often asked, but not as easily answered.

Dr. Hobbs, of Guelph, discussed this question before the Supreme Circle of the Canadian Home Circles in Toronto, and his views are most interesting, coming as they do from a man so versed in the subject. His conclusion appears to be that in order to avert these mental collapses people must take proper rest and allow recreation to alternate with work at high pressure.

He declared that derangements of the nervous system are gradually becoming a menace to the health of the nation. There has been for some years a general recognition by Canadians of the ravages of consumption, or the "white plague," and is-



olation in special hospitals is doing much towards lessening the spread of this deadly scourge. Already in the Eastern States the great neurologists or nerve specialists are advocating public sanitaria for the proper care and isolation of nervous wrecks, who have been compelled by the exigencies of life to burn the candle at both ends, resulting in serious exhaustion of the nerve centres, and subsequent fatal collapse. Sooner or later it will be forced home to us, says Dr. Hobbs in referring to the remedy, individually and collectively, that proper rest and recreation must alternate with working at high pressure, which has become a habit of the toiler of to-day.

OBITUARY

The many friends of Mr. and Mrs. Wm. T. Arnott, near Downer's Corners, will deeply sympathize with them in their great loss which they have sustained in the death of their darling little daughter, aged two years and five months, which took place on Sunday afternoon.

The funeral will be held this afternoon at 2.30 to Little Lake cemetery Rev. H. R. Trumpour will officiate.

THE LATE MRS. CAVANAGH.

Mrs. Richard Cavanagh, an esteemed resident of Otonabee, died Sunday evening about five o'clock at the residence of her son, William Cavanagh Otonabee.

She was greatly esteemed and beloved by all who knew her.

Her husband predeceased her about five years ago. A family of two sons and three daughters survive her, to whom the deepest sympathy of their many friends is sincerely extended.

The funeral will be held this morning at nine o'clock from the residence of her son, to St. Joseph's Church, and thence to St. Joseph's cemetery, Douro.

THE LATE ANDREW SHEARER.

There passed away on Sunday last, an old an highly respected citizen of the township of Otonabee, in the person of Mr. Andrew Shearer, at the ripe old age of 77 years. The deceased was a Methodist in religion, and a Liberal in politics. He had lived in the township from early manhood, and had a very large circle of friends and acquaintances. He is survived by two sons, Messrs. John Shearer, at home, and James Shearer of Keene, and six daughters, Mrs. Hall, Mrs. Breckenridge, of Indian River, Mrs. Andrew Evans, Jermyn, Mrs. Breckenridge, Westwood, Mrs. Porter of Otonabee and Mrs. Foster of New Liskeard.

The funeral will take place to-day at 2 p.m. from the family residence, lot 26, con. 3, Otonabee to Fife's cemetery for interment.

DEATH OF MRS. COULTER.

Many citizens will learn with deep regret of the death of Mrs. Coulter, wife of Mr. Robert Coulter, of this city, which sad event took place at the residence of her son, Mr. Wm. McCormack, 266 Crawford street, Toronto, where she had been for some weeks. The late Mrs. Coulter passed away on Saturday. The funeral was held at Toronto yesterday.

Miss Bessie Coulter and Mrs. A. A. McIntyre, of this city, are daughters.

Doctors Condemn Oily Liniments

Many people have clung to the old-fashioned idea that a thick, greasy liniment is the best kind. Doctors say not—and they know.

Recently a number of these white, oily liniments were analyzed, and they were found to contain an enormously high percentage of harmful acids, and such irritating chemicals as ammonia, etc. For the moment they may cause a warm sensation when first applied, but their continued use never cures rheumatism, and only deteriorates the skin, sets up inxammation and causes endless trouble.

When a doctor warns you to quit using a white, only liniment—do so. He knows that a thick liniment can't penetrate, can't sink through the pores and reach the seat of the pain.

When asked his opinion a few days ago, Dr. Roberts stated that he considered a strong, penetrating, pain-subduing liniment, such as "Nerviline," to be superior to any of the white ammonia liniments. In his twenty-five years of practice he had witnessed cases of rheumatism, sciatica and lumbago that simply would not respond to ordinary treatment—but Nerviline cured them. The same physician also spoke of the great advantages of keeping a preparation like Nerviline in the house always, because of cramps, diarrhoea, stomach disorders, earache, toothache, headache and such minor ailments. Nerviline is a first-class cure. There is scarcely an ache or a pain, internal or external, that Nerviline won't cure. In thousands of homes no other pain-relieving medicine is used. Fifty years' continued success and the endorsement of the profession are proof that Nerviline is the liniment for the home.

Any good druggist or dealer can supply the large 25c bottles of Nerviline.

THE TIRE BY-LAW.

West Ward Committee Gets Down to Work.

On Saturday evening last, the committee to promote the passage of the by-law for the Independent Tire Co., met and organized.

The merits of the By-law, of which all the members are enthusiastic, believing it to be in the best interests of the city, if it carries, were discussed. The following sub-committee were appointed for the five devisions in the West Ward, the first named in each of the committees is chairman of it:

Division No. 10—Mr. Williams, Mr. Christopher, Mr. Downie, Mr. Hodgson, C. Huffman.

Division No. 11—Peter Campbell, R. Neill, Ald. Brown, H. W. Morphett, Ex-Ald. J. J. Duffus.

Division No. 12—A. McFarlane, Mr. Galbraith, T. H. G. Deane, A. H. Stratton, Mr. Harstone, W. C. Austin.

Division No. 13—R. Hicks, D. O'Connell, Jos. Batten, W. H. Denham Dr. McNulty, W. R. Travers.

Division No. 14—Dr. Morrison, Jos. Mills, John Crane, James Connel, Mr. McDermid, John Lynch.

These gentlemen are looking after their several divisions and enlisting the services of all those in favor of the by-law. They would like to meet any who may not be in sympathy with it, in order that the details of the proposition may be placed before them for consideration.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

MAIL CONTRACT.

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, 5th May, 1911, for the conveyance of His Majesty's Mails on two proposed contracts for four years, six times per week, each, between: 1, Peterboro and Fowler's Corners; 2, Peterboro and the Township of North Monaghan: both over certain specified roads, dating from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tender may be obtained at the post offices of Peterboro & Fowler's Corners and at the Office of the Post Office Inspector at Kingston.

G. C. ANDERSON,
Superintendent.

Post Office Department, Mail Service Branch, Ottawa, 17th March, 1911.

ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT,

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise ossaring for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

LOS ANGELES, CALIFORNIA

FELT GUILTY

A smart looking gentleman carrying a bag was accosted by a boy near a London railway station.

"Carry your bag, sir?"

"No, thank you."

"Carry it to the station for five cents, sir."

The gentleman replied again:

"No thank you."

"Carry it for two cents, sir?" questioned the boy.

Again the reply came:

"No, thank you."

Whereupon the youngster got into the road, and shouted at the top of his voice three or four times:

"You ought to be ashamed of yourself to ask me to carry that heavy bag to the station for a cent."

And the scornful glances of the crowd made the gentleman feel quite guilty.

WHAT'S IN A NAME

"See here, waiter," said Mr. Grouch, scowling deeply over his plate, "I ordered turtle soup. There is not even a morsel of turtle flavor in this!"

"Of course not," returned the waiter. "What do you expect? Shakespeare said there was nothing in a name. If you ordered cottage pudding would you expect a cottage in it? In Manchester pudding would you look for a ship canal, or a cotton exchange? Any tea, sir?"

HE SPECULATED

The banker dismounted at a certain place, and got a small boy to hold his horse. Returning in ten minutes, he was surprised to find another—small brother—boy standing at the horse's head.

"How is this?" he said. "You are not the boy I left my horse with."

"No, sir," replied the youngster. "I speculated, and bought off the other fellow for a cent."

BIG MONEY IN CALIFORNIA OIL

ONE GOOD investment in oil may make you a fortune.

THE LOS ANGELES MIDWAY OIL CO. offers 100,000 shares of its Treasury Stock for sale, to be used for development purposes only. We are erecting derrick and installing machinery now and expect to be ready to start drilling very soon.

We have an 80 acre lease in the famous Midway Oil Fields of California.

We now have our drilling rig completed and have "spudded in" our first well.

The price of our stock will be 15 cents per share after February 11th.

For map and full particulars, write to

A REVOLVER FIGHT WITH TWO DESPERATE BURGLARS

Lynn, Mass., March 25.—Two men who attempted to break into the tool house of the Judkins Ice Company to-day were discovered by John Middleton with whom they exchanged shots. Later they were surrounded in a patch of woods between here and Salem by the entire police force of the city.

Middleton drove them into the woods in a running revolver fight, and it was believed that one of the men was wounded as a trail of blood marked their line of flight.

OTONABEE TOWNSHIP COUNCIL THE DEPUTY-REEVE RESIGNS

The Otonabee Council met on the 20th of March. Mr. Galbrath, on behalf of H. P. Kennedy, presented a plan of 186 lots, laid out for a summer resort on lot 26, and part of lot 25, concession 14, and asking the Council for an approval of the plan. On motion, the plan was approved, and the Reeve and Clerk authorized to sign it.

A communication was received from Mr. Stewart, resigning the office of Deputy Reeve. On motion, it was accepted, and the Clerk was instructed to convey to Mr. Stewart, that the Council deeply regret his severance with them, and offer to him their heartfelt sympathy in his severe illness and express to him their appreciation of the harmony and goodfellowship that always prevailed between himself and his fellow-members during his five years in the Council, for his earnest activity to his public duties, the able manner in which he expended the money appropriated for the roads in his ward. The clerk was instructed to ask for tenders for shingling the town hall. Also tenders for operating the grader, and for making cement tile.

John Miller tendered his resignation as Councillor, with a view to running for Deputy Reeve.

The following accounts were passed: Curtis Bros., tile $24.60; Dr. Harrison, medicine and attendance on J. A. Trotter, $30.06; Mrs. Redpath, five weeks board of J. A. Trotter's wife and family, $12.00; J. H. Fletcher, cutting wood for J. A. Trotter, $9.25. G. T. Gall account, $3.60 Scarlet fever placards and telephoning, 85c; Robert Orde, cedar, $10; Stillman Bros.' account, $2.77. H Cavanagh, refund of dog tax, $1.00; John Anderson, gravel, $3.92.

Council adjourned to April 17th.

THE KING'S MEDAL FOR YOUTH WHO SAVED GIRL

Ottawa, March 25.—His Majesty the King has been graciously pleased to award the Edward Medal of the second class to Albert H. Adcock for risking his life to save a little girl from being run over by a train. On the morning of August 25, 1909, at St. John, N.B., a train from Montreal was entering the train shed, when a little girl about five years old ran across the track in front of the engine. The engine driver applied his brakes, but could not stop the train in time, and the child would have been killed had not Adcock with great quickness and presence of mind, jumped at once to the centre of the track, seized the child, and swung her clear of the track. The engine brushed Adcock's coat as he leaped with the child, showing how narrow the escape was.

DOURO TOWNSHIP COUNCIL MET AND TRANSACTED BUSINESS

The Douro Township Council met on Monday, March 20, at the Town Hall, pursuant to adjournment. All the members were present. On motion, the minutes of the previous meeting were read and signed.

Moved by W. J. Charlton, seconded by M. Maloney, that the statute labour on the Downs' property, now owned by W. J. Dunford, be placed on line between cons. 4 and 5, in front of lot 20, and that W. J. Dunford be overseer.—Carried.

Moved by Coun. M. Maloney, seconded by Coun. B. Leahy, that the Clerk be instructed to prepare a by-law providing for the removal of all fences and obstructions from the highways in the Township, and also to regulate the running at large of horses, cattle, sheep and pigs.—Carried.

Moved by Coun. W. J. Charlton, seconded by Coun. B. Leahy, that the Reeve and Coun. Moloney be appointed to inspect the bridge between con. 3 and 4, in front of lot 6, and to report at next meeting of Council.—Carried.

Moved by Coun. M. Moloney, seconded by Coun. W. J. Charlton, that the following be appointed overseers to expend the money appropriated under By-law No. 723, viz:

Ward No. 1—W. J. Charlton and W. J. Dunford.
Ward No. 2—M. Moloney.
Ward No. 3—P. Farley.
Ward No. 4—B. Leahy.—Carried.

By-laws No. 731, authorizing the Reeve and Treasurer to borrow certain sums, not to exceed $1,000 from the Traders' Bank, Lakefield, and No. 732, also to borrow $2,000 from the Royal Bank, Peterborough, for 1911, for school purposes, were each read its several number of times and were passed, signed and sealed.

Moved by Coun. P. Farley, seconded by B. Leahy that upon the receipt by him of an order so to do from the Reeve of the Township, the Treasurer of the said Township of Douro is hereby directed to pay to each overseer such amounts as may be required from time to time to pay for works done under by-law No. 723 year 1911, and said overseers are hereby directed to file said pay-sheets with the Township Treasurer, when properly receipted.—Carried.

Mr. G. W. Bennett, inspector of Colonization Roads for Peterborough County, was present at the meeting, with regard to the laying out of the money appropriated under by-law No. 723, by which the Department of Public Works has placed in the estimates for Douro $600.00 for 1911. The Township Council places an equal amount for the building of permanent roads. Mr. Bennett went into detail very fully as to the laying out of this grant, and condemned very strongly the use of too many overseers. He said one good overseer and well paid for his services, was a far better way of getting roads built than several overseers with only a small grant to expend.

Mr. Bennett also explained the commuted statute labor system in vogue in his Township of North Monaghan. All their statute labour is commuted at the rate of 75c per day and the Township divided into six road divisions, under six overseers, who work out all the commuted statute labour on their divisions. Every ratepayer is asked to go out and earn money on the road, oftentimes earning two or three times as much as they pay in the taxes for said labour. Mr. Bennett said it was a great effort for some ratepayers to change from the old way of fifty years ago of doing statute labor, but after it was introduced, and he would not advise the council to commute all the statute labour in the Township at once, it was looked upon as the only way of getting work done and have good roads. At the conclusion of Mr. Bennett's remarks it was moved by M. Moloney, and seconded by W. J. Charlton, and carried, unanimously, that a vote of thanks be tendered Mr. G. W. Bennett for his able explanation of the commuted statute labour system, and also regarding the expending of government grants.

The orders upon the Treasurer were as follows:

M. D. Sullivan, Collector, $5.00, being balance of salary for 1910; the Peterborough Hardware Co., $1 for crowbar, purchased in 1910.

On motion of W. J. Charlton and M. Moloney, the Council adjourned to meet at a call from the Reeve.—Carried.

JOHN CRANE, Treas.

EDITOR BROWNE.

Of The Rockfort Morning Star.

"About seven years ago I ceased drinking coffee to give your Postum a trial.

"I had suffered acutely from various forms of indigestion and my stomach had become so disordered as to repel almost every sort of substantial food. My general health was bad. At close intervals I would suffer severe attacks which confined me in bed for a week or more. Soon after changing from coffee to Postum the indigestion abated, and in a short time ceased entirely. I have continued the daily use of your excellent Food Drink and assure you most cordially that I am indebted to you for the relief it has brought me.

"Wishing you a continued success, I am

Yours very truly,
J. Stanley Browne,
Managing Editor."

Of course, when a man's health shows he can stand coffee without trouble, let him drink it, but most highly organized brain-workers simply cannot.

The drugs natural to the coffee berry affect the stomach and other organs and thence to the complex nervous system, throwing it out of balance and producing disorders in various parts of the body. Keep up this daily poisoning and serious disease generally supervenes. So when man or woman finds that coffee is a smooth but deadly enemy and health is of any value at all, there is but one road—quit.

It is easy to find out if coffee be the cause of the trouble. For if left off 10 days and Postum be used in its place and the sick and diseased conditions begin to disappear, the proof is unanswerable.

Postum is not good if made by short boiling. It must be boiled full 15 minutes after boiling begins, when the crisp flavor and the food elements are brought out of the grains, and the beverage is ready to fulfill its mission of palatable comfort and renewing the cells and nerve centres broken down by coffee.

"There's a Reason."

Get the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Farmers Were Not Pleased.

Friday a meeting of the Woman's Institute was to have been held, says the Haliburton correspondent of the Bobcaygeon Independent. A Peterboro lady promised to come and give an address, but failed to put in an appearance. Some of the farmers drove 20 miles to hear her, and were very much disappointed and went home in not the best of tempers.

Many View the Painting.

Those who question the appreciation of art, should visit the Y.M.C.A. this week, where is being exhibited the most mysterious painting—"The Shadow of the Cross." It is needless to comment upon this wonder, to visit it one can, in a small measure, realize the majesty of sublime beauty surrounded in a mysterious field of light.

License Transfer.

The License Commissioners of West Peterborough met yesterday morning and granted the transfer of license from Mrs. George Long of the American House to Mr. Sam. Long, who will remove to the old Peterborough House, formerly occupied by Mr. Jas. Head, on the opposite side of the street from the present premises where the license is now held. Mr. Long will make some improvements, bringing it up to the standard desired by the Commissioners.

Thrown Out.

Mr. and Mrs. John Howden, while driving on Brock street on Sunday evening, were run into from the rear by two young men driving a livery rig. Mr. and Mrs. Howden were thrown out, and received a bad shaking up. The young men were summoned before Police Magistrate D. W. Dumble, and the case was remanded for a week to enable Mr. Howden to figure up the damages sustained.

An Unusual Request.

Rev. Dr. Symonds, of Christ church Cathedral, Montreal, formerly Rector of St. Luke's East City, made a rather startling request last night from the pulpit for one hundred square inches of human skin necessary for a grafting operation to save the life of a man terribly burned by falling on a red hot stove, while trying to fix a stove pipe. He said that if thirty members of the congregation gave up their skin it would be sufficient. Thirty members volunteered.

An Old Sign.

When the sign was taken down from the store of Mr. Adam Hall, it revealed an old sign, "The Phoenix Stove Works," painted on the iron beam over the door. This sign was used over 30 years ago by the late Thomas Lannin, who was one of Peterborough's most progressive business men. After Mr. Lannin's death Mr. Adam Hall took over the business. Mr. Lannin had a dread of being buried alive, and during his last illness arranged that there should be a hollow pipe placed close to his face in the casket and leading to the top of the grave. This was done, and for a long time regarded as a curiosity by visitors to the Little Lake cemetery.

LITTLE LOCAL LINES

The water in the river is now rising rapidly.

There are quite a number of scarlet fever cases in town. Fortunately it is of a very mild type.

No. 5 Company's annual supper took place last night at the Armories.

Mr. E. Ecombe gave a very interesting talk in the Park street Baptist Church last night, on "Happy Homes and How to Get Them."

Henry Wright appeared in the Police Court yesterday morning on a charge of being mentally unbalanced. The case was left over until medical evidence was secured.

SOCIETY EVENTS

Mrs. R. Ruddy, 230 Dublin street will not receive again this season.

Mrs. Ryerson Ritchie, 600 Stewart street, will not receive until after Easter.

Miss M. Bryce, Gilmour street, has gone on an extended visit to Montreal and Quebec.

Lindsay Warder: Mr. M. Rosenburgh, of Peterboro, was in town today the guest of friends.

Miss Francis Allen, of the Normal School, went to her home in Picton last night.

Miss Ada M. Lee, of the Normal School, goes to Utterson to-day for the Easter vacation.

Miss Annie McKinnon, student at the Normal, goes to Manilla Jct., today for her holidays.

Miss Alberta Real, of the Normal, went to Blackwater yesterday to spend the holidays.

Miss Mildrid L. Hardy, goes on the 8.30 G.T.R. to-day to Mariposa, where she will spend the Easter vacation.

Miss May Glide goes on the 8.30 G.T.R. this morning to Port Perry, for the holidays.

Mrs. Jas. Long, 561 Reid street will receive Tuesday and Wednesday of this week, from four to six, and not again this season.

Mrs. S. E. Cavanah and daughter, Miss Rita, left yesterday on a trip to the West. Miss Cavanah will be absent from the city for six months.

Mr. David Conroy has returned home after an extended trip through the West. Mr. Conroy who was absent five months, is enthusiastic over the development of the Western provinces.

The many friends of Mrs. J. C. Shook, will be pleased to learn that she is recovering. Mrs. Shook has been suffering for the past two weeks or more, from a severe attack of La Grippe.

OFFICERS ELECTED.

For the Peterborough Golf and Country Club.

At a meeting of the Directors of the Peterborough Golf and Country Club, Limited, held on Saturday evening, the following officers were elected:

President—T. F. Matthews.
Secretary—G. E. Clarke.
Chairman Green's Committee—R. Neill.
Chairman Tennis and Boating Committee—Mr. F. D. Kerr.
Chairman House Committee—Mr. S. T. Medd.

A meeting of playing members will be held in the Bank of Montreal Chambers to-morrow evening at 8 o'clock, for the purpose of electing committees and captains for this season. To this meeting all prospective players are also invited.

VOL XXXIV NO. 74 PETERBOROUGH, ONTARIO, WEDNESDAY MARCH 29, 1911 PRICE TWO CENTS

MONTREAL JURY FREES A MAN WHO ROBBED "FOR THE CHURCH"

ACCUSED HAD ADMITTED HIGHWAY ROBBERY TO GET PAPERS CONCERNING THE MASONIC LODGE.

"Disgrace" says Judge—Reputation of French Canada Demanded a Conviction, Declared Justice Lavergne, in Charge to the Jury—Crowd Cheered Verdict.

Montreal, March 28.—That the Catholic Church is superior to the criminal law of Canada when the jury is a French-Canadian Catholic jury, is the evident meaning of the verdict in the Lemieux case to-day.

A. J. Lemieux was charged with highway robbery of money and papers from L. Larose last autumn. He admitted taking the papers, but said he had returned the money, and he pleaded that he was acting in the interests of the Catholic Church, as Larose was a Freemason, and secretary of the now famous Emancipation Lodge.

It was to secure lists of names of members and other papers of the lodge that the theft was committed.

His brother and two others who were with him, also acknowledged holding up Larose, but they too pleaded the return of the money and the interests of the Church.

Judge Lavergne yesterday in his charge to the jury, declared that no extraneous conditions as to the motives which prompted the prisoner in his alleged act should have any bearing upon the case. He denounced the efforts of those who had endeavored to drag the Emancipation Lodge and its personnel into the case, and made an appeal to the jury to vindicate the law, if any violation thereof had, in their opinion, been committed.

The reputation of Canada, as a whole, he said, and of French Canada in particular, demanded that punishment should be meted out in the present case, as otherwise French-Canadians would be held up as a laughing stock to the whole country, and to the whole world.

"You must not preach the Gospel with a pistol," he said, "Christ did not so preach the Gospel. Every man must be allowed to believe as he likes. It would be a disgrace to let Lemieux free."

The jury, after half an hour reported a disagreement, but were locked up, and this morning they gave the verdict of not guilty.

Their friends cheered till the court house rang with the echoes, and the ushers were openly half-hearted in their efforts to stop the demonstration.

A COSTLY SOUP PLATE.

Paris, March 28.—What is believed to be the highest price for antique China, was paid yesterday at the Hotel Drouot, for a soup plate of old Faience of Deruta, which brought $14,400. The plate is only 11 centimetres in diameter, and is decorated in copper, yellow and ruby red of metallic lustre. It has a centre picture of a woman, with a short inscription underneath.

NO WORD OF DR. NESBITT

TRAVERS NOT WORRYING—NOT YEARNING FOR KINGSTON.

Is Giving Crown "All Assistance Possible"—Will Likely Stay Here Till After Assizes.

Toronto, March 28.—"Will Travers be kept in jail here till after the Farmers' Bank cases are over in the Assizes?" was asked one of the Crown officials this morning.

"I think so," was the reply.

"How is he taking things? Beginning to look on the brighter side of life?"

"Oh, Travers is a broken down man, and realizes what his Kingston sentence means. But you may say he is not worrying, and is looking to the inevitable."

"Do you still use him in connection with Farmers' Bank affairs?"

"Yes, he gives the Crown all the assistance possible."

"Heard anything of Dr. Beattie Nesbitt?" was asked Inspector Duncan.

"Not a word," said the inspector.

A FARMER ASSAULTED.

As Well as Robbed of a Small Sum of Money.

Wesley Westcott, a farmer residing in the township of Dummer, was assaulted on Simcoe street on Monday last, and relieved of a sum of money.

Alfred Meakins was arrested charged with the crime. At the police court he pleaded not guilty.

After hearing the evidence the Police Magistrate committed the prisoner for trial.

AUSTRALIAN SHIP LOST WITH PASSENGERS AND SAILORS

Brisbane, Australia, March 28.—Cargo from the overdue Interstate steamer Yongala, bound from Townsville to Mackay, with 68 passengers and a crew of 70, was washed ashore to-day.

It is feared that the vessel has been lost.

The Yongala is owned by the Interstate Steamship Company, of Adelaide. She was built at Newcastle in 1903, and registers 1,925 tons net.

Fine Buildings at Calgary.

Calgary, March 29.—Calgary is rejoicing in spring and remarkable business activity. The location of the new Hudson's Bay store has been fixed at Seventh Avenue and First St., where ten city lots will be occupied by the new structure. The new store will be six storeys high and will cost $1,500,000. The land on which the store will stand cost the Hudson's Bay Company $250,000 and was sold a few years ago for $13,500.

ENGLAND, NORWAY AND JAPAN IN RACE FOR THE SOUTH POLE

CAPTAIN SCOTT OF BRITAIN IN IT, BESIDES AUSTRALIAN, GERMAN, AND NORWEGIAN.

Who'll Get There First?—Shackleton Explains Plans of His Former Colleague and the Situation.

London, March 28.—Sir Ernest Shackleton, writing to The Daily Mail on the race to reach the South Pole, between Captain Scott, the British explorer, and Amundsen, the Norwegian, says that the news received from Christchurch yesterday is interesting in more ways than one. "From the telegram," he says, "one is somewhat at a loss to decide definitely on the two most important points. According to the telegram, Scott landed at Cape Evans, fourteen miles north of the Discovery's winter quarters, and about eight miles south of the winter quarters of my expedition. I know of no Cape Evans in this locality, and can only suppose winter quarters were established on one of the islands about eight miles south of our winter quarters.

TERRA NOVA STOPPED BY ICE PACK.

"Scott's idea of establishing a depot to the far south is an excellent one. It appears that his ship, the Terra Nova followed the Great Barrier until a gale from the southeast forced him to head for Cape Colbeck. This statement is not clear, as a gale from the southeast would be a dead head wind for Cape Colbeck. The ship was stopped by a heavy pack, which is the same condition of ice that I found on my expedition in 1907. She then turned along the Barrier edge until she reached the Bay of Whales in longitude 164 degrees.

NORWEGIAN PARTY FULLY EQUIPPED.

"I now come to the most interesting statement yet made—that the Fram, the vessel of Amundsen's Antarctic expedition, was in the bay and that on board her was eight men and sixteen Greenland dogs and a full equipment for a journey to the Pole.

"The telegram says that stores were landed and a hut erected two miles from the ship, after which the Terra Nova left for McMurdo Sound. It is not therefore clear from the telegram whether the hut and stores were landed and erected by the Terra Nova party or by the crew of the Fram.

AMUNDSEN'S CHANGE OF PLAN.

"A word here as to the plans of Amundsen. In April, 1909, Amundsen published in The Geographical Journal and other papers exhaustive details of his proposed North Pole expedition. He left Norway, ostensibly to proceed via Cape Horn and Bering Straits to the North Polar Basin. On arriving at Madiera in October he announced that he had changed his plans and was going to try to reach the South Pole from that day.

"Nothing more has been heard of Amundsen's expedition until to-day. We now learn that he landed in an accessible place, evidently with the intention of accomplishing his object foreshadowed in his Madiera telegram.

THERE WILL BE A FAMINE IN EASTER LILIES THIS YEAR

New York, March 28.—There is to be a famine in Easter lilies this year. The crop according to the wholesale florists here, is only about one-third as large as last season. This applies to the production on American soil. The quantity of flowers that comes from Bermuda for the Easter trade is small compared to the quantity used.

Steamship companies declare that comparatively few Easter lilies will be imported this year, probably not more than 10,000 in all.

Last year the total sales by New York wholesalers reached 5,000,000 blossoms.

PROVINCIAL OFFICER LEAVES MONTREAL FOR PITTSBURG TO BRING BACK SHELDON

Montreal, March 28.—It was announced this morning that Chief McCaskill, of the Provincial Police force, will leave for Pittsburg to-day to bring C. D. Sheldon, the long-wanted "investment" broker back upon two warrants charging the obtaining of money under false pretences.

Chief McCaskill says he expects to return with the prisoner in two or three days.

A HOST OF NEGROES MAY INVADE CANADA

Guthrie, Okla., March 28.—The final action of the Canadian Government in admitting to that country negro families from Oklahoma whose members possess $5 each is having the effect of furthering the colonization movement among Oklahoma's negroes, especially in the Okfuskee, Muskogee, and Creek counties, where there is a large negro population.

The first emigration to Canada during the past week was of 90 families, 500 negroes in all, from the vicinity of Clearview, in Okfuskee County. They sold all their property in this State, intending to homestead quarter sections in Canada.

Many other negroes are making preparations to start, and indications are there will be a general exodus.

Many of the emigrants were educated in the Government schools for Indians. They are leaving Oklahomo because of jim crow coach and depot laws, the grandfather clause Act that prohibits them from voting, and separate school laws.

ONE KILLED AND TWO BADLY HURT ON INCLINE RAILWAY

Hamilton, March 28.—One foreigner was killed, two others seriously injured, and the lives of several endangered to-day when a freight car on the incline at the Doolittle-Wilcox quarry at Dundas broke loose and bumped into another car crowded with laborers. The name of the victims are not known. The men go by numbers, and the dead man was No. 140.

Winnipeg's Rapid Growth.

Winnipeg, March 29.—The city will spend $1,500,000 on permanent improvement work this year. This money will be laid out chiefly on new streets, sewers, water service, asphalting and the like.

MADRIGAL CONCERT A BIG SUCCESS.

The Conservatory of Music Hall Has Delighted Audience Last Night.

The concert last night given by the Madrigal Club and Orchestra in the Conservatory of Music, was a very enjoyable affair. The programme was a pronounced success, each number being well received by the large and well pleased audience. Miss Carrie Reesor, of Markham, who is well-known to the music-loving citizens of Peterborough, delighted the audience with her sweet singing, and was loudly applauded. Miss McGill, who is a clever pianist also gave some very fine piano selections. The following is the programme:

"March of Priests," from "Athalie"—Mendelssohn Conservatory Orchestra.

Chorus—"Scots Wha Hae"—The Madrigal Club.

Selections on Scotch Melodies—Otto Langy—Conservatory Orchestra.

Soprano Solo—"Welcome! Pretty Primrose"—Pinsuti—Miss Reesor.

Piano Solo—"Sonata Op. 2, No. 3"—Beethoven—Miss McGill.

"Lullaby"—Corbin—Madrigal Club.

Song—"The Village Blacksmith"—Mr. Mellroy.

Patrol—"American"—Conservatory Orchestra.

Soprano Solo—"The Rosary"—Nevin—Miss Reesor.

Chorus—"The Revere Floweth Strong"—The Madrigal Club.

Grand Selection—"Il Trovatore"—Verdi—Conservatory Orchestra.

God Save the King.

Accompanists—Miss Beatrice Starke and Miss Pearl McKee.

OBITUARY.

THE LATE WILLIAM LANG.

Yesterday morning Mr. James T. C. Lang, of this city, received the sad news of the death of his brother William, which took place at the homestead, South Monaghan, early yesterday morning. His death was due to a severe attack of pneumonia. The deceased was well and favorably known throughout the township and surrounding country, and had many warm personal friends. He was fifty years of age.

Surviving are a widow, two sons, and one daughter, all residing at the homestead. The sons are Robert and Earlson and the daughter, Miss Viola. The brothers are Messrs. Robert of Allameda, and James T. C., of this city. One sister, Mrs. Martha Perrin, resides at Bailliehoro.

The funeral will take place from the homestead, lot 2, con. 4, South Monaghan, to-morrow afternoon to Little Lake cemetery. Service at the house at one o'clock.

GAMBLER ENDS HIS LIFE.

Staked All on the Turn of a Card—Lost and Shot Himself.

Minneapolis, March 27.—"Scotty," one of Minneapolis' best known gamblers, staked his all, his friends say, on the turn of a card last night. He lost. To-day he ended his life by shooting himself in the presence of his wife and daughter. At the hospital where he breathed his last, they said: "He's cashed in with a smile."

R. L. Scott was "Scotty's" real name. He had conducted gambling houses at different times in Minneapolis for years. By the police he was spoken of as "a square man, who hated a four-flusher, and who gave money to the poor."

BORDEN TO GO? ELECTION SOON? THE NEXT FEW DAYS WILL TELL TALE

DENIAL FROM MR. BORDEN.

An Ottawa despatch says: Mr. R. L. Borden, last evening gave an emphatic and explicit denial to the report that he was about to resign as leader of the Opposition. He recalled the many absurd rumors respecting dissensions in the ranks of the Conservative party which were published in the midst of the last session of Parliament. "About this time of the year the imagination seems to grow active," was the way he finally dismissed the subject.

CONSERVATIVE CAUCUS LIKELY TO-DAY, WILL DECIDE THE LEADERSHIP QUESTION.

Might Split the Party—Borden Has Strong Following, Who Will Oppose Those Who Have for Long Time Been Trying to Oust Him—Chances of Campaign.

Ottawa, March 28.—The next few days will be momentous in Canadian political history, perhaps in Canadian national history.

If R. L. Borden is to leave the Conservative leadership he will do it within the next few days.

If there is to be a general election on the reciprocity issue, it will be decided in the next few days.

The end of the present week, which is the end of the Canadian fiscal year should see both of these questions answered.

BORDEN TURNED TIDE.

The Borden situation is much the same as at the beginning of this Parliament, except that the hostile forces within the party are, perhaps solidified and more determined to have their way.

A year ago the agitation for a new leader was strong. It failed. Before that, at the opening of this Parliament, the same agitation was thought to be strong. It was turned into a Borden testimonial when the Opposition leader placed himself in the hands of the party at Ottawa. Mr. Borden is credited with as complete a readiness to vacate now as he displayed in 1909.

MAY GO TO LONDON.

The story which has been circulated at Ottawa for the last four or five days is that R. L. Borden will retire, and that a new man will come in and will carry the Conservative standard to victory in the coming election, and that some time after that R. L. Borden will receive Imperial recognition, will become a Privy Councillor for Canada, and may take up his residence in London.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

SUNDAY STREET CARS.
Editor Morning Times.

Sir,—I venture to suggest through the columns of your bright and newsy journal, that arrangements should be made for a Sunday street car service in Peterborough. While I do not desire to shock those who think it a sin to have street cars run on Sunday, I most respectfully submit if it is no sin in Toronto it cannot be regarded as much of a transgression in Peterborough. It would afford means for men and women, who have been shut up in offices and workshops all week, to get out to our parks and enjoy nature. Not only this, but many a one is prevented from attending church on account of feebleness or distance from a place of worship, who would attend if they could use street cars. I would like to know what you, Mr. Editor, think of this matter. I cannot imagine that serious objections would be raised to a limited Sunday service.

A Workingman.

Reply—It is, we imagine, a trifle too soon to begin an agitation for a Sunday street car service in Peterborough. If such a service is permitted we would probably have the steamboat men asking for similar privileges.—Ed. Times.

CROSSINGS ARE DIRTY.
Editor Morning Times.

Sir,—I would suggest to the authorities that more attention be paid to the condition of the street crossings, which are, particularly at this season of the year, in a filthy condition. The mud should be scraped off the crossings, particularly in the business section, every day. This would not cost much and it would be appreciated, particularly by the ladies, whose skirts get all daubed while shopping.

—Pedestrian.

A piece of flannel dampened with Chamberlain's Liniment and bound on to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest give it a trial and you are certain to be more than pleased with the prompt relief which it affords. Sold by all dealers.

TWO CHILDREN WERE BORN, COUPLE WHOSE MARRIAGE WAS VOIDED IN QUEBEC

Montreal, March 28.—If a marriage between two Roman Catholics is solemnized by a Protestant clergyman, and annulment at the institution of the husband by a judge of the Superior Court on the grounds that a Protestant minister had no right to perform the ceremony of marriage between the two members of the Roman Church, upon whom does the responsibility of looking after the children born of such marriage devolve?

Such is the puzzling question that has arisen over the dissolution of the marriage tie of Eugene Hebert and his wife Marie Emma, by Judge Laureudeau in the Superior Court last week.

The couple were married in Montreal July 14, 1904, by Rev. William Timberlake, pastor of the Centenary Methodist Church, Wellington street.

There were two children born of the union, one of which died. It is around the second, a girl, aged about a year and a half, that all the controversy now centres.

According to the civil law on the subject, article 185, of the Civil Code, declares that a marriage of the kind, though declared null and void, produces civil effects with regard to the husband and wife, as well as with regard to the children, if the marriage has been contracted in good faith.

Article 186 of the Code says that if good faith existed on the part of one of the parties only, the marriage produced civil effects in favor of such party alone and in favor of the children, issue of the marriage.

There was no mention of responsibility of the father as regarded the child in the judgment handed down. That was left evidently to the separated parties to settle between themselves.

Speaking this morning with reference to the matter, Mr. L. J. Lefebvre, attorney of Mrs. Hebert, declared that his client was anxious to retain the custody of her daughter, while the husband also naturally wished to be the guardian of the child.

Mr. Lefebvre understood that there was to be some settlement made by Mr. Hebert on his wife, but the nature of this he could not say.

The lawyer said he did not think that the parties would seek to be remarried by a priest of the Catholic Church.

THE WATER COMMISSION.

Meeting at Which Some Business was Transacted.

At the meeting of the water commissioners on Monday afternoon there were present Messrs. T. F. Matthews, chairman; W. Henderson, W. H. Hill and W. H. Moore, K.C.

The minutes of the last meeting were read and received.

Several accounts were passed including one of $200 from C. A. J. Duranceau. The full amount of his account was $269.37, the balance of which will be paid later.

Mr. Harry Evans waited on the commissioners with reference to the waterworks on Patterson street. His father, lately deceased, by mistake signed for both water service for both house and lawn, thinking he had contracted for lawn service only. Mr. Evans considered it unfair to be paying for water which they never used.

The commissioners decided to withdraw the extra charge commencing with 1st April.

FIRE ESCAPE COLLAPSED WITH WEIGHT OF GIRLS

New York, March 28.—How she escaped from the burning building in Washington place was told last night by Ida Singer, twenty years old, a shirtwaist operator, of No. 254 Henry street. She was employed by the Triangle Waist Company and was at work on the ninth floor.

"I was so absorbed in my work that I did not hear anything of the fire until nearly every other operator in the room had left her machine," she said. "Then I saw smoke coming from the eighth floor, and the girls starting for the tenth floor, and for the fire escape.

"The escape was crowded with girls, who pushed and struggled with each other. I have a distinct remembrance of starting down, and of getting past the seventh floor. The next I recall, I felt the fire escape ripping from the wall, and then I stumbled and lost my balance.

"How far I fell I shall never know, but I next remember that a man at an open window on one of the lower floors reached out and pulled me from the fire escape. My dress and jacket were both torn, and I think that they caught on the railing and saved me.

"When I left the ninth floor I was with a girl friend, who was also an operator. She was Ida Pearl of No. 255 East Fourth street, but I lost her in the crush, and I haven't seen or heard of her since."

Deadly Consumption Starts from Catarrh

Thousands Think Catarrh is Cold, Neglect It and Die.

Last year forty per cent. of all the deaths were from consumption. These people all had catarrh in the first place, but neglected it.

Can't you realize the awful horrible mistake of not curing catarrh now?

To thoroughly root out all taints of Catarrh, nothing can act so beneficially as "Catarrhozone," which is acknowledged by all doctors to be a specific for all forms of Catarrh, Asthma, Bronchitis, throat, nose and chest ailments.

The reasons why Catarrhozone cures when other treatments fail are very simple. In the first place Catarrhozone reaches the true source of the disease. Very few, if any, of the ordinary cures can do this. Catarrhozone is carried along with the air you breathe through the mouth, throat and bronchial tubes. Its antiseptic vapor at once kills any germs that may be lurking in these air passages. No matter how remote these germs may be they can't possibly escape Catarrhozone; it goes everywhere the air you breath goes, and no air cell or air passage can escape its healing influence. The strong point about Catarrhozone is its ability to go direct to the spot where the catarrh germ is working. Every breath through the inhaler means instant death to the microbes, and gives the sufferer relief from the gnawing, destructive action of these parasites. It must be remembered, also, that Catarrhozone is a marvelous healer. It soothes the inflamed membranes, patches up the little sore spots, and removes the sensitive, tender feeling from the nose and throat. Of course, the discharge of mucus stops at once, Catarrhozone prevents this entirely.

Another nasty symptom that quickly disappears is the dropping of vile discharge from the throat into the stomach. Catarrhozone clears out the nostrils so that you don't have to breathe through the mouth. Hawking and spitting stop because the discharge is cleared up. The blinding headache that is caused by nothing else than catarrh is also lifted from your burden, and life begins to look happy once more.

Complete treatment including beautifully polished hard rubber inhaler, and extra supply of liquid, costs $1.00 and is guaranteed to cure or your money back. Smaller sizes 25c and 50c, at all druggists, or by mail from The Catarrhozone Company, Kingston, Ont.

The Morning Times

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

WEDNESDAY, MARCH 29, 1911.

REFORM OF THE SENATE.

The Prime Minister has placed himself on record as being prepared now to consider reform of the Dominion Senate, or rather of reform of the present system of Senate selection, says the Ottawa Journal. The Opposition should not allow the present session of parliament to end without endeavoring to secure some practical action. After the premier's declaration, there seems to be only need for some responsible member of the House to take the initiative.

The necessary preliminary is no doubt to appoint a joint committee of both Houses and both parties to consider the matter. It will be difficult enough to frame a recommendation in even a committee, but to plunge the matter into debate in either House without a clean-cut recommendation would be useless.

Sir Wilfrid Laurier intimated a bias towards having the senators or a proportion of them selected by the provincial legislatures. He does not favor an elective senate, as some do. And those who do favor an elective senate favor it in all sorts of different ways. Still another branch of opinion favors providing for senate representation of universities, boards of trade and other public bodies. To secure any consensus of opinion how to re-organize the upper House is going to be a very difficult matter under any circumstances whatever. But it is to be hoped that at least the question will not be at any time made a party one, if that can be avoided.

Perhaps an improvement could be gained by electing a senate from groups of constituencies by the plan of proportional voting. The case looks like a good one for experiment. Nothing could be worse than what obtains now—a body utterly irresponsible to the people, selected in large part because of either slavish partisanship or subscriptions to party funds—a body supposed to provide for impartial review of Commons legislation and for independent promotion of desirable non-party measures which the Commons may neglect, yet damned hopelessly for efficiency in either purpose because of the very method by which it is constituted. Either nomination in whole or part of the senate by the provincial legislatures, or election by proportional representation, would at the worst be better than the existing malpractice, so long as provision were made whereby in the case of veto by the upper chamber of legislation by the Commons, the obstruction could be overcome after a reasonable lapse of time.

WARSAW

Mr. Maloney's sale of stock and farm implements held a week ago Thursday was most successful, everything going at a good figure. On Monday last a number of friends gathered at his home and presented him and his wife each with a beautiful easy chair. Mr. Moloney, in a short speech expressed his gratitude at this evidence of their good will and after a social evening the guests departed. Mr. and Mrs. Moloney will reside in the future in Peterboro.

Mr. Dewart and family have moved to Douro and have taken up residence on the farm recently occupied by Mr. Moloney.

Mr. Lees, I.P.S., was in the village on Wednesday and inspected the local school. Mr. Lees expressed himself as perfectly satisfied with all affairs connected with the school.

It is reported that Mr. Reg G. Hendren will close his furniture business in Warsaw and go west to homestead in the Athabasca River Valley. We wish Mr. Hendren the best of luck. A number of other young men also intend settling in that part of the west.

A number of the school children met Thursday evening at the home of Mrs. Geo. Taylor and presented Miss Marie Payne, who is leaving the school with a suitable remembrance.

On Friday last Miss Golding, representing the Quaker Oat Company, gave the Women's Institute a very instructive lecture on the uses of the different cereals manufactured by this company. The meeting was well attended and the ladies much pleased with the instruction they received. It is rumored that several of the young ladies learned how to make porridge for the first time. Poor chance for some of our loual young men.

The local millinery opening is on the 5th and 6th of April. Mrs. Choate assures her customers that all the latest shapes and trimmings will be on exhibition.

Mr. Fred Tully is spending a few days in the village.

Miss Olive Hendren spent Sunday with the Misses Boyce.

Mr. Puffer of Norwood, spent Sunday at Mrs. E. Brown's.

HALL'S BRIDGE

Winter has returned to us again for a short time.

Those who are lucky enough to have maple trees are getting ready for a good run of sap.

The many friends of Mr. John McKenty, will be pleased to learn that he is improving since going to Nichols Hospital, Peterboro, on Tuesday last.

Mr. Sage with his sawing machine, has been busy cutting up wood for the villagers all week.

Mrs. Steve Nichols, Jr., entertained a number of her friends on Tuesday last.

Mr. and Mrs. Bert Taylor and child ren of Vancouver, are at present the guests of Mrs. Taylor.

Miss Myrtle Wilson entertained a large number of her friends on Tuesday, in honor of her birthday.

Mr. and Mrs. Nelson Montgomery were the guests of Mrs. R. Freeburn Sunday last.

Mr. George Dourbe, of Lakehurst, spent Sunday at Mr. Jones.

Mr. Bruce McKenty spent a couple of days of last week in Peterboro.

Mr. Henry Smith and family have moved to Peterboro, where they intend to reside.

Mrs. R. Hill spent last week with Lakehurst friends.

SMITH TWP. COUNCIL

Business Transacted at Last Meeting

The Council of the Municipality of Smith met in the Council Chamber, Peterborough, pursuant to adjournment, on Monday, March 13th, at 10 o'clock. All the members were present, with Reeve Graham in the chair. The minutes of the last meeting were read and confirmed.

Moved by Mr. Garbutt, seconded by Mr. McKee, that no action be taken at the present time, regarding the request of Mr. V. Eastwood, for a quit claim deed of the land forming the south end of Esplanade street, in Chemong Park.—Carried.

A by-law was passed appointing the following Overseers of Highways, Pound-Keeper and Fence Viewers for the year, 1911:

Pathmasters. — Thos. Armstrong, Peter Nichols, John J. Northey, Wm. Armstrong, Gordon Fitzgerald, Herbert Matthews, Wm. Bullock, Robt. Freeborn, Jos. P. Ayotte, Benjamin Nichols, Herbert Northey, Andrew Fairbairn, Fred Dunbar, J. J. Bickle, W. J. Stillman, John Northey, Jr.; Thos. J. Bell, Bruce Garbutt, James Miller, Wm. Rosborough, Alex Trennum, Herb. Rosborough, T. T. Milburn, Wm. Brown, Jas. Stothard, Roland Stabler, Edward Preston, Louis McIlmoyl, Jonathan Sweeting, Louis Fowler, Watson Carter, G. W. Mann, Geo. Milburn, P. Westlake, John Galvin, Wm. Scott, R. Hunter, Samuel Stinson, Percy Edmison, Robt. Darling, E. Mahood, Jr.; Jos. Tully, Ed. Mahood, Sr.; J. H. Edmison, Thos. McMullen, W. W. Milburn, John Hampton, Isaac Elliott, J. A. Galvin, Alex. Elliott, Wm. E. McIlmoyl, Solomon Northcult, John Fairbairn, Gordon Mann, Samuel Rosborough, Alex. Morrison, Jas. A. Fife, Jas. Tindle, Robert Telford, Isaac Sage, Stephen Harrison, Francis Pearson, Wm. Swinton, J. G. Armstrong, Absalom Northey, John Pearson, John Harrison, John Stabler, Wm. Swinton, Jas. D. Fowler, Wm. Hogan, Webster Blewett, Jr.; R. G. Ivey, Hugh Bertram, Wm. Scott, Geo. Deyell, Jacob H. Brumwell, Frank Arthur, A. E. Kennedy, James Tully, Thos. Edgar, Wm. Brown, Walter Young, Jos. Donaldson, Frank Avotte, W. A. Payne, R. A. Garbutt, Fred Boyce, John Millage.

Pound Keepers—W. J. Tully, John Archer, R. J. Edmison, J. D. Fowler Garbutt-Mann, James Kidd, Gavin Preston, J. E. Kearney, Jonathan Branch, Robert Northey, Jas. H. Northey, Peter Bullock, Jr.

Fence Viewers — Alex. Edmison, Thos. Hall, T. R. Mann, Thos. J. Bell, Andrew Young, Robert Northey, James Tully, Jos. Milburn, Geo. W. Nichols, Andrew Fairbairn, D. W. Blewett, Thos. T. Millburn.

Moved by Mr. McKee, seconded by Mr. John, that the Reeve and Deputy Reeve be a committee to interview the Dickson Bridge Works at Campbellford.

Do you know that of all the minor ailments colds are by far the most dangerous? It is not the cold itself that you need fear, but the serious disease that it often leads to. Most of those are known as germ diseases. Pneumonia and consumption are among them. Why not take Chamberlain's Cough Remedy and cure your cold while you can? For sale by all dealers.

Trunk Pacific Ry. Points.

In connection with settlers and round trip homeseekers excursions to the West on April 4th the Grand Trunk Ry. Coy., will run a special through train from Toronto to Edmonton, leaving Toronto at 11 p.m., April 4th via Chicago, St. Paul and Winnipeg without change, arriving at Edmonton 7 p.m., April 7th. This train will carry Pullman Tourist sleeping cars with porter in charge. Berth rate to Winnipeg will be $5.75 for lower and $3.00 for upper. To Edmonton lower berth will be $6.15 and the upper $5.40. Mr. McCutcheon, commissioner for the Alberta government along with our travelling passenger agent will accompany same to see there is no trouble or delay and to look after the interests of the passengers. Consult City Ticket Agent Grand Trunk Ry. for rates, reservations and full particulars.

DR. SOPER DR. WHITE

Attend Remington Business College

269 College St., TORONTO

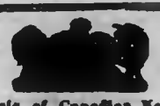
A strictly high grade business training school, which annually sends out hundreds of young men and women fully equipped for a successful business career.

The commercial world offers splendid opportunities for all who have received a Remington training.

Individual instruction. Pupils may enter at any time.

Send for copy of our new booklet. A postal card will bring it.

Winter Term Now Open



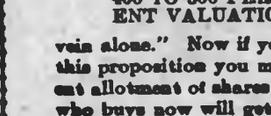
Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.



MAIL CONTRACT.

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, 5th May, 1911, for the conveyance of His Majesty's Mails on two proposed contracts for four years, six times per week, each, between: 1, Peterboro and Fowler's Corners; 2, Peterboro and the Township of North Monaghan; both over certain specified roads, dating from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tender may be obtained at the post offices of Peterboro & Fowler's Corners and at the Office of the Post Office Inspector at Kingston.

G. C. ANDERSON,
Superintendent.

Post Office Department, Mail Service Branch, Ottawa, 17th March, 1911.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise eearning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

THE ANNEXATION OF THE BAHAMA ISLANDS

Montreal, March 27—Bringing with him salutations from Canada's future tropical province, as he calls the Bahama Islands, Mr. De Lery Macdonald, seigneur of Rigaud, have returned to Montreal this week and has explained the resolution in favor of annexation to Canada that was adopted almost unanimously in the Legislature at Nassau some weeks ago.

"Union, with honor; allegiance, but on equal terms," is, Mr. Macdonald says, what the Bahamians want. Mr. Macdonald and Mr. T. B. Macaulay, of this city, were the Canadians who really inaugurated the movement, and they are both enthusiastic over it.

"It is a movement for a larger Canada," says Mr. Macdonald, "a patriotic movement. It is a movement towards bringing all the British connections on the American continent under the Canadian flag; it will aid in consolidating the Empire, and, moreover, it will be to the material advantage of Canada. She will get her fruits and tropical products from those islands instead of being dependent upon the Southern States, and we will send the products of our climate to them."

So enthusiastic are the Bahamas about union with Canada, he says that a meeting that had been called in Nassau to oppose the movement was turned into one of rousing support.

Now that the Legislature at Nassau, the capital of the colony, has passed a resolution favoring union, and has forwarded it to the Mother Country, Mr. Macdonald thinks the next step should be the appointment of a commission to consider the basis of union.

Mr. Macdonald believes that there is no real difficulty in the way of union. There is no reason why Canada should object to it, he says. There is no "color problem" in the Bahama islands, he says. The colored people are British subjects and proud of that. They would not come to Canada, even under union, because they love their island and could not stand this climate. The colored people have suffrage, and could control a large majority but they elect twenty-five white men out of twenty-nine to the Legislature.

So with no difficulties in the way Mr. Macdonald is anxious for the time when the palm tree shall flourish and the grape fruit ripen under the Canadian flag.

WHAT THE BAHAMAS WANT

On leaving Nassau, Mr. Macdonald was given a rousing farewell. The address which was presented to him then gives a good idea of the terms upon which the Bahamians desire to become Canadians. It was a grand sight, Mr. Macdonald says, to witness the crowd on the wharf and to hear the bands playing "The Maple Leaf Forever," for the first time in Nassau. The address which Mr. Macdonald was requested to deliver to the Canadian people is as follows:

"We are here to-day to say bon voyage and au revoir.

"Your visit to our island has been an epoch making event, the results of which may be for lasting good to this people and this colony, or perhaps a matter of unending regret. We cannot tell. But we believe it will be for our lasting good, for your visit, sir, has opened up the wide and far-reaching question of the union of this Ancient Colony of the Bahamas with the modern Dominion of Canada.

We do not propose at this time to enter into a discussion of the merits or demerits of the proposition; but we do want to say that we are grateful to you for starting the union ball a-rolling, and we also want to say that if you are a fair specimen of a Canadian, from what we have seen of you within the last month, we shall think very highly of Canadians, for "you're a jolly good fellow." (Here the band struck up: "For you're a jolly good fellow.")

"Mr. Macdonald, it is our desire and request that you will convey the salutations and greetings of the citizens of this Ancient Colony of the Bahamas to our fellow British subjects, the citizens of the modern Dominion of Canada.

"We understand that the Bahamas are little known in Canada.

"Tell the people of Canada that the Bahamas are an experienced, self-governing British Colony. Tell them that every individual citizen of the Bahamas is a full-fledged British subject, enjoying and exercising to the full, all the rights and privileges implied in the title.—A British Subject—and these without limitation, qualification, or discrimination, and of which we are as proud as the citizen of ancient Rome when he said: "I am a Roman citizen."

"Mr. Macdonald, give this message to the people of Canada."

"Tell them that union between Canada and the Bahamas involves no condescension on the part of Canada and no obligation on the part of the Bahamas. We desire union, but a union with honor. We seek alliance; but on equal terms. We come to them on terms of mutual benefit—each has something to gain, neither has anything to lose. We bring no burdens that we cannot carry. We bring no problems for you to solve, save and except the problem of a market and capital.

"We ask union with Canada because in union there is strength which tends to the consolidation of the British Empire. In what we have said to you personally we wish to include our mutual friend, Mr. T. B. Macaulay, of Montreal, for he too is "a jolly good fellow." (Band again.)

"In conclusion we ask you to accept this walking stick as a souvenir of your visit to our shore, as a specimen of our woods, and of our local handicraft. We understand that the maple leaf is the Canadian emblem. We beg to offer you this conch, the Bahamian emblem, which you will please entwine with a garland of maple leaves, and when you look upon this conch remember that Bahamians are not jellyfish.

"May we soon learn to sing "The Maple Leaf Forever," with the conch by its side."

WHAT CANADA WOULD GAIN.

In support of the proposed annexation of the Bahama Islands, Mr. Macdonald says it would secure an expansion of trade with the West Indies, so rich in tropical fruits and varied in raw material, and requiring in return our northern products and manufactures.

"The area of the West Indies," he says, "is over 100,000 square miles, with a population of 2,500,000 which would round up our population to 10,000,000. This entry of the Bahamas would be the first step in the required direction. All that Mr. Macaulay and myself ask on behalf of the Bahamas is that our Government appoint commissioners to meet the Bahamian delegates and carefully consider the question from every standpoint.

"The Bahamas have an area of 5,600 square miles, almost three times that of Prince Edward Island, and one acre of grape fruit is worth as much as twenty to thirty acres of wheat as far as earning capacity is concerned.

Another product of the islands is rubber. There is a rubber vine that runs wild over the island. Experiments are being made at present to extract the rubber from the leaves, and the prospects are that it will be a big asset.

Apart from material considerations Mr. Macdonald asks: "What would tend more to the consolidation of the Empire than that Canada should bring together all these valuable but scattered fractions of the Empire and blend them into our Dominion? It is what Australia and New Zealand are tending to do with the Pacific islands, and what South Africa wishes to do with the native protectorates. Should the West Indies become part of Canada, then our Dominion would indeed be a complete entity, possessing temperate and tropical provinces, putting us on an equal footing with our neighbors to the south, and making us independent of the rest of the world. This, it seems to me, would be working along the lines of the Fathers of Confederation."

PEERS WILL MAKE STAND

AGAINST THE HOUSE OF COMMONS BILL TO ABOLISH THE VETO.

Lansdowne May Introduce His Lords Reform Bill on Thursday—Conciliation Negotiations Still on.

New York, March 27.—A London cable to the Tribune says:

The peers are determined to make a stand against the House of Commons bill to abolish the veto when it reaches the committee stage.

There have been a series of consultations over the Marquis of Lansdowne's reform scheme and the referendum bill prepared by Lord Balfour of Burleigh. Lord Halsbury, while still hostile to the conversion of the hereditary into a semi-elective chamber, advocates the referendum bill, which will be carried to its second reading this week, Lord Halsbury making his first important speech as a peer against it.

Big Land Sales.

Winnipeg, March 29.—Land sales continue to be exceedingly heavy. Over a million acres of farm lands have been sold by Winnipeg real estate dealers since the first of January. Inside property is moving with equal freedom and almost wholly for business purposes, not speculation.

State of Ohio, City of Toledo, Lucas County. ss.

Frank J. Cheney makes oath that he is a senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

EARACHE, TOOTHACHE!

To Cure the Pain in Ten Seconds and Get Instant Relief, Nothing Equals

NERVILINE.

Fifty years ago Nerviline was used from coast to coast and in thousands of houses this trusty liniment served the entire family, cured all their minor ills, and kept the doctor's bills small. To-day Nerviline still holds first rank in Canada among pain-relieving remedies—scarcely a home you can find that doesn't use it.

TESTIMONIAL NO. 4396

From Port Hope, Ont., Mr. W. T. Greenaway, of the Guide newspaper staff, writes: "For twenty years we have used Nerviline in our home, and not for the world would we be without it. As a remedy for all pain, earache, toothache, cramps, headache and disordered stomach, I know of no preparation so useful and quick to relieve as Nerviline."

Let every mother give Nerviline a trial; it's good for children, good for old folks—you can rub it on as a liniment or take it internally.

Wherever there is a pain, Nerviline will cure it. Refuse anything but Nerviline, 25c per bottle, five for $1.00, all dealers or The Catarrhozone Co., Kingston, Ont.

The Morning Times
PETERBOROUGH, ONTARIO

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTER.

Local Reporter Wanted.

We have an opening for a bright lad as local reporter. Apply at this office.

Correspondents Wanted.

The Times requires a correspondent in each of the following places:—Lakefield, Havelock, Norwood, Millbrook, Omemee, Keene, Appley and Mount Pleasant. Address this office for terms, &c.

A Fish Hatchery Needed.

At a meeting of the Bobcaygeon Fish and Game Protective Society, a resolution was passed asking the Ontario Government to establish a fish hatchery at Bobcaygeon. The only wonder is that this has not been done years ago.

Heavier Rails.

The Grand Trunk Railway has placed an order for 40,000 pounds of 80 and 100 pound steel rails, most of which, it is expected will be used on the grain route through Peterborough to Midland. The present rail is only a 56 pound to the foot rail, and is not capable of carrying the heavy trains that it is proposed to use.

Drunk in a Rig.

A rig passed up Water street yesterday with a drunken man sitting in the buggy, sound asleep and apparently helpless. The horse was travelling at a good pace, apparently unconscious of the condition of its master. The man had the appearance of being a farmer, and was about 40 years of age—old enough to know better.

Would Do No Good.

The Times has received a couple of letters for publication in reference to the picture of the Cross, now on exhibition at the Y.M.C.A. The publication of these articles would do no good and, might result in harm. There is no claim on the part of the management that there is anything supernatural regarding this picture.

Thanks.

The Children's Aid Auxiliary acknowledge with thanks contributions from the following kind friends: Mrs. H. Beall, Mrs. R. J. Soden, Mrs. Allison, Mrs. Westlake, Mrs. F. J. Jamieson, Mrs. J. M. Brooks, Mrs. W. J. Hopwood.

Finger Severed.

Mr. Harold Lagros, an employ of the Rapid Tool Company, who resides on Robinson street, was the victim of a painful accident yesterday morning. In some manner he got his hand caught in a machine, and a finger was severed. He is doing as well as can be expected.

No. 8 Company.

A rather small number turned out to drill last night, but another drill will take place on Thursday night, next, and a record attendance is promised.

Police Court.

Three drunks were up before Magistrate Dumble yesterday. One of them was fined one dollar, and the others were given their liberty providing they left town at once, which they agreed to do. The latter two hailed from Lindsay.

Lady Mackenzie's New Residence.

Lady Mackenzie has already a large gang of men at work at her palatial summer residence at Kirkfield. Her latest move in the building line, however, was made this week, when a number of men set to work tearing down the old bake shop at the rear of the hotel, that for years was conducted by Mr. H. Campbell, but was lately purchased by L. Mackenzie who purposes turning the old hotel into a picturesque English inn, after the type of the old English inns.

North Ward Organized.

The North Ward Citizens' Committee will please meet at Mrs. Lee's shop, at the corner of George and Smith streets to-morrow night, 30th inst., at 7.30 p.m., to arrange for the getting out of the entire vote on 25th April. The following is the infirmal committee (volunteer helpers welcome):—D. W. Dumble, Frank Dobbin, V. Eastwood, Jas. Kendry, J. J. Hartley, W. H. Hill, G. J. Thompson, H. C. Stauffer, G. Walter Green Alderman Kerneghan, Ald. Graham.

Doctors Are Busy.

There has been much sickness in the city during the past winter, and there still is plenty for the doctors and nurses to do. The hospitals were taxed to their fullest capacity to provide accommodation for the patients. The prevailing epidemic of grip is responsible for much of the sickness and many of the deaths which have taken place.

Y.M.C.A. NOTES.

Ackerman's night was held last evening and a large number of employees were present. Everybody enjoyed themselves greatly.

Among the events were: Bowling matches, Basket ball and Swimming. Many viewed "The Shadow of the Cross," and a large number amused themselves in the game room and reading parlours.

SOCIETY EVENTS

Miss Carrie Reesor of Markham is visiting friends in the city.

Messrs. Arthur Weart and Walter Fitzgerald spent Sunday and Monday in Port Hope and Oshawa.

Miss Maud Power of Bowmanville, who has been attending Normal School here, returned home yesterday.

Mr. A. D. Stothard left on the 5.30 G.T.R. train yesterday afternoon for Calgary, Alta.

Miss J. G. Winn, of the Normal School, went to Colborne yesterday morning.

Miss E. E. Bannon of the Normal School, went to Omemee on the 5.30 yesterday afternoon for the Easter vacation.

Mr. H. M. Gilchrist, the secretary of the Y.M.C.A., and Mr. J. J. Thompson, physical director, are both confined to their beds. Mr. Gilchrist is very ill, while Mr. Thompson is suffering from a bad knee.

Mrs. E. B. Corbett, of Tacoma, was in the city visiting Mrs. W. E. Conway, Downie street, Mrs. Corbett is a daughter of Mr. Geo. Morrison, of Tacoma, and an old business man of Peterborough.

Lindsay Post: Miss J. Jackson, of Peterborough, returned home this morning after spending the week end with friends in town.

The many friends of Mrs. Frank Mason will exceedingly regret to learn that she is confined to her home through severe illness.

Mr. and Mrs. J. J. McBain, who have been spending the winter at Vancouver, B.C., expect to return to Peterborough shortly, and will reopen their house on King-street.

The many friends in Peterborough of Mr. Henry Henderson, of Norwich, father of Mrs. A. W. Cressman, will be pleased to learn that he is recovering after a severe attack of grip. Mr. and Mrs. Henderson expect to spend a portion of their summer in Peterborough as usual this year, a fact that will also be good news to their hosts of warm Peterborough friends.

If you have trouble in getting rid of your cold you may know that you are not treating it properly. There is no reason why a cold should hang on for weeks and it will not if you take Chamberlain's Cough Remedy. For sale by all dealers.

LITTLE LOCAL LINES

No. 4 Company turned out last night for drill at the Armouries.

Bogus five dollar bills are said to be in circulation in Peterborough.

The creek is again quite angry, the water being higher than usual this year.

Rev. H. J. Keith gave an illustrated lecture at Millbrooke last night, before the Boy's Guild of the Presbyterian church.

Dr. McCulloch repeated his talk on "Some Heroes of Ian McLaren" last night before the Brotherhood of St. Andrew. There was a fair attendance and an enjoyable time was spent.

LEMIEUX RECEIVING CONGRATULATIONS OF FRIENDS

MAN WHO ADMITTED HIGHWAY ROBBERY AND WAS ACQUITTED, NOW AT LIBERTY.

Won't Re-try the Case—Bruchesi Will Not Discuss It—Has Nothing to Do With the Roman Church.

Montreal, Que., March 29.—A. J. Lemieux, the man who, according to the sworn evidence of several witnesses, held up and robbed Ludger Larose, secretary of the famous Emancipation Lodge, at the point of a revolver, is to-day a free man and is receiving the congratulations of his friends, the little clique of zealots who plotted to break-up the French-Canadian Masonic organization.

The action of the jury in dismissing Lemieux yesterday has caused widespread disapproval in legal circles, the feeling being that Mr. Germain, counsel for Lemieux, so worked on the religious sentiments of the twelve good Roman Catholics and true who sat in the jury box that he supplanted their sense of justice by a riot of religious fervor, which made them see Lemieux in the light of a hero. Mr. Larose would not make any statement to-day with regard to the possibility of a continuation of the case.

"No comment is necessary. You know that every fair-minded man thinks of this affair," he said. "I do not care to discuss it."

It is not considered likely that any further action will be taken against Lemieux, though it is possible that the charge of theft might be brought against him by Mr. Larose if the latter cared to take such a step, the charge on which he was acquitted yesterday being "highway robbery."

At the Archbishop's palace this morning it was said that Mgr. Bruchesi had nothing to say in regard to the acquittal of Lemieux. His secretary declared that the archbishop was not at all interested in the case.

"I presume the jury returned their verdict according to their conscience," said one of the priests. "It has nothing to do with the clergy. Why should we be questioned about it?"

WONDERFUL CURE IN BONAVENTURE

DODD'S KIDNEY PILLS AGAIN CAUSE A SENSATION.

They Cured Dame Aubin Bonne, Who for Fifteen Years, had Endured the Tortures of Diabetes—Interview With Dame Bonne.

Musselyville, Bonaventure Co., Que. March 29—(Special)—"I suffered till that any person could endure." These are the words of Dame Aubin Bonne of this place, in telling of her wonderful cure from Diabetes, which held her in its grasp for fifteen years. She declares that Dodd's Kidney Pills and nothing else must get the credit for her cure.

"I had pains in my head and back and stiffness of the joints," Dame Bonne continues. "I lost my appetite and suffered from Heart Disease and bad difficulty in breathing. Doctors attended me but they could do me no good.

"After fifteen years of constant suffering I was persuaded to try Dodd's Kidney Pills. I used fifteen boxes and now I can do my own work. Do you wonder that I recommend Dodd's Kidney Pills?"

Dodd's Kidney Pills cured Dame Bonne because all her ailments were of or from the Kidneys. If you have Kidney Disease in any form don't wait fifteen years for someone to persuade you. Use Dodd's Kidney Pills and be cured.

BOXES AT OPERA WILL COST $525

London, March 29.—From information furnished by the directors of the Royal Opera, Covent Gardens, it appears that the prices to be charged for the cornation gala performance range from 100 guineas (525) for grand tier boxes to 1 guinea (about ($5.25) for a single seat in the gallery.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

A FISH HATCHERY.

Editor Morning Times.

Sir,—I notice by The Times that a movement is on foot to establish a fish hatchery in that village. Now, Mr. Editor, I have no objection to Bobcaygeon as a place for hatchery, but I claim the proper place for such an industry would be between Peterboro and Lakefield, where the conditions are ideal. Indeed the best site I think would be directly to the east of the Canal, where it empties into the Little Lake. There is no rock excavation necessary and the cost of putting in the hatchery would be very light.

I sincerely hope that our local member, Mr. T. E. Bradburn and James Thompson, will "get busy" right away and secure this great boon to our fine chain of lakes.

—Izaak Walton.

Reply—The Times called up Mr. Bradburn, M.P.P., over the phone, and Mr. Bradburn says that the Ontario Government has control over the bass and maskelonge breeding ponds, as he calls them, but the regular fish hatcheries are under the control of the Department of Marine and Fisheries, Ottawa, and are for the propagation of other fish than bass and maskelonge. It appears the latter will not develop in company with trout, salmon and white fish.—Ed. Times.

THE SEPTIC TANK.

Editor Morning Times.

Sir,—I see by the Times that it is proposed to dispose of the sewage of the city, which is now polluting the river, by the erection of an enormous septic tank in the south end. This might do for the present, but it would only be a temporary shift. In this connection I may add that I have been credibly informed that the Ashburnham septic tank has never been opened or cleaned out since it was built. Perhaps it works automatically. If so, I would suggest that a patent be procured by the city engineer, for it certainly is unique in this respect.

Would you kindly inform me through your valuable paper, if the above is correct or not, and oblige.

—East City.

Reply—The Times called up the City Engineer's office yesterday and was informed that the septic tank works automatically and therefore does not require to be cleaned out. The sewerage is transformed by this process of filtration into clear water, apparently free from all matter or coloring. It is inspected by the Engineer several times each year. Our correspondent is therefore apparently completely astray.—Ed. Times.

FURTHER LICENSE REDUCTION UNWISE.

Editor Morning Times.

Sir,—The new law provides how a reduction in the number of liquor licenses is to be brought about. This matter, it appears, is no longer in the hands of the Municipal Councils, ten per cent. of the ratepayers by petition may for the council to put the question to popular vote of the ratepayers. Now, Mr. Editor, I am told by some of my temperance friends that a further reduction of hotels will be asked for. I would suggest before any steps are taken in this direction that the matter be considered carefully. Does the reduction of the number of drinking places lessen the drink habit? Does it not have the opposite effect? Compare our bars to-day with what they were a year ago and what do you find: A practical monopoly and greater amount of drinking than before. I am told that more bartenders are employed in Peterboro to-day than at any previous time in its history. Three and four are required where This is the direct result of forcing all who "take a glass" to the fewer places where it is to be obtained. They enter, perhaps with a friend, intending to have one or two glasses at most, but other friends and acquaintances are there and it frequently happens that a "glass or two too much" is taken. We all know that a man will not, as a rule, enter a bar and take a lone drink. He likes company and when his friends and cronies are with him, he is almost sure to drink more than is good for him.

I say, therefore, that a further reduction of licenses should not be thought of. It is unwise and exceedingly foolish, for we have already too few hotels in the city to suit the travelling public.

By publishing this letter you will confer a favor on

—Common Sense.

R. L. BORDEN QUITS JOB

(From The Toronto Star)

Ottawa, March 29.—The smash in the Conservative Camp which has been threatening for days came to pass late last night, or rather early this morning, when Mr. R. L. Borden, the Opposition leader, intimated to his followers that he was done with the leadership.

The next twelve hours will be the most critical ones the party has gone through for years. Not since the wholesale desertion of the "nest of traitors," prior to 1896, have things looked as black for the Conservatives as they do to-day. The party presents a pitiful spectacle of internal dissension and feud, at the very time when it should have been presenting an unbroken front in opposition to the reciprocity pact, since such opposition was decided on as a party policy.

BORDEN HAS NOT RESIGNED

(From The Toronto News)

Ottawa, March 29.—This is the third day of the talk of deposing Mr. Borden, and it looks as if it will be the last day. The developments are:

1. Mr. Borden has not resigned, and there is no indication that he has any intention of so doing.

2. A document is being signed by the rank and file of the Conservative party assuring the leader of their complete confidence in him.

DOCUMENT EXPLAINED.

This last development requires a word of explanation. It is not an official affair. Certainly members whose names have been mentioned as dissatisfied originated it, to show that the allegation was unfounded, and the members who were active in managing the party took no part in the movement.

LIBERALS ARE CURIOUS.

It seems very likely that the Government has been entertaining hopes that Mr. Borden might be worried out, so that it could call an election while the Opposition was disorganized. Great curiosity is shown by the Liberals in touch with Sir Wilfrid Laurier as to the rumors, and significant attempts have been made to obtain information.

THE STATE CAPITAL AT ALBANY SWEPT BY FLAMES

WAS ONE OF THE MOST IMPOSING STRUCTURES IN AMERICA.

Blaze Started From a Defective Electric Wire—A Watchman is Missing.

Albany, N.Y., March 29.—Fire today destroyed a large section of that historic $26,000,000 pile, the State Capitol. Three wings of the building were gutted, the main structure was badly damaged, and its million dollar staircase wrecked. The State Library, one of the greatest in the United States, went up in smoke with hundreds of thousands of costly books and numberless priceless documents. The Senate and Assembly libraries were also destroyed. The flames caused monetary damage of fully $10,000,000, but no money can replace the records and documents destroyed.

BURNED TO DEATH.

Night Watchman Samuel Abbott was burned to death while attempting to fight the flames.

The legislative business of the State was halted, and the Senate and Assemblymen which for weeks have been trying to elect a United States Senator, had to shift their sittings to the City Hall, the building having been tendered by the municipality as a temporary capitol. Several firemen were injured by falling debris, but none seriously hurt.

Troops were called out to guard the buildings from the ravages of the curio hunters, and to bar the surrounding crowds from death. Three men who were injured were taken to the Homeopathic Hospital. They are John Brennan, John Whitmyer and Wm. Rogers. The later may die.

For more than ten hours the firemen have been fighting the flames under the direction of Chief Bridgeford, and are utterly exhausted.

Though the fire had been under control of the firemen since ten o'clock, spasmodic outbursts of flames have kept the department on the jump.

CABBY HAD TWO PASSENGERS WHEN HE ARRIVED AT HOSPITAL

London, Ont., March 29.—On Sunday night a hack drove swiftly up to Victoria Hospital, and the nurses off duty in the rotunda sounded the emergency call. A house surgeon hurried out to the vehicle and entered the carriage, remaining for a short time. When he came out he hurried into the building with a new-born infant. A little later the mother was carried into the maternity ward to be taken care of with her little daughter.

ANGLO-AMERICAN ARBITRATION TREATY DIFFICULT TO NEGOTIATE

London, March 29.—The Morning Post points out that the business of negotiating an Anglo-American arbitration treaty is much more serious and difficult than many persons seem to suppose.

"No one," it says, "knows exactly what the Munroe Doctrine is, where it begins and where it ends. In popular language it is sometimes so expressed in America as to apply that on the American continent the will of the United States is law, and that no European powers can have any rights at all in that continent.

"The first of these interpretations can be accepted by Great Britain but the second cannot, and if it were sought to exclude the Monroe Doctrine in that sense from the provisions of a treaty it might as well be not drafted, because it would be meaningless."

FACE SORES AND ERUPTIONS.

Zam-Buk Will Quickly Heal.

The approach of Spring finds many people with unsightly face sores, eruptions, boils, etc. In this connection Zam-Buk is invaluable. All illustration of the way in which it cures even the most serious and chronic cases of eruptions, sores and ulcers, is provided by Mr. H. H. Barker, of Glencairn, Ont. He says:

"I never could have believed that any remedy could cure so quickly and at the same time so effectively as Zam-Buk cured me. My face began to be covered with a kind of rash, which itched and irritated. This rash then turned to sores, which discharged freely and began to spread. I first tried one thing and then another, but nothing seemed to do me much good, and the eruption got worse and worse until my face was just covered with running sores.

"Apart from the pain (which was very bad), my face was such a terrible sight that I was not fit to go out. This was my state when someone advised me to try Zam-Buk. I got a supply, and within a week I could see that the sores were rapidly healing. A little longer, and Zam-Buk had healed them completely, and my skin was as clear as if I had never had a sore. We shall never again be without Zam-Buk in the house."

Zam-Buk is unequalled for Spring rashes, eruptions, children's sores, scalp diseases, ringworm, ulcers, abscesses, eczema, tetter, piles, cuts, burns, bruises, and skin injuries and diseases generally. All druggists and stores sell at 50c box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations. Zam-Buk Soap, which may be had from any druggist at 25c a tablet, should be used instead of ordinary soap in all cases of eruptions and skin diseases.

A SUICIDE LEFT A FAMILY OF FIVE

GEORGE ROBERTSON, FORMERLY OF WOODBRIDGE, SHOT HIMSELF AT WESTON.

Widow and Four Children—Youngest is Four Years Old—Man Worried Over Business Matters.

Toronto, March 29.—George Robertson of Weston, shortly after he got up this morning, went to the woodshed at the back of the house and shot himself. Death was almost instantaneous. Alarmed by the shot the family called to the neighbors for help, and they called on Dr. Charlton. Before the physician arrived the man was dead.

Mr. Robertson came to Weston only a short time ago from Woodbridge. He had sold his farm in Woodbridge and started in business as an agricultural implement agent. Worry over his business is believed to have led to his suicide.

He was about forty years of age, and is survived by a widow and four children, the eldest of which is a girl attending school, and the youngest a boy of four. Dr. Charlton decided an inquest unnecessary, and issued a coroner's warrant for the burial.

A Washington, D. C., court has ruled that street pianos are vehicles. People who have suspected that they might be musical instruments should make a note of this.

THE WEATHER.

Northwesterly winds and about the same temperature.

THE ORANGE SENTINEL TO THE CATHOLICS

The Orange Sentinel to-day says under the heading, "An Appeal to Roman Catholic Laymen."

"If the Sentinel could get the ear of the Roman Catholic laity of Canada it would say: The attempt to enforce the Papal decree on marriage has created a situation in this country that calls for action on your part. It must be apparent to you that it is an unjust and tyrannical law. You have evidence that it has worked the greatest injury to innocent people. That innate sense of human justice which every man possesses to a greater or less degree revolts at the effects of the application of this decree. The priests may tell you that it having been promulgated by the Pope there is nothing for you to do but to obey. But you fellow-Romanists in Germany and in Hungary resisted the enforcement of the decree successfully. Why should not Canadian Roman Catholics exercise their right of protest, as the Germans did? Why should you not appeal to the Pope to withdraw this law in the interests of peace and harmony in the Dominion of Canada?"

NORTH HARVEY.

Latest Grist of News From Lakehurst Village.

The roads are in bad shape at present.

Mr. W. Shearer is busy assessing in this locality.

Miss Ethel Minaut was the guest of Mrs. J. McGuire last Thursday afternoon.

Miss F. Esson and Mrs. W. Sheatey were the guest of Mrs. H. Coons on Tuesday of last week.

Messrs. Bert and Jack Atkinson left on Monday for Outlook, Saskatchewan, where we hope they may meet with every success.

WEDDING BELLS.

The residence of Mr. and Mrs. A. A. Preston, North Monaghan, was the scene of a very pretty but quiet wedding yesterday morning, when their daughter Miss Eva May, was united in marriage to Mr. Henry J. Millard, of Peterborough. The nuptial knot was tied by the Rev. Dr. Marsh, pastor of Spring Ville Presbyterian church, in the presence of a number of relatives and immediate friends of the contracting parties.

A dainty dejeuner was served, after which Mr. and Mrs. Millard took their departure on their honeymoon trip, and will visit Niagara, Buffalo, and other points. The Times joins in wishing them a happy married life.

ROYAL

Special

VAUDEVILLE TODAY

Big change of Vaudeville for tonight. Everything new and different from anything ever seen at the Royal before.

ADMISSION:

Evenings—Adults 10c; Children 5c.
Matinee—10c to Everyone.

A Doctor Writes:

"We use Postum continuously in the family and I believe your campaign against the 'coffee habit' has saved more lives than all Uncle Sam's life-saving stations combined.

Respectfully,

M. D."

Like ALL our printed testimonials this is genuine

Would like to prove it?

Write us and the name and address will be sent.

Why saved lives?

Many and many a man or woman finds the life sands running low, and daily troubles show that food is not keeping the body up to active, healthful vigor, and wonder why?

Some hidden thing retards digestion and the body does not receive its needed nourishment.

To such we earnestly suggest leaving off the coffee entirely, even the famous "one cup in the morning." Replace it with good, hot postum made as per directions on pkg. and carefully observe day by day the return of health and strength,

That's the answer and

"There's a Reason"

C.G.E. FOOTBALL SMOKER.

A Splendid Programme Was Given—Refreshments Were Served.

About one hundred people attended the C.G.E. Football Smoker, in the S.O.E. Hall, last evening. The officers for the coming season were not elected, all the time being given to a sociable evening. Euchre and whist were played from 8.30 to 10.30 after which refreshments were served.

The following musical programme was then rendered in a pleasing manner:

Piano Solo—H. Lewis.
Song—Mr. W. A. Milburn.
Song—G. Benton.
Song—B. Bolain.
Song—A. Flowers.
Song—C. Dee.
Banjo Solo—J. Parkins.
Recitation—G. Lynch.
Accompanist—Mr. H. Lewis.

PERJURY CHARGE IS NOW MADE.

Arising Out of the Innis-Havelock Action.

The case of Innis vs. the Village of Havelock, which has been in the limelight for some time, promises to furnish interesting developments.

The latest move has been made by Mrs. Maud Innis, the plaintiff in the case, who has laid an information against Frederick Bennett, the Village Constable at Havelock, charging him with perjury in connection with the action for damages, which Mrs. Innis brought against the village for injuries she claimed to have received through a defective sidewalk.

The case was tried at Peterborough and was decided against the plaintiff. Mrs. Innis, however, appealed on the ground that Bennett had given false evidence, and the appeal was dismissed.

Now Mrs. Innis has laid a charge of perjury against the constable who appears before police magistrate Edmison at Havelock, on Friday at 10 a.m.

High County Constable Cochrane was in Havelock on Tuesday serving subpoenas on the different witnesses involved in the case.

CONTEMPLATED CHANGES ON OLD GRAND TRUNK MIDLAND LINE--GRADES TO BE AVOIDED

On Monday afternoon the G.T.R. filed the plan showing the contemplated change in the old Midland line, says the Lindsay Warder. The proposed new line will do away with the heavy grades so objectionable on the present line. At present there is a very heavy grade the other side of Omemee and an engine has to be kept at Omemee to assist the heavy freight trains, which also frequently get stuck on the big hills in Manvers.

The proposed line will be of a very slight grade and will be laid with heavy rails so that the moguls will be able to travel on it. This line leaves the Midland branch at Reaboro runs straight south for some distance and takes a slight turn to the east near Manvers boundary. Running through E. Pogue's farm in lot 1, con. 10. It then crosses the old Midland line at Bethany, crosses the C.P.R. and runs parallel with the new C.P.R. line for a mile or so after which it takes a very pronounced line and joins the Midland branch at the summit.

CLEVELAND'S SUPERIOR Baking Powder

adds to bread, cake and all foods made with it, a peculiar wholesome quality.

Cleveland's Baking Powder causes the food to retain its freshness and flavor.

A little of Cleveland's Baking Powder in pie crust will often redeem it from failure.

CLEVELAND BAKING POWDER CO., New York.

CATARRH

The Source of Consumption Cured Permanently By CATARRHOZONE.

It Soothes and Heals Every Part of the Mucous Membrane, Cures all Forms of Catarrhal Diseases of the Nose, Throat, Vocal Chords, Bronchial Tubes, Lungs and Deafness.

If you have Catarrh or a cold you cannot afford to be indifferent to its progress. Your unsatisfactory experiments with the old-fashioned treatments requiring the use of disagreeable snuffs, powders, washes, ointments, etc., should not influence you against Catarrhozone.

St. Catharines, Ont.—"Best thing for Catarrh of the Throat I ever tried."—Thomas Elliott.

Goderich, Ont.—"Excellent remedy for Throat irritation."—Rev. M. McIlhay.

Blyth, Ont.—"No more bronchial attacks since using Catarrhozone."—William Pollock.

Halifax, N.S.—"Has cured my Catarrh. I recommend it to my friends."—W. P. Connors.

Kingston, N.B.—"Best remedy in the world for catarrh."—Bessie McKendry.

Wawota, Assa.—"The very best catarrh remedy on the market."—Robt. H. Davies.

Bannockburn, Ont.—"No better remedy in the world for catarrh."—Patrick McQuelland.

West Lake, Ont.—"It's everything it is guaranteed to be."—Ethel Hildman.

Hickey, Mich.—"Has cured me of catarrh."—S. S. Ward.

THURSDAY, MARCH 30, 1911.

NOT EVERY ONE SHOULD GO TO COLLEGE.

Dean Clark of the University of Illinois gave utterance to a truth that deserves a wider acceptance than it receives when he said: "Not every man or woman, by any manner of means, should be given a college education."

There are boys whose time at college is wasted because they have no capacity for study of any sort, and it is a waste of effort to re-arrange courses in order to help them. Applying to them another quotation of Dean Clark, they have no "intellectual outlook" whatever. Engineering is as dark to them as Latin and Greek. The most that can be hoped for them is an improvement of manners by association.

In this class there may be some hard workers as well as drones, and their case is truly pathetic. They are the victims of a misdirected ambition, and have undertaken the impossible. One of these unfortunate digs will show few traces of the college influence when a careless student of much greater natural aptitude may be sensibly affected by it in spite of his negligence.

And this reminds us that even scholarship is not an exclusive and perfect test. There are many low stand men who carry away something from college that is of value to them. One of the most brilliant of the literary lights at Yale during President Taft's time did not shine at all at recitations and examinations, but his four years were profitably spent because he took advantage of his opportunity to read and write and to enjoy the companionship that the college offered.

Of course such an example does not indicate that others should avoid a severe training in the regular work. Generally speaking, the severe training is desirable. It is an excellent preparation for later struggles. But it sometimes happens that the impulses received in college have little visible effect until a sense of responsibility makes all life appear more serious.

The subject is so complex that it would be futile to attempt to announce a rule for the guidance of anxious parents. It is certain, however, that the number of students could be greatly reduced without injury to the excluded persons or to the country.

BENSFORT NEWS.

Latest Grist of News from Beamfort Village.

The Misses Clara and Etta King, the charming daughters of Mr. Wm. King, were a few days ago presented with a manicure set and ladies' companion on behalf of the Methodist church here, in which the young ladies took an active part, being members of the choir. A sleigh load of our young people went over the lake and a most pleasant time is reported.

The Women's Institute held their annual concert in the basement of Christ church, Bailieboro, on Thursday night of last week. Our local talent was represented by Messrs. Ross and Harold Moncrief, who rendered several mouthorgan and autoharp selections.

Mrs. John Kerr of Souris, Man., is renewing acquaintances in this vicinity.

Miss Currans of Fenelon Falls, is visiting her cousin, Mr. Wm. Metallister.

Mr. Harold Fry is visiting in Toronto.

Mrs. James Dawson and her son, Harry, were visiting Mr. Albert Pue.

Mr. Everett Woods' sawing bee was well attended last Wednesday, especially at night, when color was lent to the scene by the attendance of the ladies. Tripping the light fantastic was indulged in. All denominations were present and a very enjoyable time was spent after the labors of the day.

Mr. Bert Byers, who has been visiting in Pontypool and elsewhere, has returned home, bringing with him a valuable driver.

Mr. David Huggins had the misfortune to get his hand badly used up in the straw cutter a few days ago, but not seriously.

WESTERN ELECTRIC DEVELOPMENT.

Company With Capital of $10,000,000 at Work.

Winnipeg, March 28.—A big thing in electrical development is the company that is being formed for operating electric railways in Alberta. This company is capitalized for ten millions and intends to cover the province of Alberta with electric roads, beginning in the more thickly settled parts. The field for this sort of electrical development in the West is a big and fruitful one. There are few grades to overcome, power can be had in great amount, and the country, generally, lends itself to transportation by electricity most completely.

A similar company is seeking to corral the electric railway rights of Manitoba, and if these schemes go through it will be a matter of a short time only when the most thickly settled parts of the West will have their systems of electric transportation similar to those which have done so much for speedy and cheap communication in any section of the States, and which will spread from point to point until all parts of Western Canada will be in close touch. New lines are already projected about Winnipeg and points to be touched in the first steps of this development of electric railways are Stonewall, Portage la Prairie and a belt line around Winnipeg to take in St. Vital, St. Charles, Kildonan and other close-lying suburbs of Winnipeg.

DIAZ TO ABOLISH LANDLORD SYSTEM.

Reforms Already Under Way in the Mexican Republic—Millions to be Spent.

Mexico City, March 27.—By the time that Senor De La Barra arrives in Mexico City to take over the duties of Enrique Creel as Minister of Foreign Affairs, the reforms of President Diaz and his advisers will have been perfected, and chief among these will be a revolutionary change in the landlord system by which the rich men of the Republic virtually hold their tenants as slaves.

Concessions will be granted to every demand of the middle classes and the conditions which gave rise to the insurrection will be ameliorated at a cost of more than $50,000,000 to the national treasury.

PROMISED REFORMS.

In brief the reforms now being worked out include the following:

1. The appropriation of $40,000,000 for the division of large uncultivated tracts of land in the northern and the segregation of some of the biggest of the haciendas, into small tracts to be sold to the peons and middle classes for small farms. The draft of a plan will be submitted to the Mexican Congress on Saturday, by which allottment will be parcelled out to be paid for by the homesteaders in small instalments. Each farm will be from five to ten acres in extent.

2. The Republic will institute a series of electoral reforms in the Puebla, with guarantees that they will be extended to every State in the Republic as soon as they have been worked out to perfection. This reform extends suffrage and gives every Mexican citizen a voice in the selection of officials.

ENGLISH NOBLEMAN KILLED.

Relative of Salisbury Found Dead in Mine in Wisconsin.

Hazel Green, Wis., March 28.—It has developed that Charles Salisbury the workman killed in the Mills mine here, was not only an English nobleman but was no less a personage than an nephew of the late Lord Salisbury.

The man's death is a mystery to a large extent. He was found at the bottom of the 200-foot shaft with every bone broken. He had been employed at the mine for only about three weeks as a blacksmith and machinist, and, as he had indulged freely in liquor before going to the mine, it is supposed that he stumbled and fell into the pit.

Papers indicated his relationship to the British nobleman; relatives were communicated with, and the remains were sent to his old home in England for burial.

A BONNIE CARGO.

Steamer Caledonia Arrives at New York With Twenty Brides-to-be.

New York, March 28.—The steamship Caledonia, brought over a cargo of brides from Scotland. Twenty affianced young women marched down the gang plank and each was met by her prospective husband, all of whom are Scotchmen, who had come to this country at various times to better their fortunes, and succeeding had sent for their "bonnie Lassies."

Among them is Miss Lily McDonald of Glasgow, who expects to be married in Philadelphia to Allen Eitken.

Rev. David Hay of Londonderry, Ireland, a prospective bridegroom, also came on the Caledonia. He will proceed to New Orleans, where he expects to marry Miss Underwood-Smythe, daughter of Dr. Underwood-Smythe, of that city.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Route Boys Wanted.

A couple of good reliable boys wanted at The Times office to carry morning routes. Wages $1 per week.

Trunk Pacific Ry. Points.

In connection with settlers and round trip homeseekers excursions to the West on April 4th the Grand Trunk Ry. Coy., will run a special through train from Toronto to Edmonton, leaving Toronto at 11 p.m., April 4th via Chicago, St. Paul and Winnipeg without change, arriving at Edmonton 7 p.m., April 7th. This train will carry Pullman Tourist-sleeping cars with porter in charge. Berth rate to Winnipeg will be $8.75 for lower and $3.00 for upper. To Edmonton lower berth will be $6.15 and the upper $5.40. Mr. McCutcheon, commissioner for the Alberta government along with our travelling passenger agent will accompany same to see there is no trouble or delay and to look after the interests of the passengers. Consult City Ticket Agent Grand Trunk Ry. for rates, reservations and full particulars.

ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

LARGE INCREASE EXPECTED IN BUILDING TRADE IN WINNIPEG

Winnipeg, March 29.—Indications are that such a thing as a glut in building materials is not possible. The report of the Inspector of Buildings for 1910, shows that 3291 building permits were issued and nearly half of these were frame dwellings. 52 were brick dwellings, 70 were tenements, office blocks, etc., and 126 were warehouses, factories, mills, etc. So lately as 1901, the total of permits issued in Winnipeg was 630, or less than one-fifth of last year's figures in the number of buildings, while the cost figures show even a greater variance, the total cost in 1901 being $1,708,557, as against $15,116,450 last year. A single ward of Winnipeg called for permits to the amount of $4,569,950 last year.

MANITOBA HAS OVER SEVENTEEN HUNDRED MOTOR CARS AT PRESENT

Winnipeg, March 29. — The good roads movement is the complement of the fast increasing automobile trade. The number of motor cars in Manitoba doubles every year and there are now about 1,700 cars in the province. Automobiles are particularly useful in this country because they may be run all the year around. In the summer the prairie trails are ideal motor roads—except in rare times of rain—and in the winter the snow packs down so hard on city streets that cars are run about Winnipeg freely all winter, the only necessary precaution being the covering of the engine to keep the oil from chilling when the car is standing.

GREAT BRITAIN THE VICTIM OF BRIBE AND "HOOLIGAN"

ENGLISH VOTERS AND CORRUPTION

According to M.A.P. There Was Much [illegible] of the United States and Is Popularly Believed in This Country to Have a Monopoly of Corrupt Methods in Electioneering, but, According to the Great English Paper M.A.P., Great Britain Is Also a Victim of the Bribe and "Hooligan." When the last election of 1910 was over, M.A.P. published the following comments on this subject:

There is probably no time in the history of a nation when feeling runs so high as at a General Election. But while quite admitting that people are naturally liable to be so carried away by their emotions as to be entirely obsessed by the desire that their particular party may triumph, an emphatic protest should be made against many of the methods employed by usually honorable men when a political fight is on in their constituencies.

We do not refer to the candidates themselves, but to a certain class of the electors.

For instance, in spite of the Bribery and Corruption Act, a great deal of bribery still goes on in many constituencies. At a fairly recent election, complaints were made that some well-to-do electors bribed a number of working-men to vote for the candidate by offering them gifts of blankets; and "free beer" is still a trump card to play by unscrupulous people who have allowed party politics to get the better of them.

It is also a fairly common thing in [illegible] over the tradesmen they will take their [illegible] business they [illegible] to another.

Another reprehensible practice [illegible] of a free party, the wilful breaking up of public meetings. Surely if [illegible] a cause which [illegible] is a good one, he should have sufficient confidence in that cause to refrain from preventing his opponents from advocating it openly.

This [illegible] has been adopted for its right [illegible] and there is no more disgraceful policy than to make a rush upon a political meeting with the avowed idea of preventing a hearing.

Another highly objectionable practice is tearing down the posters of political opponents and altering the wording on placards to suit the politics of one's own side. Passing down a certain London street during the present Election, the writer saw a whole hoarding of bills torn almost beyond recognition, while in another instance disgusting remarks were written in chalk all over the pictures of one of the candidates.

Apparently, there is no limit to the lengths to which some electioneering hooligans will go. Quite recently a number of young men entered the committee-rooms of a well-known candidate and deliberately gave false names and addresses in order to obtain some canvassing cards. Having got what they wanted, they did not do any canvassing at all, but deliberately marked all the cards to make it appear that the electors were followers of their own side, and then returned the cards in the usual way to the agent.

Of course, this had the effect of seriously hindering that candidate's chances, for the agent was under the impression that all those electors were opposed to his man, and therefore, little or no effort was made to get them to go to the polls.

Most people will agree that political [illegible]

THE SIXTH SENSE

Is That of Equilibrium—Recognized by Physiologists

Few people are aware that there is recognized, now by all physiologists a well-defined sixth sense. It is known as the sense of equilibrium. Its seat is in the semi-circular canals of the inner ear, and is very ingeniously constructed to do that for which it was intended. These canals for a long time puzzled scientists, as it was known that they had nothing to do with hearing or the proper working of the auricular organ, and consequently were looked on as superfluous.

They consist of three semi-circular tubes, almost at right angles to one another and full of a clear liquid. They enable a person to tell what position he is in, no matter whether he is blind or paralyzed. By some peculiar process not well understood, but which probably has something to do with the varying pressure of the liquid in the canals on nerve-fibres while the body assumes different positions, they warn us when we are about to lose our equilibrium, and give us the consciousness of being in any position assumed.

A peculiar thing in connection with this and one that had a great deal to do with the final discovery of the use of the organs is the following. On divers occasions steeplejacks and workmen on high buildings found that they had lost their nerve and that they could no longer persuade themselves to go very far from the ground. On trying to work at their old trades they would have a dizzy feeling and would not be able to remain upright at great heights for any length of time. On examination by physicians it was determined that their semi-circular canals were diseased and that consequently their sense of equilibrium was partly lost.

"The Return of Sherlock Holmes."

Under the title the New York Sunday World will print a series of thirteen detective stories by Sir Arthur Conan Doyle. These Sherlock Holmes stories will be complete in each issue for thirteen Sundays, beginning April 9. While every one should get the set, any Sunday's issue will be equally desirable.

MEN: WE CAN CURE YOU

FINEST MEDICAL INSTITUTE IN AMERICA

OWNED AND OCCUPIED BY DRS. K. & K.

YOUNG OR MIDDLE-AGED MEN who need the services of expert specialists why waste your money in treating with doctors you know nothing of, why waste your money with worthless electric belts or drug store nostrums, when you can get guaranteed, reliable, successful treatment from these Master Specialists. Drs. K. & K. have treated patients throughout Canada for over 20 years and are responsible financially. They accept only curable cases and should your case prove incurable it need not cost you a cent. If you are unable to call at our office for a personal examination we will send a Question List for you to fill up from which we can diagnose your case and tell you whether you are curable or not. Then we will prescribe specific remedies for your individual case which you can take at home. We have no cure-all remedy that we send to everybody alike as most specialists do, but we prescribe the remedies required for each individual case to complete a cure. That's one of the secrets of our wonderful success when others fail. Send for our Free Booklet on Diseases of Men (Illustrated.)

CURES GUARANTEED OR NO PAY

We Guarantee to Cure
Nervous Debility, Blood Diseases, Varicose Veins, Kidney, Bladder and Urinary Diseases

CONSULTATION FREE

The Morning Times
PETERBOROUGH, ONTARIO

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTER.

Ice Still Strong.

The ice does not seem to have suffered from the mild weather. Hay came across Chemong Lake yesterday.

Meeting of Officers.

The annual meeting of the officers of the 57th Regiment will take place on Saturday evening.

To Show at Belleville.

The "Rosary" Co. leave on the 8.30 train this morning for Belleville where they will put on their next performance.

Y.M.C.A. Tennis Club Meeting.

The Y.M.C.A. Tennis Club will hold a meeting on Thursday evening at 8 o'clock. Officers for the coming season will be elected and other matters of importance discussed.

A Novelty.

The Kingan Hardware Co. have a novelty in their window. It is a large engine and train built of the different materials which the company keep in stock. The model is certainly well constructed and is attracting much attention.

A Bunch of Bad Boys.

Five boys appeared before Magistrate Dumble at the police court yesterday, charged with using bad language. They were given some good advice by Mr. Dumble, and allowed to go with a warning.

Counterfeit Bills.

Mr. Travers, the popular manager of the Bank of Montreal, has received information from the head office to the effect that counterfeit bills of the Bank of the denomination of five dollars are somewhere in circulation to the amount of about $5,000. It would appear from the warning that the counterfeits are of the series number 220,707.

Captured a Fawn.

Bobcaygeon, March 30. Mr. Garner Nicholls captured a young fawn a week ago Saturday in Bobcaygeon river near the lime kiln. A buck and a doe were chased by dogs from Harvey township. The buck made his escape, but the doe was too fatigued from the chase, and was unable to get up on the ice.

Booze to Go Up.

It is said that the "hard" drinks are to be advanced to 15c glass in many places, on account of the new liquor tax. In Peterborough there will hardly be any change in price—smaller glasses will probably be substituted.

Immigrants Passing Through.

Large numbers of immigrants are passing through to Toronto and Western points almost daily, by C.P.R. The rush this year to Canada from the old land is unparalleled. They are mostly English people and many of them possess considerable money.

Wedding Anniversary.

A very pleasing event took place on Tuesday last at the home of Mr. and Mrs. Edward Mabood, of Smith, the occasion being the celebration of the fiftieth anniversary of their wedding. An address was read by Mrs. Crossley, their daughter, while the two sons made a presentation of two very handsome mission easy chairs. A delightful supper was served during the evening, which was partaken of by about forty of their friends. The Times joins in extending hearty congratulations.

The Coronation of George V.

The Times is in receipt of a handsome folder giving the programme of the coronation of George V., which is to take place on June 22nd, at the Westminster Abbey, London. The folder is issued by the C.P.R. Steamship Lines, of which Mr. W. McIlroy is the obliging and capable agent. The programme gives the coronation service in detail from start to finish, and is handsomely illustrated, showing pictures of the King and Queen as well as some fine views of the magnificent palatial steamships of the C.P.R. This company has attained a prominent position as the greatest transportation system in the world.

Fined $10.

At the police court yesterday morning, Michael Murphy who was remanded a week ago to give him a chance to sober up was fined ten dollars. He swore that he did not know where he received the liquor that started him off, although the Chief of Police has positive evidence as to where he had obtained it. The magistrate regretted the necessity of imposing a fine, "as it only took the bread out of the mouths of his family," he said but he was unable to establish a precedent. Murphy was given twenty days to secure the money.

LITTLE LOCAL LINES

The lumber camps have ceased to exist for the season, and the men are now preparing for the drives.

Rev. C. J. James, of Toronto, preached a special sermon at St. John's last night.

No. 2 Troop Boy Scouts are requested to meet at the Armouries to-morrow, Friday evening at 8 p.m. when S. C. Wainwright will give them a short talk.

Kingston has a "Break O' Day" Club, the members of which meet and go for a tramp or a drive before sunrise in the morning, as a constitutional. Here is a pointer for Peterboro young people.

"The Rosary" in the Grand Opera House last night was fairly well attended.

The Times is in receipt of a letter dealing with religious matters that does not bear the signature of the writer. It therefore cannot appear.

Will Sing in Murray St. Church.

At the evening service of Murray street Baptist Church on Sunday evening next, twenty-four members of the visiting Sheffield Choir will take the place of the regular church choir, and supply the music for the service. Other churches we understand will also be supplied in a similar way by detachments of the visiting choir.

SOCIETY EVENTS

Mr. George Adams is home on his Holidays.

Mr. Beavis, of the Peterborough Canoe Co. goes to Toronto to-day.

Miss E. Givens has returned from visiting friends in Bobcaygeon.

Rev. Canon Davidson is in Toronto, and will address Trinity College students this morning.

Mr. Chris. Hughes, who has been with Grafton & Co. eight years, has been removed to Hamilton, where he will have charge of the furnishing department for the firm. He was presented with a travelling bag by the management of the local store.

Y.M.C.A. NOTES.

Hexathelon Contest.

The Hexathelon (juniors) will be run off this afternoon and evening. The senior Hexathelon will be contested on Friday night.

Basket Ball.

The final game for the championship of the city league will take place between the Ponies and the Fairies. The date of the game has not yet been fixed.

WIND ON THE STOMACH

A Well Known Westerner Tells of Suffering, Misery and Pain That He Cured With "Nerviline."

"A few weeks ago I ate some green vegetables and some fruit that was not quite ripe. It first brought on a fit of indigestion, but unfortunately it developed into hiccoughs, accompanied by nausea and cramps. I was dreadfully ill for two days—my head ached and throbbed; I belched gas continually, and I was unable to sleep at night. A neighbor happened in to see me and urged me to try Nerviline. Well I wouldn't have believed that any preparation could help so quickly. I took half a teaspoonful of Nerviline in hot sweetened water, and my stomach felt better at once. I used Nerviline several times, and I was completely restored."

NERVILINE STRENGTHENS WEAK STOMACHS

The above is from a letter written by G. E. Braun, a well-known stock man and farmer near Lethbridge, Alta. Mr. Braun's favorable opinion of the high merit of Nerviline is shared by thousands of Canadians who have proved Nerviline is simply a marvel for cramps, diarrhoea, flatulence, nausea and stomach disorders. Safe to use, guaranteed to cure—you can make no mistake in keeping Nerviline for your family remedy. Large 25c bottles; five for $1.00. Sold everywhere, or The Catarrhozone Co. Kingston, Ont.

A Successful Meeting.

Rev. Dr. Marsh and Messrs. T. A. S. Hay and H. O. Fisk of the local centre of the Royal Astronomical Society returned from Brighton on Tuesday, where they attended a special meeting of the Royal Astronomical Society of Canada. The event was a great success, a large number being present to hear Rev Dr. Marsh's address on "An Introduction to the Study of Astronomy."

BY-LAW NUMBER

A By-Law to aid the Independent Tire Company of Toronto Limited.

Passed the day of 1911

WHEREAS the Independent Tire Company of Toronto (Limited) has been incorporated under the provisions of the Ontario Companies Act with the authorized capital of $40,000 which will be increased to $350,000, and has proposed to the Council of the City of Peterborough to establish the factory of the said Company in and to carry on its business as manufacturers of rubber tires for automobiles and other similar goods at the said City, and for that purpose to purchase land for a site for and erect thereon a building of the material and size and to install therein machinery of the value hereinafter set out, and to employ in said factory within the times hereinafter mentioned, the number of operatives hereinafter provided for, provided the City will agree to assist the said Company by advancing to it by way of loan the cost of said land and building not exceeding in all the sum of $40,000 the same to be advanced and repaid as hereinafter mentioned and will grant the said proposed Company exemption from Municipal Taxes on the said land, building and the machinery and plant therein, and on the business assessment of the Company for the term of ten years on the conditions hereinafter set out.

AND WHEREAS there is at present in the said city no other manufacturing establishment carrying on the same business as the one intended to be carried on by the said Company, and it is desirable and in the public interest in order to secure the location of the said factory in the city of Peterborough, to accept the said proposal upon the terms and conditions hereinafter set out.

AND WHEREAS it has been arranged between the said Company and the Council that the said Company shall in the meantime purchase pay for and obtain a conveyance to the Company of the land required for the site of said factory and after the purchase thereof, proceed to erect the necessary building thereon for its purposes, of the material and of at least the size hereinafter mentioned, and to instal therein machinery and plant to the value of at least $75,000 to be free of all liens, and to be included in the mortgage hereinafter provided for, and when said land is purchased and conveyed as aforesaid and said building is erected and ready for occupation, that the Corporation will advance to the Company one-half the cost of the land and buildings up to the sum of $20,000, and when said machinery and plant have been installed therein at the cost aforesaid and the said factory has been in operation and employing therein at least forty operatives for thirty days, and the Company shall have stock subscribed and paid for in cash to the amount of $150,000, that the Corporation will advance to the Company one quarter of the cost of said land and buildings up to the sum of $10,000; and when the said factory has been in operation for a further period of sixty days and employing therein at least sixty operatives will advance to the Company the other one quarter of the cost of said land and building up to the sum of $10,000; provided the terms and conditions hereinafter mentioned entitling the Company to the same have been fully complied with and the security hereinafter mentioned has been given.

AND WHEREAS in order to enable the Corporation to make the said loan it will be necessary to issue the debentures of the Corporation for a sum not exceeding the sum of $40,000 or such less sum as may be required for the purposes aforesaid, which is the amount of the debt intended to be created by this By-law, but as the said sum is to be payable in instalments as aforesaid and it is undesirable to have any part thereof in hand and unused, it will be to the advantage of the Municipality to issue the said debentures in instalments, the said debentures shall be issued in instalments not exceeding in all $40,000, when the same is required for the purposes of this By-law, but so that the first instalment shall be issued within two years and the others within five years from the passing of this By-law.

AND WHEREAS the amount of the whole rateable property of the Municipality according to the last revised assessment roll is the sum of $8,873,145 and the amount of the existing debt of the Municipality, exclusive of local improvement debts payable by local special rates, but including the debt of $452,000.00 incurred for the purchase and improvement of the waterworks, is the sum of $1,144,158.17 and there is no part of the principal or interest in arrear.

AND WHEREAS there will require to be raised annually during the currency of the debentures to be issued hereunder to pay the interest on the said debt a sum not exceeding the sum of $1,800 less such part of the said sum as may be received from the said Company by way of interest on the said loan and the interest that may be received on the investment of the instalments of the said loan as the same are repaid and the instalments of principal to be received from the said Company in the repayment of the said loan, being sufficient for the purpose of repaying the same at the maturity thereof, it is not necessary that a sinking fund should be created for that purpose, but all payments received from the said Company in repayment of the said loan and for interest on same shall be paid to the Peterborough City Trust to be held and invested and applied as to said principal in payment of the said debt at the maturity thereof and as to the interest on the said loan and on the investments of the portion of the principal repaid in payment or reduction of the said interest, but in the event of a sinking fund for any reason being required for the purpose of paying the said debt, there shall be raised in any year during the currency of the said debentures, that the same may be required, a sum sufficient with the estimated interest on the investment thereof at the rate of four per cent. per annum to pay the said debt or the balance thereof when the same becomes due.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF, ENACTS AS FOLLOWS:—

1. This By-law shall take effect on the final passing thereof, but shall not have any force or effect unless and until the said Company shall have delivered to the Corporation a duly executed agreement to carry out on its part the provisions of this By-law to be performed, observed and kept by the Company, and also an undertaking agreeing not to oppose the construction of any sewers or sidewalks as local improvements that the Council may desire to construct under the provisions of the Municipal Act relating to local improvements.

2. It shall be lawful for the Corporation of the City of Peterborough to borrow the sum of $40,000 or such less sum as may be required for the purposes aforesaid, and to issue the debentures of the Corporation therefor in instalments as the same are required, such debentures to be sealed with the Corporate Seal of the City of Peterborough, and to be signed by the Mayor and Treasurer, and countersigned by the Secretary of the Peterborough City Trust, to be payable within twenty years from the date of the issue thereof respectively, and to bear interest at the rate of four and one-half per centum per annum, payable half-yearly on the thirtieth day of June and thirty-first day of December in each year, and to have coupons attached thereto for the payment of such interest—such debentures as to principal and interest to be payable at the office of the Secretary of the Peterborough City Trust at the City of Peterborough, or at such other place as the said Council may by resolution appoint.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate sufficient therefor upon all the rateable property of the City of Peterborough the sum of $1,800 for payment of the interest on said debentures or such less sum as may be necessary to pay the interest on debentures issued under this By-law at the said rate of four and one-half per centum per annum, less however the interest that may be received from the said Company and on the investment of any instalments repaid by the said Company on said loan, and no sums except as hereinafter provided shall be raised as a sinking fund to pay the said debentures at the maturity thereof, but the amount received in repayment of the said loan shall be paid to the Peterborough City Trust and by said Trust invested, held and applied for the payment of the said debentures at the maturity thereof, provided, however, that if by reason of the non-payment of the said loan or any instalment thereof, a sinking fund is necessary for the purpose of providing for the payment of the said debentures, or any of them, when the same become payable, there shall be raised and levied each year that the same is required for said purpose a sum sufficient with the estimated interest on the investment thereof at the rate of four per centum per annum to pay the said debentures at the maturity thereof.

4. There shall be paid to the said Company if and when it shall become entitled thereto under the terms hereof, so much of the said sum authorized to be borrowed under the provisions hereof as the Company shall be entitled to by complying with the terms and conditions hereinafter set out and furnishing proof satisfactory to the Council of the same and upon and only upon the said terms and conditions, namely:—

(1) That the said Company shall on or before the 15th day of April, 1911, apply to increase its authorized capital to at least $350,000 and will issue and dispose of as soon as may be possible and in any event not later than the first day of July, 1912, at least sufficient of the preferred stock of the Company to realize in cash at least the sum of $150,000, which together with the loan to be advanced under this By-law shall be used for the purchase of the land for the site for and the erection and equipment of the said building and the whole balance not required for these purposes shall be retained and used as working capital.

(2) That the said Company shall on or before the first day of July, 1911, have acquired and shall hold by a good title in fee simple free of incumbrances a site for its factory in the City of Peterborough of sufficient size for its purposes.

(3) That the Company shall on or before the 1st day of July, 1912, have erected on said land a three-storey building of brick, concrete or steel, with basement, suitable for its business at least 200 feet by 50 feet in size, or its equivalent and of a capacity sufficient to employ at least one hundred operatives, and shall on or before the first day of July, 1912, have the same equipped with machinery and plant suitable for the said business at a cost for said machinery and plant of at least $75,000 which said machinery and plant shall be free of all liens, charges and incumbrances, except the chattel mortgage to the City Trust hereinafter mentioned and shall on or before the 1st day of July, 1912, have the same in operation and employing therein the number of operatives above mentioned, the cost of said building and machinery and plant as represented by the Company, if not agreed to by the Council to be ascertained and fixed by a valuator agreed on by the Company and Council, or if they cannot agree on the appointment of a valuator within two weeks after the Company has furnished its evidence of such value to the Council, then by arbitrators appointed under the provisions of the Arbitration Act.

(4) That the Company shall have entered into a covenant with the Peterborough City Trust satisfactory to the City Solicitor to observe, perform and keep all the terms, conditions stipulations and agreements in this By-law set out to be observed, performed and kept on its part including the following:

(a) That the Company will pay to the Peterborough City Trust interest at the rate of four and one-half per cent. per annum on the amount of the said loan or the portion thereof from time to time remaining unpaid until the whole of said loan is repaid, said interest to be computed from the dates the respective instalments of the loan are advanced to the Company and to be paid half-yearly on the 30th day of June and the 31st day of December in each year commencing with the first gale day after the first half of the loan is advanced and will repay to the said City Trust the principal of said loan in annual instalments of $2,000 each, the first of such instalments to be made on the 31st day of December, 1912, and yearly thereafter, with the right to said Company to increase the amount of said annual payments or to repay the whole of the said loan or any balance thereof that may remain due, at any time in the meantime, with the right to the Council of the said Corporation in its discretion to demand repayment of the said sum or the balance thereof then remaining unpaid, if at any time (except in the case of strikes or damage by fire as hereinafter provided) the said Company shall have in its employment at its said manufacturing establishment in the City of Peterborough (after the first year of its operation) an average of less than one hundred operatives, or during the first year the number of operatives above mentioned within the time provided such repayment to be made within three months after the said Council shall have passed a resolution making such demand and mailed a copy thereof addressed to the said Company at the City of Peterborough. Provided that the provision as to the employment of operatives shall be taken to be complied with if such operatives are employed on an average of ten months in each year.

PROVIDED HOWEVER, that if the failure to employ the said number of operatives as above mentioned in the said manufacturing establishment is due to a general strike of the employees or of a sufficient number of them to prevent the said Company carrying on the said manufacturing business in the regular manner or to the destruction or damage of the buildings or machinery by fire or tempest, so as to prevent the said Company carrying on the said business in the regular manner, the time during which the business shall cease to be so carried on in consequence of such strikes or destruction or damage of the said buildings or machinery, not exceeding in either case one year, shall not be counted in the period to entitle the Council of the said City to demand payment of the amount of the said loan or the balance thereof then due as above mentioned.

(b) That in case default shall happen to be made of or in the payment of the said sum or any instalment thereof, as provided by sub-clause (a) hereof, or of any part thereof or of or in the payment of the interest on the same as provided in said sub-clause (a) or of any part thereof for the space of one month after the same becomes due and payable, or in case of default of or in the doing, observing, performing, fulfilling or keeping of any of the other provisions, agreements or terms herein or in said covenant mentioned, and such default shall continue for one month, then in every such case the whole of said sum or that portion thereof remaining unpaid shall forthwith become due and payable, and it shall and may be lawful for the City Trust, after giving written notice to the said Company of its intention in that behalf, either by service on the President or Secretary of the Company or by letter addressed to the Company at the City of Peterborough, not less than thirty days previously, and without any further notice or consent or concurrence of the said Company, to enter into possession of and hold the lands of the Company and the buildings thereon and the machinery and plant therein or thereon, and whether in or out of possession of the same if thereunto authorized by By-law of the Corporation of the said City, to make any lease or leases thereof, or of any part thereof and also if and when considered advisable and if thereunto authorized by By-law of the Corporation of the said City, to sell and absolutely dispose of the same or any of them or any part or parts thereof for any sum or sums and in any way the said City Council may by said By-law direct, and the said City Trust if thereunto authorized as aforesaid, shall have power and authority to assure and convey the same if and when so sold to the purchaser or purchasers thereof by proper and sufficient conveyance and conveyances.

(c) That the said Company will until the whole of the said loan is repaid keep the said lands and buildings and the said machinery and plant in good order, condition and repair according to the nature and description thereof, and in case of neglect or default in so doing the provisions mentioned in sub-clause (a) hereof shall apply by reason of such neglect or default, and the amount of the said loan or of that portion then unpaid together with the interest thereon shall become payable as in said sub-clause (a) set out.

(d) That the said Company will insure and until the said loan is fully repaid will keep insured against loss or damage by fire the said buildings and machinery and plant in the sum of at least the full amount of said loan or the balance thereof remaining unpaid in some Insurance Company or Companies approved of by the said City Trust (such approval not to be unreasonably withheld) and will pay all premiums and sums of money necessary for such purposes as the same shall become due, and will make the amount payable under the policy or policies payable to the said City Trust, as its interest may appear, and will deliver to the said City Trust the policy or policies of insurance when issued and the receipts thereto appertaining respectively not later than three days before the premiums on the said policies become due respectively, and in default thereof the said City Trust may pay any premiums or sums of money necessary for said insurance and the said Company shall forthwith repay same with interest at the rate of six per cent. per annum to the said City Trust it being understood that in the event of the said Company effecting its insurance on its buildings and machinery in the form of a blanket policy or policies and causing the loss, if any, thereunder to be made payable to the said City Trust to the extent of the unpaid amount of said loan it shall be a sufficient compliance with the said provision as to delivery of policies if the said Company shall deliver to the said City Trust a duplicate of said policy or policies or an acknowledgement by the Insurance Company or Companies of the interest therein of the said City Trust.

(e) That the said Company as security for the repayment of the said loan will execute and deliver to the said City Trust a first mortgage on the said lands and the buildings and fixtures thereon which fixtures shall as far as said mortgage is concerned, be held to be part of the realty and covered and embraced in said mortgage and will also execute and deliver to the said City Trust a chattel mortgage as a first charge on the said machinery and plant as additional security for said loan which said mortgages shall be continuing securities until the said loan is fully paid off according to the terms and conditions of this By-law.

(f) That the said Company shall at all times until the said loan is paid off have at least $75,000 worth of machinery and plant in said building, but shall be at liberty from time to time to substitute new and modern plant and machinery for the plant, machinery and fixtures in the said manufacturing establishment, provided the said new and modern plant and machinery is of equal or greater value than that for which it is substituted, and notice is given to the Secretary of the City Trust, giving the price and description of such substituted plant and machinery.

5. Provided the said Company shall have executed and delivered to the Corporation the mortgages and covenant above provided for and shall in every respect have complied with, carried out and performed the terms and conditions on its part herein mentioned, entitling it to the same, the said City Council will pay to the said Company one half of the loan herein provided for as soon as the said building of the size and capacity heretofore set out is fully erected on the said land and is ready for occupation, and will within thirty days after said building is fully equipped with machinery and plant, free of all liens, charges and incumbrances except the said chattel mortgage to the City Trust and costing not less than $75,000, and the Company has stock subscribed and paid for in cash to the amount of at least $150,000, and the said factory is in operation and employing therein at least forty operatives, pay to the said Company one quarter of the said loan; and will within sixty days thereafter, provided the above mentioned conditions are complied with and at least sixty operatives are employed in said factory, pay the said Company the remaining one quarter of said loan.

6. Provided the said Company shall carry out and continue to carry out the terms and conditions of this By-Law, and in the said covenant set out, to be observed, performed and kept by it, and shall on or before the dates above mentioned purchase the said site, erect the said building and equip the same as aforesaid and thereafter have the same in operation and employing therein the number of operatives above mentioned, the land and buildings of the Company used exclusively for manufacturing purposes and the plant machinery and the business assessment of the Company shall for a period of ten years from the first day of January, 1912, be exempt from all taxes, rates and assessments, except taxes for school purposes and local improvement assessments, rates and taxes for which they shall be and remain liable, and the oath of the assessor or assessors shall be amended accordingly, but provided said Company shall fail or neglect during said term of ten years to carry out the said terms and conditions and to operate and carry on the said business as aforesaid, and employ therein the said number of operatives, then such exemption shall cease and the rates and taxes payable in respect to the said land buildings machinery plant and business assessment shall be and become payable in the same manner as if this By-Law had not been passed.

7. The said Company shall, prior to the first day of March in each year file with the City Clerk a statutory declaration made by two officers of the Company, who shall therein state their knowledge of the facts, proving the extent to which the Company has complied with and is observing all the terms, conditions and provisions of this By-Law and those contained in the said covenant, and on neglect of the said Company to furnish such declaration, it shall be prima facie taken that such terms, conditions and provisions have not been performed, observed and kept.

8. For the purpose of taking the votes of the duly qualified electors on this By-Law the following adjoining Polling Sub-divisions shall be united namely:—1 and 3, 2 and 5, 6, 7, 8 and 9, 10 and 11, 13 and 14, 15 and 16, 16 and 17, 20 and 21.

9. The votes of the electors of the City of Peterborough qualified to vote on By-Laws for creating debts shall be taken upon this By-Law on the 25th day of April, 1911, commencing at the hour of nine o'clock in the forenoon and closing at the hour of seven o'clock in the afternoon of the same day, at the following places and before the following Deputy Returning Officers with the following Poll Clerks, that is to say:—

POLLING SUB-DIVISIONS NUMBERS 1 AND 3.

Place, M. H. Halpin's, 39 George Street. Deputy Returning Officer, Josiah Robertson; Poll Clerk, W. Mason.

POLLING SUB-DIVISIONS NUMBERS 2 AND 5.

Place, T. J. Murray's, 111 Rubidge Street. Deputy Returning Officer, J. P. Bryson; Poll Clerk, A. Graham.

POLLING SUB-DIVISION NO. 4.

Place, L. Spry's, 210 Stewart St. Deputy Returning Officer, W. VanEvery; Poll Clerk, T. O. Rush.

POLLING SUB-DIVISIONS 6, 7, 8 AND 9.

Place, City Council Chamber. Deputy Returning Officer, T. B. McGrath; Poll Clerk, A. S. Maguire.

POLLING SUB-DIVISIONS NUMBERS 10 AND 11.

Place, J. E. Lillico's, 356 Charlotte St. Deputy Returning Officer, F. Brownscombe; Poll Clerk, J. O. Moss.

POLLING SUB-DIVISION NO. 12.

Place, R. Begley's, 363 Babb's Lane. Deputy Returning Officer, F. J. A. Hall; Poll Clerk, T. G. Robinson.

POLLING SUB-DIVISIONS NUMBERS 13 AND 14.

Place, N. Routley's, 392 Brock St. Deputy Returning Officer, A. Sawers; Poll Clerk, N. Routley.

POLLING SUB-DIVISIONS NUMBERS 15 AND 18

Place, T. H. Hooper's, 601 George Street. Deputy Returning Officer, G. H. Howson; Poll Clerk, D. Kennedy.

POLLING SUB-DIVISIONS NUMBERS 16 AND 17

Place, J. J. Cook's, 153 Dublin Street. Deputy Returning Officer, John Sawers; Poll Clerk, J. J. Cooks.

POLLING SUB-DIVISION NO. 19.

Place, J. T. Braund's, 720 George Street. Deputy Returning Officer, T. W. Robinson; Poll Clerk, Jas. Middleton.

POLLING SUB-DIVISIONS NUMBERS 20 and 21

Place, Former Village Hall. Deputy Returning Officer, R. Hamilton; Poll Clerk, John Kerr.

POLLING SUB-DIVISION NO. 22.

Place, George Coon's, 559 Rogers St. Deputy Returning Officer, J. T. Craig; Poll Clerk, E. Dillon.

10. The 26th day of April, 1911, at the hour of twelve o'clock noon, and the City Clerk's office are hereby fixed as the time when and the place where the Clerk will sum up the number of votes given for and against the By-Law.

11. The 24th day of April, 1911, at the hour of twelve o'clock noon, and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively on behalf of the persons interested in and promoting or opposing the passing of the By-Law respectively.

Mayor.

Clerk.

NOTICE

Take notice that the foregoing is a true copy of a proposed By-Law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in The Morning Times newspaper, the date of which first publication is the thirtieth day of March, 1911, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

And further take notice that the name of any leaseholder, who does not at least ten days before the day in the said proposed By-Law appointed for taking the vote thereon, file in my office a Statutory Declaration proving that he or his wife is the holder of a lease, which under the provisions of section 354 of the Consolidated Municipal Act, 1903, entitles him to vote for or against the said proposed By-Law, shall not be placed on the Voters' List for such voting.

S. R. ARMSTRONG,
City Clerk.

VOL XXXIV NO. 76 PETERBOROUGH, ONTARIO, FRIDAY MARCH 31 1911 PRICE TWO CENTS

COLORED WOMEN ARE COMING TO CANADA TO RESIDE

Pointe-A-Pitre, Guadeloupe, March 30.—A Canadian employment agent is here securing colored domestics who are to be paid wages of $5 a month in the Dominion. Sixty women sailed on the steamer Korona for New York, from where they will proceed to Montreal. An equal number plan to leave on the steamer Parima about the middle of April.

JUNIOR HEXATHELON WAS RUN OFF AT Y.M.C.A. LAST NIGHT

Some Good Records for Juniors—Ties to be Run Off Saturday—Many in Contest.

The Junior Hexathelon was run off last night at the Y.M.C.A. A most creditable showing was made by the juniors. In the 60 yard potato race, R. Laing and H. Hill are tied for first place. Many other ties occurred which will be run off later. Among the record smashers were:—C. Bartlett's high jump of 4 ft. 9 in.; S. Cresswell's standing broad jump of 8 ft. 5 in.; H. Hill's shot put of 38 ft. 2 in.; and R. Howden's fence vault of 5 ft. 7¼ in.

The first, second and third of each event will be sent to the International Committee and the Y.M.C.A. scoring the most points will receive a handsome shield.

Following is the standing.

—60 Yard Potato Race—
R. Laing, 15.1 seconds.
H. Hill, 15.1.
A. Darling, 15.3.
R. Howden, 15.4.

—High Jump—
C. Bartlett, 4 ft. 9 in.
H. Hill, 4 ft. 5 in.
G. Reid, 4 ft. 5 in.
O.Cavanagh, 4 ft. 3 in.

—Fence Vault—
R. Howden, 5 ft. 7¼ in.
C. Brown, 5 ft. 5¾ in.
H. Hill, 5 ft. 5¾ in.
C. Bartlett, 5 ft. 3¾ in.

—160 Yard Potato RaceM
H. Hill, 46 1-5 seconds.
G. Reid, 48 2-5.
D. Bartlett, 49 1-5.
C. Brown, 49 1-5.

—Standing Broad Jump—
S. Cresswell, 8 ft. 5 in.
H. Hill, 8 ft. 3¼ in.
B. Lees, 8 ft.

Shot
—Shot Put—
H. Hill, 38 ft. 2 in.
S. Cresswell, 35 ft. 9 in.
C. Bartlett, 35 ft. 6½ in.

STORIES ARE INTERESTING

Ottawa, March 30.—Mr. Borden has not relinquished the leadership of the Conservative party. He is not relinquishing it. Stories about his doing so may be interesting, but suffer from this central difficulty, that he isn't.

NEW BAPTIST CHURCH ON MURRAY STREET

The Contract Let for the New Structure.

Mr. J. Thirtsteck has secured the contract for the removal of the buildings on Murray street, on the site of the new Baptist Church, which is to be erected at once. Among the buildings that are being torn down are the Yelland residence and blacksmith shop and the buildings in the rear. The contract for the stonework has been let to the firm of Rees and Hawken, of Toronto and the carpenter work to Messrs. McIntyre Bros. of Peterborough. The new building will be a very fine one, and will add greatly to the beauty of the city.

Both Fighters Dead.

Buffalo, March 29.—Mortally wounded by two revolver shots fired by Felipe Antoni, in a saloon last night Petro Scarpilli closed with his assailant, and wrenching the revolver from his hand, shot him dead. Scarpilli was taken to a hospital, where he died two hours later.

When you have rheumatism in your foot or instep apply Chamberlain's Liniment and you will get quick relief. It costs but a quarter. Why suffer? For sale by all dealers.

AN ELECTION TO TAKE PLACE IN THE FALL

THAT SEEMS TO BE REGARDED AS A LIKELY RESULT OF THE PRESENT SITUATION

CENSUS FIRST AND A REDISTRIBUTION BILL

Sir Wilfrid Laurier Desires An Appeal to the People on Reciprocity Question—Another Session in September to be Followed by an Election in November.

GOVERNMENN CONTEMPLATES AN ADJOURNMENT IN MAY

Ottawa, March 30. The House of Commons yesterday passed a rather sleepy day in a discussion, largely in French, on a resolution pertaining to agriculture, and wound up with a couple of hours in railway supply. It was a Nationalist day in the House. The resolution was introduced by Mr. Gilbert, of Drummond and Arthabaska. Messrs. Nantel, Paquet, and Monk supported him, and Mr. Henri Bourassa, high priest of the order, gave them his tacit benediction from the gallery. The newest members of the House made a really good impression.

Outside the chamber the storms of the morning had quieted down somewhat. The cooler heads of the party apparently got a grip of the situation late in the morning, and held it. Whatever Mr. Borden's feelings may have been, he was in his place in the chamber on time. He did not stay long though, and was not back until the evening.

HASTEN GENERAL ELECTION.

The latest report from a semi-official source, and one which is receiving a good deal of credence, is that we may expect a general election somewhat sooner than was anticipated. It is now said that the Government plan contemplates an adjournment about the middle of May. During the summer the work of taking the census will, it is said, be gone on with, special attention being paid to the West, and an early session is to be called in September, a Redistribution Act is to be passed, and dissolution and an appeal to the country follow in November. This program is one which would meet with general approval. It is reported that Sir Wilfrid is anxious to appeal to the country on the reciprocity issue, but that there will be no such appeal until the proper representation is given the West.

Hon. W. S. Fielding, who enjoys a sly little dig at his opponents, could not resist the chance to give them one just as the House rose last night. Col. Sam. Hughes protessed to be anxious about the probable date for the appearance of the reciprocity debate. "In due course we will consider reciprocity," declared the Minister of Finance. "From all I hear, though, there is no hurry about it."

CHURCH UNION IN PRACTICE IN WEST

Saskatoon, March 30.—A practical scheme of church union was decided upon by the Methodists and Presbyterians of Saskatoon at a mass meeting last night of members of six city churches.

All the churches are face to face with the building question and it was decided to erect three large churches instead of six smaller ones.

BUTCHERED A CUSTOMER WHO CRITICISED HIS FAT STEAKS

Cincinnati, March 30.—An argument as to the quality of a beefsteak last night resulted in the killing of Joseph Arbury, a paper hanger. Adam Beckman, a butcher, was endeavoring to sell a steak to Arbury. The latter contended that the steak was fat. Beckman took an opposite view. The men finally came to blows and during the scuffle Beckman seized a butcher knife and plunged it through Arbury's heart, killing him instantly. Beckman was arrested.

WOMAN LIVED IN DESERTED HOUSE WITH NEW-BORN CHILD

Welland, March 30. After giving birth to a child and living for sixty hours absolutely alone in a tumbledown shack, without food or fire, a Roumanian woman was found along the railway tracks near the village of Port Colborne. The child was born on Friday night about eleven o'clock. Though almost dead from cold and hunger when found, the mother and child are now both well on the road to recovery.

TRIED TO FIND SISTER.

On Friday evening, the woman, who is unable to speak a word of English, left Welland for Hagersville, as she wanted to be with her sister at that place at the time of the birth of her child. Mistaking the direction of the conductor, she got off the train to change cars at the wrong place. Left alone, she started to go on foot to where she believed she could catch a train for Hagersville. When she could go no further she entered a vacant house, bereft of doors and windows, and there on a heap of straw the child was born.

There was absolutely not a shred of clothing for the child, but the mother kept it as warm as she could under her coat. Discovery of the woman's cruel situation was made by A. Manning, who notified Rev. Russell Smith. The pastor assisted in caring for the poor unfortunates. The baby was later christened by the Rev. Father Cruise, and given the name Mary.

Aviator Killed.

Paris, March 29.—J. Cei, an Italian aviator, 23 years of age, was killed by a fall from his machine near here to-day.

WESTERN COAL STRIKE

MINERS DECIDE TO STOP WORK ON SATURDAY AND DEFY LEMIEUX ACT.

Ottawa Sends Reminder—Minister of Labor Suggests Appointment of Board Before Resort to Strike.

Fernie, B.C., March 30. A mass meeting of the Coal Creek and Fernie miners was held in the Grand Theatre here yesterday, which was attended by over 800 men, who packed the building to the doors, and two or three hundred men were upon the steps. The meeting endorsed the attitude taken by their representatives at the Calgary conference, thus making it certain that the mines here will be closed down on Saturday. The same action was taken at Hosmer, and a meeting at Michel is expected to do the same. The men seem united, and the operators refuse to go further, so that it looks like a stoppage of work for some time. J. N. McNiven, fair wage officer of the Department of Labor at Ottawa, is in town, but is taking no part so far in the proceedings. Some men are leaving the camp, and this exodus will increase as soon as the mines are closed.

AN IMPORTANT DISCOVERY

CAN NOW MAKE PAPER OUT OF SUGAR CANE.

Product is Said to Equal the Best ood Paper Being Made. Wood Paper Being Made.

Washington, March 30.—Another substance from which paper may be manufactured has been discovered by a manager of a sugar estate at Trinidad, according to the U.S. Consul at that place. The new substance is ground sugar cane, to which is added bamboo fibre. The combining of these two the discoverer believes, produces a substance of which the fibre is the right length to make a cheap and excellent paper. He has made paper by this process without the use of chemicals.

The quality of the paper, according to the report, can command the market against any wood paper now being manufactured.

Meeting of Officers.

The annual meeting of the officers of the 57th Regiment will take place on Saturday evening.

TRIED TO CAPTURE MOROCCAN SULTAN--A REIGN OF TERROR

Tangier, Morocco, March 30.—An army of 3,000 Berbers attacked the Moroccan capital city of Fez to-day and attempted to capture Sultan Mulai Hafid. In a fierce battle with the native troops they were finally driven off.

A reign of terror prevailed during the attack and scores of foreigners sought the protection of the consulates, while others were given refuge in the residence of friendly natives.

The rebel Berbers were well armed and bombarded the battlements of the Sultan's palace for some time before they were defeated. A number are reported killed and wounded in the fighting.

Fez is a walled city with a population estimated at from 90,000 to 140,000. It is one of the most important cities in Morocco and contains 150 Mosques. It is considered a "Holy City" of the western Arabs. Its population consists principally of Moors, Arabs and Berbers.

Publicity for Calgary.

Calgary, March 29. The City Council had decided to appoint a Publicity Commissioner to secure industries for the city, and will put aside $2,000 this year to meet expenses.

YOUNG FRENCH-CANADIANS MAY PARADE IN HONOR OF A. J. LEMIEUX ON SUNDAY

Montreal, Que., March 30.—It was learned to-day that a movement is on foot to organize a big demonstration among the most zealous Roman Catholics of the city, in honor of A. J. Lemieux, who was acquitted on Tuesday on the charge of highway robbery. Lemieux was the leader of a band of young Roman Catholics who brought publicity to bear on the famous Emancipation Lodge of French Freemasons and caused its disbandment. Lemieux and his friends, it was admitted at the trial, held up Ludger Larose, secretary of the lodge and stole the list of members from him. This was published in pamphlet form, and with an alleged scandal, which was raked up at the time of the Eucharistic Congress, served to discredit the lodge.

The association de la Jueneese Catholic Francaise, an organization of young French-Canadians, is behind the movement to accord Lemieux a popular demonstration. Their plans are being kept secret, but it is likely that a procession through the principal streets will be held on Sunday next and a purse of gold will be paid to Lemieux for his "zeal in the cause of religion." It is known that a private collection has been taken up among the members of the society for this purpose, and that a substantial sum has been secured.

None of the officials of the society would make any statement regarding the projected demonstration.

CHINESE REGULARS FIRED ON THE RUSSIAN TROOPS

London, March 30.—Chinese regulars in the Ili district, fired on Russian troops to-day, according to a despatch, received here from St. Petersburg, and the Russian Foreign office has instructed Minister Korostovetz at Pekin, to demand an explanation from the Chinese Government.

According to details so far as the despatch gives them, the Russian troops were pursuing Chinese bandits who fled to the shelter of the Chinese army camp. When the Cossacks reached the camp the Chinese troops fired two volleys at them and the Russians withdrew.

The Chinese commander subsequently apologized, declaring the action of his soldiers had been a mistake.

In the second conflict between Russian and Chinese troops, reported this afternoon, several Chinese soldiers were killed or injured.

MOTHER GETS CHILD.

Her Marriage Was Recently Annulled by Quebec Judge.

Montreal, March 31.—Marie Emma Clouard, whose marriage to Eugene Hebert by a Protestant Minister was annulled by Archbishop Bruchesi and Judge Laurendeau, has been given the custody of the infant child of that marriage and has secured a position in a local store to earn a living for herself and child.

It seems that she was not a willing party to the ecclesiastical divorce and was suing Hebert for non-support when he took proceedings which had the marriage annulled.

SEEDING WILL BE GENERAL IN THE WEST NEXT WEEK

Winnipeg, March 30.—Reports from Alberta show that rain is general throughout the Province, and the farmers as a result are jubilant. The land is in splendid shape, though it was dry and rain was needed. Seeding will be well under way, with favorable weather conditions, next week. Probabilities are for rain in Saskatchewan and Manitoba. Here, too, a good rain is needed, though not urgent. Farmers state that land is in better shape than in years before and that the outlook is good. There will be over a fourth more acreage under seed in the West this year, principally in Saskatchewan.

ROYAL

Special
VAUDEVILLE TODAY

Big change of Vaudeville for tonight. Everything new and different from anything ever seen at the Royal before.

ADMISSION:
Afternoon—Adults 10c; Children 5c.
Evening—10c. to Everyone.

BIG POWER SCHEME SOON TO THE FORE

People Will Be Asked for Large Sum.

The question of cheap power for Peterborough is engaging the attention of the Industrial Commissioner Duggan and others. It is understood that there will be two or more alternative propositions to be considered, viz.: The Hydro-Electric power, under Government auspices, the purchase of the Lakefield dam, and the purchase of power on the river Trent at Healey's Falls and other points.

The Times has been informed that Lakehurst power, which is owned by the Dickson Company, can be obtained at a reasonable price, and that about 30,000 horse power can be developed there. In the meantime there is our present unused power to consider, which is, we believe very considerable. The whole subject is one that will require the most careful consideration when it comes before the Council, as it will in the near future.

THE WEATHER.

Northerly Winds and fair.

THREE DEATHS FROM TOO MUCH SKIPPING

New York, March 30. The third death in New York city during a fortnight from excessive rope skipping by school girls is being investigated by the Coroner's Office. May Tamplin, eight years of age, is the latest victim. She died late yesterday afternoon after engaging with several of her fellow pupils in a rope skipping contest for the championship of her school. She won the honors, hurdling the rope 698 times, but was taken to her home almost unconscious from exhaustion.

SPAIN DISREGARDS VATICAN.

Cabinet Approves Associations Bill, Subject of Long Contention.

Madrid, March 31. The cabinet today unanimously approved the associations bill, which the government is determined to introduce in the cortes before April 6. The bill provides for the regulation of religious and other societies and has been an issue between Spain and the Vatican, as the latter insisted that the measure form the subject of an entente between Rome and Madrid before being submitted to the cortes. This Premier Canalejas refused.

ADVERTISE IN THE TIMES.

FAIR WARNING.

Son of Athens, ere you shine
These bespattered shoes of mine,
Let me on your mind impress
With the utmost earnestness
This my warning orthodox
Keep the polish off my socks;

By the gods in heav'n above,
By the burning Sappho's love;
By the blood of Scio's vine,
By Anacreons song divine;
By Parnassus' well known rocks,
Keep the polish off my socks!

Son of Athens, hear my vow—
There will be one Helva row.
Take it even now from me,
It will beat Thermopylae.
So, if you's escape some shocks,
Keep the polish off my socks!
—Springfield Union.

FOUND IN EGYPT.

Colas Believed to Have Been Used by Ethiopian King.

Khartoum, March 30.—At a lecture delivered recently at Khartoum, Professor Garstang announced the discovery, inside two glazed pottery vases of Egyptian ware found in the royal Meroe of a hoard of golden treasure, including some gold pottery rals inscribed with the names of Ethiopian kings, who were also rulers of Egypt. Beside the palace where the above find was made another great palace building had been brought to light, consisting of a central court, with various halls and chambers on either side of it, after the Mediterranean style. The excavations have disclosed also the dais of the royal throne.

One of the most interesting results of the work that has been carried on at Meroe during the past cold weather was the discovery of a head more than life size, of remarkably fine workmanship. The face is handsome and in an almost perfect state of preservation.

EXTENDING OPIUM BILL.

Senate Adopts an Amendment Adding to the Restricted List.

Ottawa, March 29.—On motion for the third reading of a bill to prohibit other drugs, Sir Richard Cartwright hit the improper use of opium and moved amendments extending the application of the penalty provisions to opium salts, derivatives and compounds. The amendment was adopted.

Senator Wilson said he believed the bill would work hardship in many cases. Under it a physician might be punished for provided needed means for the relief of people in great physical distress. An old lady of a young child got frequently needed relief from a dose of paregoric. He was not sure but that this bill would prevent that humane practice in future.

State of Ohio, City of Toledo, } ss.
Lucas County.
Frank J. Cheney makes oath that he is a senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.
FRANK J. CHENEY.
Sworn before me and subscribed in my presence, this 6th day of December, A.D., 1886.
A. W. GLEASON,
(Seal) Notary Public.
Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.
F. J. CHEENY & CO., Toledo, O.
Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

Shanghai, March 30.—The action of China in submitting to the Russian demands is being resented by the populace. In the centre and south the anti-Manchu agitators are active, despite the censorship and official repression.

M'BRIDE AND ROGERS TO ENTER THE FEDERAL ARENA

BRITISH COLUMBIA PREMIER AND MANITOBA MINISTER TO RESIGN AT ONCE.

And Run in Bye-Elections in Victoria B.C., and Macdonald, Man.—Present Members to Retire.

The Conservative party, it is said, is about to re-organize. Hon. R. McBride is to abandon the Premiership of B.S., and run for the Federal seat in Victoria, held by G. H. Barnard. Hon. R. Rogers is to leave his Manitoba portfolio and run in Macdonald, Man., where Mr. D. Staples will retire in his favor. The Conservative majority was 13 in Victoria and 536 in Macdonald at the last election. The bye-elections now expected will be fought out on the reciprocity question and be very sensational.

Ottawa, March 30. Mr. Borden is still in command of the Conservative ship, and seems to have once more reduced the mutineers to subjection, though none of them has yet been placed in political chains and consigned to the dark cell. The Conservative chief was yesterday persuaded not to put into effect his notice of resignation.

There are still mutterings from the insurgents, but they have seemingly been reduced to the condition, where they have come to recognize that so far as the Parliamentary party is concerned, at least, they have no hope of success in their intrigues against Mr. Borden.

An interesting development in the situation is a clear declaration by the French Conservatives of Montreal that they have cut loose from the Federal party entirely, while it is under Mr. Borden's leadership, and that they must be counted out in any party recognized. They have definitely joined themselves to the Nationalists under Mr. Bourassa's leadership, and when the next general elections come along, the opponents of the Liberals in Quebec will be under the Nationalist banner, and under the command of Mr Bourassa, who will seek election to the Commons.

An interesting illustration of how history repeats itself has been given by the latest conspiracy against Mr. Borden. When the same people made a similar attack last year, the result was a re-organization of the party whips, the displacing of Mr. George Taylor as chief whip and his replacing by Mr. G. H. Perley, together with a general change in the other whips. Now it is semi-officially announced that as a consequence of this last "Nest of Traitors," there will be further changes.

ROGERS TO COME IN NOW.

Hon. Richard McBride, now Premier of British Columbia, and Hon. Rabt. Rogers, now Minister of Public Works of Manitoba, will, if the present plans materialize, be members of the House of Commons before the next session. If there is a general election in the meantime (which is doubtful), they will take part in the general fray, but they will be here, even if they have to have a bye-elections. Mr. Rogers will contest the constituency of Macdonald, Man., now represented by W. D. Staples, who will resign in his favor. The contest there should be an interesting one. If the sentiments of the farmers of Manitoba is as enthusiastic as claimed by the Liberals and the grain-growers, even "Bob" Rogers will have to fight hard, and the result should be a great test of public opinion in Manitoba upon the vital issue of the present-day politics.

PATENTS
Prize Offers from Leading Manufacturers
Book on patents. "Hints to inventors." "Inventions needed." "Why some inventors fail." Send rough sketch or model for search of Patent Office records. Our Mr. Greeley was formerly, Acting Commissioner of Patents, and as such had full charge of the U. S. Patent Office.

NASAL CATARRH

An Old Physician Says to Look for Dizziness, Frontal Headache, Stuffiness and Nose Colds.

TELLS HOW TO CURE.

Catarrh in almost every instance starts with a common cold in the head, which is added to with another cold, and because of some extra exposure or weakness of the system, it becomes chronic.

A full case of disgusting nasal and throat catarrh then develops. Unless a radical cure is effected then the disease passes rapidly to the throat, bronchial tubes and finally to the lungs.

No man or woman can ever get new lungs any more than new fingers or a new nose, but everyone suffering from Catarrh can get a sure cure by inhaling Catarrhozone, and this is proved after you read further.

QUICK, LASTING CURE

"After ten long years of suffering with Catarrh in the throat and nose I write to tell you that I am now completely cured with Catarrhozone. What a relief it was to get that buzzing stopped in my ears, to have my nose free and easy to breathe through. What a blessing it was to get cured of droppings, catarrhal dyspepsia and bad breath. All this is the result of Catarrhozone, which I recommend to everyone to use for any trouble in the throat, nose, bronchial tubes and lungs."

JOHN McCULLOUGH.
Moosebrook, N.S.

Let Catarrhozone cure you, get the large dollar outfit which lasts two months and contains an indestructible hard rubber inhaler. Smaller sizes 25c and 50c each. Beware of imitations of Catarrhozone, which all reliable dealers sell, or by mail from the Catarrhozone Company, Kingston, Ont.

The Morning Times

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

TIMES PRINTING COMPANY,
Publishers and Proprietors,
Peterborough, Ontario.

FRIDAY, MARCH 31st, 1911.

THE ONLY WAY.

The number of deaths resulting from tuberculosis, typhoid fever, scarlet fever and many other diseases are carefully recorded and tabulated by the authorities. But of the number of deaths directly traceable to worry, no such account is kept, yet all physicians know that these are by no means small. One constant source of worry and anxiety for the wage-earner or man of small means is, how he may make provision for old age when his earnings are but little more than sufficient to provide the daily needs. To such a one the Canadian Government Annuities scheme is indeed a blessing. In no other way can he get such wonderful good returns for that "little more" he may have to invest, for it will when his Annuity begins enables him to spend the principal as well as the interest thereon without his income becoming smaller no matter how long he may live.

Further particulars on the subject may be obtained on application to your Postmaster, or the Superintendent of Government Annuities, Ottawa, to whom all letters go free of postage.

TROUBLES IN SOUTH AFRICA.

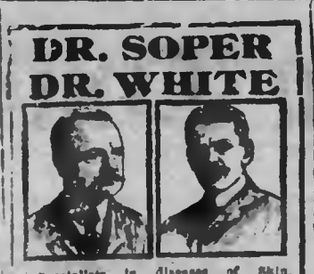
Through a brave fight, the shedding of much blood, the wasting of much treasure the two great white races settled in South Africa have come to know each other better and to settle down in harmony and peace. But a new race problem confronts them now, a problem in the settlement of which Boer and Briton must join hands.

In the old days before the Boer War one of the charges made against the Boers by the British was that these stern Dutchmen of the veldt were brutal and inhuman in their treatment of the natives, the Kaffirs, Hottentots, and other negro races whom they had subjected. This charge appealed with the more force because one of the reasons for the success of the British in governing subject races has always been their just even generous treatment of the peoples.

But nowadays it is coming to be seen that the only law the South African negro can understand is the law of the strong hand. They can not be controlled, even for their own good, except by fear, and the British now concede that the Boers were right in impressing always the natives with a show of superiority and force.

The Transvaal and the adjacent territory is now becoming rather thickly settled. Farms and homesteads not the veldt that so recently was the field of battle and into this fertile land settlers are bringing women and children. Unawed by the mild rule of law and justice inaugurated by the British these settlers are becoming the victims of semi-savage negroes and the unmentionable crime that has caused so much sorrow in our own Southern States is becoming so frequent that the present laws are inadequate.

What makes it worse is that the Governor-General of the South African Confederation, a man who knows absolutely nothing about the country or its people, Lord Gladstone, displayed his authority by commuting the sentence of death passed upon a native to imprisonment. Yet the negro had been duly convicted of assault upon a white woman in Rhodesia. Already there are symptoms that the practices of Judge Lynch may be adopted by the Afrikanders, but whether this is done or not, it is plain that the kid-glove policy of dealing with the natives will be abandoned and that the British will go back to the old way, the only way the natives understand, of governing by force.



Specialists in diseases of Skin, Blood, Nerves, Bladder and Special Ailments of men.

One visit advisable; if impossible, send history for free opinion and advice. Question blank and book on diseases of men free. Consultation free. Medicine furnished in tablet form. Hours: 10 a.m. to 1 p.m., and 2 to 6 p.m. Sundays, 10 a.m. to 1 p.m.

STRANGE FACTS

A suit of clothes made of stone is the latest innovation on exhibition in a New York clothes-dealer's window. The material is soft and pliable, and when soiled has only to be placed in a fire to be made absolutely clean.

A German workman named Gauschy has just been released from the jail at Mulhausen after serving forty-five years' imprisonment for murder. This constitutes a record as regards a continuous term of incarceration in modern times.

Something new in aeroplanes has been invented by a Japanese nobleman named Baron Iga. The inventor has taken the dragon-fly as his model, and has constructed two sets of wings which can be made to flap at the will of the operator. It is claimed that this arrangement will enable the aeroplane to maintain its position in the air without moving.

When a charge of meat stealing was about to be heard at the Swansea Quarter Sessions, the man charged with the offence was found to be missing. He was discovered among the grand jury, helping to decide whether there was a bill against himself or not. He explained that he thought the jurymen were all prisoners. He was found not guilty and discharged.

The Romford Urban Council, says an English paper, have appointed a special committee to obtain a proper valuation of the old oak panelling which has been found in a farmhouse standing on land used for the disposal of sewage. The matter was first brought to the notice of the council by an anonymous offer of £100 for the panelling. It was then found that a dealer had estimated its value at £4,000, and also that it was being damaged by damp, the rooms being used for the storage of onions and the roof being leaky.

ONLY PELISSIER'S FUN

How He Teased a Pressman Who Called For a Picture

It is not an easy task to interview Mr. Pelissier, the chief of the "Follies." Here is an example of the manner in which he teases the harassed Pressman. "I see, you want a picture of the house I was not born in and photographs of my aunts, and that sort of thing. I can read you an appreciation of myself by myself, if that will help you any. At an astonishingly early age I showed unmistakeable signs of humor and created shrieks of mirth among my brothers and sisters by tripping up old blind ladies in the street, kicking the crutches from the grasp of a passing cripple, and a thousand other innocent drolleries. At the age of nine a family council was held to see whether I should be educated or sent to Eton. After a time I went abroad, and on my return from the voyage I was cheered by an enormous crowd, with both of whom I gratefully shook hands." So he continues till the bewildered interviewer takes his leave, not knowing a bit more about Mr. Pelissier than when he came.

GERMANY MAKES A MONKEY OF THE TURK

NOTABLE SENTENCES

Passages From Recent Speeches in the Old Land

It is only ignorance that is abusive.

A number of people in this world live on illusions.

There is need for more courage among clerks.

A sudden revolution has always more of promise than performance.

The recognition of social obligations is deleterious to poetry and romance.

The translators of the Bible were poets, although they wrote in prose.

There ought to be a National Society for the Prevention of Cruelty to the Dull.

One of the greatest moral dangers of the present day is the tyranny of commercialism.

Women's dress will never be satisfactory till women realise that they have no waists.

What is really wanted in life is consistency of purpose, integrity of character, and stability of mind.

The beneficence and charity of the rich cannot be compared with the beneficence and charity of the poor.

True genius will survive; but the half-genius ceases to be remembered when his paradox is forgotten.

In England the conscience of the people is much more sensitive to suffering and poverty than it used to be.

If we put money in the best investment of a country, the brains of the people, we shall stay at the head of the world.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

If we can once get the lesson of facing uncongenial tasks instilled into boys' minds we have taught them a great part of genius.

The nation is suffering through its reluctance to accept better business methods which other nations have found advantageous.

There never was be a time when a high standard of public duty and of real attachment to political principles were more needed than now.

Banker Shot Himself.

Muskogee, Okla., March 29.—The South Surety Company was advised by wire to-day that L. R. Teubner, cashier of the Bank of Tulsa, at Tulsa, Okla., had shot himself on a train en route to Jacksonville, Fla. Officials of the Surety Company said there were irregularities in the bank's books.

Trunk Pacific Ry. Points.

In connection with settlers and round trip homeseekers excursions to the West on April 4th the Grand Trunk Ry. Coy., will run a special through train from Toronto to Edmonton, leaving Toronto at 11 p.m., April 4th via Chicago, St. Paul and Winnipeg without change, arriving at Edmonton 7 p.m., April 7th. This train will carry Pullman Tourist sleeping cars with porter in charge. Berth rate to Winnipeg will be $3.75 for lower and $3.00 for upper. To Edmonton lower berth will be $6.15 and the upper $5.40. Mr. McCutcheon, commissioner for the Alberta government along with our travelling passenger agent will accompany same to see there is no trouble or delay and to look after the interests of the passengers. Consult City Ticket Agent Grand Trunk Ry. for rates, reservations and full particulars.

ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amoont necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr, Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

CONTRACT LET FOR BUILDING LINE TO MURRAY'S BAY

Montreal, March 29.—It is announced that Mr. M. J. O'Brien, of Renfrew, has been awarded the contract for the building of the first section of the Quebec and Saguenay Railway from the east end of the Quebec railway at St. Joachim, to Murray Bay a distance of 56 miles.

This new railway will be built under a Federal charter, and is promoted by Mr. Rodolphe Forget, M.P.

SURVIVORS OF SATURDAY'S HOLOCAUST TESTIFY REGARDING NEGLIGENCE OF PROPRIETORS

New York, March 29.—Two girls testified to-day at the investigation which Fire Marshal Beers is conducting, to place the responsibility for the Triangle Waist fire, in which 145 lives were lost last Saturday, that doors on the eighth and ninth floors of the factory were locked when the flames were discovered.

Joseph Fletcher, cashier of the Triangle Company, admitted that rubbish was permitted to accumulate for ten days in the cutting room of the factory.

Another development in the fire inquiry was furnished in the statement made by Isaac Harris, one of the proprietors of the Triangle Waist Company. Harris declared that to his knowledge there was no fire protection or hose in any of the three lofts occupied by his concern.

WOMAN ACQUITTED OF THE CHARGE OF MURDER

Buffalo, March 29.—Mrs. Margaret Dean, who has been on trial in Little Nalley, for the alleged muder of her sister, Miss Mary O'Connor, last November, was this morning acquitted by the jury. Mrs. Dean was assisted into court this morning, having collapsed yesterday. Miss O'Connor was found murdered in the kitchen of her home at Olean. She had been beaten to death by blows from a claw hammer.

FORMER TORONTO MAN WAS BURNED TO DEATH IN NEW YORK

Toronto March 29.—Terrible was the tragedy that blotted out the life of the late William Hearn, aged 80 years, and for twenty years a well known resident of Toronto.

While residing with his son Charles on the Hudson Heights, opposite New York, he was burned so badly that death came after two weeks of agony.

A remarkable feature of the tragedy was the fact that his death was timed within two hours of the date of his wife's death in Toronto eight years ago. The aged man, conscious only at intervals and raving from the agony he suffered, remembered that it was on March 26th, 1903, that his loved partner had passed out of life, and his last wish was to die on the same day that she died. The grim reaper granted his last desire.

BED UPSET ON OIL STOVE.

Up to the time of the accident, Mr. Hearn had been in perfect health and in full possession of his faculties—a hale and hearty old man.

One night when he retired he had a coal oil stove beside his bed to heat the room. Somehow he fell over, bed and all, on to the stove. Instantly the bed clothing caught on fire. The flames spread rapidly and enveloped the unfortunate man in a veritable fiery furnace before the inmates were alarmed and came to his rescue. When they opened his door, the fiery tongues darted out so venomously in sheets of flame that they could not reach him. Then his son climbed on the outside and tried to rescue him via the window. In the meantime the old man had crept to the window and threw the sash up, a volley of flame bellowed forth into the son's face and almost blinded him, burning him severely.

Finally the neighbors came to the families assistance, and after a great deal of tough fire-fighting the unconscious body of William Hearn was taken out of the room.

He was taken to the Inglewood Hospital, New Jersey, but his injuries were too much for a man of fourscore years. Pneumonia set in, too, and the old man suffered much. His two sons in Toronto, Dr. Richard Hearn and William Hearn, were summoned by wire. Death was a welcome release to the sufferer. At his own wish his body was brought to Toronto to be laid this afternoon beside that of his wife in Humbervale cemetery.

Lynching in Prospect.

Ackerman, Miss., March 29.—A mob of one hundred infuriated men has Bob Pealine, a negro, who shot and fatally wounded Herman Bruce, surrounded in a wood thicket four miles from here. He will be lynched when caught. Bloodhounds traced the negro to the woods.

CAMORRA LETTERS PLEA

Many Write Informer Urging Him to Continue Revelations.

Niterbo, March 29.—Abbatemaggio, the Camorrist informer, who exposed the workings of the terrorists on the witness stand on Friday, has received numerous letters urging him to continue his revelations in the interest of his country. Some of the writers beg him not to fear the vengeance of the Camorra, as all the world will support and defend him.

KEENE

At 8 o'clock on Saturday night last, the Hall of Wisdom was filled to its utmost capacity by loyal brethern of the order. When the president arrived, Constable Doris had to use violence to make an entrance for him. After squeezing through the crowd he rested for a few minutes before he attempted to open the meeting. After feeling rested he rose and addressed the brethern as follows. Dear Brethern, I have ascertained from personal experience that in order to have a successful society, it is essential on the part of the members to make a judicial choice of a president. As I gaze down on the intelligent faces of this immense crowd, I consider it justifiable on my part to positively declare that I am the most popular man in Keene, and therefore am the right man in the right place. I certainly felt elated over the good attendance to-night, and trust and hope you will continue to attend regularly in the future, for it positively warms my heart to see the members so interested and enthusiastic in the work of the order. I consider the attendance to-night breaks the record of all previous meetings, which certainly is an evidence that my services as president is much appreciated. I could talk to you for an hour, but it would not be judicious on my part to take up any more of your valuable time, so I now declare the meeting open for the transaction of general business.

Anvil Maycock rose, and in a very determined tone of voice laid a charge against Gentleman Robertson for refusing to buck-saw wood.

Positive Severely reprimanded him for refusing to favor Anvil, and imposed a fine of $60, to be paid in four days, or three years in jail with hard labor—sawing wood.

Waxy McFarlane jumped up and flourished around his two defendents in a pugilistic manner, and laid a charge against Sandy Paterson for chewing tobacco and spitting in his rubber boots.

The president severely criticized Sandy for using Waxy's rubbers for a spittoon, and imposed a fine of $200 or seven months less one day in jail. Sandy paid the fine and told Waxy that he could go (you know where).

Neversmile Wright, rose and laid a charge against Banker Thomas for walking off with his flag pole on Sunday afternoon.

The president warned Banker to be more careful in the future what he walked off with, or there would positively be trouble, and fined him $300 or go to jail for six years.

Ponty Mae laid a charge against Spendthrift Renwick for eating three yards and two inches of taffy at a taffy pull on Thursday night last.

Positive told Spendthrift that it was all right to give taffy, but dangerous to talk too much, and therefore impose a fine of $80 or three months in jail.

The president informed the brethern that it was now one minute to Sunday morning and therefore must close the meeting.

He asked Fighting Archy and Yankey Mae to sing the closing ode. They certainly scared all the rats and mice from the hall.

The meeting was then declared closed until next Saturday night at 7.30 o'clock.

Horses Leg Swelled

Animal Was Too Sore and Lame to Work—Quickly Cured by Nerviline.

"I have had a long experience in treating horses, and I can safely say that I know of no liniment for strains, sprains, and swelling that is so useful around a stable as Nerviline." Thus writes Mr. Joshua E. Murchison, from his home, Crofts Hill P.O. "I had a fine young mare that wrenched her NERVILINE right fore leg, and IS A from the shoulder TRUSTY down she was stiff, LINIMENT sore and swollen. I applied Nerviline and it worked like a charm; in fact that mare was in shape to work a day after I used Nerviline.

"We have used Nerviline on our farm for twenty-five years and never found it wanting. For man or beast it is a wonderful liniment."

We have received nearly five thousand letters recommending Nerviline as a general household liniment, as an all-round cure for aches and pains. One million bottles used each year. Try it yourself. Large 25c bottles of Nerviline, five for $1.00. All dealers, or The Catarrhozone Co., Company Kingston, Ont.

DASHES HERE AND THERE BY TIMES' REPORTER.

White Man's Only Hope.

The white man's only hope now, is that Johnson gets life imprisonment for speeding his auto.

Tennis Meeting Postponed.

The Tennis Club of the Y.M.C.A. have postponed their meeting which was to have taken place last night to next Tuesday evening.

To Our Subscribers.

We ask our city subscribers to promptly notify the office if delivery of the Times is not made before seven o'clock in the morning. Please make a note of this.

Home Nursing.

Dr. McCulloch gave the last of his series of addresses to the Home Nursing Class at the Y.W.C.A. last night. There was a fair attendance.

Choir Will Not Sing.

An item appeared in the issue of yesterday to the effect that a detachment of the Sheffield Choir will sing in Murray street church Sunday evening. This is not correct, as the members of the choir are forbidden by their contract with the promoters of their Canadian tour to sing except at their own concerts.

A Serious Charge.

Three young lads were charged at the Police Court yesterday with stealing 50 bags of chop from the Quaker Oats Company. Only two of the accused were present. They were remanded for a week and allowed out without bail, after giving their promise to appear in a week's time.

An Interesting Window.

A very interesting window can be seen at J. T. Stenson & Sons boot and shoe store. It shows the various stages in the manufacture of a shoe. It gives one an idea of the method of manufacturing footwear, and the amount of work required to turn out a single shoe.

No. 8 Company Hold Smoker.

An enjoyable evening was spent last night at the Armouries by the members of the No. 8 Company. A number of recruits were gathered in and made to enjoy themselves. After playing games of several kinds, a short musical programme was rendered in a pleasing manner.

To Open a Branch in Collingwood.

Mr. Geo. Yeates, one of the popular members of Yeates Bros.' Cigar Store and Billiard Parlours, George street, will leave on Monday for Collingwood, where he will open a cigar store, shoe shine parlour and billiard room on Tuesday next.

Three Months in Jail.

Harry Bennett, who appeared at the Police Court a week ago, charged with stealing a watch from Mrs. Kate Reid, of the Temperance House on Hunter street east, and was remanded, faced an amended charge of stealing five dollars in addition to the gold watch and chain. He pleaded guilty to the charge of stealing the watch only, and was sent up on the hill for three months.

No. 3 Troop, Boy Scouts.

The boys of the Third Troop of the Peterborough Boy Scouts are requested to be present at the lecture by Mr. G. C. Wainwright at the Armouries this evening at 8 o'clock. The weekly meeting of the Third Troop The weekly meeting of the Third Troop will take place at the Armouries at 7:30 o'clock, prompt, on Saturday night. All members are requested to be present. Wm. J. Miller, scout master.

For King George.

All the Georges of Peterborough and the surrounding district are invited to contribute to the movement for King George at the Coronation. Subscription cards are to be found at the banks, the Y.M.C.A. and in East Ward at the stores of Messrs. J. Curr, J. Kylie, and T. B. Manice. The places in the other wards will be announced later. We hope the Georges will do their duty.

Miss Davies in Lindsay.

Miss Helen Davies, Peterborough's popular vocalist, was one of the soloists at the concert given in Lindsay on Tuesday evening under the auspices of St. Andrew's Presbyterian choir of that town. Miss Davies received a flattering reception, and won the plaudits of the large and intelligent audience. Both Lindsay papers referred to her singing in the most complimentary terms.

More Government Dams.

Messrs. J. W. Fitzgerald, O.L.S. and S. W. Clegg, Inspector of Dams, are in the North Country making surveys of the location of new dams which it is proposed to construct on the head waters of the Trent waterway. These dams are needed to conserve the waters of them so as to ensure an even supply during the season when the water is low.

A Handsome Launch.

Mr. I. N. Ackerman of Norwood, is building a handsome gasoline launch for his own use on Stoney Lake. The craft will be fitted out with all up-to-date conveniences, and will be finished in fancy woods throughout, comprising bird's eye maple, walnut, mahogany and red cedar. The craft is of a very pleasing model, displaying the lines that bespeak both steadiness as well as speed. The launch will be ready for the lake at the opening of the holiday season.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Miss L. Purdy, of the Normal went to Bobcaygeon yesterday for the Easter vacation.

Miss M. L. Milling, of the Normal, goes to Napanee on the 8.30 this morning.

Mr. John Rothwell, Supt. Metropolitan Life Insurance Co. of New York, went to Belleville yesterday.

Mr. J. W. Goodwin, 104 Lansdowne street, goes to Collingwood on the 8.40 this a.m.

Mr. Charles E. Jenney, Travelling Passenger Agent of the Grand Trunk, was in town yesterday.

Mrs. M. J. Christie is the guest of her sister, Mrs. E. J. Laing, Norwood.

Dr. Neal is at present in Montreal and will visit the tuberculosis sanitarium at St. Agatha, Montreal, before returning.

Mr. W. Woolhombe, manager of the Union Bank, Norwood, was in the city yesterday, on his way to inspect the branch of the United Empire Bank at Bridgenorth.

The many friends of Mr. Geo. Hall will be pleased to hear he has returned to his home from the Nicholls Hospital.

Dr. A. J. Robertson, of Tweed, who has been receiving medical attendance at the residence of Mrs. D. Breeze, is gradually improving in health.

Mr. W. C. Currier, who has been at the Picton branch of the Metropolitan Bank during 1910, has been appointed manager of the branch of the bank at Port Elgin, and has taken up his duties. Mrs. Currier, who has been visiting at home, leaves to-day to join Mr. Currier in their new location.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents

MIXED MARRIAGES.

Editor Morning Times.

Sir,—I do not believe in religious strife, and would be the last one to foster ill-feeling between Catholics and Protestants. But, sir, there is a limit to everything, and I think Protestants have reached the limit of their good nature, or whatever you care to call it, when they are asked to permit, by silent consent, to have their women branded as harlots and their children as bastards. Yet this is what I understand the Church of Rome demands. If a properly ordained Protestant minister has not the power to legally and properly marry two persons, no matter what their religion may be under the British flag, then I say let the law be amended without delay. If this cannot be done, then I would cast aside the flag as utterly useless, and seek another that would protect the innocent.

I can assure you, Mr. Editor, this policy of the Church, if persisted in, will result in a sentiment that will be sufficiently strong when developed to hurl from power any government that refuses to act in defence of the sanctity of marriage.

Remember, I am not attacking the Roman Catholic religion. It is the unthinkable attitude of the Pope in regard to mixed marriages, or marriages performed by Protestant ministers, that is repudiated. If such marriages are wrong in the sight of God, in Canada, they surely must also be wrong in Germany, where the Pope has nothing to say against them.

—Tolerance.

A DANGEROUS SPOT.

Editor Morning Times.

Sir,—While on my way to the station before daylight the other morning, I had the misfortune to walk into a hole on the street. This hole is several feet deep and a very dangerous to any one who must see well at night. Fortunately I did not sustain any serious injuries. I would call the attention of our City Engineer to this place. If it is not attended to a serious, or perhaps fatal accident may be the result.

—F. D. Lane.

A MUSICAL TREAT.

Editor Morning Times.

Sir,—I would like to draw the attention of the citizens of Peterborough, through the medium of your valuable paper, to the concert which will take place on Friday, April 7th, in the Conservatory of Music Hall, by Miss Julia G. Choate, the talented and brilliant violinist of this city, assisted by Miss Beatrice M. Wellington, reader, of Toronto. A strictly first class programme is being arranged, and a genuine treat is in store for all lovers of good music. Miss Choate will represent the City of Peterborough, in the violin contest at the Earl Gray Dramatic and Musical Competition at Winnipeg in April, and the proceeds of above mentioned concert on April 7th, will go towards defraying expenses of Miss Choate and accompanist. It will be remembered that at the Earl Gray competition last year in Toronto, Miss Choate took second place in the violin competition, with a large number of entries to compete with. Peterborough will be ably represented at Winnipeg by Miss Choate, and we hope to have first honors this year for the Electric City.

I therefore bespeak a most liberal patronage for the concert on April 7th. Thanking you Mr. Editor for space, I remain.

Yours faithfully,
W. G. Morrow, Mayor.

NOT A SEPTIC TANK.

Editor Morning Times.

Sir,—A letter appeared in The Times of yesterday regarding the Septic Tank in Ashburnham, which is misleading. It is not a septic tank, but a sedimentation tank. There is a septic tank at the Quaker Oats Mill, which works on a different principle from the one in East City. The sewage enters the Ashburnham tank and passes from one vat to the other. The sediment being heavier than the water sinks to the bottom, where it remains. I do not think that this sediment has ever been cleaned away. It may not need to be often cleaned, as it will take some years to fill the basins.

The water which escapes, and which your correspondent says is pure and white, is hardly that. In this connection I would suggest that the analytical laboratory recently purchased by the city for the use of our Medical Health Officer be put to work, so that we may know exactly what amount of purification is to be credited to these tanks.

—Rex.

STEAMER ESTURIAN BOUGHT BY SYNDICATE.

Party at Fenelon Falls Secures This Fine Boat.

Mr. W. T. C. Boyd, of Bobcaygeon, has disposed of the steamer Esturian to a syndicate of gentlemen at Fenelon Falls. The steamer is a large passenger boat, with a carrying capacity of about 350 passengers.

A gang of men will be put at work at once to put the steamer in first-class shape for the season's business. She will probably be put on the Lindsay-Sturgeon Point route, and will also handle special excursion business between Lake Simcoe and Rice Lake. The owners will be known as the Trent Valley Navigation Company, Limited.

OBITUARY

OBITUARY.
BRYON CORCORAN.

The death took place Thursday night after a brief illness, of Byron Corcoran, aged 85 years. Deceased was a highly respected resident of this city. He was greatly beloved by all who had the pleasure of his acquaintance, and will be greatly missed.

The funeral will take place this morning at 9 o'clock from the family residence, corner of Lake and Crescent streets, and proceed to the Sacred Heart Church, thence to St. Peter's cemetery for interment.

TWO SMALLPOX CASES IN TOWN.

Prompt Action of Medical Health Officer.

A case of smallpox was discovered in a local hotel on Wednesday, and the patient was at once removed to a tent in the north end. The victim is in the employ of the Bell Telephone Company on the construction force. His home is in Montreal, having come to Peterborough some six or eight months ago. The other patient is a Catholic priest who belongs to North Bay.

Dr. McPherson, Medical Health Officer, has the cases in hand, and took the necessary precautions to prevent the spread of the disease.

John W. Sickelsmith, Greensboro, Pa., has three children, and like most children, they frequently take cold. "We have tried several kinds of cough medicine," he says, "but have never found any yet that did them as much good as Chamberlain's Cough Remedy." For sale by all dealers.

LITTLE LOCAL LINES

The backward spring is causing the farmers some uneasiness.

Two car loads of fine horses were recently shipped to the West by Mr. R. J. McKilare, Norwood.

A dead sure sign that spring is here: the 57th Regiment has started to drill.

The members of No. 8 Company met last night in the Armouries to arrange for the approaching drill.

The Manhattan Amusement Co., go to Port Hope on the 8.30 this a.m., where they will put on their show.

The Woman's Missionary Society of Knox Church, held their regular meeting yesterday afternoon in the ladies' parlours of the church, where missionary subjects were discussed.

Mr. J. K. McNeillie, son of Mr. J. R. McNeillie, County Clerk and Treasurer, Lindsay, who filled the position of Superintendent on the C. P. R. at London, has been transferred to Farnham.

WEDDING BELLS.

BELL—McWHA.

St. Luke's Church was the scene of a very quiet and pretty wedding, yesterday afternoon, when Mr. David Bell of Totonto, and Miss Mary McWha of this city were united in the holy bonds of matrimony by the Rev. Dr. Langfeldt. The bride was given away by her brother Mr. Hugh McWha. On account of the recent bereavement in the family only immediate relatives were invited.

Mr. and Mrs. Bell left for Toronto, where they will reside previous to their leaving for the Northwest.

The most common cause of insomnia is disorders of the stomach. Chamberlain's Stomach and Liver Tablets correct these disorders and enable you to sleep. For sale by all dealers.

An effort is to be made in New York now to provide proper fire escapes for people who are compelled to work in high buildings. One hundred and fifty lives had to be sacrificed in order to get this perfectly reasonable movement started. Let us hope it may not be forgotten as soon as the funerals of the victims have been held.

THE MINES DEVELOPING MACHINE WILL BE INCORPORATED

It is One of the Greatest Inventions of the Age for the Speedy Development of Mines

A device which will, when installed, be the means of placing hundreds of mining properties, now laying idle, on a producing and dividend paying basis. It will develop a mine in months where it now requires years. It will be the means of bringing sure and quick returns on mine investments which are now slow on account of the long time required to either reach the ore bodies or develop them to an extent which admits of productions on a large scale.

IT CAN BE USED IN ALL MINING REGIONS.
IT CAN BE USED IN DRIVING IRRIGATION TUNNELS.
IT CAN BE USED IN DRIVING TRANSPORTATION TUNNELS.
IT CAN BE USED IN DRIVING DRIFTS AND UPRAISES IN MINES AND IT WILL WORK IN ALL KINDS OF FORMATION.
IT DRIVES A COMPLETE TUNNEL, DRIFT OR UPRAISE, AND SHAPES ITS WORK ON A SCIENTIFIC PRINCIPLE.

Contracts have already been signed for the use of enough of these machines to keep a large factory busy building them for many months, and I predict that before 5 years many hundred of them will be in use.

A corporation will be organized within a short time to own and handle the machine, and it will be capitalized for $1,000,000 divided into 1,000,000 shares. One-half of the stock will be placed in the company's treasury.

YOU CAN NOW BUY PRE-ORGANIZATION STOCK AT 25c PER SHARE (either for cash or ten-payment installments) BUT YOU CANNOT BUY IT FOR LESS THAN 50c PER SHARE AFTER THE INCORPORATION TAKES PLACE.

GET IN ON THE GROUND FLOOR IN THIS ENTERPRISE. TAKE ADVANTAGE OF THE PRE-ORGANIZATION OFFER NOW.

Use the coupon in making your subscription, either for cash or installments, and make all remittances payable to

DRS. KENNEDY & KENNEDY
CURE DISEASES OF MEN
PATIENTS TREATED THROUGHOUT CANADA FOR 20 YEARS

DR. KENNEDY, MEDICAL DIRECTOR OF DRS. K. & K.

Drs. K. & K. are favorably known throughout Canada where they have done business for over 20 years. Thousands of patients have been treated and cured by their great skill and through the virtue of their New Method Treatment. When you treat with them you know you are dealing with responsible physicians as they own and occupy their own office building in Detroit, valued at $40,000. When they accept your case in curable, all your money is refunded for you know they will not deceive you. They guarantee to cure all curable cases. No matter how many doctors have failed to benefit you; no matter how much money you have spent in vain; no matter how discouraged you may be, don't give up in despair until you get a free opinion from these master specialists. If you are at present within the clutches of any secret habit which is sapping your health, if you are suffering from the results of past indiscretions; if your blood has been tainted from any private disease and you dare not marry; if you are married and live in dread of symptoms breaking out and exposing your past; if you are suffering as the result of a misspent life, Drs. K. & K. are your Refuge. Lay your case before the great physicians and they will tell you honestly if you are curable.

YOU CAN PAY WHEN CURED

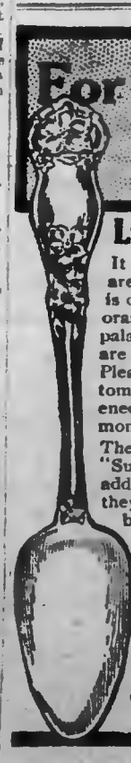
For Breakfast Try "Sunkist" Oranges



Luscious Tree-Ripened Fruit

It is not sufficient to know that oranges are the most healthful of all fruits. It is quite as important to know the *kind* of oranges that are most healthful and most palatable. The very finest California oranges are now packed under the label "Sunkist." Please serve "Sunkist" oranges at breakfast tomorrow and learn the superiority of tree-ripened, seedless, fibreless oranges over the commonplace kind. *Don't fail to save the wrappers.* There is so much "meat" and nourishment in "Sunkist" oranges and so little waste that, in addition to their extra fine flavor and goodness, they are really the most economical oranges to buy. You can get them by the box and half box.

Get This Valuable Orange Spoon

Save 12 "Sunkist" orange wrappers and send them to us, with 12 cents to pay charges, packing, etc., and we will present you with a genuine Rogers Orange Spoon, of beautiful design and highest quality. Begin saving wrappers today. If you desire more than one, send 12 "Sunkist" wrappers and 12 cents for each additional spoon. In remitting, please send cash when the amount is less than 20 cents; on amounts above 20 cents, we prefer postal note, money order, express order or bank draft. We will be glad to send you complete list of valuable premiums. We honor both "Sunkist" and "Red Ball" wrappers for premiums. (44)

YOUR OPPORTUNITY.

A pathetic case has lately come to light. An elderly woman, for years one of the society ladies in a fair Canadian city and thought to be wealthy, has through unfortunate investments fallen upon hard lines, and the sadness of her case is increased by the terrible fact that she has been stricken down by an incurable disease. During her prosperous years she thought but little of the future, and a large portion of her income was spent in "keeping up appearances." Now, penniless and homeless, she must seek admission to some place of refuge; her friends of yesterday know her no more. Such cases as these should cause young wage-earners to appreciate the fact that they may escape such a fate if they are but willing to take advantage of the Canadian Government Annuities scheme, for by investing with the Government but a small portion of their weekly wages they can provide an income to begin at 55 or later that will insure them independence and happiness no matter how long they live. Give the matter your most serious consideration, and if you desire further particulars on the subject these may be obtained on application to your Postmaster, or to the Superintendent of Government Annuities, Ottawa, to whom all letters go free of postage.

VOL XXXIV NO. 77 PETERBOROUGH, ONTARIO, SATURDAY APRIL 1 1911 PRICE TWO CENTS

AGREEMENT WITH C.P.R. RE RIVER FRONT PROPERTY

THE COMPANY OFFERS $10,000 FOR THE LAND IN QUESTION.

Charlotte and King Streets to Be Closed—City to Have Right to Bridge Over Company's Tracks.

The City Fathers met in Committee of the whole last night, when the City Solicitor submitted a copy of the proposed agreement between the C.P.R. and the City, by which the former shall acquire ownership of the waterfront property west of their present track, from Simcoe to Sherbrooke streets, upon which to lay sidings and erect freight sheds in connection with the new C.P.R. Georgian Bay and Seaboard line to Victoria Harbor, which is to run through Peterborough. In brief the terms of this agreement reads as follows:

Provided the company have the new line completed and in operation within two years from the date of the proposed agreement, the city shall sell them the land in question for $10,000.

(The company already have options on private property lying between King and Sherbrooke streets, and in event of consummation of this deal are to give the city a roadway north and south between King and Sherbrooke streets.)

The city is to have the right to extend Simcoe street across the company's tracks to the river front.

Charlotte and King streets are to be closed at the property acquired by the company, but the city is to have the right to cross the company's tracks by bridges at these points.

The agreement was referred to a committee composed of the Mayor, Aldermen Morgan, Anderson and Buller.

SMALLPOX CASE IN LAKEFIELD

Case Developed in the Village—The House Quarantined.

A case of smallpox is reported to have developed in Lakefield. It is said to have been brought to the village from the lumber camps, near Sudbury, by a shantyman, who worked there during the winter. The village Medical Health Officer had the family quarantined and the man isolated.

CRAWFORD'S GROVE NOT PURCHASED

Rumor That Street Railway Purchased It Not True.

The rumor that the Street Railway Company had purchased Crawford's Grove is not correct. The Times called up Mr. Munro, manager of the company, who informed us that the railway had an option on a certain property on the bank of the river, but had allowed to expire. There will therefore be no amusement park in that direction this year, at all events.

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Sold by all dealers.

THE OIL TO BE USED ON THE STREETS WILL BE ODORLESS

AT LEAST THE SAMPLE APPROVED OF BY BOARD OF WORKS LAST NIGHT HAD NO OBNOXIOUS ODOR.

Contract for Cement Awarded to R. Hicks & Co. at $1.65 a Barrel and 10c Extra for Each Sack.

The City Board of Works met last night. There were present Mayor Morrow, Chairman Metheral, Aldermen Duncan, Kerneghan, Brown, Graham, Buller, Morgan, Anderson and Edgar.

Mr. Courtney of East City asked the Board to fill in the ditch on Concession street, north of Hoare street, and put in an 18 inch tile drain.

The Board promised this matter serious attention.

Mr. Irwin asked for a sewer from the corner of Bethune and Murray streets to Stewart street.

This matter was referred to the Engineer to report.

CONTRACT FOR CEMENT AWARDED.

The following tenders for 4,000 barrels of cement for this coming season's requirements were received.

R. Hicks & Co.—$1.65 barrel, sacks 10c extra; in paper bags, $1.75 per barrel. 10c allowed for each sack returned.

The Peterborough Hardware Co. tendered at the same price.

Ald. Duncan moved, seconded by Ald. Graham,—That the contract be awarded to R. Hicks & Co.—Carried.

Ald. Graham moved, seconded by Ald. Brown.—That the chairman and Street Commissioner Evans be authorized to arrange for storing and testing the cement.—Carried.

BILL FOR STONE.

The Board received from Mr. Dumble a bill of $36 for building stone he claims was wrongfully taken off Aylmer street north by city employees.

Street Commissioner Evans replied that sewers had been constructed in that locality, and much debris removed thereafter. He had seen none of Mr. Dumble's building stone, and had any been carted away by teamsters, it was without his knowledge.

No action was taken regarding Mr. Dumble's account.

Andrew Brotherson asked for a cement crossing on Concession street, adjoining Hazlett and Caddie streets. The Engineer offered that the crossing has been provided for in this year's programme for street work.

CHANGE SEWER CONNECTION.

The sewer connecting with A. E. Mick's premises, 212 Hunter street, will be changed to give satisfactory service.

REPORT ON SEPTIC TANKS.

Dr. John McCullough, chief health officer for Ontario, wrote in response to the Board's enquiries re proposed septic tank for the Waterford-Dublin streets property, that he knew of no instance where septic tanks had given trouble and proved a nuisance when properly constructed and attended to.

The Board will not hurry in approving of the plans for this tank submitted them at last meeting.

4 MILES OF SIDEWALKS.

The Board approved of the building of four miles of sidewalks this year.

WALK TO ISOLATION HOSPITAL.

Ald. Duncan moved, seconded by Ald. Brown. That either a gravel or wooden walk be constructed from Higgin's property to the Isolation Hospital. This was referred to the chairman for action.

On motion of Ald. Duncan, the Engineer was instructed to report on Mr. Courtney's request for a drain on Concession street, East City.

SIGHT FOR HOSPITAL.

Ald. Duncan moved, that an arc lamp be placed between Water street and the Isolation Hospital.—Carried.

The Board will inspect conditions regarding the Sherbrooke street drain, in company with the Engineer and decide on whether to lay a pipe drain or construct catch basins.

OIL FOR THE STREETS.

Samples of the oil for street sprinkling purposes were to hand, and the Board selected a road brand that, according to sample submitted, gives no odor.

ADVERTISE IN THE TIMES.

STRATTON FOR EAST AND HALL FOR WEST

Rumor Says That The Liberal Plans Have Been Made

The Times is informed that the leaders of the Liberal party in Peterborough County have practically agreed on their candidates for the approaching elections for the Dominion Parliament. Hon. J. R. Stratton, it is said, will enter the east riding and Mr. R. R. Hall, ex-M.P., will take the west. It is said that this arrangement is the result of prolonged negotiations between local party leaders.

Mr. Stratton, it is believed, can easily get the call to the east, which will leave the west open to Mr. Hall. Many believe that with two such aggressive representatives at Ottawa the interests of Peterborough County would be well looked after.

On the Conservative side the present member, Mr. J. A. Sexsmith, will undoubtedly again be the standard bearer in the East Riding, while Mr. J. H. Burnham, who was defeated by Mr. Stratton at the last election, will probably be tendered the nomination for the West. When the two sides line up for the fray, it will be a fierce encounter, in which no quarter will be shown.

WESTERN STATES UNITING TO COMPETE WITH CANADA

Tide of Immigration Set Steadfastly Across the Border Causes Consternation

Organization Recently Formed will Spend $1,000,000 to Advertise Their Own Vacant Lands—American Settlers are All Well Treated

Omaha, Nebraska, April 1.—Canada and Canadian lands are thorns in the flesh of the middle west just now, and all the trans-Missouri states are entering into a combination against the popular big northern neighbor. Neither reciprocity nor any other question of politics is causing the uneasiness, but the trouble lies in the fact that the tide of emigration is setting in so strongly towards Canada that there are few settlers left for the American west. Nebraska, Iowa, Kansas, Missouri, and in fact, all the eastern tier of states of the American west are uneasy because so many of their best farmers are moving to Canada. Colorado, Wyoming, California, Oregon and the far western states of the country are complaining that the stream of immigration which formerly flowed so strongly in their directions seems now to have turned to British Columbia, Alberta, Saskatchewan, Manitoba and the other Canadian provinces. As an outgrowth of this condition the trans-Mississippi states have just organized solidly against Canada, and a determined effort is to be made to keep settlers on the south side of the international boundary line.

WILL SPEND $1,000,000.

The organization which has been formed is known officially as the "Western Development Association." Its headquarters are in Omaha and branches are being established in every western state. It is supported by appropriations made by the different states and a conservative estimate is that $1,000,000 will be spent by the association in advertising the American west, in an effort to induce people to stay in this country.

A meeting of this organization has just been called to assemble at Omaha to discuss plans. The governors of 10 states and every congressman and senator of the entire trans-Mississippi country will be present. Every commercial body in all the west will be asked to send a representative and all the big western railroads will co-operate.

SPREADING CONSTERNATION.

Canada should feel proud of the consternation it is spreading through out the western states. What method does that country use, that it is able to take the cream of the western farmers to itself?

A newspaper special from Salt Lake City, printed in the Omaha Bee

(Continued on Page Two)

WILL THE CITY RETAIN THE SERVICES OF AN INDUSTRIAL COMMISSIONER?

Industrial Commissioner Duggan's term of engagement expires on May 15th next, and Messrs. Denham and Gillespie have been named by the Board of Trade to act jointly with a committee of the Council on the question of Mr. Duggan's re-engagement.

Mr. Duggan was engaged last year by the Board of Trade, and not by the Council, whose only share in the transaction was that of appropriating $2,000 towards the maintenance of the office. The Board of Trade raised an additional $2,000 for the same purpose by private subscriptions. This year, however, from information to hand, the Board of Trade have not a like sum available. Should this office be continued, the City Fathers will apparently have to assume all responsibility for the same.

On motion of Ald. Graham, seconded by Ald. Duncan, the Manufacturers' Committee were authorized last night to confer with the Board of Trade Committee on the question, and report back to the Council.

The Board of Trade has suggested that a committee of two of its members and three City Fathers control the office of Industrial Commissioner.

COCHRANE EXCITED BY THE DISCOVERY OF GOLD IN SAND

Cobalt, March 31. The excitement over the discovery of gold in the cement chimney of Cochrane grows, and the citizens are panning gravel on the streets since it has been discovered. It came, presumably, from the same pits as the sand used in making the chimney.

Thousands of tons of gravel have been laid on top of the snow, and speculation is rife as to who is the owner of it.

The discovery was made by an old gold prospector when cleaning up the debris on Sixth street after the fire.

There is no doubt that the specks of gold was in the cement of chimney and some more has since been found.

All gravel within miles has been staked, and considerable panning is now going on.

Men are sitting up at nights watching their holdings in fear that they will be jumped.

Mayor McManus was one of the first to stake out holdings.

INSPIRED BY FEAR SHOOTS HIS SISTER

Philadelphia, Pa., March 31.—Aroused by an unusual noise in his home at Lansdowne, near here, early today, and seeing a figure moving about in the dim light, Alexander Kerr, 18 years old, fired a shotgun at the object and then discovered that he had mortally wounded his sister, Nellie, 16 years old. The girl died in fifteen minutes. She had evidently risen to go to the bathroom. The grief-stricken young man's story was corroborated by the mother, and the authorities have not taken action against him.

NO. 3 COMPANY AND BUGLE BAND SMOKER

No. 3 Company and the Bugle Band held a very successful smoker last night at 8:30 in the recreation rooms and many members of the popular corps were present and spent a most enjoyable evening.

After indulging in euchre for a couple of hours, a most pleasing programme was rendered, bounteous refreshments were then served by Hooper's, and then the programme started.

The addresses were splendid and exceedingly interesting.

The singing by the Bugle Band was thrilling in its extreme. The other numbers were also very well given.

Following is the programme:
Chairman's address—Capt. Mills.
Speech—Capt. Adjt. Walker.
Chorus—Bugle Band.
Address—Col. Stevenson.
Piano Solo—R. Robertson.
Address—Major Clegg.
Song—Bugle Band.
Address—Major Bennett.
Recitation—Sergt. Sucove.
Address—Major Davidson.
Address—Capt. Higgins.
Song—Capt. Cluxen.
Juggling—Drummer Drysdale.
Recitation—Pte. Maggavan.
Mouth Organ Solo—Pte. Garson.
Accompanist—Mr. R. Robinson.
God Save the King.

WOMAN HELPED IN A FATAL HOLD-UP

Toronto, March 31.—In connection with the injuries which caused the death of Joseph Andrews, Italian, who died in St. Michael's Hospital on Wednesday from the result of a blow on the head, Interpreter Frank Motta of the Police Court has been quietly making inquiries among his fellow-countrymen, and states that he has found the man, Francesco Tovailoe of Mansfield avenue, who was in the company of Andrews on the night he sustained the injuries.

According to the story of Tovailoe, the two were held up in Queen street near McCaul, about midnight after they had been drinking together. Their assailants are described as three men and two women. The women, Tovailoe says, struck him on the head and then pulled a revolver and covered him while one of the men assaulted Andrews. The next he saw of Andrews was when he was lying on the ground. As surety of his story the man has a bad wound on his head which would tend to bear out his story of being struck.

Motta has placed this information in the hands of the police, and it is thought that they may be able to identify some of the attacking party.

BRONCHITIS

COLDS, COUGHS, CATARRH AND THROAT TROUBLE.

Every sufferer from coughs, colds, bronchitis, and all throat and chest ailments needs a soothing, healing, medicine, which goes direct to the breathing organs in the chest and lungs, attacks the trouble at its source, disperses the germs of disease, and cures the ailment thoroughly. And this medicine is "Catarrhozone."

The germ-killing balsamic vapor mixes with the breath, descends through the throat, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. All parts are soothed with rich, pure, pure, medicinal essences, whereas if a liquid or tablet remedy were used, the affected parts could not be reached, and harm would result through benumbing the stomach with drugs.

"CATARRHOZONE"

A Breathable 'Direct' Medicine.

No medicine brings such prompt relief, exerts such an invigorating influence, or so thoroughly and speedily cures throat troubles as "Catarrhozone." Doctors, hospitals, sanitariums—all say that for those who suffer from changeable weather, for those who are predisposed to catarrh lung trouble, deafness, or bronchitis, no treatment is so indespensible as "Catarrhozone."

For certain cure, for relief in an hour, use Catarrhozone, the only direct, breathable medicine. Two months' treatment, guaranteed, price $1, smaller size, 50c; at all druggists, or the Catarrhozone Company, Kingston, Ont.

NORTH WARD COMMITTEE.

Ratepayers Line Up in Support of the By-Law.

The North Ward Committee met on Thursday night at Mrs. Lees' shop, corner of George and Smith street. The following arrangements were made.

Polling Div. No. 5, is in charge of Vincent Eastwood and W. H. Hill.

Polling Div. No. 16 Aldermen Kerneghan and Graham.

Polling Div. No. 18—F. Dobbin.

Polling Div. No. 19—J. J. Hartley H. C. Stabler and Jas. Kendry.

The next meeting will be on Thursday, April 5th.

All were enthusiastic and determined to clean up every possible vote.

It was clearly explained at the meeting that the industry will cost the town nothing only the labor to get out the vote.

Large Immigration.

Ottawa, March 30.—For the eleven months, April to February, of the current year, the number of immigrants who arrived in Canada was 271,302, as compared with 175,729 during the corresponding months of the last fiscal year. The gain, therefore, is fifty-four per cent. The gain in settlers from the United States increased 24 per cent.

As soon as China had conceded all her demands Russia began to formulate new demands. It is an old habit that Russia does not seem to be able to throw off.

PART OF KELSO SWEPT BY FLAMES ONE HUNDRED THOUSAND LOSS

North Bay, March 31.—Fire which broke out at Kelso at 2 o'clock this morning, destroyed the Miller hotel, a three storey building of two hundred rooms, the Prospect house, the Bank of Ottawa, the store of Messrs. Davis & Dunn, and several other stores containing large stocks. The loss will exceed $100,000.

The fire started in the Miller house from a lamp explosion. The flames spread very rapidly and efforts to save the goods and effects from the flames resulted in many narrow escapes from death. Several minor accidents occurred. The northerly wind saved the property of the railway. Lack of water hindered the effective combatting of the flames. The T. & N. O. Ry engine was rushed from Iroquois Falls and to move freight cars loaded with goods for the Porcupine camp out of the danger zone.

ABSORPTION OF CANADA

Berlin, March 31.—In the course of the debate in Reichstag on the questions of universal disarmament and universal arbitration, Count Von Kanitin, Conservative, devoted the greater part of his speech to American affairs, contrasting the speech of Commander Wm. S. Simms of the American navy at the Guildhall, London, which called forth a reprimand from President Taft, with the utterances of Congressman Champ Clark concerning the annexation of Canada, saying:

"While an American naval officer is assuring England of the friendship of the United States, a future President of that nation is talking of the absorption of Canada."

"Canadian Reciprocity," he said, "raised the point of what compensatory favors were to be had by Germany."

On the proposed Anglo-American complete arbitration treaty, the speaker said that the plan promised little if questions like that of the Monroe doctrine were excluded.

PAID SEVENTEEN THOUSAND DOLLARS TO RANSOM BABY

Las Negas, N.M., March 31.—The baby of A. T. Rogers, a prominent lawyer of this city, was kidnapped a few days ago and held for a ransom of $17,000.

The money was paid over by Rogers at midnight last night at a remote spot in the mountains surrounding this city, and the child was returned to him.

THE STUDENTS RAIDED THE GIRLS' DORMITORY

Seattle, March 31.—Instruction is suspended at the Washington State College today as the result of a strike of students. At a meeting it was decided that all the 1,200 students should remain away from the classes until the culprits who participated in a raid on the girls' dormitory early Tuesday were apprehended and expelled.

During the raid on the dormitory the beds of more than a dozen young women were overturned and the girls were then hauled around the floors in their bed clothing. As a result of the affairs several young women have left college.

More than fifty students have been called before the faculty for questioning.

Evidence is said to be strong against a half a dozen who are prominent in athletics.

Several girls are prostrated as a result of fright or through the treatment they received. A number suffered injuries.

HELD COURT SPELLBOUND WITH HIS ELOQUENT DENIALS

Viterbo, Italy, March 31. The lovers of the dramatic had their fill at to-day's session of the trial of the 36 Camorrists for murder. Enrico Alfano, the terror of Italy, reputed to be the actual head of the criminal organization, was under interrogation and held the spectators spellbound with the eloquence of his denials.

The man is innocent or a consummate actor. As he proceeded the slender figure seemed to grow until it dominated the court room and friends and enemies alike shrank from the gaze he fixed upon one and then another while he poured forth the most scathing arraignment of the authorities that has ever been heard in an Italian court of justice.

"I am a victim of yellow journalism," he cried, "I have been ruined by Carabineers who have made me appear as an assassin."

Erricone, as he is commonly called, could not have done better if he had rehearsed the part for years. He began modestly and calmly, gradually raising his voice and displaying his emotions until he had his audience enthralled.

You could have heard a pin drop, when President Bianchi commanded Erricone to come from the prisoners' steel cage and take a place before the bar. Quietly Erricone stepped forth and assumed a natural attitude without any attempt at the theatrical. Just in front of the justice's bench. He replied to the preliminary questions in a voice that was not strong but was penetrating. He denied categorically the accusations of the informer Gennaro Abbetemaggio. He said that he was not in a position to condemn the Cuocolos to death.

"The story that I have ever been head of the Camorra is a legend," he said. "I was neither its head nor its tail."

He admitted that in youth he was arrogant and quarrelsome, and often had committed some excesses, "but" he asked, "what youth of my class in Naples has not been arrogant, quarrelsome, and guilty of boyish excesses?"

As the questioning proceeded Erricone showed signs of irritation, finally trembling with excitement. As the thrusts of the president and Crown Prosecutor went home, Erricone's face hardened with anger, until he looked like a savage animal about to spring upon its prey. Suddenly he abandoned all attempts at composure and gave free vent to his feelings in a perogation that was truly eloquent.

"It is a lie, a myth," he shouted. "I was a boy among boys of the poorer class. I was no better and no worse than my mates. I was ruined first by the sensationalism of that newspaper the Mattino. That is why, although I now regret the deed, all my nerves rebelled as a member of a staff of that paper approached me when I was arraigned in court as a murderer. I could not help spitting in his face.

"Then the Carabineers damned me by making me appear as an assassin. To call us assassins is cruel. No one has a right to stigmatize us, not even a confessed criminal."

ILLUSTRATED LECTURE.

By Rev. Dr. Marsh, "A Trip Through Labrador."

There was a fair attendance at the Y.W.C.A. last night, to hear Rev. Dr. Marsh lecture on "A Trip Through Labrador." The lecture was a very entertaining, as well as instructive treat, and was much enjoyed by those present.

During the evening Mrs. Gillespie rendered a solo in a very pleasing manner.

Miss Murray and Miss Campbell favored the audience with an instrumental duet.

Mrs. Rogers acted in the capacity of chairman.

Dr. Marsh's lecture was illustrated the lantern being operated by Mr. Fiske.

A vote of thanks was tendered Dr. Marsh for his appreciative lecture.

SATURDAY, APRIL 1st, 1911.

A NEW FIRE FIGHTER.

While a good deal has been said of late about excessive losses by fire, less has been said about the losses by water suffered in putting the fires out. This is almost always disproportionate, and in the case of volunteer fire companies is often more to be dreaded than the fire loss itself.

A new fire fighter has been introduced in the shape of carbon tetrachlorid, a clear, colorless, volatile liquid, with an agreeable aromatic odor. It is noninflammable and nonexplosive, and its vapors readily extinguish fire. It comes in hundred-gallon drums, and smaller quantities are sold in containers. Improved methods of manufacturing chlorin and carbon disulphid make the new substance relatively inexpensive.

Carbon tetrachlorid will be particularly useful in electrical plants, where the danger of damage from water is especially marked, since deterioration of insulation is almost certain to follow contact with water unless impervious materials have been used. The new liquid should prove of great value in power-houses, telephone exchanges and the like; and also, since it can be got in portable form and in small quantities, for stores and residences, where most of the damage to stock and furnishings comes frequently enough, from water rather than from fire and smoke.

To Check Creation of New Peerages.

London, March 29.—In the House of Lords last evening Lord Lansdowne, leader of the Opposition in the Second Chamber, gave notice that he will submit, on Thursday next, a motion that an address be presented to the King, "Praying his Majesty, with a view to reform in the constitution of the present House of Lords, that his Majesty will be graciously pleased to consent to a bill being introduced, limiting the prorogative and powers of the Crown in so far as they relate to the creation of peerages and to the issue of writs of summons to lords, spiritual and temporal, to attend, sit and vote in the House of Lords."

Lord Lansdowne's notice of the motion which he intends to submit on March 30, while largely a party matter, intended to delay the progress of the Veto Bill, is exactly in accordance with Parliamentary precedents.

The Unionists' bill to reform the House of Lords, which has not yet been introduced affects the Royal prorogative and Parliamentary usage prescribes the necessity for asking the Sovereign's leave to submit such a measure.

The supporters of the Government are intensely angry at Lansdowne as they say that his action to-day challenges the whole Government policy. They are still relying upon the Royal prerogative to create a huge batch of peers to overcome the Unionists' majority in the House of Lords if the members of that body reject the Veto Bill. They are alarmed at the possibility of curtailing the prerogative, but the alarm is somewhat premature, as the King must take the advice of his Ministers in framing his reply, and so the Cabinet presumably will have the matter in its own hands.

Deathly Cramps Stomach was Bloated

A Bad Case That Proves Cramps and Stomach Disorders are Cured Fast by Nerviline.

"The distress I suffered from cramps last summer was so severe I thought it meant death," writes P. H. Elmagren, of Guys Hill P.O. "I was doubled up with pain and in such a way I couldn't walk a hundred feet. I remembered having Nerviline on hand and took half a teaspoonful in sweetened water. In five minutes I was well—and my stomach gas and cramps disappeared entirely."

For cramps, flatulence, diarrhoea, and disorders of the stomach and bowels Nerviline knows no equal—one million bottles used every year—sold by druggists on the merchants' guarantee of its merits. Large 50c bottle, five for $1.00. All dealers or the Catarrhozone Company, Kingston, Ont.

WESTERN STATES UNITING TO COMPETE AGAINST CANADA

(Continued from Page One)

on March 22, gives much credit to the courtesy of the Dominion government. The article says:

"The decent way in which settlers are treated, the courtesy shown them and the information they receive is in a large measure responsible for people going to Canada.

LOOKING TOWARD CANADA.

But Canadians must not think that the entire west is against their country just because the Western Development Association has been formed. That would be a very wrong conclusion. That association is composed of those with an axe to grind. There are thousands and yet more thousands who are looking towards Canada as a country in which they have an opportunity of securing a home—an opportunity denied them in the central west because of the high price of land.

Canada does not have to advertise in this part of the country. American real estate agents are doing it themselves. In dozens of newspapers almost as much space is devoted to Canadian land advertisements as is given to American land—and landseekers down here pay the bills. And so long as there are good lands in Canada at anything like their present prices, there will continue to be a scramble on the part of western farmers to get into that country.

SAYS POLICE HAVE NO POWER TO STOP GAMBLING AND IMPURITY IN THE CLUBS

London, March 30.—Mrs. Thornley, president of the W.C.T.U., has published a reply to the denials of her recent charges, that there is immorality and drinking in connection with the Public schools and clubs for boys and men. She says in part:

A common custom is for a group of youths that company together, to hire a room when cold weather sets in and meet under a club name. Here gambling is too often the principal diversion, and soon drinking creeps in, and then their usual accompaniment — impurity — soon follows.

Some time ago a mother came to me with this tale.

One evening she sent her son, a boy of 14, on a message to a part of the city with which he was not familiar. She did not have the number of the desired house, only general directions as to its whereabouts. The night was very dark and somewhat stormy and the boy had to call at several doors before he got trace of the family for whom he was looking. Then he was told to go so many doors further down the street, etc. In the darkness he went one house too far. The place appeared to be unoccupied, and he was turning away, when he heard a murmur of voices, and saw a glimmer of light in a rear room. Going around to the back door he knocked. The door was flung open and before him he saw a number of his own school mates, sitting round a table on which were packs of cards and little piles of money. Before he could say a word the light was extinguished and he was hustled out. My immediate comment to this mother was, "Give me the location of that place and I will see the principal of the school those boys attend." But she would not hear of my doing anything about that individual case, because her boy was a delicate, undersized lad, and the youths of that club were the largest boys in the school. She said, "They would make my boy's life miserable if they were discovered, for even if he had nothing to do with it, they would never believe him, because they know he knows."

Since this public agitation began a gentleman told me of a club that was in existence a short time ago over a store in East London. It was near a place to which his business interests used frequently to call him. Apparently every member of that organization was in knee pants.

Besides these boys' clubs there are others, in which older lads, most of them yet in their teens, but not at school, spend their leisure hours after business. Here again gambling and drinking are sometimes the main amusements. I have the names of six such organizations that on account of disorderly conduct, as a result of liquor, were in each case refused further house room by their landlord. In one case the landlord, relying on the eminently respectable connections of these boys, did not suspect any wrong until a man passing the place one Sunday, and hearing the uproar, went to his home and suggested an investigation. This advice was followed; the drunken youths who were responsible for the racket were ejected; six packs of greasy cards were burned in the grate; and the filthy pictures that disgraced the walls were torn down and destroyed.

But we may go a step further. I have in my possession the names of 26 well-known private clubs. These are the places the public thinks of when clubs are mentioned. Some of them are now breathing out fire and brimstone at the suggestion that they need any supervision. Yet within this very month two of them were heard from in court and convictions followed. And only a short time previously two others were under the same kind of limelight. Four out of the 26 in six months!—although it is patent at a glance that things would have to be in pretty serious shape before police intervention would be possible. Clubs, unlike bars, are private—open only to members and friends. Until matters become notorious nothing can be done.

When the W.C.T.U. sent a representative to the license inspector, asking why he did not raid sundry places that were bulking large in public notice an account of the conduct of the members, Mr. Galpin said unless he was sure he would find proof of liquor selling he could not break in without risking serious consequences.

The chief of police is quoted in the press as saying that it is no business of his if men drink in clubs, or gamble, or if women are taken into these places. The police can only interfere when a disturbance is created.

Here, then, is the situation: The existence of any number of private clubs is perfectly legal. They can drink and gamble and take in your girls for wrongful purposes, but unless they disturb the neighborhood, neither the license inspector nor the chief of police, nor any city official, can raise a hand to protest. The members may be school boys and the girls they entertain may be their school mates, and yet there is no legal machinery to prevent.

What do the fathers and mothers think of the wisdom of such conditions?

THE BUCKET SHOP LAW IS UNCONSTITUTIONAL

Washington, March 30.—The amendment to the so-called bucket-shop law which defines "bucketing" was declared unconstitutional by Justice Wright in the district of Columbia Supreme Court to-day, in that it deprived the citizens of the liberty to contract. A demurrer of Edward Altemus of Jersey City, and Louis A. and Angelo Cella of St. Louis, who were indicted last April, was sustained. The Government will appeal.

MAKER OF KINGS IN PETERBOROUGH

YOUNG ENGLISHMAN WHO FILLED THRONE.

He Placed Moroccan Monarch by Force of Arms—Commanded an Army of 67,000 Soldiers.

While in Chicago a few days ago a Times' representative had the pleasure of meeting General Kaid Belton, the young Englishman, who led 67,000 troops to a victory, which placed Mulai Hafid on the throne of Morocco, who won his commission in the British army for gallantry on the field at the age of 21, and was the youngest captain in the army at 23, is registered at the Great Northern Hotel. General Belton was also in Peterborough on his way west, and stopped off to visit a relative, who resides in this city.

General Belton is one of the two Europeans who has been made "kaid" or commander in chief of the Moroccan, who won his commission in the McClain, against whom he fought when he ousted El Aziz from the sultanship and put Mulai Hafid in his place.

Puts Pretender on Throne.

At the time he went to Morocco from South Africa, in 1908, that country was in debt to the amount of $50,000,000. The sultan, El Aziz was a boy of 16, and because of inefficient ministers no effort was made by the country to pay the interest on the debt.

General Belton cast his fortune with Mulai Hafid, the pretender to the throne, and after conquering several wild tribes in the Moroccoan hills, faced the army of El Aziz. In spite of the fact that his army was greatly outnumbered, he put the regulars to route.

Later France forced Morocco to take a loan of $50,000,000 to pay its debts. General Belton opposed the move and argued against it before the diplomats of the principal European nations in the conference at Algeciras, Spain. He was overruled, and exiled from the country.

Calls Bravery "Accident."

Kaid Belton is a soft spoken, modest young man, who is reticent about his military experiences.

"I won my commission by accident," he said. "It was the rapid fire guns that did the business. I was sergeant with a company which was on the flank of a column marching across the veldt and we were ambushed by the Dutchmen. We got the guns into action and held our ground by squirting lead into them, but only three out of twenty-seven men in my platoon were on our feet at the end. I got my commission, and a few months later was given a company."

Peterborough on his way west, and visit Canada again on his return to the east.

Novel Method of Payment.

Grand Junction, Colo., March 30.—A Colorado ranchman has paid for his college course at Colorado College, from the footprints in the sandstone of his homestead near Grand Junction. Elmer Terril has sold two footprints made by a prehistoric dinosaur to the Colorado Springs Institution, and also has closed negotiations with the Field Museum of Chicago for two more tracks which he is digging from his ranch.

A Successful Smoker.

No. 3 Company and the Barrie Band of the 57th Regiment held a joint smoker in the recreation room of the Armouries last night. A good programme was provided and those present spent a very enjoyable evening.

THE MINES DEVELOPING MACHINE WILL BE INCORPORATED

It is One of the Greatest Inventions of the Age for the Speedy Development of Mines

A device which will, when installed, be the means of placing hundreds of mining properties, now laying idle, on a producing and dividend paying basis. It will develop a mine in months where is now requires years. It will be the means of bringing sure and quick returns on mine investments which are now slow on account of the long time required to either reach the ore bodies or develop them to an extent which admits of productions on a large scale.

IT CAN BE USED IN ALL MINING REGIONS.
IT CAN BE USED IN DRIVING IRRIGATION TUNNELS.
IT CAN BE USED IN DRIVING TRANSPORTATION TUNNELS.
IT CAN BE USED IN DRIVING DRIFTS AND UPRAISES IN MINES AND IT WILL WORK IN ALL KINDS OF FORMATION.
IT DRIVES A COMPLETE TUNNEL, DRIFT OR UPRAISE, AND SHAPES ITS WORK ON A SCIENTIFIC PRINCIPLE.

Contracts have already been signed for the use of enough of these machines to keep a large factory busy building them for many months, and I predict that before 5 years many hundred of them will be in use.

A corporation will be organized within a short time to own and handle the machine, and it will be capitalized for $1,000,000 divided into 1,000,000 shares. One-half of the stock will be placed in the company's treasury.

YOU CAN NOW BUY PRE-ORGANIZATION STOCK AT 25c PER SHARE (either for cash or ten-payment installments) BUT YOU CANNOT BUY IT FOR LESS THAN 50c PER SHARE AFTER THE INCORPORATION TAKES PLACE.

GET IN ON THE GROUND FLOOR IN THIS ENTERPRISE. TAKE ADVANTAGE OF THE PRE-ORGANIZATION OFFER NOW.

Use the coupon in making your subscription, either for cash or installments, and make all remittances payable to

A GAELIC STORY

A Fine Tale from the Western Isles of Scotland

Many folk tales in which apples play a magical part are to be found in the Highlands, as also in Ireland. The following Gaelic story from the Western Isles of Scotland tells how a Prince went to visit his wicked sister who is a witch, and with whom three venomous pets dwell. He, however, takes the precaution of taking three apples with him, and when the enraged sister sets her porkers on him, intending to kill him and seize his money, he runs away, but throws the apples one by one behind him. These change into woods, and moors, and lakes, hence hinder the porkers from getting to him. Other similar stories have the apples as the magical sign. Indeed, in all Gaelic folk lore the apple plays an important part, and it is also found in Italian, German and Norse legend. When the two eldest idle sons of the king go out, to herd cattle, they find an apple tree whose fruit moves up and down as they vainly strive to pluck it; when the hero wishes to pass from Islay to Ireland he throws sixteen apples one by one into the sea, and steps from one to the other, when the giant's daughter runs away with the king's son, she cuts an apple into a mystical number of small bits, and each bit talks, then when she kills the giant she puts an apple under the hoof of the magic filly and he dies, for his life is in the apple, and so on. In Manx stories we find the golden apple as a prize; in Norse legend the Princess has three golden apples on her lap; in the "Arabian Nights" there is a long story, "The Three Apples," which turns upon the stealing of one. In the well-known tale of "Snow White" there occurs a poisoned magical apple, and in French legends we often find an apple that sings or speaks. History tells us the Druid priests held the apple sacred, hence it appears that the fruit has been magical and mysterious from the earliest of times, throughout all ages. Sought for in the West, valued in the East, apples are still invested with the magic that belongs to the past, and now, when they form one of the most important of our natural productions, we may spare a few minutes to regard what was at one time a sacred fruit.

When given as soon as the croupy cough appears Chamberlain's Cough Remedy will ward off an attack of croup and prevent all danger and cause of anxiety. Thousands of mothers use it successfully. Sold by all dealers.

Must Die For Murder.

London, March 30.—The appeal of Stinie Morrison, alias Morris Stein, from the sentence of death passed upon him for the murder of Leon Baron whose badly mutilated body was found shortly after the Houndsditch police murders, has been dismissed. It was said that Beron had betrayed the Houndsditch murderers to the police, and his killing was supposed to have been done in revenge.

VARICOSE VEINS CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on Varicose Veins. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss advised me to lay off work so much and told him my condition. He advised me to consult Drs. Kennedy & Kennedy, so he had them to attend them himself and knew they were square and straight. I wrote them and got THE NEW METHOD TREATMENT. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $31 and never loose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It may suppress the symptoms—our NEW METHOD cures all blood diseases.

YOUNG OR MIDDLE AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any ulcerations? Our NEW METHOD TREATMENT will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion Free of Charge. Books Free—"Boyhood, Manhood, Fatherhood." (Illustrated) on Diseases of Men.

MUSICAL COMEDIES

By Tom Gallon

Have you ever noticed the extraordinary fashion in which a musical comedy chorus will drink on the stage? In the case of an ordinary play, drinking is done with some amount of realism; that is to say, the host, in evening dress, asks another character, with a polite wave of the hand, if he will have a whiskey and soda; and proceeds to mix for him at a side table in the conventional manner. And wives in the audience glance at th ir husbands, as much as to say: "Now, wouldn't you like to be doing that?" But when it comes to musical comedy it is quite another matter.

In the first place all the men possess themselves of goblets. Where they come from no one knows. One or two hands are surreptitiously stretched out towards the wings, and then you see the goblets begin to circulate from hand to hand—sheepishly, as though those who had them were ashamed of being seen with them. They are usually of gold, apparently, or some other precious metal, and I would like you to observe that at first

After a moment or two, however, one or two damsels will trip on with small golden jugs. There may be forty men in the chorus, all looking thirsty, and all with goblets; but you rarely get more than four girls to wait on them. They coquettishly lift the small jugs, and pour into the golden goblets—to be rewarded, so far as the first row of the chorus is concerned, by a playful chucking under the chin. Then the damsels retire, and the men are left to their debauch. And from that moment, if you watch carefully, the actual fun begins.

Generally speaking, the chorus are supposed to join in a refrain that has been started by the hero, and they are supposed to drink his health. They will commence by shooting the goblets out perfectly straight from the shoulder, as though they were boxing with them, and then giving them a twirl that would send flying any possible liquid they might contain; after which performance they will drink with gusto—taking quite a long time over the task, and expressing satisfaction to each other by much smacking of lips and nods of approval.

I have seen an absent-minded man thoughtfully scratch the top of his head with the rim of his goblet, holding the thing upside down for the purpose, and afterwards drink with so much eagerness, and with a difficulty in swallowing, that it has made me positively thirsty to look at him.

There was a musical comedy once that started out, and was destined (so everybody said) to be a great success. What everybody said was wrong in that instance; the thing fizzled out, and was no good; and finally it got lost in the provinces, and people forgot exactly where it was, and hoped, perhaps, that some day it might disappear. And one night it came to a certain town, and mutely invited people to go in and see it.

One or two people came who didn't need to pay; and one or two others, who didn't know the place, and were of a reckless disposition, actually paid money and went in. The thing began, an dragged its weary length through the first act; and after an interval began upon the second. And at about that time a gentleman, who had been dining, and was not quite certain where he lived, or what he had better do with himself for the remainder of an evening that had begun hazily, meandered up to the pay-box of the pit, and with grave deliberation and some difficulty produced a half-a-crown, and laid it down. Having so far performed his duty, he leaned up against the pay-box window, until such time as the man in charge should exchange the half-crown for a ticket, and smilingly went to sleep.

The man in the pay-box, being awakened fro mhis own slumbers by the snores of the would-be patron, woke up, and peered out at him. He saw the half-crown, and his conscience spoke him. Was he the man to take advantage of one unable to act properly for himself? He pushed back the half-crown, and shook the somnolent one, and spoke sternly, though in a hushed voice.

"Put it in your pocket, and go away. You'd only be sorry when you got sober!"

SOFT SHELLED EGGS

Experiments That Were Carried On at a Kansas Station

It is a general belief that soft-shelled eggs are due to a deficiency in the supply of lime to the laying hens. At the Kansas Experimental Poultry Farm, experiments were carried out to throw some light on the subject. It appears that hens subject to much nervous excitement are liable to lay soft-shelled eggs, due to nervous shock and analogous to abortion in other animals. It is known that on the ordinary diet a hen's system usually contains enough lime for the shells of five or six eggs. If lime is withheld, then, after laying five or six eggs, the hen will cease laying; but if lime in limited amounts be given the hen will lay eggs in proportion to that amount, though the shells on examination may prove to be somewhat thinner than usual. In addition to grit, lime must be supplied in the form of shell-grit or oysters. Old plaster is also very satisfactory.

CANDID CRITICISM

Said the Actor's Voice Was Like a Rasping Saw

Mr. Willie Garvey, who, as Aladdin's mother at the Kennington Theatre, has been manufacturing laughter wholesale, and who, by the way, has been engaged by Mr. Robert Arthur for five years, has earned considerable distinction as an opera singer as well as comedian. Indeed, he is far prouder of his operatic record than he is of his pantomime performances. "But I received a nasty jolt the other night," he said to the writer during an interview. "While leaving the theatre I heard one man ask another what he thought of the man who played Aladdin's mother. 'Oh, he's all right,' was the reply, 'but he's got a voice like a rasping saw.'"

EPIGRAMS FROM NOVELISTS

Have you never observed that if you conscientiously neglect to do your work it somehow manages to get done without you?—Henry Harland.

Civilization means universal civility, and to be civil to everybody argues a great power of telling lies.—Eden Phillpotts.

Relations, as somebody said, are disagreeable acquaintances inflicted upon us by Providence. But it is no use losing one's temper about what they say; it only pleases them.—Richard Bagot.

How exquisite in life is the art of not seeing many things, and of forgetting many that have been seen.—James Lane Allen.

There is nothing in life worth making a secret of—except one's income.—Seton Merriman.

Truisms, whether they lie in the depths of thought or on the surface, are at any rate the pearls of experience.—George Meredith.

WHAT THEY WANTED

With hisses and groans an audience greeted what had been hoped would prove the great scene of a new drama. All hope of success was at an end.

"It's hard to tell what the public wants," murmured the heart-broken playwright standing in the wings with the manager.

"It's easy enough to tell in this case," said the manager, grimly. "It wants its money back!"

BAD LUCK CAME THICK AND FAST

A Bank Clerk's Terrible Experiences While Lost in an Australian Forest

I had taken a holiday from my employment as a clerk in a Sydney bank, says John Coates, Dublin, and was spending it very agreeably with my friend, Mr. C. T. Stiles, New South Wales. Mr. Stiles had a large outlying station, Towamba, some forty miles distant, which was controlled by a manager, and I made a visit with him to this station, our intention being to remain a few days. On the day after our arrival, Mr. Stiles and his manager being engaged on some business accounts, I had a horse saddled and went off for a ride unaccompanied.

I was practically a "new chum," having been only a couple of years in Australia, and knowing nothing whatever of the bush. Of course it was carelessness on my part, but I simply rode out into the bush and got lost.

At first I was only a little amused, for I was within a dozen miles of the station, and I felt sure some of the men could find me easily. It became apparent, however, as darkness approached, that I was fated to spend the night in the bush. I had taken a hearty midday meal, and I was well supplied with tobacco and matches. I "hobbled" my horse with the throat-strap of the bridle and made a big fire under a ring-barked wattle and against its trunk. Then I lay down, with my pipe going well, and ultimately fell asleep, in spite of a storm which suddenly sprang up.

I awakened with a sensation that the end of the world had come, and it was some time before I realised what had happened. The tree against which I had made my fire, being partially burnt through and thereby weakened, had been blown down and had fallen across the upper part of my body. I was lying on my right side, and both my arms—the right one being underneath me—had been broken; the left one was broken, as I afterwards found, in three places. Three ribs were also broken on the left side. Of course I did not take stock of my injuries at the time.

The tree lay across my body, completely pinioning me. To add to the horror of the situation, I became aware that some of the burning sticks from the fire had been dashed against the lower part of my right thigh. My trousers and undergarments were quickly burned through, and I smelt the flesh burning. Then I became unconscious. How long I lay it is impossible to tell, but my next awakening was to a condition as frightful surely as any mind could conceive. A colony of ants, disturbed, perhaps, by the falling tree, were crawling over my face and had attacked my eyes. I screamed in my agony, but there was none to hear. I cannot tell how long I lay enduring torments which I can find no words to convey an idea of, but it must have been hours before I lapsed again into merciful unconsciousness.

It was on the morning of the fifth day that Mr. Stiles and his men found me. I was a raving madman, and of the finding I have no recollection whatever. It seems that I was taken to Bega, where, under the ministrations of Dr. Joseph Marshall, I came slowly back to this world again.

My left eye was completely destroyed and had to be removed; the right one came very, very near sharing its fate. I was totally blind when I regained my reason, and remained so for two months. My left arm had been amputated—it seems that it was quite shattered. My thigh had been horribly burnt, and I bear an enormous scar. All this happened twenty years ago, and to-day, although I am one-eyed and one-armed, I am a hale and vigorous man of fifty-five. My adventure gave me a horror of Australia, and I returned to Ireland when well enough to travel.

MUSICAL COMEDIES

By Tom Gallon

Have you ever noticed the extraordinary fashion in which a musical comedy chorus will drink on the stage? In the case of an ordinary play, drinking is done with some amount of realism; that is to say, the host, in evening dress, asks another character, with a polite wave of the hand, if he will have a whiskey and soda; and proceeds to mix for him at a side table in the conventional manner. And wives in the audience glance at their husbands, as much as to say: "Now, wouldn't you like to be doing that?" But when it comes to musical comedy it is quite another matter.

In the first place all the men possess themselves of goblets. Where they come from no one knows. One or two hands are surreptitiously stretched out towards the wings, and then you see the goblets begin to circulate from hand to hand—sheepishly, as though those who had them were ashamed of being seen with them. They are usually of gold, apparently, or some other precious metal, and I would like you to observe that at first.

After a moment or two, however, one or two damsels will trip on with small golden jugs. There may be forty men in the chorus, all looking thirsty, and all with goblets; but you rarely get more than four girls to wait on them. They coquettishly lift the small jugs, and pour into the golden goblets—to be rewarded, so far as the first row of the chorus is concerned, by a playful chucking under the chin. Then the damsels retire, and the men are left to their debauch. And from that moment, if you watch carefully, the actual fun begins.

Generally speaking, the chorus are supposed to join in a refrain that has been started by the hero, and they are supposed to drink his health. They will commence by shooting the goblets out perfectly straight from the shoulder, as though they were boxing with them, and then giving them a twirl that would send flying any possible liquid they might contain; after which performance they will drink with gusto—taking quite a long time over the task, and expressing satisfaction to each other by much smacking of lips and nods of approval.

I have seen an absent-minded man thoughtfully scratch the top of his head with the rim of his goblet, holding the thing upside down for the purpose, and afterwards drink with so much eagerness, and with a difficulty in swallowing, that it has made me positively thirsty to look at him.

There was a musical comedy once that started out, and was destined (as everybody said) to be a great success. What everybody said was wrong in that instance; the thing fizzled out, and was no good; and finally it got lost in the provinces, and people forgot exactly where it was, and hoped, perhaps, that some day it might disappear. And one night it came to a certain town, and meekly invited people to go in and see it.

One or two people came who didn't need to pay; and one or two others, who didn't know the piece, and were of a reckless disposition, actually paid money and went in. The thing began, an dragged its weary length through the first act; and after an interval began upon the second. And at about that time a gentleman, who had been dining, and was not quite certain where he lived, or what he had better do with himself for the remainder of an evening that had begun hazily, meandered up to the pay-box of the pit, and with grave deliberation and some difficulty produced a half-a-crown, and laid it down. Having so far performed his duty, he leaned up against the pay-box window, until such time as the man in charge should exchange the half-crown for a ticket, and smilingly went to sleep.

The man in the pay-box, being awakened from his own slumbers by the snores of the would-be patron, woke up, and peered out at him. He saw the half-crown, and his conscience spoke him. Was he the man to take advantage of one unable to act properly for himself? He pushed back the half-crown, and shook the somnolent one, and spoke sternly, though in a hushed voice:—

"Put it in your pocket, and go away You'd only be sorry when you got sober!"

THE "DANGER" CART

Special Vehicle for the Conveying of Bombs, Alleged or Real

Few members of the general public are aware of the method adopted by the Home Office when a bomb, alleged or real, comes into the possession of the London, England, police.

It is generally known that the article under suspicion is at once put into a pail of water, but the after proceedings have, so far, been left to the imagination. Here is what actually happens after a thorough soaking of the object under suspicion is assured.

What is known as the "danger" cart is sent from the Magazine in Hyde Park, where it is kept, to the point where the "bomb" may be, and not many who might chance to see a small hand-cart, painted a brilliant red, being drawn along the street would imagine that it possibly contained an instrument of destruction, which had been intended to blow up some public place or other.

The cart itself is built on two finely-balanced springs, and has suspended underneath it a smaller, box-shaped receptacle in which the suspected article is placed.

The cart and the suspended box are built with the greatest care, so that, no matter how great the jolting may be, the contents of the lower chamber will be in no way disturbed.

The "danger" cart is generally drawn along by two men in plain clothes, whose duty it is to see the cart and its contents safely housed in the laboratory of the Magazine. There the examination by experts takes place.

JAPAN RIDES KOREA

ON BOARD A LINER

A Captain Dilates on How the Passengers as a Rule Pass the Time

"I suppose that celebrities crossing the Atlantic are subjected to a good deal of impertinent scrutiny and lionizing," said a man to the captain of an Atlantic liner recently during the course of a conversation concerning life aboard the huge greyhounds which carry thousands of passengers to and from North America every year.

"Not necessarily," was the reply. "As a matter of fact, the first-class passengers may be as exclusive in regard to other folk as if he or she were at home. In the old days, of course, the cabins and saloons on liners were so small and stuffy that passengers spent a lot of their time on deck, with the result that most of them became acquainted with each other on the voyage. Nowadays, however, deck suites of rooms, which include a parlor and a bath-room, are so airy that one can get along very comfortably without going on deck at all."

"But isn't it usual for passengers to sit about in deck-chairs to enjoy the fresh air?"

"Well, the habit is not quite so popular as many people imagine. There is plenty of ozone in any of the deck cabins, and, as I heard a passenger say on one occasion, the spectacle of men and women spread out asleep with their mouths open is not exactly picturesque. After dinner in the evening passengers will promenade the deck for a while, but fashionable folk seldom show themselves on deck except for this walk. They amuse themselves in their own cabins or play bridge in the private rooms."

THE "SILENT ADMIRAL"

Sir Arthur Wilson Has Entered the Navy Controversy

For the first time in his life Sir Arthur K. Wilson, First Sea Lord and chief expert adviser to the Admiralty, has entered into the public controversy regarding the strength of the Navy. A man who prefers deeds to words, "Tug" Wilson, as he is popularly termed in the Service, is recognized as being without equal as a strategist and tactician. He is one of the very few naval officers who have earned the coveted V.C. This was at the Battle of El Teb in 1884, when the Arabs broke the square formed by the Naval Brigade, and he sprang into the breach and engaged the enemy with his bare fists, having broken his sword. Sir Redvers Buller described the act as "one of the most courageous he had ever witnessed." Sir Arthur is known in the Navy as "the man who never takes a holiday," for he rarely goes ashore, even when his fleet or flagship visits any port. He regards every moment spent away from the Service as wasted.

LONDON GIRLS WERE PRETTIEST

Sir Francis Galton, the last of the great Victorian scientists, who died recently, had a curious bent of mind at times. For instance, he made an instrument for carrying in the pocket by which he could tick off, as he passed in the street, the number of girls who were "good," "medium," or "bad" in regard to looks. "I found," he said, "London to rank highest for beauty and Aberdeen lowest." On another occasion, when he had his portrait painted, he beguiled the tedium of sitting by counting the strokes of the brush that went to make his picture, and the total, to his great surprise, amounted to 20,000.

Policeman's Narrow Escape.

New York, March 30.—A Black Hand bomb was exploded early today, almost beneath the coattails of a New York policeman. The policeman, making his regular rounds, was standing at the doorway of a tenement house on First avenue, and the bomb was in the cellarway of the building not a rod from his feet. He was uninjured, although the front of the building was damaged and doors and windows blown in.

BITERS BITTEN

A Good Story of a Tenderfoot and a Game of Poker

Down at one of the Rhodesian mining camps there is a bar with a regular poker "push," and the barman stands in with the gang. A new-chum with sporting proclivities has a poor show.

One night the tenderest new-chum imaginable, just up from Beira, after half-a-dozen drinks in the saloon, agreed to take a hand in a half-crown game.

Things went along in the usual way for awhile. Then an amazing series of nods and winks began to pass about. The barman had signalled that the tenderfoot had four kings on the draw. There were more nods and winks, and betting began.

In the midst of the betting a boy brought sandwiches and whisky in order to distract the mug, and while the poor dupe was tossing off his drink the sharper next him slipped a sixth card on to his hand, thus, of course, nullifying it.

The unconscious youngster took up a huge sandwich, bit off a large mouthful, and began to bet again. Right and left, of course, they raised him. He sate on and bet away calmly. An enormous sum lay on the table.

Then suddenly the barman resumed his nods and winks. He was terribly excited. Something was wrong. The sharpers, a little anxious, called the kid.

The blue-eyed darling finished the last bite of his sandwich, took a long drink of whisky, and then laid his original five cards. Then in silence he gathered in his vast pile of winnings, and with a cool nod took his leave.

After his departure there was a terrible time.

"What the dickens did he do with that sixth card?" the sharpers cried.

"Didn't you see? Didn't you see?" cried the barman, dancing up and down with rage. "He ate it with his sandwich."

A JOURNALIST'S WORK

Busy Life of George Gordon Bennett, New York

The famous proprietor of the "New York Herald," Mr. Gordon Bennett, is reputed to be the hardest-worked journalist alive; and although he finds time to go in for yachting, motoring, and sport of all kinds, it is only because he begins his working day at five o'clock in the morning and gets through as much work in one hour as the average man could get through in six. Mr. Bennett will be seventy in a few months, but seems only to grow more energetic as the years pass by; and he can navigate a yacht, steer a motor, or fire a gun with all the accuracy of a man half his age.

"LUCKY LAMBTON"

The Life and Soul of Ladysmith Garrison

So Sir Hedworth Lambton has often been referred to on account of his many extraordinary escapes from death, and the nickname will be revived now that Lady Meux has bequeathed to him $100,000 and the residue of her estate. One of the conditions of the bequest, however, is that he must assume the name and arms of Meux within a year. Sir Hedworth joined the service as a boy of fourteen, and was present at the bombardment of Alexandria and the Battle of Tel-el-Kebir. It is in connection with the siege of Ladysmith, however, that he is especially noted, Sir George White describing him as the "life and soul of the garrison."

ANYTHING TO OBLIGE

Some Stories Told of the Well-Known Lord Fisher

There was no greater admirer of the qualities of Lord Fisher, who, having attained his seventieth birthday, retires from the active list of the Navy, than Queen Victoria. A delightful story is told of how, when a certain French admiral was about to pay a visit to Portsmouth—this was when Sir John was Admiral Superintendent of the dockyard—the Queen requested him to be sure and "be very nice" to the visitor. With a face as impassive as a Chinese mandarin the Admiral replied, "I'll kiss him if you wish it, ma'am!" Devoted to duty, Lord Fisher would brook no shirking from any man under him. A certain captain once sent word that it was impossible to get his ship to such and such a place on a given date. "Umph!" replied "Jacky Fisher," as he is known in the service. "Tell Captain Blank that if he is not ready to leave X—— on the day named I'll have him towed there."

"THE BETTER LAND"

Composed by Dr. Cowen, Who Always Has the Aid of His Pianette

Dr. F. H. Cowen, the famous musician, whose latest work, "The Veil," has been heard for the first time in London, was a young man of twenty-five when he wrote the music of "The Better Land." It was written in an hour or two, on the suggestion of the late Mme. Antoinette Sterling. Dr. Cowen was calling one day upon the popular vocalist, when she read Mrs. Hemans's poem to him, saying she thought it would make a beautiful song for her. When the score was sent to her next morning, Mme. Sterling liked it so much that she offered to buy the copyright from the composer—an unusual course for a singer to take; but to this, fortunately for his pocket, Dr. Cowen would not agree. Dr. Cowen has a mascot which he would not part with for untold gold. This is a little pianette which he has had since he was a boy of fourteen, and every work he has composed has been written with its aid.

Camorra is Not Collecting in Canada

Montreal, March 30.—Mr. L. Scelsi Consul-General for Italy in Canada, to-day denied a report that money was being raised under the threat of death from Italians in Canadian cities by agents of the Camorra for the defence of the members of the society now on trial at Viterbo, Italy. He said: "I do not believe that any such fund is being raised in Canada, but the personal friends of some one interested in the men on trial may have taken up a sort of family collection. I do not believe that the agents of the Camorra are at work however."

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

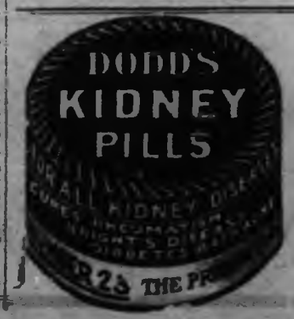
Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Trunk Pacific Ry. Points.

In connection with settlers and round trip homeseekers excursions to the West on April 4th the Grand Trunk Ry. Coy., will run a special through train from Toronto to Edmonton, leaving Toronto at 11 p.m., April 4th via Chicago, St. Paul and Winnipeg without change, arriving at Edmonton 7 p.m., April 7th. This train will carry Pullman Tourist sleeping cars with porter in charge. Berth rate to Winnipeg will be $3.75 for lower and $3.00 for upper. To



READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

$100,000,000.00

Was Made in Western Town Property During the Year 1909

Did you anticipate in these huge profits or did you "pigeon-hole" the propositions submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognize the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Five or ten years ago I had the chance to buy this or that property at $100 or $500, and now it is worth $10,000." The average person sneers at the person who makes such a statement and says: "I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Poe, Alta., at from $50 to $100 each, or are you going to be the man who will have from $1,000 to $10,000 in cash as a result of having bought property in this town in this year of grace, 1911?

POE A COMING COMMERCIAL CENTRE

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich coal mines, is close to rivers and lakes and large forests are easily accessible from this point. These natural resources insure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

POE AS A MANUFACTURING CENTRE

This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forests furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost.

The town is located on the main line of a transcontinental railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

Poe townsite was recently placed on the market and already over 200 lots have been sold and many of these lots have already changed hands at a substantial increase in price. Most of these lots were purchased by representative business men throughout Canada who are now profiting by their foresight.

The townsite is high and dry and very suitable for building purposes.

OPPORTUNITY

is useless unless you possess the courage to act. You might possess great wisdom, you might read a good deal or travel much and thus see all kinds of opportunities to make money, but unless you have the courage to act on your judgment and wisdom all of these desirable qualities—are entirely useless.

Lots in Poe are a good investment at present price. The town is bound to grow rapidly. Owing to the easy terms of payment you have the ability to buy and if you do not buy now it is because you are lacking in courage, and the chances are you will never be like the man you now admire most, rich, courageous and wise.

TORRENS TITLE.

Poe townsite is held by us under the Torrens system of title. Under this system the title is guaranteed by the Government, therefore absolutely safe.

PRICES AND TERMS.

Prices of lots range from $50 to $100 each, and they can be purchased on terms of one-tenth cash, balance in eighteen equal monthly payments; or quarter cash, balance in six, twelve or eighteen months.

INFORMATION

We have issued an attractive circular giving full information pertaining to the town and its prospects, together with map showing lots for sale. If you wish to receive this attractive circular cut out and fill in the attached coupon and mail it to us to-day.

INFORMATION COUPON

Gentlemen,—With a view to buying property in Poe, Alta., please send me full information with map and price list, and oblige,

Yours Truly,

UNION BANK BUILDING, - - WINNIPEG, CANADA

PUT YOUR SAVINGS INTO North-Western Asbestos Shares

Where They Will Earn Something For You

W. A. Fisher, President

The North-Western Asbestos Mills Company

Mr. Fisher comes to The North-Western Asbestos Mills Company with years of experience to recommend him as a master of finance, a man of far-seeing business judgment and splendid executive ability.

He will assume an aggressive though conservative policy in the affairs of The North-Western Company, and will stop at nothing short of success.

It was through Mr. Fisher's efforts that the International Asbestos Mills and Power Company secured valuable concessions in the way of lowered freight rates, enabling that company to market their products in many parts of the country, meeting the sharpest kind of competition.

Mr. Fisher is keen after business, vigorous and progressive and the directorate of The North-Western Asbestos Mills Company may be congratulated upon securing his services as President.

Your Opportunity to You this Money Making Enterprise

You must not let this opportunity pass by. You can not afford to. It means something to you if you buy now while you can get shares in this profitable enterprise at such a very low price. Our plan is a most liberal one and it means a short cut for our stockholders to handsome profits and early dividends. Shares are selling now for 5 cents. The market is on the advance and there is every reason to believe that they will be worth many times that amount in a short time. Our proposition is not a prospect. We have passed the experimental stage and are on the highway to success and stupendous earnings. You want your share. You want your savings invested where they will earn something for you. You don't want to have to wait forever on dividends. You want an investment that has security and promise of great earnings in the shortest possible time. THEN YOU WANT A LIBERAL BLOCK OF SHARES IN THE NORTH-WESTERN ASBESTOS MILLS COMPANY while you can buy them at five cents per share.

C. H. Parker Comes to North-Western Co.

This Company has secured the services of C. H. Parker, M. E. and H. E., of Thetford, Canada.

Mr. Parker has had years of experience in the Canadian Asbestos Fields, having been in charge of some of the largest and most important mines in the country.

In taking service with this company he will have complete charge of the operation at the mines and mills in Wyoming and will undoubtedly institute the newest and most modern methods in mining and milling our products.

Many new plans have been devised that will further develop the Company's holdings and Mr. Parker's association with us will undoubtedly make a short cut to greater profits and quick dividends.

Profits Aggregating Millions of Dollars

There is every reason to believe that profits aggregating millions of dollars will be made by our Company in the future. You should not miss the opportunity to secure your share.

The world wants asbestos. We have asbestos to sell. The demand is increasing daily and shares in our enterprise that are selling to-day for 5 cents will probably be selling for 5 times that amount inside of six months.

THE INTERNATIONAL ASBESTOS MILLS AND POWER COMPANY, OPERATING IN THE SAME FIELD WITH US, IS A GRAND SUCCESS. THE PRICE OF SHARES IN THEIR COMPANY WAS STARTED ONLY A FEW MONTHS AGO AT 10 CENTS AND ARE NOW SELLING FOR 25 CENTS. ON APRIL 1ST THE PRICE WILL BE ADVANCED TO 50 CENTS.

THE INTERNATIONAL COMPANY HAS ALREADY PAID A DIVIDEND.

Pay for Your Shares a Little Down---a Little Each Month

We have arranged a plan whereby the purchaser may secure a liberal block of our stock while it is selling at such a low figure and pay for it, a little down and the balance on easy instalments.

But you should not delay your subscription. The price is liable to advance at any time. Send your order to-day with first payment and we will trust you for the rest.

Before you hardly realize it, your subscription will be paid up and you will be a part owner with us in our enterprise that we hope to make the biggest thing of its kind in the world. Don't wait another day, but clip the attached coupon and send it in.

What Others Have Accomplished We Can Accomplish Also

The International Asbestos Mills and Power Company, our nearest neighbor, has attained wonderful success in a phenomenally short space of time.

Only a few months ago shares in that Company could have been had for 10 cents. To-day They are selling for 25 cents, and a positive advance to 50 cents per share is announced for April 1st.

They have paid one dividend and have a substantial start on another one, which it is expected will be paid in July.

Is there any reason why our company cannot do as well? We think we will and we invite you to come in with us now and receive your share of the first dividend to be paid by The North-Western Asbestos Mills Company. It won't be long.

SCHEDULE

100 shares cost $1 down and $1 a month for 9 months.
400 shares cost $2 down and $2 a month for 9 months.
600 shares cost $3 down and $3 a month for 9 months.
800 shares cost $4 down and $4 a month for 9 months.
1,000 shares cost $5 down and $5 a month for 9 months.
2,000 shares cost $10 down and $10 a month for 9 months.
10,000 shares cost $50 down and $50 a month for 9 months.

5 PER CENT. DISCOUNT WHEN CASH ACCOMPANIES ORDER FOR PAYMENT IN FULL.

THE NORTH-WESTERN ASBESTOS MILLS COMPANY, FIRST NATIONAL BANK BUILDING, DENVER, COLORADO.

Gentlemen:—

I hereby subscribe for ..... shares of stock in your Company and enclose herewith..... being part payment on same.

If accepting installment terms, I agree to pay the balance in 9 equal payments.

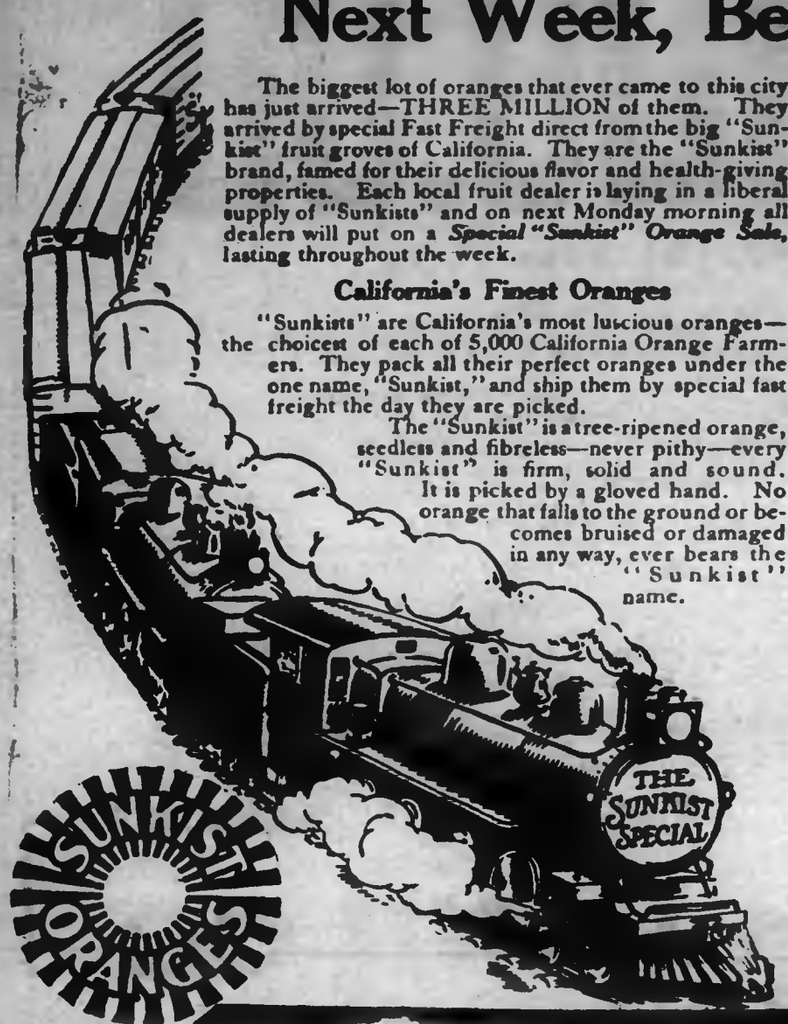
3 MILLION ORANGES HERE

Another Big "SUNKIST" Sale Lasting All Next Week, Begins Monday Apr. 3



The biggest lot of oranges that ever came to this city has just arrived—THREE MILLION of them. They arrived by special Fast Freight direct from the big "Sunkist" fruit groves of California. They are the "Sunkist" brand, famed for their delicious flavor and health-giving properties. Each local fruit dealer is laying in a liberal supply of "Sunkists" and on next Monday morning all dealers will put on a *Special "Sunkist" Orange Sale*, lasting throughout the week.

California's Finest Oranges

"Sunkists" are California's most luscious oranges—the choicest of each of 5,000 California Orange Farmers. They pack all their perfect oranges under the one name, "Sunkist," and ship them by special fast freight the day they are picked.

The "Sunkist" is a tree-ripened orange, seedless and fibreless—never pithy—every "Sunkist" is firm, solid and sound. It is picked by a gloved hand. No orange that falls to the ground or becomes bruised or damaged in any way, ever bears the "Sunkist" name.

How to Serve Them

Oranges are the most appetizing and nourishing food you can serve—at breakfast—in the sick-room—between meals—in salads, ices, sherbets and puddings.

There is no limit to the number of excellent dishes of which "Sunkist" oranges form the basis.

Buy a box of "Sunkist" oranges and your fruit dealer will make you a special price. You will find no trouble in keeping them as long as you want to, because "Sunkists" reach you in excellent condition.

Physicians Advise Them

Leading physicians say that to counteract the effect of meat and other heavy foods we eat, one should eat oranges liberally. It is a universally known fact that orange juice is an excellent food for the brain cells and a tonic for run down nerves. No better laxative than sound, ripe "Sunkist" oranges can be found.

Cost No More Than Common Oranges

"Sunkist" oranges are cheapest to buy because they are thin-skinned, fibreless and seedless. They are nearly all food and no waste. You lose money if you buy pithy, seedy, thick-skinned oranges.

Free Premiums for "Sunkist" Wrappers

The "Sunkist" orange always comes in a "Sunkist" tissue paper wrapper that protects the oranges and retains all their tree ripened flavor. This name on the wrapper means you are buying, at a reasonable price, the finest orange of all.

"Sunkist" wrappers should be kept and sent to us to secure, free, a set of genuine Rogers Orange Spoons, Dessert Spoons and Fruit Knives. The patterns are new 1911 styles, designed exclusively for us. They are as attractive and stylish as money can buy. All are Rogers quality, standard A-No. 1 plate and are fullyguaranteed by the makers, Wm. Rogers & Son. No advertising appears on any of our premiums.

Read on the right the description of these valuable premiums and how to get them.

The California Fruit Growers' Exchange
105 King Street, East, TORONTO, ONT. (105)

For Sale by All Dealers

FREE! See the Beautiful Rogers Silver FREE With "SUNKIST" Wrappers

Rogers Orange Spoon Free
The picture shows our new 1911 design, "Sunkist" Orange Spoon, actual size; being a genuine Rogers product and of the latest style. This spoon will be sent you, charges, packing, etc., prepaid, on receipt of 12 "Sunkist" wrappers and 12c. For each additional spoon send 12 "Sunkist" wrappers and 12 cents.

Valuable Dessert Spoon Free
The picture shows our new 1911 design, Dessert Spoon, actual size. It is of the same excellent quality and beautiful design as the orange spoon, but being larger and heavier is more valuable. Sent to you on receipt of 24 "Sunkist" wrappers and 20c additional. For each additional dessert spoon send 24 "Sunkist" wrappers and 20 cents.

This Fruit Knife Free
Our 1911 "Sunkist" Fruit Knife is shown here, actual size. It is made of special tempered steel heavily silver-plated. Fully guaranteed by manufacturers, Wm. Rogers & Son. Sent to you on receipt of 24 "Sunkist" wrappers and 20c. For each additional knife send 24 "Sunkist" wrappers and 30 cents.

Notice!

On all remittances up to 20c please send cash, on amounts above 20c, we prefer postal note, money order, express order or bank draft. Make your money order or draft payable to The California Fruit Growers' Exchange, and address your letters to The California Fruit Growers' Exchange, 105 King St. East, Toronto, Ont.

You can secure these premiums with "Sunkist" orange wrappers or "Red Ball" orange wrappers.

If you will make it a point to buy only "Sunkist" and "Red Ball" oranges, you will not only get the finest fruits that grow, economically priced, but you will soon have enough wrappers to secure a complete set of the beautiful spoons and knives here shown.

The Morning Times
PETERBOROUGH, ONTARIO

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTER.

Longest Winter in 40 Years.

Old residents of the city report that the past winter has been the longest one they remember in 40 years.

Boy Scouts Parade.

The members of No. 1 Troop of Boy Scouts, paraded yesterday at ten and again at one o'clock. They will parade again this evening at the Armories for drill instruction.

An Interesting Talk.

At the meeting of the W. C. T. U. held in the board room of the Public Library yesterday afternoon, Sheriff Hall gave a very interesting address on "Juvenile Crime." There was a good attendance of ladies.

Power of the Press.

A correspondent informed the city authorities, through the columns of The Times, that a dangerous hole existed in the road, near the corner of Brock and Aylmer streets. The complaint appeared in yesterday's issue. A couple of hours after the paper appeared we were advised that the City Commissioner had been instructed to fill in the hole.

Knights of Pythias At-Home.

The at-home last night given by the Knights of Pythias in their beautiful hall on Simcoe street, was largely attended, and was a most successful affair. There was a few pointed addresses and a good programme of vocal and instrumental music. Everybody present enjoyed the evening immensely.

Case Was Enlarged.

The perjury charge against Constable Fred Beanett, of Havelock, which was to have been heard yesterday in connection with the recent action Innis vs. the Village of Havelock has been enlarged until Wednesday next on the advice of the Crown Attorney. The reason for the postponement was the inability to secure the presence of an importance witness.

Mr. Wainwright's Address.

Mr. G. C. Wainwright, the popular manager of the Bank of Ottawa, who takes a great interest in the Boy Scout movement, delivered a very interesting and forceful address to the members of No. 1 Troop last night at the armories. The objects and aims of the organization were set forth by the speaker in such a way as to be thoroughly understood and appreciated by the boys. There was a large attendance of Scouts, every one of whom appeared to enjoy the address.

When buying a cough medicine for children bear in mind that Chamberlain's Cough Remedy is most effectual for colds, croup and whooping cough and that it contains no harmful drug. For sale by all dealers.

Six Months in Prison.

Bert and Laura Sells who make their living by practicing palmistry, were found guilty of stealing $23.00 from a Campbellford lady, who, under the circumstances, wishes her name withheld, at the G.T.R. station yesterday at 1.40, just prior to the departure of the Belleville train.

Crown Attorney Wood looked after the prosecution.

After the evidence was taken, the Magistrate found the prisoner guilty and sentenced him to six months in the Central prison. The woman will return to Detroit, where her people live.

OBITUARY.

LATE MRS. WILLIAM DAWSON.

On Thursday evening last there passed away at the residence of her daughter, Mrs. P. E. Rutherford, 541 Aylmer street, Mariam Hodgson, relict of the late William Dawson, of South Monaghan. The deceased was 79 years, 11 months of age, and was born in Whitby, Yorkshire County, England. At the age of eighteen she came to Canada with her sister, who was the late Mrs. Handcock of Bethany.

For over fifty years the deceased lady has been a resident of South Monaghan, and her lovable disposition and charitable works made for her awarm place in the hearts of the people. She was a faithful and consistent member of the Baillieboro Methodist Church.

Her husband predeceased her thirty one years ago, leaving seven stepchildren, five of whom are living, viz. William, Nichol, Peter, George and Thomas, all of South Monaghan and Cavan townships. She also leaves to mourn her loss seven children, Mrs. J. J. Kerr, of Souris, Man., Mrs. Dr. Marshall and Mrs. P. E. Rutherford, of Peterborough and Henry Wolford, Clarence and William Fell of South Monaghan.

The funeral will leave the residence of her daughter, Mrs. P. E. Rutherford, 541 Aylmer street tomorrow, April 2nd, at 10 a.m., and proceed to South Monaghan cemetery for interment.

Like Dropping A Load

off one's shoulders the change from coffee to

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mr. H. F. Foote, traveller for the Jas. Linton Co., Montreal, has gone to the West on a business trip.

Mr. R. Lees, P.I.S., has been visiting the rural schools in Hastings district in his official capacity.

Miss Minnie Cooper, of the Sheffield Choir, will be the guest of Mrs. Edmund Wand, East City.

Captain Charlie Grey, of the steamer Lintonia, was in town yesterday on business. Capt. Grey is getting his trim little craft in shape for the opening of navigation.

Rev. Father Fitzpatrick was in the city yesterday on his return to Enismore, from Port Hope, when he gave his lecture on "Macbeth," on Thursday evening.

Lindsay Post: Mr. A. B. Medill Manager of the local branch of the Home Bank has resigned his position here to accept a position with the Great West Permanent Loan Company. He leaves for Winnipeg on Saturday.

NONE TOO SLIGHT NONE TOO SEVERE

DODD'S KIDNEY PILLS CURE ALL CASES OF KIDNEY DISEASE.

Scores Will tell You as Philip Vibert Does, "I Feel a Lot Better Since Taking Dodd's Kidney Pills"—The Best Spring Medicine.

Marcus Light House, Gloucester Co., N.B., March 31.—(Special).—So many remarkable cures of serious diseases by Dodd's Kidney Pills are recorded in the newspapers that one sometimes wonders if they are equally good for those slight Kidney troubles, which take the joy of living out of the lives of so many plain, everyday people. And investigation in this case shows that no case of Kidney Disease is too slight or too severe for Dodd's Kidney Pills to cure. Take one example. Mr. Philip Vibert says:

"I am pleased to tell you I am feeling a lot better since taking Dodd's Kidney Pills. I recommend them to all who suffer from Kidney trouble."

Scores of others tell you the same thing. Dodd's Kidney Pills are a splendid tonic because they strain all the impurities out of the blood and help circulation. For the same reason they are the very best spring medicine.

TO REGULATE LAUNDRIES.

Premier Whitney's bill, which is to place Chinese and other laundries under the supervision of the Ontario factory inspectors, has been printed. It provides that every shop, building or room in which laundry work is done by any female trade or for the purpose of gain shall be considered a factory under the terms of the Ontario Factories Act, and shall be subject to all the regulations as other factories under the Act. The bill provides that no laundry work is to be done in any sleeping or living room, and that any place in which laundry work is done must be in a clean condition, free from vermin and all impurities of a contagious or infectious character. The same penalty for breaches of the act will be inflicted as on other manufacturing plants. A special exception is made for laundry work done by a woman in her home.

LITTLE LOCAL LINES

Mr. John Miller was elected Deputy Reeve of Otonabee on Thursday last, in the place of Mr. W. B. Stewart, resigned.

The bridges crossing the river below the Little Lake, will be opened for the first time on Monday, in order to let the Government dredge pass through.

Thomas Young was charged at the Police Court yesterday with having been found drunk in a public place. He is a machinist by trade, and intends to leave for Ottawa, where a job awaits him. He was discharged with a warning.

Our city subscribers are requested to notify the office of any irregularities in the delivery of The Times. Delivery should be made before 7 a.m.

The Sheffield Choir will arrive today, and will put up at the Oriental, National, Snowden and Munro hotels. They will be accompanied by Lady Norah Noel and Lord Camden.

INS AND OUTS.

If the Tory party at Ottawa is not careful it will generate more electricity than it can handle by rubbing the whiskers of the Hon. Billy Patterson and Hon. Charlie Fielding the wrong way.

• • •

The Examiner says it is a good thing to have a nest egg in the bank. To which this g.f.j. might add that it will keep a man from "brooding" over his troubles.

• • •

Astronomers say that Mars is again trying to signal the earth. Probably wants to know what the betting is on the reciprocity matter.

• • •

That hollow sound you hear emanates from the Farmer's Bank money vaults.

• • •

A man named Smith says that another has blackened his good name. A case of blacksmith.

• • •

The ladies of Peterborough are fond of millinery display. In other words they like to drop into a spring opening.

• • •

Peterborough police will not let Socialists fly the red flag, that privilege being confined as in the past, exclusively to auctioneers.

• • •

In the spring the young girl's fancy lightly turns to thoughts of hats.

• • •

A Toronto man who confessed to having four wives was recently sent to prison for 30 days. This was bad enough, but his real embarrassment will come when he tries to explain to the wives where he has been all the time.

• • •

The new Town Clerk of Lindsay will receive a salary of $1200 a year. It should be remembered, however, that he will have to live in Lindsay.

ADVERTISE IN THE TIMES.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

APPROVAL.

Editor Morning Times.

Sir,—I was much pleased with the article in The Times, signed "Tolerance." The writer deserves much credit for his timely words. It hits the nail on the head good and square. Do it some more.

—Protestant.

MIXED MARRIAGES.

Editor Morning Times.

Sir,—I notice that considerable attention is being given by Protestants of the Orange stripe to the affairs of the Roman Catholic Church, in regard to mixed marriages, and I would like to say a few words in its defence. The marriage question, is one of religion and not of politics. In taking the stand which the Church takes, it is dealing with its own faith. Let these busybodies who are always ready to attack our faith, attend to their own affairs. The Holy Father knows what is best for his children, and it is for their own good, both here and herafter, that he requires them to live pure and godly lives. It is the only true faith and the only gateway to heaven. If they do not recognize the sacredness of the marriage tie, they cannot be regarded as good Catholics. Protestants are not required to obey the tenants of our Church. They have their own ministers and Church Governments, which though lax and in many ways totally at variance with the teachings of our Divine Master. Their faith is perhaps better than no religion at all. Let Catholics have the same rights to manage their own affairs. This is all we ask. The profession of tolerance which we hear so much about, is hardly in keeping with what we see.

—Real Tolerance.

A GOOD SUGGESTION.

Editor Morning Times.

Sir,—I would suggest that the Market Clerk be authorized to see that rules be made in regard to cleanliness by those who offer meat, vegetables, butter, &c., for sale on the market. In this regard I would call attention of our City Fathers to what is being done in other places in this connection. In Ottawa, my native city, the Market Inspector, as he is called there, has issued the following notice in poster form:

"Since assuming the position of Market Inspector I have endeavored to persuade those who bring butter, meat, fowl and other articles for sale to the market the great benefit they would derive by having such goods displayed in proper vehicles, proper packages and protected by proper coverings.

"I am pleased to note that there has been the marked improvement in this respect, but I also regret that there are some parties who patronize the market, that still cling to the old idea that anything is good enough, such as slop pails for butter, horse blankets and other old quilts for the covering of meat and fowl. Now to all such I give due notice that this will not be tolerated any longer, and any person bringing in goods under such unsanitary conditions will be ordered off the market or the goods will be confiscated and destroyed. The cost of proper packages and clean towels for butter, and clean covering for meat and fowl to protect them from dust and dirt is a small matter to provide, and nothing else will be tolerated on Ottawa market."

Let the City Council follow this example. They cannot make a mistake in so doing.

—A. J. Noise.

THE ISOLATION HOSPITAL.

Editor Morning Times.

Sir,—I am interested in the new Isolation Hospital. Will the Times kindly say if smallpox patients are treated there. If so, I would very much dislike to send anyone belonging to me to that place.

—Enquirer.

Reply—No, smallpox is not treated at the Isolation Hospital. Only fever and diptheria patients are admitted—Ed. Times.

"THE SONS OF REST."

Editor Morning Times.

Sir,—Would it not be in the interest of good newspaper work if you were to discontinue the silly articles of the supposed society "The Sons of Rest"? These reports are certainly not edifying and cannot be enjoyed by intelligent people. They may interest a certain class, but I dare say, you would not care to have that class among your patrons.

—Common Sense.

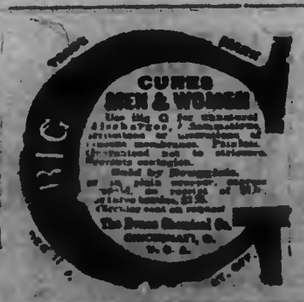
A FREAK OF NATURE.

Doe Killed in Leeds County That Wore Large Antlers.

A correspondent of The Kingston Standard sends the following item of interest:

Game and Fishery Overseer McGuire of Jones Falls, Ont., is in possession of a very large deer, that is supposed to have been killed by dogs or hounds at the home of one Albert Martin, a farmer residing about two miles from Jones' Falls in the Township of South Crosby, Leeds County, Ont. The Overseer above named, on hearing of the killing, at once drove to the Martin home and took possession of the deer and brought it to Jones' Falls, where it now is, while the overseer is investigating the matter. He is trying to ascertain whether any person or persons is guilty of gossiping in the killing or not, but up to the present time he has accomplished nothing.

This deer, which is a very large and fine specimen, is considerable of a curiosity, inasmuch as it is a female and has a very fine pair of antlers, with five branches on each horn. This is something almost unknown, and to all appearances, she has not been shedding her horns annually, as the males do. They appear to be part and parcel of the skull and appear not to have been shed. If there can be proof got against any person for assisting in the killing of this poor animal, they will certainly receive the full penalty of the law provided for the punishment of parties killing deer in close season.



The Shadow of the Cross to Remain Another Week.

By request of numerous patrons the wonderful painting, "The Shadow of the Cross," which is now being exhibited in the parlors of the Y.M.C.A., will remain another week. The visit of this strange and mysterious painting to Peterborough has without doubt awakened more general comment, conjecture and criticism eulogistic, than many occasions claiming a more momentous virtue.

The painting has been on exhibition for over thirteen years in which its mission has always been under the auspices and aid of creditable charities, benevolent, religious or educational institutions, claiming nothing supernatural or miraculous for its existence. To view this remarkable canvas is but to remark with the thousands; that to whatever law we may attribute its origin, it is indeed a most beautiful mysterious sight.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contain no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Sold by Druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.

LOTS IN ITOE A GOOD SPEC.

We take pleasure in calling the attention of our readers to the large half-page advertisement of the Welch Land Company, Union Bank Building Winnipeg, one of the most reputable lots are, we believe, a good investland companies of the West. The Poe ment, as this townsite is sure to be a winner. Prices of lots range from $50 to $100 each, and can be purchased on payment of one-tenth cash, and balance in eighteen equal monthly payments; a quarter cash, and balance in 6 for 18 months. These lots are likely to be rapidly advanced in price, so that they would appear to us to be a safe as well as an exceedingly profitable investment. A post card addressed to the company will get circular giving full information, or sign and return the coupon from the advertisement.

VOL XXXIV NO. 78 PETERBOROUGH, ONTARIO, MONDAY APRIL 3 1911 PRICE TWO CENTS

SLASHING CHANGE MADE IN THE GRAIN ACT

BY A VOTE OF 8 TO 5 THE SPECIAL SENATE COMMITTEE AMENDED IT.

May Be Thrown Out Now—Minneapolis Syndicate, Controlling Five Hundred Elevators, Were Opposed to It.

Ottawa, April 1.—By a majority of 8 to 3, the Special Senate Committee which has been hearing evidence on the new Grain Act for the past two weeks decided to strike out two clauses, 123 and 242, which were inserted largely at the wish of the Western farmers.

The first of these clauses provides that no person owning, operating, or being interested in an elevator shall buy or sell grain, or be interested in any other form of storage of grain. Clause 242 provides a fine of not less than five thousand dollars, or a term of imprisonment of not more than two years, on those who infringe the clause 123, who mix different grades of grain which is in storage at a terminal elevator, or make an untrue return. It states that all officers or persons interested in a corporation so offending shall be subject to these penalties, and any elevator in which such offence has been committed shall not be licensed or operated for one year.

The Peavey interests, which control about 500 elevators in Canada, with headquarters in Minneapolis, appeared through their representatives, A. L. Searle, F. B. Wells, F. T. Heffelfinger, and W. D. Douglas, against these clauses.

HELD RECEPTION FOR THE SHEFFIELD CHOIR

A reception was held in St. John's Church last night after the evening service, for the visiting Sheffield Choir. About 600 people were present and about 150 members of the choir. Coffee and cake was served and a very sociable hour was spent.

Speeches were made by Canon Davidson, Judge Huycke, Mr. John Crane and Mr. Richard Devey to which Dr. Coward replied on behalf of the choir.

Mr. A. E. Coulthard and Mr. W. Johnson, wardens of St. John's and the rector, who had charge of the affair, are to be congratulated and the citizens appreciate their kindness in affording them the opportunity of meeting the members of choir and joining in giving them a hearty welcome to our city.

The members of the choir were present during the evening service and the large congregation will not soon forget the marvelous manner in which they assisted in the singing. It was a treat that many will never forget. During the service St. John's choir sang selections from Stainer's (Crucifixion.)

THE POLICE MADE RAID AND BROKE UP THE GAME

About 11 o'clock on Saturday evening Chief Thompson, Detective Newhall and P. C. Meagher broke up a "quiet little game" that was in progress in what is alleged to be a local club's rooms on the west side of George street, in the business section of the city.

Chief Thompson and Detective Newhall made the raid while P. C. Meagher kept guard.

The officers quietly ascended the stairs and broke open the doors, capturing five citizens in the midst of a game. It is alleged that the officers secured the money, cards, etc., and landed their men to the station where they were admitted to bail.

TARGET SHOOTING CONTEST.

A Five-Handed Tie Shot Off on Saturday Night—Great Interest being Taken in Sport—A New and Novel Feature for the Shooters Next Week.

One of the best contests of the season was pulled off at Yeates Bros.' shooting gallery last week, five men being tie with a score of 58, and in the shoot off C. Gutterson carried off the box of Arabella cigars with 57 points. Following are the scores:

—Professional—

C. Gutterson	57
N. Perry	55
Wm. Gill	55
Mr. Gillespie	54
H. MacKay	56
A. C. Miller	57
R. Perry	56
E. White	56
R. LaPlante	56
W. Kennedy	55
C. Callaghan	55
D. Denne	55
L. McNally	55
T. D. Cole	55
D. O'Leary	54
F. Heffernan	54
W. Anglesey	54
Wm. Curtin	54
C. Mills	54
W. Hall	53
J. W. Cook	53

—Amateur—

In the amateur contest C. Mills with a score of 56 carried off the honors. The second price was won by J. Mevin through default of J. Reynolds, with a score of 55. The following are the scores:

C. Mills (box of Tuckett's)	56
J. Mevin (case pipe)	55
J. Reynolds (default)	55
E. Davies	54
G. Bain	54
P. Robson	54
C. Taylor	53
J. Murphy	53
G. Russell	53
L. Gilgour	52
J. Rose	52
W. Grady	52
Ed. Doxee	52
J. F. Bothwell	52
J. C. Claney	51
J. Coughlin	51
Jas. Wilson	51
A. Mewes	1
P. Hamlin	50
N. Thompson	50
P. Long	50

Every one has a chance in these contests and the prizes are well worth trying for.

A new and novel feature in the way of birds, rabbits, squirrels, etc. will be up as targets this coming week and will be a change from the ordinary bull's eye.

Constipation brings many ailments in its train, and is the primary cause of much sickness. Keep your bowels regular medium, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, but like many simple things, it may lead to serious consequences. Nature often needs a little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by all dealers.

5,000 MORE NEGROES COMING THE WEST IS GREATLY ALARMED

WINNIPEG AND EDMONTON ALREADY HAVE COLORED PROBLEM ON HAND.

Black Men Are Sports—Exodus From Oklahoma to Canada Growing at a Startling Rate.

Winnipeg, April 1.—It looks as if the West is going to have a colored problem on its hands. For several years there have been a number of negroes coming into the West. Winnipeg now has quite a large colony and there are large settlements in the vicinity of Edmonton. This spring the rush has developed into a regular tide of migration, which is rather alarming the West. This week a party of one hundred in two special trains passed through Emerson on the way to Emerson country, and they are the vanguard of 5,000 more from Oklahoma who are heading for the Western Eldorado.

TO NORTH COUNTRY.

This particular group are headed for the far north country, the district of the Lac la Biche, in the Peace River country. Previous settlers went closer to Edmonton, and there have already been protests to Ottawa against them. The present rush, however, is to the far distant country, and for that reason the protest is not likely to be very strong, though many Westerners fear it is laying up trouble for the future, and that if the Southern negro gets an idea there is a land of wealth in Western Canada, a land of easy picking, that there will be a rush to the West which will turn into what is almost a stampede. If the immigration stops now, or even stops at the five thousand said to be on the road, the West won't worry so much, but what the West does fear is that there will be a regular negro stampede on the prairie.

COLORED PROBLEM ALREADY.

That there is a colored problem right in Winnipeg to-day the Winnipeg Cricket Association is finding out. A cricket club has been formed by negroes from the West Indies resident in Winnipeg. They have played the game on the Southern Isles and want to pursue it here. They have applied for admission to the intermediate city league, and as a result a hot row is brewing in cricket circles. The question will have to be settled on April 10th, when the annual meeting takes place, and promises to precipitate the hottest debate cricketers have known for years. There are many who draw the color line and refuse absolutely to play with negroes, while others say as they are British subjects they should be allowed to play. It may even split up the the cricket association.

NINE PERMITS FOR MONTH OF MARCH.

No Great Rush Yet in Building Operations.

Nine permits were taken out at the office of the City Clerk during the past month of March and they are as follows:

Robert Elliott, erect, alter and enlarge house, Denison street, $400.

George Agnew, enlarge dwelling, Elm street, $30.

Wellington A. Boyd, erect dwelling, Lansdowne street, $2,000.

W. H. Meldrum, alter and repair dwelling, Water street, $1,400.

T. H. Herbert, erect dwelling, Maud street, $700.

J. Jackson, erect shed, Maud street $150.

H. Zacks, alter store, George street $300.

W. H. Moore, alter and enlarge hotel, Hunter street, $1,600.

Andrew Brotherson, enlarge dwelling, Concession street, $25.

WOMAN CONFESSES TO HELPING KILL HER HUSBAND

Special to The Times.

San Francisco, Cal., April 1.—The police announce that Mrs. Blanche Powell, widow of John D. Powell, who was found murdered near Santa Rosa recently, has confessed to Captain of Police Wall that she conspired with Dr. Chisholm to murder her husband. She is in jail here. Chisholm was held at Santa Rosa.

HYDRO-ELECTRIC PLANS TO MOVE EAST AND WEST

Toronto, April 1st.—The Ontario Government has decided to extend the Hydro-Electric power line from St. Thomas to Windsor, and to spend $2,000,000 on the work.

This new extension has been under consideration for some time, but an offer from Windsor Street Railway to supply power is the direct cause of the Government's decision.

The Government announcement was made yesterday afternoon, after a conference with Hon. Adam Beck.

The extension from St. Thomas to Windsor will be 128 miles long, with about 400 miles of high tension wire. The proposed line will supply a number of municipalities between the two cities. At least twenty-three have been discussing the power question, and Windsor may take 15,000 horse power.

The East is active also. The Hydro-Electric Commission arranged with the New York and Ontario Power Company to supply power for Eastern municipalities, such as Napanee, Kingston, Lansdowne, Brockville, Lynn, Prescott, Cardinal, Morrisburg and Athens.

Prices and other details will be laid before the Eastern Municipalities' Power Union next week at a meeting to be held in Brockville or Kingston.

In the North the Commission has closed a contract with the Simcoe Power Company, and the power will be transmitted to Penetanguishene, Midland, and Waubaushene.

WOODSTOCK YOUTH HANGED HIMSELF IN EMPLOYER'S BARN

Special to The Times.

Woodstock, Ont., April 1.—William Walton, aged 18 from the Stratford Boys' Home, was this morning found by his employer, J. R. Murray, concession seven, West Zorra, hanging to a beam in the barn, dead. The lad is said to have practiced the act some time ago, but it was thought he was in fun. He had been with Murray four years. No cause is known for the deed.

TWO LIBERAL PAPERS APPEAL TO DELEGATE

Montreal, April 1. (Special).—The joint appeal which the two Quebec Liberal newspapers, Le Soliel and Le Vigie, representing the two currents of Liberal thought in the ancient capital, have resolved to place at the disposition of the new papal delegate at Ottawa, is already in the hands of His Excellency Mgr. Stagni, who only arrived in the capital a few days ago.

It is understood that the document appealing from the mandement of his grace the Archbishop of Quebec was prepared by two of the leading lawyers of the country, and will review to a considerable extent the rights of newspapers in the Province of Quebec. After setting forth the chief points at issue, the two papers ask his excellency that the censure issued by Mgr. Begin be withdrawn, and the rights of newspapers be defined so that in future no such mandement can be issued by a Roman Catholic bishop. It is of the greatest interest to Roman Catholics that the delegate should be called upon to decide so grave a dispute at the very threshhold of his career in Canada, for irrespective of the decision to be rendered it goes without saying that a good deal of illfeeling and heartburning will follow the papal hat issued at Ottawa.

LEAVE YOUR GIFTS AT PLACES BELOW.

Where Contributions for His Majesty's Gift May be Left.

The following is a complete list of the places where subscriptions are being received for the King George fund, the names being given of the places in each ward:

East Ward—
T. B. Manieze's grocery.
J. Kerr's grocery.
Kylie's grocery.

West Ward —
Reilly's drug store.
Matthew's meat store.
E. Lillico's grocery.
G. Lynch's grocery.

Central Ward—
All the Banks.
Y.M.C.A.

North Ward—
Allison's grocery.
Curzon's grocery.
C. James' grocery.
Kerneghan's grocery.

South Ward—
J. J. Allison's grocery.
R. C. Braund's.
Mrs. Halpin's.
Geo. Coheen's.
C.G.E. Gatehouse.

These places are all convenient for residents of their vicinity and may be readily recognized by the large picture of King George mounted on a white card placed in a prominent position in the office building. Also subscribers are urged to sign their names as a record of subscribers will be kept.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Sold by Druggists. Price 75c per bottle.

Take Hall's Family Pills for Constipation.

BRITISH-AMERICAN TREATY REACHING FINAL STAGE

Special to The Times.

Washington, April 1.—The British-American arbitration treaty was rapidly advanced towards its final form at a long conference between President Taft, Ambassador Bryce, and Secretary of State Knox to-day at the White House.

Bryce remained with the President after Knox was called away, and the representative of England had a lengthy conference with the Chief Executive. According to diplomatic custom, the negotiators refused to discuss the progress of the work while negotiations were progressing satisfactorily.

Senator Smith of Michigan called at the White House to-day with a copy of the British-Japanese treaty, which, he said, he believed would prevent the consummation of the British-American arbitration treaty before 1915, when it expires. On behalf of President Taft, however, it was said that the Japanese treaty had been thoroughly considered and that it presented no difficulty that was insurmountable.

Continuing the negotiations of the arbitration treaty, Mr. Bryce and Chandler Anderson, Counsellor of the State Department, later held a lengthy conference, discussing some of the details of the proposed convention. Mr. Anderson is the international law expert of the department and to his care is committed the detailed writing of treaties. For this reason, the conference is generally regarded as an indication that the two Governments have about reached a general idea as to the provisions of the proposal to date as to the actual drafting of the document is about to begin.

Many difficulties remain to be overcome in writing the treaty for matters relating to national policy, such as the Monroe doctrine, or the right of Great Britain or the United States to govern any part of their domain, cannot be arbitrated. It is believed, however, that the question can be successfully eliminated and a treaty evolved which will be a substantial and definite step in the direction of international peace.

OBITUARY.

THE LATE MISS MARY KELLY.

After a prolonged illness, Miss Mary Kelly, 142 Maria street, passed away on Friday night, aged 82 years. The deceased was a life-long resident of Peterborough, and had no near relatives. Interment took place yesterday in St. Peter's cemetery.

GOVERNMENT POSITIONS FOR FATHERS OF THREE

SPANISH MINISTRY ABANDONS OFFICE

PREMIER CANALEJAS GIVES UP FIGHT AGAINST CATHOLIC OPPOSITION.

For Religious Reform—Ministry Held Office Fourteen Months—Encountered Bitter Opposition From Rome.

Madrid, April 1.—The Cabinet of Premier Canalejas resigned to-day.

The Canalejas Cabinet was formed on February 9, 1910, and re-organized on January 1 last. Canalejas, in forcing religious reforms encountered the bitter opposition of the Catholics and his course resulted in a practical suspension of diplomatic relations between the Government and the Vatican. The Premier, has, however, been credited with support of King Alfonso and his bill of associations aimed to regulate the religious and other societies which he refused to submit first to the Holy See, was approved unanimously by the Cabinet last Tuesday, and was to be introduced in the Cortes on April 6.

Novel Proposition to Stop Race Suicide Evil, Which is Rapidly Depopulating France.

Paris, April 1.—French statisticans have just taken a survey of population figures for sixty years, with results that have emphasized the fear among statesmen that the republic is doomed to descend in the rank of nations. Everybody new the low birthrate was alarming, but these figures show that whereas in 1851 France was second among the great powers in population, she now ranks only seventh, and Italy is elbowing her that place.

In 1,804,710 homes in France there is no child, in 2,966,171 there is only one. In some country districts there is a more general fecundity, but only just over half a million families have five children, and only eighty-nine couples in all France have reached the lofty total of seventeen offspring.

Schemes for improving the situation are many and varied. The latest is that M. Driant, deputy for Meurthe and Moselle, who is urging the Government to give certain positions in the Government service only to married men with at least three children.

WHITE SLAVERS THREATEN TO MURDER PUBLIC PROSECUTOR

Chicago, Ill., April 1.—An alleged "Black Hand" threat of death was made by telephone to-day to the prosecutor of a "white slave" case to-day.

Assistant U.S. District Attorney Hulburt, who has assisted in prosecuting Mrs. Santina Pizza on charges of luring an 18 year old girl to America from Italy, was called to the telephone to-day, and a voice in broken English said:

"When the case is called to-morrow, you are to quit it, see? If you don't you will receive a stiletto in the ribs."

The connection was broken at once and secret service men were unable to trace the call, it having been made during the busiest period of the day.

A LONG TRAMP IN THE FAR WEST

Peterborough Man Doing Important Work for Government.

Mr. Max Cameron, C.E., D.L.S., son of our esteemed fellow townsman Mr. John Cameron, of the Customs House, is on a big survey for the Government. The party will locate the dividing line between British Columbia and the Province of Alberta. They recently left Edmonton with a force of 21 men and 31 horses, the large number of horses being necessary to transport supplies. Six weeks' time will be required for the party to reach its destination, when the work of survey will begin.

ARE READY FOR BATTLE

DEBATE ON RECIPROCITY WILL BE RESUMED ON TUESDAY OR WEDNESDAY.

Rest Has Had Good Effect—Voters Throughout the Country Have Sized Up Measure—Farmers See the Danger.

Ottawa, March 31.—With a two months' supply bill to be introduced to-day or on Monday, decks are cleared for a resumption of the fight on reciprocity. It will occur probably on Tuesday or Wednesday. When it does start Mr. Bradbury, Conservative, has the floor. There are about 25 other speakers.

The rest from this vexatious issue has not been without its advantages. It has enabled the mass of voters throughout the country to size up the pact at its true value. The cities have long since done so; new evidence accumulates, that the rural voters, many of whom who were at first attached to the proposition, are seeing the error of their first judgment and coming out strongly against it.

Now that they understand it, every vestige of protection is removed from them, not only as against the United States, but against the whole world, the situation is being regarded in its true light. It is considered fortunate for the Government that no bye-election is pending, otherwise there would be furnished a concrete expression of opinion that would probably be very distasteful.

The little flurry over the leadership this week has cleared the air and made the Conservatives stronger than ever. New strength is promised in the advent of McBride and Mr. Rogers. There can be no question but that the Opposition will line up solidly on the issue and that whenever the Government sees fit to bring on the discussion again and as to that no great activity is displayed the scheme will be fought tooth and nail, even if it involves sitting half or all of the summer.

WEDDING BELLS.

Peel—Innes.

A wedding of local interest took place at Winnipeg on March 22nd, when W. H. Peel of that city was married to Miss Ethel M. Innes of Peterborough. Mr. and Mrs. Peel will reside in Winnipeg. Among the useful presents the bride received a set of silver knives and forks and desert spoons from the Colonial Weaving Company's employees, and the groom received a mantel clock and a pearl stick pin from his fellow workers.

THE WEATHER.

Little higher temperatere.

FORMER CITIZEN HELPS CHIMES FUND

Handsome Subscriptions From Western Canada.

Rev. Canon Davidson on Saturday received a cheque for a goodly sum of money, from Col. E. B. Edwards, of Edmonton. The amount was made up by contributions from the following citizens, who formerly resided in Peterborough: E. B. Edwards, C. S. Wallis, Harold Burnham and C. B. Beck.

The cash receipts for the fund now total $5740, and there are about $200 in subscriptions, which will be paid in.

OXFORD WON BOAT RACE

OXFORD CREW LACKED STYLE, BUT BROKE COURSE RECORD.

Clipped off 18 Seconds—Cantabs' Stroke All in at the Finish—Lifted Out of the Boat.

London, April 1.—Oxford won the annual Varsity boat race by two and a half boat lengths and established a new record for the four and a fourth mile course from Putney to Mortlake of 18 minutes and 29 seconds. The previous record was 18 minutes and 47 seconds, made by Oxford in 1863 and equalled by Cambridge in 1909.

Oxford won through the superior condition of her men and the magnificent work of R. C. Bourne, her stroke, who clearly strengthened his reputation to-day as being the best oarsman in England. Towards the close of the race the Cambridge stroke, Arbuthnot, seemed to tire, and the superior condition of the Oxonians enabled them to gain steadily during the last fifth of the distance.

Grape-Nuts
FOOD

tones and strengthens the digestion in a natural way,

It contains no medication but accomplishes its purpose by providing the necessary food elements in the right form.

Let a 10 days test of Grape-Nuts convince you.

"There's a Reason"

Canadian Postum Cereal Co., Ltd., Windsor, Ontario.

BRONCHITIS

COLDS, COUGHS, CATARRH AND THROAT TROUBLE.

Every sufferer from coughs, colds, bronchitis, and all throat and chest ailments needs a soothing, healing, medicine, which goes direct to the breathing organs in the chest and lungs, attacks the trouble at its source, disperses the germs of disease, and cures the ailment thoroughly. And this medicine is "Catarrhozone."

The germ-killing balsamic vapor mixes with the breath, descends through the throat, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. All parts are soothed with rich, pure, medicinal essences, whereas if a liquid or tablet remedy were used, the affected parts could not be reached, and harm would result through benumbing the stomach with drugs.

"CATARRHOZONE"

A Breathable 'Direct' Medicine.

No medicine brings such prompt relief, exerts such an invigorating influence, or so thoroughly and speedily cures throat troubles as "Catarrhozone." Doctors, hospitals, sanitariums—all say that for those who suffer from changeable weather, for those who are predisposed to catarrh long trouble, deafness, or bronchitis, no treatment is so indispensible as "Catarrhozone."

For certain cure, for relief in an hour, use Catarrhozone, the only direct, breathable medicine. Two months' treatment, guaranteed, price $1; smaller size, 50c; at all druggists, or the Catarrhozone Company, Kingston, Ont.

The Morning Times

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

MONDAY, APRIL 3rd, 1911.

THE UNEMPLOYED.

Even if it is true that "figures don't lie" it is equally certain that sometimes statistics do not tell the whole truth and nothing but the truth, as witness some government statistics just published which tend to show that in the United States there are more unemployed people than in any other nation on earth.

The official figures lately compiled show that thirty-nine per cent. only of the American people work. In Great Britain the percentage is 40 per cent. 3 in Hungary the percentage is 44.81; in Germany, 45.51; in Belgium, 46.08; in Italy, 50.11; in France, 51.27, and in Austria, 51.53 per cent. One might think, from these statistics, that the United States had more loafers than most countries, a statement that even the most superficial observer could refute.

The error in the combination lies in the fact that in foreign statistics women workers are counted to make up the total and, of course, there is a large proportion of feminine workers in the older countries. And a funny thing about these statistics is that they make no account of the American housewife; surely one of the hardest and most faithful working-class in the nation.

Tabular statistics may stigmatize her as one of the unemployed, but we all know better. We know that the dinner does not get cooked, the piano dusted, the socks darned or the children's faces washed without some labor, and that of a pretty strenuous sort. To call the American housewife unemployed is to give the lie to that old and true couplet:

Man works from sun to sun,
But woman's work is never done.

Listing her among the unemployed, indeed!

Bugs are reported to have damaged this year's peach crop in the United States to the extent of $8,000,000. We sometimes wonder whether the country would be able to stagger along under the burden of its peach crop if the peaches were to escape being damaged by frosts and bugs.

The Secretary of the U. S. Navy announces that Congress will be asked to authorize the building of a 30,000-ton battleship. Thus another heavy blow will be struck in the interests of peace.

A Frenchman claims to have discovered a process which enables him to make paper automobile tires which are resilient and proof against punctures. Well, it is only to be expected that the automobile will be placed within the reach of all just as the aeroplane is ready for practical purposes.

YOUNG MR. HOPPER

By G. P. Burgin

"There's only one young man in Four Corners worth ropin' in," said Sarsprilla, turning her sweet blue eyes upon her father, Tollevents Thompson. "Every night, he comes hoppin' down the road like a sheared hen, gits a look at the nine of us, and clucks back agin."

"S'lina!" called Tollevents.

The merry voice of the girl in the kitchen suddenly ceased. She put on her gipsy face (Selina was the only dark one of the ten; all the others were "Blue-eyed as is the morn") and looked round composedly. "Wha the fuss, Dad?"

"Bring me a bowl of water," said Tollevents determinedly; "and some soft soap."

Selina affected to be thunderstruck. "Don't be rash at your time of life, Dad. 'Taint Sunday."

The innuendo that he never washed save on Sunday, roused Tollevents to his full height. "And a biled shirt," he added sternly, disdaining to bandy words with his youngest offspring.

Selina hastily returned with a bowl of water and some soap, put the bowl on the top of a "brump," and threw her father a towel as rough as "Gran's" hand.

Decorum prescribed the sudden retirement of Tollevents into that part of the shack which was by courtesy called a bedroom, where he might don his clothes. Meantime, the girls waited, wondered, and giggled every few moments at this sudden accession of energy on the part of their sire.

"Looks, though he is a deacon, 'alf he wanted to git religion again," audibly suggested Semanda.

"Looks to me 'alf you'll git something you ain't bargainin' for," said Tollevents grimly, thrusting his head around the corner. "Thar ain't no buttons on this yer biled rag."

Selina, ever prompt, was on the spot in a moment, with shirt buttons.

Tollevents tied a black handkerchief loosely around his collar, and took down his gun, which he loaded with unusual care, the girls watching him apprehensively the while. When he put in an extra allowance of buckshot, Selina remonstrated with him.

"Thar's only one young man, wuth marryin' in Four Corners just now, Dad. Don't waste him."

"This yer alleged marryin' man," said Tollevents, carefully resting the gun against the veranda, "comes down this yer road 'alf it belonged to him. It b'longs to me; and I'm goin' to drive the truth into him."

"Not with buckshot," implored Selina, turning a little pale.

Tollevents rested his gun in a fork of the lilacs which grew greenly around the veranda, brought out his Bible turned to his favorite chapter wherein many Amalekites were slaughtered, and read it with gusto.

Selina, noting that her sisters, obeying a hint from Tollevents, were all attired in their Sunday best, laughed mirthfully. "Dad 'ill scare the life out of him," she said gaily.

"You, Hopper! Stop!" cried Tollevents, as young Mr. Hopper came rapidly abreast of the house.

Mr. Hopper caught the glint of a gun barrel. The sun set fair behind the gloomy hills. Ranged in a row on the veranda were nine fair girls. At the end of the veranda stood Tollevents, tall, gaunt, thin, clad in his Sunday best, leaning carelessly on the shot gun.

"Wishful to speak to me?" jauntily inquired young Mr. Hopper. "You ain't turned road agent, Deacon?"

The Deacon cleared his throat. "It's a sin and disgrace you ain't married. You're the oldest young man in Four Corners, and all the others is waitin' for you to give 'em a lead. Yet you come sailin' along this yer road night arter night, and shuffles by like a ground-hog 'ithout raisin' your eyes to all these yer—these yer fair young flowers," he added, with a touch of parental poesy. "Which one is it?"

"Ain't you takin' it too much for settled?" asked young Mr. Hopper.

"I'm a man of few words." Tollevents raised his gun carelessly to the level. "Here's nine gals all of a row. Which is it?"

Mr. Hopper bowed gracefully to the young ladies on the veranda. "Any one of 'em? I ain't worthy of it, Deacon."

"Any one of 'em. You ain't worthy; but it's the best I can do for 'em," said the Deacon firmly. "Which?"

They were girls whose beauty would have gladdened the heart of an anchorite.

Young Mr. Hopper surveyed them carefully, then turned to Tollevents. "See here, he said, severely. "Ain't you 'shamed of yourself, Deacon, to go puttin' such a slight on 'em? If I married one, what will the eight others do?"

"You leave that to me. Which?" ominously repeated the Deacon. "Tain't no business of yours."

Young Mr. Hopper walked down the veranda, feeling that Tollevents' gun covered his manly back. "Can't I go home and think it over?" he asked, when he had come to the end of the row.

"You can go home; and take a load of buckshot with you, if that'll help you to think," said Tollevents.

Young Mr. Hopper came back to the top of the row, then shook his head. "They're all too much alike. I'd git mixed up and never know t'other from which. 'Tain't fair, Deacon."

"I don't want to shoot you in a hurry," said the Deacon. "No one can't say I ain't a just, reasonable, tender-hearted, God-fearing, help-my-neighbor kind of man. 'Tain't my fault they're all alike; but you've got to take one of 'em."

Young Mr. Hopper shook his head. "Can't be done. I don't mind marryin', but I can't git mixed up like this. It's wuss'n bigamy."

Tollevents took deliberate aim at him. "I'm sorry to have to do it," he said gently, "and your mother, bein' a widder, 'ill curse me for removin' my neighbor's landmark, so to speak; but I've got to make an example of you."

There was a wild shriek as Selina threw herself between them. "Guess you'll have to hit me first," she cried, choking with laughter and tears.

Camorra is Not Collecting in Canada

Montreal, March 30.—Mr. L. Scalsi Consul-General for Italy in Canada, to-day denied a report that money was being raised under the threat of death from Italians in Canadian cities by agents of the Camorra for the defence of the members of the society now on trial at Viterbo, Italy. He said: "I do not believe that any such fund is being raised in Canada, but the personal friends of some one interested in the men on trial may have taken up a sort of family collection. I do not believe that the agents of the Camorra are at work however."

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead, in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Trunk Pacific Ry. Points.

In connection with settlers and round trip homeseekers excursions to the West on April 4th the Grand Trunk Ry. Coy., will run a special through train from Toronto to Edmonton, leaving Toronto at 11 p.m., April 4th via Chicago, St. Paul and Winnipeg without change, arriving at Edmonton 7 p.m., April 7th. This train will carry Pullman Tourist sleeping cars with porter in charge. Berth rate to Winnipeg will be $3.75 for lower and $3.00 for upper. To Edmonton lower berth will be $6.15 and the upper $5.40. Mr. McCutcheon, commissioner for the Alberta government along with our travelling passenger agent will accompany same to see there is no trouble or delay and to look after the interests of the passengers. Consult City Ticket Agent Grand Trunk Ry. for rates, reservations and full particulars.

ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

'FALL WHEAT IN EXCELLENT SHAPE

ESTIMATE INCREASED ACREAGE AT FROM TEN TO FIFTY PER CENT.

Saskatchewan Advances—Mill Men and Grain Exchange Members Say Outlook is most Satisfactory.

Winnipeg, March 31.—Careful investigation by local grain exchange members, by mill men, and reports from Minneapolis and Chicago show most satisfactory agricultural conditions in the Canadian West to-day.

Fall wheat reported in excellent shape in both Northern and Southern Alberta, having come through the winter well. There is considerable increase in acreage. Experiments with fall wheat in some parts of Manitoba are also promising.

The opening character of last fall resulted in a big amount of fall plowing, though this would have been still further increased had it not been for continued drought. But heavy and frequent snow falls which have had a chance to soak well in have removed the danger.

It is difficult to estimate how much new land was broken last year, for seeding this spring, but the area must have been very considerable, especially in Saskatchewan, where entirely new districts have been brought under the plow. Speaking by districts estimates of increased acreage to be seeded to spring wheat run from ten all the way up to fifty per cent.

OVER A THOUSAND SAID TO HAVE FALLEN IN BATTLE IN MEXICO

El Paso, Texas, March 31.—The bloodiest battle of the Mexican revolution is reported raging around the town of Ures, State of Sonora. One thousand are said to be dead. Ures has fallen into the hands of the revolutionists, and the nearby town of San Rafael has been sacked and destroyed. The Federals are encamped about Ures and a long battle is being fought, while both sides are waiting for reinforcements.

Many women and children are said to have perished in the bombardment of the town. The battle, which was started on Monday, when the rebels marched upon Ures, has been in progress ever since, the federals making several attacks in attempts to recapture the town after it fell.

The insurrectos trapped 25 federals in the municipal buildings, they pouring a galling fire into the structure, killing all of them. The regulars fought gallantly to their death.

By forced marches the insurrectos surprised the regular troops and a hand to hand battle in the streets of the town ensued.

In the march upon Ures the rebels attacked the town of San Rafael, burning a large portion of it, looting stores and public buildings, carrying away a large quantity of foodstuffs and arms and ammunition.

AN OPEN LETTER FROM A SPARTA PASTOR TO SIR WILFRID LAURIER

I do hereby challenge Sir Wilfrid Laurier and his Cabinet to give the electors of Canada the names of American politicians who advocate friendship with Great Britain

By politician he it understood is meant anyone occupying a position, high or low, the result of an election at the polls, by the ballots of the voters. Kindly give us the names, and please inform us what they have said or written, advocating the said friendship.

For many years past I have challenged leading men on this point. Politicians and University Professors, and even one who was a member of Sir Wilfrid's Cabinet.

The Hon. Cabinet Minister alone attempted to reply. After a few moment's reflection, he said, "Why, yes, Why the Hon. Hay, late Secretary of State." I replied, "Yes, I know if you named any man that he was the only one you would."

"Now please tell me what has Secretary Hay said or written favoring friendship with Great Britain?" The Minister replied, "He has not said anything, but he is friendly." My reply was, "I know that, so are many of the best and most intelligent Americans, but not a single politician among them dare advocate friendship, for either his resignation would be demanded, or he would have no show at the next election."

My point is simply this: Until politicians in the United States can freely speak or write in favor of friendship with Great Britain, it is not safe for Canada to enter into the proposed trade agreement, when it is generally known and admitted south of the line that the object and purpose of the said agreement is the absorption or annexation of Canada.

Yours respectfully,
A. E. de St. DALMAS.
Baptist Parsonage, Sparta, Ont.

THE WEAKER NATIONS ARE PREY OF THE STRONG

Berlin, March 31.—In the Reichstag yesterday, Count Kanitz, leader of the House of Conservatives, devoted much of his address to the United States.

Herr Basserman, the Liberal leader, said the purpose of England to ensure for herself the supremacy of the sea was clear. The suggestion, therefore of an understanding as to armaments could only be viewed by Germany with misgiving?

Dr. von Bethmann-Hollweg, the Imperial Chancellor, declared that an agreement with England in regard to armaments was impossible, because no practicable basis for such an understanding was, in the opinion of Germany, attainable.

Continuing, the Imperial Chancellor said England had frequently expressed the view publicly, privately, and officially that she must possess a fleet so strong as to be equal or superior to any possible hostile combination. It was England's right, the Chancellor declared, to set up such a principle, but it was a principle which no self-respecting foreign power could afford to recognize for itself. If England came to a working agreement with such a program, said Dr. Bethmann-Hollweg, we would have to reckon on an almost certain rebuff.

A nation, said the Imperial Chancellor, must maintain its sea and land forces at such a point as responds with its national strength. Germany cannot afford to bind herself to limit armaments, because she would thereby run the risk of forfeiting her present place among the powers to some stronger nation that is willing to take it and Germans would henceforth play the role of mere dummies in world affairs.

The Chancellor said that it was not Germany's province to suggest to either America ar England what practical worth a compulsory arbitration treaty would have, but in his opinion a world embracing treaty was an impossible of realization as a disarmament agreement.

O K
The Food Drink

Many people drink O'Keefe's "Special Extra Mild" Ale solely for its food properties. Being brewed of finest hops and malt, it contains all the body and brain building elements of these grains. It is because we use the best, that

O'Keefe's
Special Extra Mild ALE

is so rich and creamy—so thoroughly enjoyable—as well as so nutritious and wholesome. It's "extra mild" remember, and never makes you bilious. In Crown stoppered bottles. No broken cork or tinfoil in the glass.

"The flavor that is ALWAYS O.K."

There have been a series of consultations over the Marquis of Lansdowne's reform scheme and the referendum bill prepared by Lord Balfour of Burleigh. Lord Halsbury, while still hostile to the conversion of the hereditary into a semi-elective chamber, advocates the referendum bill, which will be carried to its second reading this week, Lord Haldane making his first important speech as a peer against it.

ADVERTISE IN THE TIMES.

AGAINST THE HOUSE OF COMMONS BILL TO ABOLISH THE VETO.

New York, March 27.—A London cable to the Tribune says:

The peers are determined to make a stand against the House of Commons bill to abolish the veto when it reaches the committee stage.

THE INDIAN AS A STUDENT

Average Attendance is Higher In Unorganized Northwest

In the report which has just been issued by the Department of Indian Affairs, the statistics of attendance at Indian schools show that enrolled Indian pupils in the Western provinces attend school more steadily than do enrolled Indian pupils in the Eastern provinces. Ontario has 2,966 pupils enrolled, British Columbia 1,985, and Manitoba, Northwest provinces, etc., have 4,149. Ontario, it will be noted, has an average attendance of enrolled Indian pupils of 52.57 per cent., while British Columbia has 63.37 per cent. But Saskatchewan maintains an average attendance of 80.81 per cent. of her enrolment of 1,251, and Manitoba's average is 69.41 per cent. of 1,759 enrolled pupils. The unorganized notchers in this respect, for with an enrolment of 162 Indian pupils in five schools—three of which are boarding schools—the average attendance is 98.42 per cent. Probably the boarding and industrial schools are responsible for the better average, for in Ontario there are nine of these schools and 78 day schools. Alberta maintains a high average attendance of 76.97 per cent., with 933 pupils enrolled. In New Brunswick there are nine day schools, and the average attendance of 222 Indian pupils was 60.81 per cent. Prince Edward Island has a solitary day school with 42 pupils enrolled, and average attendance was 18, or 42.86 per cent. The total enrolment in Indian schools for the year was 10,625, and the percentage of average attendance 62.36 per cent. for all Canada.

CATCHY CONUNDRUMS

What chemical salt is like a foolish girl?—Silicate.

What do you see people drink broth with?—Your eyes.

When does a ship beat the wind?—When it sails before it.

What is the best saddle for cavalry?—Saddle of mutton.

What is the easiest thing for a negro to do?—To keep dark.

Why is a prudent man a deformity?—Because he is beforehand.

What vegetables most resemble a lady's tongue?—A scarlet runner.

When is a rifle like a news receiver?—When it has a fresh bullet in it.

Why are cars unlike earthenware?—Because their brakes leave no pieces.

What is the strongest day in the week?—Sunday, because all the rest are week days.

Why is it wrong to pay for poetry by the line?—Because it is a per-verse reckoning.

Why may blacksmiths be considered dishonest?—Because they are given to forging.

Why are crystals like imaginary soldiers?—Because they shoot without gun or ammunition.

Which travels at the greatest speed, heat or cold?—Heat, because you can easily catch cold.

Who was the first man mentioned in the Bible to have real estate in his own name?—Lot.

Why is a coach going down hill like St. George?—Because it's always drawn with the drag-on.

What place in England does all the butter that is carried to London markets come from?—Cowes.

Why is an insurance policy a queer thing?—If I can't sell it I can-cel it, and if I can-cel it I can't sell it.

What is the difference between a lady and a postage stamp?—She is a female, and the other is a mail fee.

What is the difference between a hen and an idle musician?—One lays at pleasure; the other plays at leisure.

MAXIMS AND MORALIZINGS

Shun delays; they breed remorse.—Napoleon.

The unerring school for the direction of taste is nature.—H. E. Rensburg.

There are as many ways of being happy as there are people in the world.—Edwin Pugh.

There is one secret a woman can keep: the fact that she is not loved.—Walter Pulitzer.

A fool always wants to shorten space and time; a wise man wants to lengthen both.—Ruskin.

Ladies and gentlemen are permitted to have friends in the kennel, but not in the kitchen.—G. Bernard Shaw.

Deathly Cramps Stomach was Bloated

A Bad Case That Proves Cramps and Stomach Disorders are Cured Fast by Nerviline.

"The distress I suffered from cramps last summer was so severe I thought it meant death," writes P. R. Emerson, of Guys Hill P.O. "I was doubled up with pain and in such bad shape I couldn't walk a hundred feet. I remembered having Nerviline on hand and took half a teaspoonful in sweetened water. In five minutes I was well and my stomach derangement disappeared entirely."

For cramps, flatulence, diarrhoea, and disorders of the stomach and bowels, Nerviline knows no equal—one million bottles used every year—fifty years on the market, that's proof enough of its merit. Large 25c bottles, five for $1.00. All dealers or the Catarrhozone Company, Kingston, Ont.

The Morning Times
PETERBOROUGH, ONTARIO

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTER.

Two Fine Autos.

Mayor Morrow and Messrs. McIntyre and Weir, each have purchased fine autos from Mr. J. J. Duffus, agent for the Ford Company.

Y.M.C.A. Basket Ball.

The Central Y.M.C.A. of Toronto, are coming here on Good Friday to play a basketball match against a picked team from the Collegiate and business boys' classes.

Sheffield Choir Arrived Yesterday.

The Sheffield Choir arrived here early yesterday on their special C.P.R. train. A large number of citizens visited the station to get a glimpse of the famous choir of over 200 persons.

Do You Get Your Times?

Times' readers will confer a favor upon the management by promptly reporting to The Times office any irregularities in the delivery of their paper. All communications of this nature will be given prompt attention.

A Fine Car.

Mr. F. W. Doan, district superintendent of the Bell Telephone Company, purchased a fine new Everett car while attending the automobile exhibition in Toronto in March. The car is now at work, and is very satisfactory. It will seat four persons, exclusive of the driver.

Painful Accident.

Mrs. Frank Letevre, of 472 Elm street, residing with her daughter, Mrs. E. Lawrence, had the misfortune to fall, dislocating her wrist. Dr. Marshall was called in and she is progressing very nicely under his care, but it will be some time before she has the use of her hand.

Saved by An Umbrella.

Snow falling from the roof of a Hunter street store yesterday, landed on the top of an umbrella, being carried by a lady, and thus saved a fine new Easter bonnet from destruction.

Buildings Thrown Open.

The Sheffield Choir on their arrival and during their stay in Peterborough are given the freedom of the Y.M.C.A. and Y.W.C.A. buildings, the secretary of the two institutions having very kindly thrown open the building.

In cases of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale by all dealers.

P. P. Home.

The Board of Management of the Peterboro Protestant Home gratefully acknowledge the following donations:—A Friend, Quilt and Clothing Mrs. Dr. Burnham, Toronto papers; Miss Savigny, Reading matter; Hardware Convention, Oranges, Bananas, Sandwiches and Cake; George-street Methodist Church, Cake; Mrs. Hazen Kitchie, Ice Cream: Mrs. Sherwood, Clothing and Magazines: Mrs. Ryerson, Kitchie, Vegetables; Miss Dickson, Reading matter. Mrs. Madill, Clothing; Marks Bros., Potatoes.

Should be Warning.

Magistrate Moore at Fenelon Falls on Monday imposed a fine of $25 and costs $6.65, on a man who supplied whiskey to a person on the Indian list. The previous week the recipient of the liquor was taxed $10 and costs $7.50, or one month for being under the influence of liquor, making a total of nearly $50 for the two infractions of the law. The severity of the penalties shows that the offences are more serious than was generally supposed.

Saturday's Market.

There was a large attendance at the market on Saturday. The following were the prevailing prices:—
Eggs, 17c and 18c.
Butter, 27c.
Potatoes, 90c.
Chickens 70c and 75c each.
Beef, 8c and 9c.
Pork, 9c and 10c.
Live Piglets, $8 pair.
Maple Syrup, $1.50 gallon.

Both Quite Ill.

The many friends of Mr. and Mrs. Steven Payne, 549 Harvey street, will be sorry to learn that they are both quite ill. Mrs. Payne has been poorly for some months, but was able to move around the house. Mr. Payne was taken down with La Grippe about a week ago, and Mrs. Payne suffered a relapse on Friday, so that both are confined to their beds. Their son-in-law and daughter are taking care of them. Mr. Payne is 86 years of age and Mrs. Payne a few years younger.

A Bad Fall.

A young man who was very drunk took a nasty fall on the corner of Hunter and George streets on Saturday at noon. He was going across the street when he fell in the mud, putting his clothes in an awful shape. He had been selling wad pads at the houses in the city, stating that he wanted to earn enough for an operation on his paralyzed foot—the operation will likely be postponed.

Lame Shoulder is nearly always due to rheumatism of the muscles, and quickly yields to the free application of Chamberlain's Liniment. For sale by all dealers.

Commissioner Rees to Come.

On Saturday and Sunday next, Commissioner Rees, in charge of the Salvation Army in Canada, Newfoundland and the Bermudas, will conduct a series of social meetings in the S.A. Temple here. He will be accompanied by Col. Mapp, chief secretary; Lieut. Col. Pugmire who is in charge of the prison work; Major Findlay, private secretary to Commissioner and Brigadier Hargrave, provincial commander East Ontario and Quebec Province. The program of meetings which will include a great welcome platform meeting on Sunday afternoon, will be announced later.

The Public Safety.

The Attorney General caused a change in the Criminal Code which will have to be noted by sellers of revolvers, air guns and bowie-knives. The Bill that was passed is to the effect that every person who sells any bowie-knife, dirk, dagger, metal knuckles, skull cracker or slung shot, or who sells a revolver, pistol or air gun to any person other than one holding a certificate issued under section 118 of the Criminal Code, or one being over 18 years of age, who produces to and leaves with the vendor a permit in writing, signed by the Superintendent of Provincial Police, or a Chief Constable of the Municipality, allowing him to purchase a revolver, pistol or air gun, shall be guilty of an offence and liable on summary conviction to a penalty not exceeding $200 or less than $25.

New Teacher at Collegiate.

Seaforth Expositor:—The Huron Expositor of Seaforth says: Mr. G. F. Colling, B.A., who has been mathematical master in Seaforth Collegiate Institute for a number of years has resigned his position here to accept a situation in the Peterborough Collegiate, at a considerably higher salary. It will be a matter of general regret to those interested in our Collegiate that Mr. Collings has decided to leave Seaforth, as he is recognized as one of the leading mathematical specialists in the province and it was due in no small degree to his teaching that so many scholarships have come to the pupils of the Seaforth Collegiate. He has previously had several tempting offers to go to Toronto and other large centres, but has hitherto preferred to remain in Seaforth. Mr. Colling assumes his new duties on the 1st of May.

How Orillia Gets Industries.

News Letter: Mayor Frost received a letter this morning from a large wooden-ware manufacturing company of Toronto, inquiring about a location at Orillia. This firm which is a well-known one, are leaving Toronto, and would like to come to Orillia if satisfactory arrangements can be made. They need a building of $20,000 sq. feet floor space. Orillia, with its three railways and cheap power is bound to get more manufacturing establishments.

Route Boys Wanted.

A couple of good reliable boys wanted at The Times office to carry morning routes. Wages $1 per week.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mrs. Allen Kidd, of Frazerville, was in the town on Saturday.

Mr. Geo. L. Stevens was in Lindsay on Saturday on business.

Mr. Burritt Rose, G.T.R. up-town ticket agent, spent Sunday in Toronto.

Mrs. C. Edwards, of Edmonton, Alta., is the guest of her mother, Mrs. E. Pearce, 387 Walton street.

Mr. H. M. Gilchrist, secretary of the Y.M.C.A., is again able to be out after a short illness.

Mr. and Mrs. W. C. Coo, of London were the guests of Mrs. H. M. Harper, 334 Downie street, over Sunday.

Miss M. E. Harper, of Cobourg, is visiting Mrs. H. M. Harper, 334 Downie street.

Mr. W. F. Skitch, manager of the local Canadian Express Co., went to Lindsay on Saturday.

Mrs. H. S. Carpenter and three children, who have been spending the winter with their father, Mr. John Cameron, 441 Reid street, left on Saturday for their home in Regina.

LITTLE LOCAL LINES

Rev. C. H. Coon and Rev. I Couch exchanged pulpits yesterday morning.

The sweet voice of Miss Carrie Reesor, former soloist of the church was again heard in George street church yesterday.

Mr. James Girven, the new market clerk, entered upon his duties on Saturday. He had his hands full, the attendance being very large, but got through without a hitch.

The Boy Scout movement in Peterborough is attaining big proportions. The boys seem to have the right kind of enthusiasm to make it a success.

The West Peterborough Agricultural Society purpose holding another stallion and bull show here in the latter part of April.

It is expected that the Government dredge will go down the river to-day as far as the T.A.S. Park, where some dredging is to be done.

There was considerable maple syrup for sale on the market on Saturday. Prices ranged from $1.40 to $1.60 per gallon.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

A GOOD SUGGESTION.

Editor Morning Times.

Sir,—That is a splendid suggestion made in a letter to the Examiner the other day, by "One of the George's," to the effect that a couple of cots in the Muskoka Sanitarium would be a monument to the King that would never die. The Georges would be doing themselves proud if they will follow the suggestion.

—Another George.

THE STATE SUPREME.

Editor Morning Times.

Sir,—Your correspondent "Real Tolerance" seems to think that the Roman Church has a right to say what laws it shall make for its own people. This is a mistake. The State makes the laws and these are the laws that the people must obey. Other so-called laws are merely regulations or rules of a society or institution, but even they must not conflict with the laws of a State. If people or institutions do not like a State's laws they can go somewhere else. If the State says that people united by a minister are married, no institution is at liberty to set what the State says at defiance. The State is supreme, and its laws are supreme good or bad, and don't forget it.

—One of The People.

PLEASED WITH THE TIMES.

Editor Morning Times.

Sir,—Permit me to congratulate you, Mr. Editor, on the improvements, which you have recently made in the Times. Saturday's issue was as full of news as an egg is full of meat. But best of all, the paper is not afraid to speak out when public matters require plain language. It is time we had a journal that is free from political entanglements and not under the heel of any church or society. Keep right on, and complete success is sure to follow. Kindly put me down as a subscriber, and send me the bill for same, and I will at once remit.

—Samuel Maynard.

GOVERNMENT BY COMMISSION.

Editor Morning Times.

Sir,—Some months ago I had the pleasure of listening to an able address on the commission form of city government by our fellow townsman, Mr. W. H. Moore, K.C., and was much struck with the plan. I believe that any change in the form of municipal government would be preferable to the present system.

I think this is a subject that should be taken up by the press and Board of Trade. What do you think, Mr. Editor.

Lower Taxes.

AGRICULTURAL SOCIETY GRANT.

Editor Morning Times.

Sir,—I see by a letter which appeared in a local evening paper, that cities are privileged to grant $5000 to Agricultural Societies. I was amazed when I read this, for I do not think that any sane man would for a moment regard favorably any grant being made for such a purpose. It is not because I do not believe Agricultural fairs should be encouraged that I say this, but I think the County Council is the body to make a grant, if money is to be given. It is the farmer who gets the benefit and it is the farmer and stock raiser who should pay for it. The tax payers of this city are not concerned in the matter, that I can see, except that the hotels may profit a few dollars by the show being held here.

The Council will have to go slow in this matter or they will be totally discredited by their constituents.

—Economy.

Most everything you do is helped by it!

It is fine before eating! It gives appetite!
It is fine after eating! It helps digestion!
It is fine for teeth! It makes them clean!
It is fine for breath! It makes it sweet!

And it's the most soothing occupation known!

THE MINES DEVELOPING MACHINE WILL BE INCORPORATED

It is One of the Greatest Inventions of the Age for the Speedy Development of Mines

A device which will, when installed, be the means of placing hundreds of mining properties, now laying idle, on a producing and dividend paying basis. It will develop a mine in months where it now requires years. It will be the means of bringing sure and quick returns on mine investments which are now slow on account of the long time required to either reach the ore bodies or develop them to an extent which admits of productions on a large scale.

IT CAN BE USED IN ALL MINING REGIONS.
IT CAN BE USED IN DRIVING IRRIGATION TUNNELS.
IT CAN BE USED IN DRIVING TRANSPORTATION TUNNELS.
IT CAN BE USED IN DRIVING DRIFTS AND UPRAISES IN MINES AND IT WILL WORK IN ALL KINDS OF FORMATION.
IT DRIVES A COMPLETE TUNNEL, DRIFT OR UPRAISE, AND SHAPES ITS WORK ON A SCIENTIFIC PRINCIPLE.

Contracts have already been signed for the use of enough of these machines to keep a large factory busy building them for many months, and I predict that before 5 years many hundred of them will be in use.

A corporation will be organized within a short time to own and handle the machine, and it will be capitalized for $1,000,000 divided into 1,000,000 shares. One-half of the stock will be placed in the company's treasury.

YOU CAN NOW BUY PRE-ORGANIZATION STOCK AT 25c PER SHARE (either for cash or ten-payment installments) BUT YOU CANNOT BUY IT FOR LESS THAN 50c PER SHARE AFTER THE INCORPORATION TAKES PLACE.

GET IN ON THE GROUND FLOOR IN THIS ENTERPRISE. TAKE ADVANTAGE OF THE PRE-ORGANIZATION OFFER NOW.

VOL XXXIV NO. 76 PETERBOROUGH, ONTARIO, TUESDAY APRIL 4 1911 PRICE TWO CENTS

CITY FATHERS IN REGULAR MONTHLY SESSION LAST NIGHT

THE BONNER - WORTH BY-LAW PASSED ITS THIRD AND LAST READING.

Contractor Conroy Assigns His Contract for Pumping Station to Jas. Bogue Owing to Ill Health.

The City Fathers met in regular monthly session last night. There were present Mayor Morrow, Aldermen Morgan, Anderson, Graham, Kerneghan, Brown, Edgar, Metheral, Duncan and Buller.

TO TRANSFER CONTRACT.

F. Conroy wrote that owing to ill health, he does not feel able to continue his contract re the south end pumping station, which he wished to transfer to Mr. Jas. Bogue, who had given his consent to assume the same.

On resolution of Ald. Metheral, seconded by Ald. Buller, Mr. Conroy was relieved of his contract on the understanding that Mr. Bogue signs an agreement to finish this work, and Mr. Conroy gives satisfactory security for the satisfactory completion of the same.

Mr. Conroy is leaving town at once for the benefit of his health.

INVITED TO RECEPTION.

The Salvation Army invited the Mayor and Council to attend the reception to be tendered Commissioner Rees at the Temple on Sunday afternoon. This invitation was accepted, although his worship will be out of town.

A SEPTIC TANK.

The Dickson Co. wrote, asking for the City's early assurance that a septic tank will be built to accommodate the Harvey-Waterford streets district. Prospects are bright for considerable building on this property this year, hence the request. This matter was referred to the Board of Works for further consideration, as Council needs conviction that this septic tank would not be declared a nuisance.

A communication from the local medical association notified Council that Dr. Boucher had been appointed the association's member on the Isolation Hospital Board.

S. A. BAND WANT $250.

The Salvation Army Band's requisition for their annual grant of $250 was referred to the Finance Committee.

SITE FOR HOUSE OF REFUGE.

The clerk was instructed to notify the Protestant Home Board that the Council, or a committee of same, will be pleased to meet the former with a view to selecting a site for the new Protestant Home or House of Refuge. The City's property at the termination of Water street north, known as the old Hilliard farm, has been suggested as offering a desirable site for this new building.

REPORTS OF COMMITTEES.

The following chairmen reported the work of their committees during the month, which has been already published:—

Ald. Duncan, that of the Property Committee.

Ald. Metheral, that of the Board of Works. On motion of Ald. Metheral a sidewalk will be built on north of Townsend street from Park street, 700 feet west.

On motion of Ald. Morgan, the city will advertise the construction of a sewer in East City, on Concession street, from the present sewer on Douro street to Carlisle avenue and onward for about 255 feet.

Ald. Metheral submitted the reports of the Committee of the whole Council.

Ald. Graham subitted the report of the legal committee.

Ald. Anderson submitted the Finance Committee's report, recommending a grant of $25 for the National Sanitarium Association for the Muskoka Free Hospital for Consumptives and the payment of a number of accounts.

PASSING OF BY-LAWS.

A number of by-laws authorizing the execution of local improvements recommended by the Board of Works passed their several readings.

A by-law to authorize the execution of an agreement with R. Hicks for Portland Cement, on the lines previously published, passed its several readings.

The Bonner Worth by-law passed its third reading

A by-law to authorize the execution of an agreement with John A. Williams for a refuse ground passed its several readings.

A by-law authorizing the execution of an agreement with Aaron Comstock for the care and service of the Dan Spence Ambulance.—Carried.

HOSPITAL MATTERS.

Moved by Ald. Metheral, seconded by Ald. Brown.—That salaries and supplies for the Isolation Hospital be paid on certificate of the chairman of the Property Committee until such time as the Hospital Board is formed.—Carried.

Moved by Ald. Graham, seconded by Ald. Morgan,—That the matter of building porches and drains at the Isolation Hospital be left with the chairman of the Property Committee with the power to act.—Carried.

Moved by Ald. Duncan, seconded by Ald. Buller,—That Ald Bradburn be granted six weeks' extension of his leave of absence.—Carried.

Moved by Ald. Graham, seconded by Ald. Kerneghan,—That the insurance on the band instruments be renewed for three months.—Carried.

Ald. Anderson moved,—That the Finance Committee be instructed to sell the debentures issued for local improvements, as well as for waterworks extension.—Carried.

REV. F. J. SAWERS RECTOR OF ST. LUKE'S

His Many Friends in Peterborough Are Greatly Pleased.

His many friends in Peterborough, regardless of creed, will welcome Rev. F. J. Sawers, M.A., to Peterborough where he will fill the important position of rector of St. Luke's church. Mr. Sawers is the present incumbent of St. John's Anglican Church, Lakefield. He succeeds Rev. Dr. Langfeldt, whose resignation is to take effect after Easter. Mr. Sawers, though young in years, has shown himself to be an eloquent and forceful preacher, as well as possessing other qualities that are necessary in a successful minister of the gospel.

POLICE COURT CASES.

A Number of Cases Before Magistrate Dumble Yesterday.

Alex Clarke was charged with being drunk and disorderly in a boarding house. He pleaded guilty and promised that if he was given a chance he would not be guilty of such an offence again.

John Johnson was charged with creating a disturbance in front of the Brock street rink. He pleaded guilty and paid a fine of $2.00.

Joseph Sheridan, who was lodged in the cells a few days ago, came out from the lumber camps and got under the influence of liquor, with that result. He told the court that when he came out of the camp he had $108 and now he had scarcely any money left. The magistrate said that this should be a lesson to him and let him go.

The two young men who appeared in the police court a week ago on a charge of reckless driving, were fined $2.25.

George Findlay, who is not of a sound mind, appeared in court charged with raising a disturbance in East City. The magistrate allowed him to be taken to his home in East City.

Henry Wright, who appeared in the court a few days ago, charged with being mentally unbalanced, was discharged.

ALARMED BY JAPANESE ACTIVITY

Victoria, B.C., April 3.—Fears of invasion by the Japanese are maintained by the newspapers of the Antipodes, according to advices received here by the steamship Makura. W. J. Watriams, King of the Loyalty Islands, has addressed petitions both to Great Britain and French officials, asking that a protectorate be declared over the Islands to prevent them being secured by Japan. The King writes that Japanese are crowding into New Caledonia and have installed a wireless station in the Loyalty Islands. He says he fears the Japanese are preparing a base that could be used for an attack on Australia.

FATHER BERNARD VAUGHAN GIVES WARNING TO ENGLAND

London, April 3.—Father Bernard Vaughan yesterday uttered a warning on England's falling birth rate. Preaching in the Farm street church he said

"In half a life time England has slid down, the birth rate declining more rapidly than any other European nation."

He hoped there might be no longer a concerted policy for "dodging nature, cheating God, and robbing the nation of its truest wealth—human life."

CITY FATHERS TURN DOWN AN ANTI-RECIPROCITY RESOLUTION

FATHERED BY ALD. EDGAR AND SECONDED BY ALD. GRAHAM.

The Vote Was a Tie, and the Mayor Exercised His Perogative in Opposition to the Motion.

When the City Fathers were about to adjourn last night, Ald. Edgar threw a political bomb into their midst in the shape of the following resolution:

Moved by Ald. Edgar, seconded by Ald. Graham,—That in the opinion of this Council the proposed Reciprocity Pact between Canada and the United States would not be conducive to the best interests of Canada as a whole, and should not be imposed without the people's consent. And that a copy of this resolution be forwarded to Sir Wilfrid Laurier and the member for West Peterborough, the Hon. J. R. Stratton.

Considerable hedging on the question here took place, and the consequent discussion and voting on counter resolutions savored to some extent of political partyism. In fact, the worthy Aldermen were all about translucent as to their Federal politics, even to a visitor, had one been present.

Ald. Morgan apparently wished to gain time, and asked for a week or two to think reciprocity over.

Ald. Buller thought the resolution should go to the committee of the Whole Council "With power to act" suggested Ald. Duncan. (Laughter).

Ald. Anderson did not think Council qualified to pass judgment on so important a measure. There are men in the country and at Ottawa more conversant with the pros and cons of the proposition than we are, he offered. There, the opinion of Peterborough's City Council would have no weight with the Dominion Government.

Ald. Anderson, moved in amendment, seconded by Ald. Metheral,—That no action be taken.

Ald. Buller moved in amendment to the amendment, seconded by Ald. Brown, That the question be referred to the Committee of the Whole Council to report back to the Council. This was lost.

Ald. Anderson's amendment was also lost.

The original resolution by Ald. Edgar was then voted on and resulted in a tie. His Worship voted in the negative and consequently this motion was lost.

GREAT INTEREST TAKEN IN THE LIBRARY VOTING CONTEST

The Societies, Churches, Schools and Other Organizations are Nominating Candidates for This Magnificent Library

The library voting contest which was started Saturday has begun to interest a large number of the organizations who are eligible for this contest. The merchants who are giving out votes with every five cent purchase have handed out a large number of ballots and the interest in this contest promises to be lively among the various societies, schools, churches and other public institutions in Peterborough.

From indications of ballots deposited at E. L. Payne's drug store, corner of George and Simcoe streets on Saturday, the first count of the votes will show a substantial list of ballots for the various societies, churches lodges, schools and other public institutions in the city.

The second library of 80 volumes which is up for competition among the rural schools, churches, societies and organizations in the County of Peterborough will also be interesting, and lively, as the contest will give a chance for all to try for this fine library and be very evenly started, so that the contest places all in a position that will afford a keen contest for this valuable prize. It would be well for all who are interested in this contest to cut out the list of merchants published in this issue so it can be readily referred to and will show you where votes can be obtained.

The library is on exhibition in the window of E. B. Clegg & Co, furniture store, 427 George street. The window is arranged with library furniture and the volumes are exhibited in handsome Many sectional book cases, which will accompany the books when presented to the winner of the contest. Do not forget to ask for ballots when making purchases from any of the merchants listed in the announcement of the contest in this issue, and also cut out the voting coupon published in every edition of the Times in both daily and weekly editions. Deposit your ballots often so as to show the true standing of your particular choice, and this will encourage your friends to do the same thing.

SEE PAGE 3 FOR COUPONS.

A THOUSAND AMENDMENTS TO ASQUITH'S VETO BILL

London, April 3.—The real work on the Veto Bill, designed to restrict the powers over legislation of the House of Lords was begun to-day with the opening of the committee stage in the House of Commons.

The scene in the House indicated the intensity of the public interest. Every available ticket of admission had been disposed of days before, and many hundreds who had hoped to witness the proceedings were disappointed.

The debate will be long and keen. Already over 1,000 amendments occupying seventy-four printed pages have been prepared, and are bound to result in heated discussions and protracted sittings.

It is the avowed intention of the Government to send the measure to the Upper Chamber by the middle of May, but veteran members of Parliament doubt the possibility of this.

OWNERS OF MORE THAN ONE DOG MUST PAY DOUBLE PRICE FOR EACH ADDITIONAL TAG

THIS IS PROVIDED FOR BY ACT OF LEGISLATURE.

Otherwise the By-law for 1911-12 Stands the Same as That Passed Last Year.

The Dog by-law of last year was re-enacted by the City Council last night, in accordance with a change in the legislative law governing same. The only change in the by-law—and an important one—is connected with the price of tags as follows:

A tag for one dog will this year cost $1, and $2 for each additional dog owned or harbored by the same person.

A tag for one bitch will cost $3, and $5 for each additional bitch owned or harbored by the same person.

Subsequent enquiry by Ald. Morgan elicited the fact that the by-law does not provide for kennel licenses; but he was assured that the measure will be amended at the next meeting to permit of kennel licenses at $10 being issued.

ALD. DUNCAN THINKS FIRE HALL TEAMS MIGHT THRIVE ON OATS AT THIRTY-SEVEN CENTS

AS WELL AS ON THE MANITOBA BRAND AT 42c.

At last night's Council meeting, Ald. Duncan enquired of the chairman of the Fire, Water and Light Committee, why Manitoba oats at 42c a bushel were being purchased for the fire department when all the Ontario oats needed are available at 36 and 37 cents a bushel.

Ald. Morgan replied that he did not purchase the oats for the department; he left that duty to the Chief. He, Ald Morgan) knew nothing about oats, but he had in his pocket a sample of both Manitoba and Ontario oats, which were open for Ald. Duncan's inspection. He understood, however, that Manitoba oats are the best for feed.

A diversity of opinion was here offered re the merits of the two brands of oats, and Ald Buller contended that Manitoba oats were unquestionably superior to others, the grain being much fuller.

No definite action resulted from Ald. Duncan's enquiries.

DISCIPLINE WITHIN THE ROMAN CATHOLIC CHURCH

Montreal, April 4.—That Monsignor Stagni, the new papal delegate to Canada, bears with him from the Vatican instructions of the highest importance concerning discipline within the Catholic Church in the Dominion is the statement coming from a source where authority is beyond question. It is said that His Holiness is profoundly interested in the state of the Church in Canada and pleased with the work of the hierarchy. At the same time certain tendencies everywhere in the modern world are to be guarded against, and a rigid standardization must be aimed at and maintained notwithstanding all shifting and unsettling tendencies of the age. Nothing approaching what is known as modernism must be allowed to creep into educational institutions.

It is reaffirmed by the Vatican that of God's revelation, written and the only interpreter, and it must be re-unwritten, the church is the guardian, the only interpreter, and it must repel vigorously every attack on it from without and repress sternly every treason against it within. The true Catholic, whether priest or layman, is more than ever before to receive every word of the Vicar of Christ, with reverence and unfeigned submission. Notwithstanding what may be announced by a so called science, the church is everywhere to proclaim the supremacy of God's revelation, of which it is the unfallible depository. Catholic teachers and writers are called upon to strictly follow the obligations concerning all those things which the infallible judgment of the church has promulgated as dogmas of the faith to be believed by all.

It is to be pointed out to all that life is too short to be wasted in following false lights; that the church possessing the highest truth communicable to man, yet respecting reason as God's gift, would not tyrannize over the people, but watch, warn and direct.

EXPRESS RATES ON ALL DAIRY SHIPMENTS FURIOUSLY SLASHED BY THE RAILWAY COMMISSION

Ottawa, April 3. For some time, dairymen and shippers of cream have been complaining what they termed the exorbitant rates charged by express companies on shipments of cream. Recently arguments on a complaint of this character was heard by the Railway Commission.

A judgment is now being issued in which the complaint in effect is justified and a very material reduction in rates will be the result.

FROM 35 to 15.

For a minimum distance of 50 miles the rate on the minimum of five gallons of cream is 35 cents. The Board is reducing this to 15 cents and other charges proportionately.

FIRE AT SHOVEL WORKS.

Roof Caught Fire From Spark From Locomotive.

A fire broke out yesterday morning on the roof of the Lundy Shovel and Tool Works, presumably from a spark from a passing engine, and might have resulted seriously but for the prompt action of the employees, and the quick arrival of the fire department.

The damage to the building from fire and water is in the neighborhood of $300.

ADVERTISE IN THE TIMES.

Y.M.C.A. NOTES.

Boys' Department Banquet.

The boys' department of the Y.M.C.A. will hold their annual banquet on Thursday evening, April 6th, at 8 o'clock.

The boys' department is making rapid strides of progress under its new secretary, Mr. Tait, and an excellent banquet is in store for the boys. Besides the usual addresses and toasts a lengthy musical program will be rendered.

ADVERTISE IN THE TIMES.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

THE STATE SUPREME.

Editor Morning Times.

Sir,—"One of the people" hits the nail squarely on the head in his letter which appeared in your issue of yesterday. The State and not the Church is supreme in this country, thank God. If anybody, religious or otherwise, attempts to override the laws of the State, they should be arrested and punished. When it comes to a question of Church or State as to which will rule, there can be no middle ground.

It seems to me that Canada is to be made the battle ground against what the Pope calls Modernism, and it therefore behooves every lover of civil and religious liberty to get ready for the fray, which is fast approaching.

—Equal Rights.

THE SHEFFIELD CHOIR HAVE CROWDED HOUSE

The Opera House Crowded to the Doors Last Night—Official Welcome Given.

The Opera House was crowded to the doors last night to hear the famous Sheffield Choir, which is making a tour of the world. The concert was all that lovers of good music could desire, and will long be remembered by those who were present as a great musical event.

Yesterday morning at a rehearsal at the Opera House, a reception was tendered the visitors by His Worship Mayor Morrow, Hon. J. R. Stratton M.P. and Mr. J. H. Burnham, on behalf of the citizens. A large number of whom were present and sustained the remarks of the speakers by the heartiness of their applause.

On behalf of the Corporation Mayor Morrow presented the visitors with an address, the reading of which was greeted with enthusiasm by the members of the Choir.

Beware of Ointments For Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Sold by Druggists, Price 75c per bottle.

Take Hall's Family Pills for Constipation.

THE WEATHER.

Milder, with snow or rain.

Do You Get Your Times?

Times' readers will confer a favor upon the management by promptly reporting to The Times office any irregularities in the delivery of their paper. All communications of this nature will be given prompt attention.

CURED THE WIFE AND HUSBAND TOO

GREAT WORK DONE BY DODD'S KIDNEY PILLS IN ONE QUEBEC FAMILY.

Thomas Lauriault Had Kidney Disease and His Wife Bright's Disease, and Dodd's Kidney Pills Made Them Both Well.

Lac Cayamont, Que., April 3 — (Special)—There is a world interest in the simple story of Madame Thomas Lauriault, of this place. In her own words, it is as follows:

"Dodd's Kidney Pills cured my husband of Kidney Disease and myself of Bright's Disease. We recommend Dodd's Kidney Pills to all who suffer from Kidney or Bright's Disease."

This is a splendid example of the grand work Dodd's Kidney Pills are doing among the plain people of Canada. Kidney Disease is the commonest of all ailments among those who have to work hard, because the kidneys are the first part of the body to feel the wear and tear of heavy work.

When the kidneys go wrong the blood goes wrong, and the whole body goes wrong. Rheumatism, Dropsy, Diabetes and Bright's Disease are the usual results. Dodd's Kidney Pills cure these by simply curing the kidneys.

A London shipbuilder has been arrested for spying in a German shipyard. If Germany keeps on she will presently have all of Britain's war forces locked in fortresses.

ROYAL

Special

VAUDEVILLE TODAY

BARTINO'S TROUPE OF PERFORMING

DOGS

DANNY AHERN

The Whistleologist of Vaudeville.

These are two acts that should prove pleasing to everyone. They both come direct from the Majestic in Toronto. Prof. Bartino's Troupe of Dogs are known as the only original aerial performing dogs, their tricks being altogether different than those performed by any other dogs on the stage to-day. Danny Ahern is considered one of the best whistlers on the American stage to-day.

MOTION PICTURES.

Complete change of motion pictures to-night, all new, all of the latest produced including an excellent drama by the Essanay Co., "The Little Drudge," and beautiful educational scenic pictures, "Nivernais and the banks of the Loire, France," another interesting drama, "The Money Lender," and two other pictures.

ADMISSION.

Afternoon 5c. Evening 10c.

Post Toasties

With a package of this sweet, crisp food in the pantry, you dodge the fuss and bother of early morning cooking, yet have a breakfast which makes a happy start for the day.

Serve direct from the package with cream, and sometimes fruit.

That Old Winter Cough

The Cough Syrup You've Taken Has Sickened But Not Cured You.

You'll Never Be Well Till You Heal the Lungs with "Catarrhozone."

Nothing pulls down strength, makes you wretched, miserable and despondent like a chronic cough. The old-fashioned liquid mixtures slip down the throat, enter the stomach and do little else but ruin digestion.

Catarrhozone is the only breatable cold, catarrh and cough medicine. Instead of taking drowsy drugs, chloral, morphine and opium mixtures, you simply inhale the richest pine balsams, breathe into your lungs the healing soothing vapor of a scientific remedy that commands the admiration of all good physicians.

The extraordinary efficacy of Catarrhozone is without a parallel. A sneezing cold is cured in ten minutes, a harsh cough is eased in an hour, the most offensive catarrh is thoroughly drawn from the system. In case of Asthma and bronchitis the relief and certain cure that comes from the healing balsamic extracts in Catarrhozone is simply wonderful.

"For more than twenty years I suffered with a cough, bronchitis, asthma and nasal catarrh," writes J. E. Fenwick, of Staunton P.O. "Every attack I had seemed to grow worse and I could hardly breathe on account of an accumulation of phlegm in the nose and throat. One day I tried Catarrhozone and in ten minutes was wonderfully relieved. I could breathe freely and naturally through the nose, and blood spitting was stopped—the phlegm was cleared away and my regular breathing restored. No remedy can do more than Catarrhozone."

There is no remedy so certain and safe as Catarrhozone, but being a good remedy it is imitated. Beware of the substitutor. Large Catarrhozone lasts two months, price $1.00. Smaller sizes 25c and 50c. All reliable dealers or the Catarrhozone Co., Kingston, Ont.

The Morning Times

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

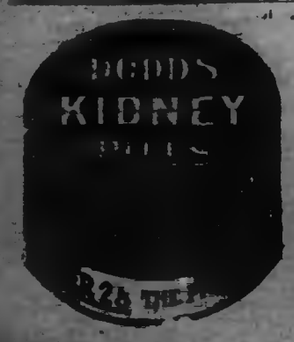
MR. BORDEN'S LEADERSHIP.

Every political party in opposition is certain to include people who cannot be satisfied by any leader—man who would not be content though an angel came down from heaven to offer services. To some minds immediate success is the only touchstone of merit. Every opposition leader in Canadian politics has had this experience, says the Ottawa Journal. Mr. Balfour is meeting it in British politics. Mr. R. L. Borden is not an exception. But it may be that Mr. Borden attaches more importance than most leaders would to reports of recalcitrancy. He is probably more sensitive than the average political leader, or at least less aggressively ambitious about his personal political autocracy. So some political gnats which another leader might have swatted promptly, Mr. Borden has allowed to buzz about the party, inflicting an occasional sting.

Apparently an attack of this kind has occurred. Some Montreal and Quebec personages are stated to have exhibited symptoms of restiveness. Mr. Borden might do well to read them the riot act. But if he does not care to do so, it will be their luck. Mr. Borden is far and away the biggest asset in Dominion politics the Conservative party has. Intellectually, no one in the House compares with him save Sir Wilfrid Laurier, and the whole country knows that it has in Mr. Borden a man of the highest principle, and more of aggressive principle—which latter is what Sir Wilfrid Laurier lacks, if the records of the various departments of his government are any criterion.

If by any mischance the Conservative party were to allow Mr. Borden to step down, the interpretation put upon the move by the country would probably be that Mr. Borden had proved to be too high class for the tail of the party, and that the tail had swung the dog. What sort of a fighting chance the party would have after that for a decade or two can be left to the imagination. As successors to Mr. Borden, only two men in Canada are conceivable just now, and neither would accept such a vacancy. Mr. Borden is the one available winner for the party, and well deserves its most energetic loyalty—which he possesses, except from a limited clique which the party would be better without.



PROSPERITY FOR WESTERN CANADA

Seventeen million dollars will be spent by the Grand Trunk Pacific during 1911 in constructing new lines and erecting station buildings throughout the West. There will be 619 miles of work undertaken on the branch lines and completed, during the present season. This will include the Calgary branch, Battleford branch, Melisville-Regina branch, Alberta Coal branch, Regina-Boundary branch, Moose Jaw branch, Prince Albert branch and Biggar to Calgary. There will also be 285 miles of main line track laid, as well as 200 miles further grading on the branch lines.

Arrangements are also being made for the erection of 140 station buildings. This is the largest and most expensive year's work that the Grand Trunk Pacific has undertaken. The majority of new branch lines to be constructed will be laid in districts hitherto totally untouched by railroad development. Rapid strides have already been made towards completing the main line between Edmonton and the Coast, and up to the present 385 miles of steel has been laid. From Edmonton going West, the line is completed as far as Prairie Creek, which is the entrance to the foothills of the Rockies and from the Coast working towards the Rockies 165 miles of track has already been laid.

This year the work will be pushed ahead as rapidly as possible, and from Prairie Creek, fifty another 165 miles will be completed, while from the west end 100 miles are to be constructed.

The Alberta Coal Branch will tap an entirely new country by running a line from Bickerdike on the main line through the Pacific Pass Coal fields, as well as those of the Yellowhead, and provision has been made for 69 miles of it to be constructed this year.

Another entirely new branch will be constructed between Regina and Moose Jaw, a distance of 49 miles.

Besides all this construction work a vast mileage of grading is to be accounted for, and this will be carried on to the extent of two hundred miles on the Regina boundary branch and those others which will not be completed.

In addition to the above, the Company is erecting some of the largest bridges in the West. Over the Red Deer River on the Tofield-Calgary branch, an enormous bridge, 200 feet high, is now under construction. Another huge bridge has just been completed at Prairie Creek on the main line. A third is to be constructed further west over the Athasbaska River. Another over the Skeena river, which is to be the largest on the Transcontinental.

A famine in Easter lilies is threatened. The supply of Easter hats is large, however, so we will go right ahead and have Easter, just the same.

AMERICAN GIRL'S SWEET TOOTH

$125,000,000 Spent on "Candies" Annually in the United States—Lozenges for Lunch

The American girl's love for sweets is the subject of an article in the current issue of the "Confectioners' Union."

"Miss America begins eating sweets at seven and continues until she is seventy, and is declared to be the original and the real 'Candy Kid.' From morning till very late in the evening she constantly munches sweetstuffs of a thousand different varieties and flavors. Every twenty four hours over twenty-four large car-loads of candy are eaten within the boundary lines of the United States.

"When Miss America is a little girl she is content to eat the simpler kinds of confectionery. But as she gets a little older her tastes grow more aesthetic and her sense of flavors gets more subtle. When she enters the schoolroom she must have a small box at least tucked away handy. Otherwise she would never be able to get through the strenuous duties of a school day.

"And the habit grows on her as she gets older. She must keep a few pounds of her favorite confection in her room when at home, in her bag when travelling, and in the hamper when starting out for a motor-car tour.

"A few dozen of the greater factories turn out millions and millions of pounds of candies annually, but the most prying of the men with the Government banks are unable to get at the amount of sweetmeats that are turned out annually in boarding-school dormitories, home kitchens, and over the flame of the alcohol lamp.

"If Miss America's annual candy supply were loaded on one train of cars of the fullest capacity, there would be something over 8,000 cars full of boxes, buckets, and glass jars. This load of sweetmeats for the sweet tooth of the American girl costs the consumers about $125,000,000 every twelve months.

"Candy eating is rather a modern growth. In 1850 all the candy that was made in America would have sold for the paltry sum of $3,000,000. No one paid much attention to the candy business. In 1870 the candy shops of the United States turned out $15,000,000 worth of sweets. Another decade elapsed, and the candy business more than doubled in value. People were getting prosperous, and the candy shops were just beginning to reap the harvest that was to be theirs.

"Fifteen years later the business had become a gigantic thing. This was just about the time of the beginning of the great candy craze that has never been checked since it started to sweep over the country. Many men acquired the habit in the beginning of the craze, and have never freed themselves from it. There are hundreds of women who lunch daily off a few pieces of candy.

"It takes an army as big as a modern military division to turn out the sticks, cubes, drops, and lozenges of sugar and fruit juices that disappear down the throat of the American girl every day in the year. Her daily allowance of sweets would sink a ferry-boat."

Several titled Frenchmen are on their way to Mexico, where they intend to assist in putting down the revolution. When they have attended to that they will probably come back this way and go into vaudeville.

Send for copy of our new booklet. A postal card will bring it.

Winter Term Now Open

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

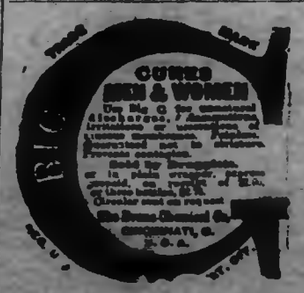
Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Trunk Pacific Ry. Points.

In connection with settlers and round trip homeseekers excursions to the West on April 4th the Grand Trunk Ry. Coy., will run a special through train from Toronto to Edmonton, leaving Toronto at 11 p.m., April 4th via Chicago, St. Paul and Winnipeg without change, arriving at Edmonton 7 p.m., April 7th. This train will carry Pullman Tourist sleeping cars with porter in charge. Berth rate to Winnipeg will be $3.75 for lower and $3.00 for upper. To Edmonton lower berth will be $6.15 and the upper $5.40. Mr. McCutcheon, commissioner for the Alberta government along with our travelling passenger agent will accompany same to see there is no trouble or delay and to look after the interests of the passengers. Consult City Ticket Agent Grand Trunk Ry. for rates, reservations and full particulars.



ADVERTISE IN THE TIMES.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money, Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 460 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

AGAINST THE HOUSE OF COMMONS BILL TO ABOLISH THE VETO.

New York, March 27.—A London cable to the Tribune says:

The peers are determined to make a stand against the House of Commons bill to abolish the veto when it reaches the committee stage.

There have been a series of consultations over the Marquis of Lansdowne's reform scheme and the referendum bill prepared by Lord Balfour of Burleigh. Lord Halsbury, while still hostile to the conversion of the hereditary into a semi-elective chamber, advocates the referendum bill, which will be carried to its second reading this week, Lord Haldane making his first important speech as a peer against it.

Library Voting Contest

TWO HANDSOME LIBRARIES OF 50 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 80 volumes and handsome sectional bookcases will be given by votes to the lodge church, society, school or other organization in the City of Peterborough, and one library of 80 volumes to the schools, lodge society, church or organization in the County of Peterborough outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, Sept. 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the E. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough, and the County of Peterborough, outside of Peterborough, having the largest number of votes will be awarded the libraries.

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily, and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be secured:—

"Nerviline" Cures Rheumatism

And Here is the Proof—A Solemn Statement From a Four Years' Cripple, Who Says "Nerviline" Did It.

"If I had lived through my sufferings another year it would have been a miracle." This is the opening sentence of the declaration made by Mr. J. Eccles Squires, member of one of the best known families for twenty miles round Sydney. "My hands were drawn out of shape, even my fingers were gnarled and crooked—my lameness, stiffness and inability to get about all showed the havoc Rheumatism made with my health. The blessing of it all is that I have heard of Nerviline, and now I am able to tell and advise others how they may get well, too. My system was so weakened that I had to build up with a good tonic, so I took Ferrozone at meals. But I never stopped rubbing on Nerviline—it had a magic influence on my stiff, painful joints, and bottle after bottle was rubbed on the painful parts. Nerviline cured me. I am well today—have been well for 4½ years."

CURED 4½ YEARS

You also can cure rheumatism, lumbago, sciatica, neuralgia or any pain or stiffness in the muscles or joints—to do so use Nerviline. Don't let your druggist substitute. Get Nerviline only: large bottles, 25c, or five for $1.00; sold everywhere, or The Catarrhozone Co., Kingston, Ont.

WILL WIPE THEM OUT

"WHITE HAND" TO FIGHT THE "BLACK HAND."

Better Class of Italians Banding Together to Break up the Mafia.

Chicago, Ill., April 1.—Italians of the better element to-day revived the "White Hand" Society, formed several years ago, to make war upon the Chicago Mafia, whose crimes had become unbearable to wealthy Italians and a war of extermination—by pistol or by legal execution—is to be made on the "Black Hand."

THREATENING SOCIETY

The reviving of the society is a result of the activities of the Black Hand in Chicago. In the last few days the murderous members of the Mafia have evaded the Federal courts and with their threats, warning a judge and a post office inspector to cease their activities against the Black Hand or lose their lives.

C.N.R. WON FIRST CASE

Quebec, March 31.—Justice Panet Angers, in the Court of Sessions of the Peace, dismissed to-day the action taken by Notary Trudel of Quebec, against the Canadian Northern Quebec Ry. Co. for not having complied with the Lavergne bilingual law which compels the railway company to have their travellers' tickets printed in French as well as in English. Notary Trudel was complaining that he had been refused a ticket printed in both languages, to travel on the Quebec and Lake St. John Railway, which was supposed to be controlled by the Canadian Northern Railway. It has been proved that these two companies are under different administrations.

Another action is being entered against the Quebec and Lake St. John Railway.

WILL HONOR FIRE VICTIMS

Two Hundred Thousand Persons Will Attend Monster Funeral in New York Wednesday.

New York, April 1.—Two hundred thousand persons or more will march in a silent parade with draped banners through the streets of New York next Wednesday in memory of the fire victims, if plans are carried out as outlined last night by a meeting of representatives of more than 150 labor unions.

Resolutions were passed calling upon citizens to decorate their houses with some sign of mourning.

PLUCKY STEWARDESS

An Incident on a Passenger Steamer En Route to St. John, N.B.

R. McBride, Glasgow, relates the following story of a plucky stewardess:

"Some years ago, when serving as an assistant engineer on board a passenger steamer en route to St. John, N.B., we ran into one of those impenetrable fogs so prevalent in the Bay of Fundy. Suddenly, as if on the rocks, the ship bumped heavily several times close by where I stood in the engine-room, followed by the telegraph signal from the bridge, 'Full speed astern.' I was relived by the chief engineer, and ordered to take a good look round, and see if any excess water was rising in the bilges. Descending two or three steps to the shaft tunnel convinced me that it was, and rapidly, too, as I found myself up to the knees in sea water. After putting the pumps to work, I hastened to the stokehole, to find that the firemen on watch had already cleared out, and that the fires were burning low. On going in search of them on deck, I was just in time to notice their heads vanish down the stokehole ladder, while the voice of our stewardess was raised in angry tones, denouncing them as cowardly dogs for deserting their post at the first sign of danger. At her feet stood a partly-filled bucket of hot water, and in her hand she flourished the galley soup-ladle; and I learned that she had been liberally douching them with boiling water from the bucket on finding them preparing to clear away on one of the boats. They had evidently slunk back to work, and the risks entailed, rather than brave the biting lash of the infuriated woman's tongue and the compelling influence of the scalding water. To her timely and heroic conduct our salvation from foundering was undoubtedly due, as we all had our work cut out in bringing the ship safely to Halifax dry dock, where it was found that besides being badly strained and fractured, several plates in the ship's bottom had been broken, through which the water was rushing in."

The Morning Times
PETERBOROUGH, ONTARIO

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTER.

Death of a Child.

The infant child of Mr. and Mrs. Richardson passed away after a brief illness at Nicholl's Hospital. Interment took place on Sunday at Little Lake cemetery.

First Drill for 57th Regiment.

The first drill of the season will be held by the 57th Regiment at the Armouries to-night, at 8 o'clock. A record turnout is promised.

The Sheffield Choir Train.

The special train which carries the Sheffield Choir through Canada, consists of seven sleepers, two dining and one baggage car. The choir left Peterborough early this morning for Toronto where they will sing in Massey Hall to-night.

Must Fly With Flag.

Hon William Pugsley, Minister of Public Works, has ordered that not only the public buildings on the frontier, but on every public building in the interior cities and towns, shall the Union Jack be displayed every day from sunrise to sunset.

Tennis Club's Meeting.

The Tennis Club of the Y.M.C.A., will hold their annual meeting to-night, when new officers will be elected and other important matters discussed. The meeting will be over in time to attend the banquet at Coleman's.

Peterborough Census Commissioners.

Mr. John Lang, ex-M.P., Otonabee, and Mr. Robert H. Leary, of this city, have been appointed Census Commissioners for East and West Peterborough respectively. The appointments were made by the Dominion Government, on the recommendation of the member for West Peterborough.

On Gambling Charge.

Two local men were charged at the Police Court with keeping a gambling house. Four other local men were charged with being players therein. Mr. G. W. Hatton was the counsel for the accused, and entered a plea of guilty for all six. Judgment was reserved until next Thursday.

Special Services This Week.

The Times is requested to state that special evangelistic services are being held this week, each night at 8 o'clock, except Saturday, in the Assembly Hall, George street, fourth door west of market hall, by J. Pearson of Deseronto, and J. Lyon of Toronto. All welcome. No collection.

Gone to the West.

Maurice Dineen, the well-known lumberman, after having been on the river for over forty years, has gone to Vancouver to take up a seasonable position as woodranger with the British Columbia government.

Vital Statistics.

The following are the vital statistics for the month of March, 1911, and the corresponding months of 1910:

	1910	1911
Births	33	51
Deaths	0	13
Marriages	15	18

Lumbering Operations Delayed.

On account of the hard winter and the thickness of the ice on the lakes and streams, lumbering operations will be delayed at least a couple of weeks. Last year the Peterborough Lumber Company's mill began to cut on April 12th. This year it will be a couple of weeks later in making a start. The drives are also being held up on account of ice. In Jack's lake the ice is 30 inches thick and as firm as a rock.

A Pointer for Peterborough.

Orillia New Letter: After a good deal of negotiating the G.T.R. has granted single fare rates into Orillia Saturday during tourist season. Beginning the first of May and lasting until the end of September, single fare tickets will be issued on the G.T.R. to Orillia from Midland and intermediate points, Barrie and intermediate points, Gravenhurst and intermediate points.

Every Style of Shirt Worn by Peterborough Ladies.

The Peterborough ladies have New York society dames beaten a mile as far as style is concerned. Not only the harem skirt appeared on the street yesterday, but also an exaggerated type of the hobble skirt. The steps taken by the wearer of the hobble were measured and found to be from 2½ to 5 inches in length.

LITTLE LOCAL LINES

The Board of Education will meet this evening.

The 57th Regiment will parade for drill at the armouries this evening.

The members of the Sheffield Choir made the streets quite lively yesterday, considerable shopping being done by the visiting ladies.

WE REPAIR WEAK MEN

ONE SECRET OF OUR SUCCESS. Every case submitted to us receives the personal attention of our Medical Staff, who examine the symptoms, complications and chronicity, and then decide as to the climate and curability. Specific remedies are then prescribed to the case and are compounded by our own chemist in our own Laboratory. Such appropriate treatment cannot fail to cure, as specific medicines are selected to cure the symptoms that trouble you. We have no cure-all medicine like most specialists use who send the same medicines to all patients alike and cure none. We have treated patients throughout Canada for over twenty years and can refer to any bank as to our responsibility.

No Guarantee Cures or No Pay. We Treat all Diseases of Men and Women.

CONSULTATION FREE

If Unable to Call, Write for a Question List for Home Treatment.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mr. T. E. Bradburn, M.P.P., went to Toronto yesterday morning.

Miss Cassie Spence, Coboconk, is visiting friends in the city.

Mr. N. R. Perry, Hopewoods Co., went to Millbrook on the noon train yesterday.

Mr. Thos. Perdue left on the 11.45 G.T.R. train yesterday morning for Moose Jaw.

Mr. George Southwell, asst. Supt. London Life Insurance Co., Water street, went to Lindsay yesterday on business.

Mr. G. E. Brosbrick, the capable and efficient Inspector of Public Schools was in the city yesterday.

Mr. Wesley Dartnell, of Pearl avenue, left last night for Calgary, where he has accepted a position.

Mrs. T. J. Wilson, 129 Stewart street will receive to-morrow for the last time this season. Miss Laishley of Toronto will receive with her.

Mr. and Mrs. J. E. Steers and daughter, Mabel, of Bashaw, Alta., is visiting at the home of Mrs. T. H. Adamson, North Monaghan. They were called here through the illness of Mrs. Adamson.

Mr. Geo. Yeates, of the Peterboro Cigar Store and Billiard parlour, left last night on the 5.30 G.T.R. train for Collingwood, where he will open up a Billiard parlour and cigar store, and also a shooting gallery.

Senator Baird, of Andover, N.B., spent Sunday in Peterborough with his old friend, Mr. John Connor, who is now identified with the operation of the Cordage Works here.

The many friends of Mrs. Wm. Croft, 259 Reid street, will regret to learn that she is very low, and little or no hope is entertained for her recovery.

The many friends of Mr. and Mrs. Joseph Reynolds will sympathize with them in the death of their little son, Harold Arthur, who passed away Sunday morning, aged five months. Funeral at 2.30 this afternoon.

The Times is in receipt of a letter for publication, bearing no signature. It cannot appear in these columns.

VOL XXXIV NO. 77 PETERBOROUGH, ONTARIO, WEDNESDAY APRIL 5 1911 PRICE TWO CENTS

SCHOOL BUILDINGS NOT ADEQUATE TO MEET INCREASING ATTENDANCE

HALF DAY SYSTEM IN SOME OF THE JUNIOR PRIMARY FORMS TO BE ADOPTED AFTER EASTER.

East and West Ward Schools Must Be Enlarged to Relieve the Congestion—Upper Storey King Edward School Will be Opened after Midsummer Holidays.

With the growth of this city, public school attendance has increased so rapidly that in the King Edward, South, Central and East and West Ward schools there will be no room after Easter for new pupils who will be seeking admission. There are also but a very few seats available at the Queen Alexandra school, which Public School Inspector Mowat attributes to recent increase in population in North City.

The following letter on this question from Mr. Mowat, addressed to Dr. Morrison, chairman of the Schools' Supervision Committee, speaks for itself:

Dr. M. A. Morrison,—

Dear Sir.—I beg leave to report that at the present time, there are between fifty and sixty pupils in attendance in each of the junior primary forms of the King Edward, South Central, Park street and East City schools. This leaves no room for the admission of new pupils at Easter, and the senior primary rooms are also filled. The only solution to the difficulty is the adoption of the half-day system in these schools, for those pupils who may wish to enter at Easter. It is to be hoped that after the midsummer holidays, that adequate accommodation will have been provided for all pupils. Hoping that this suggestion may meet with approval.

The proposition to adopt temporarily a half-day system in the junior primary forms of congested schools after Easter was left in the hands of chairman John Crane and Inspector Mowat.

On motion of Col. Miller, seconded by Mr. V Eastwood, Messrs. Morrison, Adams, Hill, Ackerman and the Board's chairman were appointed a committee to report on enlargement to and improvement of the East and West Ward schools.

This will mean another demand on the City Council, over and above the $16,000 reported elsewhere, for improvements to school buildings that are evidently pressing.

SCOTLAND YARD FEARS OUTRAGES DURING CORONATION WEEK

London, April 4.—Scotland Yard has called in the assistance of Continental detectives who have specialized on political crime, to aid them in following up the Houndwitch gang of anarchists.

The English police are understood to have been satisfied, following the battle of Sydney street, that the group has been completely wiped out, with the exception of Peter the Painter, who was believed to have left England, but Home Secretary Churchill held a different opinion. His idea is that the gang is a large one, and that only a few of its comparatively unimportant members have been disposed of.

What he especially fears is an outbreak during coronation week and to guard against this the most energetic search is being made of the foreign quarter in London for suspicious characters. It is even possible that the Continental method may be adopted of arresting known anarchists on the eve of the coronation festivities, and holding them under trumped-up charges until after the celebration is over.

LATEST FROM APSLEY

Grist of News From Northern Portion of County.

Where is Dr. Cook? If you could get into communication with him, notify him that now would be a good time to discover the North Pole, as judging from the weather conditions here, it can't be more than ten miles north of Apsley. We are having January weather and plenty of snow, sleighing was never better this winter, while in the northern part of Anstruther there is two feet of snow yet and no signs of spring up there.

THE IRON MINES.

The iron mines in the 14th and 15th Concessions of Anstruther, which a Hamilton Co. have been operating all winter, are proving first-class. It is magnetic iron of the best quality. Mr. Wm. Jones, who has been prospecting in that section for a number of years, says the country is only awaiting development to prove rich in iron and other minerals, and with an R. R. from Tory Hill to Peterborough, this country would boom.

RAILWAY NEEDED.

There has been several dealers in lumber through here lately, looking for timber, and would invest heavily if there was any way of getting the lumber out by rail. That is hardwood especially, of which there is large quantities here. Some day your city may wake up when it's too late.

AN ENJOYABLE EVENING.

The young people had a very enjoyable time at Reeve Tucker's on Friday night, March 31st, an oyster supper and dance, which was as usual at Mr. Tucker's and was one of the best. Dancing was kept up until near morning.

LOOKING AFTER THE ROADS.

Mr. Tucker was in town on municipal business, in connection with the roads in south Burleigh. Speaking of roads, what has become of the stone crusher that municipality purchased some ten years ago with the expectation of having a good road from Burleigh Falls to Apsley? For two or three years good work was done, and we were quite hopeful, but the grants from the Ontario Government dwindled each year, until last year it was nil, and the crusher is somewhere in Burleigh, idle and rusting; and the road, well, we will not say anything more at present about the crusher.

It is time this municipality made some change in the law regarding statute labor. It would be all right if the labor was done and done properly, but when pathmasters return lists to the clerk as done when not a day of statute labor in that beat was done. Then we think it's time the Councillors should sit up and take notice.

NOTES.

Mr. James McIlvena has gone to Peterborough and Warsaw on business. Alex is kept busy in the shop during his absence.

Buyers from the front have been through this district looking for cows, and grain, and are able to pick up a few yet.

The cheese factories are getting in shape for the season.

Under Dr. Bell's care and prompt action, the epidemic of scarlet fever in Chandos has been stamped out, no new cases have occurred and those who were under quarantine are released.

Much sympathy is felt for Mrs. D. Lean, who had the misfortune to break some of the bones in her wrist by falling on the ice.

We are pleased to hear that our old friend, Stephen Scott, of Chandos, is recovering from a severe attack of La Grippe, and hope to see him soon in Apsley.

If any of the boys down your way think they are experts at pedro, etc., let them come up and Ben will give them a few pointers.

Wm. Lean and wife of Burleigh, visited at the home of Robert Hales, of Chandos, on Sunday April 2.

Reciprocity and annexation are a secondary consideration just now. The principal topic of conversation is what is Borden going to do? or what are they going to do with Borden? The faithful look glum and talk in whispers.

A SUGGESTION.

A suggestion has been made that the municipality try and make an exchange of the stone crusher for an auto. Not a bad idea. Then the Councillors could inspect the roads with more comfort next summer, and an auto might be the nearest approach to an R. R. some of us will ever see.

There may be some changes here soon, and will try and keep the Times posted on affairs of state.

Long Sleighing Record.

This winter has been a record-breaker for its duration. The first sleighing was on December 8th, and counting from then there has been 116 days of sleighing. In the winter of 1869 or 1870 the first snow fell on the 15th of November and there was 113 days sleighing.

THE WEATHER.

Milder with rain and thunderstorms.

IMPERATIVE IMPROVEMENTS TO KING EDWARD AND CENTRAL SCHOOLS WILL COST $16,000

REPUBLICAN AGAIN LAUNCHES MEASURE AT EXTRA SESSION

Washington, April 4.—Forestalling action by the Democrats in the House, Representative McCall, of Massachusetts, to-day introduced the Canadian reciprocity bill which was passed by the House last session.

THE JAP-AMERICAN TREATY SIGNED

WITH ELABORATE CEREMONY IN THE MIKADO'S PALACE YESTERDAY.

Hailed With Delight—Drafts Were Accompanied by Messages of Friendship—Tokio Press Regards the Ratification With Much Favor.

Tokio, April 4.—The ratified and sealed drafts of the American-Japanese treaty were exchanged with elaborate ceremony in the Mikado's palace to-day.

United States Ambassador O'Brien represented America, and received in exchange for the draft bearing the seal of the United States and President Taft's signature, the copy bearing the Japanese insignia and the Emperor's signature.

"Our baby cries for Chamberlain's Cough Remedy," writes Mrs. T. B. Kendrick, Rasaca, Ga. "It is the best cough remedy on the market for coughs, colds and croup." For sale by all dealers.

GALWAY LEAD MINE SHEWS GREAT RICHES

In Places Shows 80 Per Cent. of Pure Lead—Other By-Products

Mr. J. S. Waldron, manager of the Milling Company, Limited, was in town yesterday and leaves for Buffalo this morning where he expects to purchase a 15-ton smelter. The Company's property is situated in Galway, about 12 miles north of Bobcaygeon. The Company was formed to develop a lead proposition, and after sinking a shaft down about 100 feet, they came across large deposits of barrium, which is valuable as a paint, being much like white lead.

The lead showing ranges all the way from 20 per cent. to 80 per cent. pure lead, and is therefore very rich and valuable. Mr. Waldron has had 8 to 10 men at work for about a year, and expects to have the mine a splendid dividend payer in a very short time.

BOARD OF EDUCATION IN ROUTINE BUSINESS SESSION

The Board of Education met last night. There were present chairman John Crane, Trustees Fair, Hays, Dr. Morrison, Adams, Eastwood, Col Miller and Dr. Burnham.

Miss Effie McQuarrie wrote accepting the appointment on the public school staff.

R. N. Merritt wrote, tendering his resignation from the Collegiate Institute staff, and expressing his appreciation of the courtesy extended him during his service. Accepted, to take effect at the Easter holidays.

Miss Florence J. Stuart, of Cobourg, wrote, asking to be appointed a teacher in the public schools. Referred to the Committee on Appointments.

G. F. Collins, of Seaforth, Ont., notified the Board that he would report for duty as successor to Mr. Merritt, about May 1st—Received.

Seaforth Board of Education submitted a form of contract, re engagement of teachers, adopted by them, and suggested that Peterborough and other Boards adopt a similar measure with a view to eliminating the inconvenience often experienced by teachers leaving before the end of a school term. Referred to the Supervision Committee.

PENNY BANKS.

Jas. L. Hughes, Chief Inspector of Schools, submitted a suggestion that the adoption of penny savings banks in the public schools be seriously considered by Peterborough's Board, with a view to cultivating the habit of saving on the part of pupils.

Mr. Hughes offered that this scheme had worked satisfactorily in Toronto and elsewhere.

Mr. Fair replied that this question had been threshed out on several occasions, and the report had always been unfavorable.

Inspector Mowat reported that while the teachers are not opposed to the scheme, they could not see their way clear to enter enthusiastically into the matter owing to lack of time. Unless arrangements were made that would not entail so much of the teachers' time in attending to the details connected with a penny bank department, the scheme had better not be adopted. Brantford had introduced the system but are going to discontinue it unless it worked more satisfactorily in the near future than at present. At Toronto, where penny banks in the schools have proved a success, there are teachers with sufficient spare time to take charge of the department.

This question was referred to the Supervision Committee.

REPORT OF COMMITTEE ON APPOINTMENTS.

Mr. W. H. Hill sent in the following report:

Gentlemen,—Your Committee on Appointments beg leave to report and recommend as follows:

1. That Miss Eme McQuarrie be appointed on the public school staff to fill the vacancy caused by the resignation of Miss Mann, at the minimum salary of $450.00 and duties to start after Easter vacation. Miss McQuarrie is the holder of a Second Class Professional Certificate, and is highly recommended.

2. That Mr. Geo. F. Colling, of Seaforth be appointed on the Collegiate Institute staff to succeed Mr. R. N. Merritt who has resigned. Minimum salary to be $1,400.00 and duties to start 1st May, or after the Easter vacation if possible.

Mr. Colling also comes highly recommended, and your committee are of the opinion that both of these teachers will fill their respective positions to the entire satisfaction of your Board.

This report was adopted.

REPORT OF SUPERVISION COMMITTEE.

Dr. Morrison submitted the following:

Gentlemen,—Your Supervision Committee beg leave to report and recommend that in accordance with the recommendation of the High School Inspector, the sum of One Hundred Dollars be spent this year for classroom decoration in the Collegiate Institute.

This was also adopted.

About Sheffield Choir.

Three of the singers were unable to appear on Monday night owing to injuries, two of them having sprained ankles from falls, and one being struck by a street car in Ottawa. Two doctors and three nurses accompanied the choir to look after cases of this kind.

Prosecute Loiterers.

Lindsay hotel men have decided to show no quarter to "listed" loiterers. They have, therefore, posted up the following notice: "All minors and those on the prohibited list are forbidden the use of these premises. Anyone found violating will be prosecuted according to law."

ROYAL
Baking Powder
Absolutely Pure
The Only Baking Powder Made from Royal Grape Cream of Tartar.
Safeguards the food against alum.
Chemists' tests have shown that a part of the alum from baking powder made with an alum baking powder passes into the stomach, and that digestion is retarded thereby.
Read the label and make sure that your baking powder is not made from alum.

BOARD OF EDUCATION WILL ASK CITY COUNCIL FOR THIS AMOUNT.

A Report of the Work Needed and Estimated Cost Thereof—Central School Must Be Modernized and Put in Sanitary Condition.

Mr. Robert Fair, chairman of the Property Committee submitted to the Board of Education, last night, the following report of improvements to the King Edward and Central schools that must be undertaken this summer if Peterborough's educational requirements are to be met.

Gentlemen,—Acting upon instructions received from this Board, your Property Committee has had plans drawn and estimates made of the cost of permanent improvements to the King Edward and Central Public Schools which will provide adequate and suitable accommodation for the children attending them.

KING EDWARD.

An extra room is needed in the King Edward School to relieve the present overcrowding. In all probability two rooms will be required on the re-opening of the school after the midsummer holidays. On this account it will be necessary to complete the third storey of this building.

Mr. Blackwell, the architect of this school, has furnished the Property Committee with a plan and the estimated cost of the work. According to his estimate the carpenter work metal ceilings, plastering, blackboards, heating, and plumbing will cost the Board the sum of $4,130.00. To this sum will have to be added the cost of the pupils' desks and other necessary furnishings. This extra amount is estimated at between $500.00 and $600.00.

THE CENTRAL SCHOOL.

Both of the buildings at the Central School are badly in need of permanent improvement.

(A). The Old Collegiate Building.

The heating plant of the old Collegiate building is completely worn out and a steam-heating system will have to be provided.

So bad is the present heating system of this building that the Inspector of Manual Training and Domestic Science intimated at his recent visit that the Government grant for 1911 cannot be paid the Board unless improvements are made.

Mr. Blackwell estimated the cost of a system of steam-heating, plumbing, and ventilation for this building at $3,340.00.

The wooden walks about the old Collegiate building and the Central School building will have to be replaced by concrete ones, and a retaining wall will have to be built at the west side of the old Collegiate building. The estimated cost of the retaining wall and the walks is approximately $1,000.00.

(B). The Central School.

The Central School building is badly in need of improvements. The Halls are dark and narrow; there are few cloak-rooms; there is no system of ventilation other than by the windows; the floors are worn out; the boys' lavatory needs a complete overhauling; the lighting of the rooms on the north side is defective; the rooms in the basement needs improvement.

To modernize this building and put it into a sanitary condition the following improvements should be made:

(a). Two vestibules or porches should be built, one at the west entrance and the other at the east entrance.

The pupils would reach both floors from these porches and the present stairs in the halls could then be removed, and leave the halls free. By this means the halls would be lengthened, much improved in the way of lighting, and be fully twelve feet in width.

At the present time the exits are very dangerous in case of fire, but with exits through the porches at the ends of the halls all danger would practically be removed.

An entrance from the west porch into the basement would enable the boys to reach their lavatory without going outside of the building as they have to do at present.

(b). The building requires new floors in all of the rooms and halls with the exception of one room.

(c). Before the new floors be put down a system of ventilation should be provided. There is a good ventilating flue in the centre of the building and the different rooms should be connected with this and some means found to provide a supply of fresh air.

(d). The boys' lavatory needs an overhauling and some improvements should be made to the basement rooms.

(e). Some way should be devised to improve the lighting of the rooms on the north side of the building.

These alterations, if carried out, would greatly improve the building and make it what it should be—a thoroughly modernly arranged school.

Mr. Blackwell has furnished plans for above improvements and estimates the cost of these improvements as follows:

1. Two porches at $1,800.00 each	$3,600 00
2. Ventilating System	
(a) Connecting the rooms with the flue	500 00
(b) Fresh air duct	500 00
3. Flooring	700 00
4. Improving boys' lavatory, basement and lighting	1,000 00

A summary of the total cost of improvements is appended hereto.

Your committee recommend that the Board wait upon the City Council for the purpose of having funds granted for carrying out the improvements as outlined to the King Edward and the Central Schools, which are absolutely imperative.

SUMMARY OF LIST OF IMPROVEMENTS TO KING EDWARD AND CENTRAL SCHOOLS.

KING EDWARD SCHOOL.

(1) Completing 3rd storey etc.	$4,130 00
(2) Seats, desks, etc.	600 00
	$4,730 00

CENTRAL BUILDINGS.

(a) Old Collegiate Buildings	
Heating and ventilating plant	$3,340 00
Concrete walks and wall	1,000 00
	$4,340 00
(b) Central Building Proper	
(1) Porches (two at $1,800.00)	$3,600 00
(2) Flooring	700 00
(3) Ventilating	
(a) Connecting rooms with flue	500 00
(b) Providing fresh air	500 00
(4) Improving boys' lavatory, basement and lighting	1,000 00
(5) Architect's fees	640 00
	$16,080 00

This report was adopted and the Board will wait upon the City Council in quest of the above amount, which will have to be provided for.

In connection with the foregoing changes, Mr. F. Bartlett had submitted to the chairman his opinion regarding the improvements needed at the Central school and offered that he would like to have an opportunity of remodelling the building. Amongst his suggestions were schemes for ventilation and an abundance of light, together with the replacing of stairs so as to afford available fire escapes.

Dr. Morrison suggested that the committee in modernizing the Central school, pay especial attention to the matter of light, of which there cannot be too much, providing there are not too many cross lights, as is the case in some rooms in this building. In the past the children's eyes have been injured through straining to see the blackboards and their books.

Inspector Mowat supported Dr. Morrison's contention, and offered that in one or two rooms in the Central school the strong glare on the blackboards from cross lights is positively painful to one's eyes.

Mr. Fair replied that the question of light will have his committee's earnest attention. As to Mr. Bartlett's suggestions, they were practically covered in his report.

"There's a Reason"

PETERBOROUGH LAWN TENNIS ASSOCIATION BANQUET LAST NIGHT

A most enjoyable and successful banquet was held last night at Coleman Bros. under the auspices of the Peterborough Lawn Tennis Association.

Among those present were: Mr. F. D Kerr, Mr. and Mrs. Burnett, Mr. and Mrs. R. J. Devey, Mr. Cluxton, Mr. McDermit, Mr. Landrake, Mr. S. Hall, Mr. G. Hall, Mr. F. Cressman.

After a most enjoyable repast was served, Mr. Devey gave several selections on the piano.

Mr. Cluxton, chairman, then delivered an interesting address, in which he traced the origin of tennis back as far as Adam. He then showed the way in which the tennis club successfully carried out the season's work, bringing several teams from outside towns to have matches here.

He presented the treasurer's report on behalf of Mr. W. Wood, who was not able to be present. He then congratulated the different officers of the tennis club on the way in which they carried out the season's programme. He also heartily thanked the press for their liberal support to the club.

Mr. Hackard then favored the audience with a violin selection.

Mr. Burnett, vice-president, after delivering a neat speech on "tennis," presented the club cup to the Y.M.C.A. team, which held the cup last year also.

Mr. S. Hall received the cup on behalf of the Y.M.C.A. team and thanked Mr. Burnett in a few well chosen words.

Mr. F. E. Kerr then presented the city championship cup to Mr. Landrake, with a short speech.

Mr. Landrake accepted the cup with a few words of thanks.

The ladies' championship cup was then presented to Miss M Burnett by Mr. Devey, who made an interesting speech on the ladies' tournament.

Mrs. Burnett then received the cup on behalf of her daughter, Miss Margaret.

A toast to the ladies was proposed by Mr. Greenhough, and was responded to by Mr. Devey.

A toast to the press was given by Rev. Mr. Carpenter, and was responded to by representatives of the local press.

The following officers were elected for the coming season:

Hon. President—Mr. Cluxton.
President—Mr. Sanford Hall
Vice-President—Mr. G. A. Smith.
Secretary—Mr. Gerald Hall.
Treasurer—Mr. Fred Cressman.
Representative of Ladies' Tournament—Mr. R. J. Devey.
In Charge of Outside Games—Mr. F. E. Kerr.

General matters were then discussed and the meeting adjourned.

OVER ONE THOUSAND FRENCH-CANADIANS TAKE TRAIN FOR WEST--IN CHARGE OF PRIESTS

Montreal, April 4.—A thousand settlers for various points in Manitoba, Saskatchewan, and Alberta left by the G.T.R. to-day to find new homes along the line of the Grand Trunk Pacific in the far Canadian West. Almost all of these are French Canadians about half of whom are French-speaking people from the New England States, who are being repatriated in Canada. The rest are Canadians from various points in this province, who are going West to aid in the historic work of the French race in extending the boundaries of the Dominion.

SPRING SKIN TROUBLES.

Pimples, Eruptions and "Spotty Complexions."

At this season, scores of people—girls and young women especially—find their faces disfigured by pimples, dark spots, eruptions, etc. The skin needs attention — needs renovating after the trying time it has passed through during the winter.

Just think what it has gone through! You have been out in rain and sleet and snow. You have been at one moment perspiring from skating, or some other exertion. Then you have stood to "cool off." You have spent hours of the day indoors at a temperature equal to summer heat. Then you have covered up your skin except your face—and gone out into a temperature away below zero! No wonder that, with all these changes, the skin of the face and neck shows signs of needing attention.

Zam-Buk and Zam-Buk Soap are the remedies. Smear Zam-Buk lightly over the spots, the eruptions, the sallow patches, at night and wash with Zam-Buk Soap (only 25c per tablet) each day. Then notice how quickly your appearance improves. As the rich, refined, herbal essences sink deep into the tissue, the hard, scurfy-like patches are moved. Better color results. The cells of the skin become transparent. The blood beneath is able to impart its proper coloring to the tissue, and the delicate bloom of health replaces the sallowness and pallor of disease.

Zam-Buk is also a sure cure for skin injuries and diseases. Eczema, ulcers, ringworm, yield to its use. For cuts, burns, bruises, children's rashes, etc., it is unequalled, and for piles, mothers will find Zam-Buk Soap best for baby's bath! All druggists and stores at 50c box for Zam-Buk and 25c tablet (or 3 for 70c.) for the Soap. If you have any difficulty in obtaining, order from Zam-Buk Co., Toronto, and send price.

ROYAL
Special
VAUDEVILLE TODAY
BARTINO'S TROUPE OF PERFORMING
DOGS
DANNY AHERN
The Whistleclerist of Vaudeville.
These are two acts that should prove pleasing to everyone. They both come direct from the Majestic in Toronto. Prof. Bartino's Troupe of Dogs are known as the only original aerial performing dogs, their tricks being altogether different than those performed by any other dogs on the stage to-day. Danny Ahern is considered one of the best whistlers on the American stage to-day.
MOTION PICTURES.
Complete change of motion pictures to-night, all new, all of the latest produced including an excellent drama by the Essanay Co., "The Little Drudge," and beautiful educational scenic pictures, "Givernais and the banks of the Loire, France," another interesting drama, "The Money Lender," and two other pictures.
ADMISSION.
Afternoon 5c. Evening 10c.

Sore Throat Catarrh.

With the many remedies you have tried you surely know that no liquid medicine can cure your throat or nose. Even a gargle only bathes the entrance of the throat—It can't really get inside, nor can it reach the inflamed bronchial tubes.

With Catarrhozone, it's so different from medicine-taking—you simply breathe its healing vapor, inhale its balsamic fumes, which carry cure and relief to the minutest air cells in the lungs, nose, throat and bronchial tubes.

In this scientific way the soreness and inflammation is rapidly allayed, relaxed cords are toned up, the entire mucous membrane invigorated. Every trace of Catarrh disappears, the disagreeable dropping of mucous in the throat, hawking, spitting, and stopped-up nostrils — all these sure signs of Catarrh and bronchitis are permanently cured by Catarrhozone.

CATARRHOZONE
Is Guaranteed to Cure.

Recommended by the medical profession for coughs, colds, bronchitis, sore or relaxed throat, laryngitis, clergyman's throat, smoker's throat, bronchial cold, weak chest, chest inflammation, huskiness, hoarseness, wheeziness, loss of voice, that tickling cough, old age cough, asthma, chest pains and chest tightness, croup, whooping cough, and children's throat and chest weaknesses, and all adult throat and lung ailments.

Beware of the unscrupulous dealer who offers you some cheap substitute; insist on Catarrhozone only. Two months' treatment, $1, smaller, 50c; all reliable dealers or by mail from the Catarrhozone Co., Kingston, Ont.

The Morning Times

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

WEDNESDAY, APRIL 15, 1911.

A CONCERT BY TELEPHONE.

For some time inventors and others have talked about the practicability of bringing all kinds of music into the home by means of telephone wires. The other evening the Waldorf-Astoria Hotel, in Chicago, at the request of invalids or convalescents making their home there, "delivered" music by telephone to their apartments. The music thus transmitted was played by the regular hotel orchestra in the foyer. A combination of megaphone and telephone did the transmitting.

It is likely that this innovation will become a feature of hotel life in the near future. The aged, infirm and sick, if they love music at all, would find much solace in recitals or concerts thus brought to them from a distance. It is conceivable that many who are not infirm will prefer music so delivered to music at the cost of the unavoidable effort, inconvenience and privation attendant on public performances. A concert by wire does not preclude a lounge or rocking chair, frequent changes of position, fresh air in the room, even a cigar or pipe. Moreover, such a concert can be terminated at will without discourtesy to anybody.

There are social "anticipators" who predict the complete disappearance of public opera and public concerts and recitals. They assume that every one will prefer music by wire in his or her own room. This, however, overlooks the social aspect of entertainments, the "infection" of art, as Tolstoy puts it; the joy of communicating and sharing enthusiasm—the enthusiasm of discovery, of surprise, or of rediscovery of beauty and charm. How many of us would care to hear the new Elgar concerto by telephone?

There is, further, the element of personality in the interpreting conductor, the soloist, the favorite player. We like to see a Busoni, a Paderewski, a Kreisler or an Elman at work, as we like to see a great conductor guiding an orchestra and playing upon it as it plays upon instruments. The music lover of the future will miss a lot if he shall be foolish enough to give up "going" to concerts and opera.

A Frenchman claims to have discovered a process which enables him to make paper automobile tires which are resilient and proof against punctures. Well, it is only to be expected that the automobile will be placed within the reach of all just as the aeroplane is ready for practical purposes.

CANADA'S SURPLUS IS THE LARGEST IN HER HISTORY

Ottawa, April 3.—That Mr. Fielding's budget speech to be made tomorrow will tell the tale of a prosperity never before reached in the history of Canada is what is generally expected here.

It is said that the Finance Minister will report to the House the biggest surplus ever held by the Canadian treasury—a surplus of about twenty-seven million dollars.

It is estimated that the revenue of the Dominion will be between one hundred and seventeen and one hundred and eighteen millions, or enough to pay for the whole of the Transcontinental as well as other items belonging to the capital account.

MARTIAL LAW IN COAL FIELDS OF ALBERTA AND BRITISH COLUMBIA

TROOPS ARE ORDERED TO HOLD THEMSELVES IN READINESS.

Threatening Violence—Detachment of Royal Northwest Mounted Police on the Way to the Strike Area.

Lethbridge, Alta., April 3.—Troops were ordered in readiness to-day for transportation to the coal fields of Alberta and British Columbia, where more than 8,000 men are on strike at 10 mines.

Heavy detachments of Royal North West Mounted Police and special deputies are already on their way. The striking miners are threatening violence.

Calgary, Alta., April 3.—Some 10,000 miners have gone on strike in the mines of Alberta and Eastern British Columbia, and not a ton of coal was mined to-day. The provisions of the Industrial Deputies Act have been totally ignored, and Saturday a bomb was thrown into the ranks of the strikers by the receipt of a telegram from the international officials at Indianapolis, saying the strike was called without their sanction. There is to be a meeting at Indianapolis Tuesday to discuss the phase with a delegation which the strikers will send there. If the strike is without international sanction it means that all strike pay will be held up.

THE DUMMER TOWNSHIP COUNCIL

Regular Meeting—Considerable Business Transacted.

The Municipal Council of Dummer met in the Town Hall, on Saturday, 18th of March, commencing at 10.30 o'clock in the forenoon. Reeve and councillors present. Minutes read and confirmed. Mr. Richard Tedford applied to the council requesting to be furnished with one half of the cost of wire for a fence along the road in front of his farm. Moved by Mr. McDonald, seconded by Mr. Payne, that the council take no action to furnish wire for fences along the highway in Dummer at the present time.—Carried. A petition from a number of ratepayers of Dummer was presented before the council by Messrs. D. Barrie and W. Buchanan, asking that the side road be opened up between lots 5 and 6, across the 10th and 11th concessions. Moved by Mr. Greystock, seconded by Mr. Carveth, that the Reeve, Mr. McDonald and Mr. Jacob White, be appointed to examine and report respecting the opening up of the road in question.—Carried. Moved by Mr. Greystock, seconded by Mr. McDonald, that the time be extended 2 years from July next for Mr. J. Newell to remove the timber from the road allowance on the 11th line, opposite lot 13.—Carried. Moved by Mr. Greystock, seconded by Mr. Carveth, that the following accounts be passed for payment and that an order be drawn on the Treasurer for each, viz: W. D. Robson, salary as Assessor, $50; Ernest Carveth, balance salary as Collector, $10. A By-law to appoint the following Pathmasters, Fenceviewers and Poundkeepers in the Township of Dummer for 1911 was put through its readings and passed:—Pathmasters — Ed. Carlow, Ed. Leahy, Uriah Payne, Clarence Watts, Art Edwards, Geo. Harding, Sam Bryson, John Quinlan, L. Webster, Chas. Brown, Jas. Gardner, Wm. Andrews, Jn. Hubble, Con Quinlan, Jn. Clements, jr., Fred Girven, C. A. Calder, Robt. McMaster, H. Humphries, Alex. Ross, N. Collins, Wm. Buchanan, J. W. Burgess, D. Barrie, Geo. Rogers, H. Elliott, Robt. Kidd, Flaglor Bell, W. H. Clydale, F. Kavanagh, Ed. Martin, Robt. Tedford, A. Hendren, R. G. Moore, Jg. Mike, A. Webster, Jn. Jenkins, Geo. Kirk, J. A. McMillan, W. J. Simpweth, F. Lonsberry, A. L. Payne, sen., Jn. Council adjourned to meet on Saturday, the 20th day of May, as a Court of Revision on the Assessment roll, commencing at 10.30 o'clock in the forenoon.

R. Deen, Clerk.

MAIL CONTRACT.

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, 5th May, 1911, for the conveyance of His Majesty's Mails on two proposed contracts for four years, six times per week, each, between: 1, Peterboro and Fowler's Corners; 2, Peterboro and the Township of North Monaghan; both over certain specified roads, dating from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tender may be obtained at the post offices of Peterboro & Fowler's Corners and at the Office of the Post Office Inspector at Kingston.

G. C. ANDERSON,
Superintendent.
Post Office Department, Mail Service Branch, Ottawa, 17th March, 1911.

RL. D EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 500 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $100,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

A BOON TO STOCK RAISERS

To Know How to Cure Colic, Distemper, Colds, Swellings, Etc.—Saves Thousands Each Year.

It is a matter of vital importance to every farmer, horse-owner and stock raiser to know exactly what to do when one of his animals is taken suddenly sick.

The letter of Mr. Frank F. Fullerton, which we print below, gives information of inestimable value, and tells of his experience in curing ailing stock during the past thirty-eight years :

SAVED $1,000 BY NERVILINE

"Several years ago when my horses took colic I used to give them Cayenne Pepper in hot milk, but in a few cases only did it help, and because I had no proper means at hand I lost several valuable animals. Someone told me of the success Mr. Wendling, of Brockville, Ont., had in his racing stables with "Nerviline," so I laid in a supply. It wasn't very long before Nerviline saved the life of a valuable stallion of mine, which was worth at least $1,000.00. This horse was taken with colic, and would have died, had it not been for Nerviline. I have used Nerviline for reducing swellings, for taking out distemper lumps, and easing a bad cough, and always found it worked well. I recommend every man who owns horses or cattle to keep Nerviline on hand."

Mr. Fullerton is one of the best known residents of Stormont, and his recommendation as an experienced and practical horseman proved beyond question how valuable Nerviline really is.

Give Nerviline a trial. It's good for man or beast, internally or externally. 25c per bottle or five for $1.00. At all dealers or The Catarrhozone Co., Kingston, Ont.

INTENSE FEELING AGAINST NEGROES

ONE MAN KILLED AND SEVERAL INJURED AT LAUREL, DELAWARE.

Laurel, Del., April 3.—Intense feeling against the negroes of the town was evident among the whites here to-day, following Saturday night's outbreak, when a party of desperate blacks shot up the town, killing one man and wounding several, and further trouble is feared. Chief of Police Ellis has sworn in a number of specials, and heavily armed, they are to-day keeping guard over the negro quarter to prevent friends of Orem Stockley, who was killed on Saturday night's fight, burning it down.

Three of the rioters are in the Sussex County Jail at Georgetown, but the ringleaders escaped, and are believed to be in hiding across the Maryland line. Should they return, or should any more of those wounded in the initial fight die, it will be a difficult task to prevent a raid on the negro quarter by the infuriated whites.

THE HAREM SKIRT IN PETERBOROUGH

A large crowd of men and women gathered on George street yesterday afternoon to have a glimpse of the "lady" in the harem skirt. The suit was of grey with a red band at the bottom of the trousers, and she wore a brown coat with the words "Murad Cigarettes" lettered across the back. She was accompanied by a gentleman and went south on George street until they reached the Greek's Billard Parlours, where she invited the gentleman friend to aquiet little game of pool.

Her companion asked what she would play, and in a voice like a rasp, the wearer of the harem skirt replied : B-O-S-T-O-N-! While the balls were being racked up, she quietlytook from her pocket a cigarette, and proceeded to smoke.

Meanwhile, the crowds outside was rapidly increasing until the walk was packed with women anxious to have a look, while other ladies, not wanting to miss the chance, stepped into the pool room and watched the harem play pool—and she was certainly some shooter.

Outside the crowds still hung on, straining their necks to look through the window and doors, until P. C. McKinty happened along, and after considering a moment, thought he would like to have a peep too, but the crowd in the spacious billiard rooms almost blocked the view, and thinking that it was no place for him quietly slipped away.

After the game was over, they made their way to the street again, where the procession was once more taken up by the crowd.

He, the lady with the skirt, was representing the American Tobacco Co., and his make-up was very good.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES REPORTERS.

First Drill of the Season.

The 57th Regiment paraded for drill last night in the Armouries for the first time this season. There was a fair turn out of men, most of the companies having their quota. The Band was also out in force.

A Painful Accident.

A young man named Armstrong, an employee of the C.G.E., met with a painful accident on Monday afternoon while operating the large crane, his left hand was drawn into the running gear of the machine and was badly lacerated. Dr. Young had the sufferer removed to Nicholls Hospital where the injuries were dressed.

Work Has Commenced.

Work on the factory of the Bonner-Worth Worsted Yarn Company has been started, excavating being now in progress. The factory will be erected on Macdonnell street, west of Park street, and will be a substantial addition to our local industries. Mr. Wm. Langford has the contract which is a guarantee that it will be properly performed.

Union Not Yet.

Rev. Mr. Rollins, the popular pastor of St. Andrew's church, was in Port Hope on Monday night, attending ameeting in connection with the proposed union of the two Presbyterian Churches of that town. Dr. Marsh of Springville, also favored the union, but the matter was left over indefinitely.

One Year in Prison.

His Honor Judge Huycke sentenced Alfred Meakins yesterday afternoon to a term of 12 months in the Central Prison. Meakins was convicted of assaulting and robbing Wesley Wescott on Simcoe street a few days ago. Mr. G. N. Gordon defended the prisoner while Mr. R. E. Wood, County Crown Attorney, acted for the prosecution.

Fell Through Glass.

An accident which might have proven serious happened to Cecil Wolfe about four o'clock on Tuesday evening, at the store of J. T. C. Lang. While dressing an upper window he was unfortunate to slip off a seat and fall through the glass. Dr. Leach was summoned and attended to his injuries.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from loaf sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. For sale by all dealers.

Fly the Flag.

The following is the list of days on which flags must be displayed on public buildings throughout Canada, namely: March 1, St. David's Day; March 17, St. Patrick's Day; April 23, St. George's Day; May 24, Victoria Day; May 26, Queen's birthday; June 3, King's birthday; June 24, Prince of Wales' birthday; June 24, St. Jean Baptiste Day; July 1, Dominion Day.

An Interesting Lecture.

A very interesting and instructive lecture was given last night in the Baptist Church by Rev. F. Rosworth, of Montreal, the occasion being the anniversary of the Ladies' Mission Circle of the church. The lecture had to do with the Evangelization of the French Canadians, and was illustrated by about one hundred splendid views showing the progress of the work which has resulted in the establishment of the great college owned by the Baptists, and which is taxed to the utmost capacity to accommodate the French Canadians who are seeking educational advantages. The speaker said that hundreds of French Canadians have renounced Rome and are occupying most responsible positions in this and other countries. There was a large attendance, and the lecturer was given a hearty vote of thanks at its conclusion.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mr. A. Lane went to Port Perry yesterday on business.

Mr. Cavanagh left on the 11.45 G. T. R. yesterday for Seattle, Wash.

Mr. Thos. Twomey, of Ennismore, left for Winnipeg on the 11.45 yesterday morning.

The many friends of Mr. Jack Collins will be pleased to learn that he is able to be about again after an attack of pneumonia.

Mr. Fred. Lund, who has been connected for many years with the Munroe House, left on an extended trip to the west.

Lady Ritchie of Ottawa, is ill with an attack of pneumonia, and not expected to recover. Her son, Mr. Hazen Ritchie, went to Ottawa on the midnight train Sunday.

The many friends of Miss Lillie Yenney, Weller street, will regret to learn that she is seriously ill at her home, and will extend to her best wishes for a speedy recovery.

Mr. M. M. Boyd, Bobcaygeon, left for England Thursday. He will be absent for a couple of months on business.

Mrs. Wm. Croft's condition remains much about the same. There is no improvement, we regret to say, and little or no hope for her recovery.

Lindsay Post. Mr. G. W. Johnston, of Peterboro, spent the past few days with his son, Mr. Sid Johnston. He returned this morning.

Miss Helen Mason, of New York, trained nurse, returned home on a visit to her mother, Mrs. Frank Mason, who is quite ill.

Mr. Samuel Henderson, brother of Dr. Caldwell, who has his summer home at Stony Lake, accompanied by his wife, daughter and niece, will sail from New York this morning on a three months' trip to Berlin and the Continent.

Beware of Ointments For Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Sold by Druggists. Price 75c per bottle.

Take Hall's Family Pills for Constipation.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents . . . . . .

MIXED MARRIAGES.

Editor Morning Times.

Sir,—In a late issue of your widely read journal, you say that the Papal decree is retroactive. You are mistaken, as it states plainly that marriages contracted before the issue of the decree are not affected.

Now, if Catholics persist in going contrary to the decree they will have to abide by the consequences, but they cannot claim the decree as an excuse to evade the legal requirements of the civil contract, and as long as the contracting parties are determined to defy the laws of the church the clergy will not interfere, but when the Catholic party wants to receive the rites of the Church he is then told that he cannot receive those rites while he is living in opposition to the laws of the Church.

—A Catholic Layman.

AN APPALLING SITUATION.

Editor Morning Times.

Sir,—We are writing the Editors of our Dominion asking their co-operation in securing help for the famine-stricken Province of Anhui and Kiang-su in China, where nearly three million people are destitute and perishing.

The conditions there are appalling. The harvest was all destroyed by the terrible flood, and no food can be had from the soil until June or later. Many villages were entirely swept away and the people left homeless and in dire distress. Multitudes gather together in great camps; those who are strong enough wander over the hills, pulling up roots of weeds for fuel in cooking the pittance of rice they may receive from the relief agencies. The suffering is terrible. Thousands of tottering babies, boys and girls clad in rags—if clad at all—are about everywhere; old men and women hobble about leaning on sticks for support, or lie by the wayside, their eyes stating up in mute appeal. Many thousands have perished, and it is estimated that over a million will die unless help is IMMEDIATELY sent.

The Chinese Consul General at Ottawa writes that the distress is indescribable. The Honorary Secretary of the Distributing Committee in Shanghai, cables that the famine area is larger than at first believed. Bishop White, of Honan, cables an urgent appeal for help.

The One Hundred Thousand Dollars asked from Canada to help meet this awful situation should be easily and immediately secured. ONE DOLLAR AND FIFTY CENTS WILL SAVE A HUMAN LIFE. How many will your readers save?

The Editors of our country can do more than any other class to assist in this work. We ask you to make a strong appeal through your paper, making use of this letter as you may think necessary, noting that His Excellency Earl Grey, His Honor, the Lieut.-Governor, J. M. Gibson, and the Hon. Sir James Whitney are giving this movement their hearty support. We suggest that in making the appeal you give your readers the alternative of sending contributions direct to the Treasurer of the Central Committee, Mr. S. J. Moore, 145 King Street, West, Toronto, or sending to you, and that in the latter case you acknowledge all such contributions through your columns, and remit weekly to the Treasurer, Mr. Moore.

Trusting that in response to this cry of suffering humanity you will do all you can and that we may receive a reply from you, and a copy of the paper containing your first appeal.

On behalf of the Committee, we are

Yours sincerely,

D. E. Grundy, Secretary.

W. A. Charlton, Chairman.

O'K

Extra Mild, Remember

Many people would drink ale, in preference to all other malt beverages, if ale did not make them bilious.

This O'K brew is brewed especially for those people. It is extra mild and extra light, and lets you enjoy the creamy deliciousness of real old English ale without the heaviness and excessive bitterness. In easily—opened seal stoppered bottles. No broken cork or tinfoil in the glass.

O'Keefe's Special Extra Mild ALE

"The Beer that is always O.K."

LITTLE LOCAL LINES

Mr. J. R. Bell, the enterprising Hunter street grocer, is making extensive alterations and repairs to his store.

For soreness of the muscles whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all dealers.

The Chinese Famine contributions now amount to $300.75. Mr. John Crane, the treasurer of the fund will be pleased to have further subscriptions.

Mr. Jas. Haggart took a spin down the river as far as the first bridge on Monday in his gasoline launch, the river being almost free from ice.

Subscribers to the Times are earnestly requested to report irregular delivery of the Times.

A wages dispute between local men was settled in the Police Court yesterday morning. His Worship Magistrate Dumble thought that the men could settle the matter better out of court, and advised them to do so. The case was accordingly dismissed.

VOL XXXIV NO. 78 PETERBOROUGH, ONTARIO, THURSDAY APRIL 6 1911 PRICE TWO CENTS

JAPAN GRANTS BIG CONCESSIONS TO BRITAIN

NEW ANGLO-JAPANESE COMMERCIAL TREATY FAVORABLE TO BRITAIN.

Many Tariff Reductions—Japan Will Still Have an Open Market In Britain for Specialties—In Force Twelve Years.

London, April 5.—The new Anglo-Japanese commercial treaty which was ratified at Tokio yesterday, provides for reductions in the rates of the new Japanese tariff on the chief British textiles and metal imports in Japan. In the case of grey cotton tissues the duties are reduced from one-third to one-fourth, and on the most important tissues pure wool and cotton mixed, and linen yarns a reduction of one-fifth is made.

JAPANESE SPECIALIZE FREE.

On certain classes of iron and steel plates, including galvanized sheets and tin plates, there is a concession of from two-ninths to two-fifths per cent.; on pig iron one-sixth, and on paints one-third per cent. Specialties in Japanese manufacture will continue to be admitted to the United Kingdom duty free. The treaty will remain in force twelve years.

SWEPT BY A BLIZZARD

Thousands Sheep Killed—Damage Will Reach Hundreds of Thousands—Towns and Villages Cut Off From Outside World.

London, April 5.—England and Wales are in the grip of a severe blizzard to-day which has crippled traffic and all systems of communications, and has already caused hundreds of thousands of dollars worth of damage. The blizzard was accompanied by a terrific northwesterly wind which caused great suffering. The storm was most severe in the Welsh Mountains, where the drifts are piled many feet high.

Scores of villages and towns are cut off from the outside world. Wires are down and roads are impassable. Railroad and train traffic is practically at a standstill. The worst damage to stock was done in Cumberland and West Moreland counties, and, it is believed, that thousands of sheep and lambs have perished in the cold.

All of northeast Kent is cut off owing to the heavy fall of snow which blocked the roads, and high winds which blew down wires. No loss of life was given in the latest reports.

NEGROE ATTACKS A WHITE GIRL AT EDMONTON--WEST AROUSED AGAINST BLACKS

Winnipeg, April 5.—The attack which was made last night at Edmonton by a negro upon a white girl has started afresh the agitation against the immigration of colored people. Representations will be made to the Department of the Interior to do something to stop the invasion from Oklahomo, which it is said is likely to reach enormous proportions.

The negro last night drugged Mabel Huff at her home, Sixth avenue and robbed the house. She was alone at the time when he forced his way in and gagged and drugged her. Robbery was apparently the only motive.

A big negro, J. F. Wisue, has been arrested on suspicion. Feeling is very strong in Edmonton.

MR. FRED CROMPTON WAS FINED $400

Or Thirty Days at Hard Labor for Illegally Pledging the Notes of the Farmers' Bank.

Toronto, April 5.—Frederick Crompton, of the Crompton Corset Co., was to-day fined $400 or, in default thirty days in jail with hard labor, by Judge Winchester this morning in the County Judge's Criminal Court. The charge against him was that he "did accept and take in pledge notes of the Farmers' Bank of Canada to the amount of $50,000, contrary to section 139 of the Bank Act, chapter 29, revised statutes of Canada, 1906."

NEGLECTED COLDS
Lead to Consumption

Unless a complete cure is effected, the inflammation passes rapidly to the throat, bronchial tubes, and then to the lungs.

You can't make new lungs any more than you can make new fingers or a new nose—hence consumption is practically incurable.

But Catarrh can be cured, except in its final and fatal stage.

Catarrh sufferers, meaning those with colds, sore throat, bronchial trouble, etc., can all be cured right at home by inhaling "Catarrhozone."

In using Catarrhozone you don't take medicine into the stomach—you just breathe a healing, piny vapor, direct to the lungs and air passages.

CATARRHOZONE
Guaranteed to Cure

The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance, and cure comes quickly.

Colds and throat troubles can't last if the pure healing vapor of Catarrhozone is breathed—sneezing and coughing cease at once, because irritation is removed.

Use Catarrhozone to prevent—use it to cure your winter ills—it's pleasant, safe, and guaranteed in every case.

Two months' treatment, large size, guaranteed to cure, price $1, small size, 50c at all dealers. Beware of substitutes and imitations. By mail from the Catarrhozone Co., Kingston Ont.

DEMOCRATS NOT GOING TO LET

[THEY WILL INTRODUCE A NEW RECIPROCITY BILL]

REPUBLICANS STEAL THEIR PLANK

DESIRES QUICK ACTION ON MEASURE

Washington, April 5.—President Taft desires quick action on the measure on account of the fact that business in the Canadian Parliament is being held up pending the action of the American Congress upon the reciprocity pact.

The Democratic reciprocity pact will not encounter real danger until it reaches the Senate. There are both Democrats and insurgents in the upper house who are hostile to the measure and they are carefully planning its annihilation just as it was killed in the Senate in the last Congress.

PRESIDENT SENDS BRIEF MESSAGE TO CONGRESS URGING QUICK PASSAGE OF THE AGREEMENT WITH CANADA.

Hostile Senators Hope to Block the Measure—Framing Up the New Bill.

Washington, April 5.—The second day of the extra session of the sixty-second Congress opened with a wrangle over the rules to be adopted by the New House, which developed into a filibuster led by Representative Mann, minority leader.

The debate on the rules will occupy the entire session for to-day.

Washington, April 5.—Angry because the Republicans stole a march on them by Representative McCall, Republican of Massachusetts, introducing the McCall Canadian reciprocity bill in the House, Democratic representatives set out to-day to offset this theft of Democratic thunder by framing a reciprocity bill of their own which they will substitute for the original McCall bill.

Despite the fact that Speaker Clark does not mention reciprocity in his "speech of pledges" in accepting the Speakership of the House, the Democrats are apparently committed to it through their platform of tariff changes. President Taft is said to be entirely satisfied with the outlook for his pet measure in the present Congress. His feeling of security being strengthened by the compact organization of the progressive Republicans in the upper chamber.

FRAMING UP NEW BILL.

According to the tentative plans under discussion by Democratic leaders, the new reciprocity bill, framed for introduction by a Democratic will embody all the principles of the McCall bill, changes being of no primary importance and only written into the measure to allow of its introduction and precedence over the McCall bill.

The new reciprocity bill will probably be introduced in the House within the next fortnight by Representative Oscar Underwood, of Ala., chairman of the House Ways and Means Committee. It is unlikely that there will be much delay over the measure there, due to the fact, that in the discussions of the last session of the sixty-first Congress, the various features and clauses of the act were gone into in detail.

These discussions developed all the information necessary to a thorough understanding of the measure.

PLANNING TO KILL IT.

The plan in the Senate is to defeat the measure with an amendment including articles not mentioned in the original draft. The discussions of the "most favored nation" feature of the Canadian reciprocity acts in both Paris and London since the adjournment of last Congress will be used by opponents of reciprocity. They will point to the possibility of tariff embroilments with foreign nations if concessions are granted to Canada which are not given other nations. However, despite all these fears, President Taft evidently looks for success in the Senate as well as in the House.

A new element which gave rise to considerable discussion to-day develops from the Democrats' plan of introducing a new reciprocity bill.

The main question which is being asked is: "Will President Taft affix his signature to a Democratic measure?"

MOBERLY BELL DEAD

Died While at His Office—Was Delicate as a Youth and Given Only Six Months to Live.

London, April 5.—Charles Frederic Moberly Bell, managing director of the London Times since 1908, died suddenly at his office to-day of heart disease. He was born in April, 1847, the son of the late Thomas Bell, of Mr. Bell was a big heavily framed man, not stout, but apparently very powerfully built. In 1865 when he was 18 years old the doctors gave him six months to live. "The day Lord Northcliffe was born," he said, "I went off to Egypt. Cholera was raging there."

"Then, why choose Egypt?" he was once asked.

"Well, I thought I might as well die of cholera as consumption, and so went into business there."

Referring to the Soudan campaign he said:

"I would have gone, but broke my leg. I was in the hospital from September, '84, to January, '85, with a compound fracture and had to have 21 operations. Eventually the ankle bone was taken out, rendering me lame for the rest of my days. I had that bone made into a head for my walkingstick, so that you see it still supports me. Some of my friends suggested that I better have it made into a cigarette holder, but I feared people might say that whenever I opened my mouth I put my foot in it."

Beware of Ointments For Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Sold by Druggists. Price 75c per bottle.

Take Hall's Family Pills for Constipation.

SHOT FARMER AND HIS DOG

JOHN McDOUGALL, WHO LIVES 15 MILES FROM NORTH BAY IS IN JAIL.

Killed Lawrence Morin—Had Trouble Over Wages and Dog—Both Men Had Large Families.

North Bay, April 5.—As the result of a quarrel yesterday morning between neighboring farmers in Widdifield township, about fifteen miles north of North Bay, Lawrence Morin lies dead, and John McDougall, 52 years of age, is locked up in the police station, the admitted slayer of farm about two miles apart.

MacDougall and Morin lived on farms about two miles apart, and McDougall was working for Morin, taking out poles on contract. Yesterday McDougall went to see Morin to get some money on his wages. He found Morin in the bush alone with his dog. McDougall claims that the dog was vicious, and that he took his shotgun along to protect himself against the animal. Morin became angry when asked about the money due, and according to McDougall's story, set the dog on him. He claims that he warned Morin that he would shoot the dog if he attacked him. Morin persisted and McDougall fired at the dog, but the charge entered the head of Morin.

Then McDougall states, he fired the other barrel and killed the dog. He left Morin lying dead in his tracks, and went home, afterwards going to the township magistrate and giving himself up. McDougall was brought to North Bay and locked up. An inquest will be held to-day at North Bay.

Morin was a man about fifty years of age and had a wife and large family. McDougall is also married, with a grown-up family, and seems to feel his position keenly.

Five hundred million Bibles have been sold during the past 400 years. It is only proper to say that a small percentage of them were bought for the mere purpose of having some place in which to keep birth and marriage dates.

SPECIAL MEASURES TO GUARD LIVES OF VATICAN INMATES

Rome, April 5.—After to-day every visitor entering the Vatican will be searched for concealed weapons. The authorities decided upon this course as a result of the outbreak of the supposed maniac, Pietro Pesanti, in St. Peter's yesterday, when he fired several revolver shots at the canons who were engaged in the recitation of the breviary "in choir."

Pesanti was again examined by the police to-day. He admitted the attempt at assassination, declaring that he had tried to kill papal secretary Cardinal Merry del Gat and Cardinal Rampolla.

"I hope my action will encourage other anti-clericals," he declared to the police.

DODD'S KIDNEY PILLS
25 THE P...

WILL BUILD NAVY.

Constantinople, April 5.—Armstrong-Whitworth & Co., Limited, of London, have been awarded the contract for the vessels of the new Turkish navy, consisting of three battleships of 16,500 tons each, and several smaller craft. The original tender of this firm was $425 per ton, and they received the contract only upon reducing their price to $400, the figures submitted by the Palmers Shipbuilding and Iron Company, Limited, of London, in conjunction with the Bethlehem Steel Company.

THE WEATHER.

A little lower temperature with thunderstorms.

DEATH AND RUIN IN PATH OF CYCLONE

Shelbyville, Ind., April 5.—Two persons are reported dead and several severely injured in a cyclone which struck Selby County at midnight. Houses were demolished and the highways strewn with telephone poles, trees and other debris.

The reported dead are: Timothy Lewis, 54 years old, and his daughter Louisa, aged 7 years. They were buried in the ruins of their farmhouse a mile north of this city.

The injured are: Mr. and Mrs. Edward Moberly, neighbors of the Lewis family.

CYCLONE CAUSES DAMAGE.

New Orleans, La., April 5.—Heavy damage was done in the States of Mississippi Louisiana, Florida and East Texas by the cyclone of yesterday, according to reports received here to-day. The British steamer, Hannah M. Bell is in distress off the Florida reefs. A number of small craft have been wrecked.

DEVASTATED BY STORM.

Mobile, Ala., April 5.—Though a large district of Alabama, which was devastated by yesterday's hurricane, was still cut off from the outside world to-day, belated reports from towns on the edge of the zone of devastation stated that hundreds of thousands o dollars damage had been done, and many persons were injured by flying debris, although none were reported killed.

NEW BRUNSWICK LEGISLATURE OPPOSED TO RECIPROCITY

Fredericton, N.B., April 5.—The New Brunswick Legislature to-day voted down endorsement of reciprocity between United States and Canada by a vote of 15 to 29. Liberals composed the opposition.

ON A STRAIGHT PARTY VOTE.

Fredericton, N.B., April 5.—(By Canadian Press)—At two o'clock this morning the amendment of Hon. C. W. Robinson, Opposition leader, endorsing reciprocity and favoring an increase of the British preference to fifty per cent., was defeated in the New Brunswick Legislature on a straight party vote, 29 to 15.

OBITUARY

DEATH OF MRS. RICHARDSON.

A very sad death occurred in Nicholls Hospital last night when Mrs. Christie M. Richardson passed away at the early aged of nineteen years. The deceased's maiden name was Chloe Myrtle Doxee.

The funeral will take place on Friday morning from 493 Bolivar street. Interment will take place at Pontypool.

MRS. ANNA HUMPHREYS.

Mrs. Anna Humphreys passed away at Nicholls Hospital Tuesday night, after a lingering illness. She was the relict of the late Mr. J. Humphreys, and came to Canada from Scotland when a young girl. Her long and unselfish life had made hosts of friends wherever she was known. She leaves six children, three sons and three daughters. The daughters are Mrs. Thompson, Gladstone, Man.; Mrs. Murray, Hastings, and Mrs. Francis, Peterborough. The sons are: George in the West, Willian and Harold at home, in Westwood.

The funeral will take place to-morrow at 2 o'clock from the family residence in Westwood and proceed to Westwood cemetery for interment.

MARAGARET RENA McCARNEY.

Miss Margaret Rena McCarney, daughter of Mr. and Mrs. John McCarney, 21 Bethune street, passed away yesterday at noon, aged 21 years. She had been ill for some months, and her death was therefore not unexpected. She leaves to mourn her death three sisters and two brothers. Misses Catharine, Martha and Geraldine, and the brothers are John and William, who all reside in the city. The funeral will take place this afternoon at 2.30 from the family residence to the Church of the Sacred Heart and thence to St. Peter's cemetery.

ADVERTISE IN THE TIMES.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

CRUELTY TO ANIMALS.

Editor Morning Times.

Sir,—A letter appeared in one of our local papers the other day, in which fault was found with a boy for abuse of a horse. I think, Sir, the police should make an example or two of these brutes in human guise, for their cruelty to the dumb beast. Yesterday a pair of half drunken young men drove along Mark street, Ashburnham, pounding their poor horse unmercifully. The unfortunate beast was evidently hardly able to walk, let alone run. By all means have the police do their duty.

—An Eye Witness

CHEAP RAILWAY RATES.

Editor Morning Times.

Sir,—I see that the Board of Trade of Orillia has succeeded in getting the Grand Trunk to give cheap Saturday rates to that town. If this is true (I saw the item in The Times), it is up to our Board of Trade to get busy. Peterborough is by far the most important centre in the Toronto and Ottawa district, and there should be some advantage in this. Our Board of Trade appears to be asleep, or they would have been after the cheap rates long ago.

—E. F. Harris.

INDUSTRIAL COMMISSIONERSHIP.

Editor Morning Times.

Sir,—I see the question of an Industrial Commissioner is again to the fore, and I would suggest that the Council go a little slow in dealing with this matter. I would like to know what has been the direct result of the work of that department for the past year. What have we got for an expenditure of over $4,000? I can understand how badly handicapped a man is who attempts to secure industries for a place which has no real inducements to offer in the shape of cheap power. Notwithstanding our great power development on the river, Peterborough seems to be in bad need of power.

I think it would be well if our council would have a statement published in the local papers, showing exactly what has been accomplished by our Industrial Commissioner's department during the past 12 months. Then the people will be able to judge whether or not it is worth while keeping up the expense.

—Tax Payer.

HON. MR. STRATTON AND THE WEST.

Editor Morning Times.

Sir,—I hope that Hon. Mr. Stratton will hesitate about changing over to the east. I am sure all will admit that our member is the most capable man that has ever represented us in parliament. No matter what his politics are, he is the strong man on the spot, and is able and not afraid to enforce his demand when the interests of his constituents are at stake. I have long been watching the political game, and fail to see what we could possibly gain by losing Mr. Stratton. There is only one thing that I think he is astray on, and that is reciprocity. I cannot conceive how he can support the Government in this matter, and be true to his constituents. He must know that they are 4 to 1 against the proposed pact. If he would only make up his mind to come out flat against the proposed treaty, he would at once become the most popular man in the county, and the idol of the people. Nor would his popularity be confined to his own home, but it would be general throughout the country.

If a few men like Mr. Stratton would do this, the Government would I am sure, change their tactics, and kill this foolish measure. In other words, he would save the party from certain defeat at the next general election.

—A Stratton-Conservative.

THE INDUSTRIAL COMMISSIONER

Editor Morning Times.

Sir,—Until we are in a position to offer substantial inducements in the form af cheap power, it is useless to keep up the expense of an Industrial Commissioner's office. I would suggest that a couple of hundred dollars be added yearly to the salary of our popular and efficient City Clerk, or give him a capable assistant and he will be able to look after this work in a most satisfactory manner.

—Economy.

THURSDAY, APRIL 6th, 1911.

THE PORTUGUESE REPUBLIC.

It has been nearly six months now since the King of Portugal was exiled from his throne, and the republic was declared. That there has been little faith in the new government is evidenced by the fact that so far no great power—not even the United States or Great Britain—has offered to recognize the republic.

The world's attitude toward the revolution in Portugal is one of waiting to see what Theopile Braga, the temporary president, and his fellows will be able to accomplish.

So far, at least, they have apparently accomplished little. If the Republic has been maintained for so long a time, it has been largely because of the fact that the army was on the side of the republic, and has by sheer force of power overawed any opposition. Yet, even though the army in Portugal has been its main strength, it has been also its main source of weakness. For, with the utter disorganization of the government, which followed the expulsion of King Manuel, came a period of chaos out of which the only clear note that emerged was the cry of the unpaid army for its wages.

In this semi-chaotic condition, the Portuguese Republic has continued since the expulsion of the King. The most ardent friends of the republic in Portugal have agreed that the only solution of the difficulty was to submit the whole question of government to the people, and, although the date of the election has been postponed from time to time, it has been set at last for May fourth.

It will be an election unique in history. Already the republicans in Portugal are split into various factions, each of them has a candidate. The one undivided party in Portugal is the Monarchial party and the agents of the King are now busy throughout the kingdom urging the claims of the exiled monarch, who is now in England.

It may well be that, in the election in May, the most popular candidate will be found to be King Manuel who thus elected King over the country, whose throne was his by inheritance, will return in triumph. This will put an end to the republican experiments in Portugal.

It must always be remembered that the Latin countries have not proved themselves fit for republican form of government. Spain tried not long ago to establish a republic, and failed. It seems very likely that Portugal is about to follow the example set by Spain.

WOMEN WHO DO THINGS.

The women of the State of Washington, enfranchised within the past month, are moving on from victory to victory. What may be described as their winning of the third round—following their recent triumphs at Seattle—has just taken place at Olympia, where they have secured the defeat of a bill which would have legalized prize fighting in their state.

Woman has been putting up all through the ages with a variety of evils, major and minor. Her sense of justice has been outraged, and her sensibilities have been too often offended. The civilized state will be the reasonably feminised state. There are worse things than prize fighting per se, but the fact is that prize fighting, per se, hardly exists. It is attended almost invariably by a train of evils that are injurious to any community and are especially offensive to the feminine half of it. The women of Washington seem ready and willing to improve their opportunities, whether big or little, as they come. Many recent straws point to that state as likely to become before long one of America's most pleasant and agreeable places of residence, for woman, the natural-born putter-of-things-to-rights, is there exerrising her own peculiar gifts.

A COLONIAL PREMIER OUTLINES AN EMPIRE PARLIAMENT PLAN

Sydney, N.S.W., April 4.—Sir Joseph Ward, the Prime Minister of New Zealand, speaking here last night at a farewell banquet given in his honor delivered an important address on imperial unity and co-operation for the defense of the Empire.

He declared that Great Britain's supremacy on the seas was a necessary condition of the maintenance of her proud position among the nations. It was idle to deny that the naval development of foreign powers had greatly expanded. Consequently the maintenance of the two-power standard was becoming impossible for Britain unaided, and the vital question for the empire's political leaders was how effective and permanently to maintain the two-power standard.

"We cannot continue to expect the British taxpayer to provide for our protection," Sir Joseph continued, "as he has done in our infancy and youth. We must contribute in proportion as we have advanced to manhood to our own protection and also to the empire's."

IMPERIAL M.P's.

Without committing himself he suggested the creation of an imperial house of representatives, returned on a basis of population, and an imperial senate, to which each portion of the empire would elect equal numbers of members, such as parliament to be strictly limited to the consideration of the imperial questions mentioned and to adjust and determine the contributions for imperial defense of each dominion represented.

It would also determine the need and extent of local defenses throughout the empire. Its aim should be the creation and maintenance of an invincible navy, capable in all likely conditions of keeping open the highways for trade and protecting to the fullest extent interimperial commerce.

Organized imperial unity must be based on increasing contributions from the dominions, but no system was possible which, while increasing these contributions of the young nations, should refuse them a voice in the vital operations for which they were made.

KING'S PART.

If such a scheme could be made practical and effective, the imperial parliament of defense might quicken and stimulate unity in the widest sense by sitting not only in London, but periodically at Ottawa; Capetown, the federal capital of Australia, and Wellington, and possibly the king might, when practicable, open parliament in these centres.

Sir Joseph Ward declared that so strong were now the ties locally, so determined were the dominions to maintain the empire's naval supremacy and so rapidly were the wealth and population of the dominions increasing, that under a properly organized union, with a just distribution of burden, a united British empire of defense could, and would, if needful, provide a large contribution of dreadnoughts to the present naval strength.

RACE WAR AMONG THE UNITED STATES SOLDIERS NARROWLY AVERTED

San Antonio, Texas, April 4.—A race war in San Antonio has been averted by orders for the removal of the colored troopers of the Ninth Cavalry from General Carter's division camp. Feeling between white and negro soldiers over the refusal of the latter to obey "Jim Crow" and other municipal regulations had reached a climax when President Taft consented to the immediate removal of the soldiers to the border for patrol duty, where the colored soldiers cannot reach the cities.

RAIN DISGUSTS SOLDIERS.

Slopping about in the mud with tents flooded, streets boggy, blankets damp and a sufficient drop in the temperature to make the camp cold and miserable, there are a lot of disgusted soldiers at Fort Sam Houston wishing heartily they were back in their comfortable barracks.

MUST RETURN PLUNDER.

The rebel junta here has reports from Tamaulipas to the effect that a body of insurrectos raided the American colony at Columbe and drove off a number of valuable mules and cattle.

This act has been discountenanced and the rebels warned to return the stolen plunder, and in the future to let American property alone.

DESTROYING RAILWAY PROPERTY.

Agua Prieta, Mexico, April 4.—Insurrectos are again raiding railroad property near Agua Prieta. Rurales sent out to guard railroad laborers report that a bridge and several miles of trestlework on the Nacosuri line has been destroyed, holding up all trains.

The Mexican town of Arizpe, defended by 300 Federals, is beseiged by insurrectos. The defenders have one machine gun.

The little town of Caboraca, 75 miles from Nogales, has fallen into the hands of the revolutionary army.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise eearning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

DEPARTMENT OF RAILWAYS AND CANALS.

Ontario—St. Lawrence Canals.

Galops Canal.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Improving Upper Entrance to Lock, No. 28," will be received at this office until 16 o'clock on Friday, April 15th.

Plans, specification and Form of Contract to be entered into can be seen on and after March 18th, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of Tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labour, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $6,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, March 21st, 1911.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Library Voting Contest

TWO HANDSOME LIBRARIES OF 50 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 50 volumes and handsome sectional bookcases will be given by votes to the lodge, church, society, school or other organization in the City of Peterborough, and one library of 50 volumes to the schools, lodge society, church or organization in the County of Peterborough, outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, Sept. 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the E. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough, and the County of Peterborough, outside of Peterborough, having the largest number of votes will be awarded the libraries.

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily, and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be secured :—

Dying of Cholera

Local Physician Says Thousands Dying in Europe Can Be Saved with Proper Medicine.

What is it that keeps down cholera, cramps, and summer complaints in America? Ask any doctor or live druggist and he will tell you "Nerviline." Just fancy, a million bottles are sold every year to people who use Nerviline for stomach disorder, cramps, flatulence, and summer complaint. For fifty years in most Canadian homes no other pain-relieving medicine but Nerviline is kept. Nothing cures the aches, pains and sickness of the entire family so quickly as Nerviline.

LETTER NO. 4672

"As far back as I can remember, at least 50 years ago, there was never a time that our house was without "Nerviline." In the summer time, when the children ate green apples and got sick with diarrhoea and cramps, it was Nerviline that cured them. My father used Nerviline frequently to cure gas on his stomach and acute indigestion. There are but few minor ailments that Nerviline does not cure, and I know of no medicine so useful; in fact, so indispensible around the home as Nerviline."

This letter, written by Mrs. N. C. Butcher, a well-known resident in Battersea, shows the high opinion entertained of Nerviline by those who have used it constantly for nearly half a century.

You'll never regret using Nerviline. Get it to-day, keep it on hand for an accident or sudden case of sickness in your home. Refuse anything else offered you instead of Nerviline. 25c per bottle, or five for $1.00. All dealers, or the Catarrhozone Company, Kingston, Ont.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES REPORTERS.

Basket Ball.

The intermediate and Collegiate teams of the Y.M.C.A. will battle on Friday night for the Intermediate Championship Cup.

St. John's Last Night.

Rev. H. Earle, of Omemee, delivered the Lenten address at St. John's last night to a large congregation.

Senior Class.

The Y.M.C.A. Seniors got in good work in their work-out last night in the gym. Many members were present.

Physical Committee's Meeting.

The Physical Committee of the Y.M.C.A. held a successful meeting last night. All the members were present and the monthly report for the board meeting was made up.

Carried Their Lady Friends.

The walks of the city are in bad shape on account of the sleet and rain. Yesterday morning a young man was seen to pick up a young lady and carry her over the submerged crossing.

Boys' Department Banquet.

The Boys' Department of the Y.M.C.A. hold their annual banquet tonight at the association building at 7 o'clock. All the boys are requested to be present and a good time is expected.

New Band Instruments.

The S.A. Band are determined to become a musical organization of more than local importance. They have recently purchased a full sized military drum of the very best quality, and in addition two new silver-plated instruments. The drum and instruments will be dedicated at tonight's meeting.

Sewing Party To-day.

A sewing party will be held at the Children's Shelter to-day, when the ladies of St. Luke's Church, will take charge of the work. The regular monthly meeting of the Children's Aid Auxiliary will be held after the sewing. A full attendance is particularly requested.

Will Stand by the Bible.

Those associated with the Gospel Hall are to hold a conference of Christians, lasting three days. Only those who are willing to stand by the Bible in its entirity will take part in the proceedings. There will be four meetings every day, closing with a special meeting Easter Sunday night. A large number of invitations have been sent to London, Hamilton, Toronto, Belleville, and many other smaller places. All the visitors from out of town will have all meals served in the Hall, and be entertained in homes at night.—Com.

Lindsay Wants Cheap Rates.

At a meeting of the Lindsay Town Council Ald. Naylor stated that he noticed in the newspapers that the Grand Trunk advertised cheap rates every Saturday to Orillia, and he thought that Lindsay should also receive the same benefit. Clerk Ray stated that he understood that the same cheap rates were in force on the C.P.R. and G.T.R. from Toronto to Lindsay every Saturday during the tourist season.

To Issue Marriage License.

We notice, our old friend, Mr. Wm. Gallon, of Apsley, has been appointed issuer of marriage licenses for the northern portion of the county. We can reasonably expect a boom in marriages right away, as Mr. Gallon is quite popular with the ladies, and will easily persuade prospective benedicts to forsake their evil ways and enter the blissful married state without delay.

New Dog By-law.

In the new dog by-law it is provided as follows: For a dog, where there is but one, $1; for each additional dog, $2; and for a bitch, where there is but one, $3; and for each additional bitch $5. Although the above was published in our report of the proceedings of the Council, we give it again, so that those having one or more dogs may take notice and govern themselves accordingly.

A Fine New Warehouse.

Mr. Chas. Rishor, wholesale grocer, has completed arrangements for the erection of a fine warehouse and business offices on the property which he purchased some months ago, on the corner of Simcoe and Bethune streets adjoining the Grand Trunk tracks. The building will be modern, and will be sufficiently large to accommodate the rapidly increasing business which Mr. Rishor is rapidly developing. It is expected that operations will be started in a few days.

Low Rates For Easter.

Via Grand Trunk Railway System. Return tickets at single fare (with minimum charge of 25 cents) between all stations in Canada, also to Niagara Falls, and Buffalo, N. Y., Detroit and Port Huron, Mich. Good going April 13, 14, 15, 16, 17th. Return limit Wednesday, April 19th, 1911. Full particulars and tickets from any Grand Trunk Agent, or address A. E. Duff, District Passenger Agent, Toronto, Ont.

Centre Smith Farmers' Club.

Tuesday evening, the Centre Smith Farmers' Club was favored with highly instructive addresses on "Alfalfa Culture," by Mr. Marsh and Mr. Nixon of the Farm and Dairy Staff. Those present hope that these gentlemen may visit them again. Mr. Cowan, editor in chief, has kindly consented to deliver a lecture on "Single Tax" in the same hall, on Tuesday, 18th inst. All are cordially invited to attend. C. E. Moore, secretary.

Will Not Compete.

Miss Julia Choate, Peterborough's talented violinist, will not be able to take part in the Earl Grey competition at Winnipeg on April 24th, for the reason that she is regarded as a professional and not an amateur. The concert which was to take place on the 7th at the Conservatory here will be carried through notwithstanding the above disappointment. At this concert Miss Beatrice Wellington of Toronto, elocutionist, will take part.

High Class Furnishings.

The house of Elliott & Son, Limited, Toronto, is known all over Canada for high class house furnishings. Whether it is wall papers, silks, tapestries or cretonnes, only the correct styles are carried in stock. For years they have manufactured hardwood floors in all styles and their illustrated catalogue gives a very complete range of plain and fancy hardwood floors. They also furnish designs and make fine furniture in correct style of the various periods and at moderate prices. The advantage of dealing with a house capable of producing the various branches of the furnishing of the house and in complete harmony is at once apparent. Prices are always made on a strictly moderate basis.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mrs. J. E. Hettenhausen, Antrim street, will not receive again this season.

Mr. Eley of London, Eng., a former resident of Peterborough, is visiting friends in the city.

Mrs. Burnham, 454 Weller street, will receive Friday, April 7th, and not again this season.

Rev. Dr. Langfeldt of St. Luke's church, delivered the Lenten address in Lakefield last night.

Mr. H. B. Stock, District Chief Operator Bell Telephone Co., was in town yesterday.

Mr. E. W. Doane, District Supt. of the Bell Telephone Co., is out of the city on business.

Mr. J. J. Thompson, Phy. Dir. of the Y.M.C.A. is again able to be around, but is on crutches yet.

Mr. Jas. C. Ellis, manager of the Peterboro Mattress Co., went to Omemee yesterday at noon on business.

Mr. Penzetti, Charlotte street, went to Reaboro yesterday, where he has a gang of men employed on the new railroad.

The many friends of Mrs. Frank Mason will deeply sympathize with her in her serious illness. She is suffering from a severe form of rheumatism.

LITTLE LOCAL LINES

The Council of Lindsay has made a grant of $300 to their band.

The regular meeting of the Poultry Association will take place this evening at 8 o'clock in their hall.

We have an opening for a bright, young man to learn reporting. Apply at Times.

The water in the river is rapidly rising, the stream being clear of ice to Rice Lake.

Muskrat season is now on, and hundreds of pelts are being secured in the neighborhood of Rice Lake.

A blacklister appeared before the magistrate at the police court yesterday morning. After hearing some evidence the case was adjourned for a week.

The Secretary of the U. S. Navy announces that Congress will be asked to authorize the building of a 30,000-ton battleship. Thus another heavy blow will be struck in the interests of peace.

BLOOD DISEASES CURED

Drs. K. & K. Established 20 Years

NO NAMES USED WITHOUT WRITTEN CONSENT

BEFORE TREATMENT

AFTER TREATMENT

He was surprised at how the nerve headache "got" upon your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, blotches of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 6 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but your own has this testimonial as you will. W. H. S.

We treat NERVOUS DEBILITY, VARICOCELE, VITAL WEAKNESS, BLOOD, SKIN and SECRET Diseases, URINARY, BLADDER and KIDNEY complaints of Men and Women.

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you write for an honest opinion Free of Charge. Charges reasonable. Books Free—(Illustrated) on diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. Everything confidential. Question list and cost of Home Treatment FREE.

BY-LAW NUMBER ____

A By-Law to aid the Independent Tire Company of Toronto Limited.

Passed the day of 1911

WHEREAS the Independent Tire Company of Toronto (Limited) has been incorporated under the provisions of the Ontario Companies Act with the authorized capital of $40,000 which will be increased to $350,000, and has proposed to the Council of the City of Peterborough to establish the factory of the said Company in and to carry on its business as manufacturers of rubber tires for automobiles and other similar goods at the said City, and for that purpose to purchase land for a site for and erect thereon a building of the material and size and to install therein machinery of the value hereinafter set out, and to employ in said factory within the times hereinafter mentioned, the number of operatives hereinafter provided for, provided the City will agree to assist the said Company by advancing to it by way of loan the cost of said land and building not exceeding in all the sum of $40,000 the same to be advanced and repaid as hereinafter mentioned and will grant the said proposed Company exemption from Municipal Taxes on the said land, building and the machinery and plant therein, and on the business assessment of the Company for the term of ten years on the conditions hereinafter set out.

AND WHEREAS there is at present in the said city no other manufacturing establishment carrying on the same business as the one intended to be carried on by the said Company, and it is desirable and in the public interest in order to secure the location of the said factory in the city of Peterborough, to accept the said proposal upon the terms and conditions hereinafter set out.

AND WHEREAS it has been arranged between the said Company and the Council that the said Company shall in the meantime purchase pay for and obtain a conveyance to the Company of the land required for the site of said factory and after the purchase thereof, proceed to erect the necessary building thereon for its purposes, of the material and of at least the size hereinafter mentioned, and to instal therein machinery and plant to the value of at least $75,000 to be free of all liens, and to be included in the mortgage hereinafter provided for, and when said land is purchased and conveyed as aforesaid and said building is erected and ready for occupation, that the Corporation will advance to the Company one-half the cost of the land and buildings up to the sum of $20,000, and when said machinery and plant have been installed therein at the cost aforesaid and the said factory has been in operation and employing therein at least forty operatives for thirty days, and the Company shall have stock subscribed and paid for in cash to the amount of $150,000, that the Corporation will advance to the Company one quarter of the cost of said land and buildings up to the sum of $10,000; and when the said factory has been in operation for a further period of sixty days and employing therein at least sixty operatives will advance to the Company the other one quarter of the cost of said land and building up to the sum of $10,000; provided the terms and conditions hereinafter mentioned entitling the Company to the same have been fully complied with and the security hereinafter mentioned has been given.

AND WHEREAS in order to enable the Corporation to make the said loan it will be necessary to issue the debentures of the Corporation for a sum not exceeding the sum of $40,000 or such less sum as may be required for the purpose aforesaid, which is the amount of the debt intended to be created by this By-law, but as the said sum is to be payable in instalments as aforesaid and it is undesirable to have any part thereof in hand and unused, it will be to the advantage of the Municipality to issue the said debentures in instalments, the said debentures shall be issued in instalments not exceeding in all $40,000, when the same is required for the purposes of this By-law, but so that the first instalment shall be issued within two years and the others within five years from the passing of this By-law.

AND WHEREAS the amount of the whole rateable property of the Municipality according to the last revised assessment roll is the sum of $8,873,145 and the amount of the existing debt of the Municipality, exclusive of local improvement debts payable by local special rates, but including the debt of $452,000.00 incurred for the purchase and improvement of the waterworks, is the sum of $1,144,158.17 and there is no part of the principal or interest in arrear.

AND WHEREAS there will require to be raised annually during the currency of the debentures to be issued hereunder to pay the interest on the said debt a sum not exceeding the sum of $1,800 less such part of the said sum as may be received from the said Company by way of interest on the said loan and the interest that may be received on the investment of the instalments of the said loan as the same are repaid and the instalments of principal to be received from the said Company in the repayment of the said loan, being sufficient for the purpose of repaying the same at the maturity thereof, it is not necessary that a sinking fund should be created for that purpose, but all payments received from the said Company in repayment of the said loan and for interest on same shall be paid to the Peterborough City Trust to be held and invested and applied as to said principal in payment of the said debt at the maturity thereof and as to the interest on the said loan and on the investments of the portion of the principal repaid in payment or reduction of the said interest, but in the event of a sinking fund for any reason being required for the purpose of paying the said debt, there shall be raised in any year during the currency of the said debentures, that the same may be required, a sum sufficient with the estimated interest on the investment thereof at the rate of four per cent. per annum to pay the said debt or the balance thereof when the same becomes due.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF, ENACTS AS FOLLOWS:—

1. This By-law shall take effect on the final passing thereof, but shall not have any force or effect unless and until the said Company shall have delivered to the Corporation a duly executed agreement to carry out on its part the provisions of this By-law to be performed, observed and kept by the Company, and also an undertaking agreeing not to oppose the construction of any sewers or sidewalks as local improvements that the Council may desire to construct under the provisions of the Municipal Act relating to local improvements.

2. It shall be lawful for the Corporation of the City of Peterborough to borrow the sum of $40,000 or such less sum as may be required for the purposes aforesaid, and to issue the debentures of the Corporation therefor in instalments as the same are required, such debentures to be sealed with the Corporate Seal of the City of Peterborough, and to be signed by the Mayor and Treasurer, and countersigned by the Secretary of the Peterborough City Trust, to be payable within twenty years from the date of the issue thereof respectively, and to bear interest at the rate of four and one half per centum per annum, payable half-yearly on the thirtieth day of June and thirty-first day of December in each year, and to have coupons attached thereto for the payment of such interest—such debentures as to principal and interest to be payable at the office of the Secretary of the Peterborough City Trust at the City of Peterborough, or at such other place as the said Council may by resolution appoint.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate sufficient therefor upon all the rateable property of the City of Peterborough the sum of $1,800 for payment of the interest on said debentures or such less sum as may be necessary to pay the interest on debentures issued under this By-law at the said rate of four and one-half per centum per annum, less however the interest that may be received from the said Company and on the investment of any instalments repaid by the said Company on said loan, and so same except as hereinafter provided shall be raised as a sinking fund to pay the said debentures at the maturity thereof, but the amount received in repayment of the said loan shall be paid to the Peterborough City Trust and by said Trust invested, held and applied for the payment of the said debentures at the maturity thereof, provided, however, that if by reason of the non-payment of the said loan or any instalment thereof, a sinking fund is necessary for the purpose of providing for the payment of the said debentures, or any of them, when the same become payable, there shall be raised and levied each year that the same is required for said purpose a sum sufficient with the estimated interest on the investment thereof at the rate of four per centum per annum to pay the said debentures at the maturity thereof.

4. There shall be paid to the said Company if and when it shall become entitled thereto under the terms hereof, so much of the said sum authorized to be borrowed under the provisions hereof as the Company shall be entitled to by complying with the terms and conditions hereinafter set out and furnishing proof satisfactory to the Council of the same and upon and only upon the said terms and conditions, namely:—

(1) That the said Company shall on or before the 15th day of April, 1911, apply to increase its authorized capital to at least $350,000 and will issue and dispose of as soon as may be possible and in any event not later than the first day of July, 1912, at least sufficient of the preferred stock of the Company to realize in cash at least the sum of $150,000, which together with the loan to be advanced under this By-law shall be used for the purchase of the land for the site for and the erection and equipment of the said building and the whole balance not required for these purposes shall be retained and used as working capital.

(2) That the said Company shall on or before the first day of July, 1911, have acquired and shall hold by a good title in fee simple free of incumbrances a site for its factory in the City of Peterborough of sufficient size for its purposes.

(3) That the Company shall on or before the 1st day of July, 1912, have erected on said land a three-storey building of brick, concrete or steel, with basement, suitable for its business at least 200 feet by 50 feet in size, or its equivalent and of a capacity sufficient to employ at least one hundred operatives, and shall on or before the first day of July, 1912, have the same equipped with machinery and plant suitable for the said business at a cost for said machinery and plant of at least $75,000 which said machinery and plant shall be free of all liens, charges and incumbrances, except the chattel mortgage to the City Trust hereinafter mentioned and shall on or before the 1st day of July, 1912, have the same in operation and employing therein the number of operatives above mentioned, the cost of said building and machinery and plant as represented by the Company, if not agreed to by the Council to be ascertained and fixed by a valuator agreed on by the Company and Council, or if they cannot agree on the appointment of a valuator within two weeks after the Company has furnished its evidence of such value to the Council, then by arbitrators appointed under the provisions of the Arbitration Act.

(4) That the Company shall have entered into a covenant with the Peterborough City Trust satisfactory to the City Solicitor to observe, perform and keep all the terms, conditions stipulations and agreements in this By-law set out to be observed, performed and kept on its part including the following:

(a) That the Company will pay to the Peterborough City Trust interest at the rate of four and one-half per cent. per annum on the amount of the said loan or the portion thereof from time to time remaining unpaid until the whole of said loan is repaid, said interest to be computed from the dates the respective instalments of the loan are advanced to the Company and to be paid half-yearly on the 30th day of June and the 31st day of December in each year commencing with the first gale day after the first half of the loan is advanced and will repay to the said City Trust the principal of said loan in annual instalments of $2,000 each, the first of such instalments to be made on the 31st day of December, 1912, and yearly thereafter, with the right to said Company to increase the amount of said annual payments or to repay the whole of the said loan or any balance thereof that may remain due, at any time in the meantime, with the right to the Council of the said Corporation in its discretion to demand repayment of the said sum or the balance thereof then remaining unpaid, if at any time (except in the case of strikes or damage by fire as hereinafter provided) the said Company shall have in its employment at its said manufacturing establishment in the City of Peterborough (after the first year of its operation) an average of less than one hundred operatives, or during the first year the number of operatives above mentioned within the time provided such repayment to be made within three months after the said Council shall have passed a resolution making such demand and mailed a copy thereof addressed to the said Company at the City of Peterborough. Provided that the provision as to the employment of operatives shall be taken to be complied with if such operatives are employed on an average of ten months in each year.

PROVIDED HOWEVER, that if the failure to employ the said number of operatives as above mentioned in the said manufacturing establishment is due to a general strike of the employes or of a sufficient number of them to prevent the said Company carrying on the said manufacturing business in the regular manner or to the destruction or damage of the buildings or machinery by fire or tempest, so as to prevent the said Company carrying on the said business in the regular manner, the time during which the business shall cease to be so carried on in consequence of such strikes or destruction or damage of the said buildings or machinery, not exceeding in either case one year, shall not be counted in the period to entitle the Council of the said City to demand payment of the amount of the said loan or the balance thereof then due as above mentioned.

(b) That in case default shall happen to be made of or in the payment of the said sum or any instalment thereof, as provided by sub-clause (a) hereof, or of any part thereof or of or in the payment of the interest on the same as provided in said sub-clause (a) or of any part thereof for the space of one month after the same becomes due and payable, or in case of default of or in the doing, observing, performing, fulfilling or keeping of any of the other provisions, agreements or terms herein or in said covenant mentioned, and such default shall continue for one month, then in every such case the whole of said sum or that portion thereof remaining unpaid shall forthwith become due and payable, and it shall and may be lawful for the City Trust, after giving written notice to the said Company of its intention in that behalf, either by service on the President or Secretary of the Company or by letter addressed to the Company at the City of Peterborough, not less than thirty days previously, and without any further notice or consent or concurrence of the said Company, to enter into possession of and hold the lands of the Company and the buildings thereon and the machinery and plant therein or thereon, and whether in or out of possession of the same if thereunto authorized by By-law of the Corporation of the said City, to make any lease or leases thereof, or of any part thereof and also if and when considered advisable and if thereunto authorized by By-law of the Corporation of the said City, to sell and absolutely dispose of the same or any of them or any part or parts thereof for any sum or sums and in any way the said City Council may by said By-law direct, and the said City Trust if thereunto authorized as aforesaid, shall have power and authority to assure and convey the same if and when so sold to the purchaser or purchasers thereof by proper and sufficient conveyance and conveyances.

(c) That the said Company will until the whole of the said loan is repaid keep the said lands and buildings and the said machinery and plant in good order, condition and repair according to the nature and description thereof, and in case of neglect or default in so doing the provisions mentioned in sub-clause (a) hereof shall apply by reason of such neglect or default, and the amount of the said loan or of that portion then unpaid together with the interest thereon shall became payable as in said sub-clause (a) set out.

(d) That the said Company will insure and until the said loan is fully repaid will keep insured against loss or damage by fire the said buildings and machinery and plant in the sum of at least the full amount of said loan or the balance thereof remaining unpaid in some Insurance Company or Companies approved of by the said City Trust (such approval not to be unreasonably withheld) and will pay all premiums and sums of money necessary for such purposes as the same shall become due, and will make the amount payable under the policy or policies payable to the said City Trust, as its interest may appear, and will deliver to the said City Trust the policy or policies of insurance when issued and the receipts thereto appertaining respectively not later than three days before the premiums on the said policies become due respectively, and in default thereof the said City Trust may pay any premiums or sums of money necessary for said insurance and the said Company shall forthwith repay same with interest at the rate of six per cent. per annum to the said City Trust it being understood that in the event of the said Company effecting its insurance on its buildings and machinery in the form of a blanket policy or policies and causing the loss, if any, thereunder to be made payable to the said City Trust to the extent of the unpaid amount of said loan it shall be a sufficient compliance with the said provision as to delivery of policies if the said Company shall deliver to the said City Trust a duplicate of said policy or policies or an acknowledgement by the Insurance Company or Companies of the interest therein of the said City Trust.

(e) That the said Company as security for the repayment of the said loan will execute and deliver to the said City Trust a first mortgage on the said lands and the buildings and fixtures thereon which fixtures shall as far as said mortgage is concerned, be held to be part of the realty and covered and embraced in said mortgage and will also execute and deliver to the said City Trust a chattel mortgage as a first charge on the said machinery and plant as additional security for said loan which said mortgages shall be continuing securities until the said loan is fully paid; all according to the terms and conditions of this By-law.

(f) That the said Company shall at all times until the said loan is paid off have at least $75,000 worth of machinery and plant in said building, but shall be at liberty from time to time to substitute new and modern plant and machinery for the plant, machinery and fixtures in the said manufacturing establishment, provided the said new and modern plant and machinery is of equal or greater value than that for which it is substituted, and notice is given to the Secretary of the City Trust, giving the price and description of such substituted plant and machinery.

5. Provided the said Company shall have executed and delivered to the Corporation the mortgages and covenant above provided for and shall in every respect have complied with, carried out and performed the terms and conditions on its part herein mentioned, entitling it to the same, the said City Council will pay to the said Company one half of the loan herein provided for as soon as the said building of the size and capacity heretofore set out is fully erected on the said land and is ready for occupation, and will within thirty days after said building is fully equipped with machinery and plant, free of all liens, charges and incumbrances except the said chattel mortgage to the City Trust and costing not less than $75,000, and the Company has stock subscribed and paid for in cash to the amount of at least $150,000, and the said factory is in operation and employing therein at least forty operatives, pay to the said Company one quarter of the said loan; and will within sixty days thereafter, provided the above mentioned conditions are complied with and at least sixty operatives are employed in said factory, pay the said Company the remaining one quarter of said loan.

6. Provided the said Company shall carry out and continue to carry out the terms and conditions of this By-law, and in the said covenant set out, to be observed, performed and kept by it, and shall on or before the dates above mentioned purchase the said site, erect the said building and equip the same as aforesaid and thereafter have the same in operation and employing therein the number of operatives above mentioned, the land and buildings of the Company used exclusively for manufacturing purposes and the plant machinery and the business assessment of the Company shall for a period of ten years from the first day of January, 1912, be exempt from all taxes, rates and assessments, except taxes for school purposes and local improvement assessments, rates and taxes for which they shall be and remain liable, and the oath of the assessor or assessors shall be amended accordingly, but provided said Company shall fail or neglect during said term of ten years to carry out the said terms and conditions and to operate and carry on the said business as aforesaid, and employ therein the said number of operatives, then such exemption shall cease and the rates and taxes payable in respect to the said land buildings machinery plant and business assessment shall be and become payable in the same manner as if this By-Law had not been passed.

7. The said Company shall, prior to the first day of March in each year file with the City Clerk a statutory declaration made by two officers of the Company, who shall therein state their knowledge of the facts, proving the extent to which the Company has complied with and is observing all the terms, conditions and provisions of this By-Law and those contained in the said covenant, and on neglect of the said Company to furnish such declaration, it shall be prima facie taken that such terms, conditions and provisions have not been performed, observed and kept.

8. For the purpose of taking the votes of the duly qualified electors on this By-Law the following adjoining Polling Sub-divisions shall be united namely:—1 and 3, 2 and 5, 6, 7, 8 and 9, 10 and 11, 13 and 14, 15 and 18, 16 and 17, 20 and 21.

9. The votes of the electors of the City of Peterborough qualified to vote on By-Laws for creating debts shall be taken upon this By-Law on the 25th day of April, 1911, commencing at the hour of nine o'clock in the forenoon and closing at the hour of seven o'clock in the afternoon of the same day, at the following places and before the following Deputy Returning Officers with the following Poll Clerks, that is to say:—

POLLING SUB-DIVISIONS NUMBERS 1 AND 3.

Place, M. H. Halpin's, 39 George Street. Deputy Returning Officer, Josiah Robertson; Poll Clerk, W. Mason.

POLLING SUB-DIVISIONS NUMBERS 2 AND 5.

Place, T. J. Murray's, 111 Rubidge Street. Deputy Returning Officer, J. P. Bryson; Poll Clerk, A. Graham.

Place, J. T. Braund's, 720 George Street. Deputy Returning Officer, T. W. Robinson; Poll Clerk, Jas. Middleton.

POLLING SUB-DIVISIONS NUMBERS 20 and 21

Place, Former Village Hall. Deputy Returning Officer, R. Hamilton; Poll Clerk, John Kerr.

POLLING SUB-DIVISION NO. 22.

Place, George Coon's, 559 Rogers St. Deputy Returning Officer, J. T. Craig; Poll Clerk, E. Dillon.

10. The 26th day of April, 1911, at the hour of twelve o'clock noon, and the City Clerk's office are hereby fixed as the time when and the place where the Clerk will sum up the number of votes given for and against the By-Law.

11. The 24th day of April, 1911, at the hour of twelve o'clock noon, and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively on behalf of the persons interested in and promoting or opposing the passing of the By-Law respectively.

Mayor.

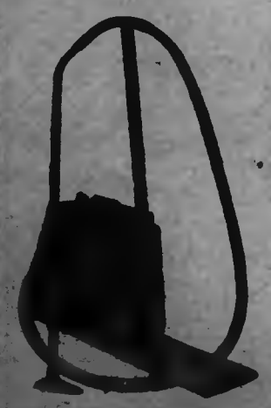
Clerk.

NOTICE

Take notice that the foregoing is a true copy of a proposed By-Law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in The Morning Times newspaper, the date of which first publication is the thirtieth day of March, 1911, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held

And further take notice that the name of any leaseholder, who does not at least ten days before the day in the said proposed By-Law appointed for taking the vote thereon, file in my office a Statutory Declaration proving that he or his wife is the holder of a lease, which under the provisions of section 354 of the Consolidated Municipal Act, 1903, entitles him to vote for or against the said proposed By-Law, shall not be placed on the Voters' List for such voting.

S. R. ARMSTRONG,
City Clerk.



When a person buys any other VACUUM CLEANER, they always express the hope that it will be as good as the 'KING EDWARD'. The name is Synonymous with BEST; and the article like the name stands out as the greatest "Peacemaker" in the home and the world at large.

VOL XXXIV NO. 79 PETERBOROUGH, ONTARIO, FRIDAY APRIL 7 1911 PRICE TWO CENTS

CONSERVATIVES SAY THEY ARE UNITED---WANT BORDEN

AND THAT THEY DON'T WANT A CHANGE IN OPPOSITION LEADERSHIP.

Held Caucus at Ottawa—And Many Demand "Full and Reliable" Prices, Etc., as to Products.

Ottawa, April 6.—After a Conservative gathering to-day, the following statement was issued:

"A Conservative caucus was held this morning. A brief reference was made to the sensational reports that appeared in some of the newspapers a short time ago regarding alleged dissensions in the party, and the suggestion made by some unauthorized persons that some of the members would like a change of leadership.

CAUCUS UNANIMOUS.

"It seems that these rumors were entirely unfounded, as the caucus expressed itself as unanimously and emphatically in favor of the present organization of the party and of continuing the fight against the present Government until it is driven from power.

"The progress of the reciprocity debate was discussed and the evident intention of the Government to kill time and postpone any definite decision until Congress at Washington had shown what they intended to do regarding it there.

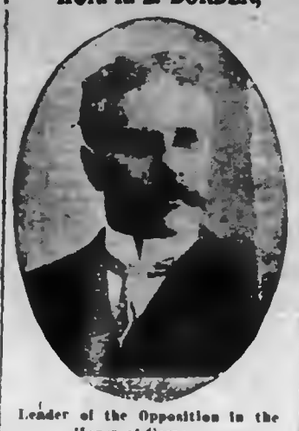
WHAT OPPOSITION WANTS.

"The Conservative party feels very strongly that the two ministers who were sent to Washington entered into the reciprocity agreement without any reasonable or definite knowledge of the prices of farm produce and other articles in each country, or the economic effect the proposed agreement would be likely to produce among the farmers or the manufacturers of this country, and it was decided to demand from the Government full and reliable information respecting comparative prices and cost of production in Canada and the United States of the products and commodities included in the proposed agreement."

Shaughnessy Reaches London.

London, Eng. April 7.—Sir Thomas Shaughnessy, president of the Canadian Pacific Railway, has arrived in London from the continent.

HON. R. L. BORDEN,



Leader of the Opposition in the House of Commons.

APPEAL FOR AID PROTESTANT POOR

NEW PROTESTANT HOME TO BE ERECTED.

Mr. R. W. Travers, Bank of Montreal Will Receive Subscriptions—All Should Help.

As a definite arrangement has been concluded between the City Council and the Board of the Peterborough Protestant Home, the work on the new home will be begun as soon as possible.

The plans for the building are being drawn up by Mr. Sandford Smith, of Toronto, whose grandfather, the late Sheriff Hall, gave the present building. These plans will be submitted to the Board next week.

As the Board has undertaken to pay half the cost of the building and also to supply the furnishings, they ask the citizens of Peterborough to help them in the good work.

There is no doubt that this project for the care of the aged and needy, will appeal to all.

Mr. Travers of the Bank of Montreal, has kindly consented to receive all subscriptions which may be made for this object.

GOATS FULL OF GERMS GOT OUT AMONG THE CITIZENS

New York, April 6.—A squad of New York policemen is out to-day searching for a billion disease germs, lost, strayed, or stolen during the last 24 hours from the Research Laboratory of the Willard Parker Hospital, on East 16th street.

The germs had been injected in the course of an experiment into the bodies of four goats, which were then tied up to browse in the back yard of the laboratory. An hour or two later the goats disappeared. The hospital authorities fear that they have become captives in the hands of neighboring East Side families. The use of their milk for drinking or cooking will be certain to result in a serious epidemic.

One of the goats according to the police statement, is loaded with smallpox germs, another is inoculated with diptheria, a third carries millions of the things that make scarlet fever, while the fourth is loaded with whooping cough.

ADVERTISE IN THE TIMES.

Often Saves Human Life

WHEN the doctor is summoned to the farm, it is generally in an emergency case.

Often it is a matter of life or death.

A member of the family has been stricken with sudden illness or an accident has occurred.

Every minute's delay reduces the chances of recovery.

It is then that the Bell Telephone is "worth its weight in gold" to the anxious farmer.

It pays for itself then and there.

Peterborough Exchange, 1375 Subscribers including 145 on Rural Lines.

Every Farmer needs Telephone Service in his business.

Favorable Rates and a large Exchange Service make the Company's proposition attractive.

MONTREAL.

THOUSAND IN ONE DAY

Calgary, April 6.—Yesterday was immigrants' day at the C.P.R. Station. No less than four special trains carrying over 1000 immigrants arriving. Six trains reached the city from the East altogether, bringing many new settlers from Ontario, Quebec and Maritime Provinces.

CROMWELL'S HEAD ON EXHIBITION

SKULL OF GREAT PROTECTOR PRESERVED BY PASTOR'S FAMILY.

First Stolen by Sentry—Members of Royal Archaeological Society Pronounce Chain of Evidence Complete.

London, April 6—The reputed head of Oliver Cromwell was exhibited last evening at a meeting of the Royal Archaeological Society at Burlington House. The Rev. H. R. Wilkinson said that the head had been in his family for three generations, and in that time had never been previously exhibited in public.

The tradition was that the skull was blown off Westminster Hall and was picked up by a sentry, who hid it, and only confessed on his death bed to his wife that he had it in his keeping. It passed into the possession of the Cambridgeshire family of Russell, and came to Samuel Russell, a needy actor.

Then it was sold to Cox, the proprietor of the Museum in Spring Gardens, and was transformed by him to three persons, who exhibited it in Bond street. Next it came into the hands of the Rev. Mr. Wilkinson's grandfather.

Sir Henry Howorth said that the evidence seemed to make it extremely probable that the head shown was really that of the Protector Prof. Boyd Dawkins did not think he had heard of a more complete chain of circumstances.

FLOCK OF ELOPERS WERE ARRESTED AT YORK, PA.

York, Pa., April 6.—After a sensational flight through three States, six elopers, four of whom reside in Alexandria, Va., and two in Washington were taken into custody by the police here, and are held pending the arrival of the husbands of two of the women, who are sisters.

The eloping party comprises Mrs. W. Powell, of Alexandria, who left a husband and five children; her sister, Mrs. Samuel Harrington, a beautiful 22-year-old blonde, who deserted her husband and a baby; Mr. and Mrs. Eugene Crawley, the latter formerly Miss J. H. Brown, of Alexandria, Patrick Woodward, of Washington, and Forest Oehlart, of Alexandria.

TWENTY-EIGHT CITIES START OPEN AIR SCHOOLS FOR WEAK AND AFFLICTED CHILDREN

New York, April 6.—Sixty-five open air schools for children afflicted with or predisposed to tuberculosis have been established in 28 cities since January 1, 1909. Announcement to the effect was made to-day by the National Association for the study and prevention of tuberculosis.

The Association believes there should be one school for every 25,000 population. Its reports show that the result of open air classes in a majority of cases has been to restore the public to normal health and efficiency.

SHELDON WILL COME BACK TO STAND HIS TRIAL

Pittsburg, April 6.—Charles D. Sheldon, alias Robinson, who is alleged to have secured more than $1,000,000 by swindles in Canada, must return to Montreal for trial.

By a decision handed down in the local courts this afternoon all local charges are dropped.

J. M. Howell, a popular druggist of Greensburg, Ky., says, "We use Chamberlain's Cough Remedy in our own household and know it is excellent." For sale by all dealers.

STEAMBOAT WONDER GOLD MINES, LTD.

SHORT HISTORY OF A RICH MINING DISTRICT.

Believed to be one of the Richest Mineral Camps on the Continent—A Small Allotment of Stock Now Offered to the Public.

Elsewhere in to-day's issue will be found the advertisement of the Steamboat Wonder Gold Mines, Limited, to which we direct the attention of investors. The Pacific Securities Company is offering 10,000 shares of the stock at 35c per share, thus enabling those who are fortunate enough to do so to get in on the ground floor, as this stock is reasonably sure to advance rapidly.

A SHORT HISTORY OF STEAMBOAT MOUNTAIN.

At the present time, Steamboat Mountain is causing a great deal of interest among mining men in British Columbia, and also in the mining camps throughout the United States.

One year ago, two well known prospectors from the Nevada Gold Fields, known as Stevens and Greenwalt, worked in and around Steamboat District, on the information they had received from an old placer miner, whom they had met in Nevada. He explained to Messrs. Stevens and Greenwalt that in the vicinity of Steamboat Mountain he had come in contact with a species of rock, which strongly resembled the porphyry which made Nevada Gold Fields famous as a Gold Mining Camp.

Messrs. Stevens and Greenwalt after spending weeks of hard labor, staked three Claims, known as the Steamboat, Steamboat No. 2 and 3, which they are now working, and the results have been most satisfactory.

Two well known Winnipeg people, Messrs. Thompson and Grand, were the second to visit this district, and had the good fortune to stake 11 Claims on Steamboat and Red Mt.

Messrs. Thompson and Grand organized a Company known as the Steamboat Wonder Gold Mines, Ltd., and the porphyry rock taken from the tunnel has been quite up to their expectations.

During the next three weeks there will be one of the greatest rushes into the Steamboat District that has ever happened in Mining circles in British Columbia.

At the present time it is figured roughly that there has been in the vicinity of 350 claims staked in this District. Mining men generally, figure that the country 20 miles East and south of the International Boundary Line, is all highly mineralized. This peculiar species of Porphyry rock can be found in this area just mentioned.

Steamboat District is an ideal location for free milling mining proposition, as it has the famous Skagit River for water supply, and timber in great ambundance.

Assay reports of rock taken from this district by Stevens and Greenwalt, also the Steamboat Wonder Gold Mines will show an average of about $17.00 per ton, and the cost of mining will be about $2.75.

A few words to people who may intend visiting this District with the idea of locating Claims, or interest themselves in other lines of business, might be of assistance.

Steamboat Mountain is situated about 33 miles from the town of Hope, on the Main Line of the Canadian Pacific Railway. At the present time we have to go in from Hope to Steamboat over the Trail, with pack and saddle horses. In the near future railroads will tap within 3 miles of Steamboat Mountain which will make transportation to this District comparatively easy.

Any communication addressed to our office we will be only too pleased to advance any information regarding this territory. Pacific Securities Company, 308-9-10 11 Pacific Block, Vancouver, B. C.

Y.M.C.A. BOYS' DEPARTMENT BANQUET HELD LAST NIGHT

No less than two hundred members of the boys' department of the Y.M.C.A. attended the banquet last night in the association building. The supper which was served from 7 o'clock to 8.30 by the Ladies' Auxiliary, was certainly appreciated by the boys. The addresses were most instructive and interesting. The musical part of the programme was also well given and enjoyed by all. A flashlight was taken immediately before the banquet started.

Mr. Downey, very capably officiated as chairman. In his address he enlarged on the necessity of building up a strong body and intellect. He also touched on the development of strong morals and the good results which are sure to follow.

Palmer Wiley delighted the boys with a recitation.

Mr. J. J. Turner, president of the Association gave the boys a splendid lecture, touching chiefly on the physical development gained by Y.M.C.A. members.

A pleasant piano solo was rendered by C. Walton.

The next number was a thrilling bugle call by Murray Carlysle, a member of the Boy Scout Bugle Band.

Mr. Douglas Carlysle followed with a song, after which Mr. Miller sang a pleasing solo.

The address of the evening was given by Mr. Statten, Provincial Boys' Secretary. He talked on the great results of Y.M.C.A. training; how it built up strong boys with good character. During his address he encouraged the boys to get into athletics—to learn to swim and play basket ball, baseball, etc. He said that youths of a good physical training got the best positions in life.

The boys displayed their appreciation of the speech by a hearty applause.

Mr. Statten then presented the following prizes:

A gold medal and a silver shield to George Read, the indoor junior champion.

A shield to Cecil Arnott, captain of the team which won the junior basketball league.

The boys then sang God Save the King and departed.

ENTHUSIASTIC MEETING OF THE PETERBORO POULTRY ASSOCIATION

There was a large attendance at the regular meeting of the Peterborough Poultry Association, held in their hall on Simcoe street last night. The members showed great interest and enthusiasm. A number of fine birds were on exhibition among them being the Houdans, which were of a very fine quality, and were judged by Harry T. Lash. There were also shown Bantams, Black Rose Comb, Silver Seabrights, Pyle Game, and also other varieties, which were good specimens, these being judged by Mr. Jas. Baptie. A number of members reported successful hatches, and in all likelihood there will be a grand showing here at the fall exhibition.

The president, Mr. J. C. T. Lang, occupied the chair.

"PRIEST" AND "PRIESTESS" PRESIDE OVER SCORE OF FOLLOWERS UNDER ONE ROOF

Chicago, April 6.—Another new cult which furnishes an entirely new set of excuses for moral and matrimonial laxities, was exposed in Chicago to-day, following the arrest of the "priest" and "priestess" and nearly a score of followers, who were housed under a single roof at 1923 Lincoln avenue.

The cult, which is presided over by Albert Sidney Raleigh and Mrs. Jas. B. Noblock, is known as the "American Christian Esoterie Order of Melchisidic."

Jas. B. Noblock, husband of the "priestess," who declared to-day he would sue for divorce, was responsible for the exposure of the cult. He told the police he and his 18 year old son had lived together in the home of the cult until recently and that he had become disgusted with the immoral practices.

Several children are among the neophytes of the cult.

CHARGE OF MURDER AGAINST McDOUGALL.

North Bay, April 6.—The inquest into the death of Laurent Morin resulted in an open verdict, no opinion being expressed to the jury. Fabien Morin, son of the victim, testified that he had heard McDougall say, "Take the trail Morin, or I will shoot you," and his father answered, "Hold on a minute," but McDougall fired at once, then took four steps to get the range of a dog forty feet away and shot the animal dead.

A formal charge of murder has been laid against McDougall, but in view of the strange circumstances the question of sanity may be a strong factor in the case.

Now is the time to get rid of your rheumatism. You will find Chamberlain's Liniment wonderfully effective. One application will convince you of its merits. Try it. For sale by all dealers.

ADVERTISE IN THE TIMES.

CONVICT'S TERRIBLE REVENGE LOCKED CHILD IN A BOX CAR

HON. A. G. MACKAY,

Leader of the Liberal Opposition in The Ontario Legislature.

HORRIFIED RELATIVES RECEIVE A GLOATING MESSAGE FROM THE PERPETRATOR.

Twelve Days After He Committed the Act—Are Searching for Designated Box Car.

Philadelphia, April 6.—To keep a vow of vengeance which he made against Joseph P. Rogers, Assistant District Attorney, a one time convict enticed Bernard Rogers, twelve years old, a nephew of the lawyer, to the Baltimore and Ohio Railroad yards, on Monday March 27th, and locked him in an empty box car. This is the information conveyed on a postal card presumably written by the convict, which was received yesterday by a brother of Rogers, with whom the lad lived, at No. 1934 South Eighteenth street.

The car is signed with the prison number "9641-C-352," and in it the writer expressed glee over the misery he has brought upon the relatives of the boy, and hopes that the boy is now dead.

THE MESSAGE.

The card was dated April 3rd.

"Your nephew you will find in an empty box car, D.L. & W., No. 59,-496, which I put him in at Thirty-Fourth and Reed streets, on the Baltimore and Ohio Railroad.

"The uncle of the said boy convicted me for four years and sent me to the penitentiary. I swore vengeance on him. But I take greater pleasure in making his people miserable, like he made my sisters.

"If this does not work, I will see him again.

"This is no phoney letter, and I hope he is dead.

"Yours from the pen. "9,634-C-352."

When Mr. Rogers received the card he was almost overcome with horror. It was at once laid before the police. Inquiry was immediately made of the freight officials of the Baltimore and Ohio Railroad, and a search of the records of the local office was begun in the effort to trace the car No. 59,-496. At the same time a message was sent broadcast to all freight stations of the road to look for the car and to break it open immediately if found.

Bernard Rogers disappeared a week ago Monday morning on his way to school. His father died a year ago.

LEADER MACKAY'S TRIP

Kingston, April 6.—Hon. A. G. MacKay will speak to Frontenac farmers on reciprocity on April 18, in the afternoon at the Kingston court house and in the evening at Sunbury.

FAINTS AT TRIAL

COLLAPSE FOLLOWED OUTBURST OF IMPASSIONED DENIAL OF GUILT.

Court Was Adjourned—Informs Court That He Has Appealed to King and Queen to Come to His Rescue.

Viterbo, April 6.—Father Vittozzi, the "guardian angel of the camorra" took the witness stand in the trial of Enrico Alfano and his camorrist assistants to-day denied his guilt with such impassioned vehemence that he collapsed and fell to the floor in a faint, halting the proceedings.

It was Father Vittozzi who secured the release of Enrico Alfano, alias Erricone, when the head of the Neapolitan society was first imprisoned in the investigation of the double murder of Gennaro Cuocolo and his beautiful wife, Maria Cuocolo.

When the direct interrogation of the priest was begun to-day there was a dramatic scene. Attired in his clerical robes, the priest solemnly crossed himself as he began his story.

The witness was excited and frequently wept, pressing a handkerchief to his eyes. At other times he spoke in a loud voice, and in bold tones, and added emphasis to his words by vigorous gestures.

It developed in his testimony that he had appealed to King Victor Emmanuel and Queen Helena to help him from his present dilemma. He said that he had sent personal communications to both the King and Queen. "They must surely realize that the terrible charge against me is false," cried the priest. "Surely they will help me in my hour of need."

Father Vittozzi, as the other defendants before him had done, accused the carabineers, charging that they were in league with certain other interests to bring "about the downfall of innocent men."

Rising in his seat the priest cried: "I am a martyr. I am sick from the slander and cruelty which has been visited upon me for the past three years. All I ask in this world is justice."

INVALUABLE TO EVERY FARMER

Its Wonderful Power in Curing Sick Cattle and Colicky Horses Makes "Nerviline" Worth Its Weight in Gold.

The stockman or farmer that does not know of the thousand and one uses of "Nerviline" around the stables has a great deal to learn. "Why, I wouldn't think of locking my stable door at night without knowing I had a supply of "Nerviline" on hand. I always get a dozen bottles at a time from my druggist.

"To cure colic, in- NERVILINE CURES COLICKY HORSES digestion and bad stomach in a horse or cow there is no remedy on earth in the same class as 'Nerviline.' Last summer I had a $250 horse that got the scours, and I would have lost him if I hadn't been able to give him Nerviline. I poured a full bottle of Nerviline in a pint of water down his throat and saved his life. I know of neighbors who have saved many heads of valuable stock, stricken with colic, just by using Nerviline. It is equally good as a rub on liniment, and I know from my experience that for man or beast, internally or externally, 'Nerviline' is worth a dollar a drop."

James E. McCullough,
Stock Breeder, Etc.

You will not regret using Nerviline—but see you get it and not something else. 25c per bottle, or five for $1.00, at all dealers, or The Catarrhozone Co., Kingston, Ont.

SHOT A BURGLAR.

Constable Savard Surprised Two Men in a Hardware Store.

Montreal, April 7.—Constable Savage, flushed two burglars in a hardware store at 2 o'clock this morning on St. Dennis street, and brought one of them to the pavement with a bullet wound in the back, after a desperate fight. The wounded man Stanislaus Jeanneau, was taken to the police station, where it was found that his wound was not serious. The other escaped.

EXILED MONARCH IS HAPPY WITH DANCER.

Revisits His Favorite in Paris—Will Appear on Stage Again Shortly.

Paris, April 7.—Ex-King Manuel, the exiled boy monarch of Portugal, is in Paris incognito paying court to the beautiful young dancer Mlle. Gaby Deslys. Despite the fact that he is an exile from his native land the ex-king is apparently joyous at being again with the dancer. Mlle. Deslys is preparing to appear shortly in a revue.

THE WEATHER.

Northwesterly winds, fair and a little cooler.

ROYAL

Special VAUDEVILLE TODAY

Big Novelty Musical Act
ALOHIKEA'S
HAWAIIAN DUO
Featuring the Hawaiian Dance
Premier Instrumentalists
Singing Popular and
Hawaiian Songs

This is a Vaudeville Act of great merit and secured by the Royal at big expense. The Musicians are Natives of the Hawaiian Islands appearing in native costumes and performing on Hawaiian Instruments. Don't miss seeing them in their tremendously popular Hawaiian Dance.

PACIFIC STEAMSHIP SERVICE.

Grand Trunk Pacific Have Inaugurated Their Pacific Coast Steamship Service.

The Grand Trunk Pacific Coast Steamship Company have commenced the operation of their summer schedule giving direct and fast service between Seattle, Victoria, Vancouver, Prince Rupert and Stewart. Northbound the steamers leave Seattle at midnight Sunday and Wednesday and Vancouver Monday and Thursday.

The palatial steamships "Prince Rupert" and "Prince George," already famed for their swiftness and excellence, will perform the service. During the late winter both ships underwent a thorough overhauling and are now more handsome than ever. The "Prince Rupert" and "Prince George" have been pronounced time and again since they went into commission last summer the most magnificent and best steamships in the Pacific Coast trade.

These two ships were so popular, and such a great success last season that the Company have decided to commence the operation of the summer schedule without delay.

The indications are that there will be not *only* a large tourist trade this coming summer, for which these steamers are so admirably suited, but a very heavy movement into the fertile valleys of the interior of British Columbia, especially to the large tracts of rich beach lands along the Skeena River which are well adapted to fruit growing.

During the winter the Grand Trunk Pacific have made extensive improvements to their dock facilities at Seattle and Victoria. The dock at Seattle has been pronounced by shipping men to be the finest and best equipped dock on the whole Pacific Coast. The dock at Victoria is also of the most modern and improved type, splendidly arranged and conveniently located.

In connection with the schedule of the steamers "Prince Rupert" and "Prince George", the steamer 'Prince Albert" will handle passengers to and from Queen Charlotte Island points.

TENDERS FOR DREDGING.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Dredging, Ontario," will be received until Tuesday, April 25, 1911, at 4 p.m., for dredging required at the following places in the Province of Ontario:—

Big Creek, Big Island, Echo Bay, Kincardine, Port Elgin, Kingsville, Penetanguishene, River Thames, Salt Point (Prescott), and Wiarton.

Tenders will not be considered unless made on the forms supplied, and signed with the actual signatures of tenderers.

Combined specification and form of tender can be obtained on application to the Secretary, Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the work. Only dredges can be employed which are registered in Canada at the time of the filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

A separate cheque for each place for which a tender is submitted must accompany the tender. This cheque must be equal to five per cent (5 per cent) of the amount of the tender, based on the approximate quantities set opposite the name of the place, but in no case must the cheque be for a less sum than $1,500. The cheque must be accepted, on a chartered bank, and payable to the order of the Honourable the Minister of Public Works. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works.
Ottawa, April 3, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

INQUIRY FAILS TO REVEAL IMMORALITY IN SCHOOLS

London, Ont., April 5.—Declaring that the charges made by Mrs. May R. Thornley against the moral character of the London Public Schools were absolutely without foundation, the Board of Education yesterday passed a resolution stating that a thorough investigation had been held, and that not a shred of evidence had been produced to show that the city schools were immoral.

School inspectors, principals and janitors, as well as the Collegiate staff, had given their testimony before an investigation conducted by the chairman of the board and their evidence went to show that the charges of immorality existing in the schools were absolutely false. The principals of the public schools sent a signed statement to the board that the charges were false.

In scoring Mrs. Thornley and her second attack on the morality of the schools, through a published letter on Saturday last, Chairman Weekes, of the Board of Education, had this to say:

"I deplore greatly the publication by certain newspapers of the letter of Mrs. Thornley on the subject that appeared on Saturday afternoon. Its vile and filthy statements and reminiscences have a greater immoral tendency for the children who were unfortunate enough to read it than anything I ever saw or read before."

DIDN'T GIVE HER A CHANCE.

Mrs. Thornley stated to-day that she was given absolutely no chance to make any statements before Board of Education committee, which made investigation into the charges she made. She is not, however, offering any criticism of this, but states that arrangements are being completed by which she will make a very full and complete statement of information she has obtained before the committee of responsible persons.

PANIC CAUSED BY FUSILADE FROM THE STRIKING STEAMFITTERS

Chicago, Ill., April 7.—Ten "gunmen" of the warring factions in the steamfitters' unions opened up a fusilade of shots on a group of workmen at the New Kerson Building, at Dearborn and Harrison streets to-day fatally wounding one man and endangering the lives of a score of women and girls.

The shots went through windows of nearby buildings and caused a panic. The whole street was blockaded. Although the gang was composed of ten men, everyone escaped.

HUSBAND SIGNED CONTRACT TO NEVER KISS HIS WIFE

St. Louis, April 7.—When Dr. R. L. Barrington, member of the Ethical Society and special pension examiner for the Government, would sit down to a meal in his home at No. 3820 Utah place, he used to ask his wife: "Is this food poisoned?"

Mrs. Mary W. Barrington, who is suing the physician for divorce, testified to this habit of his before Judge Rassieur.

On cross-examination Mrs. Barrington identified a contract signed by her husband.

The note read: "I agree not to annoy my wife by kissing or caressing her, to confine my conversation to impersonal or business topics, so that our lives may be as tolerable as possible, and to have my guests, if I happen to have any, to myself."

HON. FRANK OLIVER MAKES A NEW OFFER TO MANITOBA

Winnipeg, April 7.—In a letter to the Liberal press of Manitoba, Hon. Frank Oliver went a little further than the direct proposals made by the Dominion Government to the Provincial authorities.

Manitoba would, he said, receive 6,000,000 acres of swamp land in addition to the 2,000,000 already offered. The Telegram's estimate of this land is $12,000,000, which, on a basis of 5 per cent., would yield a revenue of $1,600,000 per annum. To this would be added $100,000 per annum already received and $300,000 per annum in place of the public territory of the added land.

Continuing, the Telegram says: The people of Manitoba will anxiously await the official submission to the Manitoba Government of the boundary proposals guaranteed by Mr. Oliver.

DEPARTMENT OF RAILWAYS AND CANALS.

Ontario—St. Lawrence Canals.

Galops Canal.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Improving Upper Entrance to Lock, No. 28," will be received at this office until 16 o'clock on Friday, April 15th.

Plans, specification and Form of Contract to be entered into can be seen on and after March 18th, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of Tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labour, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $6,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, for the due fulfillment of the contract to be entered into.

The lowest or any teader not necessarily accepted.

By order,
L. K. JONES,
Secretary.
Department of Railways and Canals,
Ottawa, March 21st, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

DEPARTMENT OF RAILWAYS AND CANALS.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise ocarning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

When given as soon as the croupy cough appears Chamberlain's Cough Remedy will ward off an attack of croup and prevent all danger and cause of anxiety. Thousands of mothers use it successfully. Sold by all dealers.

TORONTO MAN ELECTROCUTED BY LIVE WIRE

JOSEPH GELINAS, A TAILOR, MET INSTANTANEOUS DEATH.

Body Horribly Burned—Dreadful Spectacle Witnessed by Relatives and Helpless Citizens Until a Lineman Arrived.

Toronto, April 5.—By coming into contact with a broken live electric wire, Joseph Gelinas was instantly killed and his body was burned at the corner of Duke and Ontario sts. last night at about 7 o'clock.

Gelinas resided at 14 Ontario street and through the window of his home he saw the spluttering wire. He got the impression that the house of his brother Alfred across the way was on fire and ran out with a cousin to alarm him.

Crossing the lawn his chin came in contact with the sizzling wire and he fell upon it dead. The body lay there for nearly half an hour before a line man could be secured. In the meantime flames spurted from the neck and shoulders and the horrible spectacle was witnessed by many people.

BODY TERRIBLY BURNED

A cousin of the dead man, whose name is also Joseph Gelinas, witnessed the whole affair at close range, and the brother Alfred Gelinas, who was attracted to the side verandah by the light, saw the man fall.

At the morgue it was found that the right hand, from near the elbow to the finger tips, was charred to a crisp; the coat sleeve and shirt cuff were burned off; the neck was charred almost half way through; the shirt collar was scorched and the face was terribly bruised by the collision with the pavement.

THREE LITTLE ORPHANS.

The dead man lost his wife less than a year ago, and is survived by a baby boy, a little daughter of four years and a son of ten years, who is attending convent in Quebec. The family lived with the deceased's mother, who is distraught with grief. She could not be persuaded to remain within the house, and witnessed many of the gruesome details of the tragedy from the verandah.

The family were French-Canadians and came to Toronto about 35 years ago.

Joseph, the dead man, was a cutter and designer for the Ontario Tailoring Company, on Dundas street. He was regarded as a very industrious and especially good workman. His brother Alfred is employed by the Crown Tailoring Co.

LISTEN TO US

"We are only little ones, but we know Zam-Buk eased our pain and cured our sores. Perhaps it would cure you, too, if you tried it?"

Isn't this sound advice from "babes and sucklings?" Take it! The speakers are the children of Mrs. L. Webster, of Seymour St., Montreal, and the mother adds weight to their appeal. She says: "My little girl contracted scalp disease at school. Bad gatherings formed all over her head, and not only caused the child acute pain but made her very ill. The sores discharged, and occurring on the scalp we feared she would lose all her hair. She was in a pitiable plight when we tried Zam-Buk, but a few days' treatment with this balm gave her ease. Then the sores began to heal, and we continued the Zam-Buk treatment. In a short time she was quite healed.

"My little boy sustained a serious scald on the neck. It set up a bad sore, and quite a few things we tried failed to heal it or give him ease. Once more we turned to Zam-Buk, and we were not disappointed. It acted like a charm in drawing away the pain, and soon healed the wound."

Zam-Buk is "something different" in the way of balm. It contains powerful healing herbal essences, which, as soon as applied to skin diseases, kill off the germs and end the painful smarting. Other essences contained there so stimulate the cells that new healthy tissue is speedily formed. Eczema, itch, ulcers, cold sores, abscesses, festering sores, blood poisoning, chronic wounds, cold cracks, etc., are healed and cured in this way. Use it for all skin injuries and diseases. It is also of great service for piles. All druggists and stores at 50 cents box, or Zam-Buk Co., Toronto.

FREE BOX
Send us 1 cent stamp for postage, and we will mail trial box free. Mention this.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mr. A. E. Conroy went to Cornwall yesterday morning.

Mr. Nock, London, Eng., sails for Quebec on April 20, on the S.S. Dominion.

Lindsay Post: Miss Ella Robertson of Peterboro, has returned home after visiting her friends in Lindsay.

Mr. J. W. Larmouth, Belleville, was in the city this week on business.

Miss Sibyl Kennedy, of the Galt Training Hospital for Nurses is the guest of her parents on Park street.

Miss Clare Miller, of Prescott, is the guest of Miss Bessie Logan at 14 Murray street, for a couple of weeks.

Taylor Statten, Provincial Boys' Secretary of the Y.M.C.A. work, while in the city will be the guest of F. G. Hassard.

Mr. Stanley Fair, who for a short time was night operator at the G.T.R. station, has gone to Moose Jaw, where he has accepted a position on the C.P.R.

Miss Pearl Bell, of Peterborough, who has been the guest of Mrs. T. Gillott over Sunday, sang a solo in the Presbyterian Church on Sunday evening. She has a sweet voice and her enunciation is clear. She will always be sure of a warm welcome in musical circles here.—Millbrook Mirror.

OBITUARY

MR. GEORGE FOLEY.

In the demise of Mr. George Foley, which took place at St. Joseph's Hospital on Wednesday evening, there passed away an old and esteemed resident. Mr. Foley's death will be deeply regretted by his many friends and acquaintances. He was 52 years of age, and leaves a wife and six children, John of Hamilton, Mildred of Carievale, Sask., and George William and James and Melville, at home. Mrs. Edward Moroney of Montreal, and Mrs. Robert Bell of Peterborough, are sisters, and Mr. Peter Foley of Midland, a brother of the deceased.

The funeral will take place this morning at 9 o'clock, from the family residence, 467 Elm street, to St. Peter's Cathedral, and thence to St. Peter's cemetery for interment.

ROBERT COULTER.

Mr. Robert Coulter, a veteran of the Crimean war, passed away on Wednesday night. He had been in poor health for some time, and his demise was therefore not unexpected.

Deceased was born in Armagh, Ireland, and enlisted in the First Battalion Rifle Brigade in 1848. Under the colors of this famous battalion, he saw much of the world. The medals in his possession bore witness of many thrilling periods in the life of the deceased, although he rarely exhibited these, and then only to his personal friends. They comprise a Cape of Good Hope Medal, a Turkish and South African Medals, a medal for the Crimea with clasps for Alma, Inkerman and Sebastopol, and a medal for British North America service, together with four good conduct badges.

The wife of the deceased died only a short time ago, while on a visit to her son in Toronto. Deceased was a resident of this city for a great many years, and two of his daughters, Mrs. A. A. McIntyre and Miss Bessie Coulter, reside here. Many will extend sincere expressions of regret.

The funeral will take place this afternoon from the residence of A. A. McIntyre, 567 Aylmer street, at 2.30 and proceed to Little Lake cemetery for interment.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents . . . . . .

OLD BOYS' RE-UNION.

Editor Morning Times.

Sir,—A splendid suggestion was made by some one the other day in one of the Peterborough papers that advantage be taken of the inauguration of the People's Chimes to have an Old Boys' Re-Union in Peterborough. I am sure it would prove a great success, and that hundreds of "Old Boys" would return to enjoy the homecoming. I think it was when Mr. Deane was Mayor that a reunion of Old Boys took place in Peterborough. It was a success, for I was there, and saw many old faces that I had not seen for years.

The bells would ring out a merry welcome to the homecomers, and this would be a delightful service to put them to on the start.

I hope the press of Peterborough will take the matter up and support it.

—Ashley Wass.

Toronto, April 6.

A FOOLISH PROPOSAL.

Editor Morning Times.

Sir, "Stratton-Conservative," who suggests through the columns of your paper that Hon. J. R. Stratton desert his party, is hardly worth replying to. Besides, I am persuaded, (and I know Mr. Stratton is also), that the people will not long remain in opposition to the treaty which will provide for exchange of national products between Canada and the United States. They will wonder, after a while, why they were so blinded as not to see the benefits the treaty would bestow upon our people and country.

—Common Sense.

GOVERNMENT BY COMMISSION.

Editor Morning Times.

Sir, Being a reader of your interesting paper, I happened to notice the letter of "Lower Taxes", in a late issue, and I must take exception to what he says. In the first place let me say that of all the fads, to fleece the taxpayers, we think this is the limit. To argue economy on the basis of employing commissioners at salaries of from $1000 to $3000 a year, is about the limit of civic impudence. This is only entering the thin end of the wedge into municipal prodigality.

We require to assist and foster industries, such as the Independent Tire Company, which is to be voted on in a few days and which I trust will carry. If we do not move more slowly we will find ourselves taxed to the hilt to pay our running expenses, so that there will be nothing left to help industries. Expenditure by way of improving streets or improving the commercial status of the city which in return will revert to a better developed city, does not come within the category of charges herein made.

—A Citizen

P.P. HOME.

Editor Morning Times.

Sir, Will you be kind enough to insert the enclosed in the columns of your paper.

We are in urgent need of help for our new building, and anything you can do for us through the press will be greatly appreciated by the Board.

Helen Denison, Secy.

Reply. The article referred to appears elsewhere in this issue. The Times will only be too pleased to do all in its power to assist in this laudable undertaking.—Ed. Times.

A Fine Publication.

That Peterborough is developing in to quite an important publishing centre is shown by the ever increasing number of periodicals published in the city. The latest in the literary field is "The Canadian Laundryman", published at this office. This periodical is one of the best of its kind. It is devoted to the interest of the laundry and kindred trades, which has become a most important industry. Millions of dollars is invested in laundries in Canada. The Laundryman is fiercely opposed to Chink laundries which they class as dives and opium joints, as a rule. Indeed we believe the government should protect society from these pitfalls to young women, who are often enticed in by the wily Celestial. Our contemporary would have these places subject to frequent and rigid inspection. If this were done, there would be few of them left.

It is proposed to improve the public schools of the city this summer to the extent of $16,000.

ADVERTISE IN THE TIMES.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES REPORTERS.

Closed To-day.

The Peterborough Normal School closes to-day for the Easter vacation.

Cattle Sale.

A large number of farmers are going from here to Belleville this morning to attend the cattle sale there.

Making Improvements.

The Otonabee Power Company has been making extensive repairs in their power plant. The power wheels have been taken out, and replaced, after being overhauled. This has made it necessary to close off the light for a few hours occasionally.

St. Peter's Ladies' Literary Society.

The St. Peter's Ladies' Literary Society will hold their last meeting this season this evening, at St. Alphonsus' Lyceum. Miss Margaret Ward will read a paper on "Brother Azarias," and a good musical programme will also be presented.

Seven Autos Sold.

Mr. Murton, local agent of the McLaughlin Motor Car Co., has disposed of seven cars already this season in Peterborough. This speaks well for this fine car, and shows that our citizens know which is the best.

Constable Bennett Acquitted.

Constable Fred Bennett, of Havelock, who appeared before Magistrate Edminson at Havelock on Wednesday on a charge of perjury, laid against him by Mrs. Innis of that village, was honorably acquitted. Mr. L. M. Hayes appeared for Mr. Bennett, while Mr. R. E. Wood, County Crown Attorney, acted for the prosecution.

W.F.M.S. Special Meeting.

A special meeting of St. Andrew's W.F.M.S. will be held in the Ladies' Parlour this evening, at 8 p.m. All ladies are urged to be present.

Card of Thanks.

Mrs. P. E. Rutherford, of 541 Aylmer street, wishes to thank all those who so kindly offered assistance and contributed flowers during the illness and death of her mother, Mrs. Dawson.

Lakefield Cement Works.

A local evening paper publishes a dispatch from Montreal, stating that the Canada Cement Company has decided to double its plant at Lakefield. This will be good news to the Lakefield people as well as to many in this city.

Going to Havelock.

The Orangemen of East Peterborough under the auspices of the District of Blairton and L.O.L. No. 326, Havelock will hold a grand county demonstration in Havelock on the 12th July next. It is confidently expected that this demonstration will far surpass any heretofore held there.

Is there anything in all this world that is of more importance to you than good digestion? Food must be eaten to sustain life and must be digested and converted into blood. When the digestion fails the whole body suffers. Chamberlain's Tablets are a rational and reliable cure for indigestion. They increase the flow of bile, purify the blood, strengthen the stomach, and tone up the whole digestive apparatus to a natural and healthy action. For sale by all dealers.

Fined $50 Each.

The five men who were charged with being frequenters of a gambling house, appeared at the Police Court yesterday, and pleaded guilty, and judgment was reserved until Tuesday. Two of the young men who were anxious to get the trial over, were fined $50 each, at an afternoon sitting of the court.

Dr. Scott Bereaved.

Dr. Scott received a telegram on Monday, informing him of the sudden death of his sister, Mrs. Wm. Truscott, Elgin, Man., aged 47 years. The late Mrs. Truscott was born in Smith Township, where a number of the members of the family still reside. After emigrating to the West, she was married to William Truscott, formerly from the vicinity of Port Hope. Her many friends in this locality will exceedingly regret to hear of her demise.

Gets a Silver Cross.

Cecil Richardson, who was instrumental in saving the life of Cyc Hughes, last summer, who had fallen into the river near the C.P.R. bridge has been awarded a silver cross for bravery. P. D. Kerr, secretary of the local organization of Boy Scouts has received a communication from Toronto in regard to the presentation of medals and decorations. In this connection it is suggested that the affair be held at Massey Hall and that Cecil Richardson attend on 21st April.

After 30 Years.

Mr. W. A. Shepard, of Barden, Sask., is visiting Peterborough, after an absence of 30 years. Mr. Shepard is President of the Board of Trade of the Western town, and his visit east has to do with the Pictorial and Railway Guide as an aid to emigrants from Europe, which he is getting out. He naturally is surprised and very much gratified at the splendid appearance of Peterborough, after 30 years' absence, which he says is keeping pace with the western cities. During his long residence in the West, he passed through many exciting scenes, particularly in connection with the two rebellions by Louis Riel. He is accompanied by Mr. Brandrette, brother of Mr. Brandrette, former agent of the G.T.R., Peterborough, and will remain some time.

OLD FOLKS COUGHS

BECAUSE RESISTING POWER IS WEAK PNEUMONIA OFTEN FOLLOWS.

Tells of a Sure Cure and a Never-Failing Comfort for Colds, Coughs, Catarrh.

One of the worst tortures of old age is that distressing chronic cough. Colds settle on the chest, are wrongly treated with drug-laden and chest-weakening cough syrups, and from year to year the condition has grown worse. Formerly the cough went away when fine weather came, but now bad weather makes it worse and fits of racking, tearing coughing, make life a burden.

Because you are old is no reason for suffering with everlasting coughing—those terrible chest troubles and difficult breathing can be thoroughly cured with Catarrhozone. You simply breathe the healing vapor of Catarrhozone and instantly its rich balsamic fumes are carried by your breath into the tiniest recesses of the nose, throat, chest bronchial tubes and lungs.

Just think of it—a direct breathable medicine, full of soothing antiseptic pine essences that reaches every sore congested membrane in two seconds. No drugs to take—Nothing to harm the aged or in the infant, because Catarrhozone is the purest, safest cough, catarrh and cold remedy ever devised.

Mrs. M. E. Walford, wife of a well-known grocer in East Sheffield, writes: "For three years I suffered with a hard racking cough and bronchial irritation which annoyed me so much at night I couldn't sleep. I tried many remedies, catarrh tablets, sprays, syrups, etc., but they only helped for a short time. Catarrhozone brought me wonderful comfort from the first. I inhaled its balsamic fumes every hour or two and am now free from any trace of cold, bronchitis and catarrh. I can go out in all kinds of weather and don't take cold."

There is no remedy so certain and safe as Catarrhozone, but being a good remedy it is imitated. Beware of the substitutes. Large Catarrhozone lasts two months, price $1.00; smaller size 25c and 50c. All reliable dealers, or the Catarrhozone Co., Kingston, Ont.

STEAMBOAT WONDER GOLD MINES, LTD.

(NON-PERSONAL LIABILITY)

Property Located on Steamboat Mountain

The first offer of shares in this Company was made March 2, at 20c per share. All of this allotment was sold in three days

10,000 Shares Are Now Offered at 35c

We predict this allotment will be taken up almost immediately

This May be the Last Public Offering of These Shares

VOL XXXIV NO. 80 PETERBOROUGH, ONTARIO, SATURDAY APRIL 8 1911 PRICE TWO CENTS

REV. CANON ROY UPHOLDS THE MARRIAGE LAW

SAYS PROTESTANTS ARE ONLY INDIRECTLY AFFECTED AND DECREE IS JUST.

Mixed Marriages Are Sad—People of All Denominations Begin to Realise That They Are Usually So.

Montreal, April 7.—"Canonical legislation on the marriage question and the relation of the legislation to the civil laws of the Province," formed the topic of a lecture delivered by the Rev. Canon Roy, vice-chancellor of the archdiocese, at Laval University last night.

The speaker upheld the decree "Ne Temere," and endeavoured to demonstrate that this enactment was a just one to which no one, non-catholic or Catholic, could take exception. It was aimed primarily for the direction of the conduct of children of the Church, and it was only indirectly that a non-Catholic might become affected by it. As the Church had the necessary power and jurisdiction to pass legislation to govern the conduct of her children, no exception could be taken to the recent enactment. As to the right of the clergy to officiate at all marriages of Catholics, this was accorded them by the constitution and laws of the country.

Regarding the contention that Ne Temere decree constituted an inroad on personal liberty, the canon declared that all laws were more or less inclined to restrict individual liberty. Thus, legislation prohibiting marriage of minors without the consent of their parents, and imposing certain formalities to be undergone prior to or coincident with the celebration of the marriage, was a species of restraint on individual liberty. The whole question, therefore, was to determine whether the restraint offered by the recent marriage regulations was a legitimate one or not. The Church certainly could not be denied the right to say to its adherents that if they desired to receive a sacrament they will have to go to one of the priests of the Church. The State, on the other hand, cannot be denied the right to say to the people that they must follow the laws of any church to which they have willingly affiliated themselves.

The speaker then drew a picture of the results which followed upon mixed marriages. It was a fact of experience that such marriages were almost always unhappy. Not only Catholics, but many non-Catholics had already recognized this, and were accordingly doing their utmost to discourage such unions.

There is one medicine that every family should be provided with and especially during the summer months; viz., Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers.

STARTS FOR MONTREAL

Pittsburg, Pa., April 7.—Chas. D. Sheldon, the alleged sky-rocket financier, wanted in Montreal, left here at noon to-day for the Canadian City in custody of Chief McCaskill, of Montreal.

SHIP WAS ABANDONED CREW WAS SAVED

ONE HUNDRED AND FORTY SEALERS LANDED ON ST. PAUL'S ISLAND.

No Provisions Rescued—The Steamer Was Insured in England.

Halifax, N.S., April 7.—The steamer Harlaw owned by the Halifax and Newfoundland Steamship Company, under charter to Crosbie and Co., St. John's N.F., has been abandoned in a sinking condition.

A despatch from the superintendent of St. Paul's Island station to the agent of the Marine and Fisheries Department says:

"One hundred and forty men, crew and sealers, are ashore on the island. No provisions were saved. Supplies and immediate assistance asked for. Government steamer Lady Laurier, ordered by wireless to come to Halifax for supplies, leaves to-morrow to render assistance."

The Harlaw is of iron, built in Glasgow in 1881, is of 267 tons, and usually operates between Halifax, Cape Breton, and Newfoundland, but was on a sealing trip at the time of her loss. Her master is Captain Barbour and the sealers are from Newfoundland. The steamer was insured in England.

THE NORTH-WESTERN ASBESTOS MILLS CO.

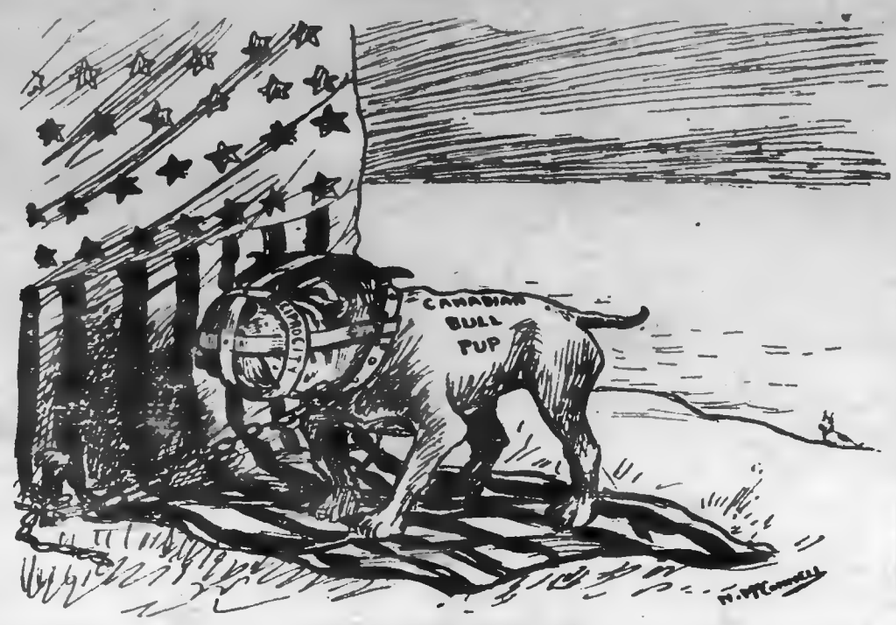
Splendid Opportunity to Make Profitable Investment.

We call the attention of our readers to the large advertisement of the North-Western Asbestos Mills Company, to be found on another page. This is a proposition that is worthy of the attention of the investing public of Canada, and we commend it to their consideration.

The Company is carefully managed and well officered, the President being Mr. W. A. Fisher, whose reputation for honorable dealing is well known, not only in the United States, but also on this side of the border line.

A card addressed to the Company, First National Bank Building, Chicago, will get full particulars.

REVISED VERSION



What We Have We'll Hold

MINE ON FIRE AND SEVENTY-FIVE MEN ARE ENTOMBED

Scranton, Pa., April 7.—Fifty to seventy-five men employed in the Bancroft Mine of the Scranton Coal Company at Throop, are entombed in the lower workings with all chance of escape, it is believed, cut off. Fire is raging along an entire vein owing to an engine house having been set ablaze.

Three hundred men were in the mine when the alarm was given and on account of the great excitement it was impossible to immediately learn how many managed to get out. One report says that more than 100 had been entombed.

LAWYER SANG "HOME SWEET HOME" AND THE WOMAN ON TRIAL FOR MURDER WAS FREED

Fort Worth, Texas, April 7.—Mrs. T. M. Brooks, charged with the murder of Mrs. Mary Binford, whom she accused of stealing her husband's love was acquitted by a jury to-day. The verdict of "not guilty" was voted on the first ballot.

"Thank God!" fervently cried Mrs Brooks as she stood with tears streaming from her eyes while the forman of the jury read the verdict.

Mrs. Brooks was acquitted on the unwritten law. It was brought out at the trial that her husband and Mrs. Binford had been intimate for four years. One witness testified that Mrs. Brooks resorted to prayer in an attempt to win back her husband's love, praying every day to restore his affection and turn Mrs. Binford into a better woman.

At the time of the killing, Mrs. Binford was employed in a store. Mrs. Brooks walked into the store one day several months ago and shot the other woman dead. Then she walked to her husband's office and told him what she had done. Since the shooting Brooks has left town.

The summing up of the defence last night was probably the strongest plea to a jury ever made in Texas.

As he neared the close of his arguments, Mrs. Brooks' counsel started to sing, "Home, Sweet Home."

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except of prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Sold by Druggists, Price 75c per bottle.

Take Hall's Family Pills for constipation.

OVER FIVE MILES OF NEW GAS MAINS

GREAT IMPROVEMENTS TO BE MADE IN PLANT.

Costing Many Thousands of Dollars—The Whole Works to be Put in First-Class Shape.

The new Company which has acquired the gas plants of Peterborough, Oshawa, Cobourg and Napanee, together with the electric light and power properties, has made arrangements to overhaul and greatly improve the Peterborough gas plant. Mr. Cowper Smith, the Company's gas engineer, is now in the city, and in conversation with The Times stated that the Company will put down five miles of new mains, leading from the gas works in various directions. These will be what is known as "high pressure" mains. At the end of each section there will be an apparatus which will reduce the pressure to normal, so as to save it for Domestic use.

Mr. Smith also stated that while the gas and electric light plant was owned by the same company, there will be a healthy revival between the two departments, which will ensure a better service.

Mr. Larmouth, the general manager of the electric power company, who always has the best interests of Peterborough at heart, is determined to make both our gas and electric light plants second to none in the country.

A RIOT AT PRINCE RUPERT SEVERAL MEN WERE SHOT

Prince Rupert, B.C., April 7.—Aroused by importations of strike breakers, twelve hundred strikers on the city grading contracts defied law and order yesterday, and for half an hour fought the police and strike-breakers with revolvers, rifles and rocks.

The battle did not end until one striker was carried away at the point of death with a bullet in his stomach one policeman, Sergt. Phillipson with a bullet wound above the eye, and one citizen, W. A. Casey, contractor, shot through the hand.

The citizens are boiling with indignation and are parading the streets as special constables, fully armed with rifles, and revolvers. Over 40 of the leaders of the strike are under arrest.

The strikers, headed by their chief leader, A. O. Morse, carrying a red banner, visited various contracts and called off the men working on them, many answering the call. A visit was made to McInnis and Kelly's, where a number of men had started work in the morning. These men refused to walk out.

The police had to put a barrier around the place and told the strikers that the first man who stepped inside of it would be arrested. Heckling of the strike-breakers went on for a time, and then some one broke down the barrier and the strikers rushed through. The police drew their revolvers, whereat an army of strikers drew their guns and fired. Rocks were showered everywhere and the city was soon thrown into terror.

GOOD BOUTS PUT ON AT THE GRAND LAST NIGHT

A large audience of local sports saw the four boxing bouts last night at the Grand Opera House, and it certainly looks as if it would pay to pull off more and classier matches here. The last bout between Lang and Lennard, was especially interesting. Both of them worked hard. Lang was chiefly on the defensive, while the Syracuse boy worked on the aggressive.

Tom Flannagan, owing to a law suit, was unable to be present, to act as referee. The position was filled by Mr. Frank Carroll who did his work satisfactorily.

Mr. Johnston and Jean Hurtisbuse were the time keepers.

The first bout was five rounds, of two minutes each

The opening bout was between John Walton, of Hamilton, and Jim Peters of Taronto. The latter put up a game fight, and drew blood in the second round.

The second bout was between Mr. Moore, 125 lb. champion of Canada, and Thos. Sturch, 118 lb. champion of Canada. In the third and fourth rounds they got busy and Sturch brought blood from the 125 pounder's nose. He also gave him a swollen eye. In the fifth, Moore landed frequently on Sturch, but the latter's clever blocking saved him a good deal.

The third bout was pulled off between Fred Compton, Ex-champion lightweight and Fred Pictow, of Toronto. The latter got the worst of the argument, but was game and stood a lot of punishment. They mixed things up from the start and clinched frequently. While separating the men, the referee narrowly escaped several mis-judged punches. Compton plugged the Toronto youth frequently on the face, in the first four rounds, but the gameness of the lafter was well worth admiration. When the bell sounded the finish of the 5th, the two fought away and did not want to stop, but gradually they cooled down.

The fourth and chief bout was a six round one of 3 minutes each, between Hilliard Lang, of Toronto and Joe Lannon, of Syracuse, who mixed it up at times.

In the first round Lannon was on the aggressive and landed some very nice ones, but Lang blocked well. Side swings were brought into play, and close punching was a feature.

In the second and third rounds each punched the other with great force. The Syracuse boy got in good work in the 4th, but Lang was right there all the time.

In the fifth, both worked hard and frequently clinched, keeping the referee busy. Lang plugged the American a few at this stage.

The sixth and final round was very fast and both boxers stopped a few Time was called and they shook hands.

THE LATE WM. J. METHERAL.

Death of Popular Young Man Yesterday.

There passed away yesterday morning, at the family residence, Aylmer street, William James, eldest son of Ald. J. Metheral, after a lingering illness. The deceased young man was well and favorably known, and was very popular, especially among the younger men of the city, who will deeply regret his death. He was 22 years of age, and was born in Peterborough where he lived all his life. He took a keen interest in athletic sports and did much to promote them having been chiefly concerned in the formation of the Strathcona Athletic Club, being manager of the hockey and baseball teams in connection therewith. For several years he had been a member of the executive of the Peterborough Hockey Club. He was an exemplary young man in every way and will be greatly missed by all those who had the pleasure of his acquaintance. He attended the George street Methodist church. The deceased is survived by his parents and two brothers, Messrs. Walter and Arthur Metheral, both residing at home.

The funeral will take place to-morrow afternoon from the family residence, Aylmer street, to Little Lake cemetery. The service will take place at 2 o'clock and the funeral will leave the house at 2:30.

The uniform success that has attended the use of Chamberlain's Colic Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can be depended upon. For sale by all dealers.

THE ANNUAL MEETING.

The annual meeting of the Brookside Bowling and Tennis Club will be held in the Dominion Bank Chambers on Monday evening next, April 10th, at 8:30 p. m., for the purpose of electing officers for the ensuing year. All members and prospective members are requested to be present.

GEO. E MARSHALL, M.D.,
Secretary.

CANADA IS NOT BOUND BY THE NEW ANGLO-JAP PACT

London, April 7.—In the House of Commons the Earl of Ronaldshay asking whether if the Dominions would not adhere to the treaty or be subject to statutory tariff with Japan, would they, under the most favored-nation clause, secure the same advantage as Britain?

Sir Edward Grey asked for notice of the question.

Mr. McCallum Scott asked if there was any reason to believe that the Dominions would submit to have commercial treaties imposed upon them by the Imperial Government.

Sir Edward Grey referred to clause 26, which stipulates that the treaty shall not be applicable to any overseas Dominions unless notice of their adherence is given at Tokio before the expiration of two years from the date of the exchange of the ratification of the present treaty.

The Morning Post in an article dealing with the Anglo-Japanese treaty, says: "Inquiries in Dominion circles have confirmed the impression that there is no likelihood of any of the self-governing Dominions declaring adhesion to the terms of the treaty. There has been no opportunity yet on the part of the Canadian Government to give the matter consideration, but the treaty provides for full unrestricted migration be abandon all restrictions on Japanese most profound resentment on the west coast of Canada. Unless some was specially made an behalf of Canada her adherence might be considered out of the question."

SUFFERED SINCE HER CHILDHOOD

BUT DODD'S KIDNEY PILLS MADE MRS. LAPRAIRIE A NEW WOMAN.

Nipissing Lady Gives an Experience That Should Prove of Immense Value to Suffering Women of Canada.

Laprairieville, Nipissing District, Ont., April 7.—(Special)—After suffering from various forms of kidney ills since she was a child, Mrs. O. Laprairie is a well woman and once more it has been proved that no case of Kidney Trouble is too severe or of too long standing for Dodd's Kidney Pills to cure.

Interviewed regarding her cure, Mrs. Laprairie said:

"Since I was twelve years of age I have suffered from Kidney Disease. I was always tired. My back would ache and I always had a sharp pain in the top part of my head. My heart also troubled me.

"Hearing of Dodd's Kidney Pills I gave them a trial, and now I feel like a new woman."

Thousands of Canadian men and women are feeling just as Mrs. Laprairie does as if life had started all over for them just because they have cured their kidneys with Dodd's Kidney Pills. For the kidneys are the mainspring of life. If they are clogged or out of order the whole body is wrong. Dodd's Kidney Pills always put the kidneys in good working order.

THE WEATHER.

Fine, with a little higher temperature.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents

GOVERNMENT ALL RIGHT, BUT CITIZENS SHY.

Editor Morning Times.

Sir,—We're getting about everything we need in the way of good government—except the men to administer it. We shall never fill that want until the citizen of great capacity is willing to serve in the highest spirit of loyalty to society. And we are just beginning to develop such citizens.

P. M. W.

IMPURE ICE.

Editor Morning Times.

Sir,—I understand nearly all, if not all the ice for local consumption has been taken from the Little Lake during the winter. If this is true, it is a serious menace to the health of the community, as the water of the Little Lake, can scarcely be regarded as pure, considerable sewage being emptied into it.

Kindly let me know, through the columns of your valuable paper, what the regulations are concerning ice for domestic use and oblige.

A Reader.

Reply—The Times is informed that the ice taken from the Little Lake is used for cold storage purposes only. Section 61 of the Ontario Public Health Act is as follows: "The local board of health of any municipality or district in which supplies of ice are obtained, sold or stored, shall have power to adopt such regulations regarding the source of supply and the place of storage of the same as shall in their opinion be the best adapted to secure the purity of the ice and prevent injury to the public health. The powers and duties of all local boards in this respect shall extend to the supervision of ice supplies, whether obtained within or outside the municipality, wherever the ice cut is intended for use within the municipality in which the board has jurisdiction."

THE BATTLE OF THE BOYNE.

Editor Morning Times.

Sir,—I see The Times has opened a "Public Opinion" column, and I take the liberty of making a suggestion that will, if adopted, be a big thing for Peterborough. My proposal is that our local Orangemen stay at home on July 12th, and celebrate the anniversary of the Battle of the Boyne in Peterborough each year. We are no longer a small country town, but are rapidly developing into a good-sized city. Then why divide up with County places like Port Hope, Lindsay and Cobourg? If the Orange brethren will annually invite the lodges from the surrounding district, there will be a "glorious twelfth" here every year. The Orange order is a powerful and influential body and is rapidly growing in Peterborough, so that they are easily able to carry through a programme such as the above. The business men of the city, Protestant and Catholic alike would cheerfully subscribe the necessary funds for the purpose. I hope such gentlemen connected with the Orange order as Mr. J. B. McWilliams, Col. Miller, W. J. Johnston, Jos. Batter and others I could name, will take this matter up, and it will be a great success.

An Ulster Orangeman.

OLD BOYS' REUNION.

Editor Morning Times.

Sir,—I read Mr. Mann's letter in your issue of yesterday, and am delighted with the proposal to hold an Old Boys' Reunion. Let the Mayor call a meeting at once and get the thing started without delay. Get a few men like ex-Mayor Denne, Mr. G. C. Wainwright (who has done and is doing so much in connection with the chimes), Mr. Gilchrist of the Y.M.C.A., Dr. Morrison and a few others interested and it will be a big success. I am sure our Aldermen will take a hand in the good work and push it along. Keep it going, Mr. Editor. Hundreds of former residents scattered over the country are sure to return "home" during the week selected for there should be a week at least of festivities.

An Old Boy.

It begins to look as if the British lords will consent to being reformed without first being kicked.

MANY EASTERN TOWNS CALL FOR HYDRO-ELECTRIC POWER

ADAM BECK WILL SUBMIT A PROPOSITION TO MUNICIPAL UNION.

Brockville, April 7.—In December last on the invitation of the City Council of Kingston, a meeting was held in Brockville for the purpose of discussing and taking preliminary steps towards municipal co-operation with a view to securing cheap Hydro-Electric power. Representatives were present from Napanee, Kingston, Lansdowne, Brockville, Lyn, Athens, Prescott, Cardinal, Iroquois and Morrisburg, and a union of these municipalities was formed. The Hydro Electric Commission were requested to quote prices on 5,325 h.p. which, it was estimated, was the amount of electrical energy required by the places above mentioned. Kingston headed the list with 1,200 and Brockville came next with 1,000.

Subsequently the Commission furnished figures based on the aggregate amount of power to be taken, but the quotations were considered altogether too high to be entertained. Hon. Adam Beck, however, got busy on a new tack and announcement is now made that the Commission has signed with the New York and Ontario Power Company of Waddington, N.Y., for 15,000 Hydro Electric power for use of Eastern Ontario municipalities.

Mr. Beck now comes forward with a definite proposition which he will make at another meeting of the union of municipalities to be held in Brockville late this afternoon.

The Minister of Power will be greeted by a large and enthusiastic gathering, for many localities not heretofore represented will have their municipal heads in attendance to take advantage of what is coming this way in the line of cheap power, of which Eastern Ontario stands urgently in need.

BASKET BALL.

The first of the three games between the intermediates and Collegiates for the intermediate basket ball cup, was won by the Collegiates last night by a score of 35—24.

The following is the line-up:

Intermediates — Fitzgerald, Irwin, Darling, Hastie and Nicholls.

Collegiates—Lang, Bartlett, Hill, Rae and Stewart.

SENATOR FORGET DEAD

Montreal, April 7.—A cablegram received in Montreal this morning announces the death at Nice, France, of Senator L. J. Forget. The late Senator had been in feeble health for a number of years past.

SATURDAY, APRIL 8, 1911.

DOCK THE BUSINESS AGENT.

A writer, in discussing strikes, says that he would stop the salary of the business agent or walking delegate the moment a strike went into effect at his command and renew it after the termination of the same. As matters now stand, while the wages of the workmen involved—frequently against their will, generally to their complete surprise and bewilderment—automatically stop, the pay of the business agent continues indefinitely, or as long as there is money in the union treasury.

Human nature being what it is, one is inclined to agree with the writer that the suspension of the agent's salary would in many, if not all cases operate as a potent incentive to peace efforts. Psychologists and criminologists tell us to count on the direct personal interest in every instance, however, it may seem to be modified superficially by other motives. Well, the instigators of jurisdictional strikes may be glib or stanch defenders of the rights and privileges of their respective trades, but the influence of the pay envelope on their style or method of negotiations is worth measuring. While devising more elaborate machinery for preventing or settling these costly and absurd disputes, the simple plan proposed might be experimented with.

Balsamic Essences

Make Wonderful Cure for Catarrh, Colds, Bronchitis, Throat Weakness.

To cure an ailment in the throat or chest, to rout out catarrh or Asthma, it is essential that the medicine be conveyed directly to the affected parts. This is why no other remedy has achieved such world-wide success as Catarrhozone, which alone can be breathed in one second to every air cell in the breathing organs. The healing vapors of Catarrhozone mix with the breath and descend through the throat, down the bronchial tubes, to the deepest air cells in the lungs—all parts are saturated with the rich, piney essences that ease, heal and cure.

Catarrhozone has entirely displaced the old-fashioned remedies, such as cough syrups, sprays, tablets, and sedative powders. It contains none of the opium, chloral and drowsy narcotics, so commonly found in liquid cough and catarrh remedies.

The extraordinary curative power of Catarrhozone is well explained in a letter from A. B. Cowan, the well known restauranter of Carleton, who writes: "Some time ago I suffered severely from a frightful cold in the head and chest. It was nothing but one continual cough, hawk, headache from morning till night. My nose and throat were so completely stuffed up that I could scarcely breathe. Catarrhozone eased the cough instantly, that would not yield even to the doctor's medicines. Hour by hour Catarrhozone relieved and by pursuing its treatment I have been permanently cured of all trace of Asthma, Catarrh and Bronchial Irritation."

Once you try Catarrhozone you'll realize how indispensible it is—the large dollar size contains an indestructible hard rubber inhaler and sufficient medication to last two months. Smaller trial sizes 25c and 50c. Beware of the substitutor and imitators of Catarrhozone—use the genuine and you'll get cured. By mail from the Catarrhozone Company, Kingston, Ont.

RUSSIAN WOMEN REVOLUTIONISTS

Goaded Into Anarchism by the Horrors of Czardom—Careers of Some Leaders

"Let the Great Powers intervene and insist upon a complete reform of Russian methods in all departments, and all over the Empire of Nihilism, men and women [illegible]."

And like the words of the paragraph, which is quoted from a London paper, other words, above the horrible Siberian tragedy, have pointed out that a great measure of the responsibility for the presence of Anarchists in England lies at the door of Czardom. Russia breeds Anarchists and Nihilists high-minded men and women who sacrifice their freedom and lives because of their hatred of the despots who grind down the common people with prison and the knout, and others who, having suffered cruelty and torture, pursue a systematic course of revenge on all society.

A striking illustration of the manner in which Russians are goaded into Anarchism is to be found in the fact that, according to statistics, 35 per cent. of all Russian Revolutionists and Nihilists are women. Not ignorant, uneducated women, but in many cases women of culture, wealth, and good breeding, who are so stirred by the wrongs suffered by their countrymen and countrywomen that they gladly join the Revolutionists, well knowing that sooner or later they will be forced from a luxurious home and surroundings to a living death in Siberia.

The death was recently reported, for instance, of Vera Sussulitch, a woman martyr, whose work and fate have inspired thousands of followers. She, together with Vera Figner—both young women of high ideals and education—were arrested as Revolutionaries after the assassination of Czar Alexander II. For nearly twenty years they were confined in the solitary dungeons of Schlusselburg, the Russian Bastille in the middle of the Neva, from which no one has ever escaped; and then they were sent to Siberia. Ultimately, when they were aged, grey-haired, and broken in health, Czar Nicholas gave them a pardon and they were released.

One of the most picturesque figures amongst women Revolutionists of Russia is Vera Figner, whose father was one of the distinguished generals of the Napoleonic wars. Betrayed by a traitor, she was condemned to twenty years in the Schlusselbur fortress for alleged participation in every one of the attempts on the life of the late Czar. Those incarcerated in this fortress are considered as buried alive, no intercourse or communication with the outer world being allowed, not even with their own nearest relatives. But Vera Figner survived the horrors of twenty years' solitary confinement and exile in Siberia, and is still working for the enlightenment of ignorant Russians.

Flogged to Death

A name revered by all Russian Revolutionists is that of Mme. Sigida, who, aroused to a frenzy of indignation through seeing an invalid female prisoner in the Siberian colony of Kara, to which they had both been exiled, flogged by a warder, was herself flogged to death because she struck him. In the prison records it is written, "Mme. Sigida committed suicide by poisoning herself," but truth, like murder, will out, and the crime of the warders of Kara has been fully proved.

Terrible indeed were the torture and cruelty meted out to Marie Spiridonova, who three years ago shot Colonel Luzhanovsky, who flogged the peasants when they were unable to pay taxes, or ordered the Cossacks to shoot down the strikers and to torture their wives and children. She was condemned to death, but the inhuman treatment she had suffered before her trial induced the authorities to commute the death-sentence, although it would have been more merciful to have carried out the extreme penalty of the law, for to-day she is working out a miserable existence in a Siberian mine, and is said to be the only chained woman convict in Siberia.

A Princess in Exile

One of the most remarkable incidents in the history of the Russian movement was the sentencing to Siberia of M. Lopukhin, President of the Police Department until 1906, who was accused of sympathizing with the Revolutionists. His wife, born a princess and a friend of the Czarina, followed her husband into exile, and the once leader of fashionable society in St. Petersburg is now a member of a colony of Siberian convicts.

These are but a few of the women Nihilists of Russia, who, in the words of M. Prelooker, "have given up their homes, sold their costly gowns and furs, and have gone bravely out to face death, and worse than death."

Of these women, Catherine Breshkovskaya is the honored leader. She is known as the "well-beloved grandmother of the Revolutionists." For twenty-three years she was incarcerated in various prisons in Siberia, sometimes in solitary confinement sometimes with a few companions in an Arctic climate surrounded by an eternity of snow, but undaunted in spite of all. "We may die in exile, and our children may die in exile, but something will come out of it at last," she says.

HOW CROCKETT SCORED

Among popular present-day novelists whose work was condemned in the first place by publishers is Mr. S. R. Crockett, of "Stickit Minister" fame. When he offered his first volume to a Scotch firm it was returned with a polite note assuring him that there was no market for that sort of thing. The letter was marked "No 396b." In later years when the same publishers asked him for one of his manuscripts he politely requested them to refer to their previous correspondence with him marked "396b."

DOCTORS FAILED. RESTORED BY PERUNA

Catarrh of the Lungs Threatened Her Life.

Miss Ninette Forter, Braintree, Vermont, writes: "I have been cured by Peruna.

"I had several hemorrhages of the lungs. The doctors did not help me much and would never have cured me.

"I saw a testimonial in a Peruna almanac of a case similar to mine, and I commenced using it.

"I was not able to wait on myself when I began using it. I gained very slowly at first, but I could see that it was helping me.

"After I had taken it a while I commenced to raise up a stringy, sticky substance from my lungs. This grew less and less in quantity as I continued the treatment.

"I grew more fleshy than I had been for a long time, and now I call myself well."

REBUILDING MESSINA

On a Most Lavish Scale—The Great Amount of Money Required

Messina, the beautiful city in Sicily, so recently wiped out by earthquake, is to be rebuilt on a most lavish scale.

Signori Sacchi and Cinfelli, the Italian Ministers of Public Works and of Posts and Telegraphs, respectively, accompanied by Signor Calisano, Under-Secretary for the Interior, and a number of senators and deputies, visited Messina recently to gain an idea of the progress made and the measures yet to be adopted in connection with its rebuilding.

Signor Sacchi made a speech, received with loud cheers, in which he recalled what the Government had already done, and announced its intentions in the future for the benefit of the stricken city. He explained two difficulties that had prevented an earlier start being made with permanent rebuilding.

In the first place, the immediate needs of the survivors had to be met, and for this purpose 40,000 cantonment shelters had been constructed. Altogether, of the 106,000,000 lire ($21,200,000) originally placed at the disposal of the Ministry of Public Works, 76,000,000 lire ($15,200,000) had been spent, and contracts were gradually being entered into for the outlay of the rest. While, Signor Sacchi continued, two years ago only some 3,000 persons remained among the ruins, the city now counted 49,000 inhabitants living in the cantonments, and 20,000 in houses that had been repaired, and the growing development of the public services and the recovery of trade afforded great encouragement for the city's future.

They were now entering on a new phase, the period of stable reconstruction and economic development. The laws specially passed for this purpose had brought the total funds at the Government's disposal, including the advance of loans to private persons, up to 500,000,000 lire ($100,000,000), and it had been possible to do all that without entrenching upon the Treasury's prosperity or the country's credit.

The Government's programme now was the speedy building of new houses, in accordance with rules calculated to minimize future danger. Over a million cubic yards of debris had been cleared away, and now work had to be begun on private property. If private owners did not take the necessary measures within three months, the Government would immediately step in with the most powerful modern appliances.

That would mean that the lower part of the town would be cleared in eighteen months, and the upper part within three years. For its part, the Government was taking active steps for the building of public offices, and would ask Parliament for further funds for that purpose. But they had to think especially of the sea-front and the harbor.

Work on the dry dock was already actively proceeding, and in a few months further harbor works would be begun costing 5,000,000 lire ($1,000,000).

FROM THE WORLD'S PRESS

Romance in commerce is by no means dead.

* * *

Poetry is a drug in the market; both publishers and booksellers proclaim this fact.

* * *

The laity should cease to think it bad form to discuss the sermon to the parson's face.

* * *

It is just as unsafe to judge wage workers in the lump as it is to judge capitalists in the lump.

* * *

The Americans are a great and free people; but their passion for making rules needs checking.

* * *

An English crowd is quite as lively as a Continental one, though its environment may not be.

* * *

A waiter must hear many things and yet be deaf, and must see many things and yet be blind.

* * *

The world is half full of people who have no interest in their work because they are not fitted for it.

* * *

People talk lightly of "spoiling" children, but tragedy of a very real kind lurks behind the phrase.

* * *

We all of us think sometimes of that day when we shall find time to enjoy the simple life of the country.

* * *

In this age there is abroad less spirit of criticism and more a spirit of appreciation—the tendency is to praise rather than to blame.

NEARLY HANGED AS A SPY

Perhaps the most remarkable incident in the career of the late Senator Elkins occurred when, as a young man, he was fighting for the Union in the Civil War. He was captured by a guerrilla band, and would have been promptly hanged as a spy had it not been for the intervention of a member of the band, who recognized him as a boyhood friend. Many years later when Senator Elkins was rich and famous, he heard that the man who had saved his life was serving twenty years in prison for robbing a bank, and he used his influence to bring about the release of his former benefactor.

STREET ARAB TO AUTHOR

A fine example of what "self-help" can do for a man is furnished by the career of Mr. F. T. Bullen, London.

Years ago he was a youngster roaming about the streets of London without food, except when he got it by little, out-of-the-way tricks which only the street boys of London know. At last Mr. Bullen got a job as an errand boy, then he went before the mast, and rose to be chief mate, knocking about in the course of his career, in all parts of the world. And it was the experience thus gained which enabled him to write those absorbing stories of sea life, "The Cruise of the Cachalot" and "Idylls of the Sea."

HENNIKER HEATON

Has Four Times Declined the Honor of a Knighthood

The City of London conferred its freedom upon Mr. Henniker Heaton eleven years ago, and successive Governments have pressed a K.C.M.G. upon him. But Mr. Heaton has four times declined the honor. There is a joke in connection with Mr. Heaton's friendship with Mr. Marconi which might bear repetition. When he was made a Freeman of the City of London Mr. Marconi accompanied him, and when the latter's turn came and he received the freedom of Rome, he insisted that Mr. Heaton should return the compliment by going with him to Rome. Some little time before this Sir Benjamin Stone had photographed them together on the terrace of the House of Commons in the costumes of their respective Courts. Mr. Marconi sent a copy of this to an Italian newspaper, and the latter published it on the day Mr. Marconi received the freedom of Rome over the inscription: "Mr. Marconi and King Edward the Seventh." One of Mr. Heaton's most treasured possessions—and he only received it during his election campaign this year—is a letter from Mr. Chamberlain wishing him success. Lord Desborough has chosen the following extract from it as an inscription for Mr. Heaton's tombstone: "It has been given to few men to promote reforms independently, and to see them adopted in their own lifetime with universal approval." There is an amusing anecdote in connection with a Parliamentary chess match which the famous postal reformer got up between Great Britain and America in 1907. It was played by cable, and at one stage of the game everything pointed to the defeat of the Yankees. Realizing this, they wired "You're too good for us; we'll play you at poker!" The game, however, ended in a draw and the offer to play poker has not been accepted.

OUTLAW BUFFALO

Causes Trouble in Montana—Canada Makes Another Coup

Howard Douglas, superintendent of Canadian National parks, recently visited Missoula, Mont., to hold a conference with Pablo, and Henry Avare, the state game wardens, with regard to the outlaw buffalo, and a buffalo hunt with all its dash, heroism, and desperate risk was decided on. Mr. Douglas made the announcement of another clever piece of Canadian manipulation when he stated that on his way down he had stopped at Kalispiel and purchased two cars, 28 head, of the Conrad herd of full bloods. These animals are domesticated, and almost as gentle and easy to handle as ordinary cattle. They are virtually part of the Pablo herd, but were separated from the larger herd when Allard, the partner of Pablo, died. His executors took one half of the buffalo herd. This last Canadian coup practically places this country in possession of all the buffalo in the world.

But with regard to the buffalo hunt, it is not thought that the action of the U. S. authorities in vetoing the buffalo hunt had any particular effect upon the outlaw bulls, but it is known that since that decree went forth these old warriors have developed most murderous and destructive tendencies, and now, according to the Missoula papers, are terrorizing the Flatfoot reserve, and seem to be lying in wait for settlers, and take delight in chasing them to their shacks and then battering their shacks to pieces much to the discomfiture of the homesteader or settler.

BLESSING THE BEASTS

Quaint Ceremony that Obtains Yet in Normandy

A quaint ceremony is still obtaining in some parts of Normandy—the "benediction des bestiaux."

The oxen, the asses, and the draught horses are assembled in front of a church. There may also be a bullock or two, and perhaps some cows. The procession of peasants, clad in their very best, issues from the church to the sound of a chant that is droned by the priest. The venerable cure sprinkles a few drops of water on the heads of the beasts, and when all the animals have received the benediction the next feature of the ceremony is to place at the pedestal of the cross facing the church certain bundles tied in coarse linen. These bundles contain bread and salt, which are to be given to those beasts not able to attend the ceremony.

TALK WITH MAKER OF GLASS EYES

Always Keeps a Quantity of Human Eyes on Hand—Black, Hazel, Blue and Grey

"I can make any kind of eye, one that will suit a girl's doll or her mamma, if she should ever be so unfortunate as to be in want of one," said a well-known glass-eye maker in London. "I do not do much in the way of birds' eyes, they are mostly manufactured in Birmingham, and, like the doll's eyes, do not require very special skill. It is where you have to match the natural eye with an artificial one so like it as to be practically indistinguishable that our special art comes in.

"I keep a good many 'human' eyes on hand, though frequently I am asked to make one to order. Here are two boxes, each containing about 200—black, hazel, blue, and grey. You will see the higher colors are of all shades, and scarcely one pair is exactly the same as another.

Sparkling Eyes for Ladies

"These are ladies eyes on your right. You will notice that they have more sparkle and brilliance than the gentlemen's. Here is a pair made to order, or rather I should say two, for they are, of course, intended for different ladies. They are both young and nice-looking, and no one will be able to tell that both their eyes are not perfectly natural. When a lady or gentleman comes to me for an eye I study closely the one they have left, the ball, the pupil, the exact shade of color. It is more important to them than sitting for their portrait to a Royal Academician.

"No, you cannot tell it is artificial, unless where the wearer cannot afford the price, and is content to buy what we call a misfit. These are, of course, much cheaper, but it is a rare chance if they match the other eye. And then they do *not* fit the socket exactly, as those do made to order, and they do not move in accordance with the movements of the natural eye. That is how they are so often detected. A perfectly-fitting eye is as responsive to the movements of the muscles as the natural eyeball. Even doctors, when not put on their guard, are frequently deceived, and I have more than one lady customer whose husbands believe their wives to be possessed of the orthodox number. In fact, both husband and wife might each have a glass eye and the other not know, but, I must say, I have never had such an instance in my experience.

Take Out Your Eye at Night

"It is wiser to take out the eye when retiring for the night. Many sleep with them under their pillow, others put them in a tumbler of water, while many don't take the trouble to remove them at all. They are not like false teeth, you know, ready to slip down the throat.

"Some people wear out false eyes faster than others do. I suppose it arises from a more active secretion of fluid in the socket. Yes; I suppose you may call it tears, but it need not be from crying only. The secretion acts on the false eye as acid does on metal, and the surface becomes corroded and roughened. The roughness leads to inflammation, and then the best thing they can do is to come to me for a new eye. Our sale of men's eyes is double that of women's. Men are more exposed to accident. An old maker, whom I knew when learning the trade, once supplied a lady with two eyes. She had lost one, and was so pleased with the artificial one provided that, when an unfortunate accident deprived her of the other, she had a second made to match it.

"False eyes, even the cheapest ones, are a great blessing to many servant girls. Without them they would never get a place. In Paris there is a charitable institution for supplying false eyes to the poor. A good eye can be had for a couple of guineas, but how few poor people can afford that. And the loss of an eye almost certainly involves the loss of a situation, with the greatest difficulty, or perhaps impossibility, of obtaining another."

LONG IN THE SERVICE

Remarkable Records Among Canadian Implement Employes

The Frost & Wood Company of Smith's Falls, has sixty-four employes who have been with the firm sixteen years or over. The longest period of service is 49 years for one man. Another has been with the company 41 years, and two for 40 years. The record continues: Four for 38 years, one for 37 years, one for 35 years, three for 33 years, two for 32 years, six for 30 years, one for 29 years, two for 28 years, one for 26 years, five for 25 years, three for 24 years, seven for 23 years, six for 22 years, four for 21 years, four for 20 years, two for 19 years, four for 18 years, and four for 16 years.

BEARS IN THE NORTH

Surveyors Who Arrived at Nome Were Frequently Visited by Master Brute

Some extraordinary stories of experiences on the Alaska Boundary Survey are told by Mr. H. S. Mussell, of Ottawa, who recently arrived at Nome after long and arduous labors in survey work, says Rod and Gun. The surveyors found more bears there than they did on the Stikine River and soon realized that these animals were disposed to be friendly. Apparently their food supplies were abundant, and the bears, though paying frequent visits, never attempted to molest the men. The smell of frying bacon proved irresistible, and the bears came close enough for tidbits to be thrown to them. Finally they took to visiting the camps and foraging for themselves at night, but the men resented this, although the bears never disturbed their privacy. The region is extremely rough, being a rugt series of high peaks covered with eternal snow. It was impossible to place boundary pillars there, and the triangulation work and photographs will form the record. In all about four thousand square miles of the territory was covered. This involved the climbing of high peaks, some of them having an elevation of over eight thousand feet. The Muddy River, a tributary of the Yukon, rises at the foot of [illegible] which is believed to be the [illegible]

chef, not counting its arms and its snows in the vicinity is only twenty miles long. The survey work was progressed at different points. Difficulties, owing to the ice, existed, and sweeping through the Ivy Lake ice swept down the mountain side with the speed of an avalanche. In eight hours the river rose twenty-two feet, and the camp and supplies had to be hastily removed. The boundary line has a good deal.

A VERSATILE PEER

Is the Earl of Crewe—His Wife Noted For Attainments

Poet, book-lover, sportsman, model landlord, and a keen agriculturist, the Earl of Crewe has gained the reputation of being one of the most versatile as well as broadminded of peers. In addition, he is one of the best-dressed, and the term "Crewe's elegance" is often heard at St. Stephen's. He is married to the daughter of Lord Rosebery who, prior to the wedding in 1899, was known as Lady "Peggy" Primrose. Lady Crewe has developed into one of our leading political hostesses, and has proved of great service to her husband in his political work. She is an exceedingly clever, tactful, and witty woman. On one occasion at dinner she noticed her father seated between Mrs. Asquith and the late Duchess of Cleveland. "Look at papa," she said, "sitting between the nineteenth and twentieth centuries."

WILL BE DIRECTOR

Duke of Norfolk in Charge of the Coronation Plans

As Earl Marshal and Chief Butler of England the Duke of Norfolk will be one of the chief directors of the Coronation. A large amount of his time is always occupied with important questions of etiquette, in addition to which, as "lay Pope of England," as he is sometimes described, he is the acknowledged head and spokesman of the English Catholic laity. The Duke has already shown his mastery over details of public ceremonies. Particularly was this the case with his splendid arrangements for the lying-in-state and the funeral of the late Mr. Gladstone. The time was so short and the precedents so few that the Duke had to devote about fifteen hours a day to the work.

TOO CHEAP

Why She Could Not Get Her Ideal Clergyman

A great lady in Scotland once did the late Dean Rorison, of St. Andrews, the honor of consulting him as to appointing a clergyman to a charge of which she was patroness. She said: "I wish you to understand the kind of man I want. He must be a gentleman; he must be musical and cultured. I want him to take an interest in the boys, to exercise a refining influence over the whole neighborhood; he must, of course, be a good preacher. Now, Dean, do you understand the kind of man I want?"

He said: "Yes, madam; I understand the kind of man you want. You want a St. Francis de Sales, plus a Liddon, plus an Archbishop of Canterbury, for $750 a year and a damp cottage, and you won't get him."

PERSISTENT CRUELTY

A woman who was married less than a month ago obtained a separation order at Bury St. Edmunds on the ground of persistent cruelty.

THE OLDEST MARQUIS

Abergavenny has Fiery Energy and Remarkable Self-Control

The distinction of being the oldest marquis belongs to the Marquis of Abergavenny, who has entered upon his eighty-fifth year. It was Lord Beaconsfield who payed a high tribute to his abilities and described him as possessing the remarkable qualities of "fiery energy and perfect self-control." Lord Abergavenny has been a keen sportsman, and at one time was one of the best shots in the country, while he hunted the Eridge pack for many years. The Nevills are a fine old family who trace their line back to William the Conqueror, and claim kinship with the Earl of Warwick, who was known as the "King-maker." The venerable Lord Abergavenny is noted for his democratic ways, and delights in joining his employes at a festive board. Once he insisted upon his butler sitting on his right hand, to that worthy's perturbation.

DEPARTMENT OF RAILWAYS AND CANALS.

Ontario—St. Lawrence Canals.

Galops Canal.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Improving Upper Entrance to Lock, No. 28," will be received at this office until 16 o'clock on Friday, April 15th.

Plans, specification and Form of Contract to be entered into can be seen on and after March 18th, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of Tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labour, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $6,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, March 21st, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

DEPARTMENT OF RAILWAYS AND CANALS.

Ontario—St. Lawrence Canals.

Cornwall Canal.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Improving Upper Entrance to Lock No. 19," will be received at this office until 16 o'clock on Saturday, April 15th.

Plans, specification and Form of Contract to be entered into can be seen on and after March 18th, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the resident Engineer on the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labour, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and the place of residence of each member of the firm.

An accepted bank cheque for the sum of $1,500.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, March 21st, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

TENDERS FOR DREDGING.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Dredging, Ontario," will be received until Tuesday, April 25, 1911, at 4 p.m., for dredging required at the following places in the Province of Ontario:—

Big Creek, Big Island, Echo Bay, Kincardine, Port Elgin, Kingsville, Penetanguishene, River Thames, Salt Point (Presqu'Ile), and Wiarton.

Tenders will not be considered unless made on the forms supplied, and signed with the actual signatures of tenderers.

Combined specification and form of tender can be obtained on application to the Secretary, Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the work. Only dredges can be employed which are registered in Canada at the time of the filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

A separate cheque for each place for which a tender is submitted must accompany the tender. This cheque must be equal to five per cent (5 per cent) of the amount of the tender, based on the approximate quantities set opposite the name of the place, but in no case must the cheque be for a less sum than $1,500. The cheque must be accepted, on a chartered bank, and payable to the order of the Honourable the Minister of Public Works. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

E. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, April 3, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

BOOKS THAT REALLY TEACH you the things you want to know, and in a simple, practical way that you can understand.

Our illustrated catalogue, which will be sent you free upon request, tells all about the Practical Mechanical Books for Home Study that we publish.

There are popular priced books on the operation of trains and station work, practical electricity, power transmission, telephony, telegraphy, mechanical drawing, steam engineering, power plants, mechanics, gas engines, electrical wiring, armatures and armature winding, dynamos building, elementary electricity, wireless telegraphy and telephony, carpentry, and a dozen more, concrete construction, plastering, plumbing, steam and heating, sheet metal pattern drafting, arithmetic, etc., etc.

No matter what your occupation or desire, that knowledge may be, we probably have a book written by a man who knows that will give you just the information you need in the shortest time and at small cost. Write today for this free catalogue and complete information and particulars and popular price list. It is free.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise of earning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

TORONTO DETECTIVE AGENCY — An agency conducted on modern business methods for the merchant, lawyer, manufacturer and individual; high class, reliable and secret and confidential work; charges moderate. A. C. JOAKS, P. R. DUNBAR, 12 Toronto St., Toronto.

LAUNDRY.

CHARLIE YUE, 264 WATER STREET, Opposite Post Office. Phone 1228. Laundry work done promptly and satisfactorily guaranteed. Laundry called for and delivered.

According to Government Estimates

$100,000,000.00

Was Made in Western Town Property During the Year 1909

Did you anticipate in these huge profits or did you "pigeon-hole" the propositions submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognize the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Five or ten years ago I had the chance to buy this or that property at $100 or $500, and now it is worth $10,000." The average person sneers at the person who makes such a statement and says: "I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Poe, Alta., at from $50 to $100 each, or are you going to be the man who will have from $1,000 to $10,000 in cash as a result of having bought property in this town in this year of grace, 1911?

POE A COMING COMMERCIAL CENTRE

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich coal mines, is close to rivers and lakes and large forests are easily accessible from this point. These natural resources insure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

POE AS A MANUFACTURING CENTRE

This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forests furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost.

The town is located on the main line of a transcontinental railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

Poe townsite was recently placed on the market and already over 200 lots have been sold and many of these lots have already changed hands at a substantial increase in price. Most of these lots were purchased by representative business men throughout Canada who are now profiting by their foresight.

The townsite is high and dry and very suitable for building purposes.

OPPORTUNITY

is useless unless you possess the courage to act. You might possess great wisdom, you might read a good deal or travel much and thus see all kinds of opportunities to make money, but unless you have the courage to act on your judgment and wisdom all of these desirable qualities are entirely useless.

Lots in Poe are a good investment at present price. The town is bound to grow rapidly. Owing to the easy terms of payment you have the ability to buy and if you do not buy now it is because you are lacking in courage, and the chances are you will never be like the man you now admire most, rich, courageous and wise.

TORRENS TITLE.

Poe townsite is held by us under the Torrens system of title. Under this system the title is guaranteed by the Government, therefore absolutely safe.

PRICES AND TERMS.

Prices of lots range from $50 to $100 each, and they can be purchased on terms of one-tenth cash, balance in eighteen equal monthly payments; or quarter cash, balance in six, twelve or eighteen months.

INFORMATION

We have issued an attractive circular giving full information pertaining to the town and its prospects, together with map showing lots for sale. If you wish to receive this attractive circular cut out and fill in the attached coupon and mail it to us to-day.

INFORMATION COUPON

Gentlemen,—With a view to buying property in Poe, Alta., please send me full information with map and price list, and oblige,

Yours Truly,

UNION BANK BUILDING, - - WINNIPEG, CANADA

PUT YOUR SAVINGS INTO North-Western Asbestos Shares

Where They Will Earn Something For You

W. A. Fisher, President

The North-Western Asbestos Mills Company

Mr. Fisher comes to The North-Western Asbestos Mills Company with years of experience to recommend him as a master of finance, a man of far-seeing business judgment and splendid executive ability.

He will assume an aggressive, though conservative policy in the affairs of The North-Western Company, and will stop at nothing short of success.

It was through Mr. Fisher's efforts that the International Asbestos Mills and Power Company secured valuable concessions in the way of lowered freight rates, enabling that company to market their products in many parts of the country, meeting the sharpest kind of competition.

Mr. Fisher is keen after business, vigorous and progressive and the directorate of The North-Western Asbestos Mills Company may be congratulated upon securing his services as President.

Your Opportunity to You this Money Making Enterprise

You must not let this opportunity pass by. You can not afford to. It means something to you if you buy now while you can get shares in this profitable enterprise at such a very low price. Our plan is a most liberal one and it means a short cut for our stockholders to handsome profits and early dividends. Shares are selling now for 5 cents. The market is on the advance and there is every reason to believe that they will be worth many times that amount in a short time. Our proposition is not a prospect. We have passed the experimental stage and are on the highway to success and stupendous earnings. You want your share. You want your savings invested where they will earn something for you. You don't want to have to wait forever on dividends. You want an investment that has security and promise of great earnings in the shortest possible time. THEN YOU WANT A LIBERAL BLOCK OF SHARES IN THE NORTH-WESTERN ASBESTOS MILLS COMPANY while you can buy them at five cents per share.

C. H. Parker Comes to North-Western Co.

This Company has secured the services of C. H. Parker, M. E. and H. E., of Thetford, Canada.

Mr. Parker has had years of experience in the Canadian Asbestos Fields, having been in charge of some of the largest and most important mines in the country.

In taking service with this company he will have complete charge of the operation at the mines and mills in Wyoming and will undoubtedly institute the newest and most modern methods in mining and milling our products.

Many new plans have been devised that will further develop the Company's holdings and Mr. Parker's association with us will undoubtedly make a short cut to greater profits and quick dividends.

Profits Aggregating Millions of Dollars

There is every reason to believe that profits aggregating millions of dollars will be made by our Company in the future. You should not miss the opportunity to secure your share.

The world wants asbestos. We have asbestos to sell. The demand is increasing daily and shares in our enterprise that are selling to-day for 5 cents will probably be selling for 5 times that amount inside of six months.

THE INTERNATIONAL ASBESTOS MILLS AND POWER COMPANY, OPERATING IN THE SAME FIELD WITH US, IS A GRAND SUCCESS. THE PRICE OF SHARES IN THEIR COMPANY WAS STARTED ONLY A FEW MONTHS AGO AT 10 CENTS AND ARE NOW SELLING FOR 25 CENTS. ON APRIL 1ST THE PRICE WILL BE ADVANCED TO 50 CENTS.

THE INTERNATIONAL COMPANY HAS ALREADY PAID A DIVIDEND.

Pay for Your Shares a Little Down---a Little Each Month

We have arranged a plan whereby the purchaser may secure a liberal block of our stock while it is selling at such a low figure and pay for it, a little down and the balance on easy instalments.

But you should not delay your subscription. The price is liable to advance at any time. Send your order to-day with first payment and we will trust you for the rest.

Before you hardly realize it, your subscription will be paid up and you will be a part owner with us in our enterprise that we hope to make the biggest thing of its kind in the world. Don't wait another day, but clip the attached coupon and send it in.

What Others Have Accomplished We Can Accomplish Also

The International Asbestos Mills and Power Company, our nearest neighbor, has attained wonderful success in a phenomenally short space of time.

Only a few months ago shares in that Company could have been had for 10 cents. To-day They are selling for 25 cents, and a positive advance to 50 cents per share is announced for April 1st.

They have paid one dividend and have a substantial start on another one, which it is expected will be paid in July.

Is there any reason why our company cannot do as well? We think we will and we invite you to come in with us now and receive your share of the first dividend to be paid by The North-Western Asbestos Mills Company. It won't be long.

SCHEDULE

500 shares cost $1 down and $1 a month for 9 months.
400 shares cost $2 down and $2 a month for 9 months.
600 shares cost $3 down and $3 a month for 9 months.
800 shares cost $4 down and $4 a month for 9 months.
1,000 shares cost $5 down and $5 a month for 9 months.
2,000 shares cost $10 down and $10 a month for 9 months.
10,000 shares cost $50 down and $50 a month for 9 months.

5 PER CENT. DISCOUNT WHEN CASH ACCOMPANIES ORDER FOR PAYMENT IN FULL.

THE NORTH-WESTERN ASBESTOS MILLS COMPANY, FIRST NATIONAL BANK BUILDING, DENVER, COLORADO.

CHEST INFLAMMATION

Suffered from a Heavy Cold. Pleuritic Pains in Side—Constant Coughing.

"NERVILINE" CURED QUICKLY.

"Anyone that goes through all that I suffered last winter will appreciate the value of a remedy that cures like Nerviline cured me." These are the opening words of the solemn declaration of E. P. Von Hagden, the well-known violinist of Maddleton. "My work kept me out late at night, and playing in cold draifty places brought on a severe cold that settled on my chest. I had a harsh racking cough and severe pains darted through my sides and settled in my shoulders. I used different liniments, but none broke up my cold till I used Nerviline. I rubbed it on my neck, chest and shoulders, morning and night, and all the pain disappeared. Realizing that such a heavy cold had run down my system, I took Ferrozone at meals, and was completely built up and strengthened. Since using Nerviline I have no more colds or pleurisy, and enjoy perfect health."

NERVILINE CURES CHEST COLDS

It's because Nerviline contains the purest and most healing essences and medicinal principles, because it has the power of sinking through the pores to the kernel of the pain—these are the reasons why it breaks up colds, cures lumbago, stiffness, neuralgia, sciatica and rheumatism. Refuse any substitute your dealer may suggest—insist on Nerviline only. Large 25c bottles, five for $1.00. Sold everywhere, or The Catarrhozone Co. Kingston, Ont.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES REPORTERS.

Plant Taken Over.

Millbrook Central Ontario Light & Power Co., has taken over Millbrook electric light plant and will take charge about the first of next month. A twenty-four hour service now seems an assured thing. Mr. Harrington will probably remain in charge.

C.P.R. Seeds.

The Times is indebted to the C.P.R. for a package of fine flower seeds. These seeds are the choicest in the land, and when dully developed into flowers, are in line with the esthetic tastes of the editor of this great family journal.

Home Circle.

The regular meeting of the Peterborough Circle No. 193, O.C.H.C., took place in the L.O.L. hall, Simcoe street. Delegates from the Grand Lodge were present and addressed the meeting, after which refreshments were served. There was a good attendance af members.

Sick headache results from a disordered condition of the stomach, and can be cured by the use of Chamberlain's Stomach and Liver Tablets. Try it. For sale by all dealers.

Off The Track.

Yesterday the C.G.E. car left the track at the corner of Charlotte and Park streets, delaying it half and hour. The result was the employees of the electric works who were on the car at noon hour were forced to walk.

Commissioner Rees' Visit.

Commissioner David M. Rees, who has been recently appointed to the command of the Salvation Army forces in Canada, Newfoundland and the Bermudas, will receive a public welcome at the S.A. Temple to-morrow afternoon.

Longer Vacation.

The pupils of the rural schools and their teachers will be glad to read that the Ontario Legislature adopted an amendment to the Public School Act making a uniform school term for rural as well as town and city schools, giving the former the last two weeks in August as additional holidays. In future all schools will open on September 1st.

A Foresters' Rally.

A grand rally of the Past Chief Rangers of the Canadian Order of Foresters took place in the Forester's Hall, Simcoe-street, last night. There was a large turn out of members, who took part in the initiation work, which was exemplified in full by the Past Chief Rangers. At the conclusion of the proceedings refreshments were served.

COFFEE HEART.

Very Plain in Some People.

A great many people go on suffering from annoying ailments for a long time before they can get their own consent to give up the indulgence from which their trouble arises.

A gentleman in Brooklyn describes his experience, as follows:

"I became satisfied some months ago that I owed the palpitation of the heart from which I suffered almost daily, to the use of coffee, (I had been a coffee drinker for 30 years) but I found it very hard to give up the beverage.

"One day I ran across a very sensible and straightforward presentation of the claims of Postum, and was so impressed thereby that I concluded to give it a trial.

"My experience with it was unsatisfactory till I learned how it ought to be prepared—by thorough boiling for not less than 15 or 20 minutes. After I learned that lesson there was no trouble.

"Postum proved to be a most palatable and satisfactory hot beverage, and I have used it ever since.

"The effect on my health has been most salutary. The heart palpitation from which I used to suffer so much, particularly after breakfast, has disappeared and I never have a return of it except when I dine or lunch away from home and drink the old kind of coffee because Postum is not served. I find that Postum cheers and invigorates while it produces no harmful stimulation." Name given by Postum Co., Battle Creek, Mich.

Ten days' trial proves an eye opener to many.

Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Property Changes Hands.

Mr. Jas. Edgcumbe has disposed of his residence at the corner of Water and Antrim streets to Mr. Sam Ray, the well known tobacconist.

Has Anybody Here Seen Reilly?

The Times is in receipt of a letter from Lockport, N. Y., stating that Daniel O'Rielly, of that place, left there last fall to work in the lumber camps back of Peterborough, and he has not been heard of since. His family are naturally very anxious about him, now that the camps have broken up, and no tidings of the missing man are forthcoming.

Must Care For The Teeth.

That the care of the teeth is necessary to good health, is apparent to everybody. This applies more particularly to children, who are usually the greatest sufferers. The Toronto Board of Education recognizes this, and are making provision to have a dentist's chair in each public school in the city. If our local school authorities are wise they will endeavor to make similar provision for the pupils of our local schools. Good teeth usually mean good health, and good health spells success, if proper effort is put forth.

Gets One Year.

Wilbur A. Deremo was last week sentenced by His Honor Judge Deroche to one year in the Central Prison for obtaining goods under false pretences from Mr. A. Wallace of Belleville. Deremo, a native of Peterborough, according to his evidence, had abandoned his wife and family in June, 1910, in Oil City, Penn., when he met another woman who accompanied him to Belleville. In sentencing the prisoner, his honor said, from his moral conduct not much mercy could be expected.

BAD KICK FROM A HORSE.

Mr. I. S. Kelly, of Markerville, Alta., says: "We have proved Zam-Buk of great value on the farm. I was kicked by a horse and sustained a nasty wound, which finally turned to an open sore. This caused me considerable pain, but as soon as Zam-Buk was applied I got relief. In a short time Zam-Buk completely healed the wound.

"My father sustained a bad burn on his leg, which for a long time would not heal. Zam-Buk healed it and quickly brought on a covering of new, healthy skin all over the wound."

Zam-Buk is also a sure cure for eczema, ulcers, bad leg, piles, abscesses, cuts, scratches, burns, children's rashes and all skin diseases. Obtainable, druggists and stores, everywhere, 50c box, or post free from Zam-Buk Co., Toronto, for price.

Try Zam-Buk Soap for baby's bath and for skin rashes and blemishes. 25c tablet.

MacFarlane Wilson.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mr. Graves left for Nairn Centre yesterday morning.

Miss Wainwright, of Halifax, N.S., is the guest of Mr. G. C. Wainwright 55 Brock-street.

Mr. J. D. Armstrong a home from a trip through the Maritime Provinces.

Mr. and Mrs. J. E. Dawson, will leave for Calgary, Alta., on the 25th inst.

Mr. Jas. Edgcumbe and his daughter, Miss Ethel, will leave here for Calgary during the latter part of April.

Mr. J. S. Waldron, manager of the Union Creek Mining Company, returned yesterday from a business trip to Buffalo.

Messrs. W. Scollard and F. G. Young, of Young's Point, were in the city yesterday on business.

Mr. Robert Duncan, of Rochester, brother of Ald. Duncan, is visiting friends here.

Medicine Hat News: Mrs. Cavanah, Miss Reta Cavanah and Mr. Fred Roy, of Peterborough, are in the city. The ladies of the party will probably spend a portion of the summer in the renewing of western friendships.

Lakefield News: The hosts of friends in Lakefield of Rev. F. J. Sawers, incumbent of St. John the Baptist Church, will be sorry to hear that he is about to leave Lakefield. Mr. Sawers has been selected to fill the important position of rector of St. Luke's church, Peterboro. He will take up his new duties some time in May.

LITTLE LOCAL LINES

A meeting of the Brookside Bowling and Tennis Club is called for Monday evening at the Dominion Bank chambers.

Rev. H. B. Trumpour took the Lenten service at St. John's church at Havelock last night. Rev. Mr. Holsworth preached at All Saints.

The members of No. 1 Troop Boy Scouts are requested to parade for drill and instruction this evening at 7.30. T. E. Hughes, Scoutmaster.

Three vagrants appeared in the police court yesterday morning. Their names were Thomas Lees, Wm. Brown and Wm. Sharpe, and they stated that they came from Toronto. Lees pleaded guilty to the charge of vagrancy. They were remanded for eight days.

WILL TAKE ELECTRICITY STRAIGHT TO THE HOUSE OF THE FARMER

HON. ADAM BECK,

Chairman of the Hydro-Electric Commission.

WILL BE USED TO CHURN, MILK COWS, PLOUGH, LIGHT THE HOUSE AND STABLES.

The Rural Districts of the Province Will Soon be Lighted by Hydro-Electric Power.

Toronto, April 5.—If there was any doubt as to the popularity of the Whitney Government's endorsation of the Hydro-Electric Commission's plans for bringing cheap power to the small hamlets and farming communities of the Province—sharing with the small communities and groups of individuals the advantages the towns and cities will enjoy—that doubt must be dispelled at a glance over the list of applications that are being showered in on the Commission.

FROM MANY TOWNSHIPS.

Etobicoke township, one of the most progressive in the whole of York county and lying to the north and west of Ontario's biggest city is eager for it. The Council wants to know how and when the low tension wires will be strung out along its concession lines.

Reeves of Northumberland county in the middle east want the Commission to get busy down there.

NEW ERA OF CHEAP ENERGY.

Beaverton rejoices at the new era in cheap electrical energy. Grimsby township calls for 100 horse-power; Beachville for the same, Port Stanley for double that, and Lakefield promises to take 400.

Aurora, in York county, has put its name down for 100 to 150 horse-power; Chesley for 500, Coldwater for 50; and Drumbo and Princeton for 200, 500, and 1,000 horse-power.

Mount Salem in Malahide township is on the list and dozens more.

"At the present time," Hon. Adam Beck stated this morning, "there are 149 miles of low tension lines constructed or under construction in the Province from which villages, small communities and farmers can be supplied."

TRANSFORMER STATIONS.

Every six miles between the centres transformer stations will be attached to the poles—an inexpensive method, as no building is necessary—and from these poles and wires will be run in lateral directions with power at 2,200 volts. To these poles in turn, as they pass the individual farms, other transformers will be attached, stepping the power down to 220 volts, a shape in which it can enter the farm buildings. The six mile distance has been adopted as the intervening space—3 miles on each side—can be covered by the power at 2,200 volts. Thus by three transformers the power is stepped down from 110,000 volts of the main lines to 220 volts.

In a few years it is expected that these power lines at 2,200 voltage, will be as common along the side lines of the farming communities of Ontario as the independent telephone lines—perhaps more so. The new bill itself, provides that each section, police village or less, even a group of farmers, must be supplied by the township with a power line; the latter guaranteeing the capital cost and collecting it in a given number of years from the individuals, like taxes. The cost will be infinitesimal compared with the prohibitive prices of separate power plants for each of these groups. And better still, every additional section that is added decreases the cost of power and maintenance for all the rest.

A TOUR OF INVESTIGATION.

Demonstrators, it is understood, will be sent throughout the Province, to illustrate the methods in which power may be used. But first a tour of investigation will be made by Hon Mr. Beck, Mr. P. W. Sothman, the Chief Engineer, and a representative of the Department of Agriculture, in Europe to ascertain the best equipment and methods for the use of power in small municipalities and on the farms.

LOTS OF USES FOR IT.

In the meantime the following list of uses to which it is now being placed in other farming districts in Europe and in the United States will be suggestive of what is to come.

Lighting the house and barn buildings.
Churning.
Cream separators.
Milking cows.
Cleaning cows (with vacuum outfit)
Ensilage cutting.
Ploughing.
Sprinkling system.
Pumping for irrigation.
Repair shop.
Cross-cut saws.
Meat choppers.
Grist mills.
Self-regulating incubators, etc.

Already a new low tension line is being projected in York county from Port Credit through Mimico to serve the asylum and farms directly north. In a short time Brampton, Georgetown and Milton will be connected.

INS AND OUTS.

A Toronto minister wants to know why men do not go to Church. This g.f.j. might suggest that it may be because they have no beautiful Easter hats to show off.

• • • •

The woman who first thought of the corset has died at the age of 93. She missed being a centenarian by a tight squeeze, so to speak.

• • • •

It is said that the new liquor license tax will increase the price of drinks in Peterborough, and although they may feel the blow keenly the members of the city and County Councils will scarcely acknowledge the fact outwardly by flying the flags at half mast.

• • • •

No, dear Maud. The civic stables are not where Peterborough keeps its Mayors.

• • • •

The Examiner printed a paragraph the other day to the effect that women do not stutter. My dear boy, if women are going to have an impediment they are not going to have it in their speech.

• • • •

In taxing everything it can think of the Ontario Legislature is also taxing the public patience.

• • • •

Our Hunter street contemporary remarked the other day that spring is here. Sure, for Manitoba has seen its first Robbin.

A Kingston University professor thinks men should be proud to have descended from the ape. Some men should be proud, undoubtedly, but what about the ape?

NORMAL SCHOOL STUDENTS LEAVE ON THEIR EASTER VACATION

The Normal School closed for the Easter vacation yesterday afternoon. A large number of its students left on the 5.30 G.T.R. train for their homes. Following is a list of some of the holiday seekers, who say goodbye to Peterborough for a month:

Miss Olive Thompson, Cobourg.
Miss Addie Dewan, Omemee.
Miss Nettie Staples, Newtonville.
Miss Victor Bailey, Lindsay.
Miss Ida Crosse, Cobourg.
Mr. Geiterman, Cambridge.
Mr. F. Moran, Campbellford.
Mr. J. H. Smith, Campbellford.
Mr. J. E. Lear, Cobourg.
Mr. Cecil Bole, Woodville.
Miss Grace Payne, Campbellford.
Mr. F. J. Buck, Brighton.
Mr. Munford Brunt, Collingwood.
Miss G. E. McCullough, Garden Hill.
Miss Olive McDermott, Saurin.
Miss J. S. McLeod, Orillia.
Miss Florence H. Honey, Hastings.
Miss Marcella J. Lynch, Orillia.
Miss E. V. McEachren, Eldon.
Miss Greta Wickett, Bowmanville.
Miss B. Davey, Lindsay.
Miss Mabel B. Jordan, Lindsay.
Miss M. V. Barman, Omemee.
Miss Ethelwyn Dix, Mariposa.
Miss Irene Gibson, Campbellford.
Miss Effie McQuarrie, Loomeville Jt.
Miss Irene Knowles, Southampton.
Mannie F. Madill, Orillia.
Miss G. E. Smith, Trenton.

THE C.P.R. SENDS SEEDS TO THE EMPLOYEES

Over 100,000 packages of flower seeds are being sent out this spring by the Canadian Pacific Railway Company's Foral Department to the agents, sectionmen and other employees of the company.

After nearly twenty years' existence, this department of the grand railway system has reached colossal proportions, and as the thirty-six different varieties of flower seeds are brought from the four quarters of the globe, their purity and quality are the best procurable.

The steady expansion of this department is owing to the love of culturing flowers, and the keen desire to beautify their surroundings, which has been inculcated into Canadian Pacific Railway employees by these opportunities for indulging in them, and the result has been most gratifying.

Prizes were given for the best flower gardens last year, and the competition was very close. This additional incentive will be continued this year, and prizes will also be given for the best photographs of gardens along the line of the railway.

The Irrigation and Forestry Departments of the company in the West are taking warm interest in the work, and, in addition to growing flowers, many western agents raise vegetables and have practically created immature experimental farms of their own.

The effective work of the Canadian Pacific Railway Floral Department has had wide-reaching beneficial effects, not only in encouraging a love of flowers amongst its army of employees and in beautifying its long lines of rails, which is highly appreciated by those who travel by the company's trains, but in showing the world that all corporations are not exclusively after the almighty dollar always.

A GREAT OCEAN LINER ASHORE WITH OVER ONE THOUSAND ON BOARD

New York, April 6.—The North German Lloyd Steamship Prinzess Irene, in to-day from Mediterranean ports, is ashore off the Lone Hill life-saving station, ten miles east of Fire Island. She struck the bottom during a dense fog. The life-savers have put off in their big power boats.

The position where the liner is ashore is not dangerous. The bottom is sand, the wind is light, and the chief danger to the vessel is in the wind gaining strength.

The life-saving crews from Point-of-Wood, Bellport, Smith's Point, Forge and Moriches stations are standing by, ready to go to the assistance of the Sandy Hook crew should it be necessary.

The sand pit on which the Irene is ashore is not far from the extreme western end of Fire Island, and is near Fire Island inlet, which connects the great south bay with the open sea. Cross currents make navigation very dangerous at this point.

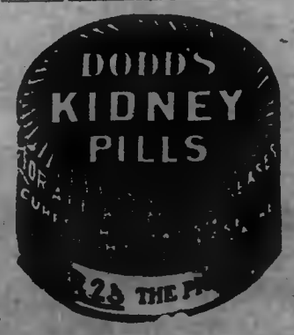
On board the Irene are a thousand steerage passengers and a complete cabin list of tourists returning from Italy and Southern Europe.

The North German Lloyd people were notified by wireless, and immediately rushed wreckage tugs to the scene. An effort will be made to haul the Irene off at the next high tide. The company has also arranged to send tugs down the bay to take passengers off if necessary.

Every officer of the Prinzess Irene is a medal of honor man, having been decorated by various governments and organizations for saving life at the risk of his own. Her commander Captain Von Letten-Pettersen, is one of the oldest of the North German Lloyd officers. In his latest wireless to the officials of the company, he said that his steamer was resting easily, that she is making no water, and that he does not believe her hull is strained. He said that the tugs ought to be able to get her off after high tide.

At 11 o'clock, four big ocean going tugs and the revenue cutter Seneca, were standing by the steamer. The Merritt-Chapman boats had lines stretched and others were waiting to assist when the water conditions became favorable for floating the big liner.

It was stated that there was absolutely no excitement on board when she took the sands. The passengers were asleep, and it was some two hours after the engines became still that anyone outside of the crew knew the vessel's predicament. Including the crew there are 2,500 persons on board.



ADVERTISE IN THE TIMES.

"Sunkist" Oranges
The Finest Fruit Grown

This Genuine Rogers Orange Spoon FREE

Save 12 "Sunkist" Orange wrappers and send them to us, with 12c to pay charges, etc., and we will present you with a genuine Rogers Orange Spoon, of beautiful design and highest quality. Begin saving wrappers today. Send 12 "Sunkist" wrappers and 12c for each additional spoon.

In remitting, please send cash when the amount is less than 25c, or amounts above 25c we prefer postal note, money order, express order or bank draft.

We will be glad to send you complete list of valuable premiums. We honor both "Sunkist" and "Red Ball" wrappers for premiums.

The orange is the most luscious and healthful fruit. California excels in quality of oranges. The best of the California oranges are now packed in individual wrappers labeled "Sunkist."

Five thousand orange farmers in California do their own packing, shipping and selling. They grade and select their crop into "firsts," "seconds," etc. The firsts are fancy, tree-ripened, hand-picked, seedless, fibreless, thin-skinned oranges—every individual orange a perfect specimen of the finest variety of oranges. They are not only more healthful and more palatable than other oranges, but they are actually cheaper, for they are nearly all meat and nourishment.

Your dealer sells "Sunkist" Oranges. Ask for them. You will know them by the tissue paper wrapper in which each "Sunkist" Orange is packed. You can buy them by the box or half box. On the wrapper note the label, "Sunkist." Keep all the wrappers. They are worth money to you.

"The Beer that is always O.K." 122

FOUR EAST CITY STORES WERE ROBBED

Daring Burglaries in Business Section of Ashburnham.

A batch of burglaries were committed some time during Thursday night in East City, four stores along Hunter street between Burnham and Mark streets having been entered and quantities of goods stolen, the total value of which was probably in the neighborhood of $65. The stores entered were the grocery store of Jas. R. Bell, the liquor store of J. C. Sullivan, Geo. Wheeler's butchee shop and T. B. Manisee's grocery at the corner of Mark and Hunter streets. Entrance was made in each case by smashing the windows. In two cases the thieves did not get inside, but contented themselves by taking articles out of the windows. Fortunately there was no cash in any of the stores that the thieves could get at.

The police are now busily engaged in endeavoring to locate the burglars. It is said that several suspicious characters have been seen around the city, but there is nothing so far to connect them with the robberies.

It is all right for the editor of the Examiner to write poems. The sad part of it is that he insists on having them printed.

MEN—YOU NEED NERVE

Wonderful Nervous System

EARLY INDISCRETIONS AND EXCESSES HAVE UNDERMINED YOUR SYSTEM

Nerves control all actions of the body so that anything that constitutes them will weaken all organs of the system. Early Indiscretions and Excesses have ruined thousands of promising young men. Unnatural Drains sap their vigor and vitality and they never develop to a proper condition of manhood. They remain weak-nerved, physically and sexually. How you feel! Nervous and weak, despondent and gloomy, specks before the eyes with dark circles under them, weak back, kidneys irritable, palpitation of the heart, fearful, dreadful day dreams, sediment in urine, pimples on the face, sunken hollow cheeks, careworn expression, poor memory, lifeless, distrustful, lack energy and courage, tired mornings, restless nights, changeable moods, premature decay, bone pains, hair loose, etc.

This is the condition our New Method Treatment is **GUARANTEED TO CURE**

We have treated Diseases of Men for almost a lifetime and do not have to experiment. Consult us **FREE OF CHARGE** and we will tell you whether you are curable or not.

We guarantee curable cases of **NERVOUS DEBILITY, VARICOSE VEINS, BLOOD AND SKIN DISEASES, CLEET, BLADDER URINARY AND KIDNEY COMPLAINTS**

Free Booklet on Diseases of Men. If unable to call write for **QUESTION LIST FOR HOME TREATMENT**

VOL XXXIV NO. 81 PETERBOROUGH, ONTARIO, MONDAY APRIL 10 1911 PRICE TWO CENTS

JARDINE TRIAL STARTS TUESDAY--SIXTY WITNESSES

GHASTLY AFFAIR AT GODERICH WILL BE PROBED TO THE FULLEST EXTENT.

Before Chief Justice Sir Glenholme Falconbridge—Mr. George Tate Blackstock, K.C., will Prosecute.

Toronto, April 8.—The trial of Edward Jardine, the young man charged with murdering Lizzie Anderson last fall, begins next Tuesday at the Spring Assizes at Goderich before Sir Glenholme Falconbridge, Chief Justice of the King's Bench Division.

With the approach of the trial, and in view of the alleged confession of Jardine, the local interest in the case has again become very great, and the progress of the trial and the result will be watched with utmost interest throughout the whole Province.

It is not only that the crime was of such a brutal inhuman character, and that, at the inquest at least, there was not any too much evidence to connect anyone with it directly, but also that this is a case which the Provincial authorities have been making the most vigorous efforts to clear up.

FIVE DAYS AFTERWARDS.

The interest in the case while the detectives were searching for a clue, after the discovery of the murder five days after its perpetration, and also through all the sessions of the coroner's jury, bade fair almost to rival the interest in the famous Kinrade case in Hamilton. The fact that the authorities were baffled in that case and one or two other equally mysterious murder cases within recent years has led to the exertion of every possible effort to unravel the mystery and visit upon the perpetrator of the heinous crime the full penalty of the law.

Whether Jardine has actually made any confession or not, the Crown has obtained every bit of evidence to be found on the case, and some 60 witnesses have been subpoenaed.

BLACKSTOCK TO PROSECUTE

Mr. George Tate Blackstock, K.C., who acted for the Crown at the prolonged inquest in the Kinrade case, will act as Crown Prosecutor in this case, assisted by Mr. Charles Seager, County Crown Attorney.

Jardine will be defended by Mr. Loftus E. Dancey, of Goderich. Mr. Dancey came down to see Mr. T. C. Robinette about handling the defence at the trial, but the latter has not been retained as yet at any rate.

Since the prisoner's alleged confession to Dr. Bruce Smith, Inspector of Prisons and Asylums, there have been conflicting reports as to Jardine's condition. It was said that he was despondent and failing in health, and then this was denied and he was said to have lost nothing in weight and to show no more signs of worry over the case than at the time of the inquest.

At that time he was lame and walked with a cane, as the result of an accident at the harbor six months previously, where he was injured by a fall while unloading coal. He had started an action for damages against the coal dealer before the time of the murder with which he has been charged.

VICTIM'S SISTER WEDDED THE ACCUSED'S BROTHER.

Some three months ago and since the inquest, Albert Jardine, a brother of the prisoner, was married to a sister of the dead girl Lizzie Anderson. They had been keeping company for some time before the tragedy occurred.

A BIG MAJORITY FOR SEPARATION

Kingston, April 8.—The result of the graduates' vote in regard to the separation of Queen's University from the Presbyterian Church has been totalled, and stands: For separation, 1,635; against, 181.

FOURTH ANNIVERSARY OF KNOX CHURCH

Large Congregations Yesterday to Hear Rev. E. W. McKay.

The anniversary services in connection with Knox church took place yesterday, when large congregations were present. Eloquent and impressive sermons were delivered morning and evening by Rev. E. W. McKay, pastor of St. Paul's church, Smith's Falls, of which Rev. Mr. Keith was a former member.

The music was of a special character, and in keeping with the importance of the occasion.

This evening a social gathering will be held in the church, which will also be addressed by Mr. McKay.

WOUNDED SOLDIERS STONED TO DEATH

UNBELIEVABLE CRUELTIES SAID TO BE PRACTISED BY WOMEN IN MEXICO.

Excited Italian Was Made to Speak English—Johnson Fined by Washington Club.

New York, April 7.—That the women hangers-on of the Mexican Federal army have been guilty of almost unbelievable cruelties is the charge made by the wife of an American army engineer, now in Chihuahua, in a personal letter received in this city to-day. Wounded revolutionists left on the field by their fellows have been killed by stabbing or stoning to death, she says. As a result of the cruelties of the regular Mexican troops, she says, the people of the state are a unit in aiding the revolutionists.

The soldiers' women go out to the battlefield with the regulars and have their aprons filled with stones and knives. If an enemy is killed or wounded the women finish him up with their knives, provided he is too seriously wounded to defend himself. If he has any fight in him they stone the poor creature to death.

After the fight near Santa Eula, half a dozen men were found with their heads crushed with stones.

OLD MISSIONARY'S WOES.

Crown Not Ready to Proceed With The Buskin Case.

Toronto, April 7.—George Buskin, an old man of 77 years, was arraigned in the Sessions this morning for non-support of his wife, Ellen Buskin. The Crown was not ready to proceed with the trial and the case was adjourned until Wednesday next. Mr. Buskin is well known as having been for many years a missionary in Algoma.

FOUR IN POLICE PATROL DOUBTLESS ARE LOST.

Started out in December, and No Trace of Them Can be Found.

Edmonton, Alb., April 8.—Grave fears are entertained that the worst has happened to the Mounted Police patrol, consisting of Sergt. Fitzgerald and Constables Carter, Martin and Taylor, who started from Herschel Island for Edmonton in December last. The expedition is one month overdue now, and a search party returned to-day with no tidings of the missing men.

IS PETERBOROUGH IN GRIP OF WATER-POWER MONOPOLY?

SENSATIONAL STATEMENT MADE BY HON. ADAM BECK

Charges Against The Dominion Government Respecting Trent Valley Power—Low Priced Power Promised to Eastern Points

If what the Hon. Adam Beck says is even half true, there will be a "dead reckoning" in Peterborough for somebody. He charges that water-power along the Trent has passed into the hands of the Electric Power Company—a huge trust. As a consequence the favourable rates to be enjoyed by municipalities everywhere else in the Province are to be denied to municipalities along the Trent and Otonabee. If this is true, and to the extent he says it is, Peterborough will suffer by eight or ten dollars per horse-power per annum, and will be hopelessly out of the race for all self-capitalized industries. To offset this it will be necessary for Peterborough to loan industries large sums. The future looks dark. Who is to Blame for this, if it is even half true?

HON. ADAM BECK'S STATEMENT.

Hon. Adam Beck stated at Brockville that the original plan of the Ontario Government was to cover the Province from Windsor to Morrisburg. Their efforts in Western Ontario had been crowned with success. Prospects looked bright for the stretch from Toronto to Morrisburg until the Electric Power Co., Ltd., with head quarters in Toronto, appeared in the Trent district, from Toronto to Belleville, and the corporations had practically thwarted the Hydro-Electric Commission. This concern, he held, was a merger which has gobbled up the Seymour Power & Electric Co., Peterborough Light and Power Co., the Peterborough Radial Railway Corporation, the Auburn Power Co., the Trent Electric and Water Co., the Sydney Electric Power Co., the Napanee Power Co., the Oshawa Electric Light Co., the City Gas Co., of Oshawa, the Cobourg Utilities Corporation, the Northumberland and Durham Power Co., and the Central Ontario Power Co.

The municipalities were tied up with franchises given this company, and, working under a Dominion charter, with the right to develop power from the Trent, a monopoly has thus been created which the Province cannot cope. When the Commission applied for power to supply the municipalities a reply was given that the controlling company was not in a position to meet the demand, as all the power was needed to meet their own requirements. With water powers all tied up their is no chance for competition, and the people are at the mercy of the Dominion Railway Board to control and regulate rates.

The existing situation was in direct opposition to the Ontario Government's plan to prevent mergers and the possibility of electric interests going into close corporations. For the state of affairs in the Trent district the Dominion Government was directly to blame.

The woman of to-day who has good health, good temper, good sense, bright eyes and a lovely complexion, the result of correct living and good digestion, wins the admiration of the world. If your digestion is faulty Chamberlain's Stomach and Liver Tablets will correct it. For sale by all dealers.

THE WEATHER.

Fair and a little higher temperature.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

CORONATION CELEBRATION.

Editor Morning Times.

Sir,—I see many places are preparing to celebrate the Coronation of our King and Queen, which takes place on June 22nd, and I think it would be a fine idea to combine this with the inauguration of the Chimes and Old Boys' reunion—all three in one.

Let Mayor Morrow call a public meeting at once, and specially invite a number of our leading citizens to attend and take part.

Patriotism.

THE TIMES IS FLATTERED.

Editor Morning Times.

Sir,—I have been in the habit of buying an occasional copy of The Times, generally the morning after a meeting of the City Council, so as to see what our worthy city parents are doing, but I now would have you send it to me regularly hereafter. I also take the liberty of congratulating you, Mr. Editor, on the fine appearance of the paper lately. Best of all, however, I like the manly attitude of the paper on all matters of Church and State. I think every good citizen should show his or her appreciation by becoming a subscriber.

P.E.R.

Reply: Thanks for your kindly good wishes. It is the duty of reputable newspapers to treat matters of "Church and State" on their merits. We are therefore, entitled to no praise for doing our simple duty.—Ed. Times.

MR. BRADBURN MUST NOT QUIT.

Editor Morning Times.

Sir,—I notice in a late issue of The Examiner a statement appears to the effect that Mr. T. E. Bradburn, M.P.P., is likely to retire at the end of the present parliamentary term. Of course it is a long way off yet, but at the same time the idea must not be permitted to prevail that our member, who has served so faithfully and well during the past two terms, is anxious or even likely to quit. Mr. Bradburn has made an ideal member, and I am sure the people, without regard to party, would very much rather he would remain.

Thanking you, Mr. Editor, for your valuable space.

A Brydburn Grit.

OLD BOYS' REUNION.

Editor Morning Times.

Sir,—Mr. Mann's letter re Old Boys' reunion in connection with the Chimes, should be carefully considered by our energetic mayor and council. I am sure the people will back the mayor up in inaugurating a home coming week in Peterborough in June—date to be the inauguration of the Chimes. What do you say, Mr. Mayor?

Unity.

A GOOD MOVE.

Editor Morning Times.

Sir,—If the new regulations regarding dogs will result in doing away with the horde of useless curs that infest our streets, it will be a good thing. If I had my way I would make it so expensive to keep a dog that only the better animals would be permitted to exist. They destroy the lawns, by tearing up the grass, and are otherwise destructive.

—M.E.B.

Will Hold Open Air Service Good Friday

The Ministerial Association will hold an open air service in the Central Park at 3 o'clock Good Friday afternoon. Addresses will be delivered by local ministers and His Honor Judge Huycke.

REASONED IT OUT.

And Found a Change in Food Put Him Right.

A man does not count as wasted the time he spends in thinking over his business, but he seems loth to give the same sort of careful attention to himself and to his health. And yet his business would be worth little without good health to care for it. A business man tells how he did himself good by carefully thinking over his physical condition, investigating to find out what was needed, and then changing to the right food.

"For some years I had been bothered a great deal after meals. My food seemed to lay like lead in my stomach, producing heaviness and dullness and sometimes positive pain. Of course this rendered me more or less unfit for business, and I made up my mind that something would have to be done.

"Reflection led me to the conclusion that over-eating, filling the stomach with indigestible food, was responsible for many of the ills that human flesh endures, and that I was punishing myself in that way—that was what was making me so dull, heavy and uncomfortable, and unfit for business after meals. I concluded to try Grape-Nuts food to see what it could do for me.

"I have been using it for some months now, and am glad to say that I do not suffer any longer after meals; my food seems to assimilate easily and perfectly, and to do the work for which it was intended.

"I have regained my normal weight and find that business is a pleasure once more—can take more interest in it, and my mind is clearer and more alert."

Name given by Postum Co., Battle Creek, Mich.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

TERRIBLE DISASTER IN ALABAMA COAL MINE

NEARLY TWO HUNDRED PRISON CONVICTS KILLED IN MINE EXPLOSION.

A Private Syndicate Owned the Mine Trained Rescuers go to Help in Saving Lives of the Entombed Men.

Birmingham, Ala., April 8.—Nearly two hundred State Convicts are believed to have been killed in an explosion in the Banner Mines at Linton, thirty miles from here.

At least two hundred men are known to have been in the mine at the time of the explosion. A large number are known to have been killed.

The Banner Mines are in the Western [illegible] of Jefferson County. They are owned by the Pratt Consolidated Coal Co., which employs convicts, hired from various counties throughout the State.

It is not known whether the explosion was caused by gas or dust.

Washington, April 8.—A. R. Brown, in charge of the Bureau of Mines Rescue Station at Birmingham, Ala., reported to the main office of the Bureau here to-day that he was starting to Littleton with a crew of trained rescuers. There is no rescue car at Birmingham, the nearest one being at Dayton, Tenn., to-day. The station at Birmingham, however, is well equipped. The bureau here received word that 200 convicts were reported dead in the mine as the result of an explosion.

Whooping cough is not dangerous when the cough is kept loose and expectoration easy by giving Chamberlain's Cough Remedy. It has been used in many epidemics of this disease with perfect success. For sale by all dealers.

FOOT-AND-A-QUARTER EGG

London, April 8.—A goose belonging to F. Dannie, of Castle Hedingham, has laid an egg a foot and a quarter in circumference lengthways and weighing 10½ ounces.

THE CARPET COMPANY HOLD FINE BANQUET

The Brinton Carpet Company entertained their employees to a complimentary banquet at the Hotel National on Friday evening, the report of which was crowded out of Saturday's issue. The affair was of a most pleasing character, about 70 of the employees and friends sitting down to the splendid spread. During the evening Mr. Wadely, the popular manager of the company, was presented with a very handsome gold watch from the employees of the company. Mr. Giles made a suitable speech and then called upon Mr. Pierce to make the presentation.

Mr. Wadely was taken completely by surprise, but expressed his thanks in a few well chosen words.

The programme was as follows:

Toast—"The King," by the chairman.

Toast—"The Brinton Carpet Company," Mr. E. Stansfield.

Responded to by Mr. Wadely.

Song—Mr. R. Hendry.

Song—Mr. H. Haywood.

Song—Mr. W. Perks.

Song—Mr. B. Sheward.

Song—Mr. S. Curtis.

Toast—"The Land of Our Adoption," Mr. T. Dark.

Song—Mr. E. Yarrington.

Song—Mr. E. Stansfield.

Song—Mr. H. Bayes.

Song—Mr. W. Lesurf.

Song—Mr. G. Skelding.

Song—Mr. T. Edwards.

Song—Mr. W. Farr.

Song—Mr. T. Williams.

Song—Mr. A. Sheward.

The banquet was brought to a close with the singing of "God Save the King," and "The Maple Leaf."

Mr. Dewey was a very efficient accompanist.

TARGET SHOOTING CONTEST.

Good Scores Made at Yeates Bros. Shooting Gallery in Last Week's Contest—Five Handed Tie in the Professional Contest.

Great excitement prevailed at the shooting gallery of Yeates Bros. on Saturday night, when the ties in the contest were shot off. In the professional contest there were five ties with a score of 57. This was shot off and C. Gutterson, who tapped the gong to the tune of 5 bulls and a pill, carried off the box of finecigars. The following are the scores:

—Professional—

C. Gutterson	50
J. White	57
A. C. Miller	57
B. Halpin	56
John Gillespie	56
G. Pearson	56
E. Rutherford	56
N. Perry	56
H. Solmes	56
W. L. Mitchell	56
A. Mellan	55
H. Mackay	55
C. Mills	55
Ed. Dopsie	54
W. Sorel	54
J. Wilson	53
F. Flood	53

—Amateur—

Great interest was manifested in the amateur contest, C. Mills carrying off the honours and also the cigars with a score of 57; while J. Reynolds finished second with a score of 56. Following are the scores:

C. Mills	57
J. Reynolds	56
J. Coughlin	55
J. Clancy	55
Jas. Vinette	55
N. Robertson	55
W. Curtin	54
J. Rose	54
L. Gilgour	54
G. Russell	53
C. Taylor	53
S. McNally	52
J. Cook	52
F. Hefferman	50

Three more prizes are up next week for competition and are well worth trying for.

Afternoon 5c. Evening 10c.

OBITUARY

The Late Frank Bell.

A great many people in the city will be sorry to learn of the death of Mr. Frank Bell, who passed away peacefully on Saturday night at his residence on George street.

The deceased was formerly Division Court Clerk, from which position he was forced to resign about a year ago, owing to ill health. He will be missed by a wide circle of friends who will feel very keenly the loss of one of the most popular and respected citizens in Peterborough.

Up to going to press the funeral arrangements had not yet been made but will be announced later.

The Late James Chandley.

There passed away on Saturday morning at his home, lot 1, concession 4, Ennismore, one of the most highly respected residents of that township in the person of Mr. James Chandley. Mr. Chandley had been ill only four days, suffering from an acute attack of pneumonia. He leaves a widow to mourn his loss.

Some time ago Mr. Chandley retired from the farm and removed to Peterborough where he resided for a couple of years. Later, tiring of city life, he returned to Ennismore and purchased his present home. Mr. Chandley was sixty-three years of age and had lived in Ennismore practically all his life. He was esteemed by all who knew him for his good qualities and was an excellent neighbor.

The funeral takes place from the family residence, lot 1, concession 4, this morning at nine o'clock and proceed to St. Martin's church and thence to St Martin's cemetery for interment.

The Late George Carton.

In the death of Mr. George Carton, which occurred on Saturday morning, Peterborough loses one of its well known business men. The deceased was 55 years of age, and had been ailing only a few days. For many years Mr. Carton conducted a successful grocery business in the city, and also a park packing business. He retired from business some few years ago, and devoted himself quietly to other pursuits.

Deceased was born in Streetsville, Ont., where he was engaged in farming. He was an adherent of the George street [illegible] church. He leaves besides a wife and daughter to mourn his demise, four brothers and three sisters. The sisters are Mrs. James Kylie, of this city; Mrs. R. McClintock, of Streetsville and Mrs. D. Carew of Vancouver. The brothers are Matt and Ralph of this city, John and Thomas of St. John's, Washington.

The funeral will take place this afternoon from the family residence, George street, and proceed to Little Lake cemetery for interment. The Rev. I. Couch will officiate. The funeral will be private. Please omit flowers.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except of prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Sold by Druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.

THE ENGLISH SCHOOL BOY'S DEMOCRACY.

The sense in which we believe there is no snobbishness at all in schools is the social sense. Most Public school men who look back upon their school days will admit they were scarcely conscious of the origin of any of their fellows. The son of a tradesman had an equal chance of being popular with the son of an ancient family. Tom Hughes was unerring in his judgment when he gave his schoolboy hero the quite essentially simple name of Tom Brown. We learn from an article in the Daily Mail that the Rev. Augustus Orlebar, whose fight at Rugby suggested to Tom Hughes Tom Brown's fight with Slugger Williams, thinks in his eighty-seventh year that the modern boy is pampered beyond reason and is in danger of losing his hardiness; also that he respects rank more than formerly. The pampering may sometimes be real, though we suspect that strict medical observation, hygienic conditions, and careful choice of food are commonly mistaken for pampering. But we cannot accept the social snobbishness. Mr. Orlebar says that in his day "it was almost a handicap against a boy to be the possessor of a title."

We are not sure that the attitude of the present school boy is not better. He would not press the possession of a title against any boy; he would feel instinctively that to do so would be to make rather too much of the title, which in his view obviously could never be so important as colors in the cricket eleven or the football team. There used to be a story—related, we fancy, in one of George Russell's books—that when it was arranged that the Duke of Genoa then a boy at Harrow, was to succeed to the throne of Spain, every boy in the school of sufficient size, let us presume solemnly kicked him, in order that he might have the gratification of saying in after years that he had kicked a king. An embroidery upon the significant legend tells us that only one boy rejected the great opportunity, and he was a member of a royal family. When he was asked why he had refrained, he piously exclaimed: "How could I kick the Lord's anointed."

GRAND TRUNK SYSTEM BUILDING

At Festival of Empire, Crystal Palace, London, England.

The progressiveness of the Grand Trunk in connection with their publicity propaganda is again demonstrated in the erection of a magnificent structure to house their exhibit at the Festival of Empire, which is to be held at the Crystal Palace grounds, London, England, this year. The building is ornate in its architectural style, and is a reproduction on a small scale of the new Grand Trunk passenger station now nearing completion at Ottawa. At this exhibition the Company are putting up one of the finest exhibits that they have ever installed and will embrace all portions of the System, including the Grand Trunk Railway, The Grand Trunk Pacific Railway, and the Grand Trunk Pacific Steamship Company.

The several tourist and fishing and hunting districts in Eastern Canada will be represented through large photographs and a valuable collection of mounted fish and game. Western Canada will be put before visitors in an interesting and instructive way by large pictures, showing the agricultural possibilities and developments, as well as by the exhibits of grains in the straw, grasses and the products of the land from Manitoba, Saskatchewan, and Alberta. The mountain division of the Grand Trunk Pacific will be well portrayed through a series of oil paintings of some of the principal show places of the Canadian Rockies, painted by G. Horne Russell, the well known Montreal artist, who spent last summer in these mountain fastnesses. The centre of the interior of the building will be occupied by a large model about ten feet square of the "Chateau Laurier," the Grand Trunk's beautiful new hotel at Ottawa. There will also be a large oil painting of a portion of the City of Ottawa, showing the new station and hotel, the parliament buildings and surroundings. Models of the steamships "Prince Rupert" and "Prince George" of the Grand Trunk Pacific North Pacific Coast service will be on view. A separate room has been provided in the building for the projection of cinematograph pictures, and the subjects owned by the Company will be shown several times each day. Among these cinematograph films are Lachine Rapids, Mast inone fishing near Ste. Anne de Bellevue, Apple Culture near Whitby, Ont., several scenes in the "Highlands of Ontario," Niagara Falls, views showing the construction of the new National Transcontinental Railway, and agricultural scenes in Western Canada. Thousands of publications will be distributed. Mr. S. W. Cummings will be in charge of the exhibit.

Boy Scout Books.

The Boy Scout movement is creating considerable interest throughout the country; hardly a newspaper or magazine escapes some mention of it, it is yet in its infancy and literature on the subject is in great demand. Hurst & Co., the well-known publishers of popular-priced books, have issued the first volume of their "Boy Scout Series," by Lieut. Howard Payson, entitled: "THE BOY SCOUTS OF THE EAGLE PATROL." Whether you are a Boy Scout or not, you will want this thrilling volume; every wide-awake, healthy boy should own a copy. Price, including postage, 50 cents. From your bookseller, or mail orders to HURST & CO., 395 Broadway, New York.

The merger of twenty-two plow manufacturing corporations is announced with a capitalization of fifty millions; represented, presumably in plow shares.

INCREASE TIES SAYS BALFOUR

THE MOTHER COUNTRY SHOULD STRENGTHEN HOLD ON THE COLONIES.

Empire and Its Vanity—Home Rule as Gladstone Saw It Is Dead—What Shall Replace It, Is the Question.

London, April 7.—Mr. Arthur Balfour speaking at Lambeth said: "I believe Gladstonian home rule is dead It is just a question of what is going to replace it. The present supporters of the Government say, 'why do you object to giving Ireland a constitution. The United Kingdom constitution is not fundamentally dissimilar to the constitution now enjoyed by the great democracies of Canada, Australia, the Cape and South Africa. Do they not all consist of separate provinces, each managing what is called their own affairs, yet governed by a central parliament'?

I think it is a very plausible argument at first blush. It seems very natural that some change of that sort would be good all and is necessary It is not, at all events, hostile to the spirit of freedom or British institutions.

FROM SEPARATION TO UNITY.

In my judgment they entirely forget to consider the mode in which these great colonial democracies have developed there present state. I might quote the United States of America, but that would only perhaps complicate the argument without adding anything to it. Those great democracies have all started by being separate provinces gradually feeling the increasing necessity for having a strong central government. The whole movement in their case has been from separation to unity and from disintegration to integration.

STILL A DIFFICULTY.

The one great difficulty which, in some respects, they still have to contend with, and of a kind which partly caused the great Civil War in the United States of America, was this very difficulty of maintaining the separate powers and arranging the relative strength of the central Government on the one hand, and the central states or provinces upon the other. Canada, Australia, the Cape the German Empire have started with movements of separate unities gradually feeling how necessary it was for their greatest interests that they should coalesce into one more highly organized body, and have unity where they formerly had separation. The course we are now asked to persue is as entirely opposite one.

VULGAR VANITY.

In the concluding portion of his speech Mr. Balfour said:

"There are, going about the English-speaking world at this moment, people who tell you that, after all, the Empire is of no use to any constituent part of the Empire, and that we should all get along just as well as separate fragments. As we belong to one organized whole, they profess to tell us that it is mere vulgar vanity which makes citizens of the Empire delight to belong to a great organization instead of a small one; mere vulgar ambition to see so much of the map of the world painted red. I cannot deny that there may be people, whose patriotism—Imperial patriotism, if not vulgar—puts on a very vulgar disguise. It is possible to talk in a blatant, foolish fashion of the greatness of the British Empire, its vast territories occupied by uncounted millions of fellow-subjects. That is not the essence of the matter.

MUST STRENGTHEN HOLD.

"I most fervently believe there never was a period in the history of the world when it more behooved the inhabitants of these very small islands, in a rather remote corner of the globe, to increasingly strengthen their organic hold upon those great territories occupied by their children, which have come by one way or another under their influence, influence so consistently used in the cause of good order, good government, freedom of conscience, education, security and prosperity.

TWO BURNED TO DEATH

Cleveland, April 7.—Mrs. Henry Marston, who is blind, and her seven-year-old son, Henry, were burned to death early to-day in a fire which swept their apartments. The father saved two other children.

THE BOAT TURNED TURTLE, THE CREW SWAM ASHORE

Monongahela, Pa., April 7.—The big river steamer Henry A. Laughlin belonging to the Vesta Coal Co., has been wrecked by high winds this morning, turning turtle, and then went to the bottom of the Monongahela river, keel uppermost. Ellie Hughes, cook, and Jane Lawrence, with the fireman, name unknown, were drowned. Eleven others of the crew swam ashore. The steamer is thought to be a total loss, which is estimated at $70,000. The wreck has blocked the river channel, stopping packet traffic to the upper river and the moving of coal from the river mines.

CHINA TO HAVE AT LAST A RESPONSIBLE CABINET

New York, April 7.—A cable despatch received by the Chinese Empire Reform Association here says that a responsible Cabinet will be established in China shortly, that Prince Ching will be appointed president of the new Cabinet, with Na-Tung and Chu Shichiang as his assistants, and with Yuk Lang as political adviser, and that an announcement to that effect will be made within a few days Prince Ching is now the head of the Imperial Council. Na-Tung, Chu Shichiang, and Yuk-Lang are Imperial Councillors.

The question of a responsible Cabinet and a national parliament has been agitated by the progressive press for the last two years. Prince Ching has been one of the strongest opponents of the project.

DEPARTMENT OF RAILWAYS AND CANALS.

Ontario—St. Lawrence Canals. Galops Canal.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Improving Upper Entrance to Lock, No. 20," will be received at this office until 16 o'clock on Friday, April 15th.

Plans, specification and Form of Contract to be entered into can be seen on and after March 18th, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of Tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labour, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $6,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.
Department of Railways and Canals,
Ottawa, March 21st, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Publish My Letter The World Over

The Words of Harold P. Bushy, Who Was Permanently Cured of Chronic Lumbago by "Nerviline."

"Three years ago I discovered that a man subject to lumbago might just as well be dead as alive." These words open the sincere straightforward letter of H. P. Bushy, a well known man in the plumbing and tinsmithing business in Portland.

"One attack came after another, and lumbago got to be a chronic thing with me. I could scarcely get in a day's work before that knifing, cruel pain would attack my back. I used a gallon of liniments; not one of them seemed penetrating enough to get at the core of the pain. I read in the Montreal Witness about Nerviline and got five bottles. It is a wonderful medicine—I could feel its soothing, pain-relieving action every time it was applied. When I got the disease under control with Nerviline, I built up my strength and fortified my blood by taking Ferrozone at meals. This treatment cured me permanently, and I urge everyone to give up the thick, white, oily liniments they are using, and try an up-to-date, penetrating, pain-destroyer like Nerviline.

LETTER NO. 4311.

"Please publish my letter the world over. I want all to hear of Nerviline."

Don't be cajoled into receiving anything from your dealer but "Nerviline." Large bottles 25c; five for $1.00. Sold everywhere or The Catarrhozone Co., Kingston, Ont.

MAY DRIVE LORIMER FROM THE SENATE

STORY OF GREAT BRIBERY FUND STIRS UP THE UPPER CHAMBER.

Washington, April 6.—Senator Lafollette to-day introduced in the Senate a resolution asking for an investigation of the election of Senator Lorimer, of Illinois.

That Senator Lafollette will have the support of his colleagues who opposed Lorimer at the last session, was shown by a statement made by Senator Stone of Missouri, after he had had a conference with President Taft. He said: "The Senate is bound to take cognizance of the Kohlsaat testimony. I am certain that the Senate will re-open the case."

Several Senators wired to-day to Springfield to the Legislative investigation Committee of the Illinois Legislature for a transcript of the testimony concerning the revelations of the $100,000 fund alleged to have been raised to elect Lorimer.

Senator Stone, who is a Democrat, declared that another investigation of Lorimer was necessary.

"The testimony at Springfield," he said, "looks so ugly that another investigation is absolutely necessary. This will take the form of a special committee, which will be speedily appointed."

Pittsburg, April 6.—Senator Lorimer of Illinois, to-day refused to discuss at length the charges made yesterday by Clarence S. Funk, General Manager of the International Harvester Company before the Illinois State Senate Bribery Investigation Committee, alleging that he had been asked to contribute to elect Lorimer.

Mr. Lorimer came to Pittsburg last night on a business trip and stopped at the Fort Pitt Hotel.

When asked about the charge made public by the Harvester Company manager, he smiled and said: "I have not read the newspapers yet, but I know what the charges are. I don't want to talk about it, however."

MAIL CONTRACT.

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, 5th May, 1911, for the conveyance of His Majesty's Mails on two proposed contracts for four years, six times per week, each, between: 1. Peterboro and Fowler's Corners; 2. Peterboro and the Township of North Monaghan; both over certain specified roads, dating from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tender may be obtained at the post offices of Peterboro & Fowler's Corners and at the Office of the Post Office Inspector at Kingston.

TENDERS FOR DREDGING.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Dredging, Ontario," will be received until Tuesday, April 25, 1911, at 4 p.m., for dredging required at the following places in the Province of Ontario :—

Big Creek, Big Island, Echo Bay, Kincardine, Port Elgin, Kingsville, Pesetanguishene, River Thames, Salt Point, (Presqu'Ile), and Wiarton.

Tenders will not be considered unless made on the forms supplied, and signed with the actual signatures of tenderers.

Combined specification and form of tender can be obtained on application to the Secretary, Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the work. Only dredges can be employed which are registered in Canada at the time of the filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

A separate cheque for each place for which a tender is submitted must accompany the tender. This cheque must be equal to five per cent (5 per cent) of the amount of the tender, based on the approximate quantities set opposite the name of the place, but in no case must the cheque be for a less sum than $1,500. The cheque must be accepted, on a chartered bank, and payable to the order of the Honourable the Minister of Public Works. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, April 3, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

DEPARTMENT OF RAILWAYS AND CANALS.

Ontario—St. Lawrence Canals.

Cornwall Canal.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Improving Upper Entrance to Lock No. 19," will be received at this office until 16 o'clock on Saturday, April 15th.

Plans, specification and Form of Contract to be entered into can be seen on and after March 18th, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the resident Engineer on the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labour, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and the place of residence of each member of the firm.

An accepted bank cheque for the sum of $1,500.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, March 21st, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Tuesday, Thursday and Saturday—A short service at 5.15 p.m.

Good Friday Morning—Morning Prayer and sermon at 10.30. Children's service at 2.30. The Crucifixion will be spoken on the evening at 8 o'clock.

Easter Sunday—Holy Communion will be celebrated at 7.15 and 8 a.m. and 11 o'clock noon. Morning Prayer and sermon at 11 o'clock. Evensong and sermon at 7 p.m.

STOPS A COUGH IN ONE NIGHT

The Story of Sufferers From Bronchitis, Asthma and Catarrh Proves the Value of Catarrhozone.

A cough may be Catarrhal with a dry tickling in the throat, it may be accompanied by a partial stoppage of the nostrils and shortage of breath Often there is a gagging in the throat and every cough tears and hurts.

Coughs have a hundred different causes, yours may be due to any of the following :—

Asthma	Inflamed Throat
Exposure	Bronchitis
Enlarged Tonsils	Pneumonia
Inflammation	Croup
Stomach Disorders	Pleurisy

The one remedy upon which physicians are relying to-day is Catarrhozone. It removes the cause of the cough, doesn't smother it. Catarrhozone is soothing, healing "direct cure" and cures the conditions that cause the cough.

Catarrhozone is infinitely superior to cough medicines, tablets, sprays, and emulsions, which for the most part are of no practical value except to ease the cough for the time being. Often liquid cough remedies contain opium, morphine and cocaine! With Catarrhozone you take no drugs—you employ nature's way—just inhale Catarrhozone's soothing, healing vapor and relief and cure follow promptly.

It's simply wonderful to think how quickly a bad throat or catarrh can be cured with Catarrhozone. Its rich balsamic vapor is carried along with the breath to the innermost recesses of the lungs, bronchial tubes and chest, making it impossible for the germ of any disease to live. Thus soreness in the chest is at once alleviated—phlegm is loosened and ejected from the throat, old standing coughs are removed.

REMEMBER THIS, you breathe Catarrhozone and it will cure any Winter ill.. Large size, guaranteed, costs $1.00, and lasts two months; smaller sizes, 25c and 50c. Beware of imitations and insist on "CATARRHOZONE" only. By mail from the Catarrhozone Co., Kingston, Ont.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES REPORTERS.

Confirmation at St. John's.

Bishop Reeves will administer confirmation at St. John's Church tomorrow evening at 8 o'clock.

"Shadow of the Cross."

The "Shadow of the Cross," which was shown at the local Y.M.C.A., during the last two weeks and a half is going to Port Hope this morning. While here, over 1500 people viewed the picture, which speaks well for the marvelous painting.

Blacklister Committed to Jail.

At the Police Court on Saturday morning John Donahue, a blacklister pleaded guilty of drunkenness and was fined $10. An old fine of $10 had been chalked up against him, and he was therefore sent to jail for 40 days. Another drunk was also assessed $5.75.

The Times in Demand.

On Saturday The Times was in such demand that a second edition had to be printed. This is a healthy sign, and shows that the paper is meeting a want. Our purpose is to enlarge and improve the paper in the near future, so that our circulation may keep right on growing.

Pleaded Guilty to Theft.

A man from Indian River appeared before County Magistrate Edminson on Saturday afternoon, charged with theft. He pleaded guilty of stealing $1, and was remanded until this morning for sentence.

Closed to Pedestrians.

Instructions have been issued by the G.P.R. authorities to the effect that the bridge over the Otonabee river must no longer be used by the pedestrians. The company realize the danger of using this bridge in this way, several narrow escapes from being run down by trains having occurred lately.

Four Handsome Homes.

Mr. W. H. Meldrum, with his usual enterprise, is having his building on Water street, opposite the Bank of Montreal, converted into four handsome and commodious homes. The down-stairs will be used as stores, as usual, the upstairs flats being changed as above. The apartments will be extremely cosy and will be fitted up with every modern convenience.

GRAND SALE OF JAPANESE ART WARE AND OTHER GOODS AT CHINA MALL.

On Tuesday, April 11th, we will begin the greatest sale of fine goods ever held in Peterborough. The assortment consists of nearly everything beautiful in the way of fine Japanese Art Ware and useful articles.

The stock comprises Royal Antique Satsuma, Cloisonne, Hand Carved Ivory, Royal Idams, Hand Carved Furniture, Hand Embroidered Silk Screens, Silk Cut Velvet Tapestries, &c., with Royal Kaga, Satsuma, Tokio, Tea, Chocolate, Berry sets, &c. As this is also my closing out sale, everything will be sold at a sacrifice —See full announcement in Monday papers. Store open for inspection of stock on Saturday evening.

MacFarlane Wilson.

Saturday's Market.

Pork 11c and 12c.
Veal 10c and 12c.
Lamb 12c and 13c (scarce).
Pigs (six weeks) $8 per pair.
Potatoes 90c.
Maple Syrup 40c quart.
Apples 40c peck.
Hay, loose) $14 to $15 per load.
Butter 27c.
Eggs 17c.
Chickens 90c.
Live hogs $6.25. Dressed hogs are not being offered now.
Farmers' hides 7c.
Butchers' hides 7½ to 8c.

Hamilton electrical workers want an increase of five cents an hour.

Fire last night did $80,000 damage to the Kingston Furniture Co. plant at Gananoque.

Laid at Rest.

The remains of the late Mrs. Wm. Trustcott, who died suddenly in the West, arrived on the C.P.R. train from Toronto, on Friday night. The funeral took place on Saturday afternoon from the residence of Dr. Scott, a brother of the deceased. Interment took place at Little Lake Cemetery.

Charged With Theft.

At the Police Court on Saturday, Joe Shearer, who failed to answer to the call in the previous day's Court, appeared Saturday, charged with the theft of 50 bags of chop from the Quaker Oats Co. He pleaded not guilty, so was remanded until the 13th when the two other boys, who are supposed to be implicated in the theft will appear also. Shearer stated he was given the chop.

The Montana Co.

A fair sized audience saw the Montana Co. perform at the Grand on Saturday. It was of the Western type of show, with plenty of shooting and blood-spilling. The feature of the play was the exploding of a can of dynamite, which went off with a terrific bang, and the flames and smoke which followed were well presented.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mrs. A. Kidd, of Fraserville, was in town Saturday morning.

Mr. Jas. Edgeumbe went to Cobourg Saturday for a short visit.

Mr. J. Donnelly, of the Normal School, went to his home in Brechin for the Easter holidays.

Mr. and Mrs. J. A. Dawson went to Cobourg on Saturday for a few days' visit.

Miss Flora French, of the Normal, went to Orillia on Saturday for the Easter vacation.

Mr. Jos. Braund, of Oshawa, is visiting his sons, Mr. R. C. Braund and Mr. J. T. Braund.

Miss Mabel A. Rainey, principal S.S. No. 3, Smith went to Barrie on Saturday, where she will spend the Easter vacation.

Mr. James Coyle Brown, formerly County Inspector of Public Schools, spent a few days visiting friends in the city last week.

Miss Helen Denne, who is attending Queen's University, Kingston, is in the city, having been summoned home on account of the serious illness of her mother.

We were pleased to have a visit on Saturday from our friend, Rev. Jas. Ford, of London, Ont., who spent a few hours in the city on his way to Norwood, where he will be the guest of his brother Dr. Ford, of that village. Mr. Ford is an old Peterborough boy, having spent the early years of his life in this place.

Mrs. (Dr.) Balstone, after an absence of 19 years in India, is visiting her cousins, the Misses Nicholls, 216 Macdonnell street. Mrs. Balstone naturally sees great changes in Peterborough since her last visit to this city.

The many friends of Mrs. Denne, George street north, will regret to learn that she has suffered a relapse, and was so ill that the members of the family who were out of town were summoned to her bedside. We are pleased to learn, however, that she was somewhat better last night.

It is worse than useless to take any medicines internally for muscular needed is a free application of Chamberlain's Liniment. For sale by all dealers.

A Quiet Wedding.

A very quiet wedding was celebrated at the George street church on Saturday morning last at seven o'clock, when Mr. Roland M. Waddell was united in marriage to Miss Edna J. Ackerman, both of Peterborough. Rev. Mr. Couch officiated. Immediately after the ceremony, the happy young couple left on an extended European trip and on their return in July, will reside at the corner of King and Park streets.

Among other costly and beautiful gifts, was a handsome mahogany Davenport from the Peterborough Carling Club, of which the recipient is the popular president, and a beautiful clock from the Masonic lodge.

The Times joins in wishing Mr. and Mrs. Waddell bon voyage through life.

LITTLE LOCAL LINES

There appears to be large numbers of persons travelling at present, the trains passing through being crowded, and often in two sections.

For spitting on the floor of the Lindsay Police Court, a man was promptly fined, and being unable to pay the fine, was sent to jail for 20 days.

The ice on Chemong and Stony Lakes is still in good condition. Teams were crossing Chemong Lake Saturday.

The Times is adding considerable additional plant to its already well-equipped establishment.

The Times is in need of a correspondent in every town, village and hamlet in the Midland District. Applications should be sent addressed to the Managing Editor.

COMMISSIONER REES AT S. A. BARRACKS

Yesterday the services at the Salvation Army Barracks were of a very special nature. The occasion being the visit to this city of Commissioner Rees, who is in command of the Salvation Army in Canada.

Commissioner Rees arrived on Saturday evening, accompanied by Col. Map, Lieut. Col. Pugmire, Brigadier Hargrave and Major Findlay. They were met at the C.P.R. by the band and members of the local corps and given a rousing reception, and were escorted to the Temple on Simcoe street.

All day Sunday the meetings were of a special nature, and were largely attended. In the afternoon a public welcome was tendered the distinguished visitors. The meeting at the barracks was presided over by Hon. J. R. Stratton, and other prominent citizens took part.

In the evening an old time S.A. meeting was held, at which Commissioner Rees presided.

DODDS KIDNEY PILLS

Take a Trip to the Country with the 'Beneficial Confection!'

The delicious flavor of crushed mint leaves carries your thoughts there instantly. The pure healthfulness of the fields is concentrated in it.

No other confection is so refreshing—no other is so beneficial! It keeps your teeth sound and white—keeps your breath fragrant and cool—keeps your nerves soothed and your appetite and digestion in good shape.

It's the greatest confection success ever known!

VOL XXXIV NO. 82 PETERBOROUGH, ONTARIO, TUESDAY APRIL 11 1911 PRICE TWO CENTS

HOW THE PAPACY CAME INTO EXISTENCE---LEO THE GPEAT ITS FOUNDER

TELLS OF PAPACY'S RISE—GERMAN PROFESSOR LECTURES.

Bishop of Rome Declared to be Lord of the Souls of Kings in Fifth Century.

Berlin, April 10.—How the Papacy came into existence was the subject of a lecture delivered at Berlin University recently by Germany's best known theologist historian, Prof. Adolph Harnack.

According to the Professor the idea of the papacy was born at the moment when the three thoughts, that Christianity required a monarchial constitution, that Peter was destined as its first leader and that the Bishop of Rome was the heir of this leadership, for the first time arose simultaneously in the mind. When was that moment?

Originally, after the death of Christ a multitude of parishes arose and of these, that at Rome soon became the most important through being situated in the capital of the empire. It began to give advice and directions to distant parishes, like that at Corinth, and it promulgated the law that the teaching of the Apostles as laid down in the New Testament must be followed.

There was no Bishop at Rome in the first two centuries, but the foundations of the papacy were being laid. Then came the period of Bishops, appointed in Carthage, Smyrna, Lyons, as in Rome, to act as head of the parish authorities, but they made no claim to temporal authority over other communities until in the third century. Bishop Calixtus of Rome described himself as the successor of Peter and heir to leadership of the whole church.

The transfer of the capital of the empire by Constantine to Byzantium, while it apparently robbed the Bishop of political support in reality left him the most influential man in Rome, and out of this position arose an attitude of independence in regard to the imperial power. The division of the empire strengthened the status of the Roman Bishop, and he now claimed to have charge of the souls of the kings.

It was at this juncture in the fifth century, that Leo the Great, declared himself the Lord of the World and thus, according to Professor Harnack, he may be regarded as the founder of the papacy.

Ernest Luck, a G.T.R. employee, was badly crushed between cars at Belleville.

A SMALL STEAMER TURNED TURTLE

Victoria, B.C., April 10.—The little steamer Iroquois, which plies among the East Coast Islands, turned turtle off Sydney this morning.

No details have yet been received.

SEIZED BY MUTINEERS

DESTRUCTION OF THE CITY IS THREATENED BY REBELLING SOLDIERS.

Foreigners in Flight—Action of the Prince Regent in Placing Himself at the Head of the Army is Resented.

London, April 10.—Many foreigners near Canton, China, are in danger of death as a result of the mutiny of Chinese soldiers of the northern military zone, and are to-day either in flight to Hong Kong or are seeking the protection of consulates, according to private telegrams received here.

These messages declare that the uprising, which was occasioned by the self-appointment of the prince regent to be commander-in-chief of the Chinese army, is so serious that a large section of the city of Canton is threatened with destruction. The mutineers have seized the barracks and threaten to burn the city. The rebellion has spread to the outposts and thousands of soldiers are being sent to quell the mutineers.

WIFE MURDER ALLEGED.

Hotel Proprietor Under Arrest For Serious Crime.

Sault Ste. Marie, Mich., April 10.—George Cook, the proprietor of the Franklin House, is under arrest here to-day charged with the murder of his wife. The woman was shot twice through the head about midnight.

It is charged that Cook did the shooting on the stairway leading to the couple's apartments, upon Mrs. Cook's refusal to open the hotel barroom when her husband returned home.

Mrs. Cook died at the hospital early to-day.

Sowing Tares

A WHISTLE WAS BLOWN IN COURT--SUSPEND SITTING

THE TRIAL OF THE CAMORRISTS WAS AGAIN INTERRUPTED AND WAS ADJOURNED.

A Commotion was Started—Lawyers Sprang to Their Feet, and Considerable Confusion Resulted.

Viterbo, Italy, April 10.—President Bianchi's way of dealing with disturbances at the trial of the Camorrista is to suspend the sitting, and so frequently is this prerogative exercised that the proceedings are seriously delayed, and promise to be long drawn out. To-day the sound of a whistle from among the spectators was sufficient to start a commotion that ended only when an adjournment was declared.

Giacomo Ascrittore was under interrogation at the time. Ascrittore is charged with having falsely denounced Tomassa De Angelis and Gaetana Amedeo as the murders of Gennaro Cuocolo and his wife, in furtherance of a conspiracy with the priest Ciro Vitozzi through which they sought to free of suspicion Enrico Alfano, his brother Ciro, Gennaro Ibelli, and Giovanni Rapi.

"Now," said Ascrittore, pointing to Amedeo, who was seated in the audience, "that gentleman comes here as an accuser. Then he was without a cent; now he goes to the expense of having five lawyers."

On Saturday Ascrittore told of the peculiar actions of Angelia, which convinced him of the man's guilt. To-day he recounted the evidence which had satisfied him that Amedeo was one of the assassins. He said that Amedeo had been so poor that he had often asked the prisoner for the loan of a few francs.

"One day," continued Ascrittore, "Amedeo, being drunk, said that there was much misapprehension in the pulling off of the Cuocolo affair. He said that only $120 was divided among the murders, though some persons secured great profit by selling the furniture from the home of the Cuocolos."

At this point a whistle blast started everyone in the room.

The lawyers sprang to their feet in indignant protest against the interruption, and in the confusion the president announced that the sitting was suspended.

NO STRIKE ON C.P.R.

Winnipeg, Man., April 10.—C.P.R. officials ridicule the report that its mechanics west of the lakes are on the verge of a strike. The old agreement is in force, and negotiations for a new agreement are making progress.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents . . . . . .

THE TIRE BY-LAW.

Editor Morning Times.

Dear Sir,—The time is drawing near when the ratepayers will be asked to vote on the Tire By-law. I have been thinking over the matter for some time, although I have not been to any of the meetings to hear its merits discussed. I would like to hear from some of the advocates of this by-law, as to its merits, and if it is a good speculation for the city to go into. I must say that it ought to be an extra good proposition in order to ask the city to borrow forty thousand dollars to loan to any company. So far I must confess that I cannot look upon it very favourably. Let some of those who are favourable to the proposition show up its merits.

J. J. Hartley.

THE INDUSTRIAL COMMISSIONERSHIP.

Editor Morning Times.

Sir,—I am in favor of keeping a present Industrial Commissioner at work, provided we can overcome the difficulty of securing power at a price consistent with what other towns are prepared to offer it for. Without power at the right price it would be impossible for Mr. Duggan or any other man to make good. So that I believe that the only salvation is to get the power. Surely, with half a dozen splendid water heads scattered along between Peterboro and Lakefield there should be no trouble in this respect.

Merchant.

A DIVISIONAL POINT.

Editor Morning Times.

Sir,—I see that The Times invites correspondents on matters of public interest and I therefore take the liberty of suggesting that our Board of Trade get busy and if possible secure a divisional headquarters of the C.P.R. grain line which is now being built. I notice that Orillia is working tooth and nail to have that town selected, while Peterborough, as usual, is apathetic. I hope Mr. Gillespie the energetic chairman of the Board, will have this important matter taken up without delay.

Progress.

TRANSIENT TRADERS.

Editor Morning Times.

Sir,—I would ask you to kindly give me a little space in your valuable paper in order to air agrievance. I understand that there is no by-law of the city which will prevent a man or a firm coming here and opening out a sale of bankrupt goods. This is hardly fair to the regular merchant who pays taxes and is a permanent citizen. We had samples a short time ago of a man coming here from Orillia and doing painting for the merchants in opposition to our own painters. This is not so bad as a man who will rent a store and put in a bankrupt stock and slaughter it.

I hope the Council will see that the business man is protected. A stringent by-law is necessary, and the police should be instructed to see that it is in force.

Business Man.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except of prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Sold by Druggists, Price 75c per bottle.

Take Hall's Family Pills for constipation.

The old Case homestead on King street east, Hamilton, used in 1812 as an army hospital, was damaged by fire yesterday.

BOY SHOT BY PLAYMATE WERE PLAYING AT "WAR"

DEATH IN THIS MIMIC WAR—BOY WAS SHOT BY PLAYMATE.

Russell Vickers, Belleville Lad of 14, Shot by Companion—Victim's Own Rifle Caused His Death.

Belleville, April 10.—That boys and rifles are a bad combination was again proved in this city on Saturday afternoon about 5 o'clock, when Russell Vickers, a lad about 14 years of age, was shot by a companion named Arthur Plumpton, with whom he was playing at "war."

The two lads had small calibre rifles, and with these, while empty, they were aiming at each other. After a while the game grew stale and they sat down, and talked. During this talk, young Vickers apparently without realizing what he was doing, inserted a cartridge in his own rifle.

Shortly afterwards the spirit of "war" seized the lads again and they started out for another skirmish. By mutual consent they exchanged rifles.

"Surrender!" shouted young Plumpton, as he covered the other boy with his own gun.

"Never," came the reply, and Plumpton playfully pulled the trigger. He was horrified to see Vickers fall in his tracks. An examination showed that the bullet had passed directly through the heart.

An inquest will be held by Dr. Yoemans, coroner, but it is not likely that any action will be taken against the Plumpton lad, as everybody believes the accident to have been entirely accidental.

DIVORCE PEPSONS NOT ALLOWED AT COURT

London, April 10.—King George according to the Daily Express, has revived the rule prescribed by Queen Victoria as to the non-attendance of divorced persons at court. Some relaxation of the rule was granted by King Edward.

LAWN BOWLING CLUB ANNUAL MEETING

Election of Officers and Other Business.

The annual meeting of the Brookside Lawn Bowling and Tennis Club took place last night in the Dominion Bank Chambers. On account of the absence of the president, Mr. J. A. Fitzgerald, Mr. Thos. Brightman occupied the chair.

The annual report of the president was read and adopted. The financial statement submitted by the efficient secretary-treasurer, Dr. Marshall, shows the club to be in first class condition.

The following officers were elected: President—Thos. Brightman.
Vice-President—Dr. Marshall.
Secty-Treas.—Mr. G. E. Clarke.
Executive Committee—Messrs. D. H. Moore, T. B. Yates, R. M. Waddell, R. Cottrell, D. Bellegham, R. J. Soden and T. Pratt.

SEVERAL MURDER CASES TO BE TRIED DURING THE WEEK

Goderich, Ont., April 10.—The Spring Assizes which opens here tomorrow at one o'clock, will attract considerable notice from the public, owing to the fact that two murder cases are entered to be tried by Sir Glenholme Falconbridge, Chief Justice of the King's Bench Division. In all probability the first case to be tried will be that against Edward Jardine, who is charged with the murder of Lizzie Anderson, on the night of Tuesday, September 20th, of last year.

It will be remembered that the nude body of the murdered girl, with her throat cut, was found in the cellar of a vacant house near the exhibition grounds, five days after she had disappeared. In the verdict returned by the coroner's jury about two months later, it was found that "the evidence submitted pointed strongly towards Edward Jardine as having committed the crime."

L. E. Dancey is defending the accused, and it is rumored that a prominent local barrister may assist him.

THE VANSTONE CASE.

The other criminal cases is an indictment of murder against George Vanstone, who, in a fit of temper, beat his little five year old son to death because he couldn't count to twenty. The tragedy occurred in Goderich, on the night of Thursday, December 15th, last. M. G. Cameron K.C., will conduct the defense.

The order of hearing of these cases rests with George Tate Blackstock, the Chief Crown officer. No definite announcement has been made as to which case will be heard first, but it is thought that the Jardine case will be the first on the docket, on account of the time it will take to dispose of it.

ANOTHER MURDER CASE.

Cobourg, April 10.—In the Assizes which opens here this morning, before Mr. Justice Clute, there is one civil case and three criminal cases. H. L. Matthews, jr., of Lakeport is charged with the murder of Josephine Brimacombe, the deaf mute found dead in the Bristol hotel at Colborne in December last. There are also cases against other men of wounding and incest.

In the village of Lakeport, two miles west of Colborne, are a large number of families who bear the name of Matthews, and who are prominent in the community, so that an unusual amount of interest centres in the Brimacombe case. Since Matthews has been confined in the jail here, his mother, who had been in feeble health for two or three years, and his wife have passed away. The prisoner protests his innocence. He is a son of Capt. Wm. Matthews of Lakeport. His defence will be conducted by J. L. Payne, K.C., Colborne; E. Guss Porter, K.C., M.P., Belleville; and F. M. Field, K.C., Cobourg.

CASE OF IGFANTICIDE.

Barrie, April 10.—At the Assizes opening this week, it is expected that Pearl Smith will be charged with the murder of her child, which was born in the Salvation Army home in Toronto. The child was found dead a few weeks later among a clump of bushes near Collingwood, where the girl's parents live, and had evidently been strangled to death.

A PLEASANT EVENING.

Good Programme by the Young People of the George Street Methodist Church.

Last night a very interesting and enjoyable evening was spent at the George street Methodist church, when the young people gave an entertainment which was exceedingly pleasing and popular.

There was afair attendance. The following is the programme:

Hymn—Onward Christian Soldiers.
Prayer—Rev. Mr. Brown.
Reading of Lesson—Miss Thomas.
Chairman's Address—Rev. Mr. Couch.
Instrumental Duet—Misses Clarry and Campbell.
Solo—Mr. Lee.
Duet—Messrs. Fleming and Downey.
Solo—Mr. Skitch.
Quartette—Messrs. Lee, Fleming, Downey and Skitch.
Solo—Miss Pringle.
Address—Loyalty, Mr. R. F. Downey.
God Save the King.

THE WEATHER.

Fair, with a little higher temperature.

TWO HUNDRED WOMEN MAY HAVE BEEN BURNED TO DEATH

Tokio, April 10.—Fire was still burning to-day in the Yoshiwara quarter, where four square miles of buildings of the city's tenderloin were swept by the flames yesterday and last night. After fighting the flames for twenty-four hours troops and firemen were exhausted, but the conflagration was under control.

200 WOMEN MISSING.

The damage is estimated at two million. The hospitals are crowded with injured girls and fully 200 are unaccounted for.

More than 1,000 were injured, and among them many firemen.

Nearly all of the residential buildings contained dance halls for geisha girls.

The district was one of the points of interest for tourists in Japan and its fame was known throughout the East. On account of the strict municipal control it was as safe as any other district of the city.

OBITUARY

H. T. Evans.

Again we are obliged to chronicle the death of an old and esteemed resident of this city, in the person of Mr. H. T. Evans, which took place at the residence of his son, Mr. David Evans, 226 Woodbine avenue on Sunday afternoon last.

The deceased was in his eighty-eighth year and had been ailing for some months. He had been a resident of Peterborough since 1857. His wife predeceased him a little over four years ago. He leaves to mourn his death five sons and three daughters as follows: The daughters are Mrs. R. R. Jones, Chicago; Mrs. W. Wilcox, West Toronto and Mrs. A. Russell of this city. The sons are George, Albert, Thomas and Charles all residing in the States, and David of this city.

The funeral will take place this afternoon at 2.00 p.m. and proceed to Little Lake cemetery for interment. Rev. Mr. Webb will officiate.

Mrs. Francis Dunn.

There passed away on Sunday last at St. Joseph's Hospital and old and highly respected resident of Peterborough, in the person of Mrs. Francis Dunn. She had been ailing several weeks and was removed to the hospital on Friday last, where she passed away as above.

Mrs. Dunn was in her 86th year and leaves the following to mourn her demise: Mrs. M. J. Hickey, Peterborough, and Mr. Arthur Dunn, Port Arthur.

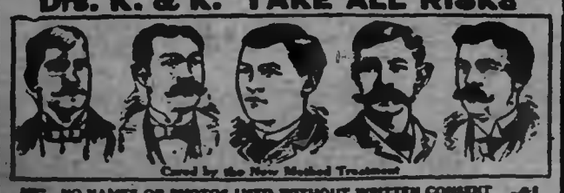
Of a kindly and lovable disposition, the deceased had many personal friends who will regret her demise.

The funeral will take place from the residence of her daughter, Mrs. M. J. Hickey, 303 Boswell avenue, this morning at nine o'clock, and proceed to St. Peter's Cathedral, thence to the Roman Catholic cemetery for interment.

After being on short time since December 1, employees of the M.C.R. shops at St. Thomas go back to the nine-hour day.

St. Catharines Collegiate Institute Board will charge all pupils $5 a year. A $10,000 gymnasium and assembly hall will be built.

YOU PAY WHEN CURED
Drs. K. & K. TAKE ALL RISKS



Cured by the New Method Treatment

NO NAMES OR PHOTOS USED WITHOUT WRITTEN CONSENT

NERVOUS DEBILITY

Thousands of young and middle-aged men are annually swept to a premature grave through Kidney Troubles, Bladder and Blood Diseases. If you have any of the following symptoms call or write us before it is too late. Are you nervous and weak, despondent and gloomy, specks before the eyes, with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, dreams and losses, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, easily discouraged, lack energy and strength, tired mornings, restless nights, changeable mood, weak stomach, pressure dizzy, loose joints, hair loose, sore throat, etc.

YOU WILL BE A WRECK

Our New Method Treatment can cure you and make a man of you. Under its influence the nerves become active, the blood purified, so that all pimples, blotches and ulcers disappear, the nerves become strong as steel, so that nervousness, bashfulness and despondency vanish, the eye becomes bright, the face full and clear, energy returns to the body and the mental, physical and sexual [illegible] are invigorated; all drains cease—no more vital waste from the system. Lost [illegible] and fakirs rob you of your hard earned dollars. We will cure you or no pay.

SIX HUNDRED DOLLARS IN FINES AT THE POLICE COURT

A Field Day in Which the City is a Big Winner.

It is not often that a single session of the Police Court will produce a revenue to the city of $600, yesterday, however, was one of these days in which the treasury was enriched to the above amount. Magistrate Dunbar certainly "soaked" those who were convicted of poker playing and administered a lesson that will probably put an end to the "little game" in Peterborough for some time. The fines administered in connection with the recent raid ranged from $50 to $200 each.

Mr. Rockefeller and Miss Tarbell are the leading characters in a play that has recently been produced in London. Our cable does not explain whether the hero gets the girl in the last act.

SIXTEEN-YEAR-OLD GIRL SOLDIER

El Paso, Texas, April 10.—Patrocina Vasquez, a sixteen-year-old girl soldier and the only woman to have fought under the insurrecto flag in Mexico, is in El Paso an exile. She has received an offer to go into vaudeville, but refused it. The girl enlisted with her father at Santa Teresa, Chihuahua, and took part in the battle of Casas Grandes, where she was captured. Later she was released and ordered to leave Mexico.

However, the girl soldier's modesty does not prevail entirely, for L. Gutierrez de Lara, a Socialist, and a commissioned captain under General Madero, is here seeking a theatrical engagement. He declares he wants the money for the rebel cause. De Lara was in the battle of Casas Grandes.

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep your bowels regular madam, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing but like many simple things, it may lead to serious consequences. Nature often needs little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. For sale by all dealers.

TUESDAY, APRIL 11, 1911.

INSURANCE AGAINST RAIN.

The bane of outdoor life in England is the excessive rainfall. Shows, pageants, garden parties, seaside outings, cricket matches, regattas and fetes of all kinds are, to an uncommon degree, at the mercy of the skies. No wonder that the English have finally elaborated a systematic scheme to provide indemnity for disappointment or loss caused by wet weather.

The new plan, which is associated with Lloyd's underwriters, will first be tried at the resorts on the south and east coasts from May to October. It is based on daily readings of official rain-gauges reports of which will be forwarded to the headquarters of the concern by town clerks or will be gathered from the lists of the meteorological office. Several sorts of policies will be issued. You may insure against rain, to a certain fraction of an inch, on any single day or against rain on more than two days during any one week; or, if planning a week-end party, against rain on four consecutive days. The managers of outdoor amusement enterprises have long been protected from rain risks. Under the new plan the holiday-maker himself is protected; he may pocket his insurance and try another day.

Whether the rainfall, as ascertained by scientific instruments, is the sole determining factor in the success of a holiday may well be doubted. A rainfall that made a good show by the gauge might merely lay the dust, cool the air and refresh the face of nature. On the other hand, a mist or a fog, while slightly affecting the gauge, might wreck the holiday and slay the holiday spirit completely. But Britain must be left to wrestle with the ins and outs of its own climate. The English enjoy well-nourished landscapes and well-tempered nerves and are doubtless content to pay the price.

MORMON ACTIVITY ABROAD.

England has a new alarm every week or so. If the shudder can be charged to America there is an added interest. This is the case with the latest scare, which is about the spread of Mormonism in the British Isles. The situation led to a conference in London a few weeks ago. It appears that there are more than 1,100 Mormon officials in Great Britain, and that during 1910 they held 15,000 meetings and distributed over 5,500,000 tracts.

This propaganda, in so far as male converts are concerned, is almost negligible, but the complaint is made that great numbers of women and girls have been induced to emigrate to the United States, sometimes owing to the promise of high wages and better positions, sometimes through misplaced zeal and infatuation for individual teachers. Many are supplied with money for the journey, and the debts thus incurred operate, it is said, as a bar to a return.

Polygamy is not openly preached in England, for fear of the police. Proselytism is placed chiefly on house-to-house, back-door canvass. As proselytes can be arrested only for actual violation of the law, there is a demand that the British government pass a law, as those of Prussia and Austria have already done, authorizing the expulsion of Mormon agents. American magazines have lately made it clear that polygamy, as a feature of Mormonism, is far from dead. A propaganda among inexperienced and (to be approved by Ca[illegible] unsheltered young women is no more to be approved by Canada than by Europe.

MONARCHISTS ARE STIRRING UP STRIFE OVER RELIGIOUS QUESTION

Lisbon, April 8.—It is feared that the Monarchists plotting at Vigo and Tuy, may take advantage of the discontent in the North of Portugal over the religious question to endeavor to incite the inhabitants to revolt.

The provisional government sent a cruiser fully manned and with extra guns for landing purposes to Oporto last night. All regiments stationed in the north are held ready to quell a rising. The Spanish frontier is closely guarded.

A number of men employed at the Lisbon arsenal, objecting to the new rules of the minister of marine, refused to resume work. This afternoon some of them endeavored to penetrate to the minister's office, crying, "Down with the minister of marine." Sailors and the municipal guard quelled the revolt.

A body of mutineers then seized a steam launch and went on board the gunboat San Rafael, asking protection from the commander, who refused and forced them to return. The government is making arrests.

ONTARIO HEALTH DEPARTMENT MAY PUT ALL OTTAWA UNDER QUARANTINE, SAYS DR. BELL

Ottawa, April 8.—Dr. H. W. Bell, of the Provincial Board of Health went to Carleton place yesterday to deal with the outbreak of smallpox there. Dr. Bell severely condemned the lack of precaution against the spread of smallpox here, witnessed in loose quarantine enforcement and in some cases the entire absence of quarantining for several days after it should have been put in force. He said that unless drastic action were taken at once the Ontario Health Department would put Ottawa under quarantine at the city's expense, permitting no intercourse with the rest of the Province.

CHINESE BEHEAD MAN WHO SOLD SECRETS TO JAPANESE

Mukden, April 8.—An army officer named Chao, attached to the Topographical Department of the Chinese Manchurian division headquarters at Chang Chun, was discovered to have sold a number of important maps to the Japanese, realizing fifteen thousand taels.

Chao was educated in Japan, and married a Japanese.

The viceroy reported the case to the general staff at Peking, and recommended twenty years' imprisonment.

The general staff wired instructions to immediately behead the man.

WOULD NOT BE TO THE ADVANTAGE OF THE EMPIRE

London, April 10.—(Special)—Lord Selborne, speaking at a meeting in support of Imperial preference, referred to the American-Canadian reciprocity. He entirely accepted Secretary Knox's disclaimer in behalf of the United States Government of any idea of absorbing Canada, but complained that this was the first time any part of the British Empire would enjoy preferential treatment in a foreign country over the rest of the Empire.

It was impossible, he said, to regard the precedent with satisfaction, and they could not hold that the agreement was to the commercial and industrial advantage of the United Kingdom.

HOME-SECRETARY CHURCHILL DEFENDS HIS HONOR

London, April 10.—For several years Winston Churchill, the home secretary, has been annoyed by a persistent story that while he was a Boer prisoner during the war in South Africa he broke his parole and escaped. To-day he took measures to prevent any further circulation of the story by bringing suit for slander against one Spencer, a political speaker, who during the recent elections, repeated the calumny.

Mr. Churchill's counsel declared to the court that there was not the slightest foundation for the story. Mr. Churchill had hitherto ignored it, but its repetition for political purposes during the last two elections had forced him to take the present action and to demand damages as the most effective means of killing the story. The case ended by Spencer, the defendant, apologizing. The judge then condemned him to pay damages in a nominal sum.

TENDERS FOR DREDGING.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Dredging, Ontario," will be received until Tuesday, April 25, 1911, at 4 p.m., for dredging required at the following places in the Province of Ontario:—

Big Creek, Big Island, Echo Bay, Kincardine, Port Elgin, Kingsville, Penetanguishene, River Thames, Salt Point (Presqu'Ile), and Wiarton.

Tenders will not be considered unless made on the forms supplied, and signed with the actual signatures of tenderers.

Combined specification and form of tender can be obtained on application to the Secretary, Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the work. Only dredges can be employed which are registered in Canada at the time of the filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

A separate cheque for each place for which a tender is submitted must accompany the tender. This cheque must be equal to five per cent (5 per cent) of the amount of the tender, based on the approximate quantities set opposite the name of the place, but in no case must the cheque be for a less sum than $1,500. The cheque must be accepted, on a chartered bank, and payable to the order of the Honourable the Minister of Public Works. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, April 3, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

ADVERTISE IN THE TIMES.

DEPARTMENT OF RAILWAYS AND CANALS.

Ontario—St. Lawrence Canals.

Cornwall Canal.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Improving Upper Entrance to Lock No. 19," will be received at this office until 16 o'clock on Saturday, April 15th.

Plans, specification and Form of Contract to be entered into can be seen on and after March 18th, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the resident Engineer on the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labour, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and the place of residence of each member of the firm.

An accepted bank cheque for the sum of $1,500.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, March 21st, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

PARROT SAVES HOUSEHOLD.

Shrieks "Father, come Quick!" When Room Catches Fire.

A parrot saved a Chatham household from a terrible death in the early hours of a recent morning. All the inmates were asleep, when they were aroused by the bird shrieking "Father, come quick!"

It was then found that the house was full of smoke, and that a room downstairs was in flames. Some difficulty was experienced in removing a tenant named George Pett, who is partially paralysed, from one of the rooms, but everyone was brought safely out, and the flames were subsequently extinguished by the fire brigade.

The cry of the bird which prevented serious loss of life is one of several [illegible] is fond of repeating.

When a person buys any other VACUUM CLEANER, they always express the hope that it will be as good as the "KING EDWARD". The name is Synonymous with BEST; and the article like the name stands out as the greatest "Peacemaker" in the home and the world at large.

O'K
Extra Mild, Remember
Many people would drink ale, in preference to all other malt beverages, if ale did not make them bilious.
This O'K brew is brewed especially for those people. It is extra mild and extra light, and lets you enjoy the creamy deliciousness of real old English ale without the heaviness and excessive bitterness. In easily—opened seal stoppered bottles. No broken cork or tinfoil in the glass.
O'Keefe's Special Extra Mild **ALE**
"The Beer that is always O.K."

COLORED DOMESTICS.

Montreal, April 8.—Fifty-eight dark skinned West Indian maidens from Guadeloupe, domestics to be, clad in garments which vied in color and variety with Joseph's coat, arrived here yesterday. They came to Canada to become domestics for the French people in Quebec Province. Forty-eight more girls will come from Guadeloupe on the next trip of the steamer Panama. The new arrivals all complained of the cold.

Library Voting Contest

TWO HANDSOME LIBRARIES OF 50 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 80 volumes and handsome sectional bookcases will be given by votes to the lodge, church, society, school or other organization in the City of Peterborough, and one library of 80 volumes to the schools, lodge society, church or organization in the County of Peterborough, outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, Sept. 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the E. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough,, and the County of Peterborough, outside of Peterborough, having the largest number of votes will be awarded the libraries.

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily, and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be secured:—

FIND OUT IF YOU HAVE CATARRH

Don't Wait Till Consumption Develops. Cure Yourself Now.

CATARRHOZONE.

In the discovery of this wonderful curative medicine the entire race is given freedom from Catarrhal diseases, including Asthma, Bronchitis and Throat Weaknesses.

Is catarrh in your nose?
Does it affect your hearing?
Is your throat husky?
Are your eyes watery?
Is your breath offensive?

These are the indications of Catarrh—now why continue to live in misery when cure is guaranteed with Catarrhozone? So sure is Catarrhozone to cure that thousands recommend it—tell of its wonderful merit after being cured themselves. Read this:

How Catarrhozone Cures.

Miss Worrel is a resident of Clarksville, Da., and has been the means of pointing the way to health of many of her friends.

"I received such extraordinary benefit that I have induced many of my friends to use it also. My catarrh was so bad a year ago that I despared of ever getting cured. I am sure my lungs were somewhat affected also. The relief I got from Catarrhozone was remarkable. I improved under this treatment very quickly, and was cured so thoroughly the disease has never returned."

Get the large dollar size of Catarrhozone; it contains a beautiful hard rubber inhaler and medicine that lasts two months. Smaller sizes, 25c and 50c each. Beware of imitations—accept only "Catarrhozone," sold by all reliable dealers or by mail from The Catarrhozone Company. Kingston, Ont.

SHE LEARNED FROM HER LITTLE GIRL

DAME BOUCHARD FOUND RELIEF IN DODD'S KIDNEY PILLS.

They Cured Her Daughter's Kidney Disease and She Tried Them Herself, With the Result That Her Backache and Heart Trouble are Gone.

Jonquieres, (Chicoutimi Co., Que., April 10—(Special)—Encouraged to use Dodd's Kidney Pills by the fact that they completely cured her little girl of kidney disease, Dame Jos. Bouchard of this village, is satisfied she has at last found permanent relief from the heart trouble and backache that have troubled her for so long.

"Yes," Dame Bouchard says, in an interview, "I am happy to tell you Dodd's Kidney Pills have made me well. They completely cured my little girl, twelve years old, of kidney disease, so I made up my mind to try them for my backache and heart trouble. I have taken twelve boxes and feel sure that they will completely cure me."

Dodd's Kidney Pills are doing a great work in this neighborhood. They have yet to find a case of kidney disease they cannot cure. Whether the disease takes the form of Backache, Lumbago, Rheumatism, Urinary Trouble or Bright's Disease, it is all the same to Dodd's Kidney Pills. They always cure it.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES REPORTERS.

"I'm on the Water Wagon Now."

The water-wagon was again on duty yesterday, trying in vain to keep down the dust, which almost blinded pedestrians.

To Show in Belleville.

The Polly of the Circus Co. go to Belleville to-day for their next performance.

Wanted Immediately.

A first class office assistant, lady or gentleman, with knowledge of bookkeeping and stenography. Peterboro Optical Institute, 332 George Street. Market Bldg. tf.

The Chemong Bass.

Several McLaughlin automobiles were unloaded yesterday at the G.T.R. Freight sheds. Among them was the new Chemong auto, which was tested in the afternoon and found to be satisfactory.

Bad Bills Here.

On Saturday last three bogus five dollar bills of the Bank of Montreal were discovered in the city. They were taken over the counter for goods at two of the leading stores. The public are cautioned to be on the lookout.

Laid at Rest.

The funeral of the late George Carton, took place yesterday afternoon to Little Lake cemetery, Rev. Mr. Couch of George street church officiated. The pall-bearers were: Dr. T. P. McCullough, Dr. Hollaway and Messrs. W. J. Green, John Nugent, George Powell and James Lang.

Report Probably Untrue.

A few days ago The Times published a statement to the effect that the Lakefield Portland Cement Co. was to resume operations at once. We are advised that this is premature, to say the least, the company having no immediate intention of again starting the mill.

Farmers Need Help.

The Times is informed there is considerable farm help needed throughout the country districts and that there will be employment for all the farm laborers that are likely to come this way during the present season. This is a good sign and one that augers well for business.

East City Robberies.

A local youth appeared at the Police Court yesterday charged with having burglarized the shop of T. B. Manicce, East City, on Thursday night last, and stole a quantity of maple syrup, cigars, etc. He pleaded guilty. At the request of Chief Thompson, his name was not disclosed as it might interfere with further arrests.

A Narrow Escape.

On Sunday while a number of children were playing round the edge of the Creek, which is now swollen by Spring floods, a lad named O'Brine, son of Mr. John O'Brine fell into the swift running water and was rapidly carried down the stream. He would certainly have been drowned had not Mr. E. Page, of Pearl avenue, happened to be coming along and jumped in and rescued the boy.

King's Birthday.

The King's birthday is, by His Majesty's special wish, to be celebrated in his dominions beyond the sea, on the actual anniversary of his birth —June 3rd. This will give Canada an additional holiday, because Victoria Day, May 24th, is already a statutory holiday.

A Button, Not a Gold Piece.

A lady, while passing the corner of George and Hunter streets, stopped suddenly and gazed into the mud and saw what appeared to be a five dollar gold piece. Many dreams had that lady, of how she would look on Easter Sunday morning with her new hat. Despite the soiled glove tips of her new kid gloves the precious piece was quickly clapped in her hand. On examination of her find it proved to be only a button.

Pleasure Club Meeting.

A meeting of the Pleasure Club of St. Peter's T.A.S. will be held this evening for the purpose of making final arrangements for the At Home to be held on Easter Monday evening.

Nut Coal Scarce.

Hard nut coal is a very scarce commodity in Peterborough at the present time, all the dealers, we understand, being nearly out of it. This is the case all over Eastern Ontario, owing to the inability of the railroads to furnish motive power to distribute it. It is said that there is ten thousand cars of coal at the Ontario ports of entry from the United States waiting to be moved.

New Motor Bus.

A new, double-seated passenger motor car, which will carry twelve passengers, was received by Messrs. Rutherford & Grimes Motor Company, of this city, yesterday morning. It is a handsome car and is gotten up on a smaller basis than the car which has heretofore conveyed passengers from Peterborough to Chemong. It is one of four cars which this Company propose to put on here between local points.

Asphalt Block For Oshawa.

Oshawa is going in for paved streets, and is thus leading Peterborough in this matter. Tenders were called for the work and the tender of the Ontario Asphalt Block Paving Company was accepted at the price of $2.49 per sq. yd. of pavement, according to Engineer's Specifications, complete from curb to curb, the extra work required to be done under the railroad track, together with the curb, gutter and sidewalk, widening to be done where called for at the prices submitted in schedule.

Burglars Getting Busy.

Throughout this portion of the Province the light fingered gentry are getting busy as it were. Within the last week, merchants of our own city as well as of Lindsay, Belleville and Cobourg were given a surprise by burglars entering their place of business. The night police had better be on the watch.

Allowed to Go.

Joe Burke, a lad from London, Ont.., who was charged with theft before his worship Magistrate Edmanson, on Saturday, was allowed to go on Suspended sentence. It appears that the lad took the dollar as he did not have enough money to purchase a railway ticket for home. His Worship took this into consideration, and as the boy was very young he gave him a chance.

HOW TO SAVE MONEY.

A Pointer to Housekeepers

Look at the financial side of Zam-Buk's use. A cut sustained in the home, the store, or the workshop, a sore which is unattended, results, say, in festering or blood-poisoning. You have to lay off for a day or two. What does that mean when pay day comes round? (Zam-Buk insures you against that loss! A little Zam-Buk applied to such an injury prevents all danger of blood-poisoning, takes out the smarting and heals.

Heads of families know how costly doctoring is. Be wise and act on the preventive line. A box of Zam-Buk in the home is so all-round useful. The baby's rashes, the older children's cuts and bruises, the inevitable burn, cut, or scald—for all these, as well as for more serious ailments, such as piles, ulcers, eczema, ringworm, etc., Zam-Buk is without a rival.

Dangers of Shaving.—You get a cut at the barber's shop. A little Zam-Buk smeared on the wound prevents all danger. If any ailment has been contracted, Zam-Buk cures. Mr. George Hobden, 108 Manitoba St., St. Thomas, Ontario, says: "I contracted barber's rash, and the whole of my left cheek broke out in one mass of red, watery pimples and sores. These spread to the other parts of my face, until face and neck were covered with running sores. How far the disease would have spread had it not been for Zam-Buk I don't know. I applied this balm, and in a short time Zam-Buk effected a complete cure."

Zam-Buk Soap is as good as the balm, but in a different way. Washed in Zam-Buk Soap the skin is disinfected and disease germs lying upon it are killed. Mothers will find it unequalled for baby's bath.

Zam-Buk Balm and Zam-Buk Soap are sold by all druggists and stores at 50c for the balm and 25c tablet for the soap.

LITTLE LOCAL LINES

Maple syrup season being late this year may increase the price.

The present list of ticket holders of the Public Library is now about 1400.

The mills of the Peterborough Lumber Co. on Burnham's Point are getting ready to make a start. The ice is being cleared away rapidly.

Friday, the 14th inst., will be observed as a public holiday throughout the Christian world. It being Good Friday.

The Times is in receipt of a copy of the 27th annual report of the Toronto Public Library. It contains all the information necessary for the benefit of those who use the library. Our Peterborough Board might, with profit, follow this example.

The contract for the rebuilding of the Rockland Hotel, Bobcaygeon, has been let to Mr. A. E. Kennedy. When completed this hotel will be one of the best on the Kawartha Lakes.

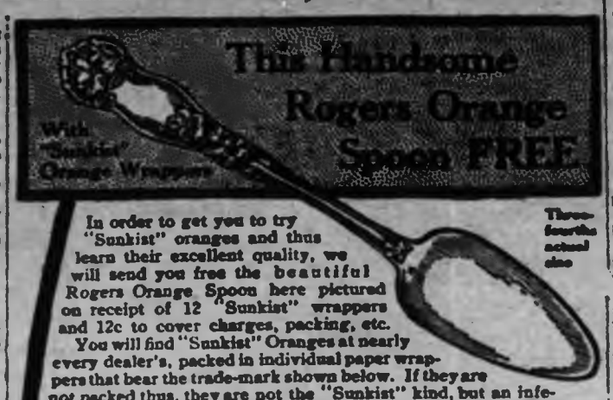
The rite of confirmation was administered to a large number of candidates at All Saints church last night by his Lordship Bishop Reeve.

The fire department had a call yesterday forenoon to the Bradburn estate, owner of Edinborough and Bethune streets. The fire was caused by burning grass. No damage was done.

Jewish Passover Season.

Peterborough is rapidly becoming a Cosmopolitan city, there being numbered amongst the population many nationalities, consisting of Jews, Italians, Japanese, Chinamen, Russians, Germans, French, etc. It is said that there are about forty Jews in this city, who will observe the Feast of the Passover which begins Wednesday, April 12th and lasts for seven days. The following is the command taken from Exodus, chap. xiii., verse 7.—

"Unleavened bread shall be eaten seven days; and there shall no leavened bread be seen with thee; neither shall there be leaven seen with thee in all thy quarters."



In order to get you to try "Sunkist" oranges and thus learn their excellent quality, we will send you free the beautiful Rogers Orange Spoon here pictured on receipt of 12 "Sunkist" wrappers and 12c to cover charges, packing, etc.

You will find "Sunkist" Oranges at nearly every dealer's, packed in individual paper wrappers that bear the trade-mark shown below. If they are not packed thus, they are not the "Sunkist" kind, but an inferior fruit. You can buy "Sunkist" Oranges by the box and half-box.

"Sunkist" Oranges—Choicest Fruit

"Sunkist" Oranges are California's choicest fruit—the select inspected crop of 5,000 orange groves. No other oranges so sweet, rich and juicy. They are thin skinned, seedless, fibreless, tree-ripened, firm and solid. All are hand-picked. No culls, bruised or over-ripe oranges. Each "Sunkist" is a perfect specimen, as delicious as if plucked fresh from the tree.

Save the Wrappers and secure a complete set of beautiful, useful orange spoons.

In remitting, please send cash when the amount is less than $1; on amounts above $1, we prefer postal note, money order, express order or bank draft. We will be glad to send you complete list of valuable premiums. We honor both "Sunkist" and "Red Ball" wrappers on premiums. Address

CALIFORNIA FRUIT GROWERS' EXCHANGE
105 King St., East, TORONTO, ONT. (67)

Boston Women to Smoke.

The efforts of Mrs. W. R. Leeds, the New York society woman, to establish a new club for women in the quarters occupied by the British Tea Table in Boston, have caused a seething tempest in the society teapot in the Back Bay section.

The announcement that women will be allowed to smoke in the new club is the reason for the stir and fashionable women are dividing into two factions, the smokers and the anti-smokers.

Benjamin C. Tower, secretary of the new organization, which is to be known as the Assembly Tea Room Club, admitted that women would be allowed to smoke in the new club if they so desired. "Of course," he said, "we do not mean to advertise this sort of thing, but if the women members of the club desire to smoke there, it is their business."

Obed A. Langville, assistant postmaster at Matane Bay, N.S., is dead. In two years the postmaster and two assistants have died.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Dr. R. F. Morrow went to Maripposa yesterday morning.

Mr. David Easton went to Campbellford yesterday on business.

The Misses Conroy, East City, went to Hastings yesterday for a visit.

Mrs. Frederick Trebilcock is absent in Toronto and will not receive to-day.

Mr. T. Woodworth left yesterday for Vancouver, where he will reside in future.

Lindsay Post says that Mayor Beal of that town was in Peterboro on Friday last on business.

The names of W. H. Pretty and Alex. J. Grant were registered at the Simpson House, Lindsay, on Saturday last.

Mr. Jack Eastwood was the guest of his parents, Mr. and Mrs. V. Eastwood, on Sunday last. He returned to Totonto on Sunday evening's train.

Mr. Mat Breckenridge who has been out in the west for the past few months has returned to the city to take his family back with him. Mr. Breckenridge was formerly with the Canadian General Electrical company.

Miss Cecelia Kenneally, an employe of S. H. Knox & Co., and who has been ill for some time past, is able to be out again and will resume her duties at the said company's store in a few days.

Victoria Day.

It is altogether likely that Peterborough will have another Military Day, similar to the one held here two years ago. The members of the regiment are very enthusiastic over the way the young men of the city are enrolling in the local regiment. It is to be hoped that the 57th will see that we have another military day here on the 24th of next Month.

Mr. Elerick White, express man, of Rubidge street, lost a valuable horse by death yesterday morning.

The Montana Co.

The Montana Co. went to Port Hope on the 11.45 G.T.R. yesterday morning.

GRAND SALE OF JAPANESE ART WARE AND OTHER GOODS AT CHINA HALL.

On Tuesday, April 11th, we will begin the greatest sale of fine goods ever held in Peterborough. The assortment consists of nearly everything beautiful in the way of fine Japanese Art Ware and useful articles.

The stock comprises Royal Antique Satsuma, Cloisonne, Hand Carved Ivory, Royal Idzuma, Hand Carved Furniture, Hand Embroidered Silk Screens, Silk Cut Velvet Tapestries, &c., with Royal Kaga, Satsuma, Table, Tea, Chocolate, Berry sets, &c. As this is also my closing out sale, everything will be sold at a sacrifice —See full announcement in Monday papers. Store open for inspection of stock on Saturday evening.

QUESTIONS RE MARRIAGE LAW UP AT OTTAWA

INTENTIONS OF GOVERNMENT WILL BE ASKED, EXPLAINED BY COL. HUGHES.

Will Canada Enact a General Marriage Law?—Conservative Member Enquires as to the Jurisdiction of Federal House.

Ottawa, April 11.—Col. Sam. Hughes has given notice that he will ask of the Government on Wednesday:

"Is the Government or any member thereof aware that the hierarchy of the Roman Catholic Church and the Courts of Quebec Province are said to decline to recognize as valid a marriage between a Roman Catholic man and a Roman Catholic woman if solemnized by other that an ecclesiastic of the Roman Catholic Church? Is the Government or any member thereof aware that an alleged ecclesiastic of the Roman Catholic Church declared invalid marriages solemnized between a Roman Catholic and one of another faith throughout the Dominion of Canada unless the ceremony be performed by an ecclesiastic of the Roman Catholic Church? Under the B.N.A. Act does not marriages come under the jurisdiction of the Parliament of Canada?

"Is it the intention of the Government to enact legislation which throughout Canada will make a marriage legal in any and every province if performed between persons of the same creed or faith or different creeds or faith in any province by any official or officials recognized for such purpose in any other province, in short, to enact a Dominion of Canada marriage law which will accept for every part of Canada and make lawful in every province a marriage consummated under the law or form of any province?

"Is it the intention of the Government to make it a criminal offence and to prescribe punishment for any person, ecclesiastic or other, who intrudes or promulgates or publishes or declares any rule of dogma of any ecclesiastical organization casting doubt upon or declaring invalid or in any sense restricting on the legality of a marriage performed by any official entitled to perform a marriage ceremony, or setting up any such ecclesiastical dogma or rule as overriding the law of Canada?

"Is it the intention of the Government of Canada to declare valid a marriage solemnized in Quebec or in any province of Canada between two persons of the Roman Catholic faith, providing the officiating clergyman be a Protestant, and for the removal of doubt to make the law retroactive? Is it the intention of the Government of Canada to permit any ecclesiastical dogma rule to override the laws of the people of Canada?

"Is it the intention of the Government of Canada to restore the legitimacy of every woman who supposed her marriage legally consummated and also the children born of such marriage?

"Will the Government enact legislation compelling alimony to the woman where the man has left her under the ecclesiastical dogma of any Church?"

Plague Endangers Durbar.

London, April 11.—Some uneasiness is felt in connection with the Royal durbar and the prevalence of the plague in India, where there has been a serious recurrence. Just now the weekly average of deaths is 2,500, while at Delhi itself, where the durbar is to be held, there are 50 deaths each day.

Mrs. Alex. Demaris, of Cornwall, is dead from burns, her babe also having been fatally burned.

IF I WERE MAYOR
What I Would Do

UNDER the above caption The Times invites correspondence. The letters will appear in the Saturday edition only and must deal with local matters, and not political questions. In this way suggestions in regard to local affairs will be in order, and we are sure will be taken in good part by Mayor Morrow and the members of his Council.

SPANISH REVOLT STARTS IN SOUTH

POPULACE OF SMALL TOWN 55 MILES FROM GIBRALTAR HAVE RISEN.

A Republic Proclaimed—Attempt was Made on Alfonso's Life at the Same Place in January.

Madrid, April 10.—An embryo republic has been proclaimed at Canillas de Aceituni, in the province of Malaga.

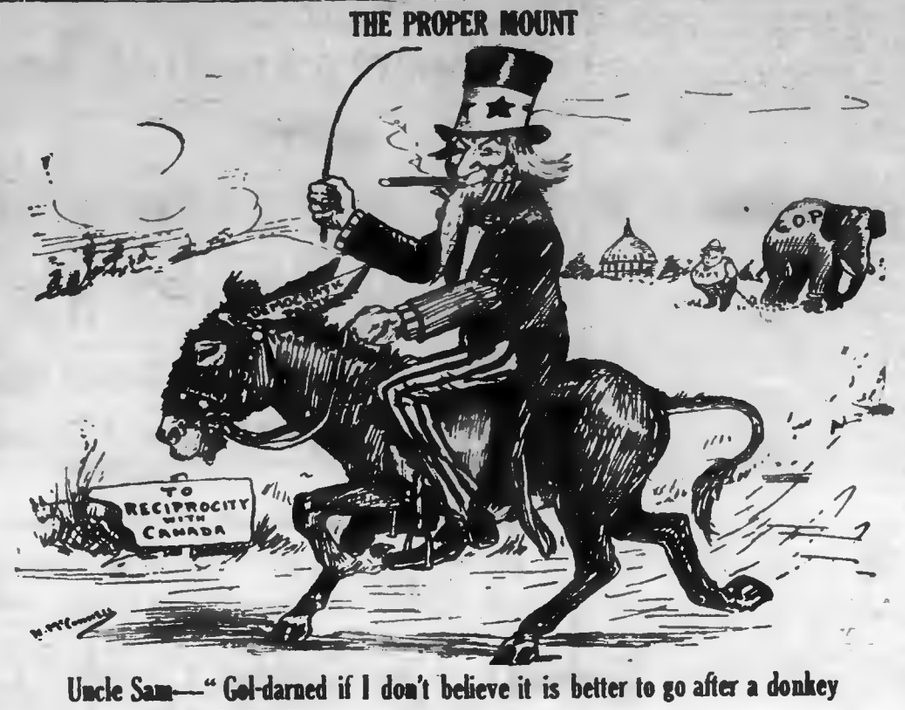
The populace of the town rebelled against the royal authority, and attacked the barracks of the civil guard. Several persons were wounded in the fighting that followed.

Reinforcements of troops are being hurried to the scene.

Canillas de Aceituni is a town of about 5,000 inhabitants in the Velaz-Malaga district, in the southern part of the province of Malaga. Malaga province borders on the Mediterranean, its capital, Malaga, being 55 miles north-east of Gibraltar.

King Alfonso had an unpleasant experience in Malaga last January, following his arrival in that city from Madrid while en route for Melilla, Morocco. As he entered the Governor-General's palace doors there was an explosion in the crowd and two persons were injured. An official account of the incident stated that a civilian had dropped a pistol "enclosed in a box." Many persons believed Monarch had been made.

THE PROPER MOUNT



Uncle Sam—"Gol-darned if I don't believe it is better to go after a donkey with a donkey."

CANADIAN GOVERNMENT TUG CAPTURED U. S. POACHER AND THREE THOUSAND POUNDS FISH

Kingsville, Ont., April 11.—The fishing tug Eagle, of Lorain, Ohio, was captured on Lake Erie yesterday as a poacher in Canadian waters, and the vessel with a crew of six men was brought here.

The capture was made by Victor Cheveau, the fish and game warden, and Captain Dunn, in the tug McCarthy, which is doing patrol duty pending the fitting out for the season of the cruiser Viligant, the Government patrol boat.

The Eagle had on board 3,000 lbs. of fish and thirty boxes of net twine. All of this with the tug, has been confiscated, and will be held pending a settlement of the affair in court. The crew is here.

ENGLISH TOWN EJECTS MORMONS TAKES MATTERS IN OWN HANDS

London, April 11.—The town of Heywood, one of the centres of the Mormon propaganda, has become tired of waiting for the Government's promised efforts to check the Mormon movement and has taken the matter in its own hands.

The Rev. J. P. Wilson, rector of Heywood, with a large crowd following, went to the Mormon meeting house last evening and served notice upon the Mormons that they must quit the town. The crowd outside became clamoring and demanded that the doors which had been closed, be thrown open. The president of the Mormons started to open the doors, but the deputation realizing the temper of the townspeople prevented it.

Some of the weaker Mormons asked that they be allowed to remain three weeks, but the rector was immovable. He quoted the Mayor's recent request that the Mormons leave, and added that if it were not complied with the people would likely compel them to go. The Mormons finally yielded and promised to leave Heywood within a week.

The rector returned to the street, and urged the crowd to disperse out of respect to the Mormon's promise. This was done and the Mormons went home unmolested.

NO. 2 COMPANY ANNUAL REUNION

Enjoyable Evening Spent at Hoopers Parlours.

A pleasant evening was spent on Monday night, on the occasion of the annual reunion of No. 2 Company, 57th Regiment, when about thirty members turned out in uniform to enjoy the hospitality of their officers, Captain Watt and Lieut. Carruthers.

After an hour spent in social enjoyment and cards, the party sat down to a stunning banquet, to which they did full justice. Mr. W. Mellroy, the popular C.P.R. city ticket agent, supplied the music for the following programme:

Duet—W. Mellroy and Sergt. Skates.
Step Dance—John Crowe.
Mouth Organ Solo—Sergt. Skates.
Song—Q. M. Sergt. Edwards.
Recitation—Col. Sergt. Halpin.
Step Dance—Pte. Bonnett.
Song—E. A. Mulholland.

There were present as invited guests ex-Col. Miller (an old No. 2 man), Major Clegg (also an old No. 2 man), Major Bennett, Hon. Major Canon Davidson, Capt. McLean, W. Mellroy and Capt. Hounsell.

A pleasing feature of the evening was the great interest manifested by those present in their effort to make the 57th regiment one of the best in Canada. Every company is now nearly up to its full strength, thus indicating the popularity of the organization.

The Boy Scouts.

Last Saturday night at the Armories, at a meeting of No. 1 Company, Boy Scouts, Master Herbert McClellan, Sergeant of the Beaver Patrol, read a paper on Lord Nelson. The boys appreciated the paper very much, and in a short time Master Herbert is to read another paper on duty. This indicates some of the advantages which the boys receive in connection with the Scout movement as it teaches them to emulate those great personalities who have made their mark in history.

THE WEATHER.

Showery with a little higher temperature.

RURAL MAIL SERVICE FOR CENTRAL SMITH

Suggested Route of the Proposed Line.

The Examiner says: Hon. J. R. Stratton, M.P., West Peterborough, has endeavoured to have a Rural Mail Route established through the central portion of the township of Smith. The proposed route will commence in Peterborough, leaving the city Post Office at one o'clock, and proceed East of the Communication Road, north to the Third Concession; thence East to the Middle Line, and north to the Fourth Concession; thence West to East Communication Road and North to Fifth Concession; East to the Middle Road, then North to the Seventh Concession; thence West to the Quarter Line, and North to the Eighth Concession; thence West to the Finger Board; thence North to the Ninth Concession and East to the Middle Line; thence South in the Seventh Line and East to Lansdowne and the River Road; thence South to the Fourth Concession and West to the Middle Line; thence South on the Middle Line to the city. The proposed route would cover a journey of about 25 miles, and arrangements are being made with a view to the courier leaving Peterborough at about one o'clock, after the assorting of the G.T.R. and C.P.R. noon mails. This route has been selected after consideration, as being the one that would best serve the most people in the township irrespective of any other consideration than accommodation to the public.

If there is any person in Smith, or in Peterborough, who can work out a better route—one that will serve the township with greater success than the one above mentioned, Mr. Stratton would be glad to have the information, so that whatever route may be established will be the one that will give the farmers the best Rural Mail Service possible.

In a route of this description the condition of the roads and the lines that are opened, has to be considered and have been considered. Mr. Stratton does not say that this is the best possible route that can be thought out, but it is the best that he can think of from all the information that he has been able to obtain and from his own knowledge of the township, but if anyone can improve on the route he would be glad to have the information, so that it can be looked into, and if the proposed service can be improved upon, so much the better.

Anyone interested and not able to follow the description, can see a map of the proposed route by calling at the Examiner Office.

SPRING ASSIZES.

The Spring Assizes will open at the Court House on Tuesday, April 18th. At present the outlook indicates that there will be a very light session. One criminal and one civil case are all that have been entered and the time for filing the cases ends to-day.

Deline, the man who, last fall, was accused of wife murder, will face the charge. The civil case being that of the Union Bank endeavoring to recover some money improperly given out by them. The jurors have been notified to report for jury duty on Tuesday, April 18th, at one o'clock.

LINDSAY MAN SUICIDES

Lindsay, April 11.—Thos. Kelly aged 77, an inmate of the County House of Refuge, ended his life in a lane at the rear of the institution by taking Paris green.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

AN ACT OF BRAVERY.

Editor Morning Times.

Sir,—Last Sunday a young boy by the name of O'Brine, son of Mr. John O'Brine, had a narrow escape from drowning, but a gentleman by the name of Mr. E. Page, of this city, happened to be passing by the scene of the would-be fatality, viz., above the dam at Wm. Hamilton's Foundry. Mr. Page saw the little boy floating down the stream and without hesitation he hurried and divested as much of his good clothing as he could and jumped into the cold water and rescued the boy. I think it is up to the Humane Society to present a medal to Mr. Page.

Citizen.

COL. J. R. STRATTON.

Editor Morning Times.

Sir,—Before Mr. Stratton is promoted from a full private to the responsible position of Colonel of the 57th Regiment, I would suggest that he be given command of the Corps for a field day, so that the people may see what he looks like in military dress, mounted on a charger. I would, however, take the precaution to see that the officers and men are not provided with ball cartridges for fear the Colonel might order a charge on the enemy—the Tories. It might be well, too, if he were fastened on the horse in some way, as I understand he is by far from being an expert horseman, never having been astride a horse in his life.

An Old Soldier.

THE LATE F. J. BELL.

Editor Morning Times.

Sir,—In Monday evening's Review I read a short account of the late Frank Bell, a man of sterling integrity and unflinching courage. He had his faults no doubt, as other people have, but there were few men of equal strength and solidity of character. As such he never stooped to meanness, and it is on this account that I wish to draw your attention as well as to the fact that whatever he may have done in his latter days in the way of changing his denomination when he was not so clear as he might have been, he was a strikingly firm adherent of the faith of his fathers all through his long and useful life. Whatever allegiance he gave to a church he gave to the Baptist Church, which he often spoke of to me as the church above all others of the most purely scriptural character. Thanking you.

An Old Friend.

CONGREGATION CONDEMNED CATHOLIC NE TEMERE DECREE

Collingwood, Ont., April 11.—One of the largest congregations that ever assembled in the building filled to overflowing the First Christian Church Sunday night, when the Rev. G. F. Asster delivered an address on "Rome and the Civil Law." The speaker referring to the publicity being given to the subject in the press, said:

"All honor to the Toronto News for its outspoken and courageous articles that have earned our appreciation and heartiest thanks." At the close of the service the following resolution was passed unanimously:

"Resolved, that this meeting of Collingwood residents expresses its condemnation of the Papal decree, ne temere, as an unwarrantable and insolvent interference with the civil laws that govern the marriage relations of British subjects. And that we view with loathing and indignation the conduct of Romish priests whose brutal disregard of the sacredness and privacy of the family relations, has broken up happy homes and severed wives from husbands and children from their parents."

HENRY MATTHEWS IS CONFIDENT OF AN ACQUITTAL

Cobourg, April 11.—Before Honorable Mr. Justice Clute at 11.30 this morning, Col. John Hughes, foreman of the grand jury, returned a true bill against Henry I. Matthews, charged with the murder of Johanna Brimacombe, in the Bristol Hotel at Colborne on the night of December 17th.

All the hotels in town are crowded to their utmost capacity and the greatest interest is being taken in the trial. The prisoner was brought into court at 20 minutes to twelve and immediately entered into a short consultation with his leading counsel, Mr. E. Gus Porter.

The charge was then read to the prisoner by Peter White, K.C., of Pembroke, the Crown prosecutor and Matthews answered "Not Guilty" in a firm voice. He appears much worn after his four months' confinement in Cobourg jail. The defence counsel are confident there will be an acquittal.

Early this morning when the jury had been sworn in, Crown Prosecutor Peter White, K.C., went over the story of the finding of the body of Johanna Brimacombe, whom Henry I. Matthews is charged with strangling in room 13 of the Bristol Hotel at Colborne on the night of December 17th last. The woman, who was about 43 years of age, a deaf mute acting as the cook of the hotel, was found by George M. Teasdale on the morning of Sunday, December 18th, lying on a bed in room 14, with her eyes protruding from her head and every indication that she had been choked to death in an ineffectual struggle.

Matthews had been drinking at the hotel on the afternoon and evening of the supposed murder and was seen coming down stairs with his clothes in a dishevelled condition shortly after muffled cries had been heard proceeding from the direction of the room where the deceased was found. Suspicion fastened on him as the man who had committed the crime.

OBITUARY

Samuel Newton Bell.

An old and respected citizen of the county passed away yesterday morning at Bridgenorth, in the person of Samuel Newton Bell, in the 87th year of his age. He had been a resident of Bridgenorth for the past eight years, and was held in the highest esteem by all who had the pleasure of his acquaintance. The family on the mother's side was related to Sir Isaac Newton.

He is survived by three daughters and one son, the latter being Nelson C. Bell, of Bridgenorth. The daughters are: Mrs. Sarah Jane Joy, of Maine, Mrs. Catharine Anne Allen of New Hampshire, and Mrs. Margaret Farman, of Lowell, Mass.

The funeral will take place to-morrow afternoon to the Bridgenorth cemetery.

Irwin Marks.

Irwin Marks, a former resident of Peterborough, passed away in Toronto on Monday last. Mr. Marks was for many years connected with the Wm. Hamilton Co., of this city, and was highly esteemed by all who knew him. About three years ago he removed to Toronto where he has since resided with his family. The remains will be brought to Peterborough to-day, the funeral taking place on the arrival of the C.P.R. noon train. It will be under the auspices of the C.O.F. Interment in the Little Lake cemetery.

DOG TAGS.

All Licenses Must Be Secured by May 1st.

Posters have been issued from the Times' Job rooms, setting forth the regulations in regards to dogs. The following is a scale:

One dog, $1.
Each additional dog, $2
One female, $3.
Each additional female, $5.

All licenses must be secured by May 1st, and if the by-law means anything, owners will avoid a whole lot of trouble by acting promptly. The dogs will also be safer with a tag attached after that date.

Big Leagues Open To-day.

The major league clubs had their final fling with the minors yesterday, and it will be a case of "play ball" on the big league fields to-day for the start of the regular playing season. To-day the Giants will clash with Philadelphia in the opening game at the Polo grounds. The Brooklyn and the New England League team in Bay State City clashed at Lawrence, Mass., yesterday, before the wind up of their exhibition series. The pre-seeded eastward and appear in Boston in the National League "curtain-raiser" with Fred Tenney's men to-day.

Chase's men of the American Leaguers will have their opening game with Washington on April 20. The Highlanders of New York will have their opening game with the world's champion athletics at Philadelphia to-day.

NOTICE
To Water Consumers

Water rates for the current quarter are now due, and must be paid at the City Treasurer's office, 131 Simcoe street, on or before the 15th day of April, to save the discount. Discount will not be allowed after the 15th inst.

F. ADAMS,
Waterworks Collector.
April 12th, 1911.

Rush to the West.

Winnipeg, Man., April 12.—The biggest rush of immigrants into the West that has ever taken place holds first place in the news notes of the West. Settlers are entering Canada through every western point of entry and when the figures of the year shall have been summed up, every record will have been broken. Figures, compiled with great care by the immigration officers in Winnipeg, show the daily average for four weeks to enter Winnipeg, to have been 1010. At Portal, the daily average has been 800, or more than 50,000 souls who have entered western Canada as settlers during the last four weeks.

Lame shoulder is nearly always due from rheumatism of the muscles, and quickly yields to the free application of Chamberlain's Liniment. For sale by all dealers.

WEDNESDAY, APRIL 12, 1911.

A MISCARRIAGE OF JUSTICE.

When a jury in a Canadian court of justice holds guiltless a self-confessed highwayman on the grounds that religious motives impelled the crime, and thus excuses it, as was done in Montreal a short time ago, it strikes me that it is not a far cry to burning heretics at the stake and then bowing to the applause of the multitude, says Saturday Night. If one may rob in the name of the church, why not murder. It is but a step.

The now celebrated Lemieux case will, among all Canadians who believe in the impartiality and uprightness of our courts, be heralded through the years as the biggest travesty on justice that this country had seen up to A. D. 1911. To the everlasting credit of the judge (Lavergne) before whom the case was tried, it may be said that he did what a man could do to persuade this jury of French-Canadians to bring in a verdict according to the evidence, pointing out that the very reputation of the Canadian people, and more particularly the French-Canadian, was at stake. But no! What were the criminal statutes of Canada in comparison to the churchly zeal of these jurymen? This man Lemieux had, by his own confession, knocked down and robbed a man on the streets of Montreal, but he had done so to obtain papers connected with the Emancipation Lodge of Free Masons. He had also taken the man's money by force, and at the point of a revolver, but all this counted as nothing in the eyes of the jurymen, for had this man Lemieux not committed the crime for the good of the church? This, at least, was the plea made by the prisoner's legal representative.

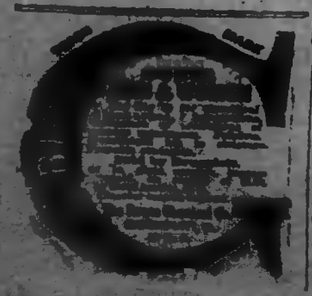
What led up to this trial is so well known that only a casual reference seems necessary. The trial grew out of charges in reference to Emancipation Lodge of Free Masons. It was alleged that the members of this lodge were plotting to discredit the Roman Catholic Church; that they intended to induce visiting priests into houses of ill-repute and otherwise stigmatize them and their calling. In an attempt to gather together his alleged proofs, A. J. Lemieux, in company with two others, held up on the streets, the secretary of the lodge, took from him at the point of a revolver, books and papers connected with the Order, and also what money he had in his pockets. It is alleged that this money was afterwards returned. An enquiry failed to establish a case against the members of the Emancipation Lodge, and the matter dropped so far as they were concerned. Lemieux was arrested, however, for highway robbery, which he acknowledged. His trial by jury brought out a plea from his attorney that Lemieux had robbed the man in "the interest of the church."

Judge Lavergne's charge to the jury in this case, a charge which they utterly ignored and disregarded, was worthy of the man, and of the better element of French-Canadians, who like his Lordship must believe that no church is superior to the laws of this land.

"What religion is meant?" asked his Lordship. "Is it yours? Was the religion to which you belong instituted and preached at the point of a pistol, or was it promulgated by men standing at the edge of a forest ready to take you by the throat? There are many religions here in Montreal, and I would wish all to understand that all men of good faith, to whatever creed they belong, have a right to the eternal kingdom. Christ did not preach His Gospel with a gun, but He asked us and showed us how to be charitable."

His Lordship then declared that no two honest men would hold the accused innocent in view of the proof which had been submitted against him. Religious considerations should bear no weight in the verdict, as all such considerations were utterly extraneous to the case. Such a verdict would, according to his Lordship, hold up French-Canada to the derision and ridicule, "not only of French-Canadians, but of the whole of Canada, who would think, and rightly too, that we are a band of fanatics. No, no, this doctrine is an Anarchical and a revolutionary one, and our people must not stand for it."

He then added: "If you are honest men you cannot but find the prisoner guilty."



REHEARSING FOR THE CORONATION HAS BEGUN

KING HIMSELF MUST LEARN HIS "PIECE" FOR THE GREAT EVENT.

Cost Nearly a Million—Great Festival of Empire at Crystal Palace Will be Wonderland of Attractions—Overseas Dominions Represented.

London, April 10.—With the final approval of the order of coronation service, which follows closely on traditional lines, the rehearsals of the ceremony have begun in Westminster Abbey.

To ensure smooth working of so elaborate and complicated a function necessitates the most careful and systematic training of all the scores of individuals who have duties to perform. Each person has to study his part as closely as an actor, and every section of the service has to be rehearsed again and again, until the whole splendid scene is perfected.

To the Duke of Norfolk as Earl Marshal falls the duty of stage managing the great spectacle. He has to school and train each participant in his role; he arranges and regulates all details of robes and dresses, and is reponsible for every item of ceremonial.

KING WILL REHEARSE.

There is one exception, in form at any rate, to the Earl Marshal's control. The principal figure in the whole scene, the Sovereign himself, is instructed and rehearsed by the Archbishop of Canterbury, assisted by Dean and Chapter of Westminster.

Meanwhile all those who have to take part in the ceremony are having the various duties alloted to them, and in a short time regular rehearsals will be begun and will continue in the abbey almost daily.

FESTIVAL OF EMPIRE.

The elaborate Festival of Empire and Pageant of London to be held at the Crystal Palace are nearly ready and there is no doubt now but that under the guidance of Mr. Herbert W. Matthews, the general manager, it will open in the early part of May. Six thousand workmen are busy completing the various buildings, of which there are more than 300. All the overseas dominions are represented by facsimile structures of their capitol buildings.

The Crystal Palace grounds are 260 acres in extent, and are beautifully laid out with lakes, lawns, trees, shrubbery, gardens and terraced hills. A better setting for such an exhibition could not be devised.

TOUR OF EMPIRE.

One mile and a half of electric railway has been built around the ground, and is known as the "all red route." By the aid of elaborate scenery a passenger on the "red route" makes an imagination tour of the British Empire and Dominions. Every available artist is now engaged on the three miles of scenery to be placed along the route. The rows of lamps to illuminate the "all red route" total 15 miles and 75,000 of 16 candle power with 500 arc lamps.

PRICE OF SEATS.

The cost of the Coronation to the State, according to a "white paper" just issued, is estimated at $925,000, which is just 1301,150 more than the cost of King Edward's Coronation nine years ago.

Prices for seats along the Coronation route are now announced, and are not so terrible as at first appeared from statements by property agents which appeared in the newspapers.

"The highest price we shall charge is," said the agent, "five guineas (about $20)."

SIX FISHERMEN ARE PROBABLY ALL DEAD

Charlottetown, P.E.I., April 10.—No farther tidings have been received of the six fishermen at the Magdalen Islands who rowed out from land to an ice floe to secure seals some days ago. It is supposed they perished.

THREE NEGROES WERE LYNCHED MOB TAKES THEM FROM JAIL

Ellaville, Ga., April 10.—Dawson Jordan, Charlie Pickett and Murray Burton, negroes, were lynched near here early to-day. They had been accused of the murder of Newton Eason, a white man, on January 2, and were held on a coroner's order.

The jailer was awakened by several men, who told him they had a prisoner to place in jail. He admitted them, and was immediately overpowered and forced to unlock the cells in which the negroes were.

They were taken to the outskirts of the town and hanged and shot.

ROME SHAKEN BY EARTH SHOCKS VATICAN BUILDINGS ARE SAFE

Rome, April 10.—A series of light earthquake shocks caused a panic throughout Rome to-day, and thousands of the inhabitants fled from their homes.

Great fears were felt for the mass of buildings at the Vatican, but a query there brought the statement that no damage had been done. The Pope was at early mass when the first shock occurred.

The damage was slight in Rome, but reports from the surrounding country indicated that considerable devastation had been wrought. Many American tourists here for the National Exposition, are making preparations to leave the city.

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep your bowels regular madam, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing but like many simple things, it may lead to serious consequences. Nature often needs little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. For sale by all dealers.

TENDERS FOR DREDGING.

SEALED TENDERS addressed to the undersigned and endorsed 'Tender for Dredging, Ontario,' will be received until Tuesday, April 25, 1911, at 4 p.m., for dredging required at the following places in the Province of Ontario:—

Big Creek, Big Island, Echo Bay, Kincardine, Port Elgin, Kingsville, Penetanguishene, River Thames, Salt Point (Presqu'Ile), and Wiarton.

Tenders will not be considered unless made on the forms supplied, and signed with the actual signatures of tenderers.

Combined specification and form of tender can be obtained on application to the Secretary, Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the work. Only dredges can be employed which are registered in Canada at the time of the filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

A separate cheque for each place for which a tender is submitted must accompany the tender. This cheque must be equal to five per cent (5 per cent) of the amount of the tender, based on the approximate quantities set opposite the name of the place, but in no case must the cheque be for a less sum than $1,500. The cheque must be accepted, on a chartered bank, and payable to the order of the Honourable the Minister of Public Works. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, April 3, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

ADVERTISE IN THE TIMES.

DEPARTMENT OF RAILWAYS AND CANALS.

Ontario—St. Lawrence Canals.
Cornwall Canal.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Improving Upper Entrance to Lock No. 19," will be received at this office until 16 o'clock on Saturday, April 15th.

Plans, specification and Form of Contract to be entered into can be seen on and after March 18th, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the resident Engineer on the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labour, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and the place of residence of each member of the firm.

An accepted bank cheque for the sum of $1,500.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, March 21st, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

DEPARTMENT OF RAILWAYS AND CANALS.

Ontario—St. Lawrence Canals.
Galops Canal.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Improving Upper Entrance to Lock, No. 28," will be received at this office until 16 o'clock on Friday, April 15th.

Plans, specification and Form of Contract to be entered into can be seen on and after March 18th, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of Tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labour, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $6,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, for the due fulfillment of the contract to be entered into.

Ottawa, March 21st, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

PARROT SAVES HOUSEHOLD.

Shrieks "Father, come Quick!" When Room Catches Fire.

A parrot saved a Chatham household from a terrible death in the early hours of a recent morning. All the inmates were asleep, when they were aroused by the bird shrieking "Father, come quick!"

It was then found that the house was full of smoke, and that a room downstairs was in flames. Some difficulty was experienced in removing a tenant named George Pett, who is partially paralysed, from one of the rooms, but everyone was brought safely out, and the flames were quickly extinguished by the fire brigade.

The cry of the bird which probably saved several lives, is one of several which it is fond of repeating.

When a person buys any other VACUUM CLEANER, they always express the hope that it will be as good as the "KING EDWARD". The name is Synonymous with BEST; and the article like the name stands out as the greatest "Peacemaker" in the home and the world at large.

A Sneezing Epidemic

It's Not Influenza—But Catarrh that Comes With Change of Season.

Every second person that you meet seems to have a steam and stuffed feeling in the forehead and nostrils. To cure promptly, say half an hour, there is nothing worth using except Catarrhozone. You inhale its balsamic vapor, and feel as if you were among the Norway Pines. This is because Catarrhozone contains a healing medicine, light as pine air, which is breathed straight into the lungs and bronchial tubes. Away goes the cold, sneezing and catarrhal cough cease, bronchial irritation stops; in short, you are cured of catarrh by a pleasant, simple remedy free from sedative and irritants. Catarrhozone is a good safe, family remedy for coughs, colds, croup, sore throat, that may be taken by young and old with absolute certainty of swift permanent cure. Try "Catarrhozone," but beware of the substitutor who may try to induce you to take something instead of "Catarrhozone." Large size lasts two months. Price $1.00. Smaller sizes 25c and 50c. Sold by all dealers, or The Catarrhozone Company, Kingston, Ont.

IMMIGRATION.

The Superintendent of Immigration has issued the following statement: "For the eleven months, April to February, of the current year, the number of immigrants who arrived in Canada was 271,392 as compared with 175,729 during the corresponding months of the last fiscal year. The gain therefore is 54 per cent. The number who arrived via ocean ports for the same period was 164,486, as against 89,241 for a like period of the last financial year, an increase of eighty-four per cent. From the United States for the same eleven months, there was 106,906 immigrant arrivals. During the corresponding eleven months of the last fiscal year there were 86,486, the gain from this source being twenty-four per cent."

LAME BACK

Just the Sort of Case That Proves to the World That the Best Liniment Ever Made is

NERVILINE.

When it comes to determining the real merit of a medicine, no weight of evidence is more convincing than the straightforward statement of some reliable and well-known person that has been cured. For this reason we print the verbatim statement of Juan E. Powell, written from his home in Carleton. "I am a strong, powerful man, six feet tall, and weigh nearly two hundred. I have been accustomed all my life to LETTER lift great weight, but NO. one day I overdid it, 4769. and wrenched my back badly. Every tendon and muscle was sore. To stoop or bend was agony. I had a whole bottle of Nerviline rubbed on in one day, and by night I was well again. I know of no liniment possessing one-half the penetration and pain-subduing properties of Nerviline. I urge its use strongly as an invaluable liniment and household cure for all minor ailments, such as strains, sprains, swellings, neuralgia, sciatica, lumbago, rheumatism, and muscular pain."

No better medicine for curing pain was ever put in a bottle than Nerviline—over one million bottles used every year—better try it yourself. 25c or five for $1. At all dealers or The Catarrhozone Company, Kingston, Ont.

Monthly Meeting of Board.

The regular monthly meeting of the Board of Directors of the Y.M.C.A. was held last night at 8.30. Important matters were discussed and after two hours work the meeting adjourned.

Ice Still Good.

The teams are still crossing on the ice over many of our inland lakes. Only in the rivers where the current is strong has the ice disappeared. Rice Lake is as firmly ice-bound at the present time as it was in January, as also is Chemong lake.

Known the World Over.

Mr. Geo. Paxman, of the Peterborough Poultry Association, yesterday sent a setting of eggs to Geneva, Ill. Mr. Paxman is known the world over as a poultry fancier and his prize birds are much sought after.

Meeting of Board of Health.

The City Board of Health met yesterday morning. The following members being present: Drs. McPherson, Burnham, and McNulty. The purpose of the meeting was to discuss the milk by-law, but no information of public interest was given.

"Honk! Honk!"

Peterborough's streets will soon be as lively as Cobourg's, as far as "honkers" are concerned. What do you think? Many Americans are already in the Lakeshore town, and have their autos with them.

Yesterday a Delightful Day.

Yesterday the weather was most delightful. The sun was warm and bright and everybody who could be out took advantage of the fine day to take a long walk. Many young men and women discarded their winter garments and appeared in spring attire. There was a chill in the air which was a reminder that the ice is still in the river.

Can't Blame Him.

Is it any wonder why married men are in bad humor at this time of the year? Not only does the dressmakers' bill come in with hobble skirt, harem skirt, etc., but also the milliner's bill of fare—$50 inverted market baskets, peach baskets, helmets, etc.

Meeting of Astronomical Society.

An interesting meeting was held by the Peterborough Centre of the Royal Astronomical Society in Physics room of the Collegiate Institute, Prof. Ritchie of California, gave a resume of a lecture which was followed by an illustrated lecture on the planet Jupiter. There was a fair attendance.

Extending Its Lines.

The Bell Telephone Co., with its usual energy, is extending its lines in every direction. The latest addition to the rural system is the line to Lakefield and through Harvey Township. On Saturday last Mr. J. S. Knapman, special agent of the company, met the Harvey Council and made the necessary arrangements for connecting the Lakehurst Municipal Telephone Co. with the Bell Telephone Co's. long distance system. The Lakehurst Municipal Telephone Co., will be in operation inside of the next two months.

Correspondents Wanted.

The Times is in need of a correspondent at Warsaw, Lakefield and Keene. Applicants kindly write in care of the Managing Editor of this paper.

Ice Cream Season.

It is now the ice cream season, though snow still be on the ground, the local restaurant owners have signs in their windows stating that they have ice cream for sale.

Card of Thanks.

Ald. and Mrs. Metheral wish to express their sincere thanks to the very many people who showed their kindness during the illness of their son, William J. Metheral, and in connection with his funeral and to those who sent so many and so beautiful floral tributes.

Close Season for Lunge.

The close season for lunge and bass, viz., the 15th of April, will soon be here, and as weather conditions apparently are not favorable before that date, the ardent disciples of Izaak Walton will have to be content and await the opening on June 16th.

Many New Towns.

Two hundred and eighty new towns will be put on the map of western Canada this year. The Grand Trunk Pacific will put on 135, the Canadian Northern 96, and the Canadian Pacific 50. Most of these towns will be located on the raw prairie and will have everything on the road to greatness before them.

Peterborough Amusement Co.

The Peterborough Amusement Company, has placed a number of men at work constructing the floor for the vaudeville entertainments which will be offered during the summer months in a huge tent on the vacant lot near Comstock's furniture warerooms, on George street. The tent will be furnished with theatre seats elevated in the usual manner.

Anominous Communications.

We are constantly in receipt of letters that do not bear the signature of the writers. These letters are, as a rule, immediately consigned to our waste paper basket. We require the names of the bonitide writers, not necessarily for publication, but as a guarantee of good faith.

Pleasure Club.

The officers and members of the Pleasure Club of St. Peter's T.A.S. had a meeting last evening and final arrangements were made for the At-Home to be held on Easter Monday evening. A good programme is promised and a very enjoyable evening is expected.

57th Regiment on Parade.

The officers and members of the 57th Regiment had a good turnout for the first street parade of the season. The 57th Regimental Band and the Bugle Band were in attendance. It was an enjoyable sight to see. The parade began at the Armouries and proceeded along Murray street to George and down George to King and over King to Water and up Water to Murray, and over Murray to the Armouries again where they had drill. There was a large attendance and the new recruits made a good showing.

"Cadets, Attention!"

An item in the Montreal Herald states that Canadian Cadet Corps will be represented at the coming "Boys' Bisley," on May 24, in England, by eight senior and twelve junior cadets, selected from the different organized corps throughout Canada. All transportation charges and expense while in England will be paid. Of course it necessitates a good shot, but there is no reason why our own cadets could not be represented, if they would put in some good practice.

Col. J. R. Stratton.

Our Hunter street contemporary says that a rumor prevails on the street to the effect that Hon. J. R. Stratton is to be offered the complimentary position of honorary Colonel of the 57th Regiment, Peterborough Rangers. This honor is not undeserved, for Mr. Stratton has been largely instrumental in having the splendid armouries which now adorn the city, erected here. This great family journal, however, trembles for the fate of the Editor of the Review should he, for any reason, be brought before the military authorities and court martialed. This g.f.j. hopes he may escape a fate so fearful, although the chances are not in favor of such good luck.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except of prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Sold by Druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.

LITTLE LOCAL LINES

The bogus five dollar bills of the Bank of Montreal which have been circulated in Peterborough are a poor imitation of the real thing.

The local fire brigade had an early call yesterday morning to the chimney fire at Mr. John Hill's residence, 496 Cambridge-street. No damage was done.

The regular monthly meeting of the board of managers of St. Paul's church took place last night in the Dominion Bank Chambers, when business of importance was transacted.

Another of the semi weekly meetings of the sewing society in connection with St. Vincent's Orphanage was held yesterday afternoon in St. Alphonsus Lyceum, Simcoe street. There was a large attendance and a great amount of work was accomplished.

The farmers of this neighborhood are partially satisfied with the weather and say that if it continues like it has the past few days, seeding will be commenced right off.

The official season for baseball opens this week and we naturally look for cold weather.

A butterfly was seen by Mr. J. A. Sharpe on Homewood avenue this morning. Mr. Sharpe said it was a very pretty butterfly and has it at his home. This is a good sign of Spring.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mr. R. R. Hall, and Mrs. Hall left on Monday for a fortnight's vacation in the Bermudas.

Mrs. A. McDougall, of Toronto, is visiting her friend, Mrs. R. D. Dickson, 516 Bolivar street.

Miss Ruby Beaton left yesterday morning for New York, being called away very unexpectedly.

Thos. Sproat, of the Bell Telephone Company, with a number of men, went to Norwood yesterday to install fifty rural phones.

Mr. Carl Quinn, who has been working in the vicinity of Norwood lately, was attacked by gangrene and was compelled to have the large toe of one foot amputated.

Mr. and Mrs. Benjamin Shortly and Master Douglas, leave to-day for a ten days' stay in New York City, where they will be the guests of Mr. and Mrs. J. E. Kavanagh.

Rev. H. J. Keith, pastor of Knox church, leaves Monday morning to give a number of travel talks in connection with Foreign Missions in Owen Sound, Wiarton and other points.

Miss Jean A. Jackson, teacher, at King Edward School, went to Cobourg yesterday for the Easter vacation.

Miss B. Clark of Lindsay, will spend some time in the city visiting friends.

General Wm. Booth, the head of the Salvation Army, celebrated his 82nd birthday on Monday last. He is certainly to be congratulated on the success he has attained in connection with his great life work—the Salvation Army.

Messrs. A. M. Watson and N. Lobin were in Lindsay on Monday last on business.

Mrs. Howard Hopwood and her mother Mrs. Ostrom, leave this morning for Cobalt, where Mr. Hopwood has secured an important position, and where they will reside in future.

HALL'S BRIDGE.

Winter is still with us, accompanied by February weather.

Mr. Geo. Harrison's little son Martin, is at present very ill. Chances for recovery are poor.

Mr. Steve Nichols' little girl is very ill with pneumonia and bronchitis. We hope for a recovery soon.

Council met on Saturday, with a large number in attendance.

Mrs. Eastwood and Mrs. Fulton were the guests of Mrs. Harry Pearson on Wednesday.

Mrs. Steve Nichols and Mrs. Pete Nichols were the guests of Mrs. Steve Nichols, Jr., on Friday.

Miss Muriel Jones was in Lakefield on Wednesday.

Mr. R. Shaw passed through on Friday from Peterboro.

Messrs. Clarkson of Lakehurst and H. Chase of Vancouver, spent Wednesday in Buckhorn.

Mr. and Mrs. Wilbert Elliott of Lakehurst spent Sunday with Mrs. Thos. Fulton.

Miss V. Harriss and Joshie Northey spent Sunday evening in Buckhorn

Mr. W. Watson of Lakefield is at present the guest of her mother, Mrs. Herkimore.

In the case of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale by all dealers.

Big Profits in Oil

Guaranty Oil Company

INCORPORATED UNDER THE LAWS OF CALIFORNIA.

CAPITAL STOCK, 3,000,000 SHARES. PAR. $1

ALL TREAURY STOCK.

The Company is ably officered and carefully managed, by men who have life-long and successful business records to their credit.

The Company has placed a limited amount of its stock on the market at 60c per share. There is every reason to believe that the price will rapidly advance in the immediate future, so that now is the time to invest, and get in on the ground floor.

LOS ANGELES, CALIFORNIA

FIRE!

Nothing so much dreaded by the Farmer.

A Telephone message rallies the whole neighborhood and even the Fire Brigade from the nearest town to the danger point and the farm buildings are saved.

Minutes at the beginning of a fire are worth hours after the fire gets headway.

The Bell Service saves those minutes.

It is an effective rural fire alarm system and the best possible protection against loss.

It more than pays for itself in the protection it gives.

Are you risking your farm property without the Bell system? If so, call and see our local manager when in town.

Peterborough Exchange, 1375 Subscribers including 145 on Rural Lines.

Every Farmer needs Telephone Service in his business.

Favorable Rates and a large Exchange Service make the Company's proposition attractive.

If you are interested, ask the Company's Local Manager for particulars, or write

THE BELL TELEPHONE COMPANY OF CANADA,

MONTREAL.

HENRY MATTHEWS FACES CHARGE OF MURDER

MAN ACCUSED OF KILLING JOSEPHINE BRIMACOMBE AT COLBORNE PLACED ON TRIAL.

Wanted to Fix Witnesses—Suggested, says Hotelkeeper, That Man Might Be Persuaded to Say Nothing.

Cobourg, April 12.—Large crowds attended the first day of the trial of Henry I. Matthews, Jr., on the charge of murdering Josephine Brimacombe, who was found dead in the Bristol Hotel, Colborne, last December. The first witness was Don Hayes, bartender at the Bristol Hotel. He told of Matthew's unwillingness to give evidence at the inquest and his desire that he should not have to appear at all.

Mr. Teasdale testified as to the finding of the body of Miss Brimacombe on the morning of December 17. He and his wife slept in a room across the hall. When he arose that morning about 8 o'clock, he said, he had to open the door of the room in which the body was lying on a bed. He feared that it was his wife, and ran back to his room, where she was. He did not identify the body. He had never seen Miss Brimacombe take a drink. His version of the conversation with the prisoner Matthews, on the Monday following the commission of the crime was that the accused had said that the old man in the stable had been the last to see him with the girl, and that witness might get the old man to keep his mouth shut.

Asked why he had opened the door of the room where the girl's body lay on the morning after the murder, witness said that he did so because the hall was lighted from that room.

Mr. Porter read from the deposition of Mr. Teasdale at the inquest, stating: "I cannot tell you why I went in and tried the door."

"That was a pretty serious answer at that time, was it not, and you thought since that you should have a reason?" was the next query.

"No, not at all," answered the witness.

NOT HUNTING FOR BLOOD.

Mr. Teasdale denied a statement made by a witness at the inquest that he, Mrs. Teasdale and Rev. McDonald had been up in the top flat of the hotel of the hotel in the room of Miss Brimacombe on Sunday Morning after the murder, and that he had used the expression: "There is some blood on the floor." He was not hunting to see whether there was blood.

Mr. Teasdale said that he lay down in his room on December 17 at 6 o'clock, on the bed beside his wife, and he slept till about 8 o'clock. He was wakened by a noise in the dining room, but went to sleep a few minutes later.

After the discovery of the body of Miss Brimacombe Mr. Teasdale went down into the kitchen and found the key of the room of the murdered girl in the cupboard. He opened her room and found that the bed was not made up.

"Miss Brimacombe," said Teasdale, "was a good girl. She had a smile for any person who went through the kitchen. She liked men, but only in a proper way."

Constable W. H. Smith, Colborne, put in as exhibits blue prints of the Bristol Hotel and its rooms, and the clothing of the murdered girl.

IF I WERE MAYOR
What I Would Do

Under the above caption The Times invites correspondence. The letters will appear in the Saturday edition only and must deal with local matters, and not political questions. In this way, suggestions in regard to local affairs will be in order, and we are sure will be taken in good part by Mayor Morrow and the members of his Council.

CHEESE AND BUTTER MEN IN COUNCIL

Annual Meeting of the Cheese and Butter Makers' Association.

The annual meeting of the Cheese and Butter Makers' Association took place yesterday in the Council Chambers. The following were present, Messrs. J. P. Flood, J. P. Andress, R. A. Peters, John Riddell, H. C. Duff, B.S.A., A. H. Campbell, A. Abbott, B. Bell, J. J. Hogan, E. Stephens, L. A. Southworth, G. Wright, G. Best, D. A. Oakley and A. L. Andress. Addresses were given by Instructor Cameron, Instructor Ward, Mr. G. A. Gillespie and Mr. T. A. Zrifelt, Superintendent of the Kingston Dairy School.

The election of Officers resulted as follows:

President—J. P. Flood, Ennismore.
Vice-President E. Stephens, South Dummer.
Secretary-Treas.—A. L. Andress, Indian River.
Asst. Secretary—L. A. Southworth, Omemee.

CLOSING OUT SALE.

Closing out sale of China Hall by public auction, commencing Saturday April 15, at 2.30 p.m. Entire stock must be sold out without reserve or limit.

HIS MOTTO

"Cast Your Bread Upon the Waters and It Will Return to You as Cake."

THE RECIPROCITY FIGHT IS ON IN EARNEST

Special to The Times.

Ottawa, April 13.—The statement contained in a section of the press that the Conservative members of the Commons were willing that the Government should delay further consideration of the reciprocity agreement until the next session of parliament, is very much resented by the party.

Mr. R. L. Borden, the Opposition leader, when asked by a representative of The Times if there was any truth in the statement that the Conservatives had come to an agreement with the Government to remove the agreement from the debates for the present, replied that there was nothing in the statement. "We shall fight this thing to a finish," he said, "even if it takes all summer."

GOVERNMENT WILL PROVIDE LIFE PENSIONS FOR THE CLERGY

New York, April 13.—A special cable from Lisbon, says: It is stated that all the Bishops of Portugal, having received instructions from the Pope to accept the separation of the Church and State, have notified the provisional Government of their acceptance of the new situation, in view of the Government stipulating life pensions for all the clergy according to the positions they held.

The deadlock with the Holy See, which was feared, has now, it is considered, been averted. The friendly attitude of the clergy has caused general satisfaction.

TWO HOLIDAYS DECLARED IN JUNE.

King's Birthday and Coronation Day —King George's Prerogative.

June 3rd, the birthday of his Majesty King George V, and June 22, Coronation day, will be proclaimed as statutory or legal holidays in Canada. Some time ago his Majesty instructed through the Colonial Office that he would prefer to have his birthday celebrated on the actual anniversary to preserve uniformity and to accustom the people to keep it according to the precedent set by the late Sovereign King Edward, whose birthday was officially celebrated on Victoria Day, instead of on November 9th. Good Friday, Easter Monday, Victoria Day, and Dominion Day are now statutory holidays, and with June 3rd added as a fixed holiday from now on and Coronation Day made an extra holiday this year, the Dominion will be well served with public holidays during the coming eleven weeks.

OBITUARY.

There passed away at the Isolation Hospital yesterday at 12.30 a.m., Maida Irene, the four year old daughter of Mr. and Mrs. Richard Fairbain, of the fourth line of Smith, near Fowler's Corners. The little one was stricken with scariet fever and underwent an operation from trouble arising from the after affects of this dread disease. She was doing nicely and was thought to be recovering, when a growth developed behind the ear, which had to be removed. In her weakened condition the shock proved too much for her.

The Times joins in extending its heartfelt sympathy to Mr. and Mrs. Fairbain in their loss.

The funeral has been arranged to take place this afternoon at two o'clock from the Isolation Hospital to Lakefield cemetery.

SIEMONS COMPANY'S MILL TO START

Sale of Sufficient Stock Now Is Assured.

The Times is advised on good authority that the Siemons Company, Limited, which recently took over the saw mill business in Lakefield, heretofore conducted by Messrs. Lillicrap and Tate, have succeeded in listing sufficient capital for the purpose of carrying out their extensive program. This will mean that the saw mill will be enlarged and greatly improved. It is understood that the company intend to manufacture other lines besides lumber, including hardwood flooring of all kinds, box-making, etc.

In another column will be found some particulars regarding the re-opening of the Cement Companies mill. These two industries will mean a whole lot to Lakefield. Already the people are exceedingly optimistic and are looking forward to large trade development

INTERMEDIATES PRACTICING HARD.

Last night the intermediates put in a rattling good practice. Everyone worked hard and they will certainly put up a good argument with the West End champions.

Great interest is being taken in the game and there is every possibility of a bumper house. The following is the local intermediate line-up:—

Forwards Hastie, Nicholls.
Centre—Wallace.
Defence Hanwell, Fitzgerald.

The West Enders will line up as follows:

Forward—Aldred and Garrett.
Centre—Witheridge.
Defence—Moriarity and Montgomery.

PRESENTATION TO MRS. LANGFELDT

Address of Appreciation and Signet Ring From Girls Auxiliary.

Mrs. (Dr.) Langfeldt was on Tuesday evening last presented with a beautiful signet ring accompanied by an address, by the members of the St. Luke's Girls' Auxiliary.

The presentation took place at the residence of the president, Mrs. W. Lang, Mark street. After the presentation dainty refreshments were served.

Mrs. Langfeldt in a few well-chosen words thanked those present for their kindness and assured them that she would ever remember with gratitude their thoughtfulness.

EDWARD JARDINE ON TRIAL FOR HIS LIFE

Goderich, April 12.—When the case of the King against Edward Jardine, charged with the murder of Lizzie Anderson last September, was resumed this afternoon, the dead girl's father returned to the stand, and his examination by Mr. Dancey, for the defence, was continued. The lawyer was very sharp with the witness but the old man stuck well to the direct testimony.

The witness stoutly denied that he had told anyone, as the lawyers intimated, that the body of his girl would be found in that part of the town.

"Did you know the body was there before it was found on Sunday?" thundered the lawyer, after asking him in great detail where and when he searched for the child.

"No, sir," the father said, with great emphasis. "I never saw her alive or dead from Tuesday morning until Sunday."

Mr. Dancey questioned Mr. Anderson about the Italian boarder, Spataro, of whom the father had said he was a "perfect little gentleman." He asked Anderson if he had not tried to shield Spataro at the inquest, and the witness replying in the negative he continued:

NEVER SAW KNIFE.

"Did he ever have a knife?"

"I never saw him with it," replied Anderson.

The witness very warmly repudiated a remark he is alleged to have made to Constable Scott McMath about knowing more than the detectives knew, and more than he ever told them.

The lawyer sprang another little bomb when he asked this question:

"Did you tell the constable that if he ever came down to arrest you he need not put the handcuffs on you, your would go without?"

"No, sir," said the father with heat.

Willie Anderson, 15 years old, the deceased girl's brother, told of seeing her on the day of the fair. Mr. Dancey objected to the admission of alleged conversations the witness had with his sister relative to her going home, and Chief Justice Falconbridge ruled in his favor. Mr. Blackstock then had the witness tell of his going home alone and the time he reached the house. He swore he saw Spataro go upstairs a few minutes after he (Anderson) came in.

The lad was questioned by the defendent's lawyer as to what efforts he made to find his sister Lizzie before leaving the grounds for home.

"Strange you couldn't find her," observed Mr. Dancey, "when she was seen by an independent witness near the grand stand at twenty minutes to ten."

The boy showed a tendency to get rattled, but his story was not materially shaken.

The three Crown witnesses, father, mother and son, told what appeared to be a remarkably straight story of what occurred on the night and subsequent to the tragedy.

COLLEGIATE INSTITUTE EASTER EXAMINATIONS

Standing of the Pupils in the Junior Matriculation Forms.

Following are the results of the Easter examinations at the Collegiate institute.

Junior Matriculation Form—The requirements for passing the Junior Matriculation examination in 1911 are as follows: Full matriculation, 40 per cent. on each paper, and 50 per cent. on the total; partial matriculation, 50 per cent. on the total, and 40 per cent. in at least 8 of the 11 papers—

Name.	per cent
1—M. Huycke	77
2—H. Eastwood	74
3—V. Craig	73
4—H. Moffat	66
5—C. Ray	57
Partial Matriculation—	
6—C. Armstrong	59
7—W. Hatrick	58
8—H. Armstrong	54
9—P. Denne	52
10—R. Dixon	51
11—H. Stock	50
13—W. Stewart	50
12—E. Langford	50
Failed in one or more papers—	
14—G. Matthews	49
15—L. Marsh	49
16—R. Laing	48
17—R. Montgomery	46
18—H. Leahy	45
19—V. Henry	44
20—M. Wood	43
21—W. Armstrong	42
22—W. Harstone	40
23—L. Brunwell	37
24—Jack Harstone	37
Not ranked—G. Sullivan, J. Hill, M. Grady, S. Sheehy.	

Form 3C—

Requirements for passing—40 per cent. on each paper and 60 per cent. on the total:

Name.	per cent
1—J. Browett	68
2—L. Park	63
4—A. Gilbert	61
Failed on one or more papers—	
4—D. Carlisle	61
5—M. Carlisle	61
6—D. Conroy	60
Failed on the total and in one or more papers—	
7—A. Curtis	50
8—S. Johnston	59
9—M. Grady	56
10—E. Mowat	56
11—M. Patterson	55
12—M. Dundas	55
13—K. Connor	53
14—V. Hayes	52
15—L. Lowry	52
16—B. Record	51
17—C. Fusee	51
18—D. Huycke	48
19—B. Gillespie	47
20—C. Bartlett	45
21—K. Cunningham	44
22—H. Hill	43
23—O. Myers	40
24—A. Hill	39

Reports of the lower school examinations will not be published until after the Easter vacation.

LAKEFIELD CEMENT COMPANY TO START THEIR WORKS

The general manager of the Canada Cement Company was in Lakefield on Monday and made application to the village council for a fixed assessment of $15,000, (plus business tax) for a term of ten years on the company's plant in Lakefield. A condition is that the company will manufacture not less than 400 barrels of cement per day. There is no question but that this will be confirmed when submitted to the ratepayers, so that the wheels will be going round again very shortly. Mr. Butchard, the manager is already engaging men. This will be good news, not only to the people of Lakefield, but also the surrounding country.

EXCOMMUNICATION IS THREATENED BY BISHOP

Joliette, Que., April 12. Much comment has been caused here by the announcement of Bishop Archambault giving formal notice to the faithful that he would publicly excommunicate all who were known to belong to any secret organization condemned by the Church. He added that at the expiration of fifteen days he would take action, and would not be deterred therefrom even by threats of imprisonment or other punishment.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents

AN AUTO CLUB.

Editor Morning Times.

Sir, There is now, I believe, in the neighborhood of about sixty auto mobiles in Peterborough and I would suggest the formation of an Auto Club that would have for its object the creation of better roads, especially in the country districts. Last year considerable harm was done to automobiles by persons who deliberately placed obstructions across highways. These, generally were in the shape of rails of fences, etc., and were generally not observed until the auto smashed into them.

An association would be in a position to offer rewards for the apprehension and prosecution of parties guilty of such conduct. When it is known that they are being watched, offenders will be more careful and will no doubt desist from their nefarious work.

Tach.

MERCHANTS' PROTECTION ASSOCIATION.

Editor Morning Times.

Sir, Would you kindly let me know through the columns of the Times, if the Merchants' Protective Association is still in existence, and who its officers are. My object in making this enquiry is to suggest to the Association (if it still exists) that it follow the example of the Brantford Association. The association there have just re-appointed their collector for the members. Last year he collected $2,201 from delinquent customers. A blacklist was also drawn up to prevent deadbeats from opening up accounts with new merchants after flim-flamming others.

Something like this should be done in Peterborough for the protection of our business community.

Merchant.

COL. STRATTON IN KILTS.

Editor Morning Times.

Sir, The proposal to make Mr. Stratton a Colonel of the 57th Regiment, is I think, a little bit premature, as I understand an effort is likely soon to be made to form a regiment of Highlanders in Peterborough. If this is true, would it not be well to hold back the promotion of Mr. Stratton to the Colonelcy of the 57th, so that he may get the same job with the Kilties? I am sure he would enjoy the freedom that the kilt affords as compared with the starched up tunic of the regular infantry line. I can imagine no more beautiful picture than our popular member hopping around in kilts, as he marches and counter-marches at the head of his veterans.

Highlander.

General Booth Coming.

London, April 11. General Booth, head of the Salvation Army, celebrated his 82nd birthday last night by addressing a huge meeting of his followers for an hour. He said he hoped, after his coming tour through the United States and Canada, to have a cataract operated upon in the fall and that he would then be young again.

Broken promises never make a pretty mosiac for the foundation of character.

NOTICE
To Water Consumers

Water rates for the current quarter are now due, and must be paid at the City Treasurer's office, 131 Simcoe street, on or before the 15th day of April, to save the discount. Discount will not be allowed after the 15th inst.

F. ADAMS,
Waterworks Collector.
April 12th, 1911.

THE SITE FOR THE NEW PROTESTANT HOME

Members of the City Council and the Protestant Home Board met on the Old Hilliard farm (now City property) at the city's northern limits yesterday afternoon at 3.30 with a view to selecting a site on which to erect a new home for Protestant paupers. A piece of land on this property at the head of Anson and Hilliard streets was picked upon as offering a suitable location, but no definite conclusion was reached. The site looked at will have to be referred to the respective bodies concerned for approval.

The Best Cooks

CLEVELAND BAKING POWDER CO., NEW YORK

WARSAW FARMERS' CLUB.

Regular Monthly Meeting Held on Tuesday Last.

The regular monthly meeting of the Warsaw Farmers' Club was held in the town hall on Tuesday night with president E. Hawthorne in the chair.

The subject for the discussion was "Cow Testing," and addresses were given on this subject by Mr. Andrew Crowe and Mr. A. L. Andress who has charge of the cow testing in the Peterborough District. After this many discussions on the subject took place. A number of the members expressed their wish to give the testing of their herds a trial this year.

The meeting adjourned to meet again on the second Tuesday of May.

THE LATEST THINGS

ROYAL

TWO SPECIAL ACTS

HARDY AND LEWIS
Singing and Dancing Act
SINGING—WHISTLING—DANCING

MUSICAL SEELEY
In a
NOVELTY ELECTRICAL MUSICAL ACT

These are two acts of both high class and refined vaudeville which should please all patrons of good, clean popular amusements. Musical Seeley presents one of the best musical acts ever seen at the Royal, and Hardy and Lewis in whistling, singing and dancing have few if any equals.

MOTION PICTURES.

Complete change of motion pictures for to-night's big picture show including Pathe Freres' Weekly Gazette on film of the chief events happening in Europe recently. The Gazette is a magnificent film which all should see. Do not miss seeing to-night, the great Biograph comedy, "Teaching Dad to Like Her," and Essanay's great comedy, "Lost a Baby," and others.

To-morrow—Complete change of vaudeville by new performers. Two special acts, a Comedy Musical and a singing and Dancing Act.

ADMISSION.

Peterborough, Ontario.

GENUINE PATRIOTISM.

The Hon. Dr. Findlay, a member of the New Zealand Government, speaks with refreshing enthusiasm of New Zealand ideals and policies. His Island is a little place not to be compared with Canada in its size or with China in population. But in the real thing of life, he says in an interview with Mr. J. A. Macdonald, editor of the Globe, he is not afraid of comparison with any other country. "We have 66,000,000 acres and one million people, and our purpose is to make each of these acres yield the utmost of good for the people, and to secure to each of those people the freest possible access to all the opportunities which life in New Zealand affords."

By access to opportunities he means access to the land, to education, to wholesome conditions of labor and just rewards, to justice for rich and poor alike, to capital at moderate rates of interest, to railways, telegraphs, telephones, and other public services. He is proud of his country, not for its size and wealth, but for the justice which makes life worth living for all the citizens of New Zealand.

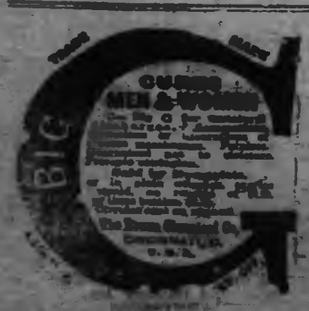
Dr. Findlay goes to London to take part in the conference of colonial Premiers. He has the right idea of patriotism, and we may assume that he has the right idea of Imperialism. The British Empire is worth maintaining, not because it has eleven and a half million square miles and four hundred million people, but because it allows of the rise and development of New Zealand—of self-governing communities, eagerly striving to make the Government serve the highest interests of the people. The force and the magnitude of the British Empire, its fleets and armies, are available because they guard each British commonwealth and leave it free to pursue the march of civilization and justice.

The proposal to abolish war between Great Britain and the United States is important for the same reason. Peace alone, as a mere negative thing, has little power to arouse enthusiasm. It must be considered on its constructive side, as a means of enabling the British Empire and the United States to pursue such ideals as those of New Zealand, with the shadow and danger of war removed, so far as these two great nations can remove them. It is doubtless true that even if international war were abolished, other wars would still be waged; some ignoble, prompted by greed; some noble, against disease and vice, ignorance, and poverty. All the more reason for abolishing international war. With this danger removed, there would be energy to spare, a concentration of effort upon other evils. And in some respects New Zealand may be leading the way for all of us. There is a patriotism that fights; and there is a patriotism that makes a country worth fighting for.—Toronto News.

An Earthquake Recorded.

Cleveland, O., April 12.—The seismograph at St. Ignatius College Observatory to-day showed the record of an earthquake that occurred yesterday, the tremors continuing for more than an hour.

The first shock was felt at 12.46 p.m., and the final at 1.56. It is estimated that the centre of the earthquake was 2,000 or 3,000 miles distant.



SMASHED STATUETTE

Artist Disgusted—Paintings Have Also Been Destroyed

A celebrated French sculptor invited a number of his friends to come one Sunday and see a statuette which he had just completed, and which he himself announced to be the most perfect thing in the world. His comrades in art, anxious to see such a wonderful production, came in a crowd and examined the beautiful piece of sculpture with admiration. At length, however, one of them exclaimed, "I say! I thought you said this statuette was perfect, yet there are only four toes on the left foot!" It was perfectly true. Yet the missing toe, from the peculiar position of the foot, had entirely escaped the notice, not only of the artist, but all his friendly critics. So disgusted was the artist with this amazing discovery that he raised his mallet above his head and, before he could be stopped by his friends, smashed the beautiful statuette to fragments.

London has been talking lately about the pictures at the Grafton Gallery by the School of French painters who call themselves Post-Impressionists. These men go considerably farther in their contempt for all art conventions that the Impressionists who preceded them, and of whom Claude Monet was the great leader. But Monet was by no means a slap-dash painter, and even when he had won his way, not only into the Salon but into the Louvre, and when his pictures were going up in price by leaps and bounds, he voluntarily and deliberately destroyed $20,000 worth, because he did not consider them worthy of him or likely in the future to enhance his reputation.

Rejected by the Academy

There was no more patient, painstaking, or conscientious painter ever lived in the world than Holman Hunt. He thought nothing of spending years over one canvas, and of travelling thousands of miles for his local color. He fixed up his easel on the arid shores of the Red Sea in order to paint "The Scapegoat," and he travelled through all the cities and villages of Palestine to find a suitable model for his "Shadow of Death," and, after spending seven years on his great picture, "The Triumph of the Innocents," he calmly set to work to paint it all over again.

It was no unusual thing with Millais, if he did not get the exact effect he wanted, to destroy, by a few strokes of his brush, the result of weeks of hard work, and many an artist whose picture, upon which much loving care had been spent, has been rejected by the Royal Academy has destroyed it upon its return to the studio. Even a famous artist who became an R.A. did this very thing. He says: "When my 'Hamlet and Ophelia' was rejected by the Academy, I was so disgusted with it that I tore it into strips and watched it disappear in the flames." The artist who thus used his picture so badly was Mr. Briton Riviere.

COMMERCIAL SLANG

Some Odd Expressions Used in Great Britain to Describe Salesmen

Many persons are unaware that there is quite an undeveloped mine of slang in the world of commercial travellers in the Old Country, who, by the way, are generally referred to as "knights of the road," or "highwaymen." For instance, the gentleman who travels in high-class jewellery is dubbed a "Black Maria man," while the cheap jewellery man is a "brass bounder."

Continental travellers are "Channel rats," tea travellers are "leaf and lead men," and the cocoa commercials are designated "sediment sellers." The representative of a soap firm is a "bubbler," whilst the man who takes orders for candles is said to be a "will-o'-the-wisper."

The traveller in educational books is playfully spoken of as a "kid-killer," in drugs a "shake-the-bottle man"; the itinerant vender of stationery is a "cream-laid cruiser," of oil a "fat-forcer," and a coffee traveller is a "mahogany converter."

A FINE MUSICAL COLLECTION

An interesting character in the musical world has just passed away in the person of Dr. Henry Watson, well known in the North of England as a lecturer on musical history and instruments. The son of a factory worker, Dr. Watson, at the age of nine, received a present of a dulcimer, and quickly taught himself to play some 300 tunes. Obtaining a few piano lessons when eleven years of age, he soon became known as an accompanist, and at local fairs and functions earned $1.50 a night by playing solos in public-houses. Then he secured a situation as an errand boy in a Blackburn music-shop, and ultimately became a partner in a music business in Manchester. During his life he collected 30,000 volumes of musical literature and 300 different instruments, which he presented to the Manchester Corporation.

"HINTS TO ETON PARENTS"

A beautiful, witty woman, and very clever with her pen, Lady Desborough, one of the Ladies of the Bedchamber of Queen Mary, wrote a very amusing article a short time ago, entitled "Hints to Eton Parents," which appeared in a little paper published at the school. In this article she advised parents, when introduced to their boys' friends, "not to be sprightly, knowing, hearty, youthful, slangy, arch, sportive or witty. Humility," said her ladyship, "is the only wear for parents. Apologise for your existence, and explain as far as you can." The popularity of Lady Desborough in society may be gathered from the fact that her numerous friends call her "that divine being." Her husband, Lord Desborough, is the "Admirable Crichton" of sport.

To clear and tone up the system rhubarb pills and small doses of quinine are safe and effective.

WHEN GREEK MEETS GREEK.

A German Jew who keeps a pawnbroker's shop in Sydney is in the habit of leaving his daughter in charge while he attends sales to pick up bargains. A Chinaman came in one day to buy a watch. The girl placed four on the counter, and, while her back was turned, John changed the places of the highest and lowest priced watches. He then said he would take the cheapest one, for which he paid and departed. It was not until he was clear away that she discovered the fraud, about which, on her father's return, she told him with many tears. "Never mind, never mind, miss tear," he said. "dose watches was all de same price. But vot a scoundrel dot Shinaman must be, don'd he?"

To Hoarse to Speak

An American Doctor Tells of the Grand Results Achieved With "Nerviline."

"I had a patient with Quinsy that I found great difficulty in curing," states Dr. Wilson. "Every time he caught cold or got chilled he suffered intensely from sore throat, huskiness, throat and chest soreness. After every attack his throat and chest seemed more sensitive. This patient lived in the country, and couldn't come to the city for treatment. I concluded that the best remedy would be an honest liniment and because of its enormous sale and well-known merit, I advised 'Nerviline.' Morning, noon and night Nerviline was rubbed over the neck and chest, and once a day diluted with water it was used as a gargle. In a day or two my patient reported, an improvement, and by continuing the treatment with Nerviline he was cured. I can recommend Nerviline for breaking up colds, for chest tightness, throat inflammation, quinsy, tonsilitis and similar conditions."

NERVILINE CURES QUINSY.

Not a druggist or doctor who has examined the formula of Nerviline who won't tell you how good it is—why it contains the best medicaments known to science and for general family use has no equal.

DEPARTMENT OF RAILWAYS AND CANALS.

Ontario—St. Lawrence Canals. Galops Canal.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Improving Upper Entrance to Lock, No. 28," will be received at this office until 16 o'clock on Friday, April 15th.

Plans, specification and Form of Contract to be entered into can be seen on and after March 18th, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of Tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labour, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $6,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, March 21st, 1911.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

PARROT SAVES HOUSEHOLD.

Shrieks "Father, come Quick!" When Room Catches Fire.

A parrot saved a Chatham household from a terrible death in the early hours of a recent morning. All the inmates were asleep, when they were aroused by the bird shrieking "Father, come quick!"

It was then found that the house was full of smoke, and that a room downstairs was in flames. Some difficulty was experienced in removing a tenant named George Pett, who is partially paralysed, from one of the rooms, but everyone was brought safely out, and the flames were quickly extinguished by the fire brigade.

The cry of the bird which probably saved several lives, is one of several which it is fond of repeating.

When a person buys any other VACUUM CLEANER, they always express the hope that it will be as good as the "KING EDWARD". The name is Synonymous with BEST; and the article like the name stands out as the greatest "Peacemaker" in the home and the world at large.

BIG MONEY IN CALIFORNIA OIL

ONE GOOD investment in oil may make you a fortune.

THE LOS ANGELES MIDWAY OIL CO. offers 100,000 shares of its Treasury Stock for sale, to be used for development purposes only. We are erecting derrick and installing machinery now and expect to be ready to start drilling very soon.

We have an 80 acre lease in the famous Midway Oil Fields of California.

We now have our drilling rig completed and have "spudded in" our first well.

The price of our stock will be 15 cents per share after February 11th.

PUTS LOVER IN COLD STORAGE AND GOES SOUTH ON VACATION

New York, April 11.—A special to The World from Hartford, Conn., says Miss Cecilia B. Wilson, of the Co-Operative Nurse's Club of this city, has put her sweetheart John White, in a penal institution for safe keeping while she goes to Bermuda on a three weeks' vacation. She expects to sail from New York on Wednesday.

JOHN WAS PICKLED.

Miss Wilson is Scotch. So is John White. He is a shoe manufacturer at Brockton, Mass. The two have been engaged for fifteen years. When she went to Brockton to bid him goodbye he was so mellow he hardly knew her, and he merely nodded and smiled when she said she was going to Bermuda. She looked at him tearfully and then hurried to the Lynn Mass., police court and asked Judge Fisk to commit White to some nice safe public institution where he could get into a proper state of sobriety by the time she returned from Bermuda.

TEARS OVER JOHN'S PLIGHT.

The judge committed White to the Massachusetts State Farm at Bridgewater. After it was all over and she had got back to Hartford, Miss Wilson found the Bridgewater place is a penal institution. She had imagined it was a sanitarium.

Miss Wilson was tearful when seen by a reporter. "Oh, dear me," she exclaimed. "Here I've gone and put John away in a dreadful place. All I wanted to do was to stow him somewhere for safe keeping until I get back from Bermuda."

John, she said, had been on the water wagon for seven months. His brother, a Canadian Inspector of mines, drove the vehicle, she added.

HE LIKES HIGHBALLS.

"Of course," the little woman continued, "the brother does not deserve a whole lot of credit for sitting on that wagon, because you know he never had any temptation to drink. It's different with John. Scotch highballs look so good to him, don't you know. But they're horrid. He does try so hard to be good, and he would have been all right when I went to bid him good bye only he had fallen in with some old cronies from Halifax. They wet him down a lot.

"I have written to John, telling him to cheer up, that it was all for the best, though, gracious me, I never intended to put him on the farm."

TECHNICAL COMMISSION SECURING INFORMATION

Liverpool, April 12.—Dr. Bryce and J. N. Armstrong, of the Canadian Educational Commission, spent yesterday at the University here, while the other commissioners interviewed educational officials. To-day they are inspecting the Trades and Arts Schools.

RECIPROCITY NEWS.

London, April 12.—The Sheffield Telegraph says that reciprocity with the United States will make Canada seek release from her present fiscal obligations while her Imperial treaties would dislocate the entire commercial machinery of the Empire by necessitating the denunciation of all those from which Canada desired to be free. If the Motherland does not wish to pursue her commercial interests, she must adopt an Empire policy and resume her old power of direct negotiations.

INSURRECTO GENERAL IN MEXICO WAS A NATIVE OF WINNIPEG

El Paso, Texas., April 12.—General Stanley Williams, head of an insurrecto band, who was killed on Saturday near Mexico, in an attack on the federal troops, was a native of Winnipeg, according to T. P. Black, of Toronto, who has just arrived here from Chihuahua.

Black says Williams formerly was a sergeant in the North-West Mounted Police and served with the Canadian Volunteers in the Boer War. His brother, Dr. R. Williams, is said to reside at Superior, Wis.

MORE NEGROES ARE COMING TO THE WEST FROM OKLAHOMA

Winnipeg, April 11.—Another large party of negroes from Oklahoma left for Western Canada this morning and are expected to arrive here Friday or Saturday. They are bringing a number of cars of effects with them and are reported to be wealthy.

MURDOCK'S SON PAYS HIM A VISIT AT JAIL

JARVIS LAWYER HAS THE RUN OF THE CORRIDOR OUTSIDE HIS CELL.

Assigns His Property—is Treated Very Considerately—How One Affair Led Him Into Another.

Cayuga, April 11.—All the assets of J. Y. Murdock, the Jarvis lawyer, now in the county jail charged with forgery, have been assigned over to his creditors. Of the total of $8,000 which he admits owing his clients, the highest single sums are $1,800, $1,600, and $1,355. He thinks $700 can be realized from the sale of his library, and $2,000 from two houses, not to mention a draft of $2,100 still uncashed at Cincinnati. Murdock will come up for hearing on Wednesday, and will be tried by Judge Douglas without a jury.

Mr. Murdock stated that while he was aware of the charges against him, having purchased Toronto papers every day after the first week, and that he had decided to return if the draft fell through.

The alias of J. H. Murray, of Buffalo, under which he was living at the Palace Hotel, he admitted. Under that he had lived quite at ease. But to cash this draft without using the name of Murdock had been quite impossible.

The barrister was not entirely without plans for the future. In fact he explained that he had decided in case he got the $2,000 to make Cincinnati his home. He mentioned a general store in the outskirts which he had negotiated to purchase, and was only waiting receipt of the money to commence business.

Mr. Murdock is at present confined to an upper room in the jail, which is merely part of the court house on the hill close to the station. He is dressed in his ordinary business suit. He was visited yesterday afternoon by his barber. His son, James Murdock, from Toronto, a young man about 25 years of age, and the Crown Attorney have also visited him. He is under the charge of Warden Williamson, who is allowing him every liberty which is in his power to do. Murdock has the run of the large corridor outside the cells and was allowed to talk to reporters through these bars.

His meals are being taken in to him and it is understood that his son will remain in town for a few days.

JOKES ABOUT REPORERS.

Crown Attorney Murphy states that he is confident that $10,000 would amply cover all the informations which it would be possible to lay. He says that Mr. Murdock did not profit to any great extent personally. The amounts range from $325 to $1,800, and each seemed to be a case of robbing Peter to pay Paul—in other words, each succeeding offence was only to cover up the previous one. The original trouble, he believed, began with a loss on Little Nipissing stock.

SCHOOL REPORT.

Following is the report of S. S. No 5, Douro, for March. Names in order of merit:

Class V.—Leonard Kennedy and Florence Mahoney (equal), Ella Tobin.

Class IV.—Marie McMurray, Freddie Crowe, Vincent Kennedy, Catharine McMurray, Peter McMurray, Kathleen McMurray.

CLOSING OUT SALE.

Closing out sale of China Hall by public auction, commencing Saturday April 15, at 2.30 p.m. Entire stock must be sold out without reserve or limit.

How to Tell Bronchitis

Always Recognized by Dry Hacking Cough and Rough Breathing.

Any doctor will tell you that only by a remedy carried by air direct to the affected parts can bronchitis be cured. The very reason why Catarrhozone cures is because it contains a healing medicine lighter than air, which is breathed through the bronchial tubes and lungs, carrying soothing balsams and essences as it goes. No wonder after twenty years of awful suffering, Capt. James Dunlop, of Kingston, commander of the R. & O. str. "Bohemian" was cured thoroughly by Catarrhozone. "I suffered 20 years, and although I took treatment all that time permanent relief was not obtained till I used Catarrhozone, which is the best known cure for Bronchitis on the face of the globe, pleasant to use, quick to relieve, and sure to cure." A truly wonderful treatment for Catarrh, Asthma, Throat Trouble and Bronchitis is Catarrhozone—thousands it has cured, say so.

Get a large dollar outfit of Catarrhozone; it contains a beautiful polished hard rubber inhaler and medication to last two months. Smaller sizes 25c and 50c. at all reliable dealers, or The Catarrhozone Company, Kingston, Ont.

Tug-of-War.

Besides the basket ball game on Friday night, at the Y.M.C.A., the school boys will have a tug-of-war. It is stated that the Central School boys are working over-time in their practice.

Central Milling Company.

At a meeting of the Board of Directors of the Central Milling Co. held on Tuesday evening, Mr. Jones Mutty was appointed president to fill the vacancy caused by the death of the late Wm. Stothart. Mr. John Riddell was elected a director.

Midland League Meeting.

An annual meeting of the Midland League, will be held in this city tomorrow, comprised of representatives from Lindsay and other towns. A schedule will be drawn up and the league will likely open next month.

"Oh, You Tennis Fiends."

The Y.M.C.A. tennis court is being fixed up for the coming season. A coat of cinders was applied yesterday and if the weather is favorable the court will be ready for players by next Monday or Tuesday. Those wishing to join the tennis club may do so at any time now, by applying to Mr. Sanford Hall.

More Drowned Land Claims.

A few days ago Mr. J. H. McClellan was waited on by a number of farmers from Emily, who filed claims against the Government for damage caused by flooding. The claims will in due course be referred to Mr. Jas. Dickson, O.L.S., Fenelon Falls, who has this department of the work in charge.

Lumbering Operations.

The lumber camps are still in full swing on the Peterborough Lumber Company's limits. The men are "marking time," so to speak, by cutting until the ice breaks up, so that the drives can be started. The winter's cut is much larger than usual which means a busy season for the mills.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except of prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Sold by Druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.

Slight Railway Wreck.

A broken rail caused a railway wreck near Hastings yesterday morning, when three freight cars were derailed. The obstruction delayed the passenger trains about an hour. There was no one hurt and the damage to the rolling stock was not very great.

Woodstock's New Industrial Commissioner.

Woodstock's new industrial commissioner will be Mr. M. C. Dickson, the late Grand Trunk agent at Brantford and well known in this city. The appointment was made to-day. Mr. Dickson has recently been on the pension list of the G.T.R. He will assume his duties on May 1st.

Peterborough Canoe Co's Night.

To-night will be the Peterborough Canoe Company's night at the Y.M.C.A. The building will be thrown open to all employes of this popular company and everybody will be made welcome. The billiard table and bowling alleys will open for them. Tug-of-wars, blindfold boxing, etc. will be held in the gym. and at 9.30 refreshments will be served.

Hamilton's Silver Band Coming.

The splendid band of the S.A. at Hamilton are to visit Peterborough for the Easter week end. This band comprises 40 bandsmen, and is one of the finest musical organizations in the country. The band will arrive to-morrow morning at 11.26, C.P.R. train and march to the S.A. Temple, where dinner will be served. Both the Hamilton and the Peterborough Silver Bands will give an open air concert in the afternoon, and at night will give a grand united musical festival in the Armouries.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mrs. James Kylie, of Hiawatha, is renewing acquaintances in the city.

Mrs. Pentland of 16 Benson avenue, will not receive to-day or again this season.

Mrs. Wm. Tighe, Mrs. W. Brooks, and Master Brooks, of Sophia street, left yesterday for Regina, where they will in future reside.

Mrs. Morrison and Mrs. Barrie, 452 Hunter street, will not receive again this season.

Mrs. Lyman Ball, of Bridgenorth, leaves to-day for a pleasure trip to Smith's Falls, Ottawa and other Eastern points.

Miss B. D. Wilson, teacher at the East Ward School, goes to London to-day, where she will spend the Easter vacation.

Miss A. A. Staples, teacher at the Central School, went to Bethany yesterday for the holidays.

Miss Clara Young, of the fourth form of the Collegiate Institute who made a particularly good showing at the recent examinations, left yesterday afternoon for her home in Emilsmore, where she will spend her Easter vacation.

Rev. W. C. Riddiford leaves to-day to attend the half yearly meeting of the Baptist Home Mission Board, in Toronto, and also the Baptist Young People's Convention, in Hamilton on Good Friday.

Miss Ruby Beaton, of the Peterborough Optical Institute, received a long distance message from New York Tuesday morning which necessitates her presence in that city and she left yesterday.

Mr. Lewis A. Russell, representing the Universal Land Security Co., Limited, of Saskatoon, Sask., is in the city. Mr. Russell is a former member of The Times' staff.

Miss M. B. Connor, teacher at the Peterborough Business College will accompany her sister, Miss Edith Connor, to Kingston, where she will renew acquaintances for the next few days.

Miss Edith Connor, who has been attending Queen's University, Kingston, arrived home quite unexpectedly, last evening. Miss Connor has been quite successful at Kingston and will try her final examinations in German when she returns to the University to-morrow morning. As the principal of the University secures positions for their students, Miss Connor, will be leaving on the special train, for the West, on Tuesday afternoon, where she will spend the next six months teaching a summer school. Miss Connor is a graduate of the local Collegiate Institute and no doubt her friends at this school will be pleased to hear of her success.

AUCTION SALE OF JAPANESE FINE ART AT CHINA HALL, 394 GEORGE STREET.

The sale will commence at 2.30 p.m., Saturday, April 15th, and will be continued until every piece is disposed of at any price to the highest bidder, without reserve or limit. The stock consists of the famous antique Satsuma Chinaonne, Royal Idgumo, Ivory Carving, Hand Embroidered Silk Screens Tapestries, Royal Eiraka, Nippon, Royal, Kaga Ware, ornamental as well as useful articles, Tea Sets, Chocolate Sets, Berry Sets Cups and Saucers, etc., with thousands of other varieties, making the finest assortment every displayed on this continent. We cordially invite all ladies and gentlemen to inspect our beautiful Oriental collection, as well as European art. Must close out the entire stock, regardless of cost. Don't miss this grand opportunity to buy real hand-painted China much less than cost. Secure bargains while the choicest pieces remain unsold. China Hall, 394 George street. Conducted by Japanese auctioneer, Mr. Otsuka.

LITTLE LOCAL LINES

Maple syrup was sold yesterday from the farmer's rigs at $1.40 per gallon.

The opening of navigation will be later this season than usual, on account of the cold spring.

Yesterday morning a young man when leaving home put a parcel of shoes under his arm and while passing the new laundry at the corner of Charlotte and Aylmer streets, was halted and asked if he had laundry. This laundryman is right after business.

GIRLS WITH BAD COMPLEXIONS.

The skin should really be so soft and transparent that the blood in the vessels beneath can impart to it the pale, rosy tint which is the ideal "bloom of health." Often, however, the skin becomes coarse and rough, and its cells filled with various impurities, which should be thrown off. This results in those "muddy", sallow complexions, spots, blackheads, etc.

Girls who are troubled in this way will find Zam Buk and Zam-Buk soap perfect skin foods. Smear Zam-Buk lightly over the spots, the eruptions, the sallow patches, at night, and notice how quickly your appearance improves. Wash each day with Zam Buk Soap (only 25c per tablet). As the rich, refined, herbal essences sink deep into the tissue, the hard, scurfy-like patches are removed. The cuticle is softened. The cells beneath are stimulated to healthy operation. The pores resume their work properly, and a good complexion results.

CHEESE FACTORY BURNED.

Cavan Factory Totally Destroyed by Fire.

On Tuesday evening a disastrous fire broke out at 11.30 o'clock, at the Cavan Cheese Factory and totally destroyed the building and contents, and the loss is estimated at about $8,000; which is fully covered by insurance. The cause of the fire is not yet known, but it is thought that it occurred by the work of an incendiary. It is not likely that the company will rebuild the factory.

The Maiden's Dream.

My bonnet spreads over the ocean,
My bonnet spreads over the sea;
To merely spread over the sidewalk
Is not enough bonnet for me.

YOUR BLOOD IS TAINTED

BY-LAW NUMBER____

A By-Law to aid the Independent Tire Company of Toronto Limited.

Passed the day of 1911

WHEREAS the Independent Tire Company of Toronto (Limited) has been incorporated under the provisions of the Ontario Companies Act with the authorized capital of $40,000 which will be increased to $350,000, and has proposed to the Council of the City of Peterborough to establish the factory of the said Company in and to carry on its business as manufacturers of rubber tires for automobiles and other similar goods at the said City, and for that purpose to purchase land for a site for and erect thereon a building of the material and size and to install therein machinery of the value hereinafter set out, and to employ in said factory within the times hereinafter mentioned, the number of operatives hereinafter provided for, provided the City will agree to assist the said Company by advancing to it by way of loan the cost of said land and building not exceeding in all the sum of $40,000 the same to be advanced and repaid as hereinafter mentioned and will grant the said proposed Company exemption from Municipal Taxes on the said land, building and the machinery and plant therein, and on the business assessment of the Company for the term of ten years on the conditions hereinafter set out.

AND WHEREAS there is at present in the said city no other manufacturing establishment carrying on the same business as the one intended to be carried on by the said Company, and it is desirable and in the public interest in order to secure the location of the said factory in the city of Peterborough, to accept the said proposal upon the terms and conditions hereinafter set out.

AND WHEREAS it has been arranged between the said Company and the Council that the said Company shall in the meantime purchase pay for and obtain a conveyance to the Company of the land required for the site of said factory and after the purchase thereof, proceed to erect the necessary building thereon for its purposes, of the material and of at least the size hereinafter mentioned, and to instal therein machinery and plant to the value of at least $75,000 to be free of all liens, and to be included in the mortgage hereinafter provided for, and when said land is purchased and conveyed as aforesaid and said building is erected and ready for occupation, that the Corporation will advance to the Company one-half the cost of the land and buildings up to the sum of $20,000, and when said machinery and plant have been installed therein at the cost aforesaid and the said factory has been in operation and employing therein at least forty operatives for thirty days, and the Company shall have stock subscribed and paid for in cash to the amount of $150,000, that the Corporation will advance to the Company one quarter of the cost of said land and buildings up to the sum of $10,000; and when the said factory has been in operation for a further period of sixty days and employing therein at least sixty operatives will advance to the Company the other one quarter of the cost of said land and building up to the sum of $10,000; provided the terms and conditions hereinafter mentioned entitling the Company to the same have been fully complied with and the security hereinafter mentioned has been given.

AND WHEREAS in order to enable the Corporation to make the said loan it will be necessary to issue the debentures of the Corporation for a sum not exceeding the sum of $40,000 or such less sum as may be required for the purpose aforesaid, which is the amount of the debt intended to be created by this By-law, but as the said sum is to be payable in instalments as aforesaid and it is undesirable to have any part thereof in hand and unused, it will be to the advantage of the Municipality to issue the said debentures in instalments, the said debentures shall be issued in instalments not exceeding in all $40,000, when the same is required for the purposes of this By-law, but so that the first instalment shall be issued within two years and the others within five years from the passing of this By-law.

AND WHEREAS the amount of the whole rateable property of the Municipality according to the last revised assessment roll is the sum of $8,873,145 and the amount of the existing debt of the Municipality, exclusive of local improvement debts payable by local special rates, but including the debt of $452,000.00 incurred for the purchase and improvement of the waterworks, is the sum of $1,144,158.17 and there is no part of the principal or interest in arrear.

AND WHEREAS there will require to be raised annually during the currency of the debentures to be issued hereunder to pay the interest on the said debt a sum not exceeding the sum of $1,600 less such part of the said sum as may be received from the said Company by way of interest on the said loan and the interest that may be received on the investment of the instalments of the said loan as the same are repaid and the instalments of principal to be received from the said Company in the repayment of the said loan, being sufficient for the purpose of repaying the same at the maturity thereof, it is not necessary that a sinking fund should be created for that purpose, but all payments received from the said Company in repayment of the said loan and for interest on same shall be paid to the Peterborough City Trust to be held and invested and applied as to said principal in payment of the said debt at the maturity thereof and as to the interest on the said loan and on the investments of the portion of the principal repaid in payment or reduction of the said interest, but in the event of a sinking fund for any reason being required for the purpose of paying the said debt, there shall be raised in any year during the currency of the said debentures, that the same may be required, a sum sufficient with the estimated interest on the investment thereof at the rate of four per cent. per annum to pay the said debt or the balance thereof when the same becomes due.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF, ENACTS AS FOLLOWS:—

1. This By-law shall take effect on the final passing thereof, but shall not have any force or effect unless and until the said Company shall have delivered to the Corporation a duly executed agreement to carry out on its part the provisions of this By-law to be performed, observed and kept by the Company, and also an undertaking agreeing not to oppose the construction of any sewers or sidewalks as local improvements that the Council may desire to construct under the provisions of the Municipal Act relating to local improvements.

2. It shall be lawful for the Corporation of the City of Peterborough to borrow the sum of $40,000 or such less sum as may be required for the purposes aforesaid, and to issue the debentures of the Corporation therefor in instalments as the same are required, such debentures to be sealed with the Corporate Seal of the City of Peterborough, and to be signed by the Mayor and Treasurer, and countersigned by the Secretary of the Peterborough City Trust, to be payable within twenty years from the date of the issue thereof respectively, and to bear interest at the rate of four and one-half per centum per annum, payable half-yearly on the thirtieth day of June and thirty-first day of December in each year, and to have coupons attached thereto for the payment of such interest—such debentures as to principal and interest to be payable at the office of the Secretary of the Peterborough City Trust at the City of Peterborough, or at such other place as the said Council may by resolution appoint.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate sufficient therefor upon all the rateable property of the City of Peterborough the sum of $1,800 for payment of the interest on said debentures or such less sum as may be necessary to pay the interest on debentures issued under this By-law at the said rate of four and one-half per centum per annum, less however the interest that may be received from the said Company and on the investment of any instalments repaid by the said Company on said loan, and no sums except as hereinafter provided shall be raised as a sinking fund to pay the said debentures at the maturity thereof, but the amount received in repayment of the said loan shall be paid to the Peterborough City Trust and by said Trust invested, held and applied for the payment of the said debentures at the maturity thereof, provided, however, that if by reason of the non-payment of the said loan or any instalment thereof, a sinking fund is necessary for the purpose of providing for the payment of the said debentures, or any of them, when the same become payable, there shall be raised and levied each year that the same is required for said purpose a sum sufficient with the estimated interest on the investment thereof at the rate of four per centum per annum to pay the said debentures at the maturity thereof.

4. There shall be paid to the said Company if and when it shall become entitled thereto under the terms hereof, so much of the said sum authorized to be borrowed under the provisions hereof as the Company shall be entitled to by complying with the terms and conditions hereinafter set out and furnishing proof satisfactory to the Council of the same and upon and only upon the said terms and conditions, namely:—

(1) That the said Company shall on or before the 15th day of April, 1911, apply to increase its authorized capital to at least $350,000 and will issue and dispose of as soon as may be possible and in any event not later than the first day of July, 1912, at least sufficient of the preferred stock of the Company to realize in cash at least the sum of $150,000, which together with the loan to be advanced under this By-law shall be used for the purchase of the land for the site for and the erection and equipment of the said building and the whole balance not required for these purposes shall be retained and used as working capital.

(2) That the said Company shall on or before the first day of July, 1911, have acquired and shall hold by a good title in fee simple free of incumbrances a site for its factory in the City of Peterborough of sufficient size for its purposes.

(3) That the Company shall on or before the 1st day of July, 1912, have erected on said land a three-storey building of brick, concrete or steel, with basement, suitable for its business at least 200 feet by 50 feet in size, or its equivalent and of a capacity sufficient to employ at least one hundred operatives, and shall on or before the first day of July, 1912, have the same equipped with machinery and plant suitable for the said business at a cost for said machinery and plant of at least $75,000 which said machinery and plant shall be free of all liens, charges and incumbrances, except the chattel mortgage to the City Trust hereinafter mentioned and shall on or before the 1st day of July, 1912, have the same in operation and employing therein the number of operatives above mentioned, the cost of said building and machinery and plant as represented by the Company, if not agreed to by the Council to be ascertained and fixed by a valuator agreed on by the Company and Council, or if they cannot agree on the appointment of a valuator within two weeks after the Company has furnished its evidence of such value to the Council, then by arbitrators appointed under the provisions of the Arbitration Act.

(4) That the Company shall have entered into a covenant with the Peterborough City Trust satisfactory to the City Solicitor to observe, perform and keep all the terms, conditions stipulations and agreements in this By-law set out to be observed, performed and kept on its part including the following:

(a) That the Company will pay to the Peterborough City Trust interest at the rate of four and one-half per cent. per annum on the amount of the said loan or the portion thereof from time to time remaining unpaid until the whole of said loan is repaid, said interest to be computed from the dates the respective instalments of the loan are advanced to the Company and to be paid half-yearly on the 30th day of June and the 31st day of December in each year commencing with the first gale day after the first half of the loan is advanced and will repay to the said City Trust the principal of said loan in annual instalments of $2,000 each, the first of such instalments to be made on the 31st day of December, 1912, and yearly thereafter, with the right to said Company to increase the amount of said annual payments or to repay the whole of the said loan or any balance thereof that may remain due, at any time in the meantime, with the right to the Council of the said Corporation in its discretion to demand repayment of the said sum or the balance thereof then remaining unpaid, if at any time (except in the case of strikes or damage by fire as hereinafter provided) the said Company shall have in its employment at its said manufacturing establishment in the City of Peterborough (after the first year of its operation) an average of less than one hundred operatives, or during the first year the number of operatives above mentioned within the time provided such repayment to be made within three months after the said Council shall have passed a resolution making such demand and mailed a copy thereof addressed to the said Company at the City of Peterborough. Provided that the provision as to the employment of operatives shall be taken to be complied with if such operatives are employed on an average of ten months in each year.

PROVIDED HOWEVER, that if the failure to employ the said number of operatives as above mentioned in the said manufacturing establishment is due to a general strike of the employees or of a sufficient number of them to prevent the said Company carrying on the said manufacturing business in the regular manner or to the destruction or damage of the buildings or machinery by fire or tempest, so as to prevent the said Company carrying on the said business in the regular manner, the time during which the business shall cease to be so carried on in consequence of such strikes or destruction or damage of the said buildings or machinery, not exceeding in either case one year, shall not be counted in the period to entitle the Council of the said City to demand payment of the amount of the said loan or the balance thereof then due as above mentioned.

(b) That in case default shall happen to be made of or in the payment of the said sum or any instalment thereof, as provided by sub-clause (a) hereof, or of any part thereof or of or in the payment of the interest on the same as provided in said sub-clause (a) or of any part thereof for the space of one month after the same becomes due and payable, or in case of default of or in the doing, observing, performing, fulfilling or keeping of any of the other provisions, agreements or terms herein or in said covenant mentioned, and such default shall continue for one month, then in every such case the whole of said sum or that portion thereof remaining unpaid shall forthwith become due and payable, and it shall and may be lawful for the City Trust, after giving written notice to the said Company of its intention in that behalf, either by service on the President or Secretary of the Company or by letter addressed to the Company at the City of Peterborough, not less than thirty days previously, and without any further notice or consent or concurrence of the said Company, to enter into possession of and hold the lands of the Company and the buildings thereon and the machinery and plant therein or thereon, and whether in or out of possession of the same if thereunto authorized by By-law of the Corporation of the said City, to make any lease or leases thereof, or of any part thereof and also if and when considered advisable and if thereunto authorized by By-law of the Corporation of the said City, to sell and absolutely dispose of the same or any of them or any part or parts thereof for any sum or sums and in any way the said City Council may by said By-law direct, and the said City Trust if thereunto authorized as aforesaid, shall have power and authority to assure and convey the same if and when so sold to the purchaser or purchasers thereof by proper and sufficient conveyance and conveyances.

(c) That the said Company will until the whole of the said loan is repaid keep the said lands and buildings and the said machinery and plant in good order, condition and repair according to the nature and description thereof, and in case of neglect or default in so doing the provisions mentioned in sub-clause (a) hereof shall apply by reason of such neglect or default, and the amount of the said loan or of that portion then unpaid together with the interest thereon shall become payable as in said sub-clause (a) set out.

(d) That the said Company will insure and until the said loan is fully repaid will keep insured against loss or damage by fire the said buildings and machinery and plant in the sum of at least the full amount of said loan or the balance thereof remaining unpaid in some Insurance Company or Companies approved of by the said City Trust (such approval not to be unreasonably withheld) and will pay all premiums and sums of money necessary for such purposes as the same shall become due, and will make the amount payable under the policy or policies payable to the said City Trust, as its interest may appear, and will deliver to the said City Trust the policy or policies of insurance when issued and the receipts thereto appertaining respectively not later than three days before the premiums on the said policies become due respectively, and in default thereof the said City Trust may pay any premiums or sums of money necessary for said insurance and the said Company shall forthwith repay same with interest at the rate of six per cent. per annum to the said City Trust it being understood that in the event of the said Company effecting its insurance on its buildings and machinery in the form of a blanket policy or policies and causing the loss, if any, thereunder to be made payable to the said City Trust to the extent of the unpaid amount of said loan it shall be a sufficient compliance with the said provision as to delivery of policies if the said Company shall deliver to the said City Trust a duplicate of said policy or policies or an acknowledgement by the Insurance Company or Companies of the interest therein of the said City Trust.

(e) That the said Company as security for the repayment of the said loan will execute and deliver to the said City Trust a first mortgage on the said lands and the buildings and fixtures thereon which fixtures shall as far as said mortgage is concerned, be held to be part of the realty and covered and embraced in said mortgage and will also execute and deliver to the said City Trust a chattel mortgage as a first charge on the said machinery and plant as additional security for said loan which said mortgages shall be continuing securities until the said loan is fully paid off according to the terms and conditions of this By-law.

(f) That the said Company shall at all times until the said loan is paid off have at least $75,000 worth of machinery and plant in said building, but shall be at liberty from time to time to substitute new and modern plant and machinery for the plant, machinery and fixtures in the said manufacturing establishment, provided the said new and modern plant and machinery is of equal or greater value than that for which it is substituted, and notice is given to the Secretary of the City Trust, giving the price and description of such substituted plant and machinery.

5. Provided the said Company shall have executed and delivered to the Corporation the mortgages and covenant above provided for and shall in every respect have complied with, carried out and performed the terms and conditions on its part herein mentioned, entitling it to the same, the said City Council will pay to the said Company one half of the loan herein provided for as soon as the said building of the size and capacity heretofore set out is fully erected on the said land and is ready for occupation, and will within thirty days after said building is fully equipped with machinery and plant, free of all liens, charges and incumbrances except the said chattel mortgage to the City Trust and costing not less than $75,000, and the Company has stock subscribed and paid for in cash to the amount of at least $150,000, and the said factory is in operation and employing therein at least forty operatives, pay to the said Company one quarter of the said loan; and will within sixty days thereafter, provided the above mentioned conditions are complied with and at least sixty operatives are employed in said factory, pay the said Company the remaining one quarter of said loan.

6. Provided the said Company shall carry out and continue to carry out the terms and conditions of this By-Law, and in the said covenant set out, to be observed, performed and kept by it, and shall on or before the dates above mentioned purchase the said site, erect the said building and equip the same as aforesaid and thereafter have the same in operation and employing therein the number of operatives above mentioned, the land and buildings of the Company used exclusively for manufacturing purposes and the plant machinery and the business assessment of the Company shall for a period of ten years from the first day of January, 1912, be exempt from all taxes, rates and assessments, except taxes for school purposes and local improvement assessments, rates and taxes for which they shall be and remain liable, and the oath of the assessor or assessors shall be amended accordingly, but provided said Company shall fail or neglect during said term of ten years to carry out the said terms and conditions and to operate and carry on the said business as aforesaid, and employ therein the said number of operatives, then such exemption shall cease and the rates and taxes payable in respect to the said land buildings machinery plant and business assessment shall be and become payable in the same manner as if this By-Law had not been passed.

7. The said Company shall, prior to the first day of March in each year file with the City Clerk a statutory declaration made by two officers of the Company, who shall therein state their knowledge of the facts, proving the extent to which the Company has complied with and is observing all the terms, conditions and provisions of this By-Law and those contained in the said covenant, and on neglect of the said Company to furnish such declaration, it shall be prima facie taken that such terms, conditions and provisions have not been performed, observed and kept.

8. For the purpose of taking the votes of the duly qualified electors on this By-Law the following adjoining Polling Sub-divisions shall be united namely:—1 and 3, 2 and 5, 6, 7, 8 and 9, 10 and 11, 13 and 14, 15 and 18, 16 and 17, 20 and 21.

9. The votes of the electors of the City of Peterborough qualified to vote on By-Laws for creating debts shall be taken upon this By-Law on the 25th day of April, 1911, commencing at the hour of nine o'clock in the forenoon and closing at the hour of seven o'clock in the afternoon of the same day, at the following places and before the following Deputy Returning Officers with the following Poll Clerks, that is to say:—

POLLING SUB-DIVISIONS NUMBERS 1 AND 3.

Place, M. H. Halpin's, 39 George Street. Deputy Returning Officer, Josiah Robertson; Poll Clerk, W. Mason.

POLLING SUB-DIVISIONS NUMBERS 2 AND 5.

Place, T. J. Murray's, 111 Rubidge Street. Deputy Returning Officer, J. P. Bryson; Poll Clerk, A. Graham.

POLLING SUB-DIVISION NO. 4.

Place, L. Spry's, 210 Stewart St. Deputy Returning Officer, W. Van-Every; Poll Clerk, T. O. Rush.

POLLING SUB-DIVISIONS 6, 7, 8 AND 9.

Place, City Council Chamber. Deputy Returning Officer, T. B. McGrath; Poll Clerk, A. S. Maguire.

POLLING SUB-DIVISIONS NUMBERS 10 AND 11.

Place, J. E. Hilico's, 356 Charlotte St. Deputy Returning Officer, F. Brownscombe; Poll Clerk, J. O. Moss.

POLLING SUB-DIVISION NO. 12.

Place, R. Bagley's, 363 Babb's Lane. Deputy Returning Officer, F. J. A. Hall; Poll Clerk, T. G. Robinson.

POLLING SUB-DIVISIONS NUMBERS 13 AND 14.

Place, N. Routley's, 392 Brock St. Deputy Returning Officer, A. Sawers; Poll Clerk, N. Routley.

POLLING SUB-DIVISIONS NUMBERS 15 AND 18

Place, T. H. Hooper's, 601 George Street. Deputy Returning Officer, G. H. Howson; Poll Clerk, D. Kennedy.

POLLING SUB-DIVISIONS NUMBERS 16 AND 17

Place, J. J. Cook's, 153 Dublin Street. Deputy Returning Officer, John Sawers; Poll Clerk, J. J. Cooks.

POLLING SUB-DIVISION NO. 19.

Place, J. T. Braund's, 720 George Street. Deputy Returning Officer, T. W. Robinson; Poll Clerk, Jas. Middleton.

POLLING SUB-DIVISIONS NUMBERS 20 and 21

Place, Former Village Hall. Deputy Returning Officer, R. Hamilton; Poll Clerk, John Kerr.

POLLING SUB-DIVISION NO. 22.

Place, George Coon's, 559 Rogers St. Deputy Returning Officer, J. T. Craig; Poll Clerk, E. Dillon.

10. The 26th day of April, 1911, at the hour of twelve o'clock noon, and the City Clerk's office are hereby fixed as the time when and the place where the Clerk will sum up the number of votes given for and against the By-Law.

11. The 24th day of April, 1911, at the hour of twelve o'clock noon, and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively on behalf of the persons interested in and promoting or opposing the passing of the By-Law respectively.

Mayor.

Clerk.

NOTICE

Take notice that the foregoing is a true copy of a proposed By-Law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in The Morning Times newspaper, the date of which first publication is the thirtieth day of March, 1911, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

And further take notice that the name of any leaseholder, who does not at least ten days before the day in the said proposed By-Law appointed for taking the vote thereon, file in my office a Statutory Declaration proving that he or his wife is the holder of a lease, which under the provisions of section 354 of the Consolidated Municipal Act, 1903, entitles him to vote for or against the said proposed By-Law, shall not be placed on the Voters' List for such voting.

E. B. ARMSTRONG,
City Clerk.

VOL XXXIV NO. 83 PETERBOROUGH, ONTARIO, SATURDAY APRIL 15 1911 PRICE TWO CENTS

HYDRO SAVES MONEY ON LINDSAY POWER DISCUSSED CHEAP POWER FOR PETERBORO'

HON. ADAM BECK MADE A VERY SATISFACTORY AGREEMENT WITH COMPANY.

Peterborough May Get It—Chairman of Commission Met Citizens' Committee and Presented Plans.

Toronto, April 14.—Notification was sent to Lindsay yesterday by the Hon. Adam Beck, chairman of the Hydro-Electric Commission, of the terms made by the commission with the Lindsay Light, Heat and Power Co. The municipality will submit a by-law to the ratepayers for the ratification of the agreement, and there is no doubt but that it will pass, as the commission has made terms by which the town will save about $20,000. The town will take about 2000 h.p., and soon will be in the Hydro-Electric zone.

The question of a supply of cheap power for Peterborough was discussed there by the Hon. Mr. Beck and the Citizens' Committee. The Engineers of the commission have looked over the situation and presented a report, and if the city acts on the report, Peterborough will be in a position independent of the power merger which generates power on the Trent River. The city will get power from the Otonabee Power Co.

Midland and Penetang will vote next week on by-laws authorizing the towns to make contracts with the commission. Penetang will buy out the existing plant, and both places, together with Waubaushene, will take the power supplied by the commission through the Simcoe Light and Power Co.

HON. ADAM BECK,

CHAIRMAN HYDRO-ELECTRIC COMMISSION.

CANNOT FAIL TO INTEREST WOMEN

ALBERTA LADY TELLS OF HER CURE BY DODD'S KIDNEY PILLS.

Was Weak, Nervous, Run-down and Suffering From Rheumatism—Dodd's Kidney Pills Made Her a New Person.

Beauvallon, Alta., April 14—(Special)—Women who are nervous, run down and suffering from Rheumatism cannot fail to be interested in the case of Miss Gertrude E. Reyome of this place. She was exactly in that condition. To-day she is as she puts it herself "a new person." Dodd's Kidney Pills cured her. Here is her statement given for publication:

"My Kidney Disease started from a cold two years ago. Rheumatism set in, and I was weak and nervous, and in a run down condition. I was attended by a doctor who did not appear to understand my case. Three boxes of Dodd's Kidney Pills made a new person of me."

Is not Miss Reyome's condition an exact description of nine-tenths of the ailing women of Canada? The doctor did not understand her case. It was simple enough. It was Kidney Trouble. And Kidney Disease is the one great cause of women's troubles. Dodd's Kidney Pills always cure it.

PRISONER SLEPT WHILE JUDGE READ THE DEATH SENTENCE

St. Martinsville, La., April 14.—So unconcerned was Paul Jeane Baptiste, convicted of murder, when his judge, that he fell asleep in the court death sentence was being read by the Court attaches had to arouse him in order to make the sentence legal. Baptiste was awakened and the reading went on.

EMPLOYES OF INTERCOLONIAL GET AN ADVANCE OF $300,000

Toronto, April 14.—"The revenue of the Intercolonial Railway is increasing at a most encouraging rate. Last year, the best in the road's history, the increase was three quarters of a million."

It was Mr. A. W. Campbell speaking—Deputy Minister of Railways and Canals for Canada, and formerly "Good Roads" Campbell, Deputy Minister of Public Works for Ontario. He arrived in the city from Ottawa this morning, "just for the Easter holidays," as he put it.

"During the past three months we have settled all disputes with the several classes of the road's employees who were dissatisfied. This series of settlements has been reached by granting the men wage increases all the way from seven and a half to twenty per cent. These increases will aggregate three hundred thousand dollars a year, so we're hoping that our troubles along the line of labor disputes are over now, for a little while at least.

"One result of the rate at which the road's revenue has been increasing is that five or six hundred thousand dollars will be spent this year in enlarging and improving the road's Halifax terminals.

OVER $2,000,000 FOR HALIFAX.

"The old Intercolonial is beginning to look something like a railroad, isn't it, Mr. Campbell?"

"Oh, yes," assented the Deputy Minister with enthusiasm.

"This year's expenditure of upwards of half a million is only part of a broader project for which plans have already been drawn up and which involves the expenditure of two million dollars on the Halifax terminals.

"Larger ocean vessels are now coming into Halifax and the demands upon the Intercolonial have multiplied so rapidly that the present terminals are no longer adequate to handle the traffic."

DR. SMITH TOLD OF JARDINE'S CONFESSION

Goderich, April 13.—At the trial of Edward Jardine for the alleged murder of Lizzie Anderson, several witnesses this morning swore to having seen Jardine on the fair grounds on the day of the disappearance of the girl, at an hour later than that at which he said he went home.

At the afternoon session Inspector Green testified that he had failed to get any trace of the mysterious stranger whom Jardine claimed he has seen with Lizzie Anderson on the afternoon of the fair, and Dr. Bruce Smith gave evidence regarding certain alleged admissions to him by the prisoner when he examined him regarding his sanity. He did not consider him an imbecile in the ordinary way.

After much cross-firing between counsel, Dr. Smith gave the story of the confession as follows:

At the conclusion of the question I asked him to be very quiet. His face suddenly became red, he quickly drew out his handkerchief and put it to his eyes and burst into tears, saying "I did it. I went over to the fair grounds," he continued. "and saw Lizzie Anderson and gave her money to get a lunch. I met her afterwards during the evening and talked to her. We went off down towards the other end of the fair grounds and made, or got through a hole in the fence and walked along the fair grounds fence and passed a wet place where she got mud on her shoes, out on the road, and then down the road to a vacant house. We went in and sat down by the side of a grape vine. I said to her, 'we will go down here,' (into the cellar). She started down first. Just after she started down the steps, she fell and struck her head and said, 'My God, Oh, I'm hurt.'

"I came right down after her. Instantly the devil got possession of me and I put my hand into my hip pocket and drew out a brown or black handled knife. I put it into her throat once and then put it in again and drew it all the way across. I don't know just what happened, but I went to work and cut all her clothes off."

"I told him then as before," explained Dr. Smith, "that it was not necessary for him to talk about this, but he persisted in going on. He said: 'I don't know what happened, really. The devil got possession of me.' He repeated that three or four times."

ROYAL

SPECIAL VAUDEVILLE TODAY

POWER MAY BE GENERATED AND SOLD IN PETERBORO AT $14.65 PER H. H. OR AT A MAXIMUM FIGURE OF $17.55

This is the Result of Engineer Sothmen's Investigation as to Peterborough's Power Possibilites

For reasons best known to the person to whom Industrial Commissioner Duggan telephoned from Toronto on Wednesday that Hon. Adam Beck chairman of the Hydro-Electric Commission, would meet a party of public-spirited citizens that might, with a request that ALL the press be notified, the gentleman receiving this message failed to extend the courtesy asked of him as far as this journal is concerned. Had he done so, the Times would have published the following morning, the exhaustive report on Peterborough's power possibilities, prepared by Mr. P. W. Sothmem, Chief Engineer of the Hydro-Electric Commission, and read by Hon. Adam Beck at Wednesday night's meeting.

For some time past the Times has known that the Chief Engineer of the Hydro-Electric Commission was working on the question of cheap power for Peterborough, and had been assured that this city, if advantage were taken of the possibilities offered, might secure power cheaper than could be supplied by the Hydro Electric Commission. But, by special request, we agreed to suppress any specific reference to the matter until such time as the Engineer's report was completed and ready for publicity. The report, which is the result of demands for the City Council and the Board of Trade, through Industrial Commissioner Duggan, has been prepared without any cost to the city, and is thorough in its detail. It shows conclusively that Peterborough has the opportunity at home to offer power at a maximum price of $17.55 per h.p., and at a minimum figure of $14.65 per h.p. Mr. Sothmem has figured on two available power sites—the Dickson Company's dam and the Otonabee Power Company's two dams, Nos. 4 and 5—with a preference to the latter. He offers that the city could well afford to pay $225,000 for the Otonabee Power Company's site and develop it, providing a market of 2500 h.p. is in sight. The advantage with the Otonabee Power Co. is that it has a present capacity of 3500 h.p. Peterborough is reaching out for industries, and industries are looking for cheap power. According to Engineer Sothmem, we have cheap power right at our doors, and what are we going to do with it? We are assured that power can be generated and sold here at a maximum of $17.55 and a minimum of $14.65 per h.p., then why not avail ourselves of the opportunity that nature offers. The foregoing figures are based on the opinion of the cleverest engineer on this continent, and it is to be hoped that the city authorities will take time by the forelock and secure the only thing lacking in our race for industrial preference—power at a reasonable price. The following is Mr. Sothmem's report in full, which, by the courtesy of Industrial Commissioner Duggan, we are enabled to publish in full, and at the earliest possible date. This report will be submitted to the City Council and the Board of Trade at an early date for action thereon.

RE-POWER FOR MUNICIPALITY.

Toronto, April 5th, 1911.

The natural source of power for the City of Peterborough is the Otonabee River, which flows within the Corporation limits. This river is part of the Trent system, being on the route of the Trent Valley Canal, and the storage system which is being established in the upper waters by the Department of Railways and Canals is having an appreciable effect upon the flow of the river, which is constantly increasing in value as a source of power.

Available Flow Power Capacity.

Unfortunately no interconnected series of gaugings and gauge height records is in existence, so that it is impossible to obtain reliable data as to flow characteristics, all available figures relating to minimum flow being largely a matter of individual estimate, based on isolated gaugings. As a result there is considerable divergency of opinion as to the present minimum flow and the greatest possible minimum flow with storage.

Estimates of the present minimum flow vary from 1100 to 1500 second feet, and 1500 to 2500 second-feet with storage. The figures for present minimum flow are based on the gaugings above mentioned, but the amount of minimum flow with storage is merely a surmise. From the load sheets of plants operating at the present time in Peterborough, it has been established, however, that there is at least 1400 second-feet available for the peak load purposes whenever required, and while the actual minimum flow probably falls below this at times it would be safe to assume 1400 second-feet as being commercially available at present, with 2000 to 2500 second-feet as a future possibility.

Basing hydraulic construction on this assumption, it would be safe practice to install generating equipment to handle 1500 second-feet, and power house and head works of sufficient capacity to efficiently handle a future flow of 2000 second-feet.

The portion of the Otonabee River which flows through Peterborough is not on the main line of the canal, which leaves the river at Nassau Bridge, 4 miles above Peterborough, and enters it again just below Peterborough Lift Lock. On this section of the river the head due to the natural slope has been concentrated by means of dams owned and operated by private interests, the flow, however, being regulated by the Canal authorities. Between Nassau and Lakefield, the river has been canalized and all dam and lock construction is under the control of the Trent Valley Canal, as are also the resulting heads and water-levels.

All the water powers in this portion of the river are either in the city or within ten miles of it, the most remote location being at the Village of Lakefield. The following is a list of these powers, their power capacity being based on an available minimum flow of 1400 second-feet:

Quaker Oats, Peterboro	3400 h.p.
Auburn Dam	1900 h.p.
Peterboro Water Works	1500 h.p.
C. G. E. Co., Nassau	1900 h.p.
Dam Nos. 4 and 5, Otonabee Power Co.	3300 h.p.
Dam No. 3, Canada Cement Co.	1500 h.p.
Dam No. 2, Unallotted	1300 h.p.
Dam No. 1, Lakefield (Dickson Bros.)	2000 h.p.
Total	15,800 h.p.

Available Sites.

The first four locations in the above list are not in the market, but the city has an opportunity to acquire complete control of the power situation as represented by Dams Nos. 1, 2, 3, 4 and 5. These powers have a present aggregate capacity of 9000 h.p., and a probable future capacity of 11,000 h.p., and it would be commercially feasible to develop these powers in rotation in accordance with the market requirements of Peterborough and Lakefield.

Preliminary Development.

The capital outlay which would be necessary to acquire control of all the power embraced by this scheme precludes the possibility of considering the proposition as a whole at the present time, but there is no reason why the municipality should not give careful consideration to the preliminary steps necessary for the consummation of the general scheme. The first step is naturally the selection of the most favorable site for initial development, and in this connection it would seem that if any question of choice is involved, it lies between the Otonabee Power Company's site at Dams Nos. 4 and 5, and the Dickson property at Dam No. 1, in the Village of Lakefield. An analysis of these two propositions is made hereunder with the object of demonstrating as fairly as possible which has the better claim for consideration from a commercial and engineering standpoint.

Flow.

The Otonabee site is situated five miles lower down on the river than the Dickson site, and has consequently a greater area of watershed behind it. This advantage is so small, however, that at present both sites can be considered on a par as regards available flow.

Head and Power Capacity.

The present normal head at the Dickson site is 16 feet, but during the winter season the level below the dam could be drawn down so as to give a head of 20 feet. At the Otonabee site a head of 26 feet is available all the year round. The matter of allowing a 20 foot head at the Dickson site is entirely at the option of the Canal authorities, so that on Dickson site has a power capacity of the basis of a dependable head, the Dickson site has a power capacity of 2000 h.p. under present conditions, and a probable future capacity of 3300 h.p., while the Otonabee site has a present capacity of 3300 h.p., and a probable future capacity of 4700 h.p. In this instance therefore the advantage lies decidedly with the Otonabee site.

Rights Under Lease.

The Dickson property is held under a lease which allows the use of all surplus water without other restriction than is laid down in the general conditions of the lease. This lease is renewable every 21 years in perpetuity in consideration of payment of $2.00 per year rental. The Lessees under this lease are not given the right to transmit electric power.

The Otonabee property is held under a lease which allows the use of all surplus water subject to the general conditions of the lease, with an additional restriction to the effect that should the Trent Canal be improved or enlarged, any increased volume of flow of water which might thereby become available should not be considered surplus waters within the provisions of the lease nor accrue to the benefit of the Lessees.

This lease is renewable for three periods only of 21 years each, the final date of expiry being at the end of the third term, and the rental is said to be $2100 per year. Under this lease the Lessees are given the right to transmit electric power.

As regards rental and the use of surplus water, the Dickson lease is undoubtedly the more advantageous. The Otonabee lease has an advantage in that it permits the transmission and sale of electric power, but in the event of the city of Peterborough taking over either of these propositions a satisfactory adjustment of the above mentioned restrictions could doubtless be arranged.

Conditions of Purchase.

The Dickson property has been offered to the city for $200,000. For this sum the city would obtain the unrestricted right to use all surplus water passing and to pass through the flood-gates of the Lakefield dam, and to install works to develop such power as this surplus water will generate under a 16 foot head.

The property of the Otonabee Power Company has been offered to the city for $225,000. For this sum the city would obtain the right to use all surplus water at dam No. 4, subject to the conditions and restrictions above mentioned, and the right to install works to develop such power as this surplus water would generate under a 26 foot head. In addition to this, the city would acquire the present 1500 h.p. Plant at Dam No. 5, a 6600 volt transmission line to Peterborough, a substation at Peterborough, a distribution system covering practically the whole city, and a connected load of 1250 peak horse power.

The Dickson offer means simply the assigning of a lease. The Otonabee offer includes not only the assignment of a lease, but a complete generating, transmitting and distribution system handling a load of 1250 h.p. and capable of handling a load of 1500 h.p. with very little additional expense.

Development.

The development of the Dickson site involves the building of a generating station, a ten-mile transmission line, a sub-station and a complete distribution system throughout the City of Peterborough, including pole-lines, circuits, service transformers and meters. The development of the Otonabee site would involve only the building of a generating station and the erection of such extra copper as would be necessary to distribute a preliminary 2700 h.p. economically.

Apart from comparative capital costs, the mere fact that the streets of the city would be obliged to carry a new distribution system, assuming that this is physically impossible, would be sufficient to place the advantage with the Otonabee site. In addition to this, the fact that the transmission distance is only 5 miles as compared with ten miles from Lakefield is distinctly to the advantage of the Otonabee site as regards continuity of service.

Costs.

The attached estimate indicates that 2700 h.p. continuous 24 hr. power can be delivered to the customer in Peterborough for an average price of about $16.00 per h.p. from the Otonabee site. An approximate estimate of costs with reference to the Dickson site indicates that 2700 h.p. could be delivered to the customer in Peterborough for practically the same price as 2700 h.p. from the Otonabee site. As the load approached its ultimate capacity, the advantage would therefore lie more and more with the Otonabee site, the more so as the 2700 h.p. delivered from Lakefield would require the maximum possible development at the Dickson site.

Market.

If the city took up the Dickson offer, it would involve the creation of an entirely new market, with the Otonabee Power Company as a competitor, and also the duplication of distribution lines throughout the city. By buying out the Otonabee Power Company, its competitors would be eliminated, a ready-made market would be obtained, and the necessity of duplicating the distribution system would be avoided.

Of the points considered above, the most important are, (1) Rights under lease, (2) Available present flow, (3) Annual costs, (4) Power capacity (5) Market conditions.

In the matter of rights under lease, the Dickson property at present has the advantage. In the matter of present flow, both propositions are on equal terms. On all the other counts the advantage lies with the Otonabee property.

In view of the above, the conclusions are:—(1) If, as seems possible, a perpetual lease to the Otonabee site can be obtained, at the present or at a less rental, and if reasonable assurance can be given that no drastic action will be taken in restricting the use of additional surplus flow, then the Otonabee proposition is unquestionably the best. (2) If the terms and conditions as set forth in the present lease were strictly enforced, the transmission distance, advantages of distribution, and market conditions would still throw the balance in favor of the Otonabee site.

Conditions of Otonabee Lease.

The development rights under which the plant of the Otonabee Power Company operates, are held by virtue of a lease taken out on August 1st, 1901, by Messrs. W. H. Meldrum W. A. Stratton, and R. R. Hall, and later assigned to the Otonabee Power Company. The outstanding features of this lease are as follows:—(1) It imposes a fixed rental of $1264 per year for land and surplus water. (2) The life of the lease is for three terms only of 21 years each, the date of the expiry being August 1st, 1964, after which date the question of renewal rests solely upon the decision of the Governor-in-Council. (3) Clause 13 of the lease stipulates that should the Trent Canal during the term of the lease be improved or enlarged, any increased volume or flow of water thereby made available shall not be considered surplus water within the provisions of the lease nor accrue to the benefit of the Lessees. (4) Clause 14 of the lease stipulates that upon the expiry of the second 21 year term of the lease, the rental of the final year may be fixed "at any greater or other rate than herewith reserved," said rental to be fixed by and at the option of the Governor-in-Council.

This lease covers only the present site of development at Dam No. 5, and a lease will, of course, have to be obtained covering the combined development of Dams Nos. 4 and 5. This new lease had not been issued when enquiries were made early in March, but it is reported to have been issued recently and to call for a yearly rental of $2100 for the combined development. For lack of more definite information, it is assumed that the important clauses in this new lease are similar to those in the old lease as above described. The new lease must also include the right to use some 44 acres of Canal lands which the plant will occupy.

The amount of yearly rental and the limitation of the term to 64 years, does not seriously impair the value of the lease, but the restriction as to the use of surplus water should be looked into closely. If the phrase "improved or enlarged" can be interpreted as applying strictly to the waters forming the navigable channel of the canal, and the locks, dams and other constructed works in connection therewith, then this clause imposes no greater restriction upon the Lessee than Article No. 21 of the General Conditions which accompanies all leases issued by the Department of Railways and Canals. If, on the other hand, this phrase "improved or enlarged," is extended to cover the storage works in the upper watershed, the restriction will have a serious effect both from an engineering and an economic standpoint, and a definite understanding should be arrived at before any attempt is made to carry the scheme into execution.

Scheme of Development.

The contemplated scheme of development at Dams Nos. 4 and 5 involves the combination of the two heads by taking the water above Dam No. 4 and discharging it below Dam No. 5. This diversion will entail the construction of about 2800 feet of head-race, and all the private property required for the same has been purchased by the Otonabee Power Company. A plan showing the general lay-out of the plant has been prepared and improved by the Superintending Engineer of the Trent Canal, and indicating on this plan are the several blocks of Canal lands which would require to be demised or leased to the Company for the construction of the power house and head-work. The Canal authorities are considering the possibility at some future time of using the head-race of the new plant for navigation purposes by substituting a new lock of 26 foot left for the two locks of 12 and 14 foot lift at present existing. In this event the head-race would require to have a much greater cross-section than if it were used for power purposes only, and two courses of action are open: namely, to construct at the outset a head-race of sufficient cross section to accommodate the navigation and power interests, the Department of Railways and Canals bearing a just proportion of the costs, or to allow the construction of a head race for power purposes only, on the understanding that the Department of Railways and Canals may at some future time, at its own expense, and without interrupting the power service, widen the head-race sufficiently to adapt it for navigation purposes. This question should also be settled before any steps are taken to carry the scheme through.

Estimating Data.

In January, 1909 an estimate was prepared for the Otonabee Power Co. by a well known firm of consulting engineers, covering the cost of developing the site at Dams Nos. 4 and 5 for a future installed capacity of 4000 h.p. and a preliminary installation of 2700 h.p. A detailed survey was made of the site, complete plans were prepared, and manufacturers' quotations obtained for the different classes of equipment. This complete working estimate has been finally revised to meet the requirements of the Canal authorities, and the figures derived therefrom have been used in the general estimate thereto attached.

The existing transmission line consists of a line of wood poles with two 3-phase circuits of No. 1 copper. This copper has a carrying capacity of 2500 h.p. with 6 per cent loss, and the line is in good operating condition, so that at the present time no expenditure for transmission is necessary outside of the purchase price.

The Peterborough substation is a substantial brick building centrally situated. The station contains 2000 h.p. rated transformer capacity, stepping down from 6600 to 2300 volts, with the necessary switching equipment.

The distribution system covers the residential, business and industrial sections of the City very completely, but not enough copper is erected at present to handle more than 1500 h.p. economically. Some of the larger blocks of power are also located at such a distance from the station that heavy expenditure in copper would be necessary for serving at 2200 volts. It has therefore been considered advisable to serve such customers by means of a separate 6600 volt power circuit stepping down at the point of load to motor voltage. The pole lines at present erected are in good shape and the poles are long, so that no difficulty is anticipated in connection with the erection of the extra power circuit. In the general estimate attached, allowance is made for the erection of the necessary extra copper, cross arms, insulators, and transformers. An allowance is also made for the building of such new line, as would be necessary to serve new customers not located within the limits of the present system.

The installation of this 6600 volt power circuit will not only mean a saving in copper, but it will obviate the necessity of immediately increasing the substation transformer capacity, as the 2000 h.p. capacity already installed will handle the lighting and small motor load for some time to come. The system extended as above described, will handle a load of 2500 h.p. with ease.

The attached estimate allows for the necessary 6600 volt selector switches and a complete equipment of switchboard instruments in the substation.

In the estimate of Annual Charges, the maintenance and depreciation are based upon the estimates first cost of such portions of the present plant and equipment of the Otonabee Power Company as will be utilized, and is addition the charges on all new plant. The operating costs of the new system should not be appreciably greater than those obtaining at present, but as information in this connection has not yet been obtained from the company, the figure given

Peruna Secrets You Should Know

Golden Seal, the root of the above plant, is a very useful medicine. Many people gather it in our rich woodlands during the summer. Few people know how valuable it is in dyspepsia, catarrh, and as a general tonic.

Many thousand pounds of this root are used each year in the famous catarrh remedy, Peruna. This fact explains why everybody uses Peruna for catarrh.

OVER 500 MILES OF FINE NEW CARPET

Special to The Times.

New York, Apr. 15.—Carpet enough to lay a width the entire length of the main line of the New York Central from New York to Buffalo, and thence to Niagara Falls and across the Niagara River into Canada. This is the stupendous shipment that left New York in a special train over a half mile long, made up of 60 freight cars, through from New York to San Francisco via the New York Central and Michigan Central Railroads and connections. It is the product of the Alexander Smith & Sons' Carpet Works, Yonkers, N.Y., and is the largest and most valuable single shipment ever made in this or any other country. The weight of the carpet is 1,500,000 lbs. and it is valued at $1,000,000. It goes to supply the ever increasing demand on the Pacific Coast. Such a shipment even a decade ago would have been beyond the imagination of the most optimistic weaver, and is tangible evidence of the carpet weaving industry in America.

To make this carpet required the labor of 8,000 workers for eight days an equivalent of one day's work for 64,000 operatives, and if it were piled up in rolls one on top another over an area of 400 square feet it would over-top the Singer Building tower.

DRAGGED INTO FLY-WHEEL

PROPRIETOR OF MT. BRYDGES MILL WAS KILLED.

Was Throwing Off a Belt When His Clothing Caught.

Mount Brydges, Ont., April 13.—A fatal accident happened at Stover's chopping mill here this morning about 10 o'clock, the victime being George Stover, the proprietor. No one saw the accident, but it was thought Mr. Stover was trying to throw off a belt when in some way his clothing caught, and he was dragged into the large fly-wheel. One leg was torn completely off. He lived about an hour after the accident.

Another Sherlock Holmes Story.

Congratulations have been pouring in from every quarter since the New York Sunday World commenced giving away the series of Sherlock Holmes stories in booklet form as free supplements with its regular editions. The complete story booklet to go with next Sunday's World is entitled "The Adventure of the Norwood Builder." Eleven more of the series will follow, one each Sunday for eleven consecutive Sundays. Don't miss one of this wonderful set of detective narratives. Order the Sunday World for the next months or two from your newsdealer in advance.

LIFEBOAT UPSET AND FIVE DROWN

CAPTAIN AND CREW TRIED TO REACH SHORE FROM THE WRECKED SCHOONER.

Algoma, Wis., April 13.—During a heavy fog off this port to-day, the schooner Ottawa went on Stoney Reef, and in attempting to reach land in a lifeboat, Captain Claus Weiberg, owner of the vessel, and four members of his crew were drowned in the surf.

The Ottawa, was an old fashioned two masted schooner of 200 tons and was bound from Manistique to Kenosha. Three of the bodies have been washed ashore and one of them that of Captain Weiberg. The others are probably at the bottom of the lake. A heavy gale was blowing at the time, and the schooner is expected to go to pieces before morning.

—*Dragged into fly-wheel.*

Boys Return From College.

Many of the local boys, who have been attending college outside the city, will spend their Easter vacation at home. Among the number are:—

Geo. Minorgan, Trinity College, Port Hope.

Harold Morrow, St. Jerome's College, Berlin, Ont.

Richard Sheehy, Ottawa College, Ottawa.

"THE CRUCIFIXION."

The beautiful and impressive cantata, "The Crucifixion" was rendered at St. John's church last night by the splendid choir, under the talented leadership of Mr. R. J. Dovey. The attendance was very large and appreciative. The general consensus of all present was that the offering last night was the best in the memory of all present.

STEEL BOUNTIES ARE NECESSARY

LIFE OF INDUSTRY IN MARITIME PROVINCE AT STAKE.

A False Grain Grading—Western Members are Anxious to Retain Clause in Grain Bill Restricting Ownership of Elevators.

Ottawa, April 11.—All hope is not yet abandoned for a renewal of the steel bounties, President Plummer and general manager Butler of the Dominion Steel Company, had interviews yesterday with some of the Ministers, and Premier Murray, of Nova Scotia, is said to be supplementing their efforts.

A general election is coming on in Nova Scotia, and the bounty in question would loom large, especially in some Cape Breton constituencies. The Minister's announcement affords little hope, but no stone is being left unturned to secure what is claimed to be essential to the industries.

If the Senate adopt the recommendation of its special committee and eliminates from the grain bills the proviso that owners of terminal elevators shall not deal in grain or own rural elevators, difficulty will ensue.

The Western farmers and the House members generally want the prohibition inserted, claiming that the absence of it is wholly responsible for the false grading. A fight over the point between the two Houses is quite probable.

DR. SOPER DR. WHITE

Specialists in diseases of Skin, Blood, Nerves, Bladder and Special Ailments of men.

One visit advisable: if impossible, send history for free opinion and advice. Question blank and book on diseases of men free. Medicine furnished in tablet form. Hours: 10 a.m. to 1 p.m., and 2 to 6 p.m. Sundays, 10 a.m. to 1 p.m.

To Set Aside Will.

Lindsay, April 11.—Messrs. Hopkins, Weeks and Hopkins have issued a writ against Willard Heard, hardware merchant of Fenelon Falls, on behalf of the widow and family of the late Joseph Heard, to set aside the will on the grounds of undue influence. It is understood that an estate of some $40,000 is involved.

British Force Massacred.

Calcutta, April 11.—The report is confirmed that Mr. Williamson, the British assistant political officer at Sadiya and Lakhimpur, in upper Burmah, and a party accompanying him, were murdered on the border of Assam by Abor savages.

LITTLE LOCAL LINES

The public schools of the city will open again on Monday, April 24.

There was services in many of the churches yesterday morning and evening.

Easter cards and novelties at greatly reduced prices to-day in order to clear out the stock. Times' Book Store.

The rural school summer vacation will in future be extended to September 1st, the same as villages and cities.

Remember your friends with an Easter card; many new souvenirs and articles suitable for the season. The Times' Book Store.

Rev. Robert Pogue lectured in the Presbyterian Church, Keene, last night, on the "Life and Works of John Wanamaker". There was a good attendance.

The opening of navigation on the Trent and other inland waters in this district will be much later this year than last. Last year at this time, boats were plying between Rice Lake points and Peterborough, while as yet this season the ice is still from 25 to 30 ins. thick and teams are daily crossing over Rice Lake and Stoney Lake.

Issy-Les-Moulineaux, France, April 13.—Aviator Prier arrived here at 5.45 o'clock this evening from Londou, having made the trip of about 290 miles in a monoplane without a stop.

"SICK MAN'S FRIEND."

That's the Name Given by Thousands to the Old Family Stand-Bye, "Nerviline."

1,000,000 BOTTLES USED ANNUALLY.

No better known or more popular family remedy has ever been compounded than "Nerviline." During the past half century its success has been phenomenal—due to the fact that it always cures.

"No one could get me to go to bed at night unless I was sure we had Nerviline in the house," writes Mrs. R. R. Weightman, of Bolton, P.Q. "Six years ago my husband was taken badly with rheumatism, which affected his right arm and shoulder. It was so sore and stiff as to be almost helpless for four years. I read of the cure of James E. Everett, and felt sure that when Nerviline cured like his, it would cure my husband. I got a dollar's worth of Nerviline, five bottles, in Buffalo, and am pleased to write you that the fourth bottle cured. We have since used Nerviline for Lumbago, Neuralgia, Colds, Chest Tightness and other minor ailments in the family and found 'Nerviline' to be the 'Sick Man's Friend.'"

CURED 4 YEARS RHEUMATISM

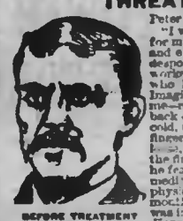
No other remedy is so useful in the home, so universally employed to alleviate pain and curing the sick. Refuse anything offered you instead of Nerviline, which is sold: Large 25c bottles or five for $1.00. By all dealers, or The Catarrhozone Company, Kingston, Ont.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and mental systems are invigorated; all drains cease—no more vital waste from the system. You feel yourself a man and know marriage cannot be a failure. Don't let quacks and fakirs rob you of your hard earned dollars.

☞ NO NAMES USED WITHOUT WRITTEN CONSENT

THREATENED WITH PARALYSIS



BEFORE TREATMENT

AFTER TREATMENT

Peter E. Summers relates his experience: "I was troubled with Nervous Debility for many years. I lay it to indiscretions and excesses in youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Sometimes the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many fraudulent physicians, wore an electric belt for three months, but received little benefit. I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and continue to do so.

CURES GUARANTEED OR NO PAY

We treat and cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES and all Diseases peculiar to Men.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

FINE WALLHANGINGS

We have the largest collection in Canada of high class wallpapers and other coverings and on receipt of a description as to size and nature of rooms to be decorated will send samples of the latest ideas with suggestions as to their application.

ELLIOTT & SON

LIMITED

79 King St. W. Toronto

London, April 13.—The body of a newly born infant was fished out of the river to-day by two boys who were angling for fish. The remains were enclosed in a paper box and apparently had been in the water only a short time. The police are investigating.

DID NOT BANG HIS HEAD OR USE CARVING KNIFE

Toronto, April 12.—George Buskin, the sailor's missionary, appeared before Judge Denton in the County Judge's Criminal Court this morning charged with non-support of his wife Ellen Buskin.

Mrs. Buskin said that she had been married previously in England and went to Kansas with her husband and he afterwards left her and wrote saying he had obtained a divorce. Later she met Mr. Buskin at a missionary depot on King street and was employed by him as a housekeeper at $6 a week and her support. About two years ago she married the accused. There were many disagreements and finally he left her saying he believed her former husband was still alive. She afterwards heard that her husband was dead.

Buskin promised to support her if she could prove this but had not done so.

In cross examination Mrs. Buskin denied she had ever banged the accused's head against the door," or "black his eye" or chase him with a carving knife. She said she had never wanted to marry him, but thought perhaps "God had called her to do a little towards helping in the good work." Afterwards, she alleged, Mr. Buskin lived an immoral life.

In answer to a question she said women had come to her and cried and told her had things about him. She admitted that when Mr. Buskin came back and was living with his children on O'Hara avenue, she went up there and demanded money.

Asked if her marriage to Buskin had injured her in any way, she said:

"Yes, I am a moral, physical and spiritual wreck to what I was before I knew him."

Mrs. Buskin said she was suffering from nervous breakdown, and this was due to what had been said and done to her by the accused.

His honor ruled that the case did not come under the statute as any ill effect experienced by Mrs. Buskin were not due to the fact that she had not been supported properly, but on her own showing, to what had been said and done to her and therefore dismissed the case. Mr. Buskin was not, therefore, given opportunity to refute his wife's statements.

Mr. Buskin is well known in Peterborough.

A woman who was elected mayor of a western town has been counted out by the horrid men. This is one of the things that the ladies will have to get used to if they ever succeed in securing equal suffrage.

VANCOUVER, B. C.

We offer for sale $100,000.00 worth of stock of THE COLUMBIA PROPERTIES CORPORATION, LIMITED. This Company has been incorporated under the laws of the Province of British Columbia and its objects are to purchase good City lots and erect buildings thereon. It is the intention of the Company to confine itself to the erection of dwelling houses at the immediate future, as this line of building offers the largest returns. The operations of the Company are confined to safe, legitimate and profitable business It aims to fill the law of supply and demand. The demand for dwelling houses is far in excess of the supply. The population of Vancouver is increasing at an enormous rate and it is very difficult to procure houses or living quarters of any kind. In 1900 there were scarcely 60,000 people in Vancouver and today the population of Vancouver is about 150,000. The building permits for March, 1911, exceeded $2,500,000.00, surpassed by few cities on the North American continent.

The Los Angeles Investment Company, operating along similar lines, has earned 40 per cent. annual dividends for the last fifteen years. THE COLUMBIA PROPERTIES CORPORATION should also earn excellent dividends for its shareholders.

THE DIRECTORS are men of good standing in Vancouver and Western Canada and will carefully safeguard the interests of the shareholders.

The Company is capitalized at $250,000.00 in shares of $50.00 each. The above issue of $100,000.00 is being placed on the market at $55.00 per share; terms $10.00 per share payable on application and $10.00 per month. The shares are non-assessable. There is no personal liability. An issue of $100,000.00 is being placed on the market in Vancouver and a considerable amount has already been taken up.

BANKERS AND BROKERS

441 RICHARDS STREET. P. O. BOX 1481. VANCOUVER, B. C.

STREETS PILED HIGH WITH THE BROKEN GLASS

Damery, Department of Marine France, April 13.—The "Champagne" riots, which began in this department yesterday, were continued this morning by the excited populace. Wine cellars are being destroyed and the disorder is spreading in spite of the presence of the troops called out to preserve order.

The trouble in this department began yesterday on the receipt of news from Paris that the Senate had passed a resolution in favor of the suppression of all territorial delimitations of area in which wine can legally be designated as champagne.

Seven thousand wine growers left here this morning marching on to Epernay, four miles distant, to destroy the wine cellars there.

The manifestants were admirably organized, and were aroused to a high pitch of fervor in the justice of their cause.

WAVED RED STANDARDS.

During the progress of the advance they sang revolutionary hymns and waved red standards. This they did to disown the Government, which they affirm has abandoned them to ruin. They declare the Government acted as a result of the steps taken by the makers of inferior grades of wine.

The column had reached the town of Ay at noon. Co-operating with another band which had reached Ay from a different direction, the rioters proceeded to Ventuil where they destroyed the huge wine presses.

Troops which had hurriedly been despatched to Ventuil charged and dispersed the mob, but not until the manifestants had accomplished their purpose.

The Attorney-General went to Ventuil by automobile to-day with the object of investigating the situation, but was unable to advance through the streets because they were piled high with broken chamoagne bottles.

Hamilton S. A. Band.

A hearty reception was tendered the Hamilton Salvation Army Band yesterday. They arrived on the 11.28 C.P.R. and the local corps which was there to meet them accompanied them to the Barracks, where dinner was served.

Good for the Kiddies.

Mr. Edwards, the popular propietor of the Crystal, kindly gave the proceeds of Thursday afternoon's performance to the children's aid society Between each film different local children sang excellently and won the favor of all present. They are to be congratulated on their success and also the person who spent much valuable time in training them for such a worthy object.

Becomes an Editor.

Stratford, April 11.—Rev. J. P. Gerrie, pastor of the Congregational Church here, has tendered his resignation, to take effect on May 1st, when he will become editor of the Leamington News. Failing health necessitates a change of occupation.

ADVERTISE IN THE TIMES.

SIR WILFRID MAY NOT ATTEND CORONATION OR CONFERENCE

Ottawa, Ont., April 12.—The renewed report that Sir Wilfrid Laurier has abandoned his proposed trip to England in May to attend the Imperial conference is no more well founded to-day than it was on Monday. The situation remains as it did then. The Premier has booked a passage by the Virginian which sails from Quebec on May 12, and if the business of Parliament shows any signs of being wound up within a reasonable time thereafter, he will cross the ocean; but if the reciprocity resolutions are still hanging fire he will not go the conference and the Conservative party will have to take the responsibility for the failure of Canada being represented at the conference by its Premier.

In view of the record of four years ago, when the Opposition openly pressed upon the Premier in the House of Commons that it was his duty to attend the conference and an agreement was reached that the business of Parliament should be wound up, it is hardly conceivable that Mr. Borden would be a party to a policy which would prevent Sir Prince of Denmark omitted, and such a gap in the ranks of the Empire's Premiers would be greatly resented by the people of Canada, and it is hard to imagine that the "Truly Loyal" Conservative party of Canada would allow itself to be placed in the position to preventing Laurier's presence there, especially in Coronation year.

"UP TO" THE OPPOSITION.

However, the whole thing is in abeyance, and nothing will be decided until after Easter recess. When the members get back next week, they will have felt the pulse of their constituents and it will then be possible to guess how long the reciprocity talk will last. But one thing is certain. The reciprocity question must be got out of the way or Sir Wilfrid stays at home. If it is disposed of by the 10th of May, and an agreement is made by which the rest of the business can be wound up by the first week in June then he will go. It's up to the Opposition to decide, without Sir Wilfrid would resemble a production of "Hamlet" with the Wilfrid going. An Imperial confer-

Eat Luscious "Sunkist" Oranges

Seedless—Fibreless—Juicy and Sweet—A Perfect Fruit

Five thousand California orange farmers, raising 60 per cent of the state's entire crop, select, each season, their perfect oranges and pack them under the name "Sunkist." This enables you to recognize and buy California's choicest, tree-ripened oranges. Until you have tasted a luscious "Sunkist" orange, you cannot begin to appreciate the excellence of oranges that are properly grown, rigidly inspected, carefully packed and swiftly transported. Serve "Sunkist" on your table tomorrow morning and learn the superiority of tree-ripened, fibreless, seedless, solid and sound oranges over the commonplace kind. "Sunkist" oranges are so nearly *all* food that they are much the cheapest kind to buy.

"Sunkist" oranges are *thin-skinned* and are *hand-picked*. The "Sunkist" orange is a firm, solid fruit. Ask your dealer for the "Sunkist" kind and make sure that each orange you get is packed in a tissue paper wrapper labelled "Sunkist." For these wrappers are valuable. You can buy "Sunkist" oranges by the box and half box.

FREE—This Handsome Regent Orange Spoon

Save 25 "Sunkist" orange wrappers and send them to us, with 10c to pay charges, packing, etc., and we will present you with a genuine Regent Orange Spoon, of heavy silver-plate and highest quality. Begin saving wrappers to-day. Each additional spoon desired need 10c and 25 wrappers. If regulations prevent sending cash when the amount is less than 10c. Our address never fails, we prefer postal note, money order, express order or bank draft. If's will be glad to send you complete list of valuable premiums. Mention both "Sunkist" and "Red Ball" wrappers for premiums.

California Fruit Growers' Exchange, 105 King Street, East, Toronto, Ont.

SERVICE AT PARK YESTERDAY

Spirited Address by Rev. Canon Davidson and Judge Huycke.

The services yesterday afternoon in Central Park under the auspices of the Ministerial Association were largely attended, and the addresses of Rev. Canon Davidson, of St. John's Church, and Judge Huycke, were listened to with attention, being impressive and had reference to the occasion.

The musical feature of the gathering was a decided attraction. Copies of the hymns used were distributed amongst those present and the singing was led by the splendid silver cornet band of the Salvation Army from Hamilton and our own local S. A. Band. The local clergymen were present and assisted in the exercises, which were intensely interesting and impressive throughout.

ROLLER RINK A NUISANCE.

A largely signed petition protesting against the operation of the Brock street Roller Rink, is to be sent into the City Council. As Brock street is purely a residential part of the city, and as the noise and disturbance is so great the residents will not put up with it, and say if redress cannot be obtained from the Council they are prepared to take the matter into the court. Such steps have been successful in other places among which are notable, Orillia, Ont., and Westmount, Que.

HONORING MR. MERRITT.

Has Accepted Principalship of the Newmarket High School.

Mr. Merritt, of the local Collegiate Institute staff is leaving the city and has accepted a position as principal of Newmarket High School. He has been connected with the local staff for the past couple of years and on behalf of the Collegiate he was presented with a useful travelling bag by principal H. R. H. Kemar, accompanied by the best wishes of the entire staff. Mr. Merritt will enter upon his duties at Newmarket after Easter.

INS AND OUTS

It is said that our Yankee cousins like golf. Now, what is the matter with Taft? It rhymes with the euphonious designation of rake-off.

• • • •

Dr. Osler is now advising people to shun toys. This g.f.j. thinks it always advisable to steer out of debt.

• • • •

Although making a profit from the [illegible] Peterborough's death rate is very low, but the outlook is uncertain. A good many persons may decide to operate automobiles this summer.

• • • •

A Peterborough lawyer takes credit for finding an heir to an estate. There would be some justification for a boast of finding an estate for an heir.

• • • •

It is said that one of our local aldermen is suffering from an application of X-rays. Very few aldermen will bear looking into.

• • • •

Possibly the railroads call them "limited" trains because only a limited number of persons get to their destination alive.

• • • •

There was said to have been an explosion in one of the local photograph studios the other day. No doubt with a view of seeing some moving pictures.

• • • •

The Examiner says that three thousand microbes can stand on the point of a single pin. What this g.f.j. would like to know from its contemporary is how many of these same microbes can sit down on the point of that same pin.

O'K

The Food Drink

Many people drink O'Keefe's "Special Extra Mild" Ale solely for its food properties. Being brewed of finest hops and malt, it contains all the body and brain building elements of these grains. It is because we use the best, that

O'Keefe's

Special Extra Mild ALE

is so rich and creamy—so thoroughly enjoyable—as well as so nutritious and wholesome. It's "extra mild" remember, and never makes you bilious. In Crown stoppered bottles. No broken cork or tinfoil in the glass.

Library Voting Contest

TWO HANDSOME LIBRARIES OF 80 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 80 volumes and handsome sectional bookcases will be given by votes to the lodge, church, society, school or other organization in the City of Peterborough, and one library of 80 volumes to the schools, lodge society, church or organization in the County of Peterborough, outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, Sept. 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the E. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough, and the County of Peterborough, outside of Peterborough, having the largest number of votes will be awarded the libraries.

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily, and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be secured:—

GIRLS' HAIR CUT OFF

A Despicable Act in a Cinematograph Theatre in England

Several young girls at Brighton, England, have just been the victims of a most despicable form of practical joking, and are now sorrowing over the loss of luxuriant hair upon the beauty and possession of which they had naturally prided themselves. With their hair in plaits they have visited one or other of the cinematograph theatres that abound, and upon unfastening their locks afterwards they have been astounded to find quantities fall to the ground, a big proportion of the plait having been cut by scissors or some other sharp instrument. The act has undoubtedly been committed in the darkness of the theatre. All attempts to detect the miscreant have failed.

PARIS NIGHT DANGERS

"It is humiliating to admit," says M. Achille, a member of the Paris Municipal Estimates for 1911, "that in the twentieth century the security of Parisians is scarcely better assured than it was in the days when the watch was given a drubbing every night. Respectable citizens shut themselves up closely in their houses, leaving the purse-snatchers and brigands masters of the streets. Do not accuse me of exaggerating; rather read over the columns of the press devoted to the numerous robberies committed daily in the heart of Paris, to the burglaries of unheard-of audacity, and to the frequent murders—many of them unpunished—as well as to the innumerable strikes, the mysterious sabotages, and anarchy everywhere."

MONEY FOR NECKLACES

Despite hard times, there still seems to be money in some quarters. In London a week ago a necklace of 85 pearls of pinkish orient was sold for $20,000, and another of 57 round pearls realized $5,750.

PLUCKY POLICE AND BURGLARS

Desperate Encounters of Recent Years Recalled by the Murder of the Houndsditch Police

The attempted burglary of a jeweller's shop in Houndsditch, which resulted in the death of three constables at the hands of the baffled miscreants, may, in the suddenness of its awful catastrophe, be said to stand alone in the annals of English crime. It surpasses even the tragedy of January 23rd, 1909, when Constable Taylor lost his life while gallantly striving to apprehend two Poles, named Hefeld and Lepidus, who, after a desperate resistance, involving two deaths, besides numerous injuries to others who had taken up the pursuit, finally, by shooting themselves, evaded justice.

Police Heroes

Wheatley and Wright, having successfully burgled the warehouse of Mr. Elsbach, a Hoxton furrier, were discovered by a policeman, who, despite a bad thigh wound from a revolver bullet, managed to apprehend the former. Wright contrived to escape, and, having shot down a constable who attempted to seize him, gained the roof of a block of houses lying between Hast Road and City Road, where, after a struggle, he was captured.

A narrow escape was that of Constable Robinson, when on November 17th, 1875, he attempted to arrest a burglar who had just quitted a house in St. John's Park, Blackheath. Five shots from a revolver were aimed at the policeman, who, although severely wounded, retained his hold, threw his man to the ground, and ultimately, after a desperate struggle, secured him.

Not so fortunate was an officer named Cole, who, on the night of December 1st, 1883, being on duty in Ashwin Street, saw a man clambering over the wall in front of the Baptist Chapel. Thinking that all was not right he proceeded to arrest the suspect, who, in his turn, attempted to break loose, and on finding that he could not effect his purpose, whipped out a revolver and fired four shots, the last of which took fatal effect, so that when two constables who had been summoned arrived on the spot they found their comrade lying dead.

Concealed in Wagon

Although fortunately unattended by any tragic consequence, the pursuit of Fowler and Milsom, who were wanted for the murder of Mr. Smith at Muswell Hill Lodge in 1896, was as exciting as it was persistent. The miscreants, having left London, made for Liverpool, whence they travelled across country to Cardiff, where they threw in their lot with a showman named Sinclair. From Cardiff they moved to Pontypool, Bristol, and Swindon, whence they were traced by the police, now close upon their heels, to Chippenham, and Bath, at which town, at a house in Monmouth Street, they were finally run to earth.

Fraught with even more sensational incidents was the comparatively brief chase after the Netherly Hall burglars. Twice when stopped by the police the miscreants answered with revolver shots, on the third occasion killing a constable named Byrnes. They then gained Penrith Station and were noticed by a guard concealed beneath the tarpaulin of an empty wagon, as the train was starting. On reaching Tebay, the guard, as there were no police at hand, called together all the railway officials available, who surrounded the wagon where the men were concealed. Finding themselves discovered, the ruffians made a desperate bid for freedom. One, indeed, did escape, only to be captured a little later; but the other two were secured and tied to telegraph posts, there to await the arrival of the police.

THEATRE DONT'S

Advice that a Veteran Actor Contributes Without Charge

Don't arrive at the theatre late. You would not begin your dinner with the entree.

Don't keep your theatre bonnet on until the very last minute before the curtain goes up, and thus give the man behind you a fit wondering whether you are going to take it off or not.

Don't secure side seats and then glare at the people who have inside ones and pass you on their way out to the same man between the acts. Maybe you've done the same thing yourself.

Don't chatter during the play. The actors are paid to speak their lines for your entertainment.

Don't find fault with the part the actor is playing. He reads the author's lines.

Don't be afraid to applaud. Actors like enthusiasm.

Don't explain the story of the play to your companion. The man on the other side might want to hear it for himself.

Don't lose your temper if some persons come in late and you have to stand up to allow them to pass, and thus drop your hat, coat, bag, opera-glasses, umbrella, and programme.

Don't leave the theatre before the play is over—a certain amount of courtesy is due to the players while they are talking.

GOAT WAS A GHOST

Mr. Alfred Tennyson Dickens, the eldest surviving son of Charles Dickens, relates how the servants at Gad's Hill once threatened to leave because they were terrified by a ghost. Dickens, armed with a gun, and his sons, armed with bludgeons, set out to find it, and saw a white object which emitted an awful noise. It proved to be an asthmatical old goat.

DEARER TEA

Is Likely—Rubber Monopolizing Attention in Ceylon

There are distinct signs which point to a rise in the price of the cup that cheers but does not inebriate. In the first place, the use of tea in foreign countries is rapidly increasing, the result being a bigger demand on the resources of the tea plantations of India, Japan, China, and Java. Last year, for instance, there was altogether an increase in the shipments of tea to foreign countries of 14,000,000 pounds as compared with 1909.

On the other hand, there was a decrease in the shipments from India to the United Kingdom of over 9,000,000 pounds last year, which is partly explained by the greater demand for tea abroad; and, although Indian production has shown a good increase during the last two years, apparently it is not sufficient to meet the steadily growing demand, and one really short crop in India might make tea dear for years, so closely are supply and demand now adjusted.

Some of the Indian companies hold much spare land, and some of it is suitable for tea, but they have been, and still are, deterred from extension by difficulty in getting labor. Then, again, for increased production growers have mainly to rely upon good weather. There is always the risk of hailstorms and floods, blight and drought, which have to be faced, while working expenses are likely to increase by degrees, owing to the difficulty of finding all the labor for the various branches of tropical agriculture now being developed in the East.

There is another reason why the supply of tea is only just enough to equal the demand. In Ceylon, for instance, only 10,000 acres have been added during the last four years, rubber having monopolized attention. And rubber estates are competing with tea for the coolies of India that both need. Moreover, the yield of the plantations is beginning to diminish by reason of the rubber trees interplanted amongst 75,000 acres of tea. It is now proved, says an expert, and recognised that the heavy shade of rubber trees amongst tea is seriously affecting the output of the latter product, and as time goes on a sharp shortage in the output of tea so situated must be looked for. This would mean an increase in price to the consumer.

AGED TWINS

Two Brothers Celebrate Eighty-First Birthday Anniversary

The other day two brothers, John and William Awstwick, of Selby, Yorkshire, celebrated their eighty-first birthday.

The brothers were born at Burn, a village three miles to the south of Selby. They are the sons of a farm laborer, and were christened at Brayton, near Selby. They are twins, and are two of eight children, four of whom still survive, the oldest being a sister aged eighty-six and the youngest another sister of seventy.

William Awstwick has been a stone-dresser and has worked all his life in the quarries. John was apprenticed to a tailor at Thorpe. He afterwards went to Selby, where for over forty years he has followed his occupation. He resided in one house nearly half a century.

Both brothers have married and have grown-up families—in fact, grown-up grandchildren. They are both now enjoying the old age pensions.

DICKENS AND THE GHOST

The eldest surviving son of the famous novelist, Mr. Alfred Tennyson Dickens, tells an amusing story in his lecture, "My Father's Life and Works," about life at Gad's Hill. It relates to a ghost which haunted a neighboring piece of waste land, on which stood a monument to a Cavalier named Charles Larking. As the maidservants all threatened to leave, Dickens, armed with a double-barrelled gun, and his two sons with bludgeons, set out to find it. Suddenly they saw a white object and heard an awful noise. Dickens cried, "Stand fast, or I fire!" It proved to be an asthmatical old goat.

FOR PIPE SMOKERS

M. de Watteville, of Paris, is a collector of pipes, and his study of the question has enabled him to judge people by their pipes. The pipe, he tells us, is characteristic of the race, while the cigar and cigarettes are cosmopolitan. The activity of a race is proportional to the length of the stem of their pipes.

The shorter the pipes the more laborious the people, and, inversely, the longer the pipe the more slothful the people. The more economic the people the shorter the pipe-stem, and, inversely the more prodigal the race—the more gluttonous it is—the bigger is the bowl of the pipe. His last deduction regarding the smoking of pipes is perhaps the most unsailable. It is: "The main point in regard to pipes is not to break them."

No one who enjoys the old English or Irish clay will dispute this.

"NONSENSE"

Whilst Lord Archibald Campbell was at Eton, he and his elder brother, the Duke of Argyll, and Lord Ronald Gower were commanded to Windsor by Queen Victoria. Her Majesty turned to Lord Gower and asked what form he was in. "In the fourth, ma'am," he replied. She put the same question to Lord Lorne, and received the same answer. "And what form are you in, Archie?" her Majesty said to Lord Campbell. "Nonsense, ma'am," he replied. The Queen was puzzled. She repeated the question. "Nonsense," repeated Lord Archibald, unabashed. Eventually it was explained that "Nonsense" was really the name of the form, to distinguish it from the "Sense" form, the difference between the two being about in the latter the Latin verses had to make sense, and in the former the boys might write nonsense so long as it scanned.

WHEN GREEK MEETS GREEK.

A German Jew who keeps a pawnbroker's shop in Sydney is in the habit of leaving his daughter in charge while he attends sales to pick up bargains. A Chinaman came in one day to buy a watch. The girl placed four on the counter, and, while her back was turned, John changed the places of the highest and lowest priced watches. He then said he would take the cheapest one, for which he paid and departed. It was not until he was clear away that she discovered the fraud, about which, on her father's return, she told him with many tears. "Never mind, never mind, mine dear," he said, "dose watches was all de same price. But vot a scoundrel dot Shinaman must be, don't he?"

To Hoarse to Speak

An American Doctor Tells of the Grand Results Achieved With "Nerviline."

"I had a patient with Quinsy that I found great difficulty in curing," states Dr. Wilson. "Every time he caught cold or got chilled he suffered intensely from sore throat, hoarseness, throat and chest soreness.' After every attack his throat and chest seemed more sensitive. This patient lived in the country, and couldn't come to the city for treatment. I concluded that the best remedy would be an honest liniment and because of its enormous sale and well-known merit, I advised 'Nerviline.' Morning, noon and night Nerviline was rubbed over the neck and chest, and once a day diluted with water it was used as a gargle. In a day or two my patient reported, an improvement, and by continuing the treatment with Nerviline he was cured. I can recommend Nerviline for breaking up colds, for chest tightness, throat inflammation, quinsy, tonsilitis and similar conditions."

NERVILINE CURES QUINSY.

Not a druggist or doctor who has examined the formula of Nerviline who won't tell you how good it is—why it contains the best medicaments known to science and for general family use has no equal.

DEPARTMENT OF RAILWAYS AND CANALS.

Ontario—St. Lawrence Canals.
Galops Canal.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Improving Upper Entrance to Lock, No. 28," will be received at this office until 16 o'clock on Friday, April 15th.

Plans, specification and Form of Contract to be entered into can be seen on and after March 18th, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of Tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labour, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $6,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.
Department of Railways and Canals,
Ottawa, March 21st, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

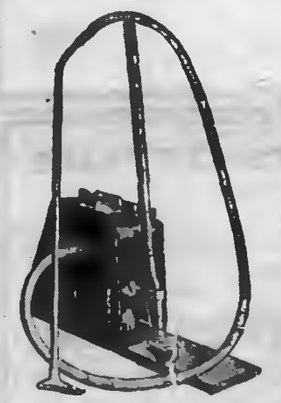
PARROT SAVES HOUSEHOLD.

Shrieks "Father, come Quick!" When Room Catches Fire.

A parrot saved a Chatham household from a terrible death in the early hours of a recent morning. All the inmates were asleep, when they were aroused by the bird shrieking "Father, come quick!"

It was then found that the house was full of smoke, and that a room downstairs was in flames. Some difficulty was experienced in removing a tenant named George Pett, who is partially paralysed, from one of the rooms, but everyone was brought safely out, and the flames were quickly extinguished by the fire brigade.

The cry of the bird which probably saved several lives, is one of several which it is fond of repeating.



When a person buys any other VACUUM CLEANER, they always express the hope that it will be as good as the 'KING EDWARD'. The name is Synonymous with BEST; and the article like the name stands out as the greatest "Peacemaker" in the home and the world at large.

$100,000,000.00

Was Made in Western Town Property During the Year 1909

Did you anticipate in these huge profits or did you "pigeon-hole" the propositions submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognize the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Five or ten years ago I had the chance to buy this or that property at $100 or $500, and now it is worth $10,000." The average person sneers at the person who makes such a statement and says: "I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Poe, Alta., at from $50 to $100 each, or are you going to be the man who will have from $1,000 to $10,000 in cash as a result of having bought property in this town in this year of grace, 1911?

POE A COMING COMMERCIAL CENTRE

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich coal mines, is close to rivers and lakes and large forests are easily accessible from this point. These natural resources insure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

POE AS A MANUFACTURING CENTRE

This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forests furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost.

The town is located on the main line of a transcontinental railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

Poe townsite was recently placed on the market and already over 200 lots have been sold and many of these lots have already changed hands at a substantial increase in price. Most of these lots were purchased by representative business men throughout Canada who are now profiting by their foresight.

The townsite is high and dry and very suitable for building purposes.

OPPORTUNITY

is useless unless you possess the courage to act. You might possess great wisdom, you might read a good deal or travel much and thus see all kinds of opportunities to make money, but unless you have the courage to act on your judgment and wisdom all of these desirable qualities are entirely useless.

Lots in Poe are a good investment at present price. The town is bound to grow rapidly. Owing to the easy terms of payment you have the ability to buy and if you do not buy now it is because you are lacking in courage, and the chances are you will never be like the man you now admire most, rich, courageous and wise.

TORRENS TITLE.

Poe townsite is held by us under the Torrens system of title. Under this system the title is guaranteed by the Government, therefore absolutely safe.

PRICES AND TERMS.

Prices of lots range from $50 to $100 each, and they can be purchased on terms of one-tenth cash, balance in eighteen equal monthly payments; or quarter cash, balance in six, twelve or eighteen months.

INFORMATION

We have issued an attractive circular giving full information pertaining to the town and its prospects, together with map showing lots for sale. If you wish to receive this attractive circular cut out and fill in the attached coupon and mail it to us to-day.

INFORMATION COUPON

Gentlemen,—With a view to buying property in Poe, Alta., please send me full information with map and price list, and oblige,

Yours Truly,

THE WALCH LAND CO.

Lands, Townsites and Investments

UNION BANK BUILDING, - - WINNIPEG, CANADA

W. A. Fisher, President

The North-Western Asbestos Mills Company

Mr. Fisher comes to The North-Western Asbestos Mills Company with years of experience to recommend him as a master of finance, a man of far-seeing business judgment and splendid executive ability.

He will assume an aggressive, though conservative policy in the affairs of The North-Western Company, and will stop at nothing short of success.

It was through Mr. Fisher's efforts that the International Asbestos Mills and Power Company secured valuable concessions in the way of lowered freight rates, enabling that company to market their products in many parts of the country, meeting the sharpest kind of competition.

Mr. Fisher is keen after business, vigorous and progressive and the directorate of The North-Western Asbestos Mills Company may be congratulated upon securing his services as President.

PUT YOUR SAVINGS INTO North-Western Asbestos Shares

Where They Will Earn Something For You

Your Opportunity to You this Money Making Enterprise

You must not let this opportunity pass by. You can not afford to. It means something to you if you buy now while you can get shares in this profitable enterprise at such a very low price. Our plan is a most liberal one and it means a short cut for our stockholders to handsome profits and early dividends. Shares are selling now for 5 cents. The market is on the advance and there is every reason to believe that they will be worth many times that amount in a short time. Our proposition is not a prospect. We have passed the experimental stage and are on the highway to success and stupendous earnings. You want your share. You want your savings invested where they will earn something for you. You don't want to have to wait forever on dividends. You want an investment that has security and promise of great earnings in the shortest possible time. THEN YOU WANT A LIBERAL BLOCK OF SHARES IN THE NORTH-WESTERN ASBESTOS MILLS COMPANY while you can buy them at five cents per share.

C. H. Parker Comes to North-Western Co.

This Company has secured the services of C. H. Parker, M. E. and H. E., of Thetford, Canada.

Mr. Parker has had years of experience in the Canadian Asbestos Fields, having been in charge of some of the largest and most important mines in the country.

In taking service with this company he will have complete charge of the operation at the mines and mills in Wyoming and will undoubtedly institute the newest and most modern methods in mining and milling our products.

Many new plans have been devised that will further develop the Company's holdings and Mr. Parker's association with us will undoubtedly make a short cut to greater profits and quick dividends.

Profits Aggregating Millions of Dollars

There is every reason to believe that profits aggregating millions of dollars will be made by our Company in the future. You should not miss the opportunity to secure your share.

The world wants asbestos. We have asbestos to sell. The demand is increasing daily and shares in our enterprise that are selling to-day for 5 cents will probably be selling for 5 times that amount inside of six months.

THE INTERNATIONAL ASBESTOS MILLS AND POWER COMPANY, OPERATING IN THE SAME FIELD WITH US, IS A GRAND SUCCESS. THE PRICE OF SHARES IN THEIR COMPANY WAS STARTED ONLY A FEW MONTHS AGO AT 10 CENTS AND ARE NOW SELLING FOR 25 CENTS. ON APRIL 1ST THE PRICE WILL BE ADVANCED TO 50 CENTS.

THE INTERNATIONAL COMPANY HAS ALREADY PAID A DIVIDEND.

Pay for Your Shares a Little Down---a Little Each Month

We have arranged a plan whereby the purchaser may secure a liberal block of our stock while it is selling at such a low figure and pay for it, a little down and the balance on easy instalments.

But you should not delay your subscription. The price is liable to advance at any time. Send your order to-day with first payment and we will trust you for the rest.

Before you hardly realize it, your subscription will be paid up and you will be a part owner with us in our enterprise that we hope to make the biggest thing of its kind in the world. Don't wait another day, but clip the attached coupon and send it in.

What Others Have Accomplished We Can Accomplish Also

The International Asbestos Mills and Power Company, our nearest neighbor, has attained wonderful success in a phenomenally short space of time.

Only a few months ago shares in that Company could have been had for 10 cents. To-day They are selling for 25 cents, and a positive advance to 50 cents per share is announced for April 1st.

They have paid one dividend and have a substantial start on another one, which it is expected will be paid in July.

Is there any reason why our company cannot do as well? We think we will and we invite you to come in with us now and receive your share of the first dividend to be paid by The North-Western Asbestos Mills Company. It won't be long.

SCHEDULE

200 shares cost $1 down and $1 a month for 9 months.
400 shares cost $2 down and $2 a month for 9 months.
600 shares cost $3 down and $3 a month for 9 months.
800 shares cost $4 down and $4 a month for 9 months.
1,000 shares cost $5 down and $5 a month for 9 months.
2,000 shares cost $10 down and $10 a month for 9 months.
10,000 shares cost $50 down and $50 a month for 9 months.

5 PER CENT. DISCOUNT WHEN CASH ACCOMPANIES ORDER FOR PAYMENT IN FULL.

THE NORTH-WESTERN ASBESTOS MILLS COMPANY, FIRST NATIONAL BANK BUILDING, DENVER, COLORADO.

CHINA HALL, 394 George St.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

For Sale.

Remington No. 6, in first class condition. Only $25. Box 1168.

Salesman Wanted.

to appoint County Managers for our $9.00 Vacuum Cleaner. Big money to hustlers. Exclusive territory and goods. Hawn Co., 820 West Warren, Detroit, Michigan.

Mr. O'Connell to Rebuild.

Mr. J. T. O'Connell, the local real estate man, whose building at Mt. Julian was destroyed by fire recently will rebuild at once. The old structure, which was used as a depot, was a land mark, having been erected 30 years ago.

Again Remanded.

The three ladies McColl, Copperthwaite and Shearer, who are up on on a charge of stealing some chop from the Quaker Oats Company, were again remanded until Friday next.

Another Boat on the River.

Messrs. Ed. Lynch and Ben Wilson, of Hastings, have purchased the steamer Calumet, from Mr. W. F. C. Boyd of Bobcaygeon. It is understood that this tidy little craft will be used for pleasure trips between Peterborough and Rice Lake points. She will be a valuable addition to the river steamers.

Jewish Festival Season.

It was intimated in The Times a few days ago the Feast of the Passover is now being observed by the Jews of Peterborough as well as by the Jews in every part of the world. The reason for their keeping the festival as told by a local Jew, is to remember the passing of the Jews from Egypt into the Promised Land, led by Moses when they had nothing to eat, and took corn out of which they made bread by placing it upon their shoulders to cook in the hot sun.

Five Teams in the District.

The meeting of the northern branch of the Lake Shore Lawn Bowling League did not come to pass on account of the fact that the president of the district was expecting a request from Uxbridge to enter the league. With Uxbridge added to the league there will be five teams in the district, with Lindsay in the centre. Port Perry and Uxbridge on one side and Peterborough and Millbrook on the other. The meeting will likely take place next week.

Mr. C. J. Caley Honored.

Mr. C. J. Caley, who has been connected with the Lock Works for the past eighteen months as manager, was on Wednesday evening presented with a silver tea service accompanied by an address from the employees of the Lock Works. Mr. and Mrs. Caley left yesterday morning for New Haven, Conn, where they will reside in future.

No Paper Yesterday.

On account of yesterday being a Public Holiday there was no issue of The Times. Usually the paper is issued on the morning of the holiday, and none the succeeding day, but in a case of Good Friday we decided to make a change, as Saturday is a day in which the demand for The Times is very great.

How to Tell Catarrh

An Experienced Physician Says the Following Symptoms are Sure Signs.

You can always tell catarrh by the following well known signs:—

Eyes red and watery?
Difficulty in breathing?
Are the nostrils stuffy?
Do you sneeze frequently?
Is your throat hoarse?
Do you spit phlegm?
Oppression in the chest?
A ringing in the ears?

If you have any of these indications of catarrh cure the trouble now—stop it before it gets into the lungs or bronchial tubes—then it may be too late. The remedy is "Catarrhozone," a direct breathable cure that places antiseptic balsams and healing medication on every spot that's tainted by catarrhal germs.

There can be no failure with Catarrhozone—for years it has successfully cured cases that resisted other remedies. "No one can know better than I the enormous benefit one gets from very first day's use of Catarrhozone," writes T. T. Hopkins, of Westvale, P.Q. "I had for years a stubborn case of Bronchial Catarrh, ear noises, headache, sore eyes, stopped-up nose and throat. It affected my appetite and made my breath rank. Catarrhozone cured quickly."

Get Catarrhozone, use it and you are sure of cure—beware of imitations and substitutes. Large size Catarrhozone with hard rubber inhaler lasts two months and is guaranteed. Smaller sizes 25c and 50c. By mail.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents . . . . . .

THE CHURCH AS A GUIDE.

Editor Morning Times.

Sir,—In a late issue of your valuable paper I saw a statement that the Socialist movement demands that all members should cease their relations with all churches and refrain from all religious practices. There could not be a greater mistake than such a demand. The church is humanity's best friend. There can be no greater need than the culture of mans religious nature. Religion is not something which man gets, but a divine endowment which man has by creation. To prohibit the culture of man's religious nature because we do not like some religious denominations is very much like prohibiting mental culture because we do not like the school system. The religious life is the foundation of all real happiness. We should not be removed by what other people do or do not do. True religion makes free men, and this is the work of the church. Man has a loving nature as well as an intellectual one. It is easy to hate, as it is easy to be ignorant. The church and the school go together.

J.M.H.

THE TIRE BY-LAW.

Editor Morning Times.

Dir,—I notice a letter the other day from J. J. Hartley re the Tire By-law, and I am a little surprised that he should not see the great benefit such an industry would be to the city. If Mr. Hartley would like to be informed as regards the merits of the proposed by-law, let him attend the meetings held in the various parts of the city in support of it. The by-law itself is printed and may be seen almost anywhere.

I hope that all will unite in support of the measure.

L.M.A.

PETERBOROUGH HORTICULTURAL SOCIETY.

Editor Morning Times.

Sir,—It affords me great pleasure to say a few words with regards to the Peterborough Horticultural Society. For a person either resident or a visitor, to see beautiful parks, lawns, etc., in a city, it gives them a good opinion of that city; it makes them think that there must be some beauty-makers, with regards to lawns, parks, etc., in that city. The one object of the Peterborough Horticultural Society is that particular thing. To make the parks, lawns, etc., beautiful, we have got to have the people to see that it is done in the proper way. Why then shouldn't we increase our membership of the Horticultural Society. By increasing this society we will have an opportunity of being one of the city's beauty-makers.

An Enthusiastic Member.

IF I WERE MAYOR
What I Would Do

REMOVE THE POLES.

Editor Morning Times.

Sir,—If I were mayor I would insist on having the crooked and unsightly poles that disfigure our street removed, and compel the telegraph companies to place their wires underground as the Bell Telephone Company has done.

George Street.

GET CHEAP POWER.

Editor Morning Times.

Sir,—I think, Mr. Editor, the chief business of a mayor is to lead—show the way upwards and onwards, and endeavor to have his council follow. Now, sir, it seems to me, that a bright and clever man at the head of our council should be able to make his mark at present, in developing the matter of cheap power, without which we can never hope to amount to much. Peterborough should, by reason of its splendid advantages as regards running water, be one of the largest manufacturing centres in Canada. If I were mayor of this city I would devote all my energies to this end, knowing that our future depends on our getting cheap power. I would formulate a scheme and submit it to the council, and through them to the people, providing for power sufficient and at a price that would attract manufacturers of the better class. This, I understand, can only be done by securing the power at Lakefield, and at No. 4 dam, the latter now controlled by the Otonabee Power Co. Then I would provide both street and domestic light at cost price. I would place the whole power business, not in the hands of a commission, but in the hands of a competent commissioner, and make him responsible to the council and to the people. Have him run it as a business proposition and not as a graft, and pay him a good salary.

I would also take an axe and knock on the head the Town Trust Commission as a body, and give the job of looking after our debentures, etc., to one good man, and also make him responsible to the people.

The Water Commission should be treated the same way, by making one man instead of several responsible. There would be no evasion of their respective duties or shirking responsibility, and it would save a lot of money.

These are some of the things I would do if I were mayor.

Veritas.

POOL ROOMS.

Editor Morning Times.

Sir,—You were kind enough to ask for correspondents on the above topic. If I were mayor I would, 1st, Close the poolrooms at ten o'clock each night; 2nd, Prohibit boys under eighteen years of age from entering these pool rooms at any time; 3rd, Would visit these poolrooms and see that the police make them carry out the laws and regulations of the license. Hoping our present mayor will profit by what I say.

Old Sport.

REDUCE THE COUNCIL.

Editor Morning Times.

Sir,—It isn't a bad idea of yours, dear Times, to invite letters from your readers on public topics. If I were mayor, I would try and carry through a programme something like the following:

1. Reduce Council to five—four and the mayor.
2. Meet in regular session once each month at 9 a.m., and continue on Committee work all day, meeting in the evening in Council to pass the reports of the committees.
3. Reduce the number of city officials by re-arranging their duties.
4. Reduce the tax rate, which can easily be done if the above programme is put into effect.

Now, sir, how would the above work out? Let me tell you, under our present system the council meets at 8 o'clock in the evening; by the time the minutes and communications are read, it is perhaps 9.30 or 10 o'clock. The members keep on scrapping, mostly over small matters for a couple of hours or so, when somebody pulls out his watch and finds it is 11.30, and forthwith moves an adjournment. There is still most important matters yet to deal with, but the hour is late and these matters, do not as a rule, receive the careful and thoughtful attention that should be bestowed upon them, and they are put through in the rush. Now, sir, under the new system above proposed, the council meets in daylight. Each member is responsible for his own department or committee, of which all the council belong. When, for instance, it comes to the Board of Works, the council can, if need be, put on their hats and go in a body and personally examine the work, or proposed work, that may be on the tapis.

I would pay each member a fixed allowance—say $5 per day for one day per month, during the year. I would also give each member a couple of hundred dollars salary in addition. Each chairman would then naturally try to run his department as a business proposition, the mayor being general manager as it were.

These are a few of the things I would do if I were mayor.

X.Y.Z.

WOULD GET MARRIED.

Editor Morning Times.

Sir,—If I were mayor, and did not happen to possess a wife, I would get one right off. This, I consider, the first step towards making a successful chief magistrate.

A Lonely Maiden.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mr. Harold Smith, of the R.M.C., Kingston, spent Good Friday here.

Mrs. A. S. Elliott, residing at 421 Bethune street, is visiting relatives in Detroit, Mich.

Miss Leila Smith is visiting friends at Mount Pleasant, Brant County.

Misses Francis Smith and Georgie Davidson will spend Easter with friends in Millbrook.

Miss Ella Ketcher, of the Otonabee Light & Power Company, will be with friends in Toronto for Easter.

Mr. Arthur Rosborough, of Toronto University and a graduate of the P.C.I., is spending Easter at his home near Peterborough.

Mrs. S. A. Clarke, with baby Charles, is spending Easter with her mother, Mrs. John F. Emmerson, of Stewart street.

Mr. Geo. R. Ross, of Kent's Drug Store, is spending Easter with his parents at Midland.

Mrs. A. J. Caley, of London, is spending a couple of weeks as the guest of her parents, Mr. and Mrs. J. T. McCoy, 339 Pearl avenue.

Miss Stella Knox, of Havergal Ladies' College, is visiting her mother, Mrs. C. H. Moore.

Mrs. Thos. Rehill, Master Harold, and Miss Pearl Rehill, are the guests of Mrs. R. L. Crerar, Sulphide, Ont., for Easter.

Mr. Chas. Thornton, of Orillia, is here for the Easter season, the guest of his parents, Bethune street.

Mr. W. J. Potter spent Thursday here.

Mr. J. J. Turner, jr., went to Orillia for Good Friday.

Miss Electa Goard went to Newtonville for the holidays.

Misses Grace and Phylis Goldey spent Good Friday in Toronto.

Mr. Clarence Buller, of Campbellford, is spending Easter at home.

Mr. Walter Perks, of Montreal, is spending Easter at home.

Mr. Stanley Gillespie, of Picton, was in town on Good Friday.

Mr. Norman Braund, of Uxbridge, is home for the holidays.

Mrs. Lackett, of Kingston, is renewing acquaintances in this city.

Mr. Vaughan Michell, Bank of Montreal, Port Hope, was the guest his parents for Good Friday.

Mr. Max Dobbin, of the C.P.R. advertising Department, Montreal, is the guest of his parents, George street, for the Easter season.

Mr. Arthur Dawe, Bank of Toronto, is the guest of his parents for Easter.

Mr. P. James Heaslip went to Gananoque to visit friends on Good Friday.

Miss M. Hallett, teacher at the Queen Alexandra Public School went to Cornwall on Thursday for the Easter vacation.

Mr. T. W. Harper, Bank of Toronto, Montreal, is the guest of his parents over Easter.

Miss M. Ross, teacher, of the South Central School, went to Barrie for the Easter vacation.

Mister Laing Thompson, went to Keene on Thursday and returned to Lakefield the same day, where he will spend the Easter vacation.

Miss S. Carmichael, teacher at the East Ward School, went to Orillia for the holidays.

Mr. William Sheffield went to Cobourg for Good Friday. From Cobourg he goes to Winnipeg on a leisure trip.

Mr. and Mrs. W. H. Meldrum are the guests of their daughter, Mrs. Ernest Green, Toronto.

Mr. and Mrs. Thos. McKutcheon, of Cobourg, are the guests of their daughter, Mrs. R. A. Elliot, 247 Engleburn avenue.

Mrs. W. J. Read, of this city, is spending a short time in Lindsay, renewing acquaintances.

Miss Elva Prull, late of Oshawa, has secured the position of bookkeeper and stenographer at Dr. Browett's Optical Institute.

Mr. Elmo Bogue, who has been attending the National School of Telegraphy, Lindsay, will spend Easter with his parents, Mr. and Mrs. Jas. Bogue, Dublin street.

Mr. R. Lees, County School Inspector, with his sons Colin and Harold will spend Easter in New York. They are going with the Toronto Teachers' special excursion.

A GOOD INVESTMENT.

We call the attention of capitalists as well as others who have money to invest, to the advertisement of the Columbia Properties Corporation, Limited, of Vancouver, B.C., which appears elsewhere in this issue. This company is incorporated for the purpose of dealing in real estate and in the erection of dwelling houses. Their operations are confined to safe legitimate and profitable business. The demand for dwelling houses in Vancouver is far in excess of the supply, so that substantial dividends may be looked for.

The directors of the company are men well known in business circles, and capable management is therefore assured. A post card addressed to the General Securities Company, Limited, 441 Richard street, Vancouver, B.C., will secure a prospectus, giving full information.

CHEAP POWER

(Continued From Page 1)

is merely estimated. All other items in the estimate are self explanatory.

Sale of Power.

The estimates show that 2500 h.p. could be sold for an average price of $17.55 per h.p. per year. This refers to continuous 24 hr. power and does not take into account the possibility of re-sale of 10 hr. power or the possibility of supplying a connected motor load of say 2000 h.p. with 1500 h.p. station capacity. Allowing for re-sale of power and overselling of capacity, it would be entirely safe to assume that the enlarged system could carry a load of 3000 h.p. to 3300 h.p. with 2500 h.p. capacity installed. The lesser figure of 3000 h.p. would therefore reduce the average price to $14.65 per h.p. per year for 10 hr. power.

All the lighting and power business is at present handled by the company on a flat rate, and all present users of power, who are under contract, should be held to the present rates during the term of their respective contracts, and all new power business should be taken at a revised rate to be based on load-factor and on the annual charges for which the city would be liable in the event of its carrying out the proposed scheme.

All the lighting business should be handled on a meter basis, but at the outset the flat rate light users should have the option of coming in under the meter rate or continuing on the flat rate basis until such time as the revenue from metered light is great enough to allow of a definite decision as to whether or not the lighting load shall be placed on a meter basis exclusively.

Scope of Reports and Conclusions.

It is to be noted that the scope of this report does not cover the discussion of present rates or of rates to be charged in the future, this being a question to be taken up later in detail. The function of this report is to indicate the most favorable location for development from an economic and engineering standpoint, and having established this, to show what capital investment will be necessary to develop and deliver power to the customers. Also to show what annual charges such delivery will entail, and to indicate an average price for which the output of the preliminary installation of 2700 h.p. must be sold to cover said annual charges.

The capital cost for full generating capacity will be about $193,000 and assuming $150,000 of the purchase price chargeable to the generating portion of the system, the total capital cost of power at the switchboard would be $343,000 or $60.00 per h.p. on the assumption that 4000 h.p. can be ultimately developed. On this basis, the price asked by the company is not unreasonable.

The capital cost and annual charges for 4000 h.p. capacity have been included in this estimate for two reasons, first, because the restrictions of the lease make it uncertain as to whether sufficient surplus water will be available, and secondly, because if it can be shown that the City can handle the preliminary development of 2700 h.p. profitably, the success of the scheme is assured and any improvements of generated power would, when sold, tend always to reduce the average cost of production, the result being either an increase in the city's profits or a reduction in cost to the consumer.

An estimate for full capacity would also require an allowance for further extension of the distribution system, and this cannot be estimated upon at present with any degree of accuracy. If the city sold power at cost, the additional investment for extension would be covered by an additional loan. If the city sold power at a reasonable margin above cost, extensions could be made as required and the cost defrayed out of the revenue.

In the meantime, the estimates submitted indicate that the annual charges incident to the development and sale of 2700 h.p. can be covered by selling power at a very reasonable price. This being the case, the continued success of the scheme would seem to be inevitable, and all consideration as to the cost of power when the ultimate capacity of the site has been reached can safely be left over until market requirements make such consideration necessary. The present conclusion is that the Otonabee site at Dams Nos. 4 and 5 is best suited for the city's purposes, and that the city could well afford to pay $215,000 for the Otonabee Power Company's complete system and develop the site at Dams Nos. 4 and 5, providing market of 2500 h.p. is in sight.

No information is at hand concerning the business being done at present by the Otonabee Power Company but it is reported that their gross yearly earnings are in the neighborhood of $30,000, this being derived from a load of 1250 h.p. on the peak. If the city can hold this business while developing a market for the balance of the power, it will go a long way towards obviating the possibility of a deficit in the first year's operation.

Respectfully submitted,

P. W. SOTHERN,
Chief Engineer.

Note.

The figures for the power development in the attached estimate include the whole cost of the head-race core-wall and embankment, and the necessary excavation, but if this channel is to be used in the future for navigation purposes, the canal authorities might reasonably be asked to stand at least a portion of the cost of this part of the work, which amount to $43,000.

Estimate of capital investment necessary to buy out the Otonabee Power Company and to generate, transmit and distribute 2700 h.p. in the City of Peterborough.

Power Development.

Dredging, Excavating, Unwatering, etc.	$30,950	
Concrete	31,400	
Brickwork	2,100	
Embankment Protection	4,000	
Steel and Iron	6,000	
Wood Work	1,180

WEALTHY MEXICAN GIRL LEADER OF REBEL TROOPS

SENORITA NERI, A MODERN JOAN ARC, LEADS A BAND OF INSURECTOS.

In Their Struggle Against the Diaz Government—Makes a Good Leader for the Rebels.

Mexico City, April 15.—(Special)—The leader of the large band of revolutionists now operating in the State of Guerrero, is a girl, Senorita Dona Margariti Neri, daughter of a man who once was a general in the Mexican army, General Canuto Neri, but who, forsaking his country's cause, took up arms against the Diaz government. The girl is wealthy, her father having safely hidden his wealth in French securities before stating the revolt which ended in his death about twelve years ago.

"La Neri," as she is affectionately called by her band of about seven hundred followers, inherits the repolutionary instincts of her father, who at his death left her in a convent in Chilpancingo. She was then six years of age, and the term of her "imprisonment" as she called it, in the convent was twelve years. This term she finished six months ago and came out possessed of some 500,000 pesos in cash and a large amount of bonds and other securities in the Bank of Paris.

LEADS A TROOP.

With her money she equipped a force of seven hundred men, who selected her as their leader as soon as she manifested a desire to take the field. Fresh from the convent, she learned to ride like an amazon and shoot fairly well. All her men are equipped with American rifles and revolvers, with interchangable cartridges, and all wear short sabres, in contradistinction to the long swords of the Mexican cavalry.

The girl and her band have been in several hard fights with the Mexican troops. She leads the fight in person, showing rare bravery on the field. She has never been wounded, and to the superstitious Indians of the region, seems to bear a charmed life.

La Neri, although beautiful in features, is of a pronounced Indian type her mother having been a Guerrero Indian, and her father a descendant of one of the early Spanish settlers in Mexico. She speaks English and French as fluently as she does Spanish, and has some knowledge of the ancient tongue of the aborigines of Guerrero.

IF I WERE MAYOR
What I Would Do

Under the above caption The Times invites correspondence. The letters will appear in the Saturday edition only and must deal with local matters, and not political questions. In this way suggestions in regard to local affairs will be in order, and we are sure will be taken in good part by Mayor Morrow and the members of his Council.

THE DEATH GUARD OVER ED. JARDINE

Goderich, April 15.—Ed. Jardine, who has been sentenced to hang on June 16th for the murder of Lizzie Anderson, was reported this morning to have passed a good night, having slept very well. The death guard has been placed on him, and a watch is also kept on George Vanstone, who was sentenced to life imprisonment for beating his son to death. The latter is said to have passed a very restless night.

Jardine is the most remarkable prisoner that the officers of the Crown in this part of the province have ever had to deal with. During the whole trial he has maintained a solid indifference that has puzzled even his counsel, and during the last hour, when his life was in the hands of the jurors, his attitude was unchanged. During the luncheon hour a reporter had a short conversation with the prisoner, but although his future was to be decided in a few minutes, he smiled and talked with his usual careless demeanor. The reporter attended the Ward School here with the prisoner many years ago, and the prisoner seemed more than willing to discuss his case, until the constable intervened.

For soreness of the muscles whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all dealers.

DEMOCRATIC HOUSE BEGINS ITS FORMAL CONSIDERATION OF RECIPROCITY PACT

CANADA PRODUCES 82 PER CENT. OF WORLD'S ASBESTOS SUPPLY

Ottawa, April 15.—The Department of Mines has just issued an excellent report on Canada's asbestos industry

Canada produces 82 per cent. of the world's supply of asbestos. The companies operating asbestos quarries and factories in the Dominion are capitalized at $24,280,000. In 1880 only 300 tons of asbestos were produced, valued at $24,700; whereas in 1909, the production amounted to 63,300 tons, valued at $2,300,000. In 1909, 3,000 men were employed in the asbestos industry and received wages amounting to $1,250,000.

These facts and much valuable technical information of practical value to the general public are contained in the report.

To give an idea of the enormous reserves in some of the asbestos deposits the report mentions the case of one, the Black Lake quarries, Quebec, where there are some 45,000,000 tons of asbestos rock in sight.

The author goes fully into the discussion of foreign asbestos occurrences and considers Russia the only real rival as regards extent of asbestos resources.

EIGHT MET DEATH IN RED HOT STREAM OF METAL AT STEEL PLANT

Special to The Times.

Philadelphia, April 15.—Eight workmen were fatally injured and a dozen others were badly scalded by the bursting of a large crucible containing molten steel at the Midvale steel works here this afternoon.

Philadelphia, April 15.—Eight men were injured in an accident in the Midvale Steel Co. plant here this afternoon. The physicians attending them at the Germantown Hospital, where they were taken, say they have not one instance in a thousand to live. The other twelve workmen, though seriously burned, are expected to recover.

The accident occurred while more than a score of men were guiding with their long tongs a big crucible containing several tons of the firy steel along a travelling crane. It burst without warning, and the hot fluid poured over some of the nearest men and spashed over all the others. Wherever it struck it stuck like glue.

The sight of the men was sickening to the physicians and nurses. Several of the victims were burned from head to foot, and flesh peeled off their bodies as the physicians attempted to remove their clothing.

The Midvale Steel Co., following its custom, declined to make a statement regarding the accident.

ARRANGING FOR PAY OF THE CENSUS COMMISSIONERS

Ottawa, April 15.—The schedule of rates and allowances for census commissioners and enumerators was proclaimed to-day. Each commissioner will receive payment at the rate of one cent per name for each person enumerated, but he will also be given a special allowance from $750 to $900 in the case of the organized provinces and of $1,800 in that of Yukon.

Enumerators, will be allowed five cents for the name of each living person, ten cents for each dead person, 15 cents for each farm, 25 cents for each factory, 20 cents for each church or school, and so forth, with a living allowance of two dollars a day while being instructed by the commissioners.

REPRESENTATIVE KITCHEN, OF NORTH CAROLINA, OPENED THE "GENERAL DEBATE"

In a Ringing Speech Upon Democracy Principles—An Attack Was Made on President Taft.

Washington, April 15.—The new Democratic House to-day began its formal consideration of President Taft's Canadian reciprocity agreement, with the certainty of enacting it into law.

Representative Kitchen, of North Carolina, opened the "general debate" on the measure in a ringing speech upon Democracy principles.

"A united Democracy gives thanks and gratitude to the President for granting us the extra session, and thereby the opportunity to quicken the fulfilment of our pledges made to the people," said Kitchen. "How well and how faithfully we have embraced the opportunities so far, the proceedings of the last ten days will show. I will match these achievements of the last ten days against any Republican Congress in the last decade.

"These Republicans used to make a great deal of noise over their 'constructive statesmanship,'" said Kitchen. "It was as a matter of fact, destructive statesmanship. Every act they have enacted ought to be destroyed."

"Why," he continued, "at the present time no leader on the Republican side dares speak a word of commendation of the President of the United States. That high priest of protection, the gentleman from Pennsylvania (Dalzell), in his report on the reciprocity bill, denounces his own President for 'turning traitor' to **Republican principles** and adopting Democratic ones.

"It was a desperate necessity of a discredited Administration that has sent the President to the Democratic party on his knees, begging and loving us to plead that we put through this House a Democratic doctrine.

"We will stand by the President. We Democrats always stand by a Republican President when he is right You Republicans stand by a Republican President when he is wrong."

Kitchen has the reputation of being one of the best orators in Congress. Standing to-day in the centre aisle, and walking forward nearly to the speaker's rostrum, when he hurled an anathema at the Republicans, he satisfied his audience and frequently had to pause to await the subsiding of thunderous applause from his colleagues.

A STATEMENT CHALLENGED.

Mr. Kitchen said President Taft had called two extra sessions; the first to enact the "iniquitous Payne-Aldrich Tariff Act," and the second to give the Democrats a chance to undo it.

His speech was interrupted by a demand from Rep. Lafollette, of Washington, a new Republican member, to know if the difference in the price of wheat on the two sides of the Canadian border was not evidence of the value of a wheat duty to the American farmer.

Mr. Kitchen replied that inquiry of the tariff board showed that such difference did not exist.

Mr. Kitchen said the price of wheat was fixed in Liverpool by the world's supply and that the difference between American and Canadian prices did not exist.

Northwestern Republican members immediately challenged this statement. Rep. Davis, of Minnesota, offered to produce figures to how that for ten years a difference of ten to fifteen cents a bushel in spring wheat had existed on the two sides of the line, but Mr. Kitchen declined to let the statement be read during his speech.

Kitchen occupied three hours. He ended his speech in an earnest appeal for united democratic support on the agreement.

Easter cards and novelties at greatly reduced prices to-day in order to clear out the stock. Times' Book Store.

A LIFE SENTENCE FOR VANSTONE

Goderich, April 15.—George Vanstone was last night found guilty of manslaughter in connection with the death of his son, whom he beat to death with a stick because he was either slow or obstinate in making figures on his slate when his father was seeking to instruct him.

He was sentenced by Mr. Justice Falconbridge to life imprisonment. The prisoner's wife hurst into tears when she heard the sentence. The trial lasted less than four hours, the defense being insanity. The lawyers of the prosecution and defence left the address to the jury in the hands of the judge.

LIST OF GEORGES WHO HAVE SUBSCRIBED.

Forty-One Georges of Peterborough Have Responded.

We publish below the names of the Georges who have already subscribed to the coronation gift to His Majesty King George. There must be several hundred Georges in this city and neighbyhood yet to be heard from. The list to date is as follows:

George Walford Hatton, David George Hatton, George J. Eaton Hatton, George Stewart Cameron, George W. Bennett, George W. Austen, George H. Howson, George W. Lundy, George J. Sherry, George Maitland, George Mather, W. George Morrow, Master George A. Stevens, George Richardson, George Denison, Dunsford, George W. Johnston, George Cocks, George R. Coleman, George Ball, George Telford, George Donald West Cameron, George Brick, George G. Gladman, R. George Langford, George Eason, George Albert Smith, George E. Clarke, George Young, George William Allison, George Hales, George Alfred Spicer, George Moore, George Henry Butler, George H. May, George C. Lewis, George Dryland, George McClean Metge, George Browne, George Byers, George S. Green, George Peters.

THE POWER QUESTION.

The Times Will Republish the Engineer's Report.

The Times has been requested to republish the report of Chief Engineer Stothmon, and the same will appear to-morrow. The edition on Saturday last, although very large, was entirely inadequate to supply the demands for the paper, on account of the Government report regarding power appearing therein.

FATHER, SON AND TWO FRIENDS WERE DROWNED IN CESSPOOL

Corona, L.I., April 15.—Father, son and two friends were drowned in a cesspool here to-day. The son, an Italian laborer, in trying to clean the pool was suffocated by gases, and sank into six feet of water at the bottom. The father, in grappling for him, while he was still struggling, was also overcome and pitched forward into the pool. Two other laborers who attempted to rescue the first two were similarly dazed and drowned. Firemen dragged out the bodies.

MAN FOUND WANDERING ABOUT STREETS HAD $200,000 IN POCKET

Cleveland, O., April 15.—An elderly man found by the police last night while wandering about the streets, with $200,000 worth of securities and valuable jewelry in his possession, to-day was identified as Dr. Halzy J. Howe, a retired dentist of Dunkirk, N.Y.

Dr. Howe, until to-day imagined that he was an Pittsburg, Pa. He told the police that when found last night, he was hunting for the home of a friend on high street of that city.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

THE TIMES LEADS.

Editor Morning Times.

Sir,—The Times is the best paper in Peterborough and I believe in this district. It is fearless and enterprising If it hadn't been for The Times, a certain Rev. Father might now be riding us like a hobby-horse, and your reports of the meetings of the City Council are complete and thoroughly intelligible. Your publication of the power report read to the exclusive Citizens Committee was a masterpiece.

One Who Knows.

PHOENIX PARK MURDER.

Editor Morning Times.

Sir,—Please let me know how many people were executed and imprisoned for the murder of Lord Cavendish and Secretary Burk in Phoenix Park, Dublin?

D. S.

Reply—Joseph Brady (the actual murderer) was executed May 14, 1883; Daniel Curley, May 18; Michael Fagan, May 28; Thomas Caffrey, June 2, and Timothy Kelly, June 9, 1883. James Carey, the informer, was shot dead by Patrick O'Donnell on board the Melrose Castle, near Port Elizabeth, South Africa, July 9, 1883.—Ed. Times.

PUBLIC DRINKING CUPS.

Editor Morning Times.

Sir,—I notice by the report of the Medical Heath Officer of the city of Toronto, that public drinking cups are to be abolished in the public schools of the city, as well as throughout the parks. The Medical Health Officer says "Inasmuch as human saliva and expectoration are the principal media through which the germs of such diseases as tuberculosis, diphtheria and scarlet fever and other communicable diseases are spread, it must be apparent that the public drinking cup or glass is a frequent source of the aforesaid diseases. Its use is consequently prejudicial to public health and it therefore becomes my duty under the Public Health Act to ask your Board to see that the aforesaid public drinking-cup or glass be removed from the schools under your jurisdiction, and sanitary fountains or sanitary drinking cups substituted therefor at your earliest possible convenience."

This will apply with equal force to Peterborough and I earnestly hope that our own Medical Health Officer will take a similar stand. I believe that sanitary cups can be purchased in quantities for a fraction of a one cent each.

Thanking you, Mr. Editor, for your valuable space.

An Anxious Parent.

TARGET SHOOTING CONTEST.

Good Scores Made on Yeates Bros. Targets Last Week in Both Professional and Amateur Contests.

At the shooting contest held in Yeates Bros. shooting gallery last week resulted in some high scores being made. In the professional contest Miller nosed out Gill for the box of Tuckett's Specials, with a score of 50. The following are the scores:

Professional

A. C. Miller	50
W. Gill	50
I. Eastwood	58
T. J. Parker	58
E. Davis	58
J. Gillespie	57

Amatuer

In the amatuer contest C. Sullivan captured the first prize, H. Hamand taking the second. The following are the scores:

C. Sullivan	56
H. Hamand	55
J. Reynolds	54
J. W. Stewart	54
J. McRare	54
P. Robson	54
W. Merritt	54
J. Rose	54
A. Rose	54
F. S. Roy	54
R. Weir	54
S. Carpenter	54
A. Chapman	54

More interest is being taken every week in these contests, and the prizes are well worth going after. The enterprising proprietors have installed a new feature in connection with the gallery, of birds and animals and the boys are taking to them in good shape. Three more good prizes will be put up next week.

LOCAL PHYSICIAN HAS SMALLPOX

It Is Only a Very Mild Form, However.

One of our local physicians who has had charge of a smallpox patient has been smitten with the disease, and has been removed to the smallpox tent.

While only in its incipient stages, it is thought that the doctor will not become seriously ill, as the disease is of a very mild type.

There is no danger of it spreading, as complete isolation has been provided for. There is, however, a considerable number of smallpox cases scattered throughout the province, and the utmost care is necessary on the part of the public health authorities to prevent an epidemic.

HOLY WEEK SAME AS CRUCIFIXION

Remarkable Coincidence In Time of Month on Which Easter Falls.

It is noted as an interesting coincidence that Holy Week this year fell exactly in the same place in the calendar as at the time of Christ's crucifixion.

Good Friday, was the 14th of April, which is equivalent to the sixteenth day of Nissam, according to Hebrew rite. The New Testament states, however, that it was on the fifteenth day of Nissam, or April 13 of our era, that Christ was crucified and that the date fell on Friday.

The coincidence here noted, is not that Good Friday falls exactly on the anniversary of Christ's death, but that Holy Week this year corresponds with the week prior to the crucifixion of the Saviour. This is a coincidence which has rarely taken place during nineteen hundred years.

EASTER SERVICES.

In All Churches Were of a Special Nature.

The services in all the city churches were of a specially bright and joyful nature in commemoration of the first Easter in the Christian era.

In St. John's church all the services were largely attended. The service at night was partially choral, and the choir's work under Mr. R. J. Dewey's capable leadership was very acceptable indeed. At the 11 a.m. service, Rev. Chas. Carpenter dedicated a handsome pulpit Bible in commemoration of Rev. Canon Davidson's ordination.

At St. Luke's church last evening, Rev. Dr. Langfeldt preached his farewell sermon.

At All Saints' church, the Wardens distributed a statement of the Building Fund account in connection with the new sacred edifice. This statement is one that the Rector, Wardens and congregation may well feel proud of, inasmuch as it evidences an unusual degree of free-will offering of both time and sums on the part of the clergy, executive and laity to the commendable work they undertook and consummated in erecting a new sacred building adequate to the parish's needs.

ELEVEN THOUSAND CANADIAN EXCURSIONISTS IN OLD GOTHAM

New York, April 15.—It is estimated that eight thousand excursionists from Ontario and Quebec are to-day in New York seeing the Great White Way and preparing to participate in to-morrow's grand parade on Fifth avenue.

Upwards of two thousand have arrived here from Toronto alone, including eight hundred school teachers and their friends. Over four hundred in one train load arrived on Good Friday from Ottawa, and between two and three thousand residents of Montreal took advantage of the ten-day excursion rate from that city to New York and Boston, most of them heading for Manhattan Island. Numbers are still arriving from Hamilton London, Brantford and Quebec, not to mention the regular Easter exodus from the Maritime Provinces to Boston and the excursions from Winnipeg to Minneapolis and Chicago, and from Victoria and Vancouver to Seattle. There will be in the United States for Easter not fewer than 20,000 Canadians—an army as large as President Taft recently rushed to the Mexican frontier.

Estimating eight thousand excursionists from Ontario and Quebec to New York, their expenditures here will amount to probably $600,000. Last year some Canadian merchants made an outcry against the excursion habit and urged the customs authorities most vigorously to examine the baggage of all returned excursionists. The large stock of the New York shops prove an irresistable magnet to many women, who reserve their shopping for this annual trip. Railroad men say the excursions this year are larger than last.

OBITUARY

Death of Miss Alice Neil.

A young life was terminated with awful suddenness yesterday afternoon about 4.30 o'clock, when Miss Alice, daughter of the late Mr. Harry Neil, 333 Burnham street, East City, passed away. The deceased was 17 years of age, and had been in poor health since the beginning of the year. The funeral notice will be given later.

The Late Arthur Smith.

Mr. Arthur Smith, of 215 Dublin street, passed away at his residence on Friday last, after a short illness, aged 67 years. For twenty years or more the deceased had been a faithful employee of B. F. Ackerman & Sons.

Mr. Smith was highly esteemed by all who had the pleasure of his acquaintance, by whom he will be greatly missed.

He leaves to mourn his demise, a sorrowing wife, two sons and four daughters. The sons are Elmer and Norman, of California, and the daughters are Mrs. Chas. Dickson, Toronto; Mrs. Jos. Reynolds, city, and Misses Minnie and Phemie, at home. One brother, J. R. Smith, resides at Port Hope.

The funeral will be held this Monday afternoon at 2.30 p.m., from the family residence to Little Lake cemetery. Rev. J. C. Davidson will conduct the service.

REV. DR. LANGFELDT HAS SAID FAREWELL

Large Congregations Hear His Last Discourse.

Rev. Dr. Langfeldt preached farewell sermons yesterday morning and evening, in St. Luke's church. The attendance was large and the sermons were eloquent and unusually impressive.

Rev. Dr. Langfeldt has been Rector of St. Luke's for ten years, coming to Peterborough from Omemee in 1901. A few weeks ago he resigned his charge here to become rector of the Parish of Innisfil, where he will begin his duties about the first of May.

During his residence in Peterborough, Dr. Langfeldt has made hosts of friends outside the members of his own congregation, who will wish him God-speed in his new home.

MONDAY, APRIL 17, 1911.

THE SERVICE OF MONEY.

Because of the fact that Mr. John D. Rockefeller gave the money to establish the Rockefeller Institute for the investigation of the cause of disease there seems to be a disposition to bracket his name as one of the world's great benefactors with the names of Pasteur and Reed, and Flexner and those unnamed heroes who in the battle against disease, by daring experiment and unflinching sacrifice, have given their lives to the cause of the science and for the benefit of humanity.

It was ten years ago that the four year old grandson of Mr. Rockefeller, John Rockefeller McCormick, died of spinal meningitis, in spite of all that money and the best medical science could do for him. It was sorrow over the loss of this child that led Mr. Rockefeller to determine that if other children could be saved from the fate that had overtaken his grandson he would do what he could. And so he founded the Rockefeller Institute which, under the charge of Dr. Flexner and an able corps of assistants has been waging a scientific war to prevent disease.

In the Rockefeller Institute the scientists have been able to produce a specific curative serum for spinal meningitis which has done much to remove the dread of this frightful disease, though the recent death in New York of two young physicians who were fighting this disease among the immigrants, shows that there is still much to learn. Still, it must be admitted that the great progress has been made in preventative medicine and it is due largely to the work of modern science that such diseases as smallpox, tuberculosis, diptheria, yellow fever and the like have been robbed of half their terror.

To do this work money was needed and this has been furnished, in part, by Mr. John D. Rockefeller. For that much, at least, he deserves the credit, though the amount necessary was so small in proportion to the oil-king's gigantic fortune and income as to make the gift and the good accomplished to the world seem ridiculously unproportionate. Certainly no one can justly classify the money benefactions from the surplussage of the multi-millionaire with the whole-souled devotion and ardent self-sacrifice of men who have devoted their science and their lives—all that they have to give—to the cause of humanity.

LATEST FROM APSLEY.

Grist of Interesting News From Our Northern Village.

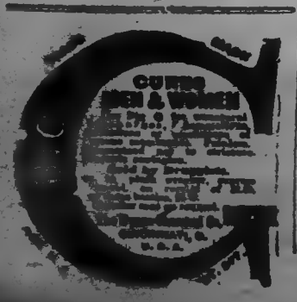
Winter is dying hard. There was a slight thunderstorm on Thursday, the 6th, but not much rain. The nights are cold yet, though the snow is disappearing in the vicinity of Apsley, and it is mostly wheeled rigs that come through from the south, but up north there is good sleighing yet. Robins were in evidence the past week and as they have got this far north, spring can't be far off.

Police Court.

There was only one case in the court held in the town hall here on Tuesday, April 4th. The charge against the defendant was unlawfully removing lumber from off a stable on the Jack's Lake road. After hearing the evidence of both parties and the witnesses, which was very amusing, to the boys, as defendant swore he took away something more than lumber, but not intending or wishing to do so. The P.M. very sensibly dismissed the case, each to pay their own costs.

Another Dance.

The boys are bound to have a good time before leaving the drives. They had a splendid time at Mr. Zack Tucker's on Friday night, 7th inst., when about 35 couples gathered, and with dancing, oysters, games, etc., kept it up until almost daylight. Zack knows how to give the boys a good time, and they had the time of their lives. It's not so long since he was one of them.



West Ends Play Oshawa.

The Toronto West End Y.M.C.A. basket ball team, which holds the Junior Championship and who defeated Peterborough Intermediates here on Friday night by a score of 37—21, went to Oshawa on the 11.45 G.T.R. Saturday, where they played the Oshawa Y.M.C.A. team there and returned to Toronto.

Many local Englishmen have taken steps to organize a St. George's Society in the city, and will attend service at St. John's church, Sunday evening, April 23. The lecture will be given by Rev. Chas. Carpenter, and the Englishmen of the city are invited. A banquet will be held this evening at Coleman's and the organization of the society will be discussed.

AUCTION SALE.

Garfield Coones, having decided to give up farming and remove either to the North Shore or Cobalt, had a sale of household goods and personal effects. Everything was disposed of and brought good prices. He retained his gramophone and his rifle, intending to take them with him, and if the natives up there don't, or won't appreciate good music, he says he will be better dead. We will miss big Garry's smiling countenance and what will the boys do without him and his violin at future dances?

LADIES AID MEETING.

The regular meeting of the Ladies' Aid Society was held at the home of Mrs. Wm. Masters, Apsley, Thursday, the 6th inst. On account of the rain and bad roads and some of the members being ill, the atteadance was not very large. Those who were present suggested that in future it would be advisable to hold their meetings in the town hall, which would be a more central place.

PERSONAL NOTES.

Mrs. Esau Tucker has been ill for some weeks from a severe attack of grip, but we are pleased to state she is recovering and expects to be out soon.

Mrs. Thos. Stephens was taken suddenly ill last week, at first the doctor was afraid it might be appendicitis, but is at present out of danger.

Miss Ida Tucker was visiting friends in Apsley last week.

Miss Marion McPherson, of Clydesdale, left for Port Arthur Saturday to commence her duties there as teacher.

Mrs. Holbrook has removed from her farm in Anstruther and now resides in Burleigh, the family will be missed on the East road.

APSLEY CHEESE FACTORY.

The patrons of the Apsley Cheese Factory had a meeting in the town hall Saturday for the transaction of business. The milk routes were let and the whey disposed of, so now its up to the patrons to send along their milk next month and lots of it, and for Norman to make good cheese. Keep up the factories if possible. There was something like $20,000 brought into Burleigh, Anstruther and Chandos in 1909 from the sale of cheese. Would it pay to let the factories go out of business? Not much.

APSLEY TELEPHONE CO.

The Apsley Telephone Co. is prospering. New lines are going to be built this summer—north, north-east and east, in all about 20 miles. The poles are on the ground and the work of putting them up and wiring will be pushed forward early in the spring. Many, when the line was first spoken of, thought and said it was a political dream—It's no dream now, and where the line is at present in operation nearly everyone along the road have phones in their houses and find it of great benefit, especially when there was so much sickness this winter, as it saved many a cold trip to consult the doctor.

ANOTHER DANCE.

On with the dance, let joy be unconfined. And still another dance on Monday night at the home of Wm. Earnshaw, Burleigh. This may be the last for some time, as most of the boys leave for camps and drives on Tuesday.

DEAD MAN'S BODY FOUND IN FIELD

WAS THAT OF ITALIAN WHO DISAPPEARED FROM DEPOT HARBOR IN NOVEMBER

Parry Sound, Ont., April 14.—Mr. John Hunt, of McDougall, last evening reported the finding by him of the body of a man in a field a short distance from the C.P.R., about four miles from here, on the farm of Mr. George Hunt. From a bank book in the pocket of the deceased it was ascertained that the dead man was an Italian named Kuiseppa Longrettie, who disappeared from Depot Harbor about the 18th of November last.

As there are some suspicious circumstances about the matter an inquest is to be held. Deceased was about 26 or 28 years of age and has a wife and child in Italy.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except of prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Sold by Druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from loaf sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. For sale by all dealers.

CURES CATARRH

Rich, Pure Essences are Breathed Right to the Spots That Are Sick. Cure Follows.

Stomach dosing was found ineffective, and the principle of inhalation was finally perfected. Even the Romans and the Ancient Greeks used it, but not in the scientific manner that the physicians prescribes to-day. The most wonderful results have been secured with a new treatment known as "Catarrhozone," which sends germ destroying vapors directly into the air passages of the nose, throat, bronchial tubes, and lungs.

Catarrhozone proves especially good in those chronic cases where mucus drops down the throat, sickens the stomach, and pollutes the breath. When the nostrils are stuffed, only a few breaths through the inhaler are needed to clear the passages, and where there is coughing and sore bronchial tubes, the soothing, healing properties of Catarrhozone act almost as magic.

Once you stop taking medicine into the stomach and get the healing oils and pure balsams of Catarrhozone at work you can be sure of quick and lasting cure for nose colds, catarrh, weak lungs, bronchitis and speaker's sore throat.

CATARRHOZONE.

Beware of imitations. Three sizes, 25c. 50c and $1, the latter being guaranteed. Sold by all dealers in medicine, or by mail from the Catarrhozone Co., Kingston, Ont.

Carrie Nation Very Low.

Leavenaworth, Kas., April 12.—Mrs. Carrie Nation, the temperance worker, whose death was reported late yesterday after she suffered a sharp relapse, rallied slightly early to-day. He death had been expected in two former sinking spells.

DEPARTMENT OF RAILWAYS AND CANALS.

Ontario—St. Lawrence Canals. Galops Canal.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Improving Upper Entrance to Lock, No. 28," will be received at this office until 16 o'clock on Friday, April 15th.

Plans, specification and Form of Contract to be entered into can be seen on and after March 18th, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of Tender may be obtained.

Parties tendering will be required to accept the fair wages Schedule prepared or to be prepared by the Department of Labour, which Schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $6,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.
Department of Railways and Canals, Ottawa, March 21st, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Library Voting Contest

TWO HANDSOME LIBRARIES OF 80 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 80 volumes and handsome sectional bookcases will be given by votes to the lodge, church, society, school or other organization in the City of Peterborough, and one library of 80 volumes to the schools, lodge society, church or organization in the County of Peterborough, outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, Sept. 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the E. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough, and the County of Peterborough, outside of Peterborough, having the largest number of votes will be awarded the libraries,

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily, and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be secured:—

Style Store for Men

WORK ON MAINE IS NOW RUSHED

Havana, April 15.—In the driving of the last few interlocking steel piles of the last of the twenty caissons forming the inclosing wall of the huge basin or cofferdam surrounding the wreck of the Maine, the first stage in the great work of exposing and ultimately removing the shattered remains of the battle ship sunk in the harbor of Havana on the night of Feb. 15, 1898, has just been brought to a successful conclusion.

The work was accomplished with a rapidity fully up to the most sanguine expectation of the army engineers in charge, and its progress was unmarked by a single mishap or hitch until the introduction of the final pile, which failed to interlock properly with those on either side.

This gave rise to a rumor that the stability of the caisson was endangered, but examination showed that the trouble resulted from the pile being slightly deformed by an accidental blow from the iron bucket of a dredge working alongside and the extraction and replacing of three piles served to repair the damage.

The second stage of the work, that of filling the caissons as fast as they were completed with mud, clay and rock dredged from the harbor bottom, has been going on for some time as fast as circumstances would permit, and now that the ring of the caissons is completed is being pushed forward with the utmost rapidity. The steam dredge Norman Davis, loaned to the government by the Hudson-Trumble Dredging Company, and the United States army dredge Barnard are dumping hundreds of tons of material into the caissons.

It is expected that the filling of the caissons will be completed by the end of April, and after that the third and most interesting stage of the work—that of pumping out the great basin and leaving exposed the hull of the battle ship in precisely the condition she was on the morning after her destruction thirteen years ago—will be proceeded with. When the ship is exposed it is believed that experts can determine beyond question what caused the wreck. It is also expected that the remains of some of the dead will be recovered. The entire task may take the rest of the year.

Children's Chest Troubles

Nurse Carrington Says Her Long Experience Proves the Safest Remedy is to

RUB ON NERVILINE!

Every mother knows how difficult it is to get a young child to take a cough mixture. Seldom will one help unless given in large doses, and the result is to completely upset the stomach and make the child sick.

Speaking of the promptest cure for chest troubles and children's colds, Nurse Carrington says: "In all my experience in nursing I haven't met any preparation so dependable as Nerviline. It is the ideal liniment. Every drop you rub on is absorbed quickly sinks through the pores to the congested muscles, eases, relieves and cures quickly. Especially for chest colds, pain in the side, stiff neck, earache, toothache, I have found Nerviline invaluable. In treating the minor ills of children Nerviline has no equal. I think Nerviline should be in every home."

A million bottles of Nerviline used every year—this is itself a burden of proof that it is the ideal liniment for the home. Refuse anything your dealer may offer instead of Nerviline. Large bottles 25c, five for $1.00. Sold everywhere, and by The Catarrhozone Company, Kingston, Ont.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

For Sale.

Remington No. 6, in first class condition. Only $25. Box 1168.

Wanted.

Wanted—Four Telephone Operators. Apply The Bell Telephone Co., 192 Hunter-street.

Salesman Wanted.

to appoint County Managers for our $9.00 Vacuum Cleaner. Big money to hustlers. Exclusive territory and goods. Hawn Co., 820 West Warren, Detroit, Michigan.

To-Night's Vestry Meeting.

The vestry meeting of the three Anglican Churches will be held to-night at 8 o'clock. A congregational meeting will follow in each case, when lay delegates to the Synod will be appointed.

Spring Assizes To-morrow.

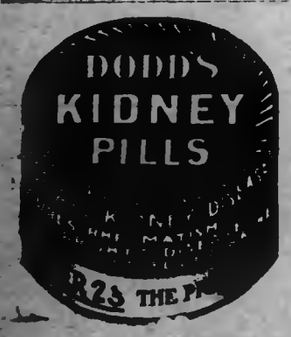
The Court of Assize will open to-morrow at the Court House in this city. There is only two cases on the docket, a civil and a criminal case. Delisle, who is accused of murdering his wife near Havelock will be placed on trial. Judge Teetzel, of Hamilton, will preside.

Will Injure Boat Business.

If the proposal to put on a line of auto buses between Peterborough, Chemong Park, Lakefield, Young's Point and Burleigh is carried out, it will injure the steamboat business this season to a considerable extent. It is expected that two or more trips per day will be made between the city and the above named points.

The By-law Meeting.

A meeting of the sub-committee to discuss the Independent Tire Co. by-law, will be held at the home of Dr. Morrison this evening at 8 o'clock. The residents of sub-division No. 14, West Ward, include those on Weller, Elm and Cedar streets, and all are asked to consider this invitation as a personal one, and attend the meeting.



The Work Begun.

The mammoth tent of the Peterborough Amusement Company was raised on Saturday on the vacant lot immediately south of the Customs Building. The carpenters are now at work putting in the seats and erecting the stage. It is expected that the opening will take place about the first of May.

Eclipses of the Sun.

There will be two eclipses of the sun this year. The first will occur on April 28th. It will be visible in both Canada and the United States. It will start at 5.30 o'clock p.m. and will just last an hour. The second eclipse will fall on October 12th, but will not be visible in Canada.

The Visiting Band.

The S.A. Band of Hamilton, who gave a delightful concert in the Armouries on Friday evening, played a number of selections on the Market Square on Saturday, assisted by the members of the local S. A. Band. They were listened to by a large number of people, both visitors and citizens.

At the Police Court.

A number of drunks faced Magistrate Dumble on Saturday, and were fined $2.00 up to $10.00. A blacklister whacked up a ten dollar note in order to get his freedom. Judgment was reserved on the Mehaffy case until Saturday.

Junior Reporter Wanted.

We have an opening for a bright young man, with a good education, to learn journalism. Apply at The Times' Business Office.

Rev. Dr. Langfeldt to Lecture.

Rev. Dr. Langfeldt will deliver a lecture this evening in St. Paul's church on Martin Luther. This will probably be the last opportunity the public of Peterborough will have of hearing the Doctor, as he leaves in a few days for his new home at Innisfel. There should, therefore, be a large turnout.

East Ward Ratepayers.

All the electors of the East Ward are asked to be at the committee rooms to-night and every night this week, if possible, to assist in getting out the vote in favor of the Independent Tire Company by-law. It is important that there should be a large attendance during the week in order that the organization may be completed, and every obstacle in the way of getting every vote possible, removed.

Saturday's Market.

Saturday's market was the largest of the season. The following prices prevailed:

Pork, 11c and 12c.
Veal, 8c to 10c.
Turkeys, 20c lb.
Chickens, 80c each.
Potatoes, $1 bag.
Maple Syrup, 40c quart.
Live Pigs, $6 pair.
Butter, 25c lb.
Eggs, 16c dozen.
Baled Hay, $14 ton.
Hay, in bulk, $14 ton.
Apples, 40c and 50c peck.

A Dangerous Sign.

Yesterday afternoon a sign extending from a steel rod attached to a telegraph pole at the corner of Brock and George streets, became detached at one end and was tossed about at a furious rate by the heavy winds, and pehestrians passing were in eminent danger of being seriously injured if not killed. The sign above referred to belongs to the proprietor of the Brock street Roller Rink.

LITTLE LOCAL LINES

The passenger traffic for Easter has been unusually heavy this year.

Last year navigation began on April 9th. This year the lakes are still ice bound.

The Times will republish to-morrow the report of the Government Engineer on the power question.

The band of the 57th Regiment, under the direction of Mr. Gliddon will give another of its popular concerts at the Armouries on the evening of Friday, April 21st.

Mr. W. J. Miller, Scoutmaster, addressed No. 3 Troop of Boy Scouts on Saturday evening in the Armouries The subject of the address was "First Aid."

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mr. Jack Collins is spending Easter in Kinmount.

Mr. Harold Davies went to Ottawa for the holidays.

READ EVERY WORD OF THIS

It Will Be Money In Your Pocket To Do So

Everyone is anxious to make money. Everyone has an ambition to get rich. Some men DO get rich. Others remain poor. The difference is simply a difference of methods. Nearly all of us save some money, but we do not let these savings earn anything for us. THE MAN WHO SAVES HIS MONEY AND LETS THE SAVINGS EARN SOMETHING FOR HIM is making it do double duty. Take the history of all the very wealthy men of the country and learn how many of them made their fortunes by simply saving what they earned. Not one of them did. They saved but they immediately put their savings to work for them. YOU WANT TO GET TO THE TOP OF THE LADDER, YOU WANT TO ACCUMULATE SOMETHING FOR YOUR OLD AGE. THEN YOU HAD BETTER PUT YOUR SAVINGS TO WORK AND LET THEM HELP YOU DO IT.

In almost any ordinary investment a man cannot make his money earn over 8 per cent. Mining offers you greater opportunities. I am going to offer you an opportunity that has promise ocerning for you 800 per cent or even more. I want to take you into partnership with me, in an enterprise that will probably make us all independent for the balance of our lives. YOU MUST TAKE ADVANTAGE OF THIS OFFERING. The Gold Queen Mining Company, of which I am president, has over 135 acres of rich mineral ground in one of the most prosperous mining districts of the world. We have already expended thousands of dollars in developing this property and we have struck ore that is very rich. We need a mill to extract the precious metal from this ore. We need a little help in building this mill. Are you willing to subscribe a portion of the amount necessary to do it? In numbers there is strength, and even though your subscription be a very small one, we are willing to give you a part ownership in this great enterprise, in return for it. We are willing to take you in on an equal basis with us and give you the benefit of all your savings may earn for you. The men behind this proposition are all successful business men. They are in this business to make it pay and for every dollar they earn for themselves they will earn one for you. REMEMBER: THIS IS NOT A PROSPECT—IT IS A MINE WITH ORE IN IT. But a small amount of money is necessary to build our mill. We have decided to offer only a very limited number of shares at the present price, and as soon as this amount is secured the price will be advanced to a much greater figure. NOW IS THE TIME FOR YOU TO ACT. YOU ARE GETTING IN WITH THE ORGANIZERS OF THE COMPANY AT GROUND FLOOR PRICES. YOU ARE COMING INTO A BONA FIDE PARTNERSHIP WITH US AND WITH NO PARTNERSHIP RESPONSIBILITIES. Read what Mr. Van Wagenen, one of the foremost mining engineers of the country has to say: "I would advise the immediate erection of a ten-stamp mill with cyanide equipment, to treat your gold ores, and a separate concentrating plant to handle your copper pyrites, thus reducing the shipping weight 6 to 1, and eventually put in a smelter in connection with the mill, with a ten-stamp mill on your property and a daily production of 50 tons of ore. I CAN PROMISE YOU A NET EARNING OF $300.00 PER DAY or $109,500 per year and that can be increased to ten times as much as soon as tunnels A and B are finished, and added milling equipment is installed. The economical method is the best. Start with a ten-stamp mill and let your stockholders be content with 10 per cent per annum until you have increased your milling facilities, and install your smelting plant to treat your concentrates. THEN YOU CAN PAY THEM 400 TO 500 PER CENT DIVIDENDS PER YEAR FOR THE NEXT TEN YEARS ON THE PRESENT VALUATION OF YOUR STOCK, 5 CENTS PER SHARE, and this out of the new discovered vein alone." Now if you want to get in with us on this proposition you must act quickly, for the present allotment of shares will not last long. The man who buys now will get his shares at the very rock bottom price. The one who waits until later will without a doubt pay many times what it is being offered for now. Arrangements may be made to pay for your subscription on the easy payment plan. Write at once for full information and detailed literature explaining all about it. Write today. Do not wait another minute or you may be too late.

THE GOLD QUEEN MINING COMPANY,

Town and State .....

VANCOUVER, B. C.

We offer for sale $100,000.00 worth of stock of THE COLUMBIA PROPERTIES CORPORATION, LIMITED. This Company has been incorporated under the laws of the Province of British Columbia and its objects are to purchase good City lots and erect buildings thereon. It is the intention of the Company to confine itself to the erection of dwelling houses for the immediate future, as this line of building offers the largest returns. The operations of the Company are confined to safe, legitimate and profitable business It aims to fill the law of supply and demand. The demand for dwelling houses is far in excess of the supply. The population of Vancouver is increasing at an enormous rate and it is very difficult to procure houses or living quarters of any kind. In 1905 there were scarcely 60,000 people in Vancouver and today the population of Vancouver is about 150,000. The building permits for March, 1911, exceeded $2,500,000.00, surpassed by few cities on the North American continent.

The Los Angeles Investment Company, operating along similar lines, has earned 40 per cent. annual dividends for the last fifteen years. THE COLUMBIA PROPERTIES CORPORATION should also earn excellent dividends for its shareholders.

THE DIRECTORS are men of good standing in Vancouver and Western Canada and will carefully safeguard the interests of the shareholders.

The Company is capitalized at $250,000.00 in shares of $50.00 each. The above issue of $100,000.00 is being placed on the market at $55.00 per share; terms $10.00 per share payable on application and $10.00 per month. The shares are non-assessable. There is no personal liability. An issue of $100,000.00 is being placed on the market in Vancouver and a considerable amount has already been taken up.
